

University of Colorado **Boulder**

# 2019–20 University Catalog

Prepared by the  
Office of the Registrar

Published May 2019

# TABLE OF CONTENTS

About CU Boulder .....	13	Anthropology - Minor .....	86
About the Catalog .....	14	Applied Mathematics .....	87
Administration .....	14	Statistics and Data Science - Bachelor of Arts (BA) .....	94
Campus Map .....	15	Applied Mathematics - Minor .....	96
Research .....	15	Statistics - Minor .....	96
Undergraduate Catalog .....	17	Art and Art History .....	97
Academic Advising .....	17	Art History - Bachelor of Arts (BA) .....	115
Academic Calendar & Exams .....	17	Art Practices - Bachelor of Arts (BA) .....	117
Academic Integrity .....	19	Art Practices - Bachelor of Fine Arts (BFA) .....	118
Academic Records .....	19	Art History - Minor .....	120
Admissions .....	22	Art Practices - Minor .....	120
General Admission Information .....	22	Asian Languages and Civilizations .....	120
Admission Requirements .....	23	Arabic - Minor .....	132
Application Process .....	28	Chinese - Bachelor of Arts (BA) .....	132
Credit by Examination .....	30	Chinese - Minor .....	135
Transfer of College-Level Credit .....	39	Hindi/Urdu - Minor .....	135
Minimum Academic Preparation Standards .....	41	Japanese - Bachelor of Arts (BA) .....	136
Credits & Grading .....	41	Japanese - Minor .....	138
Financial Aid .....	43	Korean - Minor .....	139
Graduation .....	46	Middle Eastern and Islamic Studies - Certificate .....	139
New Student & Family Programs .....	47	South Asian Languages and Civilizations - Certificate .....	140
Registration & Enrollment .....	47	Asian Studies .....	141
Student Affairs .....	50	Asian Studies - Bachelor of Arts (BA) .....	142
Health & Wellness .....	50	Asian Studies - Minor .....	150
Housing .....	50	Astrophysical and Planetary Sciences .....	151
Student Conduct & Colorado Creed .....	52	Astronomy - Bachelor of Arts (BA) .....	155
Student Resources .....	53	Astronomy - Minor .....	159
Student Data Privacy .....	53	Atmospheric and Oceanic Sciences .....	159
Student Finances .....	54	Atmospheric and Oceanic Sciences - Bachelor of Arts (BA) .....	163
Tuition Classification .....	57	Atmospheric and Oceanic Sciences - Minor .....	165
University Policies .....	58	Biochemistry .....	166
Colleges, Schools & Programs .....	60	Biochemistry - Bachelor of Arts (BA) .....	168
Arts & Sciences .....	60	Biochemistry - Minor .....	171
Policies & Requirements .....	61	British and Irish Studies .....	172
Programs of Study .....	74	British and Irish Studies - Certificate .....	172
Actuarial Studies and Quantitative Finance .....	74	Central and East European Studies .....	173
Actuarial Studies and Quantitative Finance - Certificate .....	74	Central and East European Studies - Certificate .....	173
Anthropology .....	76	Chemistry .....	175
Anthropology - Bachelor of Arts (BA) .....	85		

Chemistry - Bachelor of Arts (BA) .....	181	Geology - Minor .....	321
Chemistry - Minor .....	184	Germanic and Slavic Languages and Literatures .....	321
Cinema Studies & Moving Image Arts .....	184	German Studies - Bachelor of Arts (BA) .....	335
Cinema Studies & Moving Image Arts - Bachelor of Fine Arts (BFA) .....	192	Russian Studies - Bachelor of Arts (BA) .....	338
Cinema Studies - Bachelor of Arts (BA) .....	194	German Studies - Minor .....	344
Cinema Studies - Minor .....	199	Nordic Studies - Minor .....	344
Classics .....	199	Russian Studies - Minor .....	345
Classics - Bachelor of Arts (BA) .....	206	History .....	346
Classics - Minor .....	211	History - Bachelor of Arts (BA) .....	367
Cognitive Science .....	213	History - Minor .....	369
Cognitive Science - Certificate .....	213	Humanities .....	370
Computer Science .....	214	Humanities - Bachelor of Arts (BA) .....	376
Computer Science - Bachelor of Arts (BA) .....	224	Humanities - Minor .....	378
Distributed Studies Program .....	226	Integrative Physiology .....	378
Ecology and Evolutionary Biology .....	227	Integrative Physiology - Bachelor of Arts (BA) ....	384
Ecology and Evolutionary Biology - Bachelor of Arts (BA) .....	235	International Affairs .....	387
Ecology and Evolutionary Biology - Minor .....	238	International Affairs - Bachelor of Arts (BA) .....	389
Economics .....	238	Arctic Studies - Certificate .....	393
Economics - Bachelor of Arts (BA) .....	245	European Union Studies - Certificate .....	393
Economics - Minor .....	247	Global Environmental Affairs - Certificate .....	394
English .....	247	Jewish Studies .....	395
English - Bachelor of Arts (BA) .....	259	Jewish Studies - Bachelor of Arts (BA) .....	401
Creative Writing - Minor .....	262	Hebrew and Israel Studies - Minor .....	406
English - Minor .....	262	Jewish Studies - Minor .....	406
Environmental Studies .....	263	Latin American Studies .....	407
Environmental Studies - Bachelor of Arts (BA) ....	267	Latin American and Latinx Studies - Certificate .....	408
Ethnic Studies .....	270	Lesbian, Gay, Bisexual, Transgender and Queer Studies .....	409
Ethnic Studies - Bachelor of Arts (BA) .....	277	LGBTQ Studies - Certificate .....	410
Ethnic Studies - Minor .....	279	Linguistics .....	411
French and Italian .....	279	Linguistics - Bachelor of Arts (BA) .....	414
French - Bachelor of Arts (BA) .....	288	Linguistics - Minor .....	417
Italian - Bachelor of Arts (BA) .....	291	Teaching English to Speakers of Other Languages - Certificate .....	418
French - Minor .....	293	Mathematics .....	418
Italian - Minor .....	293	Mathematics - Bachelor of Arts (BA) .....	425
Geography .....	294	Mathematics - Minor .....	428
Geography - Bachelor of Arts (BA) .....	303	Medieval and Early Modern Studies .....	429
Geography - Minor .....	307	Medieval and Early Modern Studies - Certificate .....	429
GIS and Computational Science - Certificate .....	309	Molecular, Cellular and Developmental Biology .....	430
Geological Sciences .....	309		
Geology - Bachelor of Arts (BA) .....	317		

Molecular, Cellular and Developmental Biology - Bachelor of Arts (BA) .....	439	Theatre - Minor .....	551
Peace, Conflict and Security Studies .....	441	Western American Studies .....	552
Peace, Conflict and Security - Certificate .....	442	Western American Studies - Certificate .....	552
Philosophy .....	442	Western Civilization Studies .....	552
Philosophy - Bachelor of Arts (BA) .....	449	Foundations of Western Civilization - Certificate .....	553
Philosophy - Minor .....	453	Women and Gender Studies .....	554
Physics .....	453	Women and Gender Studies - Bachelor of Arts (BA) .....	563
Physics - Bachelor of Arts (BA) .....	461	Women and Gender Studies - Minor .....	566
Physics - Minor .....	465	Global Gender and Sexuality Studies - Certificate .....	568
Political Science .....	465	Writing and Rhetoric, Program for .....	569
Political Science - Bachelor of Arts (BA) .....	476	Writing - Certificate .....	572
Political Science - Minor .....	477	Business .....	574
Psychology and Neuroscience .....	478	Policies & Requirements .....	579
Neuroscience - Bachelor of Arts (BA) .....	487	Programs of Study .....	582
Psychology - Bachelor of Arts (BA) .....	489	Business Administration .....	582
Neurosciences and Behavior - Certificate .....	491	Business Administration - Bachelor of Science (BS) .....	588
Public Health .....	491	Business - Minor .....	595
Public Health - Certificate .....	492	Business Leadership - Certificate .....	596
Religious Studies .....	493	Entrepreneurial Studies - Certificate .....	596
Religious Studies - Bachelor of Arts (BA) .....	499	Global Business - Certificate .....	597
Religious Studies - Minor .....	501	Operations and Information Management - Certificate .....	597
Sociology .....	501	Real Estate - Certificate .....	598
Sociology - Bachelor of Arts (BA) .....	508	Social Responsibility and Ethics - Certificate .....	598
Sociology - Minor .....	510	Cross-College Programs .....	599
Animals and Society - Certificate .....	510	International Media - Certificate .....	599
Care, Health and Resilience - Certificate .....	511	Native American and Indigenous Studies - Certificate .....	600
Social Innovation - Certificate .....	512	Space - Minor .....	602
Spanish and Portuguese .....	513	Education .....	602
Portuguese - Minor .....	520	Policies & Requirements .....	602
Spanish - Bachelor of Arts (BA) .....	521	Programs of Special Interest .....	603
Spanish - Minor .....	524	Programs of Study .....	604
Speech, Language and Hearing Sciences .....	524	Elementary Education - Bachelor of Arts (BA) .....	615
Speech, Language and Hearing Sciences - Bachelor of Arts (BA) .....	527	Interdisciplinary Studies - Bachelor of Arts (BA) .....	617
Speech, Language and Hearing Sciences - Minor .....	529	Leadership and Community Engagement - Bachelor of Arts (BA) .....	621
Theatre & Dance .....	529	Education - Minor .....	622
Dance - Bachelor of Arts (BA) .....	541	Leadership Studies - Minor .....	623
Dance - Bachelor of Fine Arts (BFA) .....	543	STEM Education - Certificate .....	626
Dance - Minor .....	545	Teacher Licensure Program .....	627
Theatre - Bachelor of Arts (BA) .....	546		
Theatre - Bachelor of Fine Arts (BFA) .....	548		

Post-Baccalaureate .....	628	Engineering Management - Minor .....	740
Undergraduate Nondegree .....	633	Engineering Entrepreneurship - Certificate .....	741
Engineering & Applied Science .....	640	Engineering Management - Certificate .....	741
Policies & Requirements .....	644	Engineering Physics .....	741
Programs of Study .....	647	Engineering Physics - Bachelor of Science (BS)	
Aerospace Engineering Sciences .....	647	.....	746
Aerospace Engineering Sciences - Bachelor of		Engineering Plus .....	749
Science (BSAE) .....	653	Engineering Plus - Bachelor of Science (BS) .....	751
Applied Mathematics .....	655	Mechanical Engineering .....	752
Applied Mathematics - Bachelor of Science (BSAM)		Mechanical Engineering - Bachelor of Science (BS)	
.....	662	.....	759
Chemical and Biological Engineering .....	668	Technology, Arts and Media .....	761
Chemical and Biological Engineering - Bachelor of		Technology, Arts and Media - Bachelor of Science	
Science (BS) .....	672	(BS) .....	766
Chemical Engineering - Bachelor of Science (BS)		Technology, Arts and Media - Minor .....	768
.....	674	Environmental Design .....	768
Civil, Environmental & Architectural Engineering .....	677	Policies & Requirements .....	770
Architectural Engineering - Bachelor of Science		Programs of Study .....	773
(BSARE) .....	689	Environmental Design - Bachelor of Environmental	
Civil Engineering - Bachelor of Science (BS) .....	691	Design (BEnvD) .....	780
Environmental Engineering - Bachelor of Science		Exploratory Studies .....	784
(BS) .....	693	Media, Communication & Information .....	786
Architectural Engineering - Minor .....	695	Policies & Requirements .....	787
Civil Engineering - Minor .....	696	Programs of Study .....	794
Computer Science .....	697	Advertising, Public Relations and Media Design .....	794
Applied Computer Science - Post-Baccalaureate		Strategic Communication - Bachelor of Science (BS)	
Bachelor of Science (BS) .....	708	.....	800
Computer Science - Bachelor of Science (BS) .....	710	Communication .....	801
Computer Science - Minor .....	713	Communication - Bachelor of Arts (BA) .....	805
Electrical, Computer & Energy Engineering .....	714	Communication - Minor .....	806
Electrical and Computer Engineering - Bachelor of		Critical Media Practices .....	807
Science (BS) .....	723	Media Production - Bachelor of Arts (BA) .....	811
Electrical Engineering - Bachelor of Science (BS)		Media Production - Minor .....	814
.....	725	Information Science .....	814
Computer Engineering - Minor .....	728	Information Science - Bachelor of Science (BS)	
Electrical Engineering - Minor .....	728	.....	818
Signals and Systems - Minor .....	729	Information Science - Minor .....	820
Engineering and Applied Science .....	729	Journalism .....	820
Biomedical Engineering - Minor .....	735	Journalism - Bachelor of Arts (BA) .....	825
Energy Engineering - Minor .....	735	Journalism - Minor .....	826
Global Engineering - Minor .....	736	Media Studies .....	826
Engineering Leadership - Certificate .....	736	Media Studies - Bachelor of Arts (BA) .....	830
Engineering, Science and Society - Certificate .....	737	Media Studies - Minor .....	831
Lighting Design - Certificate .....	738	Sports and Media .....	832
Engineering Management .....	738		

Sports and Media - Minor .....	832	Student Resources .....	906
Music .....	833	Student Data Privacy .....	907
Policies & Requirements .....	834	Student Finances .....	908
Programs of Study .....	836	Tuition Classification .....	911
Music .....	836	University Policies .....	912
Music - Bachelor of Arts in Music (BAMus) .....	848	Colleges & Schools .....	914
Music - Bachelor of Music (BMus) .....	850	Arts & Sciences .....	914
Music - Minor .....	861	Programs of Study .....	915
Jazz Studies - Certificate .....	861	Anthropology .....	915
Music Entrepreneurship - Certificate .....	862	Anthropology - Master of Arts (MA) .....	919
Music Technology - Certificate .....	862	Anthropology - Doctor of Philosophy (PhD) .....	921
Music Education .....	863	Applied Mathematics .....	923
Music Education - Bachelor of Music Education		Applied Mathematics - Master of Science (MS)	
(BMusEd) .....	873	.....	930
Academic Enrichment Programs .....	878	Applied Mathematics - Professional Master of	
Education Abroad .....	878	Science (MSAM) .....	932
Library Research .....	878	Applied Mathematics - Doctor of Philosophy (PhD)	
Preprofessional Programs .....	878	.....	934
Presidents Leadership Class .....	879	Art and Art History .....	936
Reserve Officers Training Corps (ROTC) .....	881	Art History - Master of Arts (MA) .....	945
Air Force Aerospace Studies (U.S. Air Force) .....	881	Art Practices - Master of Fine Arts (MFA) .....	947
Military Science (U.S. Army) .....	882	Arts of the Americas - Doctor of Philosophy (PhD)	
Naval Science (U.S. Navy & U.S. Marine Corps) .....	884	.....	949
Undergraduate Residential Programs .....	886	Asian Languages and Civilizations .....	950
Graduate Catalog .....	889	Asian Languages and Civilizations - Master of Arts	
Academic Calendar & Exams .....	889	(MA) .....	956
Academic Integrity .....	891	Asian Languages and Civilizations - Doctor of	
Academic Records .....	891	Philosophy (PhD) .....	956
Academic Standards & Advising .....	893	Asian Studies .....	957
Admissions .....	894	Asian Studies - Graduate Certificate .....	957
Credits & Grading .....	895	Astrophysical and Planetary Sciences .....	962
Degree Requirements .....	897	Astrophysical and Planetary Sciences - Doctor of	
Master's Degree Requirements .....	897	Philosophy (PhD) .....	965
Doctoral Degree Requirements .....	898	Atmospheric and Oceanic Sciences .....	967
Distance Education .....	901	Atmospheric and Oceanic Sciences - Master of	
Graduation .....	901	Science (MS) .....	970
New Student & Family Programs .....	902	Atmospheric and Oceanic Sciences - Doctor of	
Registration & Enrollment .....	902	Philosophy (PhD) .....	971
Student Affairs .....	904	Atmospheric and Oceanic Sciences - Graduate	
Health & Wellness .....	904	Certificate .....	972
Housing .....	905	Oceanography - Graduate Certificate .....	973
Student Conduct & Colorado Creed .....	905	Behavioral Genetics .....	973
		Behavioral Genetics - Graduate Certificate .....	973
		Biochemistry .....	974
		Biochemistry - Master of Science (MS) .....	978

Biochemistry - Doctor of Philosophy (PhD) .....	978	Geological Sciences .....	1044
Molecular Biophysics - Graduate Certificate .....	979	Geology - Master of Science (MS) .....	1050
Chemistry .....	980	Geology - Doctor of Philosophy (PhD) .....	1050
Chemistry - Master of Science (MS) .....	985	Geophysics - Doctor of Philosophy (PhD) .....	1051
Chemical Physics - Doctor of Philosophy (PhD) .....	985	Geophysics - Graduate Certificate .....	1052
Chemistry - Doctor of Philosophy (PhD) .....	987	Hydrologic Sciences - Graduate Certificate .....	1042
Classics .....	989	Germanic and Slavic Languages and Literatures .....	1054
Classics - Master of Arts (MA) .....	994	German Studies - Master of Arts (MA) .....	1057
Classics - Doctor of Philosophy (PhD) .....	994	Russian Studies - Master of Arts (MA) .....	1058
Cognitive Science .....	995	German Studies - Doctor of Philosophy (PhD) ..	1059
Cognitive Science - Doctor of Philosophy (PhD) .....	996	Critical Theory - Graduate Certificate .....	1061
Ecology and Evolutionary Biology .....	997	History .....	1062
Ecology and Evolutionary Biology - Master of Arts (MA) .....	1001	History - Master of Arts (MA) .....	1071
Ecology and Evolutionary Biology - Doctor of Philosophy (PhD) .....	1002	History - Doctor of Philosophy (PhD) .....	1072
Economics .....	1002	Integrative Physiology .....	1072
Economics - Doctor of Philosophy (PhD) .....	1006	Integrative Physiology - Master of Science (MS) .....	1076
English .....	1008	Integrative Physiology - Doctor of Philosophy (PhD) .....	1076
Creative Writing - Master of Fine Arts (MFA) .....	1013	Jewish Studies .....	1077
English - Master of Arts (MA) .....	1014	Jewish Studies - Graduate Certificate .....	1078
English - Doctor of Philosophy (PhD) .....	1015	Linguistics .....	1079
Environmental Studies .....	1018	Linguistics - Master of Arts (MA) .....	1083
Environmental Studies - Master of Science (MS) .....	1021	Linguistics - Doctor of Philosophy (PhD) .....	1084
Environment - Master of the Environment (MENV) .....	1021	Cognitive Science - Graduate Certificate .....	1085
Environmental Studies - Doctor of Philosophy (PhD) .....	1023	Culture, Language and Social Practice - Graduate Certificate .....	1085
Ethnic Studies .....	1024	Human Language Technology - Graduate Certificate .....	1087
Comparative Ethnic Studies - Doctor of Philosophy (PhD) .....	1027	Mathematics .....	1087
Comparative Ethnic Studies - Graduate Certificate .....	1028	Mathematics - Master of Arts (MA) .....	1093
French and Italian .....	1029	Mathematics - Doctor of Philosophy (PhD) .....	1093
French - Master of Arts (MA) .....	1031	Molecular, Cellular and Developmental Biology .....	1094
French - Doctor of Philosophy (PhD) .....	1032	Molecular, Cellular and Developmental Biology - Doctor of Philosophy (PhD) .....	1097
Geography .....	1034	Museum and Field Studies .....	1098
Geography - Master of Arts (MA) .....	1039	Museum and Field Studies - Master of Science (MS) .....	1100
Geography - Doctor of Philosophy (PhD) .....	1040	Museology - Graduate Certificate .....	1103
Development Studies - Graduate Certificate .....	1041	Philosophy .....	1103
Hydrologic Sciences - Graduate Certificate .....	1042	Philosophy - Master of Arts (MA) .....	1107
Population Studies - Graduate Certificate .....	1043	Philosophy - Doctor of Philosophy (PhD) .....	1108
		Physics .....	1109
		Physics - Master of Science (MS) .....	1115

Physics - Doctor of Philosophy (PhD) .....	1116	Taxation - Master of Science (MS) .....	1216
Political Science .....	1116	Business Analytic Methods - Graduate Certificate ...	1217
Political Science - Doctor of Philosophy (PhD) ..	1123	Marketing Analytics - Graduate Certificate .....	1217
Psychology and Neuroscience .....	1124	Supply Chain Analytics - Graduate Certificate .....	1218
Neuroscience - Doctor of Philosophy (PhD) .....	1132	Supply Chain Foundations - Graduate Certificate ....	1218
Psychology - Doctor of Philosophy (PhD) .....	1132	Education .....	1219
Religious Studies .....	1133	Policies & Requirements .....	1219
Religious Studies - Master of Arts (MA) .....	1135	Programs of Special Interest .....	1220
Sociology .....	1137	Programs of Study .....	1220
Sociology - Doctor of Philosophy (PhD) .....	1141	Curriculum and Instruction .....	1235
Spanish and Portuguese .....	1142	Education - Curriculum and Instruction - Master of Arts (MA) .....	1236
Spanish - Master of Arts (MA) .....	1146	Education - Curriculum and Instruction - Doctor of Philosophy (PhD) .....	1239
Spanish - Doctor of Philosophy (PhD) .....	1147	Education - Learning Sciences and Human Development .....	1242
Speech, Language and Hearing Sciences .....	1147	Learning Sciences and Human Development - Master of Arts (MA) .....	1243
Speech, Language and Hearing Sciences - Master of Arts (MA) .....	1155	Learning Sciences and Human Development - Doctor of Philosophy (PhD) .....	1244
Audiology - Doctor of Audiology (AuD) .....	1156	Educational Equity and Cultural Diversity .....	1245
Speech, Language and Hearing Sciences - Doctor of Philosophy (PhD) .....	1157	Educational Equity and Cultural Diversity - Master of Arts (MA) .....	1246
Speech-Language Pathology Assistant - Graduate Certificate .....	1157	Educational Equity and Cultural Diversity - Doctor of Philosophy (PhD) .....	1248
Theatre & Dance .....	1158	Educational Foundations, Policy and Practice .....	1250
Dance - Master of Fine Arts (MFA) .....	1166	Educational Foundations, Policy and Practice - Master of Arts (MA) .....	1250
Experience Design - Master of Fine Arts (MFA) .....	1169	Higher Education - Master of Arts (MA) .....	1251
Theatre - Master of Arts (MA) .....	1170	Educational Foundations, Policy and Practice - Doctor of Philosophy (PhD) .....	1252
Theatre - Doctor of Philosophy (PhD) .....	1173	Research and Evaluation Methodology .....	1253
Applied Shakespeare - Graduate Certificate .....	1174	Education - Research and Evaluation Methodology - Doctor of Philosophy (PhD) .....	1254
Women and Gender Studies .....	1175	Teacher Licensure Program .....	1255
Women and Gender Studies - Graduate Certificate .....	1176	Engineering & Applied Science .....	1260
Business .....	1176	Policies & Requirements .....	1260
Programs of Study .....	1180	Programs of Study .....	1261
Business Administration .....	1188	Aerospace Engineering Sciences .....	1261
Business Administration - Master of Business Administration (MBA) .....	1208	Aerospace Engineering Sciences - Master of Science (MS) .....	1271
Business Administration - Doctor of Philosophy (PhD) .....	1211	Aerospace Engineering Sciences - Professional Master of Science (MSAES) .....	1272
Accounting - Master of Science (MS) .....	1212	Aerospace Engineering Sciences - Doctor of Philosophy (PhD) .....	1272
Business Analytics - Master of Science (MS) .....	1213		
Finance - Master of Science (MS) .....	1214		
Real Estate - Master of Science (MS) .....	1215		
Supply Chain Management - Master of Science (MS) .....	1215		

Astrodynamics and Satellite Navigation Systems - Graduate Certificate .....	1272	Engineering Management - Master of Engineering (ME) .....	1332
Remote Sensing - Graduate Certificate .....	1273	Engineering Entrepreneurship - Graduate Certificate .....	1333
Architectural Engineering .....	1274	Engineering Management - Graduate Certificate .....	1333
Architectural Engineering - Master of Science (MS) .....	1278	Leadership and Management - Graduate Certificate .....	1334
Architectural Engineering - Doctor of Philosophy (PhD) .....	1279	Managing Applied Research in Technology - Graduate Certificate .....	1334
Chemical Engineering .....	1280	Performance Excellence in Technology Management - Graduate Certificate .....	1334
Chemical Engineering - Master of Science (MS) .....	1283	Project Management - Graduate Certificate .....	1334
Biological Engineering - Doctor of Philosophy (PhD) .....	1284	Quality Systems for Product and Process Engineering - Graduate Certificate .....	1335
Chemical Engineering - Doctor of Philosophy (PhD) .....	1285	Six Sigma Statistical Practitioner - Graduate Certificate .....	1335
Civil Engineering .....	1285	Technology Ventures & Product Management - Graduate Certificate .....	1335
Civil Engineering - Master of Science (MS) .....	1296	Environmental Engineering .....	1336
Civil Engineering - Professional Master of Science (MSCVE) .....	1297	Environmental Engineering - Master of Science (MS) .....	1337
Civil Engineering - Doctor of Philosophy (PhD) .	1298	Environmental Engineering - Professional Master of Science (MSENV) .....	1337
Engineering for Developing Communities - Graduate Certificate .....	1299	Environmental Engineering - Doctor of Philosophy (PhD) .....	1338
Computer Science .....	1299	Materials Science and Engineering .....	1339
Computer Science - Master of Engineering (ME) .....	1309	Materials Science and Engineering - Master of Science (MS) .....	1341
Computer Science - Master of Science (MS) .....	1309	Materials Science and Engineering - Doctor of Philosophy (PhD) .....	1341
Computer Science - Professional Master of Science (MSCPS) .....	1310	Mechanical Engineering .....	1342
Computer Science - Doctor of Philosophy (PhD) .....	1311	Mechanical Engineering - Master of Engineering (ME) .....	1349
Electrical Engineering .....	1312	Mechanical Engineering - Master of Science (MS) .....	1349
Electrical Engineering - Master of Engineering (ME) .....	1323	Mechanical Engineering - Professional Master of Science (MSME) .....	1349
Electrical Engineering - Master of Science (MS) .....	1324	Mechanical Engineering - Doctor of Philosophy (PhD) .....	1350
Electrical Engineering - Professional Master of Science (MSEE) .....	1324	Technology, Media and Society .....	1350
Electrical Engineering - Doctor of Philosophy (PhD) .....	1326	Technology, Media and Society - Master of Science (MS) .....	1354
Photonics - Graduate Certificate .....	1327	Technology, Media and Society - Doctor of Philosophy (PhD) .....	1356
Engineering & Applied Science .....	1327	Telecommunications .....	1356
Biomedical Engineering - Graduate Certificate ..	1327	Telecommunications - Master of Science (MS) .....	1358
Embedded Systems Engineering - Graduate Certificate .....	1328		
Power Electronics - Graduate Certificate .....	1328		
Engineering Management .....	1329		

Telecommunications - Professional Master of Science (MST) .....	1361	Interdisciplinary Documentary Media Practices - Graduate Certificate .....	1390
Telecommunications - Doctor of Philosophy (PhD) .....	1361	Information Science .....	1390
Computer and Network Security - Graduate Certificate .....	1362	Information Science - Doctor of Philosophy (PhD) .....	1393
Network Architecture - Graduate Certificate .....	1362	Intermedia Art, Writing and Performance .....	1394
Telecommunications Policy - Graduate Certificate .....	1363	Intermedia Art, Writing and Performance - Doctor of Philosophy (PhD) .....	1395
Wireless Networks and Technologies - Graduate Certificate .....	1363	Journalism .....	1396
Interdisciplinary Programs .....	1363	Journalism - Master of Arts (MA) .....	1400
Computational Linguistics - Master of Science (MS) .....	1363	Journalism Entrepreneurship - Master of Arts (MA) .....	1401
Digital Humanities - Graduate Certificate .....	1364	Media Research and Practice - Doctor of Philosophy (PhD) .....	1377
Earth Data Analytics - Foundations - Graduate Certificate .....	1365	Media Studies .....	1403
Environmental Justice - Graduate Certificate .....	1366	Media and Public Engagement - Master of Arts (MA) .....	1406
Graduate Teacher Program - Graduate Certificate .....	1366	Music .....	1406
Interdisciplinary Quantitative Biology - Graduate Certificate .....	1367	Policies & Requirements .....	1407
Language Technology - Graduate Certificate .....	1367	Programs of Study .....	1409
Native American and Indigenous Studies - Graduate Certificate .....	1368	Music .....	1409
Organizational Leadership - Master of Science (MS) .....	1369	Music - Master of Music (MMus) .....	1419
Quantitative Methods for Behavioral Sciences - Graduate Certificate .....	1370	Music - Doctor of Philosophy (PhD) .....	1420
Satellite System Design - Graduate Certificate .....	1371	Artist Diploma: Chamber Music Performance - Graduate Certificate .....	1421
Water Engineering and Management - Graduate Certificate .....	1372	Artist Diploma: Opera and Solo Vocal Performance - Graduate Certificate .....	1421
Media, Communication & Information .....	1372	Artist Diploma: Orchestral Performance - Graduate Certificate .....	1422
Programs of Study .....	1373	Artist Diploma: Solo Instrumental Performance - Graduate Certificate .....	1422
Advertising, Public Relations and Media Design .....	1373	Artist Diploma: String Quartet Performance - Graduate Certificate .....	1423
Strategic Communication Design - Master of Arts (MA) .....	1376	Artist Diploma: Vocal Coaching - Graduate Certificate .....	1423
Media Research and Practice - Doctor of Philosophy (PhD) .....	1377	Arts Administration - Graduate Certificate .....	1424
Communication .....	1379	Music Theory - Graduate Certificate .....	1424
Communication - Master of Arts (MA) .....	1383	Music Education .....	1424
Communication - Doctor of Philosophy (PhD) ...	1384	Music Education - Master of Music Education (MMusEd) .....	1432

# ABOUT CU BOULDER

## General Information

As one of only 34 U.S. public research institutions in the Association for American Universities (AAU), the University of Colorado Boulder is all about realizing the positive impacts of new knowledge. From offering dozens of exciting programs in a range of academic fields, to serving as one of the world's most dynamic research and innovation hubs, to working closely through hundreds of public outreach efforts with communities across Colorado and the world, we take pride in helping our students, faculty, staff and partners turn new ideas into productive outcomes that change lives.

## Students

With an enrollment of more than 34,000 students, CU Boulder is the largest of the four-campus University of Colorado system. The student population comes from every state in the nation and from more than 100 foreign countries. Many different ethnic, religious, academic and social backgrounds are represented, fostering the development of a multicultural academic community that enriches each student's educational experience.

## Faculty

CU Boulder has more than 1,200 tenured and tenure-track faculty, with 98 percent holding doctorates or appropriate terminal degrees. The faculty includes nationally and internationally recognized scholars with many academic honors and awards:

- David Wineland won the 2012 Nobel Prize in physics.
- Several CU Boulder research faculty from the National Snow and Ice Data Center shared the 2007 Nobel Peace Prize with former Vice President Al Gore for their contributions to the international report of the Intergovernmental Panel on Climate Change.
- John Hall won the 2005 Nobel Prize in physics.
- Carl Wieman and Eric Cornell won the 2001 Nobel Prize in physics.
- Tom Cech won the 1989 Nobel Prize in chemistry.
- Eight faculty have received MacArthur Fellowships, the so-called "Genius Grant."
- Twenty-four active or retired faculty are members of the National Academy of Sciences, all of whom are included in the membership of the American Academy of Arts and Sciences.
- Seventeen faculty are members of the National Academy of Engineering.
- Four faculty are members of the National Academy of Education.

Most faculty members, including full professors, teach both undergraduate and graduate classes. Faculty members incorporate their research and creative activities directly into instructional programs. Faculty participate in campus governance through the Faculty Senate and the Faculty Assembly. Students participate through the University of Colorado Student Government (CUSG) and the United Government of Graduate Students (UGGS).

## Academic Offerings

The Boulder campus offers approximately 4,000 different courses in 119 distinct fields of study and 236 degree programs across the baccalaureate, master's, doctoral and professional levels. These courses represent a full range of disciplines in the humanities, the social sciences,

the physical and biological sciences, the fine and performing arts, and the professions.

## Research

CU Boulder is home to more than 2,000 nationally and internationally recognized research faculty who have earned a global reputation for outstanding teaching, research and creative work across more than 150 academic disciplines. While the classroom is the location for most instructional activities, laboratories, seminars and field work also are important features of the undergraduate and graduate experience. Students can get involved in research and creative work as early as their freshman year.

CU Boulder's sponsored research portfolio continues to grow. Since fiscal year 2009, CU Boulder has experienced 51 percent growth in research awards. Federal agency funding remains the mainstay of CU research, with 72 percent of awards coming directly from federal agencies. Five federal agencies are consistently the largest funding sources for CU Boulder awards, including:

- NASA,
- National Science Foundation,
- Department of Commerce,
- National Institutes of Health, and
- Department of Defense.

CU Boulder remains the number one public university recipient of NASA research awards, and continues to be a national leader in aerospace and space research. Additionally, university researchers are expanding their impact through collaborative projects with industry, other universities, nonprofits and international partners.

CU Boulder's research institutes and research centers significantly contribute to the university's research and education missions, as well as the regional economy. Research faculty in academic departments, institutes and centers are continually expanding CU Boulder's research capabilities and collaborations, resulting in new knowledge, technologies and creative work for the benefit of Colorado, the nation and the world.

For more information, see the Research (p. 15) section.

## Statutory Mission

CU Boulder's vision is grounded in its statutory mission as a national public research university. In Colorado statute, the university is defined as the "comprehensive graduate research university with selective admissions standards . . . offer(ing) a comprehensive array of undergraduate, master and doctoral degree programs" of what is now designated the University of Colorado System.

CU Boulder recognizes the exceptional opportunities associated with its role as a research university, and values the unique strength and character research achievements bring to undergraduate education. It is keenly aware of its responsibility for educating the next generation of citizens and leaders, and for fostering the spirit of discovery through research. Indeed, CU Boulder believes that its students, both graduate and undergraduate, benefit from the comprehensive mix of programs and research excellence that characterize a flagship university. Thus, CU Boulder's statutory mission is relevant today and will remain relevant tomorrow.

Since 2007, CU Boulder's strategic plan, *Flagship 2030*, has been guiding near-term actions and investments that will sustain CU's quality

and competitiveness and, through visionary "flagship initiatives," will transform the university within the next quarter-century.

## University of Colorado History

At its first session in 1861, Colorado's territorial legislature passed an act providing for a university in Boulder. Between 1861 and 1876, Boulder citizens donated land south of town and made gifts from \$15 to \$1,000 to match the \$15,000 the state legislature appropriated for the university's construction. In 1875, Colorado citizens laid the cornerstone for the university's first building, Old Main, and officially founded CU in 1876, the same year Colorado joined the union. The university opened its doors the following year with 44 students, a president, and one instructor.

Today, the University of Colorado is a four-campus system that includes the University of Colorado Boulder, the University of Colorado Colorado Springs, the University of Colorado Denver and the University of Colorado Anschutz Medical Campus. The campuses have a combined enrollment of more than 66,000 students. To meet the needs of its students, the university system offers an extensive number of undergraduate, graduate and professional degree programs, as well as opportunities to study abroad, engage in public service and conduct research.

CU Boulder has a strong sponsored research portfolio, and the university also relies on revenues from tuition and fees, contracts and grants, investments and interest income, health services and the generous support of private foundations and donors.

An elected nine-member Board of Regents governs CU and is charged by the state constitution with the general supervision of the university and the exclusive control and direction of all its funds and appropriations, unless otherwise provided by law. The board conducts its business at regular meetings open to the public and through committees. The president is the chief administrative officer and is responsible for providing leadership to the university.

For more information, visit the CU Board of Regents (<http://www.cu.edu/regents>) webpage, or the CU System (<http://www.cu.edu>) website.

## Enrollment and Graduation Rates

CU Boulder's fall 2018 undergraduate enrollment was 28,756 of which 6,701 were entering freshman. Of these, 47 percent were females, 51 percent residents of Colorado and 27 percent members of minority groups (African Americans, Asian Americans, Hispanics/Latinos, Native Americans and Pacific Islanders). Sixty-nine percent enrolled in the College of Arts and Sciences, 9 percent in the Leeds School of Business, 14 percent in the College of Engineering and Applied Science and 8 percent, combined, enrolled in the College of Media, Communication and Information, the Program in Environmental Design, the College of Music and the School of Education. The number of undergraduate transfer students who enrolled in fall 2018 was 1,624.

Of the freshmen entering in summer or fall 2012 who enrolled full time, 47 percent graduated within four years; 67 percent graduated within five years; and 71 percent graduated within six years. Of the students who entered in fall 2017, 88 percent returned for their second fall semester.

CU Boulder enrolled 5,754 graduate and professional students in fall 2018. Of these, 42% were females. The five most enrolled majors for masters students were Aerospace Engineering Sciences, Electrical Engineering, Master of Business Administration, Computer Science and Mechanical Engineering. The most enrolled doctorate majors were

Physics, Aerospace Engineering Sciences, Computer Science, Chemistry and Electrical Engineering.

## CU Boulder Accreditation and Affiliation

CU Boulder is accredited by the Higher Learning Commission (<http://www.hlcommission.org>) (800-621-7440 or 312-263-0456). See individual colleges and schools for program specific accreditation information.

For information on the content of academic programs and official degree designations, refer to the appropriate catalog sections.

As one of 34 U.S. public research institutions belonging to the prestigious Association of American Universities (AAU)—and the only member in the Rocky Mountain region—a goal at CU Boulder is to directly affect Colorado communities through collaborative research, innovation and entrepreneurship. CU Boulder faculty, staff and students work with the broader community to establish unique connections that have lasting outcomes across Colorado and around the world.

## About the Catalog

The *2019–2020 University of Colorado Boulder Catalog* is an academic publication containing information about academic programs, policies and services, descriptions of colleges, schools and individual departments and degree requirements, course descriptions and faculty listings as of Spring 2019.

The catalog is published only online in an accessible format. In accordance with requirements under the Americans with Disability Act (ADA), alternate formats are available upon request.

Because the catalog is compiled in advance of the published academic year, changes in programs and policies may occur. All catalog information is subject to change without notice or obligation, and the University of Colorado Boulder reserves the right to change any rules or curriculum requirements at any time. Current information may be obtained by consulting departmental advisors and reviewing registration materials distributed each semester.

The catalog is produced by the Office of the Registrar (<http://www.colorado.edu/registrar>) at the University of Colorado Boulder (<http://www.colorado.edu>). Previous academic catalogs can be found in the catalog archive (<http://www.colorado.edu/registrar/about/archive>). Questions concerning the catalog may be directed to [catalog@colorado.edu](mailto:catalog@colorado.edu).

## Administration

### Board of Regents

**Sue Sharkey** – Chair, District 4; term expires 2023  
**John "Jack" Kroll** – Vice Chair, District 1; term expires 2023  
**John Carson** – District 6; term expires 2021  
**Glen Gallegos** – District 3; term expires 2019  
**Heidi Ganahl** – At large; term expires 2023  
**Irene Griego** – District 7; term expires 2021  
**Chance Hill** – District 5; term expires 2025  
**Linda Shoemaker** – District 2; term expires 2021  
**Lesley Smith** – At large; term expires 2025

## Administrative Officers

### CU System

**Bruce D. Benson** – President. BS, University of Colorado Boulder.

**Leonard Dinegar** – Senior vice president and chief of staff. BA, Catholic University of America; MA, University of Colorado Denver.

**Jack Finlaw** – Special advisor to the president for advancement. BS, Georgetown University; JD, University of Denver College of Law.

**Michael Lightner** – Vice president for academic affairs. BS, MS, University of Florida; PhD, Carnegie-Mellon University.

**Tanya Mares Kelly-Bowry** – Vice president for government relations. BA, University of Colorado Boulder; MA, Regis University.

**Ken McConnellogue** – Vice president for university communication. BS, University of Colorado Boulder; MA, University of Northern Colorado.

**Patrick T. O'Rourke** – Vice president, university counsel and secretary of the Board of Regents. BA, Creighton University; JD, Georgetown University Law Center.

**Kathy Nesbitt** – Vice president, employee and information services. BA, University of Colorado; JD, Southern University Law Center.

**Todd Saliman** – Vice president and chief financial officer. BA, University of Colorado Boulder.

### CU Boulder

**Philip P. DiStefano** – Chancellor and professor of education. BS, PhD, Ohio State University; MA, West Virginia University.

**Russell L. Moore** – Provost and executive vice chancellor for academic affairs. BS, University of California, Davis; PhD, Washington State University.

**Kelly Fox** – Senior vice chancellor and chief financial officer. BA, University of Nebraska; MA, University of Colorado Denver.

**Robert Boswell** – Vice chancellor for diversity, equity and community engagement. BA, Marietta College; PhD, University of Colorado Boulder.

**Deb Coffin** – Vice chancellor for advancement. BS, BA, MA, University of Northern Colorado.

**Frances Draper** – Vice chancellor for communications and strategic relations. BA, Stanford University; MBA, University of California, Berkeley.

**Terri Fiez** – Vice chancellor for research and innovation. BS, MS, University of Idaho; PhD, Oregon State University.

**Christina Gonzales** – Vice chancellor for student affairs. BS, MA, New Mexico State University.

**David Kang** – Vice chancellor for infrastructure and sustainability. BS, University of California, San Diego; MS, University of California, Berkeley.

**Catherine Shea** – Chief of staff and director of ethics and compliance. BA, University of Notre Dame; JD, Catholic University Columbus School of Law.

**Valerie Simons** – Associate vice chancellor and Title IX coordinator, Office of Institutional Equity and Compliance. BA, University of California, Berkeley; JD, Georgetown University.

**Elvira Strehle-Henson** – Managing associate university counsel. BA, JD, University of Colorado Boulder.

**Rick George** – Athletic director. BA, University of Illinois.

## Campus Map

### The Campus Setting

CU Boulder (<https://www.colorado.edu/map>) is located at the foot of the Rocky Mountains, at an altitude of 5,400 feet. The Flatirons geologic formation is visible from nearly everywhere on campus. The climate is temperate, with generally pleasant days and cool evenings. On average, Boulder enjoys about 300 sunny days each year. The main campus covers 600 acres and includes about 200 buildings constructed of rough-

cut Colorado sandstone with red tile roofs. The rural Italian (or Tuscan vernacular) architectural style evolved from a master plan developed by Philadelphia architect Charles Klauder in 1919. The Norlin Quadrangle, including the original Old Main building, is listed in the State and *National Register of Historic Places*. The campus has been noted as one of the most aesthetically pleasing in the country.

Boulder County encompasses five ecological zones, from 5,000 feet above sea level (plains grassland) to 14,000 feet (alpine tundra). Downtown Boulder is only 20 miles from the Continental Divide and boasts some of the most spectacular scenery in the United States. The city of Boulder, population 103,000, is committed to preserving its beautiful natural environment and is surrounded by 45,000 acres of open space.

Denver, the state's capital city, is 30 miles from Boulder. Denver offers the attractions and resources of a large metropolitan area and is accessible from Boulder by traveling on U.S. 36, also known as the Denver–Boulder Turnpike. Denver's international airport is served by most major carriers and is located approximately 60 minutes southeast of Boulder. Boulder and the Denver International Airport are connected by a public transportation system.

For an interactive version, visit the Campus Map (<https://www.colorado.edu/map>) webpage.

## Research

Research and innovation at CU Boulder is changing the world. While CU Boulder researchers, faculty and staff lead the charge, this transformational work includes increasing collaborations with undergraduate and graduate students, postdocs, entrepreneurs, and government and industry partners.

At the heart of this focus are the diverse contributions of a wide range of world-class experts, working together in new and innovative ways to accelerate ideas through the entire innovation life cycle, from idea to impact.

Explore the diverse avenues through which CU Boulder innovators are crafting global change—and learn how you can participate.

## Major Research & Innovation Services and Initiatives

### Office of Contracts and Grants

The Office of Contracts and Grants (<http://www.colorado.edu/ocg>) (OCG) partners with faculty and staff to prepare and submit proposals, including budgets, for external research funding. OCG is authorized to negotiate and accept sponsored research agreements on behalf of the Regents, monitor and provide guidance throughout the life of an award, and ensure final project closeout.

### Office of Research Integrity

The Office of Research Integrity (<http://www.colorado.edu/innovate/ori>) supports CU Boulder's commitment to scientific and ethical integrity, as well as academic excellence in all research activities with which our students, faculty and staff are associated.

## Office of Animal Resources

The Office of Animal Resources (<http://www.colorado.edu/innovate/office-animal-resources-oar>) is a service center responsible for providing high quality animal care, veterinary care and support for the research and teaching missions of CU Boulder.

## Office of Postdoctoral Affairs

The Office of Postdoctoral Affairs (<http://www.colorado.edu/postdoctoralaffairs>) enhances and supports postdoctoral training and career development, helps build a sense of community among postdocs, and serves as a resource to campus and affiliated national labs.

## Research Development and Funding Opportunities

Research Development (<http://www.colorado.edu/researchinnovation/fundingawards>) offers a variety of tools and resources to help faculty, students and staff identify and develop opportunities for scholarly activities.

## Office of Industry Collaboration

The Office of Industry Collaboration (<http://www.colorado.edu/industry>) promotes and supports synergistic opportunities for engagement between CU Boulder and industry and business, strengthening connections that provide benefits to partners, students and local, state and national economies.

## Technology Transfer Office

The Technology Transfer Office (<http://www.colorado.edu/techtransfer>) (TTO) ensures that CU Boulder and UCCS's world-class research creates world-class impact, bringing together industry partners, entrepreneurs and investors to help researchers solve important problems and improve quality of life worldwide.

## AeroSpace Ventures

The CU Boulder AeroSpace Ventures (<http://www.colorado.edu/aerospaceventures>) initiative creates a collaborative environment in which CU Boulder's aerospace engineering and earth and space science faculty, students and industrial researchers work together to solve complex problems that lead to new discoveries and innovations.

## Grand Challenge

CU Boulder's response to the Grand Challenge (<http://www.colorado.edu/grandchallenges>), *Our Space. Our Future.*, fuses CU Boulder's unique strengths in earth, space and social sciences with new technologies and partners to address the pace and pattern of changes for our environment, our resources and our planet.

## Innovation & Entrepreneurship

CU Boulder fosters an environment for innovative thinking and the entrepreneurship spirit, offering a variety of programs and resources (<http://www.colorado.edu/entrepreneurship>) developed to foster and support creative ideas for new initiatives. From academic programs and student groups to community-wide support, you will find the resources and people to help you develop and launch ideas.

## Research Institutes

CU Boulder's 11 research institutes (<http://www.colorado.edu/research/research-institutes>) account for more than half of all sponsored research dollars at the university—and they employ some of the most productive researchers in the country. With more than 900 researchers, students and supporting staff, the institutes make a major contribution to the

university's research and education missions as well as the local and area economy.

## Research Centers

In addition to the large research institutes, there are nearly 90 research centers (<http://www.colorado.edu/research/research-centers>) housed within academic departments or as subsets of the research institutes themselves. They can be found in all fields of the university, including humanities and the arts, social sciences, natural sciences, engineering, business and law.

## Research Computing

Research Computing (<https://rc.colorado.edu>) provides services for researchers that include large-scale computing resources, storage of research data, high-speed data transfer capabilities, and support for data sharing. Additionally, the Research Computing group provides consulting in computational science and data management, and will support grant proposals by partnering or providing letters of support.

## Corporate and Foundation Relations

CU Boulder students and faculty benefit through the generosity of local and global companies, as well as foundations interested in supporting specific student programs or research areas. Every year, CU Boulder receives vital corporate and foundation support (<https://www.colorado.edu/advancement/corporate-foundation-relations>) for scholarships, faculty research, event sponsorships and many other critical areas.

To learn more about our major research & innovation services and initiatives, visit the Research & Innovation Office (<http://www.colorado.edu/researchinnovation>) webpage.

# UNDERGRADUATE CATALOG

The Office of the Vice Provost for Undergraduate Education is charged with overseeing the entire undergraduate student experience, including assessing outcomes and launching and supporting student-facing campus initiatives. The Office of Undergraduate Education develops and oversees first-year seminars and first-year interest groups; coordinates undergraduate academic policy; coordinates the campus advising structure; and is responsible for the coordination and assessment of campus retention and persistence initiatives.

The vice provost for undergraduate education oversees a variety of programs and offices that aren't affiliated with any single college but that serve all students across campus, including Air Force, Army and Naval ROTC; the Office of International Education; the presidents leadership class; special undergraduate enrichment programs, including the Boettcher and Norlin Scholars and the undergraduate research opportunities program; and the Student Academic Success Center.

Academic policies governing undergraduate education are initiated by the faculty in accordance with the laws of the Board of Regents. The Boulder Faculty Assembly is the largest of the faculty governance organizations and it interfaces with additional faculty governance groups in the colleges through a series of liaison relationships. Several advisory bodies are in place for the vice provost for undergraduate education, comprised of students, faculty and administrators. The Office of Undergraduate Education works closely with the offices of the vice chancellor for student affairs and the associate vice chancellor for enrollment management. The vice provost for undergraduate education reports to the provost.

## Academic Advising

Academic advising is a critical component in the success of undergraduate students. Its goal is to assist students in creating and achieving educational, career and life goals. Advising is more than offering information about academic courses and programs; it also involves encouraging students to formulate important questions about the nature and direction of their education. Advisors help students to explore their options and personalize their academic experience.

## Advising Centers

There are several advising centers across the Boulder campus, primarily housed in colleges and schools. Academic advisors are professional staff or faculty members who have an expertise in navigating the entire curriculum and in developing mentoring relationships with students. Students are encouraged to meet with an advisor at least once each semester.

**College of Arts & Sciences:** Serving students pursuing the natural sciences, social sciences, and arts and humanities.

**Leeds School of Business:** Serving students pursuing accounting, finance, management and marketing.

**School of Education:** Serving students pursuing Bachelor of Arts in elementary education, Bachelor of Arts in leadership and community engagement, education minor, leadership studies minor and teacher licensure.

**College of Engineering & Applied Science:** Serving students pursuing aerospace engineering; chemical and biological engineering; civil,

environmental and architectural engineering; electrical, computer and energy engineering; mechanical engineering; and computer science.

**Program in Environmental Design:** Serving students pursuing design studies, architecture, planning and landscape architecture.

**Program in Exploratory Studies:** Serving first-year students who are exploring across all colleges on campus.

**College of Media, Communication and Information:** Serving students pursuing advertising, PR and media design; communication; critical media practices; information science; intermedia art, writing and performance; journalism; and media studies.

**College of Music:** Serving students pursuing music and music performance.

**Continuing Education:** Serving degree-seeking and nondegree students enrolling in online, evening and summer classes.

## Academic Calendar & Exams

### Academic Calendar

The campus operates year round, with fall and spring semesters of 16 weeks each, a winter session in between fall and spring semesters, and a summer term that includes two three-week sessions (Maymester and Augmester), two five-week sessions, an eight-week session, a 10-week session and two intensive (one- or more-week) sessions.

For a complete calendar of academic and financial dates and deadlines, visit the Office of the Registrar's Academic Calendar (<http://www.colorado.edu/registrar/students/academic-calendar>) webpage. (<http://colorado.edu/registrar>)

The University of Colorado at Boulder has a legal and moral obligation to accommodate all students who must be absent from classes or miss scheduled exams in order to observe religious holidays; and takes care to not inhibit or penalize these students for exercising their rights to religious observance. For further information, see the university policy on the Observance of Religious Holidays and Absences from Classes and/or Exams (<http://www.colorado.edu/policies/observance-religious-holidays-and-absences-classes-and-or-exams>).

### Summer 2019

May 13 (Mon.)	Classes begin for session M (Maymester)
May 26 (Mon.)	<b>Memorial Day</b> holiday; campus closed
May 31 (Fri.)	Final exams for session M (Maymester)
June 3 (Mon.)	Classes begin for sessions A, C and D
July 4 (Thurs.)	<b>Independence Day</b> holiday; campus closed
July 5 (Fri.)	Final exams for session A (first five-week session)
July 9 (Tue.)	Classes begin for session B (second five-week session)
July 26 (Fri.)	Final exams for session C (eight-week session)

Aug. 5 (Mon.)	Classes begin for session G (Augmester)
Aug. 9 (Fri.)	Final exams for sessions B and D (second five-week session, 10-week session)
Aug. 22 (Thurs.)	Final exams for session G (Augmester)
Aug. 22 (Thurs.)	Degree conferral date (no campuswide ceremony)

## Fall 2019

Aug. 26 (Mon.)	Classes begin
Sept. 2 (Mon.)	<b>Labor Day</b> holiday; campus closed
Oct. 1 (Tue.)	Spring application deadline (all applicants)
Nov. 15 (Fri.)	Summer & Fall application deadline (early action, freshman applicants)
Nov. 25–27 (Mon.–Wed.)	Fall break; no classes
Nov. 28–29 (Thurs.–Fri.)	<b>Thanksgiving</b> holiday; campus closed
Dec. 12 (Thurs.)	Last day of classes
Dec. 13 (Fri.)	Reading day
Dec. 14–18 (Sat.–Wed.)	Final exams
Dec. 19 (Thurs.)	Degree conferral date (no campuswide ceremony)

## Spring 2020

Jan. 13 (Mon.)	Classes begin
Jan. 15 (Wed.)	Summer & Fall application deadline (regular decision, freshman applicants)
Jan. 20 (Mon.)	<b>Martin Luther King Jr.</b> holiday; campus closed
Mar. 15 (Sun.)	Summer application deadline (transfer applicants)
Mar. 15 (Sun.)	Fall application deadline (early notification, transfer applicants)
Mar. 23–27 (Mon.–Fri.)	Spring break (campus closed Friday, March 27)
Apr. 30 (Thurs.)	Last day of classes
May 1 (Fri.)	Reading day
May 2–6 (Sat.–Wed.)	Final exams
May 7 (Thurs.)	University commencement ceremony; degree conferral date

## Summer 2020

May 11 (Mon.)	Classes begin for session M (Maymester)
May 25 (Mon.)	<b>Memorial Day</b> holiday; campus closed
May 29 (Fri.)	Final exams for session M (Maymester)
June 1 (Mon.)	Classes begin for sessions A, C and D
June 1 (Mon.)	Fall application deadline (regular decision, transfer applicants)

July 2 (Thurs.)	Final exams for session A (first five-week session)
July 3 (Fri.)	<b>Independence Day</b> holiday (observed); campus closed
July 7 (Tues.)	Classes begin for session B (second five-week session)
July 24 (Fri.)	Final exams for session C (eight-week session)
Aug. 3 (Mon.)	Classes begin for session G (Augmester)
Aug. 7 (Fri.)	Final exams for sessions B and D (second five-week session, 10-week session)
Aug. 20 (Thurs.)	Final exams for session G (Augmester)
Aug. 20 (Thurs.)	Degree conferral date (no campuswide ceremony)

## Final Examinations

It is the policy of the University of Colorado Boulder to adhere to the final examination schedule as published by the Office of the Registrar each semester. Unless notified otherwise in writing during the first week of classes, students enrolled in undergraduate courses should assume that an examination will be given. While it may be appropriate not to give a final in some undergraduate courses, such as independent studies, laboratory courses, seminars, project-based courses and colloquia, final examinations are integral parts of the instructional program and should be given in all other undergraduate courses. Graduating seniors are not exempt from final examinations. Students enrolled in graduate courses should consult with their instructors on whether final examinations will be administered.

1. The final examination in a course should be given as scheduled by the Office of the Registrar and not at other times, even if the instructor and all students in a course agree to such a change. An instructor may allow individual students to take the final examination at an earlier or later time if the instructor is satisfied that an exception is based on good and sufficient reasons and if such an exception is unlikely to materially advantage or disadvantage the interests of other students in the course.
2. Students should consult with their instructors and course syllabi for final examination information for courses that are scheduled at non-standard times and are not included in the published final examination schedule.
3. Final examinations in summer courses and in courses offered during special (variable length) sessions in fall and spring semesters are typically administered on the last regular meeting day of the course. No Common Exams for multiple sections of a single course may be scheduled for special session courses.
4. The week of classes preceding the scheduled final examination period should be used primarily for continued instruction and may include the introduction of new material. For courses in sessions of ten weeks or longer, no examinations may be given during the week of classes preceding the start of the campus's final examination period; however, assignments listed in the syllabus such as papers, lab practicums, presentations, portfolios and projects may be due during that week.
5. Class sessions or graded assignments of any kind, including papers, lab practicums, presentations, portfolios and projects, may not take

place or be due on a day designated in the academic calendar as a Reading Day.

6. When students have three or more final examinations on the same day, they are entitled to arrange an alternative examination time for the last exam or exams scheduled on that day. When students have two final examinations scheduled to meet at the same time, they are entitled to arrange an alternative examination time for the course that meets later in the week during the term or, if the two courses meet on the same day during the term, the course that meets later in the day. Students must make arrangements with the instructor of the affected course(s) by the standard deadline to drop a course in that term and are expected to provide supporting written information of these situations to qualify for exceptions.
7. The submission deadline for grades each semester or special session is 96 hours after the conclusion of the final examination, excluding designated university holidays.
8. The Provost (or designee), in consultation with the Senior Vice Chancellor (or designee), may either reschedule or cancel final examinations in response to inclement weather or other emergencies that result in a campus closure during the final examination period. The administration's determination of whether to reschedule or to cancel final examinations is based on the number of exam periods affected by the closure and the timing of the closure.

## Rescheduled Exams

A final examination may be rescheduled within the final examination period. Students who do not participate in a rescheduled final examination are not guaranteed any make-up examination or alternative assignment, and in such cases students will be assigned course grades based on tests, assignments and other graded work completed up to the end of the term.

## Canceled Exams

If a final examination is canceled, course grades will be assigned based on tests, assignments and other graded work completed up to the end of the term. Faculty may also offer a make-up examination and/or allow for an alternative assignment to be submitted after the final examination period. However, such opportunities must be made available to all students enrolled in the course, all final work must be received and graded no later than the end of the first week of the subsequent term (inclusive of summer session), and faculty must then submit change of record information for students whose course grades change due to their work on make-up examinations or alternative assignments.

## Academic Integrity

A university's intellectual reputation depends on maintaining the highest standards of intellectual honesty. Commitment to those standards is the responsibility of every student, faculty and staff member on the University of Colorado Boulder campus.

## Honor Code

The intent of the Honor Code is to establish a community of trust.

Breaches of academic integrity include, but are not limited to, cheating, plagiarism and the unauthorized possession of examinations, papers and computer programs.

A student accused of academic dishonesty may either accept the accusation made by a faculty member or request a hearing to determine if there is a violation of CU Honor Code. In addition to academic sanctions

imposed by the faculty, students found responsible for academic dishonesty also face non-academic sanctions including, but not limited to, probation, required participation in educational seminars concerning academic writing and ethics, suspension or expulsion from the university. For information, visit the Student Conduct & Conflict Resolution (<https://www.colorado.edu/sccr/honor-code>) website.

## Cheating

Using unauthorized materials or receiving unauthorized assistance during an examination or other academic exercise. Examples of cheating include: copying the work of another student during an examination or other academic exercise or permitting another student to copy one's work; taking an examination for another student or allowing another student to take one's examination; possessing unauthorized notes, study sheets, examinations or other materials during an examination or other academic exercise; collaborating with another student during an academic exercise without the instructor's consent; using unauthorized technologies, such as calculators, computers and smart phones; and/or falsifying examination results.

## Plagiarism

Use of another's ideas or words without appropriate acknowledgment. Examples of plagiarism include: failing to use quotation marks when directly quoting from a source; failing to document distinctive ideas from a source; fabricating or inventing sources; and copying information from computer-based sources, i.e., the internet.

## Unauthorized Possession or Disposition of Academic Materials

Unauthorized possession or disposition of academic materials may include: selling or purchasing examinations, papers, reports or other academic work; possessing unauthorized solutions, instruction manuals or texts; taking another student's academic work without permission; possessing examinations, papers, reports or other assignments not released by an instructor; and/or submitting the same paper for multiple classes without advance instructor authorization and approval.

## Academic Records Diplomas

A diploma is issued for each degree earned at the University of Colorado Boulder. Doctoral candidates receive their diplomas at the spring commencement ceremony (diplomas may be picked up or mailed if not attending the ceremony or graduating in summer or fall term). Diplomas are mailed to all other graduating students approximately eight weeks after the close of the semester in which degree requirements were completed and the student applied for graduation. All financial obligations with CU must be resolved before a diploma is issued.

CU Boulder also offers a certified electronic diploma (CeDiploma) (<http://www.colorado.edu/registrar/students/graduation/cediploma>) for students who complete a university-approved certificate from Fall 2015 and onwards.

Graduating students with Federal Perkins/NDSL loans must complete a loan exit interview and clear all outstanding financial balances before leaving the university. Failure to do so results in a hold on the student's record. The hold prevents registration for future terms and prevents the release of the diploma and academic transcript. Students can complete a loan exit interview by contacting Heartland ECSI at 1-888-549-3274 or via the Heartland ECSI (<http://www.heartlandecsi.com>) website. Questions

may be directed to University Student Loans & Debt Management in the Bursar's Office at 303-492-5571, toll free at 800-925-9844.

Display diplomas or replacement diplomas may be ordered online after graduation. For more information, visit the Office of the Registrar's Diplomas (<http://www.colorado.edu/registrar/alumni/diplomas>) webpage.

## Enrollment & Degree Certification

Using MyCUInfo (<http://mycuinfo.colorado.edu>), students may print an official enrollment certification at no charge. Certification of enrollment is available after the third week of classes of a semester. This certification may be for car insurance, loan deferments, medical coverage, scholarship purposes, etc. The Office of the Registrar can provide written confirmation of registration, enrollment or degree status upon request by current or former students.

CU Boulder has authorized the National Student Clearinghouse (NSC) to act as its agent for purposes of third party enrollment and degree verification. The NSC verifies degrees and enrollment for students who have not placed a privacy restriction on their academic record. The student's name when enrolled, social security number or student ID, and date of birth will be required for identification purposes for enrollment or degree verification. All third parties should contact the National Student Clearinghouse by phone or visit its web site for current enrollment and degree verification information, instructions and fees.

University policy determines the *academic* enrollment status and federal regulation determines the *financial aid* enrollment status. CU Boulder is required to report enrollment based on the financial aid enrollment status to the NSC. Please refer to the Office of the Registrar's enrollment status grid (<https://www.colorado.edu/registrar/sites/default/files/attached-files/enrollmentstatusgrid.pdf>) to determine your academic/financial aid enrollment status.

Students may also obtain verification of degree by ordering an official transcript or requesting an official degree certification through the Office of the Registrar.

## Transcripts

### Official Transcripts

Current and former students may order transcripts online ([https://exchange.parchment.com/send/adds/index.php?main\\_page=login&s\\_id=7i3anAeWu6K3ErXO](https://exchange.parchment.com/send/adds/index.php?main_page=login&s_id=7i3anAeWu6K3ErXO)); no IDentiKey is required. Official transcripts are available in electronic PDF or paper format. Transcripts may be ordered as either a complete academic record of courses taken at all University of Colorado campuses or as a select career (undergraduate, graduate, law or noncredit) for coursework taken after 1988.

Transcripts can be withheld for ongoing financial obligations to the university or for disciplinary actions.

Official transcripts bear the signature of the registrar and the official seal of the university (not applicable to noncredit transcripts).

### Unofficial Transcripts

Currently enrolled students and alumni who have access to the MyCUInfo portal may access and print unofficial transcripts free of charge through MyCUInfo (<https://mycuinfo.colorado.edu>). Unofficial transcripts display the complete academic record of courses taken at the University of Colorado. However, academic institutions and potential

employers generally do not accept the unofficial transcript as evidence of a student's career at CU Boulder, as this transcript does not carry the registrar's signature, the seal of the university or other security features. Unofficial transcripts are primarily used for advising and counseling in offices at University of Colorado campuses.

## Degrees & Majors

In order to earn a baccalaureate degree from the University of Colorado Boulder, students must meet all degree and major requirements for their program of study and earn a minimum of 120 cumulative credit hours and a minimum of a 2.00 GPA. It is important to note that some degree and program requirements are higher than these minimum standards. See college and school sections of this catalog for specific degree policies and requirements.

In addition, students at CU Boulder may pursue dual degrees, concurrent degrees or additional majors, minors and/or certificates. See the [Change or Add a Major, Minor or Certificate](https://www.colorado.edu/registrar/students/degree-planning/change-add-program/#business-522) (<https://www.colorado.edu/registrar/students/degree-planning/change-add-program/#business-522>) webpage for more direction.

### Dual Degrees

A dual degree at the baccalaureate level can be two different degrees from the same college or school (e.g., a BA and BFA from the College of Arts and Sciences), or two degrees from different colleges or schools (e.g., a BA from the College of Arts and Sciences and a BS from the College of Engineering and Applied Science). In order to earn dual baccalaureate degrees, students must meet all individual degree requirements and receive approval from the academic college or school for each degree. Both degrees must be confirmed with the same graduation date (degrees are awarded concurrently).

Students who wish to pursue an additional baccalaureate degree *after* graduating with a baccalaureate degree from CU Boulder must apply for readmission to the university. In addition, students should work with an academic advisor in the intended degree program to determine appropriate procedures and additional requirements (e.g., additional residency requirements may apply beyond course requirements for the second degree and major). Not every college and school permits students to complete an additional baccalaureate degree after graduation.

### Bachelor's–Accelerated Master's Degrees

Bachelor's–accelerated master's (BAM) degree programs are offered in several departments. These programs allow a student to receive both a bachelor's and master's degree in five years of study without compromising the academic integrity of either degree.

BAM programs are open only to highly qualified CU Boulder undergraduates. Students are typically admitted during the junior year with an intent application reviewed by their program. BAM students must apply online to graduate with their bachelor's degree for the semester in which degree requirements are complete, and must also apply at that time to be formally admitted to continue with the accelerated master's program. (Students who were admitted prior to July 2019 follow a concurrent bachelor's/master's structure, and the two degrees are awarded simultaneously when requirements for both degrees are met.) Students wishing to continue studying toward a doctorate must formally apply for admission to the Graduate School.

Students interested in a BAM program should inquire with their program of interest for information regarding admissions and detailed program guidelines and requirements.

Please see below for currently approved BAM degree programs offered, listed by college and school. Or, explore BAM program options in the Programs A-Z section ([catalog.colorado.edu/programs-a-z/#filter=filter\\_53](http://catalog.colorado.edu/programs-a-z/#filter=filter_53)) of the catalog.

### College of Arts and Sciences

- Computer Science/Telecommunications
- Electrical Engineering
- Electrical and Computer Engineering/Electrical Engineering
- Electrical and Computer Engineering/Telecommunications
- Engineering Physics/Physics
- Environmental Engineering/Civil Engineering

- Management/Telecommunications
- Mechanical Engineering

### Additional Majors

Some colleges and schools permit students pursuing a baccalaureate degree to graduate with more than one major (e.g., economics and French) under the same degree (e.g., BA) by completing all requirements for each major. The majors must be completed concurrently and will post to a degree record with the same graduation date. A minimum of 120 total credit hours is required for a degree with additional majors.

### Minors

Students earning a baccalaureate degree may participate in a minor program. Minors are offered in a number of undergraduate colleges, schools and programs.

### Certificates

Undergraduate students may pursue formal certificates in a variety of academic or interdisciplinary subjects. Each certificate program has unique requirements. Degree-seeking students who have been verified to have completed certificate requirements will have the certificate/s posted to their academic record at the time of graduation. Nondegree students who are approved to pursue select certificate programs must be admitted through Continuing Education.

### Degree Audit

Degree audit reports are available for most degree and certificate programs to help students and advisors track requirements and progress in order to help them graduate on time. The degree audit outlines courses needed for the degree and applies college or school-defined policies, including transfer credit applicability and repeated course rules. The audit also provides hypothetical "what if" degree information. Students and advisors can access the degree audit tool through MyCUInfo (<http://mycuinfo.colorado.edu>).

### Class Level

Class level is based on the total number of credit hours passed, as follows:

<b>Freshman</b>	0–29.9 credit hours
<b>Sophomore</b>	30–59.9 credit hours
<b>Junior</b>	60–89.9 credit hours
<b>Senior</b>	90–123.9 credit hours
<b>Fifth-Year Senior</b>	124 and above credit hours

The normal course load for most undergraduates is 15 credit hours each semester.

### Course Load

Full-time status for undergraduate students is 12 or more credit hours for fall, spring and summer semesters for financial aid purposes. For enrollment verification and academic purposes (not related to financial aid), 12 credit hours is considered a full-time load in the fall and spring semester, and 6 credit hours is considered full time in the summer. For further information, please consult the Office of Financial Aid (<https://www.colorado.edu/financialaid/apply-aid>) website.

Students who receive financial aid or veterans benefits or who live in university housing should check with the appropriate office regarding course-load requirements for eligibility purposes.

## Intra-University Transfer Students

Students wishing to change colleges or schools within the CU Boulder campus follow the intra-university transfer (IUT) guidelines from the college or school into which they wish to transfer.

For more information on recommended coursework in preparation for an IUT and other criteria, students need to consult college and school sections of this catalog or talk with an academic advisor in the program to which they plan to transfer. Some colleges and schools do not accept IUT students during the summer. It is important to note that admission to a college through the IUT process is competitive, and not all students who apply are admitted. Decisions are based on course preparation, credit hours completed, grade point average and other criteria required by the specific college or school. See the Change or Add a Major, Minor or Certificate (<https://www.colorado.edu/registrar/students/degree-planning/change-add-program/#business-522>) webpage for more direction.

## Academic Standing

Each college and school at CU Boulder has published minimum requirements for undergraduate students to remain in good academic standing. See respective college and school sections related to academic standards, including policies for probation and suspension.

In addition, federal regulations require students to make satisfactory academic progress in a program of study to be eligible for financial aid. For additional information, see the Satisfactory Academic Progress (SAP) Policy (<http://www.colorado.edu/financialaid/policies/satisfactory-academic-progress-sap-policy>) webpage.

## Class Rank

After an undergraduate student graduates, they can receive a document that indicates their class rank among graduating students within the last year. Students in the College of Arts and Sciences and the College of Engineering and Applied Science will have a ranking within their major degree program. Students in other schools, colleges and programs will have a ranking within their college. The request form is available in MyCUInfo (<http://mycuinfo.colorado.edu>).

## Admissions

The Office of Admissions welcomes inquiries from prospective students regarding undergraduate admission. Through the admission process, the university seeks to identify applicants who will successfully complete a collegiate academic program. Admission is based on many criteria, including high school GPA or GED test scores, high school rank, the quality of coursework, college entrance test scores, personal essays and the extent to which the minimum academic preparation standards (MAPS) (p. 41) have been met.

For additional undergraduate admission information, visit the Admissions (<http://www.colorado.edu/admissions>) web page.

## Visiting the Campus

Prospective students and their families are welcome to visit the Office of Admissions in Regent Administrative Center, room 125, between 9 a.m. and 5 p.m. (summer hours are 8:30 a.m. to 4:30 p.m.), Monday through

Friday, except on holidays. Daily information sessions, walking tours of the campus and special all-day visit programs are offered. Although interviews are not used in the decision-making process, you are invited to visit the campus.

The best time to see the campus is when classes are in session (September through mid-December and mid-January to early May, with the exception of spring break); see the academic calendar (p. 17) for specific dates. There are dates when information sessions, campus tours and visit programs are not held due to holidays or university closures. It is important to check our website for the most current information.

## Reservations

Reservations are required for all information sessions, tours and visit programs and can be made through our Admission Visit Programs (<http://www.colorado.edu/visit/admissions>) webpage. There, you'll also find complete visit program descriptions, dates, reservation forms and campus maps. Visit program dates for future academic years are added to the website as they become available (usually in August each year).

## Daily Information Sessions and Campus Tours

Information sessions with an admission counselor are held Monday through Friday at 9:30 a.m. and 1:30 p.m. Following the information sessions are walking tours of the campus led by student guides, beginning at 10:30 a.m. and 2:30 p.m. Combined information sessions and tours are also held at 10:30 a.m. on most Saturdays.

## Campus Visit Programs

An excellent way to become acquainted with the campus is to participate in one of the campus visit programs specially designed for prospective students and their families.

These programs are offered throughout the year and provide prospective students and their families the chance to participate in information sessions, take a campus tour, learn more about residence hall life, talk with student and parent panels and meet with campus representatives, as well as attend classes or listen to a sample lecture. For more information about any or all of these visit programs or instructions on how to register, go to the Admission Visit Programs (<http://www.colorado.edu/visit/admissions>) webpage or call the Office of Admissions.

## General Admission Information

### Choosing a Program of Study

When applying for admission, students need to choose a major in one of CU Boulder's colleges or schools. Applicants who have not decided on a major can select the Program in Exploratory Studies. This allows students to work with a group of highly-skilled advisors who can help them explore their various interests, set academic goals and customize their educational path. At the end of the first year, students transfer to one of the degree-granting academic options on campus or opt to continue with Exploratory Studies through their third semester. Students can also change their area of study, but this can result in additional course requirements that may add to the number of semesters necessary to complete a degree.

Although applicants can apply to only one CU Boulder college or school, after enrollment they can apply for transfer to another CU Boulder college

or school through the intra-university transfer (IUT) process. Criteria for transferring from one college or school to another are competitive, and each college or school establishes its own standards.

## Double Degrees, Double Majors, Minors and Certificate Programs

There are several programs that allow students to include additional areas of academic concentration beyond their chosen major. Two different degrees, either from the same college or school, or degrees from different colleges or schools, may be earned, providing certain conditions are met. Students are admitted to one major and degree program initially but may pursue a second degree as early as their first semester of enrollment. Minor programs are offered in a number of undergraduate departments and programs in the College of Arts and Sciences, the Leeds School of Business, the College of Engineering and Applied Science and the School of Education. Certificate programs in arts and sciences, business, engineering and music fields are also available.

## Preprofessional Study

Preprofessional advisors are available to help students interested in medicine, dentistry, physical therapy, veterinary medicine, nursing, pharmacy, physician assistant and other health professions or law. Students interested in these fields may apply to any of the majors open to new undergraduates, including the open option major in the College of Arts and Sciences. Students interested in one of the undergraduate or graduate health sciences programs offered at the University of Colorado Anschutz Medical Campus may complete preprofessional work on the Boulder campus. Admission is competitive, but preference to all health sciences programs is given to Colorado residents.

For more information, see the Preprofessional Programs (p. 878) section or visit the Pre-Health (<http://www.colorado.edu/advising/pre-health>) webpage.

## Music Applicants

Prospective music majors must submit both an undergraduate application for admission to the Office of Admissions, and a College of Music supplemental application.

All music applicants are initially considered for admission to the College of Arts and Sciences Open Option major. Admission to a College of Music degree program (Bachelor of Arts in Music, Bachelor of Music Education, Bachelor of Music) is determined after the music audition and application evaluation process has been completed. Students who are admitted to the College of Arts and Sciences but not the College of Music will be able to keep their place in the College of Arts and Sciences.

Live auditions, which are preferred unless travel distance is prohibitive, are scheduled for selected Saturdays in January and February. Other live audition times may be arranged; high quality recordings also may be submitted in lieu of a live audition.

College of Music scholarships are awarded to music majors only. High school and college transfer students are automatically considered for merit-based music scholarships upon completion of the application process, including the audition. Transfer students who are receiving a music scholarship from their current institution must submit a scholarship release form before they can be awarded a music scholarship.

To access the College of Music Supplemental Application Form, as well as more detailed information about audition requirements, faculty and degree programs, visit the college's Admissions (<http://www.colorado.edu/music/admissions>) webpage.

## Teacher Education Applicants

The School of Education offers multiple pathways for teacher candidates interested in transformative careers in education.

Undergraduate students interested in K–6 Elementary Education may either pursue the bachelor's degree in elementary education or complete the teacher licensure requirements while earning a bachelor's degree from another college on campus. Students interested in K–12 Music Education complete the teacher licensure requirements while earning a Music Education degree from the College of Music. Students interested in Secondary (7–12) teacher education will complete the teacher licensure requirements while earning a bachelor's degree in a corresponding field. CU Boulder offers secondary programs in English Language Arts, Mathematics, Science, Social Studies and the following world languages: French, German, Japanese, Latin, Russian and Spanish.

Students interested in an undergraduate degree combined with teaching licensure must first apply to the CU Boulder undergraduate degree-granting program, and then submit their application and credentials to the School of Education. Undergraduate students who plan to pursue teacher education should declare this intent to the school's Office of Student Services as soon as possible after enrolling at CU Boulder.

Teacher education applicants who have previously completed a four-year undergraduate degree program must submit their application to the Office of Admissions.

Refer to the School of Education section for more information about teacher education. For application and deadline information, interested students may also visit the School of Education (<http://www.colorado.edu/education>) website, email [EdAdvise@colorado.edu](mailto:EdAdvise@colorado.edu) or call 303-492-6555.

## College Readiness in English and Mathematics

The state of Colorado mandates that all undergraduate students entering public institutions of higher education in Colorado be screened for college readiness in reading, writing and mathematics. To pass the screening requirements, students must present minimum test scores.

Students who have successfully completed four years each of college preparatory English and college preparatory math courses are deemed to have met the respective requirements regardless of the test score.

Students who do not meet CU Boulder's criteria for college readiness will be required to demonstrate readiness through an additional examination or to enroll in preparatory courses prior to completing the first 30 credit hours of coursework on the Boulder campus. Students who have not demonstrated reading, writing and/or mathematics readiness will receive additional details after they confirm their intent to enroll at CU Boulder.

## Admission Requirements

## Freshmen

Students are freshman applicants if they are currently enrolled in high school, or if they have earned a high school diploma or its equivalent and have not enrolled in a college or university since graduation.

### Admission Criteria

Many factors are considered in evaluating students' applications for admission to CU Boulder. Although academic performance in high school (high school GPA and the quality of coursework) is the most important indicator of success, other factors are also considered. These include students' college entrance test scores (either the SAT or ACT), the trend in their grades, the extent to which the minimum academic preparation standards (MAPS) are met, their personal essays and the potential contributions they may make to the campus community. For information on MAPS, see the MAPS table (p. 41) in this section.

Applicants whose records reflect nontraditional grading systems, unusual curricula or high school equivalency through the GED test will receive individual consideration.

### College Entrance Tests

CU Boulder requires either the SAT or the ACT for admission consideration. We do not require the ACT Writing Test or the SAT Essay for CU Boulder admission consideration. The highest scores are used in the admission decision. If the same test is taken more than once, the scores are combined on each subsection to give the highest overall score. SAT subject test scores are not required. CU Boulder requires all visa holders graduating from a US high school to submit either an SAT or ACT score. We encourage all students to submit an SAT or ACT score to receive consideration for our automatic merit scholarships. For more information, see the Application Process (p. 28) section.

### Minimum Academic Preparation Standards (MAPS)

Students who graduated from high school in 1988 or later are expected to have completed courses that meet certain minimum academic preparation standards (MAPS) before enrolling at CU Boulder. Students who attended a non-U.S. high school for two years or more are not subject to MAPS. Any MAPS deficiency will be considered during the admission review process. The MAPS for specific CU Boulder colleges and schools are listed in this section.

Students may be admitted to CU Boulder even though they have not met all the MAPS requirements. If that is the case, they are required to complete the appropriate MAPS courses once enrolled, and the credit hours may be applied toward graduation. *All MAPS deficiencies must be completed prior to graduation from CU Boulder.* Students may also complete missing MAPS coursework at other colleges or universities, through approved credit-by-examination programs or by testing out through the appropriate foreign language department.

### Policies Concerning MAPS Deficiencies

The policies of the Boulder campus with respect to completing MAPS coursework after enrollment are as follows.

1. Appropriate missing MAPS coursework is generally included in the credit hours for graduation.
2. All coursework toward fulfillment of the MAPS must be taken for a letter grade.
3. It is strongly recommended that students enroll in and complete at least one MAPS course each term, beginning in the first term of enrollment, until such time as all MAPS are completed. This policy

applies to new freshmen, transfer students and students transferring from other academic units on the Boulder campus and from other campuses of the university. Some colleges or schools may impose a sanction if the student does not complete one course per semester toward meeting MAPS deficiencies.

4. All students who first enroll in one academic unit at CU Boulder and subsequently transfer to another unit are required to meet the MAPS specified for the new unit, irrespective of their completion of MAPS units in their previous college or school.
5. Students in double-degree programs must meet MAPS requirements of both degree-granting units.
6. Students must consult with a CU Boulder academic advisor (or read their college or school's academic publications) to determine which specific courses may be used to meet a MAPS requirement (p. 41).

### Advanced Placement

CU Boulder participates in the Advanced Placement program of the College Board. More than one-third of Boulder's entering freshmen submit Advanced Placement (AP) test scores each year. Official scores must be sent to the admissions office directly from the College Board for both first-year students and transfer students. For a guide to specific equivalencies, see the Advanced Placement (AP) Credit Table (p. 30).

For more information, write or call:

#### AP Exams

P.O. Box 6671  
Princeton, NJ 08541-6671  
609-771-7300 or toll free 888-225-5427  
[aphighered.collegeboard.org](http://aphighered.collegeboard.org) (<http://aphighered.collegeboard.org>)

### International Baccalaureate

The International Baccalaureate (IB) Diploma programs provide preuniversity study. IB examinations, whether leading to a full IB diploma or to an IB certificate often qualify students for advanced standing at CU Boulder. In general, credit hours are granted for approved IB examinations at the higher level with a score of 4 or better.

Students admitted to the University of Colorado Boulder who have graduated from high school having successfully completed an International Baccalaureate Diploma program shall be granted 24 hours of college credit. Students should check with their college or school to determine if or how the earned college credit hours apply toward degree requirements. No CU Boulder tuition shall be charged for these credit hours. These credit hours shall be granted, however, only if the student receives a score of 4 or better on an examination administered as part of the IB Diploma program. If the student scores less than 4 on any IB subject test, the credit hours granted shall be reduced accordingly.

An official copy of the diploma with test scores must be sent to the admissions office directly from the IB organization. For a guide to specific equivalencies, see International Baccalaureate (IB) Credit Table (p. 33). For the most current information on how CU Boulder evaluates IB credit hours, visit the Credit for Coursework or Exams (<https://www.colorado.edu/admissions/selection/credit>) webpage.

For more information on test administration, write or call:

#### International Baccalaureate Organization

www.ibo.org (<http://www.ibo.org>)

## Freshman Applicants Not Granted Admission

Students who are not granted admission as entering freshmen may consider transferring to CU Boulder after successful study elsewhere. Students are encouraged to complete at least one full year of transferable college or university coursework, including any courses outlined in the MAPS table (p. 41) that were not met in high school.

## Transfer Students

Applicants are considered transfer students if they enrolled in any college-level coursework (at another college or university, or other campus of the University of Colorado), full time or part time, since graduating from high school. Applicants are not considered transfer students if the only college-level classes they have taken were while enrolled in high school. To be considered for admission, transfer students must report all previous college work and have a high school diploma or its equivalent.

## Competitive Admission Criteria

Transfer applicants are considered for admission on the basis of transfer as well as freshman criteria, including minimum academic preparation standards (MAPS). All transfer applicants who graduated from high school in 1988 or later are expected to have completed MAPS requirements before enrolling at CU Boulder.

CU Boulder's aim is to offer highly qualified and intellectually curious transfer students the opportunity to continue pursuing their educational goals. We practice a holistic admission review process, taking into account a variety of primary academic and secondary factors as they relate to your projected success in our competitive academic environment. You will be considered on an individual basis relative to a prediction of your academic success in the college to which you apply. For more information on competitive transfer admission guidelines, visit the Transfer Students (<https://www.colorado.edu/admissions/transfer>) webpage.

## College of Arts and Sciences

A cumulative college GPA of 2.50 or better in appropriate general education courses is required. Students who complete 30 credit hours of transfer-level work with a cumulative GPA of 2.70 at a Colorado community college and who apply by the equal consideration deadline are assured admission to the College of Arts and Sciences. Students must complete all of the Minimum Academic Preparation Standards (MAPS) to be guaranteed admission.

NOTE: This information applies to students who entered college after spring 1988. For those students who entered college prior to summer 1988, contact the Office of Admissions.

## Leeds School of Business

A cumulative college GPA of 3.00 or higher and completion of microeconomics and macroeconomics and either statistics (business statistics strongly preferred) or calculus with competitive letter grades is required for admissions.

## School of Education

The School of Education offers two bachelor's degree programs in Elementary Education (plus a Culturally & Linguistically Diverse endorsement) and Leadership & Community Engagement. A cumulative college GPA of 2.75 or better as well as 24 completed college credits in

general education requirements, as well as a prerequisite course such as School and Society.

The School of Education also offers licensure programs in elementary, secondary and K-12 music education. The licensure fields in secondary education include English, foreign language, mathematics, science and social studies. Teacher licensure at the undergraduate level must be combined with a bachelor's degree program. If applicants do not already have a bachelor's degree, they should apply to a major of interest that will supplement their teaching goals. Once enrolled at CU Boulder, students have the opportunity to apply for the licensure program through the School of Education.

Teacher education applicants who have previously completed a four-year undergraduate degree program must submit their application to the Office of Admissions.

Refer to the School of Education (p. 602) section for more information about teacher education. Interested students may also visit the School of Education (<http://www.colorado.edu/education>) website.

## Program in Environmental Design

A college GPA of 2.75 or higher is required. Preference is given to students who have had drafting, architecture and/or fine arts courses in college. A good math and science background is also essential.

## College of Engineering and Applied Science

A cumulative college GPA of 3.0 or higher is required. Transfer applicants must have taken courses relevant to an engineering curriculum, including at least two semesters of college-level calculus and one semester of calculus-based physics or one semester of college-level chemistry. Chemical, Chemical and Biological and Environmental Engineering majors must take one semester of chemistry but are encouraged to take two semesters. (Exception: students [resident or nonresident] who apply for admission for a semester which occurs within 18 months of their high school graduation date may also be competitive without having taken the above coursework, as long as their high school academic record is competitive. In addition, if any college-level work has been completed, an overall GPA should be 3.0 or higher.)

Prerequisites must be completed with a grade of B or better.

The college guarantees admission to any of its baccalaureate degree programs to students transferring from Colorado public institutions of higher education who meet the College of Engineering and Applied Science Guaranteed Admission Criteria for Colorado Transfers (<http://www.colorado.edu/admissions/transfer>).

## College of Media, Communication and Information

Transfer students are required to have an overall GPA of 3.0 or higher. Students with more than 36 credit hours must have completed an introductory course in the major they intend to pursue, with a GPA of 3.0 or higher.

- Communication majors: Public Speaking OR Group Communication
- Information Science majors: Intro to Computer Science OR Intro to Programming
- Journalism majors: Media News and Reporting OR New Media/ Internet Media
- Media Production majors: Intro to Film Art
- Media Studies majors: Intro to Mass Media
- Strategic Communication majors: Intro to Public Relations OR an equivalent Principles of Public Relations course

## College of Music

A cumulative college GPA of 2.75 or higher and an audition of all applicants is required. More information may be found at the College of Music Undergraduate Transfer Students (<https://www.colorado.edu/music/admissions/undergraduate-transfers>) webpage.

## College Entrance Tests

Transfer students are required to submit SAT or ACT scores, except those who have completed 24 or more semester hours of transferable college-level work at the time they apply.

Students' highest scores are used in the admission decision. If the same test is taken more than once, the scores on each subsection are combined to give the highest overall score. SAT subject test scores are not required. For more information, visit the Selection Process (<https://www.colorado.edu/admissions/selection>) website.

## Minimum Academic Preparation Standards (MAPS)

Effective for students who graduated from high school in spring 1988 or later, CU Boulder expects all transfer students to have completed courses that meet certain minimum academic preparation standards (MAPS). For MAPS requirements for specific CU Boulder colleges and schools, see the MAPS chart (p. 41).

MAPS requirements not met in high school may be met through equivalent college-level coursework before or after transfer to CU Boulder. A semester course completed at the college level substitutes for a year of work in high school. Students who attended a non-U.S. high school for two years or more are not subject to MAPS.

## International Students

### International Degree-Seeking Students

The university invites applications from qualified international students. International applicants are those who already have, or will be applying for, a temporary U.S. visa such as F-1 and J-1. Applicants who are United States citizens, permanent residents, asylees or refugees are not considered international. These students should follow application and admission procedures for undergraduates or graduates as described elsewhere in this catalog.

More than 3,100 international students from more than 100 countries study at CU Boulder. Applications for admission are processed by the Office of Admissions. International students who wish to pursue a full-time program of study at the undergraduate or graduate level should visit the Admissions (<https://www.colorado.edu/admissions>) website for admission information and online application forms.

Assistance after admission is provided by International Student and Scholar Services (<https://www.colorado.edu/iss>), located in the Office of International Education. CU Boulder offers a full range of services to international students, including a host family program, orientation, special programs and activities for international students and personal attention to individual needs. For information, visit the International Student and Scholar Services Student Resources (<https://www.colorado.edu/iss/student-resources>) webpage.

Intensive English language instruction is also offered by the International English Center (<http://iec.colorado.edu>). For information, email [ieccu@colorado.edu](mailto:ieccu@colorado.edu) or call +1-303-492-5547.

Prospective graduate students should visit the Graduate School Admissions (<https://www.colorado.edu/graduateschool/admissions>)

website for information and application forms specific to the academic department in which they are interested. Prospective graduate students can also call the campus telephone operator at +1-303-492-1411 and ask to have the call transferred to the department of interest or write to the specific department, University of Colorado Boulder, Boulder, CO 80309.

## International Nondegree Students

The University of Colorado Boulder welcomes nondegree visiting international students from around the world. International students who are requesting a form I-20 (for an F-1 visa) are required to enroll full-time (6 credit hours in summer and 12 credit hours in fall and spring semesters). In order to maintain F-1 status, international students should not drop below full-time enrollment. Students on B-1/B-2 visas may be eligible to take one course. Visiting international students must meet academic prerequisites in order to enroll. Visiting international students who are not native speakers of English must also demonstrate English language proficiency by submitting valid TOEFL or IELTS scores, or by submitting proof that they completed at least one year of full-time academic study at a U.S. college or university or at an institution in a country where English is the native language (i.e., Australia, Canada).

Email [ceadvise@colorado.edu](mailto:ceadvise@colorado.edu) ([ceadvisor@colorado.edu](mailto:ceadvisor@colorado.edu)) for additional information.

## Readmit Students

CU Boulder undergraduate degree-seeking students who have not attended the Boulder campus for three semesters (including summer) since their last graded semester must submit the undergraduate Application for Readmission (<https://www.colorado.edu/admissions/apply>) to the Office of Admissions. No application fee is required. Students who have attended any other college or university since attending CU Boulder must submit official transcripts directly from the issuing institution(s) to the Office of Admissions.

Students seeking readmission into a different college or school than that in which they were previously enrolled must note the requested change on their application. Otherwise, the university assumes that students will return to the same field of study, if eligible to do so. Students who request a change in college or school for which they are not eligible must request reconsideration for their previous program.

Former students in the College of Arts and Sciences wishing to return to the college must apply to their previous major. Students who wish to pursue a second undergraduate degree must apply to a major different from the one in which they received their degree. Students may not apply for a second bachelor's degree in the Leeds School of Business or the College of Media, Communication and Information.

Continuing undergraduate degree-seeking students who do not attend for three or fewer semesters (including summer), and who were not academically suspended are automatically eligible to return without having to readmit (does not apply to graduate students). This policy includes degree-seeking undergraduates who are only taking classes through Continuing Education. During these semesters of non-enrollment, students' CU Boulder email and MyCUInfo accounts remain open. To return, students should register for classes during the regular enrollment period for the returning term. Students who received a refund of the confirmation deposit must repay it when returning. Consult the Withdrawal Return Chart (<https://www.colorado.edu/registrar/students/withdraw-cu>) for important details.

## Nondegree Students

Students who wish to take CU Boulder courses but are not currently admitted to a degree program at the university are classified as "nondegree students." Students apply as nondegree students through the Division of Continuing Education (<https://ce.colorado.edu>). Nondegree students may enroll in credit classes through the ACCESS (Available Credit Courses for Eligible Special Students) Program, the Evening Credit Program, the Online Credit Program, the Applied Music Program and Summer Session.

All nondegree students must have completed high school or have a high school equivalency diploma. Nondegree applicants under the age of 22 not enrolled in high school must meet criteria similar to freshmen entering CU Boulder. To determine eligibility, applicants must provide an unofficial copy of their high school transcripts and ACT/SAT scores.

If students have been denied admission to an undergraduate degree program, they may not enroll as nondegree students in the ACCESS Program for the semester for which they sought degree program admission. Nondegree student admission does not guarantee future admission to any degree program.

Nondegree students may also enroll for courses on a pass/fail basis. These courses are counted toward credit hours of pass/fail coursework permitted according to the rules of the college or school to which students are admitted once they achieve degree status.

Nondegree students must maintain a 2.00 cumulative GPA. Failure to maintain the required GPA will result in the inability to continue taking classes as a nondegree student.

High school students interested in taking courses at CU Boulder apply as nondegree students through the High School Concurrent Program (<http://ce.colorado.edu/programs/high-school-concurrent>) administered by the Division of Continuing Education.

International students who want to apply to the university as nondegree students should read the International Students section above. Students interested in teacher licensure should refer to the School of Education section.

### Nondegree Students Transferring to a Degree Program

Students who are currently enrolled or have been enrolled at any CU campus as nondegree students may apply for admission to an undergraduate degree program.

Students wishing to transfer to a graduate degree program should refer to the Graduate School section and individual college and school sections.

A degree-seeking applicant may transfer an unlimited number of credit hours taken as a nondegree student on any University of Colorado campus. However, applicability of these credit hours toward degree requirements is established by the colleges and schools. It is suggested that a student apply to a degree program as soon as admission requirements, including MAPS deficiencies, have been met. It is essential that former nondegree students actively seek academic advising from the appropriate dean's office once they have been accepted into a degree program.

## Second Undergraduate Degree Applicants

Students may apply for a second undergraduate degree at the University of Colorado Boulder, but should explore the various options in graduate

study available at the university before doing so. Students applying for a second undergraduate degree must follow transfer admission guidelines, and those students who are admitted must keep in mind that all college and major requirements must be met in order to complete degree programs satisfactorily. Restrictions mandated by general university policies, as well as specific college and school policies, include the following:

- Applicants may not apply to the major in which they received their first undergraduate degree.
- Applicants must apply to a specific major; applications for an open option or undetermined major cannot be considered.
- Second undergraduate degree applicants in the Program in Environmental Design are encouraged to investigate graduate programs.
- The Leeds School of Business and the College of Media, Communication and Information do not consider students who have already completed an undergraduate degree. These students are strongly encouraged to investigate graduate study.
- Students who already have an undergraduate degree from the College of Engineering and Applied Science and who desire a second undergraduate degree are strongly encouraged to investigate graduate study as an option.
- Credit hours earned as a nondegree student at the University of Colorado may not be used toward major degree requirements for a second degree in the College of Arts and Sciences.

## Students from Other CU Campuses

Students who wish to transfer to Boulder from another University of Colorado campus (Colorado Springs, Denver or Anschutz), from CU Study Abroad or from CU Continuing Education should refer to the Transfer Applicants (p. 25) section. These students must send a high school transcript, SAT or ACT scores and an official transcript from each college or university attended (outside the University of Colorado system) to the Office of Admissions. Currently enrolled degree students are not required to pay the application fee. Special consideration is given to applicants transferring from degree programs at other campuses of the University of Colorado. Coursework completed at other campuses in the University of Colorado System will be a part of the student's cumulative university record and will not be considered as transfer credit hours. However, the applicability of this coursework toward specific CU Boulder degree requirements will be determined solely by CU Boulder colleges and schools. External transfer credit presented by students to other University of Colorado campuses will be evaluated by CU Boulder guidelines upon the student's matriculation into a degree program at CU Boulder.

## Denied Admission as a Freshman

Students who were not admissible to the University of Colorado Boulder based on high school academic records are encouraged to apply for transfer admission after at least 24 credit hours of transferable college-level coursework are completed or in progress. This includes any minimum academic preparation standards (MAPS) requirements not met in high school.

## Application Process

### Application Priority Dates and Admission Notification

Applications for degree candidates may be submitted beginning in August for the following spring, summer and fall terms.

The university reserves the right to deny admission to applicants whose total credentials reflect an inability to assume those obligations of performance and behavior deemed essential by the university and relevant to any of its lawful missions, processes and functions as an educational institution.

### Freshman Applicants

Students can apply to CU Boulder using the Common Application. All students will be reviewed in the order their application file is completed (application is submitted and all required documents are received and official).

#### Spring Freshman Applicants

Spring applications are processed on a rolling basis. The Office of Admissions begins notifying applicants about admission decisions in October. Decisions are made approximately six to eight weeks after an application is complete. Full consideration is given to applications that are complete (including the application fee and all required credentials) by the Oct. 1 deadline.

#### Summer and Fall Freshman Applicants

There are two admission notification periods for fall and summer candidates.

##### Non-Binding Early Action

Freshman applicants who complete their file by Nov. 15 are guaranteed early action and will receive an admission decision on or before Feb. 1.

Students meeting the non-binding, early action deadline may be admitted, postponed or denied admission. Postponed students will receive an additional review and are strongly encouraged to submit additional academic information to strengthen their applications. Students who are postponed do not typically receive an admission decision until April 1.

Early action students are not required to enroll at CU Boulder, but must, if they choose to attend, confirm their intent to enroll by May 1.

##### Regular Decision Application Deadline

The freshman regular decision application deadline is Jan. 15. All applicants with completed files by Jan. 15 will be notified of their admission decision no later than April 1.

Students must, if they choose to attend, confirm their intent to enroll by May 1.

### Transfer Applicants

If a student submits a complete application on or before the transfer application deadline, they will receive an admission decision within six to eight weeks. A complete application includes test scores (if you have less than 24 college credit hours), transcripts (high school and college), personal statement and application fee.

### Transfer Application Deadlines

- Spring Term: Oct. 1
- Summer Term: March 1
- Fall Term Early Notification: March 1
- Fall Term Regular Decision: June 1

Notifications begin rolling out on Oct. 1 for spring applicants and March 1 for fall and summer applicants. Applications are processed in the order in which they are received and completed. The earlier a complete application is submitted, the earlier a decision will be made.

### Where to Send the Application, Fee and Credentials

Materials that cannot be submitted electronically, may be mailed to:

Office of Admissions  
Regent Administrative Center 125  
University of Colorado Boulder  
552 UCB  
Boulder, CO 80309-0552

### Mailing Address

Applicants must keep their mailing address current at all times. It is used for mailings until the applicant arrives on campus. Notices are also sent to this address regarding admission, registration and New Student Welcome, as well as other information. If an address changes or is no longer valid, notify the Office of Admissions immediately at 303-492-6301.

### Application Checklist

- Online application for admission
- \$50 nonrefundable (\$70 USD for international students) application fee, payable online (if a student cannot pay the fee online, contact the Office of Admission at at 303-492-6301 or at [admissions@colorado.edu](mailto:admissions@colorado.edu))
- Official high school transcript
- Official college transcripts (if applicable)
- SAT or ACT test scores (if applicable)
- Two personal essays (freshman applicants) or one personal statement (transfer applicants)
- Letter of recommendation (freshman applicants only)
- Résumé or activities list (optional)

### Confirmation Procedures

All admitted students are encouraged to confirm their intent to enroll through their application status page as soon as possible after receiving their admission notification. If a student cannot confirm their intent to enroll through their application status page, they must contact the Office of Admissions at 303-492-6301 or at [admissions@colorado.edu](mailto:admissions@colorado.edu).

### Confirmation Deadlines

- Freshmen
  - Summer: May 1
  - Fall: May 1
  - Spring: Dec. 1

- Transfers: varies; see confirmation instructions on application status page

If students register for classes and then decide not to attend, they may be assessed tuition depending upon the circumstances. For spring and fall semester policies, visit the Office of the Registrar's Withdraw from CU (<http://www.colorado.edu/registrar/students/withdraw-cu>) web page; for summer, visit Summer Session's Withdrawal (<http://www.colorado.edu/summer/resources/now-youve-enrolled/withdrawal>) web page. Important policy differences exist for continuing students versus new, readmitted and transfer students.

The confirmation deposits are used as registration deposits each semester as long as registration is completed by the published deadline. Once students have attended CU Boulder, the deposit (minus any fees or other charges owed) will be returned when they graduate or officially withdraw from the university according to established deadlines.

## Application Fees

### Nonrefundable Application Fee (\$50/\$70 for international students)

#### University of Colorado Boulder Application

Pay online when submitting the application or by check or money order (made payable to the University of Colorado) after submission. If submitting a check or money order, include the student's full legal name and birth date. We recognize that some students may be faced with financial constraints in paying the application fee. Waivers can be granted for documented hardships if the student submits an application fee waiver form.

#### Common Application

Pay online when submitting the application. We recognize that some students may be faced with financial constraints in paying the application fee. Waivers can be granted for documented hardships if the student submits an application fee waiver form.

Students currently enrolled in an undergraduate degree program at another University of Colorado campus who are applying to an undergraduate degree program on the Boulder campus are not required to pay the application fee.

## Required Credentials

Credentials or information sent by fax cannot be accepted as official documentation. Do not submit samples or photographs of design or artwork. A portfolio is not used for admission purposes and cannot be returned.

### Official Transcripts

Official transcripts must be sent directly to the Office of Admissions from the issuing institution and must have the appropriate seals and signatures.

Other transcripts are not considered official. Transcripts that are marked, for example, "student copy," "issued to student" or "unofficial" are not accepted as official.

Unofficial transcripts cannot be used for admission or transfer credit purposes.

### High School Transcript

Students should request that their high school send an official transcript of all work completed, beginning with grade 9, directly to the Office of

Admissions, regardless of the number of college hours the student has completed (if any) or the date of graduation from high school.

Students who have attended more than one high school and whose most recent transcript does not include the complete high school record must submit official transcripts from each school.

If any part of the high school record is missing from the transcript, the processing of the application will be delayed.

Students who have not graduated and do not plan to graduate from high school must request an official certificate of high school equivalency and official GED scores, plus an official transcript of any high school work (grades 9–12) completed, to be sent to the Office of Admissions.

Official transcripts must be sent to the Office of Admissions from the issuing institution either via email to [transcripts@colorado.edu](mailto:transcripts@colorado.edu) or by mail and must have the appropriate seals and signatures. All credentials written in languages other than English must be accompanied by a literal certified English translation.

### College Transcripts

Students should request that their official transcripts from each collegiate institution attended (except any campus of the University of Colorado) be sent directly from the issuing institution to the Office of Admissions. Be sure to include all institutions, regardless of the length of attendance, whether or not courses were completed and whether or not the record might affect admission or transfer credit. Also include any institutions attended during summers, interim terms and during high school.

Failure to list and submit transcripts from all institutions previously attended before enrolling at CU Boulder is considered a violation of academic ethics and may result in the cancellation of admission or dismissal from the university.

### SAT or ACT Test Scores

CU Boulder requires all freshman and transfer students (including U.S. citizens attending high school or college outside of the U.S) with fewer than 24 credits completed to submit an official score report for either the SAT or the ACT. International students only need to submit an SAT or ACT if they are graduating from a U.S. high school or wish to be considered for merit scholarships.

CU Boulder's SAT code is **4841** and the ACT code is **0532**.

Scores will be considered official if submitted electronically by the testing agency or if they are included on your official high school transcript.

The student's highest scores are used in the admission decision. If a student takes the same test more than once, we combine their highest score from each subsection to give them the highest overall score. Results from SAT or ACT tests taken in December or later may not be received in time if the student wishes to be considered for summer or fall admission of the following year.

For further information:

- consult a high school counselor
- visit the SAT website (<http://www.collegeboard.com>), call 609-771-7600 or write to the College Board (SAT), P.O. Box 6200, Princeton, NJ 08541-6200

- visit the ACT website (<http://www.act.org>), call 319-337-1270 or write to ACT Registration, P.O. Box 414, Iowa City, IA 52243-0414

## Personal Essays

CU Boulder requires freshman applicants to submit two short personal essays and transfer applicants to submit one personal statement. Applications without essays are considered incomplete and will not be reviewed. Personal essays are the best way for the Office of Admissions to learn about applicants as individuals and to evaluate a student's academic performance within the appropriate context. There are no "correct" answers to the questions—responses should reflect the unique aspects and experiences of the applicant. The specific essay questions are available on the application.

## Credit by Examination

### Advanced Placement (AP) Credit

Credit for College Board Advanced Placement (AP) examinations cannot be evaluated from college or high school transcripts; score reports from the College Board must be submitted directly to the university for evaluation.

When the credit granted for a score of 3 on an AP exam is an Arts & Sciences credit that fulfills a specific Arts & Sciences General Education or CMCI Core category, CU Boulder advises students that they are likely to be more successful in their college career if they fulfill that Core category with a CU Boulder course and use their AP credit as elective credit. There is no guarantee that all AP credit will apply to a specific degree program. The dean's office of each college and school makes the final determination for AP credits that apply toward degree requirements.

For more information and a guide to equivalencies, refer to Freshman Applicants (p. 23) and the chart in this section or visit the Office of Admission's Transfer Students (<http://www.colorado.edu/admissions/transfer>) webpage.

AP Subject	Examination Title	Exam Score	CU Boulder Course Equivalent <sup>1</sup>	Credit Hours
<b>Biology</b>	Biology	5, 4	EBIO 1210, EBIO 1220, EBIO 1230 and EBIO 1240	8

## Letters of Recommendation

One academic letter of recommendation will be required for all freshman applicants. The student's full legal name should be included at the top of recommendation letters.

### Optional Documents

Applicants may submit additional letters of recommendation if they wish, however, doing so is optional. Applicants may also choose to submit a resume or list of co-curricular activities, work experience, leadership positions and awards.

College of Music applicants must also complete a College of Music application after their admission application has been submitted, provide a letter of reference and schedule an audition.

<sup>1</sup> Engineering Students: Check with academic advisor in major department. Students will need the ability to learn additional programming languages for further computer science courses.

- <sup>2</sup> Students who want to continue taking Spanish courses beyond their AP credit level must take the Spanish department placement test. If the results of this test place them below their AP level, the Spanish department strongly recommends enrolling at the lower of the two levels.
- <sup>3</sup> Does not apply toward degree requirements for students in the College of Engineering and Applied Science.

*Note:* This table was prepared based on spring 2018 exams. Credit awarded is subject to change based on faculty review of spring 2019 exams. The credit in this table is for students who began classes at CU Boulder in the 2019-2020 academic year. Students who started at CU Boulder in previous academic years must refer to the tables in the catalog for that year to find the appropriate credit.

## International Baccalaureate (IB) Credit

In general, credit is granted for approved International Baccalaureate (IB) examinations at the higher level with a score of 4 or better. Students admitted to the University of Colorado Boulder who have graduated from high school with an International Baccalaureate Diploma shall be granted 24 hours of college credit. This credit will be applied toward degree requirements *only* if approved by the college or school. Depending on the student's degree program, some of the 24 credit hours may not be applicable toward degree requirements. No CU Boulder tuition will be charged for these credits and the 24 credits will only be granted if the student receives a score of 4 or better on an examination administered as part of the IB Diploma program. If the student scores less than 4 on each IB subject test, the credit hours granted will be reduced accordingly. Official scores must be sent to the admissions office directly from the IB organization.

When the credit granted for a Standard Level IB exam is an Arts & Sciences credit that fulfills a specific Arts & Sciences General Education or CMCI Core category, CU Boulder advises students that they are likely to be more successful in their college career if they fulfill that General Education or Core category with a CU Boulder course and use their IB credit as elective credit. There is no guarantee that all IB credit will apply to a specific degree program. The dean's office of each college and school makes the final determination for IB credits that apply toward degree requirements.

For more information and a guide to equivalencies, refer to Freshman Applicants (p. 23). For more information and a guide to equivalencies, refer to Freshman Applicants (p. 23) and the chart in this section or visit the Office of Admission's Transfer Students (<http://www.colorado.edu/admissions/transfer>) webpage.

New Row

<sup>1</sup> Does not apply toward degree requirements for students in the College of Engineering and Applied Science.

Note: This table was prepared based on spring 2018 exams. Credit awarded is subject to change based on faculty review of spring 2019 exams. The credit in this table is for students who began classes at CU Boulder in the 2019-2020 academic year. Students who started at CU Boulder in previous academic years must refer to the tables in the catalog for that year to find the appropriate credit.

## College Level Examination Program (CLEP) - gtPathways

Credit for College Board College-Level Examination Program (CLEP) in subject areas of composition and literature, humanities, history and social sciences, biological and physical sciences, and mathematics may be granted for a score of 50 or above. Examinations in languages require minimum scores between 59–63. Credit award and course equivalency information listed in this table applies only to degree programs completed entirely at the Boulder Campus.

Beginning Spring 2019, select exams taken January 1, 2019 and later will receive gtPathways designation.

For exams taken in prior or future catalog years, consult those academic catalogs for exam equivalency information. Exams with a CU Boulder equivalent course of ARSC 1999TC will *not* fill a requirement in any major or minor at CU Boulder but will fulfill a requirement in the general education curriculum of most schools and colleges at CU Boulder.

For more information and a guide to equivalencies, refer to Freshman Applicants (p. 23) and the chart in this section or visit the Office of Admission's Transfer Students (<http://www.colorado.edu/admissions/transfer>) webpage. CLEP tests are administered through Career Services, 303-492-5854.

## Transfer of College-Level Credit Evaluation of Credit

The Office of Admissions performs an initial evaluation of transfer credit after applicants have been admitted. A complete evaluation of transfer credit cannot be made until all official credentials have been received.

The evaluation is made using the official transcripts sent directly to the university from each one of the applicant's previous colleges. Official transcripts exhibit the official seal and signature of the registrar. Transcripts that are marked "student copy," "issued to student," or "unofficial" are not accepted as official. Faxed transcripts are not accepted.

Transferability is based on the practices of the leading university, as reported to the American Association of Collegiate Registrars and Admissions Officers (AACRAO), in the state where the institution is located. CU Boulder will make the decision on transferability based on the above criteria for institutions within the state of Colorado.

Coursework of comparable content and scope to the CU Boulder curriculum will generally be transferred if it was completed at colleges or universities accredited by the Higher Learning Commission, or other regional associations at the time the work was completed. For international colleges or universities, the international equivalent of regional accreditation or Ministry of Education recognition will be considered.

If coursework was completed at a school not regionally accredited, the student may specifically request that their coursework be considered for transfer. CU Boulder will utilize the recommendations of AACRAO when making its decision. These recommendations include but are not limited to:

- Educational quality of the sending institution.
- Comparability of credit to be transferred to CU Boulder.
- Applicability of the credit in relation to the programs being offered at CU Boulder.
- Additional documentation that students may be required to provide regarding the coursework for transferability.

### Criteria for Acceptance of Credit

Only courses taken at a college or university of recognized standing with grades of C- (1.70) or better are accepted for transfer.

Each college and school at CU Boulder determines:

- How transferred course semester credit hours are applied toward graduation requirements in accordance with the policies of the college or school.
- The maximum number of semester credit hours that may transfer from a two-year or four-year post-secondary institution.
- The minimum number of semester credit hours that must be completed on the Boulder campus in order to receive a degree.
- The minimum number of semester credit hours that must be completed as a degree student in residence on the Boulder campus to receive an undergraduate degree.

- The maximum number of semester credit hours earned through correspondence or in a similar format that are accepted toward a baccalaureate degree.

Credit hours should have been earned no more than 10 years prior to transferring into an undergraduate degree program at CU Boulder. Any determination of acceptance of semester credit hours toward the degree based on the content and the age of the credit is made in the college or school dean's office or by the student's major department.

### Coursework Requiring Additional Review

The following coursework will require additional information before a decision can be made on acceptance for transfer credit:

- Independent study courses
- Internships
- Workshops
- Graduate coursework
- Military credit
- Professional programs

### Coursework Not Accepted for Transfer Credit

The following coursework will *not* be accepted for transfer credit and will not count toward a degree at CU Boulder:

- Any courses in which the grade earned is below a C- (1.70)
- Courses identified by CU Boulder as remedial, such as remedial English, mathematics, science and developmental reading
- Vocational-technical courses that are offered at two-year and proprietary institutions (exceptions may be granted only by the CU Boulder dean responsible for the student's curriculum—when exceptions appear to be warranted, appropriate department heads make recommendations to their respective deans regarding credit for such courses)
- Courses in religion that constitute specialized religious training or that are doctrinal in nature
- Credits earned for work experience or through a cooperative education program
- Outdoor leadership education coursework
- Credits earned in physical education activity courses
- Courses or programs identified as college orientation

### Appeals Process

Students who wish to appeal the transferability of coursework must write a letter within the first semester after the work is posted on CU Boulder record or after receiving notice from the Office of Admissions that the coursework was not accepted for transfer credit. The letter must be addressed to the Transfer Credit Department, Office of Admissions, and include:

- The name(s) of the previous institution(s) attended, the course number and title of each course for which the student was denied transfer credit and the date(s) of enrollment in each course.
- A copy of the catalog description (from the appropriate year) for each course in question.

- A copy of the syllabus or course outline (from the appropriate year) for each course in question. This information can be obtained from the sending institution.
- A statement indicating why the credit(s) should be accepted.

The Office of Admissions will re-evaluate the course(s) for which the student is requesting reconsideration in consultation with the appropriate dean or chair. A written response will be delivered to the student in a timely manner once the appropriate faculties have reviewed the course materials, past practices and the student's specific circumstances.

## Transfer Credit From University of Colorado Campuses

Coursework completed at other campuses in the University of Colorado system will be a part of the student's cumulative university record and will not be considered as transfer credit. However, the applicability of this coursework towards specific CU Boulder degree requirements will be determined solely by CU Boulder colleges and schools. External transfer credit presented by students to other University of Colorado campuses will be evaluated by CU Boulder guidelines upon the student's matriculation into a degree program at CU Boulder.

## Number of Credit Hours Required for Graduation

Transfer students are held to the same residency and degree requirements as students who begin their undergraduate degree program on the Boulder campus. This assumes that transfer credit hours are in courses comparable in level and content to those required for graduation from an undergraduate degree program at the Boulder campus. College or school residency requirements, meaning the number of credit hours required to be taken as a degree student once admitted on the Boulder campus, are the same for transferring and nontransferring students.

## Credit for Correspondence and Online Work

Each college and school determines the maximum number of credits taken through correspondence and online programs that are accepted toward a baccalaureate degree.

## Transfer Credit Conversion

CU Boulder operates on a semester system. Other campuses, including CU Boulder, operate on a two-term or semester system. Course credits from quarter system institutions must be converted from quarter hours to semester hours or credits. One quarter credit is equivalent to two-thirds of a semester credit. To convert quarter hours to semester hours, multiply the number of quarter hours by two-thirds and round off the total to the nearest tenth. For example, 4 quarter hours  $\times \frac{2}{3} = 2.67$  or 2.7 semester hours of credit, or 3 quarter hours  $\times \frac{2}{3} = 2$  semester hours of credit.

## College-Level Work Taken during High School

College-level work taken during high school is evaluated in accordance with general guidelines for transfer credit at CU Boulder. Only courses taken at a college or university of recognized standing with grades of C- or better are accepted for transfer. College-level work taken concurrently with a high school program may be used to satisfy MAPS requirements. You must have an official college transcript sent directly to the Office of Admissions in order for transfer credit to be evaluated.

For more information and a guide to equivalencies for exam credit, see the charts in Credit by Examination (p. 30) section of this catalog, and refer to the [Freshman Applicants](#) (p. 23) or Transfer Students (<http://www.colorado.edu/admissions/transfer>) webpage.

## Military Credit

Credit for military schooling, both for courses and for occupations, is evaluated upon receipt of Form DD 214, Service Separation Certificate, a Joint Services Transcript (JST) or a transcript from the Community College of the Air Force (CCAF). For military courses and occupations that have been approved for gtPathways credit by the Colorado Department of Higher Education students will be awarded gtPathways credit, which will fill General Education requirements in most, but not all, programs at CU Boulder. For qualifying scores at the American Council on Education (ACE) recommended cut scores on Defense Language Proficiency tests students will be awarded gtPathways World Language credit (GT-AH4), which will fill General Education requirements, usually as a humanities course, in most, but not all, programs at CU Boulder.

Students can also be awarded credit for other military courses and occupations listed on a JST or a transcript from the CCAF if ACE recommends that the work should be granted upper-division baccalaureate credit. This work, however, transfers to CU Boulder as lower-division elective credit. Foreign language courses taken through the State Department, Department of Defense or Defense Language Institute are assigned credit based on ACE's recommendation, which usually results in credit for an equivalent foreign language course at CU Boulder. The applicability of military credit toward specific degree requirements beyond General Education requirements is determined by the dean's office of the college/school to which a student has been admitted.

To receive credit for College-Level Examination Program (CLEP) or DANTES Subject Standardized Tests (DSST) that are listed on a JST or a transcript from the CCAF, students must have their test scores sent directly to the CU Boulder Office of Admissions from the College Board (CLEP) or Prometric (DSST).

For more information and a guide to equivalencies, see the charts in Credit by Examination (p. 30) section of this catalog, and refer to the [Freshman Applicants](#) (p. 23) or Transfer Students (<http://www.colorado.edu/admissions/transfer>) webpage.

Regardless of whether or not you anticipate receiving any credit, submission of a JST or a transcript from the CCAF is required if you plan to use any VA educational benefits for which you are eligible.

## Reverse Transfer

The Colorado Reverse Transfer program allows students who have transferred from a Colorado community college to a Colorado university to combine and apply credits from both institutions toward an associate's degree from the community college.

If you are a transfer student, this means an associate's degree from your community college may be awarded at no additional cost while you work toward your bachelor's degree at CU Boulder. An Associate of Arts, Associate of Science, or Associate of General Studies degree immediately boosts your earning potential and career opportunities while you continue to work toward your bachelor's degree.

CU Boulder will contact students eligible for Reverse Transfer beginning in November of each year, with more information about opting in to the program and other next steps. In the meantime, visit the Colorado Reverse Transfer (<https://higher.ed.colorado.gov/Academics/reversetransfer>) website to learn more.

# Minimum Academic Preparation Standards

One unit equals one year of high school study or one semester of college coursework.

Program in Environmental Design	College of Arts & Sciences; College of Media, Communication & Information; School of Education	Leeds School of Business	College of Engineering & Applied Science	College of Music
<b>English: 4</b>	<b>English: 4</b> (includes 2 of composition)	<b>English: 4</b> (includes 2 of composition)	<b>English: 4</b>	<b>English: 4</b>
<b>Mathematics: 4</b> (includes at least 2 of algebra, 1 of geometry and 1 of college preparatory math such as trigonometry, analytic geometry or elementary functions)	<b>Mathematics: 4</b> (includes at least 2 of algebra, 1 of geometry and 1 of college preparatory math such as trigonometry, analytic geometry or elementary functions)	<b>Mathematics: 4</b> (includes at least 2 of algebra, 1 of geometry and 1 of college preparatory math such as trigonometry, analytic geometry or elementary functions)	<b>Mathematics: 4</b> (includes at least 2 of algebra, 1 of geometry and 1 of college preparatory math such as trigonometry, analytic geometry or elementary functions)	<b>Mathematics: 4</b>

## Credits & Grading

### Grading System

The following grading system is standardized for all colleges and schools of the university. Each instructor is responsible for determining the requirements for a class, determining the grading scale used, and for assigning grades on the basis of those requirements and grading scale by the grade submission deadline each term.

### Standard Grade Points per Hour of Credit

<b>A</b>	superior/excellent, 4.0
<b>A-</b>	3.7
<b>B+</b>	3.3
<b>B</b>	good/better than average, 3.0
<b>B-</b>	2.7
<b>C+</b>	2.3
<b>C</b>	competent/average, 2.0
<b>C-</b>	1.7
<b>D+</b>	1.3

D	1.0
D-	minimum passing, 0.7
F	failing, 0.0

## Grade Symbols

I	incomplete; changed to F if not completed within one year
IP	in progress; thesis at the graduate level or specified graduate-level courses
P	passing; under the pass/fail option, grades of D- and above convert to a P. Other specified courses may also be graded on a pass/fail basis.
NC	no credit
W	withdrew
***	class grades were not submitted when final grades were processed, or the student is currently enrolled in the course.

### Explanation of an I (Incomplete) Grade

An incomplete (I) grade indicates that the student did not complete the requirements for the class by the end of the grading period for that semester. If the student does not complete the class requirements within one year from the end of the semester in which the Incomplete was assigned, the I grade is converted to a failing (F) grade. When a final grade has been assigned, the transcript states, "Originally graded as Incomplete."

Requests for incomplete grades must be initiated by the student and only when, for reasons beyond their control, the student is unable to complete the class requirements within the semester of enrollment. A substantial amount of work must have been satisfactorily completed before approval for such an incomplete grade is given.

If an instructor grants a request for an incomplete, the instructor sets the conditions under which the coursework can be completed and the time limit for its completion or if the class should be retaken.

If an incomplete class is retaken, it must be completed on the Boulder campus or in Boulder evening classes, and the student must re-register for the course and pay the appropriate tuition. The initial grade of I is not removed from the transcript if the course is retaken.

### Grade Point Average

The overall University of Colorado grade point average (GPA) is computed as follows: the credit hours and credit points are totaled for all courses and across all campuses within the same career (UGRD, GRAD or LAW); then the total credit points are divided by the total credit hours. Courses with grade symbols of P, NC, \*\*\* (grade not yet entered), W, I and IP are excluded from calculations. All standard letter grades (A-F) are included in the GPA, including grades of F earned for courses graded on a pass/fail basis. Grades of I that are not completed within one year are converted to F grades and calculated in the GPA at the end of the one-year grace period. Below is example GPA calculation for a hypothetical semester.

Grade Earned: A;	Credit Points per Hour: 4.0; x Credit Hours: 4.0 = Credit Points in Course: 16.0
------------------	--

Grade Earned: A-;	Credit Points per Hour: 3.7; x Credit Hours: 4.0 = Credit Points in Course: 14.8
-------------------	--

Grade Earned: B+;	Credit Points per Hour: 3.3; x Credit Hours: 4.0 = Credit Points in Course: 13.2
-------------------	--

Grade Earned: P;	Credit Points per Hour: —; x Credit Hours: 3.0 = Credit Points in Course: — (excluded)
------------------	--

Grade Earned: F;	Credit Points per Hour: 0; x Credit Hours: 3.0 = Credit Points in Course: 0
------------------	---

Total of 15 credit hours with 44 credit points, so  $44/15 = 2.93$  GPA

For individual GPA calculations related to academic standing and graduation from a college or school, students should refer to their academic dean's office.

## Credit/No Credit

Students who wish to take coursework for no credit must indicate this at the time they register for classes. Changes in credit registration are not permitted after the third Friday of the regular 16-week fall or spring session, or after the add/drop deadline of any special fall or spring session or Summer Session. Tuition is the same whether or not credit is received in a class.

## Pass/Fail (P/F)

Students should refer to the college and school sections of this catalog to determine the number of pass/fail credit hours that may be taken in a given semester or credited toward a specific bachelor's degree. Exceptions to the pass/fail regulations are permitted for certain courses that are offered only on a pass/fail basis.

The pass/fail option is only available if the department offering the course allows the pass/fail option. Students who wish to register for a class on a pass/fail basis should do so during registration.

Changes to or from a pass/fail basis are not permitted after the third Friday of the regular 16-week fall or spring session, or after the add/drop deadline of any special fall or spring session or Summer Session. Prior to that date, students wishing to change a class's grading status from graded to pass/fail can do so in the MyCUInfo portal by first clicking on the "Register for Classes Add, Drop or Swap Class" link on the "Academics / Schedule" tab. Then students can click on the "Edit" option under the "Enroll" menu.

Grades of D- and above are considered passing grades. P grades do not affect student GPAs.

## Variable Credit

Select courses, such as independent study courses, are offered as variable credit. Students should consult their academic advisor and designate the number of credit hours they wish to receive for the class at the time of registration.

## Repeating Courses

Students may repeat courses at any point in their academic career *without* invoking grade replacement. In those cases, the grade and credits earned in each attempt are included in student credit and GPA

totals and calculations. Some academic programs have limits on the number of course repeats allowed for specific courses.

## Grade Replacement

Under the grade replacement policy, degree-seeking undergraduate and graduate students may retake a course in which they earned a low grade in an attempt to improve their cumulative GPA.

When a student retakes a course for grade replacement, the grade earned in the most recent prior attempt remains on the transcript, but their cumulative GPA and credit totals only include the latest attempt.

### General Eligibility

#### Course Requirements

Only courses offered by and taken through CU Boulder are eligible for grade replacement. To qualify for grade replacement, the course also must:

- Be taken at CU Boulder for a letter grade (i.e., not taken pass/fail or for no credit).
- Not be a special topics course or any other course designated in the catalog as repeatable for credit (e.g., independent study, field experience, dissertation hours). Exceptions: Topics courses WRTG 3020, WRTG 3030 and WRTG 3040 are eligible for grade replacement.
- Not exceed the total grade replacement credit limit for an academic career.
  - Undergraduate: Up to 10 credit hours of grade-replacement coursework.
  - Graduate: Up to 6 credit hours of grade-replacement coursework.

#### Student Requirements

To apply for grade replacement, students must:

- Be a degree-seeking undergraduate or graduate student at CU Boulder (law and nondegree students are not eligible).
- Have earned a C- or lower (undergraduate students), or a C+ or lower (graduate students) in the most recent prior attempt of a course.

## Invoke Grade Replacement

To request to retake a course for grade replacement, students must:

1. Register for the class for an upcoming semester.
2. Submit the grade replacement request form by the published deadline for the semester/session in which the class is being offered.

After being reviewed for eligibility, students are notified via email whether their request was approved or denied.

## Revoke or Cancel Request

Students who invoke grade replacement, but who no longer wish to retake courses for grade replacement must revoke or cancel their request by the published grade replacement request deadline for the semester/session in which the class is being offered. Once the deadline has passed, requests cannot be revoked or changed. The grade earned in the most recent attempt will be the final grade that calculates in GPA and credit totals, even if it's lower than the grade earned in the most recent prior attempt.

## Additional Information

For more information, visit the Office of the Registrar website (<https://www.colorado.edu/registrar/students/degree-planning/grade-replacement>) or view the grade replacement policy in full (<https://www.colorado.edu/registrar/students/degree-planning/grade-replacement/policy>).

## Financial Aid

The Office of Financial Aid's primary goal is to ensure that students have access to the resources available to fund their education. CU Boulder students may be eligible to receive financial aid from our office each year from federal, state, university and private sources.

## Applying for Financial Aid

Students apply for financial aid by completing the Free Application for Federal Student Aid (FAFSA) (<https://studentaid.ed.gov/sa/fafsa>). Once the student lists CU Boulder on the FAFSA (using school code 001370), the Office of Financial Aid receives results electronically and uses them to help determine a student's eligibility for grants, work-study and loans, as well as some scholarships.

FAFSAs are aid-year specific. For financial aid for fall 2019, spring 2020, and summer 2020, the **2019–20 FAFSA** must be submitted. Students should apply as soon as possible after it opens on October 1, 2018, as some funds are first-come, first-served. Students must reapply for financial aid every year.

### Eligibility

Financial aid eligibility is based on a variety of factors, such as the student's FAFSA, the cost to attend CU Boulder and the availability of funding.

The FAFSA application determines the Expected Family Contribution (EFC). This is a reference number schools use to best determine the family's financial situation. It's **not** the amount of money a family will pay for college, nor is it the amount of financial aid a student will receive.

Each year the Office of Financial Aid calculates the estimated Cost of Attendance (COA) for an academic year. This COA estimate includes both university-bill costs (tuition, fee, on-campus housing and dining) as well as out-of-pocket expenses (books and supplies, transportation, medical and personal expenses). The EFC is subtracted from COA estimate to determine the student's financial need. This financial need is considered when determining aid eligibility.

View more information on cost and budget examples (<http://www.colorado.edu/financialaid/cost-financial-aid>).

## Types of Financial Aid

Financial aid awarding begins as early as the February before a fall semester, but aid is continually offered as long as funds are available. Freshman and transfer students applying for aid for the 2019–20 academic year are encouraged to submit their Free Application for Federal Student Aid (FAFSA) (<https://studentaid.ed.gov/sa/fafsa>) and any additional documentation requested **as soon as possible**, as some funding is provided first-come, first-served. In previous years, some funding has run out as early as late-February or early-March before the fall semester.

Types of financial aid available to CU Boulder students are listed below.

## Grants

Grants (<http://www.colorado.edu/financialaid/types-aid/undergraduate-grants>) are awards that do not have to be repaid. Students should submit the **FAFSA** to be considered for federal, state and institutional need-based grants (including Pell, Colorado Responsibility Grant, etc.).

## Loans

Students submit the FAFSA (<https://studentaid.ed.gov/sa/fafsa>) to be considered for the following loan programs:

### Federal Direct Subsidized and Unsubsidized Loans

Federal Direct Loans (<http://www.colorado.edu/financialaid/types-aid/undergraduate-student-loans/federal-direct-loans-undergraduate-students>) are federal student loans that are awarded and disbursed by CU Boulder. Undergraduate students may qualify for a combination of subsidized (i.e., federal government pays the interest) and unsubsidized loans. The interest rates for direct loans are determined annually. An origination/loan fee is charged based on when the loan is disbursed. Annual limits depend on the year in school: freshmen can be awarded up to \$5,500, sophomores \$6,500, and juniors and seniors \$7,500. Independent students may borrow an additional amount of unsubsidized loans (freshmen and sophomores \$4,000 and juniors and seniors \$5,000).

Interest on unsubsidized loans can be repaid while the student is in school. Repayment begins six months after the student graduates or ceases to be enrolled at least half-time (6 credit hours for undergraduates; 4 credit hours for graduates).

### Federal Parent PLUS Loan

Federal PLUS loans (<http://www.colorado.edu/financialaid/parent-loans>) are available to parents of dependent undergraduate students. The origination fee and interest rates are dependent on when the loan is paid to the student's university bill, but interest rates are fixed for the life of the loan.

Borrowers must complete a credit check, but it is possible for a borrower to qualify for a PLUS loan with a bad credit score, as long as they don't have an adverse credit history.

*Note: Parents borrowing a PLUS loan for their student will be regarded as parental support on in-state residency petitions for dependent students. Parents may request a deferment on payments until their student has finished with school.*

## Work-Study

Students awarded work-study (<http://www.colorado.edu/studentemployment/work-study>) are provided an amount of money they can work to earn through approved on- or off-campus agencies. Students do not get the money up-front, nor is it applied to their tuition and fee bill; they will receive a paycheck for hours worked just like a non work-study job. Students should submit the FAFSA (<https://studentaid.ed.gov/sa/fafsa>) to be considered for work-study, since it is based on financial need.

Students may apply for a variety of work-study jobs at competitive rates. Jobs can be found online through the CU Boulder Student Job (<https://ofa.colorado.edu/StudentJobsStudentLogin/login.aspx>) database.

## Scholarships

Donations from private individuals, corporations, foundations and the University of Colorado are all sources for scholarships (<http://www.colorado.edu/scholarships>). Incoming students are automatically considered for some scholarships through their admissions application.

## CU Boulder Scholarship Application

Students may apply for scholarships (<http://www.colorado.edu/scholarships/cuboulder-scholarship-app>) offered by the Office of Financial Aid each year. For scholarships with a financial need requirement, applicants must have submitted a FAFSA (<https://studentaid.ed.gov/sa/fafsa>) before the scholarship deadline in order to be considered. The scholarship application usually opens October 1 and most scholarship applications are due mid-February.

Prospective students do not need to (nor should they) wait for formal acceptance to CU Boulder before applying for financial aid or scholarships.

Scholarships are highly competitive at CU Boulder. The selection committee considers academic achievement, honors, leadership, school activities and service to the community. Students should also search for scholarship opportunities within their academic program, college, club or campus organization.

## Private External Scholarships

Students who receive a private scholarship (<http://www.colorado.edu/scholarships/private-scholarships>) from an organization outside the university must report the scholarship to CU Boulder using their student portal (MyCUInfo (<https://mycuinfo.colorado.edu>)). To ensure fast processing, the check should be mailed or dropped off with a completed donor form (<https://www.colorado.edu/scholarships/node/90/attachment>). In addition, students are encouraged to write to their donors and express their gratitude.

When a scholarship donor does not specify how to disburse the funds through a donor form (<https://www.colorado.edu/scholarships/node/90/attachment>), the Office of Financial Aid equally divides awards of \$1,000 or more between the fall and spring semesters. Private scholarships less than \$1,000 are applied in full to the current semester bill.

Donors should mail their checks, payable to the University of Colorado, to:

University of Colorado Boulder  
Office of Financial Aid, ATTN: Scholarship Services  
77 UCB  
Boulder, CO 80309-0077

Checks should be mailed at least one month prior to the university's bill due date to avoid incurring late and service charges. If a student's scholarship check is not submitted before by the bill payment deadline, he or she should make other arrangements to pay the bill.

## Special Scholarships & Grants

Students can apply directly to the following programs to be considered for their scholarships, grants and programming.

### Boettcher Scholars

The Boettcher Scholarship is a merit-based, full-ride scholarship awarded annually to Colorado high school seniors who can apply those funds to any four-year institution in Colorado. With a history of scholars on campus dating from 1952, the University of Colorado Boulder has a large, vibrant Boettcher Scholar community.

Benefits of being a Boettcher Scholar include:

- An on-campus Boettcher Scholar Mentor
- The largest Boettcher Scholar peer community in the state
- The longest-standing Boettcher Scholar Alumni network in the state
- Individual, peer and group mentoring
- Academic, professional and personal support
- Social activities with Boettcher Scholars and Norlin Scholars
- Access to enrichment, research and Top Scholarship (<https://www.colorado.edu/topscholarships>) advising
- A fifth-year tuition benefit for concurrent degree seekers

High school students apply for the scholarship directly through the Boettcher Foundation (<http://boettcherfoundation.org/colorado-scholarships>) in the fall of their senior year of high school. Once selected, scholarship recipients have the opportunity to choose which campus they will attend.

## Norlin Scholars

The interdisciplinary Norlin Scholars Program is geared toward students interested in a liberal education. Norlin Scholars develop expertise in their chosen fields through research, deep engagement and self-reflection. Upon graduation, they're in a strong position for whatever comes next: the job market, graduate and professional schools or fellowships.

Students can apply as high school seniors for a four-year scholarship or as second-year college students for a two-year scholarship. Norlin applicants must apply to CU first, though they do not need to be admitted to be considered.

Benefits of being a Norlin Scholar include:

- a \$6,000 scholarship per academic year
- small, invigorating courses (NRLN 2000 and NRLN 3500)
- research or creative projects with faculty
- individual, group and peer mentoring
- access to top scholarship advising and guidance
- opportunities for professional training and development
- a stimulating, interdisciplinary peer group

The Norlin Scholars program builds community through shared experiences and support. Explore what it means to be a Norlin Scholar and the scholar support system on the Norlin Scholars (<https://www.colorado.edu/boettcher-norlin-scholars/norlin-scholars>) website.

Visit the Norlin Scholars (<https://www.colorado.edu/boettcher-norlin-scholars/norlin-scholars>) website for application information.

## Professional and Academic Conference Endowment (PACE)

PACE provides funding, support and mentoring to qualified undergraduates to present their work at conferences. Conference presentations may be oral presentations, poster sessions, round-table discussions, or creative or performance pieces. Students from all majors, departments, colleges and schools are welcome to apply for PACE grants.

Aside from receiving funds toward conference expenses, recipients benefit from faculty and peer supported conference preparation and exposure to working professionals and cutting edge scholarship in the field. Additionally, conference presentations:

- Complement classroom learning
- Take undergraduate research to the next level
- Provide a range of professional credentials

To accommodate the year-round schedule of professional conferences, PACE deadlines are rolling. Consult the PACE website (<https://www.colorado.edu/pace>) for more information.

## Top Scholarships

Top Scholarships helps you prepare a thoughtful application to some of the most prestigious, nationally competitive scholarships offered, like the Rhodes, Marshall, Truman and Goldwater, among others. This office helps high-achieving students already enrolled at CU, usually in their sophomore, junior or senior years. For help with scholarships for incoming freshmen, or to inquire about scholarships already awarded, please contact the Office of Financial Aid (<http://www.colorado.edu/financialaid>).

Top Scholarships provides:

- Guidance in selecting a fellowship or scholarship that fits your plans
- Expert advice on scholarship opportunities listed
- Individualized assistance preparing applications, essays, and proposals
- Practice interviews and interview strategies

Please see our Top Scholarships (<https://www.colorado.edu/topscholarships>) website for more information, including benefits of making an application to Top Scholarships and how to apply.

## Undergraduate Research Opportunities Program (UROP)

CU Boulder has a rich culture for cultivating undergraduates as emerging scholars, artists and practicing researchers. UROP provides consultation services, informational workshops and grants to promote undergraduate research as a high-impact learning practice for student success.

Each year UROP funds hundreds of students who produce new knowledge and creative work in partnership with CU's world-class faculty. We serve students and faculty whose learning and teaching goals include outside-the-classroom enrichment.

In a UROP project, students:

- Explore academic interests *beyond* the classroom
- Get hands-on experience with research or creative production
- Develop student-faculty relationships for professional references
- Acquire academic and professional skills and credentials
- Demonstrate successful grant-writing skills
- Refine their academic and career goals

From development of a research interest or question to completion of an application takes some time. UROP deadlines precede the academic year in which the research or creative work will be undertaken and students apply in partnership with the faculty mentor. Visit the UROP website (<https://www.colorado.edu/urop>) for more information.

## Policies

The Office of Financial Aid follows regulations provided by the Department of Education, the Higher Education Reconciliation Act of 2005, the Family Education Rights & Privacy Act (FERPA) and in-house policies to administer federal, state and university funding.

## Adjustments to Financial Aid

There are a variety of circumstances that may require an adjustment to a student's financial aid award (<https://www.colorado.edu/financialaid/policies/adjustments>). Students should understand how dropping and adding courses, receiving other aid, or corrections on their FAFSA will impact their aid.

## Education Abroad (Study Abroad)

Students must be enrolled in a CU Boulder study abroad (<https://www.colorado.edu/financialaid/apply-aid/study-abroad>) program to be eligible for financial aid through CU Boulder. Students participating in a study abroad program through another university are not eligible.

## FERPA

The Family Education Rights & Privacy Act (FERPA (<https://www.colorado.edu/financialaid/ferpa>)) is a Federal law that protects the privacy of student educational records (which includes financial aid).

## Satisfactory Academic Progress (SAP)

Students who apply for financial aid are responsible for knowing and complying with the satisfactory academic progress policy (<https://www.colorado.edu/financialaid/policies/satisfactory-academic-progress-sap-policy>). Briefly, the policy outlines the requirements to maintain satisfactory progress (i.e., minimum grade point average [GPA], completion rate, etc.), the consequences of failing to meet the requirements, and the process for appealing if the student loses eligibility.

## Student Loan Code of Conduct

The Office of Financial Aid has established a set of principles and policies to govern educational lending practices for undergraduate, graduate and professional students. Our staff will follow the Student Loan Code of Conduct (<https://www.colorado.edu/financialaid/policies/code-conduct>) to ensure the integrity of the student loan process.

## Students Rights and Responsibilities

Students who receive any form of financial aid, have certain rights and responsibilities (<https://www.colorado.edu/financialaid/policies/students-rights-and-responsibilities>). The university is also required to disclose certain information to all students. Also view CU Boulder Consumer Information (<http://www.colorado.edu/about/your-right-know>).

## Verification

Students may be asked to provide additional information as part of the verification (<https://www.colorado.edu/financialaid/policies/verification>) process. Verification checks the accuracy of answers provided on a student's FAFSA.

## Withdrawal (Return to Title IV) Policy

If a student enrolls at CU Boulder, receives financial aid, then withdraws, his or her financial aid is adjusted according to federal regulations (<https://www.colorado.edu/financialaid/policies/return-title-iv-funds-refund-policy>). The student may owe a bill to the university after the financial aid is adjusted.

## Drug Conviction

In accordance with the Higher Education Reconciliation Act of 2005, students who have been convicted under federal or state law for possession or sale of a controlled substance (<https://www.colorado.edu/financialaid/policies/drug-conviction>) will be suspended from Title IV aid.

eligibility if the offense occurred while the student was receiving Title IV aid.

A summary of the most pertinent policies are available as "award guides" on the Office of Financial Aid's Policy webpage (<https://www.colorado.edu/financialaid/policies>).

## Student Employment

Research studies indicate that students who work while attending college are as successful academically as those who do not. Jobs provide students with income, work experience and the opportunity to explore career options. Student Employment, within the Office of Financial Aid, supports students and employers with work-study employment, finding and posting job opportunities and providing guidance on student employment policy.

## Work-Study

Students awarded with work-study (<http://www.colorado.edu/studentemployment/work-study>) are provided an amount of money they can work to earn through approved on and off-campus agencies. Students do not get the money up-front, nor is it applied to their tuition and fee bill. These students receive a paycheck for hours worked just like a non work-study job. Work-Study students should submit the FAFSA (<https://studentaid.ed.gov/sa/afsa>) to be considered for work-study, since it is based on financial need.

Get a quick overview of the program with our work-study video (<http://www.colorado.edu/studentemployment/video/work-study>).

## Find a Job

Student Employment posts part-time on-campus and off-campus jobs (<http://www.colorado.edu/studentemployment/find-job>) for both work-study and non-work-study students. In addition, an on-call temporary employment service allows students to register for occasional work including one-time child care, yard work and clerical jobs.

## Student Employee Work Hours Policy

Undergraduate student employees are limited to working a maximum of 25 hours per week during the fall and spring semesters and 40 hours per week during the summer, per the Student Hourly Employee Work Hours Policy (<http://www.colorado.edu/studentemployment/policies>). The policy does not affect students working in non-university off-campus jobs, though we encourage students to prioritize their academics first when considering outside work commitments. View more information about this policy and other student employment policies on the Student Employment policy web page (<http://www.colorado.edu/studentemployment/policies>). (<http://www.colorado.edu/studentemployment>)

## Contact Student Employment

Student Employment is here to help connect students and employers. Visit Student Employment in Regent Administrative Center 205 (<http://www.colorado.edu/campusmap/map.html?bldg=RGNT&x=24&y=9>), call 303-492-7349 or email [studentemployment@colorado.edu](mailto:studentemployment@colorado.edu) for more information.

## Graduation

### Graduation

Students are eligible to graduate at the close of the term in which they successfully complete all requirements for their degree program.

Degrees are conferred at the close of fall semester, spring semester and summer session. Students must apply for graduation through MyCUInfo by the published deadline for the term in which they complete degree requirements. Instructions for applying and important dates and deadlines are available on the Office of the Registrar's Graduation & Commencement (<http://www.colorado.edu/registrar/students/graduation>) webpage. Individual colleges and schools may require additional processes for students completing their degrees.

### Academic Program Discontinuance

In the event a degree program is discontinued, students currently enrolled in the program have a four-year period in which to complete their degree requirements. This four-year period starts at the end of the academic year in which the Colorado Department of Higher Education (CDHE) takes action to discontinue the program. No new or returning students will be admitted into a discontinued degree program. Students not completing the degree requirements in the four-year period are not permitted to receive the discontinued degree. In such cases, credit hours accumulated may be applied to the overall number of credit hours required toward graduation, but the student must seek the advice of their college or school to determine how these credit hours might apply to a new degree program.

### Commencement

A general commencement ceremony is held in May for all students who have graduated or anticipate to graduate in a given academic year (fall, spring and summer). This ceremony is open to the public and no tickets are required. Many departments, colleges and schools hold recognition ceremonies in both fall and spring semesters. For details about the ceremony, visit CU Boulder's Commencement (<http://www.colorado.edu/commencement>) website.

### Diplomas

Please see the Academic Records (p. 19) section.

## New Student & Family Programs

New Student & Family Programs (NSFP) supports new students and families throughout their transition and involvement at the University of Colorado Boulder.

In order to aid in the transition to CU Boulder, all incoming undergraduate students must complete an online orientation program, the Online New Student Experience (<https://www.colorado.edu/orientation/online-experience>), in order to register for classes. The Online Experience requires activation of a student's IdentiKey (<https://oit.colorado.edu/services/identity-access-management/identikkey>) and is accessible from MyCUInfo (<http://mycuinfo.colorado.edu>). This program is critical to the college experience as it helps incoming students learn more about student success, advising, registration and campus resources. New students should check their CU Boulder email account (<https://oit.colorado.edu/services/messaging-collaboration/gsuite/gmail>) for more information about the Online Experience and other important next steps.

New Student & Family Programs also collaborates with campus partners to plan fall and spring Welcome events surrounding the first day of classes. Students participate in programs and have opportunities to connect with current students, faculty and staff to create a healthy and positive transition to CU Boulder.

For more information, visit the New Student & Family Programs (<http://www.colorado.edu/orientation>) website.

## Registration & Enrollment

### Registration

Visit the Office of the Registrar's Academic Calendar (<http://www.colorado.edu/registrar/students/academic-calendar>) webpage for specific academic and financial dates and deadlines. Students should also consult individual college and school sections of this catalog and their dean's office for additional information on special requirements and deadlines. The following registration policies are intended to serve as general guidelines.

Students who require accommodations because of a disability should visit the Disability Services (<http://www.colorado.edu/disabilityservices>) website or call 303-492-8671.

### Confirmation Deposit

All new degree students pay a one-time \$200 confirmation deposit when they first confirm their intent to enroll at CU Boulder. Students are not permitted to register if the university has not received the deposit.

Confirmation deposits are refunded to students upon graduation or official withdrawal from CU Boulder within established dates and procedures. All refunds are reduced by any outstanding financial obligations. Interest earned from confirmation deposits is used for student financial aid.

Questions regarding the confirmation deposit policy should be directed to the Office of Admissions, 303-492-6301.

### MyCUInfo

Student registration and other important information and services are available through the student portal, MyCUInfo (<https://mycuinfo.colorado.edu>). Students access the MyCUInfo portal using a secure CU login name and IdentiKey password. For more information and registration instructions, visit the Registration (<http://www.colorado.edu/registrar/students/registration>) webpage.

### Registering for Classes

All CU Boulder students register for classes through MyCUInfo, where they can also check their assigned registration periods, view any holds that may prevent registration (see "Holds"), see to-do lists and obtain their advisor's name and contact information.

New incoming students and transfer undergraduate students receive their registration instructions and information during the New Student Welcome Experience. Continuing students may consult the academic calendar or view their registration dates in the student portal; they are also notified by email each semester of upcoming registration periods.

If a student misses their assigned registration window, they must wait until the schedule adjustment period (fall only) or open enrollment to register for classes. No exceptions are made to this policy.

Registration instructions are also available on the Enroll in Classes (<http://www.colorado.edu/registrar/students/registration/enroll>) webpage.

## Enrollment Dates

Each term, students are assigned enrollment dates based on the number of credits they have completed. Posted in MyCUInfo, the enrollment assignment indicates the dates and times during which the student may enroll, as well as the maximum number of credits they can take. Students who miss their assigned dates must wait until the schedule adjustment (fall only) or open enrollment periods to register for classes.

Priority registration has been formally approved for specific populations of students who have unique scheduling needs. Priority registration does not override university or departmental policies, holds, permissions, etc., nor does it guarantee the provision of classes at specific times. Student populations with priority registration, which often occurs within the enrollment period specified for their class (i.e., freshmen, sophomores), may include students with disabilities, military veterans and student athletes.

## Holds

A hold may be placed on a student's record for a number of reasons, including but not limited to financial, advising, scholastic, conduct and health. A hold may prevent a student from registering, returning to school, obtaining an official transcript or receiving a diploma. Students should resolve holds as quickly as possible by contacting the appropriate campus office identified in the hold in MyCUInfo.

## Special Registrations

### Intercampus Enrollment Program

CU Boulder students enrolled in at least one Boulder main campus class may be allowed to register for up to two classes or 6 credit hours, whichever is greater, on another University of Colorado campus.

Generally, classes taken at other CU campuses must be required for graduation or unavailable on the Boulder campus in a given term, or the classes must conflict with another required class in which the student is enrolled.

Boulder students exercising this option pay tuition for their total credit hours at Boulder campus rates. Intercampus Enrollment forms and instructions are available on the Registration Programs (<http://www.colorado.edu/registrar/students/registration/registration-programs>) webpage.

Intercampus students are registered in host campus classes after continuing home students have had the chance to enroll. This excludes the Anschutz campus, where students will be enrolled on the first day of classes. Students must adhere to the add/drop deadlines of the host campus when making changes to their intercampus enrollment.

Boulder campus students who wish to take coursework on another campus of the University of Colorado, but not through the Intercampus Enrollment program, may be able to register on that campus independent of Boulder-campus registration. However, they must apply for admission to and follow the registration procedures established by the other campus. Students should check with their dean's office for approval and course applicability to their degree program.

### Late Registration

We recommend students register for classes as soon as their registration period begins. If a student enrolls after the third Friday of the semester (fall or spring), they will be assessed a **\$100 late-registration fee** (this is different than charges assessed for late payments

of the university bill). For more information, visit the Add a Class (<https://www.colorado.edu/registrar/students/registration/register/add>) webpage.

## University Employees and Dependents

CU Boulder offers a tuition benefit to eligible employees and their dependents. For current benefit information, visit Employee Services' Employee Tuition Waiver Benefit (<https://www.cu.edu/employee-services/employee-tuition-benefit>) website.

## Auditing

Individuals who have not been admitted to the university and who wish to attend regular classes may do so by obtaining auditor's status. Auditors must receive permission and obtain a signature from course instructors during the first week of class to be formally added to the roster.

Audited courses will not appear on any transcript, formal or informal, as no credit is awarded. Registered auditors receive class instruction, learning management system access and library privileges. Being an auditor at the University of Colorado Boulder does not guarantee eligibility for regular degree or nondegree status.

Note: Admitted degree students, either enrolled or suspended, are not permitted to audit courses. If an admitted degree student is interested in participating in a class without receiving credit, the student must enroll in the course for no credit. Courses taken for no credit are assessed the same tuition rate as courses taken for credit.

### Community Auditors

Community members age 18–54 can register for the Community Auditors program through Continuing Education by completing the Community Auditor Registration Form on the Community Auditors (<http://ce.colorado.edu/programs/community-auditors>) webpage. Contact [ceregistration@colorado.edu](mailto:ceregistration@colorado.edu) or call 303-492-5148 for more information.

Community auditors pay for three credit hours at the in-state undergraduate tuition rate in the College of Arts and Sciences. The cost is a flat rate and, with instructor permission, auditors may audit as many classes as desired. Nonrefundable payment is due at the time of enrollment.

### Senior Auditors Program

Individuals 55 years and older can register for the Senior Auditors Program through the CU Boulder Alumni Association and qualify for reduced rates. Registration and eligibility information is available on the Senior Auditors (<http://www.colorado.edu/alumni/programs/senior-auditors>) webpage. Contact the Alumni Association at 303-492-8484 for more information about this program.

## Dropping & Adding Classes Procedures

Students can add or drop classes in the MyCUInfo portal or app. For more information, visit the Enroll in Classes (<http://www.colorado.edu/registrar/students/registration/enroll>) webpage.

## Deadlines

For specific drop and add deadlines for both the regular 16-week and special fall and spring sessions, visit the Academic Calendar (<http://www.colorado.edu/registrar/students/academic-calendar>) webpage.

For summer deadlines, visit the Summer Session Calendars (<http://www.colorado.edu/summer/resources/calendars>) webpage.

### Add a Class

- Students may add classes in MyCUInfo during designated registration periods each term.
- After this time period, students must contact the instructor or the instructor's department and request to be added to a class. Their request may be denied based on lack of attendance, fire code capacity being met, lack of pre-requisites, etc. If a student is added to a class after their designated registration period, then the university cannot guarantee timely review of the student's financial aid or processing of the tuition and fee bill.
- After the COF-eligibility deadline has passed, classes will not receive COF funding unless the class was added late due to a university error.

### Drop a Class

- **No Record Drop:** Students may drop individual classes in MyCUInfo with a refund and no record (no W grades) through the third Wednesday of a regular 16-week fall or spring session and through the add/drop deadline of any special fall or spring session (summer dates vary).
- **Drop with Record:** After the third Wednesday of a 16-week fall or spring session or the add/drop deadline of any special fall or spring session, students may continue to drop classes without instructor/ advisor approval in MyCUInfo through Friday of the tenth week of the regular 16 week fall or spring session or the Deadline to Drop a Class in MyCUInfo date for any special fall or spring session (summer dates vary). However, tuition and fees are assessed and grades of W appear on the transcript.
- **Late Drop:** After the 10-week drop or Deadline to Drop a Class in MyCUInfo deadline for any special fall or spring session, instructor and dean signatures are required to drop a class. Some colleges may require additional approval or processes, such as petitioning the dean (students should check with their school or college). Class drops are generally not approved after this date except in extraordinary circumstances. Tuition and fees are assessed and grades of W appear on the transcript.

Students dropping all of their classes should see the Withdrawal section.

## Withdrawing from the Semester

A withdrawal from a Main Campus semester occurs if the student:

- never registers for classes in a fall or spring semester; or
- drops all classes for a semester; or
- submits a withdrawal request to the Office of the Registrar.

A student who desires to withdraw from the university and drop all Main Campus classes should visit the Office of the Registrar's Withdraw from the Semester (<http://www.colorado.edu/registrar/students/withdraw-cu>) webpage and review the current term's withdrawal calendar to understand the potential impacts of withdrawing. Failure to withdraw properly may result in failing grades recorded for every class and liability for the full amount of tuition and fees for that term.

Rules for withdrawing may vary with each college and school. Students anticipating a withdrawal should consult their advisor and read the withdrawal information on the Withdraw from the Semester (<http://www.colorado.edu/registrar/students/withdraw-cu>) webpage.

Withdrawing students (including students applying for a graduate leave of absence) with Federal Perkins/NDSL loans must complete a loan exit interview and clear all outstanding financial balances before leaving the university. Failure to do so results in a hold on the student's record. This hold prevents receipt of a diploma or an academic transcript of work at the university and registration for future terms. Students can complete a loan exit interview by contacting University Student Loans & Debt Management in the Bursar's Office at 303-492-5571, toll free at 800-925-9844 or TTY 303-492-3528.

Undergraduate students who withdraw and then wish to return to the university have two semesters (plus summer) from their last graded semester to return to the university without having to reapply for admission. Graduate students can apply for an approved leave of absence.

Details are available on the Withdraw from the Semester (<http://www.colorado.edu/registrar/students/withdraw-cu>) webpage.

For more information, contact the Office of the Registrar at 303-492-6970 or [withdraw@colorado.edu](mailto:withdraw@colorado.edu). For information about tuition and fee obligations for withdrawing students, see either the Undergraduate Tuition and Fee Policies (p. 56) or the Graduate Tuition and Fee Policies (p. 909) sections.

### Undergraduate Leave of Absence

Undergraduate students can take a leave of absence from the university for up to two semesters (plus summer) without having to reapply to CU Boulder. Eligible degree-seeking undergraduate students may maintain certain university benefits while taking leave from the university. Some benefits (such as Recreation Center access and health insurance through Wardenburg Health Services) are only available for an additional fee. Signing up for these elective benefits requires submitting an application and a nonrefundable \$50 administrative fee.

For an application and more information, visit the Leave of Absence (<http://www.colorado.edu/registrar/students/withdraw-cu/leave-of-absence>) webpage.

### Active Duty

Students who are military personnel, fire fighters and police officers called to active duty and/or to help with disasters may request to go on a leave of absence. These students should contact the Office of the Registrar. For more information, visit the Withdraw from the Semester ([https://www.colorado.edu/registrar/students/withdraw-cu/#military\\_personnel\\_amp\\_emergency\\_workers-466](https://www.colorado.edu/registrar/students/withdraw-cu/#military_personnel_amp_emergency_workers-466)) webpage.

### Retroactive Withdrawal

In certain situations, colleges, schools and programs accept petitions for retroactive withdrawals from one or more completed semesters. Students must clearly demonstrate that they experienced extenuating circumstances that prevented them from withdrawing by the deadline. Extenuating circumstances may include serious health problems, a family emergency and unexpected financial hardship. Such petitions require specific and detailed documentation from appropriate licensed professionals in order to be considered. Students who believe they may be eligible for a retroactive withdrawal should talk to their college or visit the Division of Student Affairs Retroactive Withdrawal (<https://www.colorado.edu/studentaffairs/retroactive-withdrawal>) webpage for more information.

The review process for retroactive withdrawals may take several months. For petitions that are approved, grades of W will be recorded for all classes taken in the semester, irrespective of the original grades.

Students who must withdraw within a given term due to extenuating circumstances should review the Academic & Financial Considerations (<https://www.colorado.edu/registrar/students/withdraw>) webpage.

## Credit for Prior Learning

Undergraduate students with prior work or educational experience in a particular field of study in the liberal arts may be interested in earning credit in one or more of the statewide Guaranteed Transfer (GT) Pathways (<http://highered.colorado.gov/academics/transfers/gtPathways/curriculum.html>) general education curriculum categories without taking a traditional course at CU Boulder. Students may earn GT Pathways credit in two ways: by passing a challenge exam or through a portfolio review.

## Challenge Exam

Students may request a challenge exam for any one of the 14 categories in the GT Pathways general education curriculum. Students must take and pass a proctored examination (usually a CLEP exam) or other approved assessment to demonstrate their knowledge and mastery of the state-approved content and competencies for that GT Pathways category. By successfully challenging a GT Pathways category, a student will earn 3 or 4 generic credits toward the equivalent category in their CU Boulder general education requirements. They will not earn credit for a specific CU Boulder course.

## Portfolio Review

A portfolio is another way for a student to demonstrate learning acquired outside of the traditional classroom. It is a collection of information gathered by the student and presented in a systematic format that validates the experiential learning that has occurred. Students may only present a portfolio to demonstrate their knowledge and mastery of the state-approved content and competencies for a GT Pathways category. These categories are similar to the College of Arts and Sciences General Education categories and the general education categories in the other CU Boulder colleges and schools.

## Other Methods

Please note that students may also earn GT Pathways credit for prior learning via:

- Advanced Placement (AP) exams
- International Baccalaureate (IB) exams
- College-Level Examination Program (CLEP) exams
- DANTES Subject Standardized Tests (DSST)

Please see the Office of Admissions' Credit for Coursework or Exams (<https://www.colorado.edu/admissions/selection/credit>) page for information about earning credit for those exams.

For more information, see our Credit for Prior Learning (<https://www.colorado.edu/registrar/students/degree-planning/credit-prior-learning>) webpage.

## Student Affairs

## Health & Wellness

### Medical Services

Medical Services is the primary health care resource for CU Boulder students. Through comprehensive care and education, we strive to give students the skills and knowledge they need to develop healthy life-long habits. To learn more, visit Health and Wellness Services (<http://www.colorado.edu/health>).

### Counseling and Psychiatric Services

Counseling and Psychiatric Services (CAPS) offers confidential, on-campus and online mental health and psychiatric services for a variety of concerns including academics, anxiety, body image, depression, relationships, substance use and more. To learn more, visit CAPS (<http://www.colorado.edu/health/counseling>).

### Disability Services

Students with disabilities are one of the many groups that make up our campus community. Having a diverse community broadens our understanding and appreciation for the contributions of each individual. We provide leadership and guidance regarding accommodations and universal access. To learn more, visit Disability Services (<http://www.colorado.edu/disabilityservices>).

## CU Boulder Gold Student Health Insurance Plan (SHIP)

Students registered for 6+ undergraduate credit hours or 1+ graduate credit hours are eligible to enroll in CU's Gold Student Health Insurance Plan (SHIP). Students also have the option to waive the Gold SHIP and use their own insurance.

Students using their own insurance qualify for the BuffCare Supplemental Plan, which provides coverage for out-of-pocket expenses incurred through Health and Wellness Services including co-payments, co-insurance and other expenses.

Exceptions to Gold SHIP enrollment: new summer students, non-degree seeking Continuing Education, Leave of Absence Program, Education Abroad, Evening MBA program, or exclusively Be Boulder Anywhere courses.

For more information, visit the Health Insurance Requirement (<http://www.colorado.edu/health/insurance/health-insurance>) webpage.

*Note:* Plans available through the health insurance marketplace meet CU's health insurance requirement. Colorado students may sign up through the Connect for Health Colorado (<http://connectforhealthco.com>) website. Nonresident students may sign up through their home state health exchange or through the national HealthCare.gov (<https://www.healthcare.gov>) website.

## Housing

### Residence Halls

Living on campus in a university residence hall is considered an important part of student life. Over 7,000 students are accommodated in double rooms, multiple occupancy rooms, singles and apartments in 24 residence halls. All halls are coeducational and range in sizes from 100 to 500 students. Each fall the residence halls provide a new home for

more than 6,000 entering freshmen. Subject to the availability of space, all freshmen are required to live in a residence hall for two academic semesters (a summer term does not count as an academic semester), unless they are married or live with parents and have permission to commute. Requests for permission to reside off campus for other reasons are considered on their merits, taking into account individual circumstances.

The residence halls provide a range of services and programs designed to support the intellectual, social and personal growth of single student residents. All residence halls, for example, offer tutoring services to residents at no cost. Additionally, a variety of academic and social programs are sponsored by residence hall and other university staff.

The dining centers' service hours are planned to be convenient for most students' schedules. Campus Dining Services provides healthy food choices to diverse students which emphasizes convenience, value and variety. The dining program permits students (regardless of hall assignment) to eat in any dining center.

For more information about university housing options and/or permission to reside off campus, prospective students may contact:

Occupancy Management  
Center for Community, Room S300  
159 UCB  
Boulder, CO 80309-0159  
Email: [studenthousing@colorado.edu](mailto:studenthousing@colorado.edu)  
Phone: 303-492-6673

### Application for Residence Hall Housing

New freshman and transfer students receive information from Housing & Dining Services about applying for housing after they have confirmed their intent to attend the university. Housing assignments are made on a first-come, first-assigned basis. The earlier applications are submitted, the better chance students have of being assigned to the residence hall of their preference. (Please note that Housing & Dining Services does not guarantee assignment to a particular building or program, type of accommodation or specific roommate.)

Note: Application for admission to the university and application for housing are two separate transactions. For information regarding admission notification and confirmation procedures, see the undergraduate Admissions (p. 22) section.

All housing contracts are for the full two-semester academic year or remainder thereof. An early termination of contract is subject to financial penalties as stated in the residence halls contract.

### Housing Security Deposit

All students who live in the residence halls are required to pay a one-time security deposit of \$300 at the time of application. This security deposit is held by Housing & Dining Services and is released to the tuition and fee account within 60 days after the expiration of the housing contract. This deposit is forfeited by students who cancel after May 31, or students who do not live in the residence halls for the entirety of the housing contract period.

The security deposit required for housing is in addition to the confirmation deposit required for admission to the university.

## Room and Board Rates per Semester

Residence hall room and board rates per person, per semester, for the 2019–20 academic year are:

Roommate(s) & community bath	\$7,209
Roommate(s) & attached bath	\$7,962
Individual space & community bath	\$7,962
Individual space & attached bath	\$8,188
Roommate(s) & apartment	\$8,330

Rates are per semester. Fall semester is August 20, 2019 to December 19, 2019 and spring semester is January 10, 2020 to May 7, 2020. Summer room types and rates available on the Housing & Dining Services website (<https://living.colorado.edu/room-types-rates>).

Rates for 2020-21 will be available in July 2020. Please expect a 3-5% increase.

## Undergraduate Residential Programs

A number of the residence halls are home to residential academic programs. Additionally, several communities offer themed housing in the form of living and learning communities. Visit the respective pages of the catalog to learn more about residential academic programs (p. 886) and living and learning communities (p. 886).

## Off-Campus Housing

Off-Campus Housing & Neighborhood Relations (a service of CUSG) maintains listings of apartments, houses and rooms for rent in the Boulder area. Currently enrolled students may view listings and connect with potential roommates on Ralphie's List, CU's rental database, on the Off-Campus Housing & Neighborhood Relations (<http://offcampushousing.colorado.edu>) website. The office also maintains a detailed list of apartments and property management companies available for download or pickup in the office.

The department has a staff attorney available on Tuesdays and Fridays to advise students about leases, security deposits, maintenance issues and roommate and landlord conflicts. Office assistants will help students locate properties and answer questions about the surrounding neighborhoods.

During the academic year, the office sponsors several off-campus housing fairs where landlords, property managers and related businesses offer their services to students in a trade-show format.

For additional information, visit the Off-Campus Housing & Neighborhood Relations (<http://offcampushousing.colorado.edu>) website or call 303-492-7053. Office hours are 8 a.m.–5 p.m., Monday–Friday. Summer hours are 7:30 a.m.–4:30 p.m.

Note: First-year students must receive written permission from Housing & Dining Services before obtaining off-campus accommodations for the fall and spring semesters of their first year, as well as for the summer session preceding their fall start date.

## Graduate & Family Housing

The University of Colorado Children's Center provides child care for the children of students, staff, faculty and Graduate & Family Housing residents.

Graduate & Family Housing offers an affordable, convenient and comfortable living environment that serves the needs of a

diverse population of students at CU. We are home to residents from over 70 nations and offer a variety of apartment types and sizes, flexible leases and community-building programs and events. To learn more, visit the Housing & Dining Services (<https://living.colorado.edu>) website or call, write or email the Graduate & Family Housing Office at the address provided.

Graduate & Family Housing Office  
1350 20th Street, #A10  
University of Colorado Boulder  
Boulder, CO 80302  
T: 303-492-6384  
[graduatefamilyhousing@colorado.edu](mailto:graduatefamilyhousing@colorado.edu)

## Student Conduct & Colorado Creed

### Student Conduct & Conflict Resolution

The purpose of Student Conduct & Conflict Resolution is to support community safety, student growth and success by helping students:

- reflect on decisions,
- be accountable for their actions, and
- make decisions in congruence with community standards of conduct.

### Clarification of Values

1. Students will have a greater understanding of the impact their decisions have on others.
2. Students will gain an understanding of the institutional values reflected through policies and practices.
3. Students will be able to identify ways in which they can make decisions in congruence with community standards of conduct.
4. Students will gain a better understanding of the importance of personal accountability and responsibility.
5. Students will be able to identify the harms caused by their decisions and determine the best method for repairing those harms.
6. Students will be able to reflect on their choices and develop individual goals for success.
7. Students will have a greater understanding of campus resources.

### Authority

Article 7, Part B, of the Laws of the Regents requires each campus to develop a student code of conduct. Student Conduct & Conflict Resolution (SCCR) is authorized to establish and administer this policy. Any questions regarding interpretation of this code or any of its provisions should be directed to the Dean of Students or his/her designee for final determination. Questions regarding behavioral problems should be directed to:

Student Conduct & Conflict Resolution  
10 UCB  
Boulder, CO 80309  
Email: [studentconduct@colorado.edu](mailto:studentconduct@colorado.edu)  
Phone: 303-492-5550

### Jurisdiction

This policy governs:

- Student conduct that occurs on or as it relates to university property, or at official functions and university-sponsored programs conducted away from the campus. University property is denied as land,

buildings and facilities in possession of or owned, used or controlled by the university or funded by university budgets.

- Student conduct that occurs off university property is subject to this policy if it: (1) adversely affects the health, safety or security of any member of the university community or the mission of the university; or (2) involves any records or documents of the university.

For purposes of this policy, the university's mission is broadly denied to include both its academic goals and the importance of developing civic responsibility in its students.

## Student Conduct Process

### Informal Resolution

- This process may generally include, but is not limited to, a meeting with a conduct officer, completion of the agreement, and/or participation in the Restorative Justice program as is referenced in H.5.
- During the meeting, if the conduct officer determines that the informal resolution process may be appropriate, the conduct officer will offer it as an option to the student and address any questions the student may have about the process. If the student accepts responsibility for the alleged prohibited conduct and agrees to and completes the agreement developed during the meeting, then SCCR will consider the matter to be resolved informally.

### Formal Resolution

- This process generally includes written notice of the factual allegations and alleged violations of the Student Code of Conduct, the opportunity to meet with the conduct officer to address the allegations and provide information to the conduct officer, the conduct officer reviewing the allegations and making factual and violation determinations based on the preponderance of the evidence, and written notice to the student of the conduct officer's determinations.

All students residing in Housing & Dining Services facilities are subject to Residence Hall policies or any policy properly communicated through Housing & Dining Services staff. For more information, visit the Residence Hall Handbook (<https://living.colorado.edu/housing/what-you-need-know>) webpage.

Proceedings initiated under this policy are separate from civil or criminal proceedings that may relate to the same incident. Investigations or conduct proceedings by the university are not postponed while criminal or civil proceedings are pending, unless otherwise determined by the conduct officer.

The unexcused failure of a student to appear and/or respond to the conduct process does not prevent the university from proceeding with the conduct process.

Cases involving sexual misconduct (including sexual assault, sexual harassment, intimate partner violence and gender/sex-based stalking), protected class discrimination and harassment and any related retaliation are subject to the Office of Institutional Equity and Compliance (OIEC) policies. For more information, visit the OIEC (<https://www.colorado.edu/oiec>) website or call 303-492-2127.

Excerpts from the Colorado Revised Statutes regarding hazing, ethnic intimidation and riots are also presented. Colorado law prohibits persons convicted of rioting from enrolling in state-supported universities/colleges for 12 months following the date of a conviction.

For information about student classroom and course-related behavior, visit the Policies (<https://www.colorado.edu/policies/student-classroom-and-course-related-behavior>) webpage.

## Colorado Creed

The Colorado Creed, developed by students in 2003, is a social code of conduct and a lifestyle by which students at CU Boulder live. The text of the creed is:

As a member of the Boulder community and the University of Colorado, I agree to:

- Act with honor, integrity and accountability in my interactions with students, faculty, staff and neighbors.
- Respect the rights of others and accept our differences.
- Contribute to the greater good of this community.

I will strive to uphold these principles in all aspects of my collegiate experience and beyond.

For more information, visit the Colorado Creed (<http://www.colorado.edu/creed>) website.

## Student Resources

The Division of Student Affairs (<http://www.colorado.edu/studentaffairs>) offers many on-campus resources for our students. Visit our offices to learn more.

## Student Life & Involvement

- Center for Student Involvement (<https://www.colorado.edu/involvement>): Be Involved! Connect with clubs, Greek Life, student organizations and other events and opportunities.
- CU Student Government (<https://custudentgov.org>): Make a difference! Get involved with your student government representatives, elected by students, for students. CUSG is your voice on campus.
- Environmental Center (<https://www.colorado.edu/ecenter>): Helping CU Boulder become a global leader in sustainability through recycling, student bus pass, bicycle and educational programs.
- Housing & Dining Services (<https://living.colorado.edu>): Explore information about on-campus life, including residence halls, meal plans and dining options! View housing or on-campus meal plan options.
- New Student & Family Programs (<https://www.colorado.edu/orientation>): The campus resource for new students and families as they begin their journey at CU Boulder. Ask us questions and be sure to join us for welcome events throughout the year.
- Off-Campus Housing & Neighborhood Relations (<https://www.colorado.edu/offcampus>): Explore off-campus rentals on Ralphia's List, register your party and learn about the legal aspects of off-campus living.
- Residence Life (<https://living.colorado.edu>): Explore the opportunities that residence life provides, from on-campus housing and employment to student resources like free tutoring.
- University Memorial Center (<https://www.colorado.edu/umc>): Home to the CU Bookstore and student offices, as well as plenty of entertainment and dining options.

## Health & Wellness

- Counseling & Psychiatric Services (<https://www.colorado.edu/counseling>): Offers confidential, on-campus mental health and psychiatric services including workshops, groups, individual counseling and medication management.
- CU Collegiate Recovery Center (<https://www.colorado.edu/recoverycenter>): A supportive student community offering free support meetings, sober social events, recovery coaching and referrals for students.
- Health Promotion (<https://www.colorado.edu/health/promotion>): Assists students in developing skills to make healthy decisions through outreach and education, including workshops, classes, events and conversations.
- Medical Services (<https://www.colorado.edu/healthcenter>): Provides on-campus health and wellness services including medical care, nutrition, physical therapy, sexual and reproductive health and more.
- Office of Victim Assistance (<https://www.colorado.edu/ova>): Offers free and confidential support, consultation, advocacy and counseling for students, staff and faculty who've experienced a traumatic, disturbing or life-disruptive event.
- Recreation Services (<https://www.colorado.edu/recreation>): Get moving with all that The Rec has to offer, including intramural sports, fitness classes, nutritional services and the Outdoor Program.

## Student Support & Development

- Career Services (<https://www.colorado.edu/career>): Find student and alumni jobs, fine-tune your resume, learn about your strengths, land that internship and make connections with employers.
- Student Conduct & Conflict Resolution (<https://www.colorado.edu/osccr>): Get support for resolving conflicts and learn more about the Student Code of Conduct and the Honor Code.
- Student Legal Services (<http://www.cubouldersls.com>): Offers accessible, low-cost legal advice and education to students regarding their rights, responsibilities, and how to navigate the legal system.
- Students Support & Case Management (<https://www.colorado.edu/studentaffairs/sscm>): Provides individual support for students and advocates for their needs in all aspects of campus life.
- Veteran and Military Affairs (<https://www.colorado.edu/veterans>): Serves prospective and current student veterans and veteran dependents, including program information, policies, pay and support.
- Volunteer Resource Center (<https://www.colorado.edu/volunteer>): Explore volunteer opportunities for CU Boulder students and staff throughout the greater Boulder community.

## Student Data Privacy

### Annual Notice to Students

The University of Colorado complies fully with the provisions of the Family Educational Rights and Privacy Act (FERPA) of 1974. The act was designed to protect the privacy of student education records.

University guidelines explain procedures to be used by the institution for compliance with the provisions of the act. For more information, visit The Family Educational Rights and Privacy Act (FERPA) (<http://www.colorado.edu/registrar/students/records/ferpa>) webpage or contact the Office of the Registrar.

Students wishing to review their education records must schedule an appointment with the Office of the Registrar and present proper

identification. All other records inquiries must be directed to the appropriate office, e.g., Office of Financial Aid, Bursar's Office, etc.

Students may not inspect the following, as outlined by the act: financial information submitted by their parents, confidential letters that they have waived their rights to review or education records containing information about other students, in which case the institution will permit access only to that part of the record that pertains to the inquiring student. Records that may be inspected include admissions, academic and financial aid files and cooperative education and placement records. Students may access many records directly via the MyCUInfo portal.

The Family Educational Rights and Privacy Act affords students certain rights with respect to their education records. They are:

1. The right to inspect and review education records within 45 days of the day the university receives their request for access.
2. The right to request amendment of education records that they believe are inaccurate or misleading.
3. The right to consent to disclosure of personally identifiable information contained in their education records, except to the extent that FERPA authorizes disclosure without consent.
4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the university to comply with the requirements of FERPA.

## Directory Information

The following items of student information have been designated by the University of Colorado Boulder as public or "directory" information:

- student name
- hometown (city, state)
- campus email address
- dates of attendance
- previous educational institutions attended
- school/college or division of enrollment
- major/minor fields of study
- classification level (e.g., freshman, sophomore, etc.)
- university-recognized honors and awards
- degree status (e.g., expected graduation date and/or conferral dates/terms)
- enrollment status
- employment related to student status (e.g., teaching assistant, resident assistant or work-study) and dates for positions held
- participation in officially recognized activities/sports, including height and weight of athletes.
- photos and videos taken or maintained by the university

Such information may be disclosed by the institution at its discretion, unless the student has explicitly requested in writing that it not be released.

## Withholding Directory Information

Students have the right to withhold directory information from inquirers. To restrict the release of directory information, students must bring a photo ID to the Office of the Registrar during business hours to complete a privacy form.

## Student Consent for Release of Confidential Information

Students may authorize the university to release educational records to parents, spouses or other third parties by granting consent in MyCUInfo. The Privacy Settings (<http://www.colorado.edu/registrar/students/records/privacy>) webpage has more information about various options for granting and restricting access to student records.

## Release of Disciplinary Information

Provisions of the Family Educational Rights and Privacy Act of 1974, as amended by the Higher Education Amendments of 1998, govern access to a student's academic transcript or conduct file. The student and/or those university officials who demonstrate a legitimate educational need for disciplinary information may have access to the student's conduct file.

Parent(s) who provide proof that a student is a dependent as defined in Section 152 of the Internal Revenue Code of 1954 (i.e., a copy of the last federal income tax return listing the student as a dependent) may have access to the student's conduct file without written consent of the student. In this case, parents may have access to a conduct file, even if the student has requested otherwise.

In addition, parent(s) may be notified if a student under 21 is found responsible for a violation involving use or possession of alcohol and controlled substances. All other inquiries, including but not limited to inquiries from employers, government agencies, news media, family, friends or police agencies, require a written release from the student before access to university conduct files is granted. Exception: information may be released pursuant to a lawfully issued subpoena and as provided by the Campus Security Act as amended by the Higher Education Amendments of 1992.

The Campus Security Act permits higher education institutions to disclose to alleged victims of any crime of violence (e.g., murder, robbery, aggravated assault, burglary, motor vehicle theft, arson) the results of the conduct proceedings conducted by the institution against an alleged perpetrator with respect to such crime. The Campus Security Act also requires that both the accused and the accuser be informed of campus conduct proceedings involving a sexual assault.

## Student Finances

### Costs

#### College Opportunity Fund (COF)

The College Opportunity Fund (COF), created by the Colorado Legislature, provides a stipend to eligible undergraduate students paying in-state tuition. The stipend pays a portion of total in-state tuition for eligible undergraduate students who attend a Colorado public institution or a participating private institution. Eligible undergraduate students must be admitted and enrolled at a participating institution to use the stipend for eligible undergraduate classes.

To receive the COF stipend, students must both apply for COF and authorize CU Boulder to use the stipend on their behalf (two separate steps). New accounts offer 145 available undergraduate credit hours. COF-eligible students who exceed 145 eligible COF hours toward their degree may apply for additional semesters of eligibility. For more information, visit the Office of the Registrar's College Opportunity Fund (<http://www.colorado.edu/registrar/students/cof>) webpage.

Details of the COF program are determined by the Colorado Department of Higher Education (CDHE) and the College Assist Program (<https://>

cof.college-assist.org). Students with questions about COF may contact the Office of the Registrar (<http://www.colorado.edu/registrar/about/contact-us>).

## Confirmation Deposit

All new students (both in-state and out-of-state) must confirm their enrollment at CU Boulder by official notification and deposit of \$200. The deposit is nontransferable and must be paid by all students, regardless of financial aid awards. Students who have paid the deposit and who decide not to attend CU Boulder forfeit their deposit. Students who submit deposits after enrollment levels have been reached will not be accepted, and their deposits will be returned.

The confirmation deposit is not applied to the tuition bill. It is refunded after graduation or official withdrawal within established dates and guidelines and after paying any outstanding university obligations.

## Housing Deposit

Please see the Housing (p. 50) section for details.

## Estimated Costs

Costs for students attending CU Boulder vary depending on housing (on or off campus), program of study, state residency (tuition classification), personal needs and individual interests.

Tuition and fees are approved annually by the Board of Regents. Visit the Bursar's Office (<https://www.colorado.edu/bursar>) website for current rates.

The figures below are university-billed cost estimates based on a single undergraduate student enrolled full time for academic year 2018-19 (two semesters). For detailed descriptions of tuition and fees, visit the Bursar's Office (<https://www.colorado.edu/bursar/costs>) website. The difference in range depends upon the student's college/school/program. Residential academic program (RAP) fees are not included in the estimated total. Additional costs such as transportation, medical and personal expenses should also be considered for planning purposes. The Bursar's Office Costs pages provide estimates of indirect costs which may help you plan accordingly.

### 2018-19 In-State Costs (<https://www.colorado.edu/bursar/costs/cost-estimates/undergraduate-colorado-resident>) (one academic year; resident for tuition purposes)

Tuition and Fees: \$12,532–\$17,836

On-Campus Room and Board (*based on double occupancy, standard room*): \$14,418

Books and Supplies: \$1,800

On-Campus Estimated Total: \$28,750–\$34,054

### 2018-19 Out-of-State Costs (<https://www.colorado.edu/bursar/costs/cost-estimates/undergraduate-nonresident>) (one academic year; nonresident for tuition purposes)

Tuition and Fees: \$37,286–\$40,584

On-Campus Room and Board (*based on double occupancy*): \$14,418

Books and Supplies: \$1,800

On-Campus Estimated Total: \$53,504–\$56,802

### 2018-19 International Costs (one academic year; international nonresident for tuition purposes)

Tuition and Fees: \$39,104–\$42,402

On-Campus Room and Board (*based on double occupancy*): \$14,418

Health Insurance: \$3,990 (*not included in estimated total*)

Books and Supplies: \$1,800

On-Campus Estimated Total: \$55,322–\$58,620

Notes:

- The resident tuition amount assumes eligibility for and authorization of the COF stipend, which was \$85 per credit hour in 2018-19.
- Residency classification (<https://www.colorado.edu/registrar/students/state-residency>) for tuition is determined by Colorado state law.
- Does not include one-time new student fee or health insurance. See the Health & Wellness (p. 50) section.
- In-state tuition is charged per credit hour. Out-of-state and international tuition is a flat rate, regardless of the number of credit hours.
- In-state undergraduate students must apply for and authorize the COF stipend to help offset part of their tuition. See the undergraduate COF section, above.
- In-state undergraduate tuition and mandatory fees are guaranteed for four years. For more information, visit Undergraduate Resident Tuition Guarantee (<https://www.colorado.edu/bursar/costs/cu-boulder-tuition-guarantee>).
- Out-of-state and international undergraduate students are guaranteed the same tuition rate for four years (not including mandatory fees). For more information, visit Undergraduate Nonresident Tuition Guarantee (<https://www.colorado.edu/bursar/costs/cu-boulder-tuition-guarantee>).
- Students planning to attend summer session can visit the Bursar's Office (<https://www.colorado.edu/bursar/costs/tuition-and-fees-rate-sheets>) website for summer rates.
- Tuition for no-credit (NC) courses (p. 42) is the same as for courses taken for credit.
- Students simultaneously enrolled in programs leading to two different degrees will be assessed tuition for the college or school with the higher tuition rate.

## Bills & Payments

### Online Bills

Any student who completes registration agrees to pay CU Boulder according to the payment terms in the Tuition and Fee Agreement and Disclosure (<https://www.colorado.edu/bursar/payments/payment-agreement>).

The university bill includes tuition, mandatory fees, optional fees, on-campus room and board (p. 50), residential academic program (RAP) fees, student health insurance (see health insurance requirement (p. 50)) and other direct-university costs for one semester at a time. Textbooks and supplies up to \$1,500 from the CU Book Store can be charged to the bill. Adjustments made throughout the semester will appear on the student account (e.g. health insurance waiver, dropping or adding courses, etc.). Additional costs such as transportation, medical and personal are not charged on the university bill but should be considered for planning purposes.

Bills for fall are typically available in mid-August, depending on your registration date. Spring bills are typically available in mid-January. Emails are sent to students' colorado.edu accounts and to authorized payers when bills are available online. New and unpaid charges are billed each subsequent month. Failure to check email or receive an email notification of the bill does not relieve any student of responsibility for payment by the published deadline. Students can log

in to MyCUInfo (<https://mycuinfo.colorado.edu>) and authorized payers can log in to CUBill&Pay (<https://quikpayasp.com/cu/boulder/tuition/authorized.do>) at any time to view and pay the bill.

## Authorized Payers

Family members **do not** automatically have access to view and pay the tuition and fee bill because of federal privacy laws (<http://www.colorado.edu/registrar/students/records/ferpa>). If they are helping pay the bill on the student's behalf, students must give them access to CUBill&Pay by authorizing them as payers. Students can authorize payers in MyCUInfo (<http://mycuinfo.colorado.edu>). Students are ultimately responsible for payment of the bill.

Authorized payer access is separate and distinct from CU Guest Access (<https://www.colorado.edu/registrar/students/records/privacy/guest-access>) and FERPA Consent to Release (<https://www.colorado.edu/registrar/students/records/privacy/consent>). If someone is helping pay tuition and fees on your behalf, we recommend giving them authorized payer access and CU Guest Access.

## Payments

Payment due dates are the 5th of the month. The primary due date for fall is Sept. 5 and for spring, Feb. 5.

### Payment Methods

We encourage online payment from a traditional U.S. checking or savings account (electronic check or eCheck) in order to avoid paying a nonrefundable 2.75 percent service fee charged by NelNet Business Solutions for all credit and debit card transactions. Paying by eCheck is secure, fast and free.

We accept American Express, MasterCard, Visa and Discover. A nonrefundable 2.75 percent fee applies to all credit and debit card transactions.

International payments (bank and wire transfers) can be made using Flywire in MyCUInfo (<http://mycuinfo.colorado.edu>). For more information about Flywire, visit the Wire Transfers (<https://www.colorado.edu/bursar/payments/payment-options/wire-transfers>) webpage.

Learn about other payment methods on the Bursar's Office (<https://www.colorado.edu/bursar/payments/payment-options>) website.

### Payment Plans

Optional payment plans are available for students and authorized payers to pay tuition and fees over the course of the semester. For more information, visit the Payment Plans (<https://www.colorado.edu/bursar/payments/payment-plans>) webpage.

Also see the Policies (p. 56) section.

## Policies

### Add/Drop Tuition Adjustment

Adjustment of tuition and fees is made accordingly based on dates in the Add/Drop Calendar (<https://www.colorado.edu/registrar/students/calendar>).

### Credit and Debit Card Service Fee

A nonrefundable 2.75 percent service fee charged by NelNet Business Solutions applies to all credit and debit card transactions. To avoid

paying this fee, we encourage payment from a U.S. checking or savings accounts (electronic check or eCheck).

## Dispute Rights

To dispute tuition and mandatory fee charges, you must make a formal appeal to the Tuition Dispute Committee by the end of the semester (last day of finals). Disputes will only be considered under extenuating circumstances, such as university error, recent medical condition, immediate family emergency, recent unanticipated financial problems and verified nonattendance. Official documentation must be provided to substantiate the circumstances. Complete a tuition dispute form and return the form, your statement and official documentation to the Bursar's Office Student Billing Department, Regent Administrative Center, 43 UCB, Boulder, CO 80309-0043, 303-492-5381 or [bursar@colorado.edu](mailto:bursar@colorado.edu). If you disagree with the charges and fail to avail yourself of the dispute process by the end of the semester, you will have waived your right to dispute the charges. For additional information on the dispute process, see Tuition Dispute (<https://www.colorado.edu/bursar/billing/tuition-dispute>).

## Failure to Make Payment

Failure to make the required payment in accordance with the scheduled payment deadline may result in any or all of the actions described below.

A financial hold may be placed on your student record and remain until the balance is paid in full. A financial hold will prevent you from being able to:

- Adjust your current schedule (drop or add classes).
- Register for future classes.
- Receive transcripts.
- Receive a diploma or certification materials.
- Be re-admitted.

A late payment charge is assessed once per semester based on the amount due:

Balance Due	Late Charge
\$10–99.99	\$5
\$100–299.99	\$10
\$300–499.99	\$20
\$500–699.99	\$30
\$700–899.99	\$40
\$900 and over	\$50

In addition, finance charges of one percent (1%) per month are assessed on the unpaid principal balance. Finance charges are calculated by applying the periodic rate of one percent (1%) per month (annual percentage rate of twelve percent) to the unpaid principal balance less any payments or credits made.

After the end of the semester, past due accounts are referred to the university's Student Debt Management department for collection. Students will have an opportunity to establish a university-approved repayment agreement. Establishing a repayment agreement does not result in release of financial holds.

If the balance is not paid or a university-approved repayment agreement does not exist after six months, Colorado law requires the university to place all delinquent accounts with a private collection agency at which time the delinquency is reported to national credit bureaus.

Student accounts referred to an outside collection agency may incur collection agency costs, expenses and fees. Such collection costs, expenses and fees may include percentage-based fees charged to the university by the collection agency, including percentage-based fees of up to 30 percent of the debt collected. Any collection costs stated above are charged in addition to the principal, fees and interest due on the student's account. The student may be responsible for reasonable attorneys' fees and court costs associated with collecting or enforcing payment on the past due account as allowed under Colorado law. Pursuant to Colorado Revised Statutes § 23-5-115, in the event the student defaults on the amount owed to the university, the university may certify to the Colorado Department of Revenue information required for the recovery of past due debt.

## Nondegree Students

Nondegree undergraduate students are assessed tuition at the undergraduate student rate. Nondegree graduate students are assessed tuition at the graduate student rate.

## Returned Payments

A \$20 fee is charged for all payments (regardless of the amount) returned due to insufficient funds, closed account, payment stopped, or for other reasons. A \$30 fee is charged by NelNet Business Solutions for returned payment plan payments. In addition, late and finance charges may be assessed and certified funds may be required when you make payment. A financial hold may also be placed on your account and you may be liable for collection costs and attorneys' fees as allowed by Colorado laws.

## Students Registered on More than One Campus

Students registering for courses on more than one campus of the university during a single semester pay tuition and fees to each campus at the rate appropriate to the number of credits for which they are registered on that campus. Students may be eligible to use the concurrent registration option, in which case they pay the tuition rate of their home campus for the total hours enrolled at all campuses.

## Tuition and Fee Agreement and Disclosure

Any student who completes registration agrees to pay CU Boulder according to the payment terms in the Tuition and Fee Agreement and Disclosure (<https://www.colorado.edu/bursar/payments/payment-agreement>).

## Tuition Classification

Students are classified as residents, nonresidents or international nonresidents for tuition purposes on the basis of answers provided on their application for admission and other relevant information. For more information, go to Tuition Classification (<http://www.colorado.edu/registrar/students/state-residency>).

## Withdrawal Policy Regarding Tuition and Fees

Students who pay the \$200 confirmation deposit and are registered for classes for any given semester are obligated to pay full tuition and fees, unless they officially withdraw from CU Boulder by published deadlines.

Tuition and fee obligations for students withdrawing from fall or spring semesters:

- Continuing students: Students who withdraw during the full-refund periods will have their confirmation deposit refunded unless there are any outstanding charges.

- New and readmitted students: New, readmitted and transfer students are not eligible for a refund of the confirmation deposit.

Deadlines to withdraw with no financial penalty vary by semester but occur about ten days before the first day of instruction. Depending on when a student withdraws, they may be assessed a \$200 withdrawal processing fee. The confirmation deposit is automatically credited toward the withdrawal fee.

Students who withdraw from all of their 16-week classes may be eligible for a full or partial refund of tuition and fees, depending on when they withdraw. Students who withdraw from a Special Session may not be eligible for a refund. For the current refund and assessment schedule, visit the Withdraw from the Semester (<https://www.colorado.edu/registrar/students/withdraw>) webpage.

For a breakdown of partial refunds for 16-week withdrawals:

- If students withdraw after the deadline to withdraw without being assessed a financial penalty, but before 11:59 p.m. on the third Wednesday of instruction, they are assessed a \$200 withdrawal processing fee.
- From the third Wednesday of instruction through the fifth Wednesday, students will be charged 40 percent of total tuition (not including the portion of tuition paid by College Opportunity Fund (COF) for in-state undergraduate students) and mandatory fees (CUSG student fees, athletic fee and capital construction fee). COF credit hours are expended and not refunded for withdrawals after the published deadline.
- After the fifth Wednesday of instruction through the seventh Wednesday, students will be charged 60 percent of total tuition (not including the portion of tuition paid by COF for in-state undergraduate students) and mandatory fees (CUSG student fees, athletic fee and capital construction fee).
- After the seventh Wednesday of instruction, tuition will not be adjusted. In the case of extenuating circumstances (university error, recent medical condition, immediate family emergency, recent unanticipated financial problems or verification of non-attendance), students may dispute tuition and mandatory fee charges through the Bursar's Office.

To comply with federal financial aid regulations, financial aid recipients' loan and scholarship awards may be adjusted.

Students should visit the Withdraw from the Semester (<https://www.colorado.edu/registrar/students/withdraw>) webpage for the most recent information, as the Board of Regents reserves the right to revise this schedule at any time. Refer to the Summer Session (<http://www.colorado.edu/summer>) website for information on the withdrawal policy and refund schedule for summer terms.

Students who do not pay the full amount due the university at the time of withdrawal must make arrangements for payment with the Student Debt Management department in the Bursar's Office. All withdrawals are handled through the Office of the Registrar.

## Tuition Classification

### In-State and Out-of-State Tuition Classification

Tuition classification is governed by state law and by judicial decisions that apply to all public institutions of higher education in Colorado. The

University of Colorado does not have discretion to make exceptions to the rules as established by state law.

New students are classified as in-state or out-of-state residents for tuition purposes on the basis of information provided on their admission application and other relevant information. Applicants may be required to submit evidence substantiating their claim of in-state eligibility.

Current nonresident students who believe they have become eligible for a change to in-state status must submit a petition with documentation in order to have their status reviewed. The petition requirements, deadlines for submission, explanation of Colorado tuition classification statutes, specific legal residency exceptions and Office of the Registrar contact information are available on the Tuition Classification (<http://www.colorado.edu/registrar/students/state-residency>) webpage.

## Basic Requirement for Establishing Colorado Residency

To become eligible for in-state residency, a person must establish legal residence in Colorado. Legal residence, or "domicile," is defined as a person's true, fixed and permanent home and place of habitation. No person may establish domicile in Colorado solely for the purpose of obtaining in-state tuition benefits. An individual who seeks to establish domicile while registered as a student is presumed to establish Colorado domicile solely for tuition purposes unless there is clear and convincing evidence to the contrary.

Colorado in-state tuition classification requires Colorado domicile for 12 consecutive months. A person must be 22 years of age or older, married, a graduate student or an emancipated minor in order to begin the 12-month period of establishing domicile in Colorado. Unemancipated minors qualify for in-state status if their parents have been domiciled in Colorado for at least one year.

## Evidence of Domicile

Establishing Colorado domicile includes actions that would be expected of any permanent resident. Pursuant to Colorado law, the following may be considered evidence of domicile:

- filing a tax return in Colorado and, if applicable, payment of Colorado state income tax;
- Colorado driver's license or Colorado ID card within 120 days of move to Colorado;
- Colorado vehicle registration within 180 days of move to Colorado;
- voter registration in Colorado;
- graduation from a Colorado high school;
- lease or deed showing permanent occupancy of residential real property in Colorado;
- continued residence in Colorado while not enrolled as a student and during semester breaks;
- permanent employment or acceptance of future employment in Colorado; or
- any other factor particular to the individual that tends to establish the necessary intent to make Colorado a permanent home.

No single factor constitutes proof of domicile. All evidence, both positive and negative, is considered. Not all of the listed items are necessary, but individuals should take action on any factors that are appropriate in their circumstance.

## Domicile Exceptions

Colorado tuition law provides the following rare exceptions to the one-year domicile requirement in certain circumstances:

- Colorado National Guard members,
- active duty military stationed in Colorado and their dependents ,
- honorably discharged members of the U.S. Armed Forces and their dependents ,
- returning active-duty military members,
- Canadian military stationed in Colorado,
- ASSET law qualified students with three years of Colorado high school and graduation,
- children of new faculty members at Colorado state colleges and universities,
- employees of companies moving to Colorado receiving government economic incentives,
- Western Regional Graduate Program enrollees in specific major fields of study,
- Olympic athletes training in Colorado, and
- others (see Residency Exceptions for Domicile (<http://www.colorado.edu/registrar/students/state-residency/domicile-exceptions>) webpage).

Requirements, including spouse and child eligibility, are detailed on the Residency Exceptions for Domicile (<http://www.colorado.edu/registrar/students/state-residency/domicile-exceptions>) webpage.

## Unemancipated Minors

Students under age 23 who depend on their parents for support may qualify for in-state tuition if either of their parents, regardless of custody, has been domiciled in Colorado for 12 consecutive months preceding the first day of class in a given semester, even if the student resides elsewhere. In certain circumstances, students may qualify through their parents up to age 23.

## Emancipation

An emancipated minor is someone under age 23 who demonstrates total financial and residential independence. This means the student's parents and all others have entirely surrendered the right to the student's care, custody and earnings, and make no provision for support of any kind. Emancipation is very rare; undergraduates under age 23 who do not have a parent domiciled in Colorado are highly unlikely to be classified as a Colorado resident student.

Students who give false information to evade payment of out-of-state tuition or who fail to provide timely notice of their loss of in-state eligibility are subject to retroactive assessment of out-of-state tuition, as well as disciplinary and legal actions.

For more information on all requirements, see the Tuition Classification (<http://www.colorado.edu/registrar/students/state-residency>) webpage.

## University Policies

### Alcohol and Other Drugs

In order to create the best possible environment for teaching and learning, the University of Colorado Boulder affirms its support for a

responsible campus policy that addresses the inappropriate use of alcohol and other drugs.

In compliance with the federal Drug Free Schools and Communities Act, the University of Colorado Boulder prohibits the unlawful manufacture, possession, use or distribution of a controlled substance (illicit drugs and alcohol) of any kind and in any amount. These prohibitions cover any individual's actions that are part of any university activities, including those occurring while on university property or in the conduct of university business away from the campus.

Information on policies, penalties, health effects and resources available to students and staff regarding alcohol and other drugs can be found on the Alcohol & Other Drugs Information (<http://www.colorado.edu/aod>) website.

These policies are also described by various university offices in several publications:

- **Campus housing:** *A Guide to Residence Hall Living*, available at the Department of Housing. Contact Residence Life, 303-492-7260. See also the Residence Hall Handbook (<https://living.colorado.edu/housing/what-you-need-know>) webpage.
- **Student Code of Conduct:** *Students' Rights and Responsibilities Regarding Standards of Conduct and Alcohol and Drug Policy*, available from Student Conduct & Conflict Resolution, 303-492-5550. See also the Student Code of Conduct (<https://www.colorado.edu/sccr>).
- **Safety:** Annual Security and Fire Safety Report (<http://www.colorado.edu/clery>).
- **Student life:** *The Guide to Student Life*, distributed to new and continuing students. Resources available on CU Boulder Students (<http://www.colorado.edu/students>) webpage.

Individual and group counseling for students with substance abuse concerns is available through Counseling and Psychiatric Services. For more information, visit the Counseling and Psychiatric Services (<http://www.colorado.edu/health/counseling>) webpage or call 303-492-2277.

## Smoking

For student health and the health of our community, smoking is prohibited in all campus buildings and on all campus grounds.

At this time, the use of smoking products of any sort shall be prohibited on all university-owned and operated campus grounds both indoors and outdoors. This smoking ban does not apply to public rights-of-way (sidewalks, streets) on the perimeter of the campus.

"Smoking," as used in this policy, means smoking any substance, including but not limited to, tobacco, cloves or marijuana. "Smoking products" include, but are not limited to, all cigarette products (cigarettes, bidis, kreteks, e-cigarettes, etc.) and all smoke-producing products (cigars, pipes, hookahs, etc.). University-owned and operated campus grounds include, but are not limited to: all outdoor common and educational areas; all university buildings; university-owned on-campus housing; campus sidewalks; campus parking lots; recreational areas; outdoor stadiums; and university-owned and leased vehicles (regardless of location). In keeping with university policy, the sale, distribution and sampling of all tobacco products and tobacco-related merchandise is prohibited on all university-owned and operated property and at university-sponsored events. Littering campus with remains of smoking products is prohibited.

This policy applies to all employees, students, visitors, contractors and externally affiliated individuals or companies renting university-owned space on university-owned and operated property campus grounds.

## Campus Safety

### Personal Safety on Campus

While the University of Colorado Boulder is a relatively safe place to be, the campus is not a haven from community problems. Through the joint effort of various organizations on campus, CU is committed to providing ample safety resources for faculty, staff and students.

Specific efforts to promote safety on campus include the provision of adequate lighting, police protection, educational programs and special prevention programs, such as the CU NightRide escort services and laptop and bicycle registration programs.

In compliance with the federal Clery Act, students and employees receive information on campus security policies and programs, including crime statistics, in an Annual Security and Fire Safety Report (<http://www.colorado.edu/clery>). This report will be sent to CU Boulder affiliates by Oct. 1 of each year. In any emergency or life-threatening situation, always call 9-1-1.

Members of the university community are encouraged to report any incident of threatening or harmful behavior to the CU Boulder Police by calling 9-1-1 in an emergency or the non-emergency line, 303-492-6666. Visit Don't Ignore It (<http://www.colorado.edu/dontignoreit>) for more information about the wide range of campus and community resources and reporting options available.

Additional safety information can be found on the CU Police Department (<http://www.colorado.edu/police>) website. For information on crime alerts, trends and safety tips, follow the CU Police Department on Twitter (@ <https://twitter.com/cuboulderpolice>) CUBoulderPolice) and Facebook (CUBoulderPolice (<https://www.facebook.com/CUBoulderPolice>)).

## Communication

### Student Email

All CU students receive an email account from the university, which is an official means of sending information to students. Students are responsible for maintaining this CU email address. The official email address can be used by professors to contact students and provide course-related information. Administrative offices, such as the Office of the Registrar, use official email addresses to contact students and provide important information. Students are responsible for frequently checking their official CU email address. For more information on the student email policy, visit the Student E-mail Policy (<http://www.colorado.edu/policies/student-e-mail-policy>) webpage, call the IT Service Center at 303-735-HELP or email [HELP@colorado.edu](mailto:HELP@colorado.edu). To learn more about student email accounts, visit the Office of Information Technology's Messaging and Collaboration (<https://oit.colorado.edu/services/messaging-collaboration>) webpage.

## Copyright & Fair Use

The University of Colorado Boulder community respects the intellectual property of others, regardless of the medium by which it is transmitted. This is a cornerstone of academic integrity. We prohibit the use of unauthorized distribution of copyrighted material, which is subject to both civil and criminal penalties as well as university procedures.

Distributing copyrighted materials using peer-to-peer or file-sharing programs is illegal and the university uses technological solutions to deter this activity. Still, the university regularly receives notices of copyright violations and is required by law to take action. Common consequences include loss of network access and referral to the Office of Judicial Affairs. Guidance on campus fair use and copyright issues is provided on the University Libraries (<http://www.colorado.edu/libraries/copyright-information>) website.

## Diversity & Nondiscrimination

### Commitment to Diversity

The Division of Student Affairs supports and contributes to creating and sustaining a diverse, multicultural, socially just and inclusive campus climate by learning about, recognizing and honoring the diverse backgrounds, histories, identities and life experiences of all our students, faculty and staff. Our goal is to create an environment in which all campus community members can thrive while feeling welcomed, safe and at home.

At the University of Colorado Boulder we are committed to building a campus community in which diversity is a fundamental value. People are different and the differences among us are what we call diversity—a natural and enriching hallmark of life. Diversity includes, but is not limited to, ethnicity, race, gender, age, class, sexual orientation, religion, disability, veteran status, gender identity/expression, veteran status, political affiliation or political philosophy and health status. A climate of healthy diversity is one in which people value individual and group differences, respect the perspectives of others and communicate openly.

"Diversity is a key to inclusive excellence in education. A diverse learning environment better prepares all students for the world that awaits them. CU Boulder is committed to enriching the lives of our students, faculty and staff by providing a diverse campus where the exchange of ideas, knowledge and perspectives is an active part of learning."—from the *Guidelines for Diversity Planning* (<https://www.colorado.edu/odece/diversity-plan>).

### Nondiscrimination Statement

The University of Colorado Boulder does not discriminate on the basis of race, color, national origin, sex, pregnancy, age, disability, creed, religion, sexual orientation, gender identity, gender expression, veteran status, political affiliation or political philosophy in admission and access to, and treatment and employment in, its educational programs and activities. The university takes affirmative action to increase ethnic, cultural, and gender diversity; to employ qualified disabled individuals; and to provide equal access and opportunity to all students and employees.

### Equity & Compliance

The University of Colorado Boulder is committed to maintaining a positive learning, working, and living environment free from discrimination and harassment. The Office of Institutional Equity and Compliance (OIEC) (<http://www.colorado.edu/oiec>) addresses all claims of sexual misconduct, harassment and/or discrimination, or related retaliation by students, staff or faculty pursuant to the University of Colorado Sexual Misconduct, Intimate Partner Abuse and Stalking Policy, the University of Colorado Boulder Policy on Protected-Class Discrimination and Harassment, and the University of Colorado Policy on Conflict of Interest in Cases of Amorous Relationships. The university is committed

to addressing concerns and taking appropriate action against those found in violation of these policies.

In response to a report, OIEC determines what immediate and long-term support and safety measures are needed in order to minimize disruptions to education or employment and to help keep the involved parties and the campus safe. OIEC also offers education and assessment to identify areas in need of improvement and foster a more welcoming campus culture.

To learn more about university policy or the role and programs offered by OIEC, please visit the Office of Institutional Equity and Compliance (<https://www.colorado.edu/oiec>) website or call 303-492-2127.

## Colleges, Schools & Programs

### Arts & Sciences

The College of Arts & Sciences is the liberal arts college at CU Boulder. Its mission is to provide an outstanding liberal arts education for its undergraduates, cutting-edge graduate education and world-class research, scholarship and creative work. In addition to gaining the knowledge and skills of their areas of study, students learn how new information is acquired and can participate in original research and creative work with individual faculty members.

The college offers a wide variety of fields of study, with nearly 50 undergraduate majors. The environment and advantages of a small liberal arts college are created through "academic neighborhoods" in which students can meet and interact with other students and faculty in small group settings. In addition, more than 60 percent of undergraduate classes are small, with 25 or fewer students.

As the liberal arts college of CU Boulder, the College of Arts and Sciences has several goals in the education of its students:

- Educate citizens who can think for themselves, understand the rapidly changing world and make wise choices within a democratic system.
- Impart a love of learning so that students can continue to grow throughout life.
- Teach ways of thinking about and approaching new problems. For some students, this will enable them to further advance knowledge and scholarship in the academy. For all students, this is important for enriching their lives.
- Prepare students to help enrich the lives of others. Arts and sciences graduates become lifelong resources for their families, neighbors, friends and co-workers.
- Provide students with a well-rounded education. Arts and sciences students acquire a broad knowledge and an integrated understanding of art and music, great literary works, philosophy, history and politics, the social world, science and technology. They learn how to critically evaluate and think about morals, ethics and values. The General Education requirements give students a broad, liberal-arts education that develops the whole person, not just the specialist.
- Educate students for careers and a productive life. Arts and sciences students gain the most current knowledge and skills in their major fields of study. In addition, they learn how to acquire new skills to contend with—and lead—the changes that will occur in the decades to come. Education for a productive life also requires that students

learn how to analyze situations, solve problems and speak and write effectively.

The college is also dedicated to outstanding graduate education. Advanced degrees are offered by nearly every academic department in the college, and the PhD is offered in approximately 30 different disciplines. In addition, an increasing number of departments offer combined bachelor's/master's degrees that can be earned in five years. Graduate training focuses on teaching and research careers as well as on professional careers in the public and private sector.

The strength of the College of Arts and Sciences comes from its outstanding faculty. In addition to being dedicated teachers, they are active scholars in disciplines throughout the arts and humanities, social and behavioral sciences, biological sciences and physical and mathematical sciences. They are the recipients of numerous national awards and honors for their research, scholarship and creative work. Faculty and staff of the College of Arts and Sciences join together to create an intellectual community of students and scholars to discover, critically examine, integrate, preserve and transmit knowledge, wisdom and values.

## Honors Program

The Arts and Sciences Honors Program provides a community for highly motivated and academically prepared undergraduate students and offers opportunities for intellectual engagement through honors courses, academic-inspired events, and honors thesis research and creative work.

The Honors Program is a program of excellence in which the best teaching faculty are committed to serving the most highly motivated students. The Honors Program offers the opportunity to work closely with faculty, to engage with other honors students (<http://www.colorado.edu/honors/community>) and to write an honors thesis. Honors offers over 50 courses per year (<http://www.colorado.edu/honors/courses>) in a wide variety of areas. Honors courses are limited to an enrollment of approximately 15 students.

Incoming first-year students are invited to participate (<http://www.colorado.edu/honors/admission>) in the Honors Program based on multiple criteria that are set by the Office of Admissions. Transfer students must have a 3.3 GPA or better from their previous school. Currently enrolled students are eligible based on their academic achievement at CU Boulder and are expected to have a 3.3 GPA or better.

Latin honors (<http://www.colorado.edu/honors/graduation>) in the College of Arts and Sciences are conferred by the Honors Program. Students who wish to graduate *cum laude*, *magna cum laude* or *summa cum laude* must write and defend an honors thesis and maintain a certain GPA. Most students pursue Latin honors in their major (based on departmental requirements), but students may also pursue General Honors (<http://www.colorado.edu/honors/generalhonors>) via the Honors Program, providing students the opportunity to write an interdisciplinary thesis.

The Honors Residential Academic Program (Honors RAP (<http://www.colorado.edu/hrap>)) is the optional residential component of the program. Honors RAP is open to a limited number of qualified incoming and continuing students. Students engage in small classes and co-curricular activities, forming an academic community in their residence hall.

## Faculty

Hickcox, Abby Lynn ([https://experts.colorado.edu/display/fisid\\_151860](https://experts.colorado.edu/display/fisid_151860))  
Instructor, Associate Faculty Director; PhD, University of Colorado Boulder

Jacobs, Janet L. ([https://experts.colorado.edu/display/fisid\\_100744](https://experts.colorado.edu/display/fisid_100744))  
Faculty Director; PhD, University of Colorado Boulder

Jones, Daniel C.L. ([https://experts.colorado.edu/display/fisid\\_105705](https://experts.colorado.edu/display/fisid_105705))  
Senior Instructor; PhD, University of Colorado Boulder

Kopff, E. Christian ([https://experts.colorado.edu/display/fisid\\_100649](https://experts.colorado.edu/display/fisid_100649))

Senior Instructor; PhD, University of Denver

## Miramontes Arts and Sciences Program

The Miramontes Arts and Sciences Program (MASP) is a community of diverse scholars dedicated to academic achievement. MASP accepts highly motivated students with strong academic records who are also members of traditionally underrepresented groups and/or are first-generation college students. MASP supports students through mentoring, instruction, skills workshops, enrichment opportunities, community activities and participation scholarships.

For most members of MASP, support begins the summer before freshman year with the Program for Excellence in Academics and Community (PEAC), a summer residential program that helps first year students transition to the university. PEAC is an intensive and challenging academic program where students take a rigorous set of non-credit classes, learn valuable skills for academic success, are introduced to resources and opportunities on campus and in the College of Arts & Sciences, and participate in advanced enrichment and community-building activities. Continuing students interested in MASP can also apply through our MASP affiliate program.

Students receiving a participation scholarship in MASP commit to participating in a range of programming that include one-credit hour seminars on unique and advanced topics in Arts & Sciences, research colloquia where they meet and network with faculty members, skills workshops and community conversations. Students are encouraged to participate in undergraduate research and/or other scholarly activities such as internships and study abroad programs. MASP students are also required to be involved with our community space and to participate in community activities to help develop a strong sense of group cohesiveness and spirit. And more!

For more information, call the MASP office at 303-492-8229.

## Policies & Requirements

### Admissions

#### Freshman Applicants

When students apply to the College of Arts and Sciences from high school, they may select one of the more than 50 degree-granting majors available in the college or they may enter the college as "Arts and Sciences Open Option" major (sure of their college choice but unsure about their major). To ensure that students graduate in a timely manner, Open Option majors are required to enter a specific degree program by the time they have completed 45 credit hours. To maintain eligibility for the four-year guarantee, students must declare and enter a degree-

granting major by the start of the second semester (or earlier for certain majors)

Specific admission requirements are detailed in the Admissions (<https://catalog.colorado.edu/undergraduate/admissions>) section of this catalog. Contact the campus Admissions Office (<http://www.colorado.edu/admissions>) for more information.

## Transfer Students

Students desiring to transfer (<https://www.colorado.edu/artsandsciences/student-resources/transfer-students>) from other accredited collegiate institutions are considered for admission on an individual basis. To earn a degree from the College of Arts and Sciences at CU Boulder, transfer students, like all other Arts and Sciences students, must complete at least 45 credit hours at CU, at least 30 upper-division credit hours in College of Arts and Sciences coursework, and at least 12 credit hours in their major at CU Boulder. Admission criteria for students transferring from either the University of Colorado Denver or the University of Colorado Colorado Springs campuses are the same as for other transfer students.

## Intra-University Transfer (IUT)

Students from another school or college on the CU Boulder campus, including the new Program in Exploratory Studies, who wish to transfer into the College of Arts and Sciences must meet the following minimum requirements.

Minimum requirements to apply to IUT into the College of Arts and Sciences:

- 24 credit hours completed or in progress
- CU GPA of at least 2.0 in completed coursework (12 credit hours or more)

While students can apply to Arts and Sciences before completing 24 credit hours, they cannot matriculate into Arts and Sciences until they have completed 24 credit hours and their CU GPA is still above a 2.0. A course is not considered to be “in progress” until the drop deadline has passed during the third week of the term.

All students who apply to IUT into Arts and Sciences must choose a degree-granting major offered by the college. A student cannot IUT into Arts and Sciences and declare an Open Option major.

The College of Arts and Sciences recommends that students, who are planning to IUT into the college, complete the following Arts and Sciences General Education coursework before they complete the IUT process:

- A lower-division written communication course
- A quantitative reasoning and mathematical skills course that is appropriate for their intended Arts and Sciences major

Students should contact the Arts and Sciences Academic Advising Center for additional information about the IUT process.

## Readmission

Students who have not been active at CU Boulder for 3 or more semesters including suspended students who have been reinstated, may need to apply for readmission to the University of Colorado Boulder through the Admissions Office. Students are encouraged to submit readmit requests well in advance of the semester for which you plan to return.

## Minimum Academic Preparation Standards (MAPS)

All students entering the University of Colorado who finished high school in the spring of 1988 or after must meet minimum academic preparation standards (MAPS) specified by each school or college. The College of Arts and Sciences has adopted the following standards for students. These standards are defined in high school units; a unit is one full year of high school coursework:

- **English: 4** (includes 2 of composition)
- **Mathematics: 4** (includes at least 2 of algebra, 1 of geometry and 1 of college preparatory math such as trigonometry, analytic geometry or elementary functions)
- **Natural science: 3** (includes 2 of lab science, 1 of which must be either chemistry or physics)
- **Social science: 3** (includes 1 of U.S. or world history and 1 of geography; if U.S. history is used to meet the history requirement, the geography requirement may be met with 1/2 unit of geography and 1/2 unit of world history)
- **Single foreign language: 3**
- **Total credit units: 17**

For additional information, see the Admissions (<https://catalog.colorado.edu/undergraduate/admissions>) and MAPS (<https://catalog.colorado.edu/undergraduate/admissions/minimum-academic-preparation-standards>) sections of this catalog.

## Credit by Examination

### Advanced Placement Program

CU Boulder participates in the Advanced Placement program of the College Board. General college credit is granted for scores of 3 or higher on most AP exams, but credit for specific CU Boulder courses usually requires a score of 4 or in a few cases a score of 5. Official scores must be sent to the admissions office directly from the College Board for both first-year students and transfer students. See Undergraduate Admission (<https://catalog.colorado.edu/undergraduate/admissions>) for more info and the Advanced Placement Table (<https://catalog.colorado.edu/undergraduate/admissions/credit-examination>) for specific equivalencies.

### International Baccalaureate

Any student admitted to a University of Colorado campus after June 30, 2003, who has graduated from high school having successfully completed an International Baccalaureate (IB) diploma, program will be granted 24 credit hours of college credit. No tuition will be charged for these credits. These credits will be granted, however, only if the student receives a score of 4 or better on an examination administered as part of the IB diploma program. Students admitted to the College of Arts and Sciences for the fall 2018 semester or thereafter with an IB diploma will be waived from the Lower-Division Written Communication portion of the college's General Education Skills Requirement.

In addition, CU Boulder grants specific course credit for International Baccalaureate examinations at the higher level with a score of 4 or better and general college credit for examinations at the standard level with a score of 4. For specific equivalencies see the International Baccalaureate (IB) Credit Table (<https://catalog.colorado.edu/undergraduate/admissions/credit-examination/#internationalbaccalaureateibcredittext>).

### College-Level Examination Program (CLEP)

CU Boulder grants credit for most, but not all, CLEP subject examinations. In the College of Arts and Sciences the credit earned by passing most CLEP examinations may be used to fulfill General Education

requirements and to make up for deficiencies in the minimum academic preparation standards (MAPS) but *not* to fulfill major requirements. Credits from a CLEP exam may not be used to fulfill any of the college's residency requirements. For specific equivalencies see the College Level Examination Program Table (p. 36). CU Boulder's Testing Services (<https://www.colorado.edu/career/testing-services>) administers all CLEP examinations.

### DSST Examinations

CU Boulder grants credit for many, but not all, DSST subject examinations. In the College of Arts and Sciences the credit earned by passing most DSST examinations may be used to fulfill General Education requirements and to make up for deficiencies in the minimum academic preparation standards (MAPS) but *not* to fulfill major requirements. Credits from a DSST exam may not be used to fulfill any of the college's residency requirements. For specific equivalencies see the DSST Examinations Table (p. 37). CU Boulder's Testing Services (<https://www.colorado.edu/career/testing-services>) does not offer DSST examinations, which are usually taken by activity duty members of the United States Armed Forces.

## Transfer Credit Policies

### Transfer of credit from other institutions of higher education

Work from another accredited institution of higher education that has been completed with a grade of C- (1.70) or better may be transferred to the University of Colorado. Categories of transfer coursework not accepted by the university are described in the undergraduate Transfer of College-Level Credit (<https://catalog.colorado.edu/undergraduate/admissions/transfer-college-level-credit>) section.

All courses transferred from junior and community colleges carry lower-division credit. Courses transferred from four-year institutions carry credits at the level at which they were taught at the previous institution, but, if the level at the sending institution is unclear, courses will be reviewed on a course-by-course basis. Upper-division courses from another four-year institution sometimes will transfer to CU Boulder as lower-division credit while lower-division courses will always carry lower-division credit even if they are allowed to fill a requirement usually filled by an upper-division course at CU Boulder.

### Colorado Student Bill of Rights

In the interests of promoting timely graduation and facilitating the transfer of students among the institutions of higher education in the state of Colorado, the College of Arts and Sciences and the University of Colorado Boulder adhere to the Student Bill of Rights as presented in Colorado Statute 23-1-125.

#### 23-1-125. Commission directive—student bill of rights—degree requirements—implementation of core courses—competency test—prior learning

1. Student bill of rights. The general assembly hereby finds that students enrolled in public institutions of higher education shall have the following rights:
  - a. Students should be able to complete their associate of arts and associate of science degree programs in no more than sixty credit hours or their baccalaureate programs in no more than one hundred twenty credit hours unless there are additional degree requirements recognized by the commission;
  - b. A student can sign a two-year or four-year graduation agreement that formalizes a plan for that student to obtain a degree in two or four years, unless there are additional degree requirements recognized by the commission;

- c. Students have a right to clear and concise information concerning which courses must be completed successfully to complete their degrees;
- d. Students have a right to know which courses are transferable among the state public two-year and four-year institutions of higher education;
- e. Students, upon completion of core general education courses, regardless of the delivery method, should have those courses satisfy the core course requirements of all Colorado public institutions of higher education;
- f. Students have a right to know if courses from one or more public higher education institutions satisfy the student's degree requirements;
- g. A student's credit for the completion of the core requirements and core courses shall not expire for ten years from the date of initial enrollment and shall be transferable.

### Statewide Guaranteed Transfer of General Education Courses

As of fall 2003, the two-year and four-year transfer articulation agreements among Colorado institutions of higher education were replaced by a statewide guaranteed transfer of approved general education courses taken at any Colorado public institution of higher education. Under the statewide guaranteed transfer program (gtPathways), up to 31-33 credits of successfully (C- or better) completed coursework will automatically transfer and apply towards the general education requirements at the receiving institution. The coursework must be drawn from the list of approved gtPathways courses and must meet the distribution requirements of the guaranteed transfer program. Further information about the statewide transfer program, including the list of approved courses and distribution requirements, can be found on the Colorado Department of Higher Education (<https://highered.colorado.gov/Academics/Transfers/Students.html>) website.

As of fall 2018, a student graduating with an associate of arts or an associate of science degree from a Colorado community college and entering the College of Arts and Sciences is exempt from the General Education requirements of the College. Note that students are still subject to the College's MAPS requirements. Additional information on the evaluation of transfer credit of Colorado community college coursework and its application in select arts and sciences major programs can also be found at the Arts & Sciences Guide for Colorado Community College Students (<https://www.colorado.edu/artsandsciences/student-resources/transfer-students/guide-colorado-community-college-students>) webpage. Students are required to follow the graduation requirements listed in this catalog at the time of their initial entry into the College of Arts and Sciences.

### Concurrent College Credits Earned While in High School

Students who took college-level courses while enrolled in high school may be able to transfer the credit to CU Boulder. Only courses taken at an accredited college or university of recognized standing with grades of C- or better are accepted for transfer. If a student earned concurrent college credit for a high school course for which the student also earned college credit via an Advanced Placement (AP) or International Baccalaureate (IB) exam, the concurrent college credit will be cut back in favor of the credit earned for the score on the AP or IB exam.

Students should be prepared to provide syllabi for any and all concurrent college credit they earned while in high school. Such syllabi should be nearly identical those used on campus at the accredited college or university granting the concurrent credit.

## Requirements

Students are subject to the general degree requirements in effect at the time they first enter the College of Arts and Sciences at CU Boulder and are subject to the major requirements in force at the time they declare the major. All degrees offered by the College of Arts and Science require the completion of a specific number of credits, a major, and the General Education (Gen Ed) curriculum.

Students must complete a degree within 10 years. If it has been more than 10 years since matriculation into the College of Arts and Sciences and no degree has been completed, students may be subject to new curricula in place at the time of re-enrollment.

Students may contact the Arts and Sciences Academic Advising Center for further assistance.

## Graduation Requirements

Arts and sciences students must fulfill the following requirements for graduation:

- Pass a total of 120 credit hours.
- Maintain a 2.00 (C) GPA in all University of Colorado coursework and a 2.00 (C) in all coursework attempted for the major. (Some majors may require a higher minimum GPA.)
- Pass 45 credit hours of upper-division work (courses numbered in the 3000s and 4000s).
- Arts and sciences students must complete a minimum of 45 credit hours in University of Colorado courses on the Boulder campus. Of these 45 credit hours, a minimum of 30 credit hours must be in upper-division courses offered by a department in the College of Arts and Sciences. A maximum of 6 credit hours taken at other University of Colorado campuses (CU Denver and UCCS) can be counted toward the minimum 45 credit hours required on the Boulder campus but cannot be counted toward the 30 upper-division credit hours in arts and sciences coursework. Courses taken while on CU Boulder study abroad programs or through CU Boulder Continuing Education are considered to be in residence.
- For the Bachelor of Arts degree, students must complete a minimum of 75 credit hours outside their major department. Students who complete designated departmental honors courses in their major department and/or in honors thesis credit can reduce the 75 credit hours required outside the major department by a corresponding number of credits, up to a maximum of 6.
- For the Bachelor of Fine Arts degree, students must complete a minimum of 53 credit hours outside of their major.
- Students must complete a major offered by the College of Arts and Sciences. Students are subject to the major requirements in force when they declare the major.
- Complete the General Education (Gen Ed) and Minimum Academic Preparation Standards (MAPS) requirements with the following limitations:
  - Students may not use a course to fulfill any area of the Gen Ed Skills requirement and also use this course to fulfill part of the Gen Ed Distribution or Diversity requirements. This restriction applies to first- and second-semester foreign language courses taken as prerequisites to a third-semester language course that satisfies the Foreign Language area of the Skills Requirement.

- Students may not use thesis hours, independent study, internship, or practicum courses to satisfy any of the Gen Ed or MAPS requirements.
- A single course may be used to meet both MAPS and Gen Ed requirements as long as the course is applicable to both requirements. For example, a student admitted with a MAPS deficiency in English composition may take WRTG 1150 (<https://catalog.colorado.edu/search/?P=WRTG%201150>), to satisfy both the MAPS requirement and the Gen Ed lower-division Written Communication Skills requirement.
- Students may not use a course taken using the pass/fail option to fulfill any Gen Ed or MAPS requirements.

## Credit Limitations

### Credit for Foreign Language Courses

Students will not receive credit for a lower level Foreign Language course after credit has been given for a higher level course in the same sequence. For example, students who have passed a 2000-level class will not receive credit for a 1000-level class in the same sequence.

This rule applies to the following languages: American Sign Language, Arabic, Chinese, Farsi, French, German, Greek, Hebrew, Hindi, Indonesian, Italian, Japanese, Korean, Latin, Norwegian, Polish, Portuguese, Russian, Spanish and Swedish. Consult each department for specific restrictions, requirements and prerequisites.

Students must receive a grade of C or better to enroll in the next level of a language sequence in Arabic, Chinese, Farsi, Hindi, Indonesian, Japanese and Korean. Students must receive a grade of C- or better to enroll in the next level of a language sequence in American Sign Language, Danish, Finnish, French, German, Greek, Hebrew, Italian, Latin, Norwegian, Portuguese, Russian, Spanish and Swedish.

Undergraduate introductory language courses (numbered at the 1000 and 2000 level) are designed for non-native speakers. Fluent speakers of a language are prohibited from enrolling in introductory courses in the language and can be dropped from these courses by the department or by the course instructor. Fluent speakers should consult the department website and this catalog or consult with the course instructor or department language coordinator about eligibility to enroll in upper-division language courses (numbered at the 3000 and 4000 level) before enrolling in such courses. Departments can exclude fluent speakers from upper-division language courses based on course content and/or instructional resources. Speakers who have not formally studied the language but have spoken the language in their home should consult with the associate chair of the language department or the department language coordinator about appropriate placement before enrolling in a language course.

### Credit taken in CU Online Courses

A maximum of 30 credit hours of online coursework offered by CU Boulder may count toward the degree.

### Credit taken outside the College of Arts and Sciences

Students may apply 30 credit hours from the other colleges and schools at CU Boulder as well as specified ROTC and President's Leadership Class courses toward the fulfillment of requirements for the BA and BFA degrees. Within these 30 total credit hours, up to 8 credit hours in activities courses (applied music and ensembles) may be used. Transferred courses that were taught by departments considered to be outside the College of Arts and Sciences are counted as part of the allowed 30 credit hours. If a course has been approved to meet a General Education requirement and the course is taught outside the College of

Arts and Sciences, the credit for this course will not be included as part of the 30-semester hour limitation.

### Independent Study Credit

With departmental approval, students may register for independent study during the normal registration periods for each semester. Students may not register for more than 6 credit hours of independent study credit during any term. No more than 8 credit hours of independent study taken in a single department or program can be applied toward the total credit hours needed for graduation. A maximum of 16 credit hours of independent study may count toward the degree. The minimum expectation for each hour of credit is 25 hours of work.

A student may not use independent study credit to fulfill the college's General Education requirements. Some departments further restrict the use of independent study hours toward meeting major requirements.

### Internship Credit

Students in the College of Arts and Sciences may receive up to nine credit hours for a department-sponsored internship. A maximum of six of the nine internship credits can be taken in the same department. Each internship project must be approved by the chair or associate chair of the department awarding the credit before the student enrolls in the course in order for the student to receive credit. Students are encouraged to contact their major department office or Career Services for information regarding the possibility of enrolling in an internship in their major. Many internships are graded on a pass/fail basis only. Participation in an internship with mandatory pass/fail grading does not affect the total credit hours of pass/fail a student may apply toward a degree.

A student may not use internship credit to fulfill the college's General Education requirements. Some departments further restrict the use of internship credit toward meeting major requirements.

### Pass/Fail Credit

Students in the College of Arts and Sciences can count a maximum of 6 credit hours of pass/fail coursework toward the 120 credit hours required for graduation. Courses offered on a mandatory pass/fail basis are excluded from the maximum allowed. The pass/fail option may be used only in classes taken as free electives.

Students may not use the pass/fail option for courses taken to fulfill General Education requirements, courses used to fulfill the Minimum Academic Preparation Standards (MAPS), courses used to complete minor requirements or courses used to complete the minimum requirements for the major. A grade of F when earned in a course taken pass/fail will calculate into the GPA as a failing grade.

### Required Credit Hours Outside the Major

To complete the BA degree, students are required to complete a minimum of 75 credit hours outside their major department. Exceptions are:

- Students who complete designated departmental honors courses in their major and/or in honors thesis credit can reduce the 75 credit hours required outside the major department by a corresponding number of credits, up to a maximum of six.
- Students completing the bachelor of fine arts degree must complete a minimum of 53 credit hours outside of their major department.
- Courses that are cross-listed in two or more departments are credited in the department in which the student has the most credit hours, irrespective of the department in which the student formally enrolled for the course.

### Credit from Repeated Courses

Students can take a course more than once. In fact, in Arts and Sciences there is no limit on how many times a student make repeat a course. However, the course credit hours only count toward the credit hours needed to graduate once, unless a course description specifically states that a course can be taken more than once for credit. Such repeatable courses, usually topics courses, have a limit to how many times you may receive credit for that course.

### ROTC Credit

The ROTC courses listed below have been certified as acceptable college-level coursework by the faculty of the College of Arts and Sciences or by other colleges and schools on the Boulder campus. These courses are counted as elective credit toward the degree, subject to the 30-credit-hour limitation on coursework taken outside the college for students in the BA and BFA programs. ROTC courses that do not appear on this list do not count toward any degree requirements in the College of Arts and Sciences. Transfer ROTC coursework must be evaluated as equivalent to coursework on this list to count toward degree requirements.

Code	Title	Credit Hours
AIRR 3010 & AIRR 3020	Leading People and Effective Communication 1 and Leading People and Effective Communication 2	6
AIRR 4010 & AIRR 4020	National Security, Leadership Responsibilities/Commissioning Preparation 1 and National Security/Leadership Responsibilities/Commissioning Preparation 2	6

## Majors, Minors and Certificates

### Majors

All Arts and Sciences students pursuing a bachelor's degree must enter a degree-granting major by the end of their sophomore year (i.e., the semester in which they will complete 60 credit hours of work, including transfer work).

Arts and sciences students have 10 years to complete the requirements for a declared major. If the 10-year limit is exceeded, the student may be required to satisfy current major requirements. Students pursuing a major degree program identified for discontinuation by decision of the Board of Regents and the Colorado Commission on Higher Education have four

years from the formal announcement of discontinuation to complete the degree program and graduate.

### Minimum Major Requirements

The following minimum requirements are specified by the college. In many cases departmental requirements may be higher than the minimums listed here.

- A minimum of 30 credit hours in the major area for a BA or a minimum of 50 credit hours in the major area for a BFA.
- A minimum of 18 credit hours of upper-division courses in the major area.
- A minimum of 12 credit hours of upper-division coursework in the major taken on the CU Boulder campus.
- All coursework applied to the major must be completed with a grade of C- or better (no pass/fail work may be applied).
- The GPA for all coursework attempted in the major department must be equal to 2.00 (C) or higher.
- Special requirements as stipulated by the major department.
- No more than 8 credit hours of independent study.

### Double Majors

Students pursuing a BA or BFA degree in the College of Arts and Sciences may graduate with more than one major within the degree from CU Boulder (i.e., Economics and French or Dance and Art Practices). Students must complete all requirements for both majors. A minimum of 120 total credit hours is required for double majors within the college.

Students pursuing both a BA major and a BFA major are considered dual degree rather than double major students (see below). A student is allowed to add a major to an existing degree from the College of Arts and Science provided that the additional major is in the same degree as the existing degree. For example, a History major (BA), could be added to an existing BA in English but *not* to an existing BFA in Dance.

### Minors

Most but not all departments and programs in the College of Arts and Sciences offer minor programs. Participation in a minor program is optional for students pursuing a bachelor's degree. Coursework applied to a minor also may be applied toward General Education requirements. Students may not earn a major and a minor in the same program of study. All requirements for the minor must be completed by the time the BA or BFA is conferred, and a minor cannot be converted into a major in the same program of study after graduation.

Although the structure of specific minor programs may differ, all minors offered in the College of Arts of Sciences must have the following restrictions or minimum requirements:

- A minimum of 18 credit hours must be taken in the minor area.
- A minimum of 9 of the 18 credit hours must be completed at the upper-division level.
- All coursework applied to the minor must be completed with a grade of C- or better (no pass/fail work may be applied).
- The GPA for all coursework attempted in the minor department must be equal to 2.00 (C) or higher.
- Students pursuing a major in distributed studies or an individually structured major are not eligible to earn a minor.
- Students are allowed to apply no more than 9 credit hours, including 6 upper-division credit hours, of transfer work toward a minor.

- Students must complete all requirements for a minor by the time they graduate.

### Certificates

The college also sponsors undergraduate certificates in a number of fields of study. Although similar to minors in the required number of credit hours, certificates have a substantially different focus and purpose from a minor in that they are interdisciplinary in nature and thus require the completion of courses in multiple departments instead of just one. Students interested in a certificate should contact the director of the appropriate certificate.

Although the structure of specific certificates may differ, all certificates offered in the College of Arts of Sciences must have the following restrictions or minimum requirements:

- A certificate cannot be a subset of existing major or minor requirements in the same way a student cannot earn a minor within the same department as their major.
- A minimum of 18 credit hours of specified coursework within the College of Arts and Sciences.
- A minimum of 9 of the 18 credit hours must be completed at the upper-division level.
- A minimum of 12 credit hours must be taken on the CU Boulder campus.
- A maximum of 6 semester credit hours from other institutions will be accepted.

## Multiple Degrees

### Dual Degrees

Students may earn multiple degrees from CU Boulder from different schools or colleges or within a single school or college. This includes students pursuing a BA and BFA from the College of Arts and Sciences. The following conditions must be fulfilled:

- The student meets the residency requirements of, and is enrolled in, both the College of Arts and Sciences and the college or school granting the second degree.
- The student completes a minimum of 145 credit hours when both degrees are offered within the College of Arts and Sciences.
- The student completes all requirements for both degrees when the degrees are offered by two different colleges.
- The student has completed all MAPS, General Education, and major requirements of the College of Arts and Sciences.
- Both degrees must be awarded at the same time.

### Second Baccalaureate Degrees

A student who has been awarded a baccalaureate degree, either from the College of Arts and Sciences or elsewhere, may be granted a second baccalaureate degree provided the following conditions have been fulfilled:

- All general requirements for the degree to be awarded by the College of Arts and Sciences have been met. (Students are subject to the general degree requirements in effect the semester they enter the second baccalaureate degree program.)
- The major is different from the major or minor in the first degree earned.
- Arts and sciences students must complete a minimum of 45 credit hours in University of Colorado Boulder courses after matriculation in the second baccalaureate degree program. Of these 45 post-

matriculation credit hours, a minimum of 30 credit hours must be in upper-division courses offered by a department in the College of Arts and Sciences, and at least 12 of these 30 upper-division credit hours must be in major coursework. Courses taken as a non-degree student or as part of a graduate degree program do not count in these minimum credit hour requirements.

## Applying for Graduation

Arts and Sciences students who have earned 90 or more credit hours and wish to walk in a commencement ceremony and/or graduate at the close of a term must submit an online application to graduate via the MyCUInfo (<https://mycuinfo.colorado.edu>) student portal, meeting all appropriate application deadlines published by the Office of the Registrar.

Students who intend to complete their degree in summer (August) and want their name to appear in the spring (May) commencement program should apply online for the summer graduation term, submitting their application prior to the published spring commencement program deadline. Summer applicants who apply prior to the spring program deadline will automatically be included in the spring commencement program.

Students who apply to graduate but fail to fulfill all degree requirements by the deadline for that term/year must submit a new online graduation application for a future term/year in order for the college to confer the degree once all remaining requirements are complete. To be certified as having completed all degree and major/minor requirements, all credit hours and grades (including transfer coursework and Continuing Education credit hours and grades) must be posted to the student records system by the deadline for reporting degrees for that term/year.

## Four-Year Graduation

CU Boulder guarantees that if the scheduling of essential courses is found to have prevented a student in the College of Arts and Sciences from completing all coursework necessary for a BA or BFA degree from the university by the end of the student's eighth consecutive fall and spring semester, the college will provide tuition plus any course fees for all courses required for completion of the degree requirements.

The College of Arts and Sciences has adopted a set of guidelines to define the conditions under which a student should expect to graduate in four years. More information is available through the Academic Advising Center (<https://www.colorado.edu/advising>) and major program and departmental offices. This guarantee extends to all students who enrolled the summer of 1994 or after into the College of Arts and Sciences as first-semester freshmen without MAPS deficiencies and who satisfy all the requirements described below. This guarantee cannot be extended to include completion of a second major, a double degree, a minor, a teaching certificate or other certificate program. Some CU Boulder study abroad programs may not provide a sufficient range of courses to allow students to meet the requirements and thus students who participate in study abroad are not included in this guarantee.

### Four-Year Guarantee Requirements

- Students should enroll in University of Colorado Boulder coursework for eight consecutive fall and spring semesters.
- No fewer than 60 credit hours of applicable coursework should be completed with passing grades by the end of the second year (24 calendar months), 90 credit hours by the end of the third year (36 calendar months) and 120 credit hours by the end of the fourth year. Students should enroll in and pass an average of 15 credit hours each semester.

- A minimum of 30 credit hours of college General Education courses should be completed by the end of the second year, including General Education courses that also meet major requirements. All remaining college General Education requirements must be fulfilled by the end of the eighth semester.
- Students should complete 45 upper-division credit hours by the end of the eighth semester of study.
- A GPA of at least 2.00 must be earned each semester.
- Grades of C- or better in all coursework required for the major should be earned, and students should have a cumulative GPA of 2.00 in all major coursework attempted.
- A recommended plan of study must be started toward the major no later than the start of the second semester of study and thereafter students must make adequate progress toward completing the major (defined by each major). A statement of adequate progress is available from the major or departmental office at the time the major is declared.
- The major must be declared no later than the start of the second semester of study, and students must remain in that major until graduation.
- Students should meet with their assigned primary advisor each semester.
- Students must register each semester within one week of the assigned registration time.
- Students should avoid taking courses that are in conflict with the advice of their assigned primary advisor.
- Students should adhere to the Graduation Requirements listed above.
- Courses in conflict with major or college General Education requirements should be avoided.
- The student should apply online to graduate no later than the beginning of the seventh semester of study (see Graduation Deadlines section).
- Documentation should be kept proving that these requirements were satisfied (e.g., records of advising meetings attended, advising records and instructions, etc.).

## Academic Advising

Students are advised by the professional academic advisors in the Arts and Sciences Academic Advising Center (<https://www.colorado.edu/advising>) and by faculty mentors from their respective major department/program, typically at least once a semester. Students use MyCUHub (<http://www.colorado.edu/mycuhub>) to communicate with advisors, schedule appointments, explore majors, etc. Academic advisors are responsible for advising students and also for certifying the completion of those students' programs for graduation.

Students in the college are expected to assume responsibility for planning their academic program in conjunction with their academic advisor in accordance with college rules and policies and with departmental major requirements. Any questions concerning these provisions are to be directed to the student's academic advisor.

## General Education & Core Requirements

### General Education

*Note: All students pursuing a bachelor's degree in the College of Arts and Science who entered the college in fall 2018 or thereafter must complete the General Education requirements. Students who entered the college before fall*

2018 have the option to complete either the General Education requirements or the old Core Curriculum (see below).

### Mission Statement

The College of Arts and Sciences (A&S) General Education (Gen Ed) requirements are the heart of a liberal arts education at CU Boulder.

This set of requirements allows students to pursue their passions while also ensuring that they venture into diverse areas of learning. The flexibility of the Gen Ed requirements enables students to explore areas of particular interest in depth, and in so doing facilitates the addition of minors or second majors. The Gen Ed requirements are straightforward, streamlined, rigorous and timeless; as society changes and technology advances, the courses of study that comprise these requirements will evolve naturally within the Gen Ed framework. These requirements reflect the Arts and Sciences identity and learning goals.

### Identity Statement

The College of Arts and Sciences at CU Boulder consists of teachers, scholars, researchers and artists who strive to understand, and find meaning in, the natural world, social structures, history, art, morals and the human experience. The college comprises a wide range of departments and programs, but woven throughout are the college's fundamental values: academic excellence, intellectual honesty, creative freedom, open inquiry and the pursuit of knowledge. We are dedicated to a pedagogy that recognizes our responsibility in developing a diverse community of students and scholars. Our students can expect to have their critical thinking skills honed, their understanding of themselves deepened, their vision of the natural world and its peoples expanded, and their ability to communicate enhanced. As a result, our graduates leave the college as well-rounded adults, prepared to participate productively as citizens in a democracy and to flourish in their careers.

### Learning Goals

#### 1: Develop the skills of communication, expression, and reasoning.

Students hone their communication skills through writing and speaking for various purposes (informing, instructing, persuading) and audiences (academic, civic, professional). They learn to design their message ethically and effectively using appropriate evidence and technologies, which may include alphabetic, visual, and aural elements. Students explore the breadth of human experience through diverse expressive forms. To develop problem-solving and analytical skills, students exercise various forms of reasoning—logical, computational and mathematical.

#### 2: Understand our world, in all its dimensions, through critical inquiry.

Students apply humanistic and scientific principles and methods to investigate local and global issues. Through exposure to multiple viewpoints, intellectual frameworks, and cultural contexts, students prepare to respond ethically, creatively, and collaboratively to open-ended questions.

### Overview

The Arts and Sciences General Education curriculum consists of 45 credits in three basic categories of requirements: skills, distribution and diversity.

- Skills requirement: 9 credits (6 written communication, 3 quantitative reasoning and mathematical skills, plus foreign language proficiency). Courses taken to fulfill this requirement *may not* also count toward the distribution or diversity requirements.
- Distribution requirement: 36 credits (12 arts and humanities, 12 social sciences, 12 natural sciences).
- Diversity requirement: 0–6 credits. Courses taken to fulfill this requirement *may* also count toward the Distribution Requirement.

### Policies

Students who take approved CU Boulder coursework to fulfill their Gen Ed requirements must take those courses for a letter grade and receive a grade of D- or higher. Students may not use thesis hours, independent study, internship or practicum courses to fill any of the Gen Ed requirements. All courses approved to fulfill specific Arts and Sciences Gen Ed requirements are identified as such in this catalog and are searchable in the CU Boulder Class Search tool.

### Skills Requirement

This requirement is designed to assure that each student has attained a minimum level of competency in foreign language, quantitative reasoning & mathematical skills, and written communication. Students may not use a course to fulfill any area of the Skills requirement and also use this course to fulfill part of the Distribution or Diversity requirements. This restriction applies to first- and second-semester foreign language courses taken as prerequisites to a third-semester language course that is satisfying the Foreign Language area of this requirement.

#### 1. Foreign Language (third-level proficiency)

All students are required to demonstrate, while in high school, third-level proficiency in a single modern or classical foreign language. Students who have not met this requirement at the time of matriculation will have a MAPS deficiency. They may make up the deficiency and fill this Gen Ed requirement by passing an appropriate third-semester college course that is part of a three-course sequence of at least 12 semester credit hours or by passing a CU-Boulder approved proficiency examination.

The goal of the language requirement is to encourage students to examine the formal and semantic structure of another language, significant and difficult works in that language, and one or more aspects of the culture lived in that language. This enables students to understand their own language and culture better, analyze texts more clearly and effectively, and appreciate more vividly the dangers and limitations of using a translated document. The language requirement concentrates on reading, although in some languages other abilities may be emphasized as well. Understanding what it means to read a significant text in its original language is essential for a liberal education according to the standards of this university.

Students who are subject to the General Education requirements, but not subject to MAPS, must complete the Foreign Language Gen Ed Skills requirement to meet degree requirements.

#### 2. Quantitative Reasoning and Mathematical Skills (QRMS) (3–6 credit hours)

This requirement has two principal objectives. The first is to provide students with the analytical tools used in some of their other Gen Ed courses and used in their major areas of study. The second is to help students acquire the reasoning skills necessary to assess adequately the data that will confront them in their daily lives. Students completing this requirement should be able to: construct a logical argument based on the rules of inference; analyze, present, and interpret numerical data; estimate orders of magnitude as well as obtain exact results when appropriate; and apply mathematical methods to solve problems in their university work and in their daily lives.

To fulfill the QRMS Gen Ed Skills requirement, student must:

- Earn credit for one of the approved QRMS courses or sequences of courses
- Earn credit for any 3 credits of mathematics courses numbered MATH 1300 or higher or applied mathematics courses numbered APPM 1350 or higher

- Have Prior Learning Assessment credit (PLA), like AP, IB or CLEP credit, that has been approved to fill QRMS

### 3. Written Communication (3 lower-division and 3 upper-division credit hours)

Writing is a skill that is fundamental to all intellectual endeavors. In fulfilling this requirement, students hone their communication skills by writing for various purposes (informing, instructing, persuading) and audiences (academic, civic, professional). They learn to design their message ethically and effectively using appropriate evidence and technologies.

Lower-division written communication courses focus on the central rhetorical elements of purpose, audience, and context to help students craft effective writing in a variety of situations. They emphasize the relationships among these elements, including a writer's choices of content, structure, style and use of language conventions. In addition, courses in this area develop students' analytical reading skills and introduce them to principles and practices of information literacy.

By the end of a lower-division written communication course, students will:

- Demonstrate their rhetorical knowledge through their writing choices
- Construct effective and ethical arguments
- Analyze texts in a variety of genres
- Refine and reflect on their writing process
- Practice information literacy
- Apply appropriate language conventions, including grammar, spelling, punctuation and format

In upper-division written communication courses, students apply the rhetorical elements of purpose, audience, and context to investigate and practice writing using disciplinary language, forms, and genres. These courses emphasize the application of students' disciplinary knowledge to a variety of writing situations, adjusting content, format, style and language conventions to accomplish specific purposes and communicate with specific audiences.

By the end of an upper-division written communication course, students will:

- Demonstrate specialized rhetorical knowledge through composing texts in a variety of disciplinary forms and genres for specific audiences and purposes
- Argue persuasively and with evidence, using discipline-specific forms and genres to present ideas and information
- Demonstrate enhanced critical reading skills
- Refine and reflect on their writing process
- Demonstrate specialized information literacy through applying research to disciplinary questions/issues
- Apply language conventions appropriately, including format, documentation, spelling, grammar, and punctuation.

To fulfill the lower-division part of the written communication Gen Ed Skills requirement, students must either:

- Pass or receive placement credit (as determined, for example, by scores on AP, IB or CLEP exams) for a 3-credit course approved as Skills – Lower-Division Written Communication, *or*
- Earn an International Baccalaureate diploma

To fulfill the upper-division part of this requirement, students must either:

- Pass a 3-credit course approved as Skills – Upper-Division Written Communication *or*
- Pass an upper-division written communication proficiency exam

### Distribution Requirement

For the distribution requirement, students must pass a minimum of 12 credits in each of the three Arts & Sciences divisions (Arts & Humanities, Social Sciences, and Natural Sciences). At least four different course prefixes must be represented in a student's distribution requirement coursework. *No more than two lower-division (1000- and 2000-level) courses with the same course prefix may count toward the distribution requirement.*

As part of, or in addition to, the 12 credits in the natural sciences division, students must meet the natural sciences lab requirement. (One- and 2-credit NS lab courses are excepted from the restriction to two lower-division courses with the same course prefix counting toward the Distribution requirement.)

### 4. Arts & Humanities (12 credits)

Courses in the arts and the humanities explore the variety of human creative and intellectual experiences, as well as the history and foundations of culture, through the examination of human languages, literatures and other artistic, material, social, cultural, and political products, the forms they have taken in different places and eras, and the way these have changed over time. As a result, these courses cultivate perspectives and intellectual skills necessary to comprehend and respond adeptly to the world in which we live, offering frameworks for thinking critically about the universe and the smaller societies we inhabit. In particular, these courses help students develop the ability to appreciate and evaluate human efforts to explain, translate, and transform their diverse experiences of the world, as these efforts take shape in language, literature, philosophical systems, historical contexts, religious experience, material culture, images, sounds and performances.

The Arts & Humanities Gen Ed Distribution requirement is meant to ensure that students:

- Study the fundamental intellectual and ethical dimensions of human experience.
- Investigate the relations between artistic, humanistic, and scientific inquiry and interpretation.
- Understand and are prepared to navigate successfully the complex and ever-changing world in which we live.

To fulfill the Arts & Humanities Gen Ed Distribution Requirement, students must pass a minimum of 12 credits in courses approved as Distribution – Arts & Humanities courses. (Students may apply more than two lower-division courses with the DNCE prefix to this part of the requirement as long as the credit total in such courses is 6 or less.)

### 5. Natural Sciences (12 credits including a lab)

Natural science courses examine the physical and biological world, exploring the nature of matter, life, and the universe. They are designed to demonstrate that science is not a static list of facts, but a dynamic process that leads to knowledge. By combining observation, experimentation, and theory, students learn to formulate interpretations and conclusions through unbiased, critical application of scientific principles. Through a combination of lecture courses and laboratory or field experiences, students gain hands-on experience with scientific research. They develop expertise in measurement techniques and data interpretation, and learn the relevance of this expertise to the formation and testing of scientific hypotheses. As a result, natural

science courses cultivate perspectives and intellectual skills necessary to enhance knowledge of one or more scientific disciplines, and to probe scientific issues in the context of important past discoveries and new developments.

The Natural Sciences Gen Ed Distribution requirement is meant to ensure that students:

- Understand the evolving state of knowledge in at least one scientific discipline
- Gain experience in scientific observation and measurement, in organizing and quantifying results, in drawing conclusions from data, and in understanding the uncertainties and limitations of the results
- Learn sufficient general scientific vocabulary and methodology to acquire additional information, evaluate it critically and make informed decisions

*Laboratory or Field Experience:* The Laboratory or Field Experience requirement is satisfied with a stand-alone lab of at least one credit, or another course with a substantial lab component, as approved by the Natural Sciences division. The lab requirement is broadly defined to include different types of hands-on learning, including—but not limited to—bench work, fieldwork, instrumentation and data analysis.

To fulfill the Natural Sciences Gen Ed Distribution requirement, students must pass a minimum of 12 credits in courses approved as Distribution – Natural Sciences courses, including a laboratory or field experience.

### 6. Social Sciences (12 credits)

Social science courses examine the individual, social, ideological, cultural, political, and economic dimensions of human activities and behaviors. They address a broad range of topics through diverse theoretical and empirical approaches. As a result, these courses cultivate perspectives and intellectual skills necessary to apply qualitative and quantitative methods of inquiry to issues of societal significance. Students in social science courses are taught to analyze and interpret data from many different sources, such as fieldwork, interviews, surveys, peer-reviewed literature, published and unpublished repositories and electronic media. These courses also discuss applications of the social sciences, which range from developing fundamental theories of the social world to solving problems and informing advocacy and activism.

The Social Sciences Gen Ed Distribution requirement is meant to ensure that students:

- Explore the development of the institutions and functioning of human society
- Understand the interpersonal relationships of individuals as members of social groups
- Gain experience with social science vocabulary, methods and tools in systematic studies of the social world

To fulfill the Social Sciences Gen Ed Distribution requirement, students must pass a minimum of 12 credits in courses approved as Distribution – Social Sciences courses.

### Diversity Requirement

For the Diversity requirement, students must pass a minimum of 3 credits in each of the two diversity categories for a total of 6 credits in courses that have been identified as fulfilling diversity learning goals. Students may use the same course to fulfill one of the diversity categories and part of the distribution requirement.

The diversity requirement addresses the need to prepare students to navigate the complexities of living and working in a diverse and increasingly interconnected world. Diversity courses are designed to provide students with the necessary understanding and analytical skills to successfully function and lead in a multicultural, multiethnic, transnational and global society. All diversity courses promote historical and/or contemporary understanding of how social differences shape, and have been shaped by, political, economic, and cross-cultural relationships within the United States and the world. Generally these courses will explore the ways in which marginalization has occurred and the reasons for this marginalization.

### 7. United States Perspective (3 credits)

United States perspective diversity courses promote historical and/or contemporary understanding of how social differences have shaped social, political, economic and cross-cultural relationships within the United States. These courses must substantially address one or more forms of diversity (for example: race, ethnicity, gender, gender identity, sexual orientation, socioeconomic class, religion, disability).

To fulfill the U.S. Perspective Gen Ed Diversity requirement, students must pass a minimum of 3 credits in a course approved as Diversity – U.S. Perspective courses.

### 8. Global perspective (3 credits)

Global perspective diversity courses address the need for students to learn and think critically about historical and/or contemporary global forces and transnational connections. These courses might: 1) focus in-depth on a particular country or culture outside the U.S., placing it within transnational and global context; 2) address a problem or phenomenon in the context of two or more countries, cultures, or regions; 3) examine global affairs through a comparative framework; 4) be part of a study abroad experience and have a substantial cross-cultural component.

To fulfill the Global Perspective Gen Ed Diversity requirement, students must pass a minimum of 3 credits in a course approved as Diversity – Global Perspective courses.

## Core Curriculum

*Note: All students pursuing a bachelor's degree in the College of Arts and Sciences who entered the college before fall 2018 have the option to complete either the Core Curriculum or the General Education requirements.*

The College of Arts and Sciences Core Curriculum requirements are divided into two parts: skills acquisition and content areas of study. For full descriptions of the individual requirement areas and their underlying educational philosophies and goals please refer to the 2018-2019 catalog or an earlier catalog (p. 2241).

### Policies and Exemptions

Students may use a course to meet only one core requirement even if that course has been approved to fulfill more than one requirement. A student may not use independent study projects to fulfill core requirements. Students who take approved CU Boulder coursework to fulfill their core requirements must take those courses for a letter grade and receive a grade of D- or higher. All courses that have been approved to fulfill specific requirements in the A&S Core Curriculum have that noted in their catalog entries and can be searched for using the CU Boulder Class Search (<https://classes.colorado.edu>) tool.

Selected majors and the ecology and evolutionary biology minor are exempt from portions of the core curriculum, as core coursework is considered equivalent to coursework in the major or minor. Students who

graduate with more than one exempt major may apply their exemptions cumulatively.

## Skills Acquisition

### 1. Foreign Language

All students are required to demonstrate, while in high school, third-level proficiency in a single modern or classical foreign language. Students who have not met this requirement at the time of matriculation will have a MAPS deficiency. They may make up the deficiency and fill this core curriculum requirement by either:

- Passing an appropriate third-semester college course, *or*
- Passing a CU Boulder-approved proficiency examination

Students who are subject to the Core Curriculum, but not subject to MAPS, must complete the foreign language requirement to meet degree requirements.

### 2. Quantitative Reasoning and Mathematical Skills (QRMS) (3–6 credit hours)

To fulfill the QRMS Gen Ed Skills requirement, students must:

- Pass one of the approved QRMS courses or sequences of courses
- Pass any 3 credits of mathematics courses numbered MATH 1300 or higher or applied mathematics courses numbered APPM 1350 or higher

### 3. Written Communication (3 lower-division and 3 upper-division credit hours)

To fulfill the lower-division part of the Written Communication Core requirement, students must:

- Pass or receive placement credit (as determined, for example, by scores on AP or IB exams) for a 3-credit course approved for lower-division written communication
- Earn an International Baccalaureate diploma

To fulfill the upper-division part of this requirement, students must:

- Pass a 3-credit course approved for upper-division written communication
- Pass an upper-division written communication proficiency exam

## Content Areas of Study

### 4. Historical Context (3 credit hours)

To fulfill the Historical Context Core requirement, students must pass one of the 3-credit courses that has been approved to fulfill Historical Context.

### 5. Human Diversity (3 credit hours)

To fulfill the Human Diversity Core requirement, students must pass one of the 3-credit courses that has been approved to fulfill Human Diversity.

Students who graduate with a major in ethnic studies are exempt from completing the Human Diversity requirement.

### 6. United States Context (3 credit hours)

To fulfill the U.S. Context Core requirement, students must pass one of the 3-credit courses that has been approved to fulfill U.S. Context.

### 7. Literature and the Arts (6 credit hours, 3 of which must be upper-division)

To fulfill the Literature and Arts Core requirement, students must pass 6 credit hours of coursework that has been approved to fulfill Literature and the Arts, of which at least 3 credit hours must be upper-division.

Students who graduate with a major dealing in depth with literature and the arts (Chinese, classics, dance, English, fine arts, French, Germanic studies, humanities, Italian, Japanese, Portuguese, Russian, Spanish or theatre), are exempt from this requirement.

### 8. Natural Science (13 credit hours, including a two-course sequence and a laboratory or field experience)

To fulfill the Natural Science Core requirement, students must pass 13 credit hours of approved natural science coursework, which includes one two-semester sequence of courses and at least 1 credit hour of an associated lab or field experience. No more than two lower-division courses may be taken from any single department (1-credit-hour lab/field experience courses are excepted) and the lab/field experience course must be affiliated with a Natural Science lecture course.

Students who graduate with a major in the natural sciences (astrophysical and planetary sciences, biochemistry, chemistry, ecology and evolutionary biology, geology, integrative physiology, molecular, cellular and developmental biology or physics) or students who graduate with a minor in ecology and evolutionary biology are exempt from completing the natural science requirement.

### 9. Contemporary Societies (3 credit hours)

To fulfill the Contemporary Societies Core requirement, students must pass one 3-credit course that has been approved to fulfill Contemporary Societies.

Students who graduate with a major in anthropology, economics, international affairs, political science, psychology or sociology are exempt from the contemporary societies requirement.

### 10. Ideals and Values (3 credit hours)

To fulfill the Ideals and Values Core requirement, students must pass one 3-credit course that has been approved to fulfill Ideals and Values.

## Academic Standards

Students in the College of Arts and Sciences must abide by all policies and procedures as outlined in the university catalog and on the college's advising website (<https://www.colorado.edu/advising>). Students should refer to these webpages often since policies, procedures and forms may be updated throughout the academic year.

## Attendance

Successful work in the College of Arts and Sciences is dependent upon regular attendance in all classes. Students who are unavoidably absent should make arrangements with instructors to make up the work missed. Failure to attend regularly may result in receipt of an "F" in a course. Students who, for illness or other legitimate reason, miss a final examination must notify the instructor no later than the end of the day on which the examination is given. Failure to do so may result in receipt of an F in the course.

## Registration and Enrollment

It is the students' responsibility to enroll each semester in the requisite number of credit hours in accordance with the students' individual degree plan. To be considered a full-time student, a minimum of 12 credit hours each fall and spring semester is required. Part-time enrollment (less than 12 credit hours) may impact student's financial aid and scholarships, health insurance, on-campus housing, and the four-year graduation guarantee. Students must petition to be enrolled in more than 21 credit hours in any given fall or spring semester, in more than 16 credit hours

in Summer Session as a whole, and in more than one class in either Maymester or Augmester during Summer Session.

### Sequence of Courses

Students are expected to follow the curriculum outlined by their major department/program. A student who receives a grade of D+ or lower in a course that is prerequisite to another may not enroll in the succeeding course without approval from the student's major department/program or the instructor of the succeeding course. Students should check with the major department/program for more stringent requirements on prerequisite course grades.

All courses are not necessarily offered each semester. According to college policy, undergraduate courses having an enrollment of fewer than 20 students may be cancelled. Students can minimize scheduling problems by closely following the curricular sequence outlined by their major department/program.

### Add and Drop Policies

See the Office of the Registrar website (<http://www.colorado.edu/registrar>) for campuswide add and drop policies, and specific deadline dates for a given semester/term.

### Late Drop Policy

After the final drop deadline, students must file a detailed college petition to request a late drop, which may be approved under the following conditions:

- After the tenth week of class and before the last day of class in the term, a student may be approved to late drop a class with documentation to verify circumstances beyond their control or a university error.
- Students who are approved for a late drop of a class will receive a grade of "W" for that class on their transcript.

Students are responsible for being aware of the consequences of a late drop(s), including impacts on financial aid/scholarships, health insurance, on-campus housing eligibility, academic progress towards degree requirements, etc.

### Withdrawal

Arts and Sciences students may withdraw from all classes for a term until the last day that classes are taught by requesting a withdrawal in the Office of the Registrar. In the event of extenuating circumstances, students may petition for a retroactive withdrawal through the Dean of Students Office. For specific withdrawal procedures and campus-wide policies, see the Withdrawal (<https://catalog.colorado.edu/about-cu-boulder/registration-enrollment/#withdrawingfromcutext>) section.

### Consecutive Withdrawal

Students in the College of Arts and Sciences who withdraw from two regular semesters in a row will have a dean's stop placed on their registration. Summer session is not counted as a regular semester. They will not be permitted to return to CU Boulder before one full academic year has elapsed (not including their semester of withdrawal).

### Good Academic Standing

Good academic standing in the College of Arts and Sciences requires a cumulative grade point average of 2.00 (C) or above in all University of Colorado work. Grades earned at another institution are not used in calculating the grade point average at the University of Colorado (this includes courses taken at Metropolitan State University on the Denver campus). However, grades earned in another school, college or campus

within the University of Colorado system are used in determining a student's scholastic standing and progress toward the degree in the College of Arts and Sciences.

### Academic Alert – Probation for First-Year Semester Students Only

First-time first-year students and first-semester transfer students who earn a cumulative GPA in their first semester that is below 2.000 are placed on Academic Alert. If you are placed on Academic Alert, you are not in good academic standing. Students on Academic Alert who earn a semester GPA of 2.000 or higher during their alert semester but do not earn a cumulative GPA of 2.000 or higher are placed on Academic Probation and are afforded a second semester to achieve a cumulative GPA of at least a 2.000, the GPA required to return to good academic standing. Students who earn below a 2.000 semester GPA during their alert semester will be placed on Academic Suspension.

### Academic Probation

Continuing students whose cumulative GPA falls below 2.000 are placed on Academic Probation. Those students who enroll in any term in the calendar year, excluding Summer Session, after being placed on Academic Probation are expected to raise their cumulative GPA to a 2.000 or above by the end of that term or will face Academic Suspension. Students placed on Academic Probation who elect to remain out of school for a full calendar year can return to the university with a two-semester of Academic Probation to achieve the required cumulative GPA of 2.000 or above.

### Academic Suspension

Students who fail to earn a cumulative GPA of 2.000 or higher after the semester of Academic Probation will be suspended and will not be able to register for University of Colorado main campus courses on any campus during any regular academic semester, August to May. Students are not suspended at the end of the Summer Session.

### Academic Reinstatement

Academic Reinstatement eligibility requires a cumulative GPA of 2.0 or higher. A student on Academic Suspension who is seeking Academic Reinstatement may choose from the following options:

#### Enrollment Options

1. Students may take classes through the Division of Continuing Education (Boulder evening or online courses) to try to raise their CU GPA and may apply for reinstatement when they have reached a 2.000 cumulative GPA. Students who enroll in Continuing Education courses to restore their good academic standing must maintain a 2.50 GPA or above during each term to avoid dismissal from Continuing Education.
2. Students can take courses at *another academic institution*. To be reinstated, your cumulative GPA at CU *before your suspension plus the grades and credit hours* resulting from *all* work done at other institutions *after* your suspension must calculate to a cumulative GPA of at least a 2.000. This is referred to as a virtual GPA. These transfer grades are used only for the purpose of reinstatement and do not impact your official University of Colorado GPA. If students choose this option and are reinstated based on a virtual GPA, they will be readmitted on Academic Probation and given two semesters of main campus enrollment to bring their CU cumulative GPA to a 2.000 minimum.

3. Students on Academic Suspension may enroll in main campus Summer Session classes to try to raise their CU GPA and may apply for reinstatement when they have reached a 2.000 cumulative GPA.
4. Students may choose any combination of numbers 1, 2 and 3.

The procedure to apply for reinstatement can be found on the A&S Academic Advising Website (<https://www.colorado.edu/artsscience-advising/policies-forms/reinstatement-readmission>). If a student, who has earned Academic Reinstatement, has not been enrolled at CU Boulder for more than 3 regular semesters they may apply for readmission (<https://catalog.colorado.edu/undergraduate/colleges-schools/arts-sciences/policies-requirements/#creditandrollmenttext>) to the university.

## Academic Ethics

The College of Arts and Sciences follows the policies and procedures governing acts of academic dishonesty can be found on CU Boulder's Student Conduct & Conflict Resolution website (<https://www.colorado.edu/sccr/honor-code>). A university's intellectual reputation depends on the maintenance of the highest standards of intellectual honesty. Commitment to those standards is a responsibility of every student and faculty member at the University of Colorado.

## Policy on Grade Appeals

The following shall be the official policy of the academic units of the College, unless an academic unit submits an alternative procedure to the Dean for approval.

When a student believes that a grade has been improperly assigned, and discussions between the instructor and the student have not led to any resolution of the problem:

1. The student shall have the option of making a formal written appeal to the Department Chair. The appeal must specify the remedy desired by the student, and it must be submitted within 45 days of the end of the academic term in which the course was taken.
2. The Chair or designee will meet (together or separately) with the student and with the faculty member who taught the course. If the Chair/designee is unable to broker a solution mutually acceptable to both student and instructor, then
3. The Chair shall appoint an ad hoc Grade Appeals Committee, which will review the dispute. This Committee shall consist of at least three impartial faculty members competent in the subject matter of the course in question. The Chair will provide the Committee with the student's appeal and a written response from the faculty member.
4. Within 45 days, the Committee will submit a report and recommendation to the Chair, and the Chair will recommend to the instructor either (1) that the originally assigned grade stand; or (2) that a new grade be assigned.
5. In cases where a change of grade is recommended and the instructor does not wish to accept the recommendation of their colleagues, the Chair shall forward the written materials associated with the appeal to the Dean of the College.

## Policy on Incomplete Grades

An incomplete grade of "I" is given at the discretion of the course instructor only when a student has satisfactorily completed a substantial portion of a course and, for reasons beyond the student's control, is prevented from completing all work for the course within the term. Incomplete grades must be requested by the student and should not be awarded by the instructor for non-attendance. (In the case of non-

attendance, the instructor should award the student the grade[s] earned.) If an incomplete grade is given, the instructor is required to document the reasons/grounds for the awarding of the incomplete grade, the specific work and conditions for completion of the course and the time frame within which the coursework must be completed. The maximum time the instructor can allow for the completion of the coursework and subsequent award of a course grade is one year from the end of the term the course was taken. After one year, if no final grade is awarded, the "I" grade will change to the grade of "F." A copy of a departmental Incomplete Agreement signed by the student and instructor and accompanied by documentation of the extenuating circumstances that resulted in the awarding of an incomplete should be filed with the instructor's department office, and a copy should be given to the student. (No copy of this agreement needs to be sent to the A&S Dean's Office.)

## Policy on Exceptions to Academic Rules and Policies

The College of Arts and Sciences does not waive degree requirements or excuse students from completing degree requirements. Petitions for exceptions to the College of Arts and Sciences academic rules and policies stated in this catalog may be submitted to the Appeals Committee on Academic Rules and Policies (ACARP). Such petitions will be considered only if they meet all three of the following conditions:

1. The student must document that they have made every effort to fulfill the policy or requirement as defined and must demonstrate that no other options exist for fulfilling the requirement as defined in this catalog.
2. The student must document the compelling reasons beyond their control that are preventing them from fulfilling the policy or meeting the requirement as defined in the catalog.
3. The student must demonstrate to the satisfaction of the faculty committee that they have fulfilled or will fulfill the intent of the policy or the requirement through an appropriate alternative.

Students who believe that their circumstances meet the conditions to submit a petition must first consult with their academic advisor. If the advisor offers options for meeting the requirement or policy as defined here, the student must pursue those options and should not submit a petition.

The ACARP petitions should be filed with the Office of Academic and Curricular Affairs.

## Academic Excellence

### Arts and Sciences Honors Program

The Arts and Sciences Honors Program (<https://www.colorado.edu/honors>) provides a community for highly motivated and academically prepared undergraduate students and offers opportunities for intellectual engagement through honors courses, academic-inspired events, and honors thesis research and creative work. It is an enrichment program for undergraduate students who want to add something extra to their experience at the University of Colorado Boulder. Honors-qualified students are eligible to take Honors Program courses and attend Honors Community events. In addition, the Honors Program sponsors the Honors Journal (<http://www.colorado.edu/honorsjournal>), a student-run publication which publishes works from all academic disciplines represented on the CU Boulder campus.

### Honors Residential Academic Program

The Honors RAP (<http://living.colorado.edu/get-involved/raps-honors>) is the residential component of the Arts and Sciences Honors Program

(<https://www.colorado.edu/honors>). It promotes and sustains academic excellence within a lively community setting. First-year students take one, onsite, seminar-style three-credit-hour course each semester.

Beyond the classroom, Honors RAP offers a variety of co-curricular and student-led activities that enhance the learning experience. It is open to approximately 335 first-year and continuing honors-qualified students in the College of Arts and Sciences.

## Graduation with Honors

Students in the College of Arts and Sciences are eligible to earn Latin honors at graduation—cum laude, magna cum laude or summa cum laude. The award of Latin honors is determined by the Arts and Sciences Honors Program (<https://www.colorado.edu/honors>) and is based on several criteria, including the quality of original scholarly work. Honors are not conferred on a graduate simply by virtue of high grades. Students pursuing multiple majors or multiple degrees must complete their honors program and defend their thesis by the published deadline for the term/year in which their first major or first degree is conferred. Students intending to pursue honors must register with the Honors Program by the deadlines published on the Honors Program (<https://www.colorado.edu/honors/graduation>) website. Honors requirements must be complete prior to graduation. Students "walking" in May but graduating in August must complete honors requirements, including defending the thesis, by the Honors Program deadline for May graduation. Interested students should consult the Honors Program listing in this catalog or contact the Honors Program (<https://www.colorado.edu/honors/graduation>) in Norlin Library.

## Graduation with Distinction

Students will graduate "With Distinction" if they have at least 30 credit hours completed at the University of Colorado Boulder and have a grade point average of 3.75 or higher for all coursework completed at the University of Colorado. The average includes all grades except P.

Students will graduating "With Distinction" receive a medal from the Dean's Office to where at graduation.

## Dean's List

Students in the College of Arts and Sciences who have completed at least 12 credit hours of CU Boulder coursework for a letter grade in any single semester with a term GPA of 3.75 or better are included on the dean's list and receive a notation on their transcript and a letter from the dean.

## Phi Beta Kappa

All upper-division students in the College of Arts and Sciences whose undergraduate academic records are outstanding are eligible for election to Phi Beta Kappa, the nation's oldest and most prestigious honor society. The CU Boulder chapter was established in 1904. Membership in this distinguished honors society recognizes superlative scholastic achievement in the liberal arts and sciences and at CU is only open to Arts and Sciences students. Students are notified by mail of their nomination; students do not apply for Phi Beta Kappa membership.

# Programs of Study

## Actuarial Studies and Quantitative Finance

The Actuarial Studies and Quantitative Finance Certificate Program is an interdisciplinary undergraduate program housed in the College of Arts and Sciences and the Leeds School of Business. The curriculum

is designed to provide the necessary mathematics, economics and finance training needed to pursue a career as an actuary or in quantitative finance.

The program appeals to quantitatively strong students who are excited about applying these skills in a business setting.

Students with these skills and interests are in high demand in the job market. Students who succeed in the program will also be well-prepared for graduate study in these fields.

## Certificate

- Actuarial Studies and Quantitative Finance - Certificate (p. 74)

## Actuarial Studies and Quantitative Finance - Certificate

### Program Tracks

The actuarial studies and quantitative finance certificate program offers two tracks:

- actuarial studies track
- quantitative finance track

### Actuarial Studies Track

The actuarial studies track, offered by the College of Arts and Sciences, is designed to help students obtain the expertise in mathematics, economics and finance necessary to become actuaries—the mathematical planners of the insurance and pension industries.

Students in the program can be of any major or college, or can be classified as nondegree. The entrance requirement is three semesters of calculus completed with grades of B+ or better. There are a number of courses in mathematics, economics and business required to earn the certificate. The certificate is awarded by the dean of the College of Arts and Sciences.

Besides taking courses, students are encouraged to take the professional exams offered by the various actuarial societies. The entrance requirements can be waived for students who pass the first actuarial examination.

Interested students should contact one of the co-directors: David Grant at 303-492-7208 or Anne Dougherty at 303-492-4011, who will also provide advice on actuarial studies to students who are not in the program. For more information, visit the Actuarial Studies and Quantitative Finance Certificate Program (<http://www.colorado.edu/asqf>) webpage.

### Quantitative Finance Track

The quantitative finance track, offered jointly by the College of Arts and Sciences and the Leeds School of Business, was initiated in the fall of 2004 and is designed to prepare students for financial and economics analyst positions that require outstanding quantitative skills. Often employers hire graduate students for such positions due to a shortage of undergraduates with the required combination of skills and training. This program is designed to meet this need.

The required curriculum is extensive and rigorous. Potential participants are encouraged to begin work early in their studies, preferably during the first year. Coursework draws from the Departments of Mathematics,

Applied Mathematics and Economics; and the Leeds School of Business. Qualified students enrolled in any college are invited to participate.

For admittance to the program, a student must earn a GPA of 2.87 or higher in Calculus I through III. However, students may be provisionally admitted after completion of Calculus I (MATH 1300 or APPM 1350) with a grade of B or better or through advanced placement. Additional GPA requirements must be met to earn the certificate. Participants may be given preference when enrolling in certain courses in the Leeds School of Business.

Interested students should contact Daniel Brown, Leeds School of Business, at [daniel.brown@colorado.edu](mailto:daniel.brown@colorado.edu). For more information, visit the Actuarial Studies and Quantitative Finance Certificate Program (<http://www.colorado.edu/asqf>) webpage.

## Requirements

### Overview

Curricula are rigorous and multi-disciplinary, with required coursework drawing from the Mathematics, Applied Mathematics and Economics Departments, as well as the Finance Division of the Leeds School of Business. The confluence of such widely varying material is one of the unique features of the program. Successful completion of the program requirements is a significant accomplishment.

### Actuarial Studies Track

The courses listed below are the minimum required in order to complete the actuarial studies track of the program. You must achieve a grade of C- or better in all courses.

#### Required Courses and Credits

Code	Title	Credit Hours
<b>Required Mathematics Courses</b>		
MATH 1300 or APPM 1350	Calculus 1 Calculus 1 for Engineers	4-5
MATH 2300 or APPM 1360	Calculus 2 Calculus 2 for Engineers	4-5
MATH 2400 or APPM 2350	Calculus 3 Calculus 3 for Engineers	4-5
MATH 2130 or APPM 3310	Introduction to Linear Algebra for Non-Mathematics Majors Matrix Methods and Applications	3
MATH 4510 or APPM 3570	Introduction to Probability Theory Applied Probability	3
MATH/STAT 4520	Introduction to Mathematical Statistics	3
MATH/STAT 4540	Introduction to Time Series	3
<b>Required Economics Course</b>		
ECON 3070	Intermediate Microeconomic Theory	4
ECON 3080	Intermediate Macroeconomic Theory	3
ECON 4070	Topics in Microeconomics	3
<b>Required Finance/Accounting Courses</b>		
BCOR 2203 & BCOR 2204	Principles of Accounting I and Principles of Financial Management	3
FNCE 3010	Corporate Finance	3
<b>Additional Recommended Courses</b>		

APPM 4560	Markov Processes, Queues, and Monte Carlo Simulations	
APPM 4570	Statistical Methods	
ECON 3818	Introduction to Statistics with Computer Applications	
ECON 4818	Introduction to Econometrics	
FNCE 3030	Investment and Portfolio Management	
FNCE 4040	Derivative Securities	
MATH/APPM 4120	Introduction to Operations Research	
MATH/APPM 4650	Intermediate Numerical Analysis 1	
STAT 4610	Statistical Learning	
<b>Total Credit Hours</b>		<b>40-43</b>

### Quantitative Finance Track

Program requirements are extensive and challenging. Students must meet two separate GPA requirements:

1. The overall GPA for all courses applied to certificate requirements must be at least 3.00.
2. Students must meet a requirement specifically for mathematics and statistics courses applied to certificate requirements. This requirement can be met one of two ways, either by achieving a GPA of 2.87 or greater in calculus courses or a GPA of 3.00 or greater in the six mathematics and statistics courses required for the certificate.

Most students will begin study during their freshman year and continue throughout their undergraduate career. The number of credit hours taken may vary according to the specific courses completed.

The courses listed below are the minimum required in order to complete the quantitative finance track of our program. Please note that students must pass Calculus I, II, and III with a B grade or better in order to be admitted into the program. Students are encouraged to go beyond the minimum requirements, and most students do.

#### Required Courses and Credits

Code	Title	Credit Hours
<b>Required Mathematics Courses</b>		
MATH 1300 or APPM 1350	Calculus 1 Calculus 1 for Engineers	4-5
MATH 2300 or APPM 1360	Calculus 2 Calculus 2 for Engineers	4-5
MATH 2400 or APPM 2350	Calculus 3 Calculus 3 for Engineers	4-5
MATH 2130 or APPM 3310	Introduction to Linear Algebra for Non-Mathematics Majors Matrix Methods and Applications	3
MATH 4510 or APPM 3570	Introduction to Probability Theory Applied Probability	3
MATH/STAT 4520	Introduction to Mathematical Statistics	3
<b>Required Economics Course</b>		
ECON 2010	Principles of Microeconomics	4
ECON 2020	Principles of Macroeconomics	4

ECON 3070	Intermediate Microeconomic Theory	4
ECON 4818	Introduction to Econometrics	3
<b>Required Finance/Accounting Courses</b>		
ACCT 3220	Corporate Financial Reporting 1	3
BCOR 2203 & BCOR 2204	Principles of Accounting I and Principles of Financial Management	3
FNCE 3010	Corporate Finance	3
FNCE 3030	Investment and Portfolio Management	3
FNCE 4040	Derivative Securities	3
FNCE 4820	Topics in Finance	3
or APPM 4720	Open Topics in Applied Mathematics	
or FNCE 4070	Financial Markets and Institutions	
<b>Computer Programming</b>		3-4
BAIM 3210	Business Application Programming (or another approved course)	
or BAIM 3220	Introduction to Python Programming	
or CSCI 1300	Computer Science 1: Starting Computing	
<b>Additional Finance Elective (Choose One)</b>		3-4
ACCT 3230	Corporate Financial Reporting 2	
APPM 2360	Introduction to Differential Equations with Linear Algebra	
APPM 2750	Java: Training, Mathematical Algorithms, and Mobile Apps	
APPM 4560	Markov Processes, Queues, and Monte Carlo Simulations	
FNCE 4830	Seminar in Investment Banking	
FNCE 4820	Topics in Finance	
FNCE 4050	Capital Investment Analysis	
MATH/STAT 4540	Introduction to Time Series	
Total Credit Hours		60-65

For a complete list of requirements and further information regarding the quantitative finance track and the related actuarial studies track, see the Actuarial Studies and Quantitative Finance Certificate Program (<https://www.colorado.edu/program/asqf>) webpage. Interested students should contact Daniel Brown, [daniel.brown@colorado.edu](mailto:daniel.brown@colorado.edu) ([Daniel.Brown@colorado.edu](mailto:Daniel.Brown@colorado.edu)), Leeds School of Business.

## Anthropology

Anthropology is the study of people, both ancient and modern, in their cultural, biological, and environmental contexts. The discipline incorporates a wide range of theoretical and methodological traditions, drawing on and contributing to approaches in the humanities, social sciences and natural sciences. We assert that the diversity of anthropology is the source of both its uniqueness and its greatest strength as a discipline. As the only field to address all aspects of the human experience—cultural, biological, historical—anthropology provides both a broad vision of what it is to be human as well as creative synergies unavailable to other disciplines within the human sciences and humanities. We view the subdisciplines of cultural anthropology, archaeology and biological anthropology as important foundations of our program because of their well-defined fields of study. Yet we also believe that recent trends in anthropological thought offer creative new directions that cut across and bridge the subdisciplines.

We see our long-term vision as a department coalescing around the theme of local/global dynamics; that is, the relationship between the small-scale of the lives of our subjects of study as cultural and biological beings, and the large-scale patterns of society and history. While addressed from different theoretical orientations and methodologies, all anthropologists struggle with the problem of understanding the relationship of the local to the global. We have identified four perspectives that address local/global dynamics in ways that cut across the subdisciplines: ecology and evolution, power and practice, globalization, and landscape and space. These intellectual bridges will create powerful new collaborations within the department and with other programs that will advance our research and teaching missions as well as create a more integrated departmental vision.

Course code for this program is ANTH.

## Bachelor's Degree

- Anthropology - Bachelor of Arts (BA) (p. 85)

## Minor

- Anthropology - Minor (p. 86)

## Faculty

While many faculty teach both undergraduate and graduate students, some instruct students at the undergraduate level only. For more information, contact the faculty member's home department.

## Courses

### ANTH 1030 (3) Principles of Anthropology 1

Evolution of humanity and culture from beginnings through early metal ages. Covers human evolution, race, prehistory, and rise of early civilizations. This course is taught through Continuing Education.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences  
MAPS Course: Social Science

### ANTH 1040 (3) Principles of Anthropology 2

Surveys the world's major culture areas. Covers components of culture, such as subsistence, social organization, religion, and language. This course is taught through Continuing Education.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
MAPS Course: Social Science

### ANTH 1100 (3) Exploring a Non-Western Culture: The Tamils

Surveys the social and economic patterns, ideas and values, and aesthetic achievements of the Tamils, a Hindu people who live in South India and Sri Lanka.

**Additional Information:** Arts Sci Core Curr: Human Diversity  
Arts Sci Gen Ed: Distribution-Social Sciences  
Arts Sci Gen Ed: Diversity-Global Perspective  
Departmental Category: Asia Content

### ANTH 1105 (3) Exploring a Non-Western Culture: Tibet

Introduction to Tibetan culture, history, religion, and society from an anthropological perspective, including traditional as well as contemporary dimensions. Topics will include Tibetan Buddhism, politics, nomadism, gender, refugee issues, and the global Tibetan diaspora, all framed within the larger methods and concepts of cultural anthropology.

**Additional Information:** Arts Sci Core Curr: Human Diversity  
Arts Sci Gen Ed: Distribution-Social Sciences  
Arts Sci Gen Ed: Diversity-Global Perspective  
Departmental Category: Asia Content

### ANTH 1115 (3) The Caribbean in Post-Colonial Perspective

Introduces the student to the varied peoples and cultures in the Caribbean region, emphasizing the historical, colonial, and contemporary political-economic contexts of their social structure and cultural patterns.

**Additional Information:** Arts Sci Core Curr: Human Diversity  
Arts Sci Gen Ed: Distribution-Social Sciences  
Arts Sci Gen Ed: Diversity-Global Perspective

### ANTH 1120 (3) Exploring a Non-Western Culture: Pueblo Indians of the Southwest

Examines the geography, kinship, politics and religious values of Pueblo Indian peoples of the US Southwest in historical and contemporary context through an anthropological perspective. Specific details of Pueblo Indian languages, cultures, and histories are used to illustrate basic ideas and debates in anthropology including: the concept of culture, the influence of language on thought, the grounding of culture in human biology, religion and reason, the nature of oral traditions, and archaeological interpretation.

**Additional Information:** Arts Sci Core Curr: Human Diversity  
Arts Sci Gen Ed: Distribution-Social Sciences  
Arts Sci Gen Ed: Diversity-U.S. Perspective

**ANTH 1125 (3) Exploring Cultural Diversity in the U.S.**

Examines the geography, kinship, politics and religious values of various cultures in the United States in historical and contemporary context through an anthropological perspective. Check with department for semester offerings.

**Repeatable:** Repeatable for up to 9.00 total credit hours.

**Additional Information:** Arts Sci Gen Ed: Diversity-U.S. Perspective  
Arts Sci Gen Ed: Distribution-Social Sciences

**ANTH 1140 (3) Exploring a Non-Western Culture: The Maya**

Explores the culture of the Maya of Central America, emphasizing their material adaptations, social organizations, ideals and values, and artistic achievements in the past and the present.

**Additional Information:** Arts Sci Core Curr: Human Diversity

Arts Sci Gen Ed: Distribution-Social Sciences

Arts Sci Gen Ed: Diversity-Global Perspective

**ANTH 1145 (3) Exploring a Non-Western Culture: The Aztecs**

Explores the culture of the Aztec people of Central Mexico: their subsistence, society, religion, and achievements, as well as the impact of the Aztec empire in Mesoamerica. Also reviews the clash of a non-western society with the western world with the arrival of the Spanish conquistadors.

**Additional Information:** Arts Sci Core Curr: Human Diversity

Arts Sci Gen Ed: Distribution-Social Sciences

Arts Sci Gen Ed: Diversity-Global Perspective

**ANTH 1150 (3) Exploring a Non-Western Culture: Regional Cultures of Africa**

Explores a small number of cultures in a specific sub-region of Africa from an integrated holistic viewpoint, emphasizing material adaptations, social patterns, ideas and values, and aesthetic achievements.

**Additional Information:** Arts Sci Core Curr: Human Diversity

Arts Sci Gen Ed: Distribution-Social Sciences

Arts Sci Gen Ed: Diversity-Global Perspective

**ANTH 1155 (3) Exploring Global Cultural Diversity**

Examines the geography, kinship, politics and religious values of various cultures globally in historical and contemporary context through an anthropological perspective. Check with department for semester offerings.

**Repeatable:** Repeatable for up to 9.00 total credit hours.

**Additional Information:** Arts Sci Gen Ed: Diversity-Global Perspective

Arts Sci Gen Ed: Distribution-Social Sciences

**ANTH 1170 (3) Exploring Culture and Gender through Film**

Explores the concepts of culture and gender from an anthropological perspective, using films and other media, as well as written texts. By analyzing media about other ways of life, students will learn the basic concepts of cultural anthropology and be able to apply them to any society. In addition, students will learn to think critically about documentary and ethnographic media.

**Additional Information:** Arts Sci Core Curr: Human Diversity

Arts Sci Gen Ed: Distribution-Social Sciences

Arts Sci Gen Ed: Diversity-Global Perspective

**ANTH 1180 (3) Maritime People: Fishers and Seafarers**

Explores important milestones in the development of human societies and cultures that live from the sea. Emphasizes the evolution of maritime adaptations associated with fishing and seafaring from more than 10,000 years ago through the present.

**Additional Information:** Arts Sci Core Curr: Historical Context

Arts Sci Gen Ed: Distribution-Social Sciences

**ANTH 1190 (3) Origins of Ancient Civilizations**

Examines origins of the world's first civilizations in Mesopotamia, Egypt, the Indus Valley, Mesoamerica, and the Andes. Covers archaeology of ancient cities, trade, economy, politics, warfare, religion, and ideology. Seeks insights into general processes of cultural evolution.

**Additional Information:** Arts Sci Core Curr: Historical Context

Arts Sci Gen Ed: Distribution-Social Sciences

**ANTH 1200 (3) Culture and Power**

Compares contemporary sociopolitical systems across cultures, from non-Western tribal groups to modern states. Introduces students to anthropological approaches for understanding and analyzing political forces, processes, and institutions that affect cultures such as colonialism, warfare, violence, ethnicity, migration, and globalization.

**Additional Information:** Arts Sci Core Curr: Contemporary Societies

Arts Sci Gen Ed: Distribution-Social Sciences

**ANTH 2010 (3) Introduction to Biological Anthropology 1**

Detailed consideration of human biology, the place of humans in the animal kingdom, primate ecology and fossil evidence for human evolution. Required for ANTH majors.

**Additional Information:** GT Pathways: GT-SC2 -Natural Physicl Sci:Lec Crse w/o Req Lab

Arts Sci Core Curr: Natural Science Sequence

Arts Sci Core Curr: Natural Science Non-Sequence

Arts Sci Gen Ed: Distribution-Natural Sciences

MAPS Course: Natural Science

**ANTH 2020 (3) Introduction to Biological Anthropology 2**

Continuation of ANTH 2010. Emphasizes genetics, human variation, and microevolution. .

**Recommended:** Prerequisite ANTH 2010.

**Additional Information:** GT Pathways: GT-SC2 -Natural Physicl Sci:Lec Crse w/o Req Lab

Arts Sci Core Curr: Natural Science Sequence

Arts Sci Core Curr: Natural Science Non-Sequence

Arts Sci Gen Ed: Distribution-Natural Sciences

**ANTH 2030 (1) Laboratory in Biological Anthropology 1**

Lab in human osteology and musculoskeletal system emphasizing comparative primate morphology, adaptation, and the fossil record documenting the natural history of primates. Meets the MAPS requirement for natural science: lab, when taken with ANTH 2010.

**Recommended:** Corequisite ANTH 2010.

**Additional Information:** GT Pathways: GT-SC1 - Natural Physcal Sci:Lec Crse w/ Req Lab

Arts Sci Core Curr: Natural Science Lab

Arts Sci Gen Ed: Distribution-Natural Sciences

Arts Sci Gen Ed: Distribution-Natural Sci Lab

MAPS Course: Natural Science Lab or Lab/Lec

**ANTH 2040 (1) Laboratory in Biological Anthropology 2**

Experiments and hands-on exercises designed to enhance understanding of the principles and concepts presented in ANTH 2020. One two-hour class per week.

**Recommended:** Corequisite ANTH 2020.

**Additional Information:** GT Pathways: GT-SC1 - Natural Physcal Sci:Lec Crse w/ Req Lab

Arts Sci Core Curr: Natural Science Lab

Arts Sci Gen Ed: Distribution-Natural Sciences

Arts Sci Gen Ed: Distribution-Natural Sci Lab

**ANTH 2070 (3) Bones, Bodies, and Disease**

Studies the human skeleton and introduces techniques used to evaluate demographic variables. Applies techniques through evaluation of photographic images of an excellently preserved mummified skeletal population from ancient Nubia to reconstruct prehistoric patterns of adaptation and biocultural evolution. Offered through Continuing Education only.

**Recommended:** Prerequisite ANTH 2010.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**ANTH 2100 (3) Introduction to Cultural Anthropology**

Covers current theories in cultural anthropology and discusses the nature of field work. Explores major schools of thought and ethnographic fieldwork in a range of cultures studied by anthropologists. Required for Anthropology majors.

**Additional Information:** Arts Sci Core Curr: Human Diversity

Arts Sci Gen Ed: Distribution-Social Sciences

Arts Sci Gen Ed: Diversity-Global Perspective

**ANTH 2200 (3) The Archaeology of Human History**

Where do we come from? This course provides a brief introduction to the practice of archaeology and then emphasizes the evidence for major events/transitions in human history over the last 2.5 million years. Required for ANTH majors.

**Additional Information:** Arts Sci Core Curr: Historical Context

Arts Sci Gen Ed: Distribution-Social Sciences

**ANTH 2210 (1) Laboratory Course in Archaeological Methods**

Studies analytical methods in archaeological research including those employed both in the field and in the laboratory. Deals with practical exercises illustrating many of the theoretical principles covered in ANTH 2200.

**Recommended:** Corequisite ANTH 2200.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**ANTH 2525 (3) Environmental Anthropology**

Examines the impacts of human impacts on the planet from a cross-cultural perspective. This course will explore how different cultures have impacted their environments, and the diverse responses that cultures make to ecosystem changes. Also studies what different human groups have done, and are doing, to mitigate and adapt to ecological degradation, biodiversity loss, and climate change.

**ANTH 3000 (3) Primate Behavior**

Surveys naturalistic primate behavior. Emphasizes social behavior, behavioral ecology, and evolution as they lead to an understanding of human behavior.

**Requisites:** Requires a prerequisite course of ANTH 2010 or EBIO 1220 (minimum grade D-). Restricted to students with 57-180 credits (Junior or Senior).

**Additional Information:** Arts Sci Core Curr: Natural Science Non-Sequence

Arts Sci Gen Ed: Distribution-Natural Sciences

**ANTH 3005 (3) Dogs, Wolves and Human Evolution**

Domestication of dogs from wolves started many tens of thousands of years ago. Explores the domestication process, wild wolf behavior, dog behavior, genetics of dog breeding, the cultural significance of dogs, the complexity of human-wolf interactions in North America and Europe and dog cognition in a larger comparative framework, including chimpanzees and other primates.

**Requisites:** Requires a prerequisite course of ANTH 2010 or EBIO 1210 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**ANTH 3009 (3) Modern Issues, Ancient Times**

Considers issues of vital importance to humans, both now and in ancient times. Topics such as food, death, sex, family, literacy, or power are explored to consider how ancient societal norms and attitudes evolved and how they relate to modern culture. Draws on material and literary evidence to develop an understanding of the complexities of ancient life. Formerly ANTH 2009.

**Equivalent - Duplicate Degree Credit Not Granted:** CLAS 3009

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Arts Sci Core Curr: Historical Context

Arts Sci Gen Ed: Distribution-Social Sciences

**ANTH 3010 (3) The Human Animal**

Identifies genetic, anatomical, physiological, social, and behavioral characteristics humans share with other mammals and primates. Explores how these characteristics are influenced by modern culture.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisite ANTH 2010.

**Additional Information:** Arts Sci Core Curr: Natural Science Non-Sequence

Arts Sci Gen Ed: Distribution-Natural Sciences

**ANTH 3100 (3) Africa: Peoples and Societies in Change**

Examines culture and politics in Africa through works by anthropologists and historians, as well as novels, films, and journalistic accounts. Special attention is devoted to the ways in which various African cultures have creatively and resiliently responded to the slave trade, European colonialism, and post-colonialism.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**ANTH 3110 (3) Ethnography of Mexico and Central America**

A broad overview, focusing on Mexico and Guatemala. Major topics include ethnohistory, indigenous and mestizo peoples, and contemporary problems and issues.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**ANTH 3119 (3) The Archaeology of Death**

Consider Death. It is a universal human phenomenon. Humans across time and space have caused, planned for, reacted to, and carried out death practices in extraordinarily different ways. Mortuary practice provides a fascinating insight into human history and culture in both the modern and ancient world.

**Equivalent - Duplicate Degree Credit Not Granted:** CLAS 3119

**Additional Information:** Arts Sci Core Curr: Historical Context

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Distribution-Social Sciences

**ANTH 3160 (3) Peoples of the South Pacific**

Surveys traditional island cultures and contemporary changes in the Pacific, focusing on how the Pacific Islands were first settled, some of the great anthropologists who studied the islanders, and how current environmental changes, such as global warming, threaten the future existence of the islands.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**ANTH 3170 (3) America: An Anthropological Perspective**

Historical and contemporary aspects of American life are considered from an anthropological perspective.

**Additional Information:** Arts Sci Core Curr: United States Context  
Arts Sci Gen Ed: Distribution-Social Sciences

**ANTH 3180 (3) Gender, Culture, and Sexuality**

Focuses on gender, that is, the making of men and women, and how gender is culturally constructed in different societies. Gender describes many areas of behavior, feelings, thoughts, and fantasies that cannot be understood as primarily biologically produced. Sexuality and sexual systems are sometimes viewed as products of particular gendering practices, but recent theories suggest that sexual systems themselves constitute gender.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisite ANTH 2100.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**ANTH 3300 (3) Elements of Religion**

Explores universal components of religion, as inferred from religions of the world, ranging from smaller-scale oral to larger-scale literate traditions.

**Equivalent - Duplicate Degree Credit Not Granted:** ETHN 3301

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**ANTH 3760 (3) Exploring Culture and Media in Southeast Asia**

Introduces students to the ethnographic method and critical media practices through immersion in the cultural politics of Indonesia. Students will learn to conduct ethnographic research and to use media-making as a research method. Students will learn the ethnography of Southeast Asia by focusing on the cultural diversity of Indonesia, with special attention to religious and political issues among marginalized groups.

**Repeatable:** Repeatable for up to 9.00 total credit hours.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Core Curr: Human Diversity  
Arts Sci Gen Ed: Distribution-Social Sciences  
Arts Sci Gen Ed: Diversity-Global Perspective

**ANTH 4000 (3) Quantitative Methods in Anthropology**

Surveys ways of deriving meaning from anthropological data by numerical means, including but not confined to basic statistical procedures.

**Equivalent - Duplicate Degree Credit Not Granted:** ANTH 5000

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisites ANTH 2010 and ANTH 2020.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**ANTH 4020 (3-6) Explorations in Anthropology**

Special topics in cultural and physical anthropology, as well as archaeology. Check with the department for semester offerings.

**Equivalent - Duplicate Degree Credit Not Granted:** ANTH 5020

**Repeatable:** Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**ANTH 4045 (3) Introduction to Museum Anthropology**

Traces the development of Anthropology and museums in America from late 19th century to present day. Students are encouraged to: explore museum theory and practice; think critically about the history of relations among Native Americans, Anthropology, and museums; consider the legacy of collecting and challenges of representing others; and, examine the interplay of Anthropology, material culture, and colonialism.

**Equivalent - Duplicate Degree Credit Not Granted:** ANTH 5045 and MUSM 5045

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**ANTH 4050 (3) Anthropology of Jews and Judaism**

Explores topics in Jewish anthropology. Uses the lens of anthropological inquiry to explore, discover and analyze different concepts within Jewish culture. Topics explored will include customs, religious practices, languages, ethnic and regional subdivisions, occupations, social composition, and folklore. Explores fundamental questions about the definition of Jewish identity, practices and communities.

**Equivalent - Duplicate Degree Credit Not Granted:** JWST 4050

**Repeatable:** Repeatable for up to 9.00 total credit hours.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**ANTH 4060 (3) Nutrition and Anthropology**

Overview of the evolution of human diet and ecological and cultural factors shaping modern diets. Introduces fundamentals of nutrition and analysis of nutritional status. Analyzes ecological, social, and cultural factors leading to hunger and undernutrition, as well as biological and behavioral consequences of undernutrition.

**Equivalent - Duplicate Degree Credit Not Granted:** ANTH 5060

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisites ANTH 2010 and ANTH 2020 or EBIO 1210 and EBIO 1220 or EBIO 1030 and EBIO 1040.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**ANTH 4070 (3) Methods in Biological Anthropology**

Provides laboratory-based research experience in selected areas of biological anthropology. Research designs, methods and applications will be used to develop research skills. Students will read original research papers and carry out a research project of their own design. Area of emphasis within biological anthropology will depend on instructor.

**Equivalent - Duplicate Degree Credit Not Granted:** ANTH 5070

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Recommended:** Prerequisites ANTH 2010 and ANTH 2020 and ANTH 2030 and ANTH 2040 and ANTH 4000 and students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences  
Arts Sci Gen Ed: Distribution-Natural Sci Lab

**ANTH 4110 (3) Human Evolutionary Biology**

Detailed consideration of the fossil evidence for human evolution. Covers the discovery of important fossils and interpretations; descriptive information about the fossils; and data and theory from Pleistocene studies relating to ecology, ecological and behavioral data on modern apes and molecular studies that have bearing on the study of human evolution.

**Equivalent - Duplicate Degree Credit Not Granted:** ANTH 5110

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**ANTH 4120 (3) Advanced Biological Anthropology**

Selected topics in physical anthropology emphasizing faculty specialties. Topics may include population genetics and its application to understanding modern human diversity, human population biology, and primate ecology and evolution. Check with department for semester offerings.

**Equivalent - Duplicate Degree Credit Not Granted:** ANTH 5120

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisite ANTH 2010 or ANTH 2020 or EBIO 1210 or EBIO 1220.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**ANTH 4125 (3) Evolution and the Human Life Cycle: A Primate Life History Perspective**

Surveys primate biology, behavior and ecology using a life history approach. Using a comparative approach, explores life history as mammals, as primates and as humans by focusing on evolutionary decisions that occur during different life stages.

**Equivalent - Duplicate Degree Credit Not Granted:** ANTH 5125

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**ANTH 4129 (3) Aegean Art and Archaeology**

Detailed study of the cultures of prehistoric Greece, the Cycladic Islands and Crete, their art and archaeology and their history within the broader context of the eastern Mediterranean, from earliest human settlement to the collapse of the Bronze Age at about 1100 B.C.E. Emphasis is on palace states.

**Equivalent - Duplicate Degree Credit Not Granted:** ANTH 5129 and ARTH 4129 and CLAS 4129 and CLAS 5129

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**ANTH 4130 (3) Advanced Osteology**

Detailed study of the human skeleton with special attention to health and demographic conditions in prehistoric cultures and the evaluation of physical characteristics and genetic relationships of prehistoric populations.

**Equivalent - Duplicate Degree Credit Not Granted:** ANTH 5130

**Recommended:** Prerequisites ANTH 2010 and ANTH 2020 and ANTH 4000 and students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**ANTH 4160 (3) Early Hominin Paleoecology**

Explores current thinking about the diets, environments and lives of early human ancestors and their close kin. Strong emphasis on the methods used to construct such knowledge.

**Equivalent - Duplicate Degree Credit Not Granted:** ANTH 5160

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**ANTH 4170 (3) Primate Evolutionary Biology**

Focuses on the fossil record of primates (excluding the Hominini). Special emphasis is placed on delineating the origins of the order Primates, the origins of the primate suborders Strepsirhini and Haplorhini and the adaptations of extinct primates in light of our understanding of the modern primate adaptive radiations.

**Equivalent - Duplicate Degree Credit Not Granted:** ANTH 5170

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisite ANTH 2010 or EBIO 1210.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**ANTH 4180 (3) Anthropological Perspectives: Contemporary Issues**

Students read, discuss, and write critical evaluations of contemporary publications in anthropology. Identifies basic themes that inform major anthropological perspectives. Students then bring these perspectives to bear on issues currently facing the human species.

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**ANTH 4210 (3) Southwestern Archaeology**

Explores the prehistory of the American Southwest from the earliest entry of humans into the area to the Spanish entrada. Focuses on important themes in cultural development: the adoption of agricultural strategies, sedentism, population aggregation, population movement, and social complexity.

**Equivalent - Duplicate Degree Credit Not Granted:** ANTH 5210

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisite ANTH 2200.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**ANTH 4220 (3) From Olmec to Aztec: The Archaeology of Mexico**

Examines the archaeology of Mexico from the initial peopling of the Americas to the Spanish conquest of the Aztec empire. Studies origins of complex societies; ancient Mexican cities, states and empires; religion and politics; trade and interaction; ecology and economy; and social organization.

**Equivalent - Duplicate Degree Credit Not Granted:** ANTH 5220

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisite ANTH 2200.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**ANTH 4224 (3) Archaeology of the Maya and Their Neighbors**

Begins with the environment and describes the earliest inhabitants and the Olmec civilization, then shifts to the earliest Maya and the emergence and collapse of classic Maya civilization. Compares and contrasts the societies of lower Central America.

**Equivalent - Duplicate Degree Credit Not Granted:** ANTH 5224

**Recommended:** Prerequisite ANTH 2200.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**ANTH 4240 (3) Geoarchaeology**

Applies geological principles and instruments to help solve archaeological problems. Focuses on site formation processes, soils, stratigraphy, environments, dating, remote sensing and geophysical exploration. Environmental and ethical considerations are included.

**Equivalent - Duplicate Degree Credit Not Granted:** ANTH 5240

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisite ANTH 2200.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**ANTH 4245 (3) Ceramics in Archaeology**

Examines how archaeologists use ceramics to reconstruct the past. Topics include: the relationship between form and function; typology and classification; chronology and seriation; compositional analysis; production and exchange; social, cognitive and ideological aspects of style; and ethnoarchaeological studies of pottery use in contemporary societies. Includes two hours of lecture and two-hours of hands-on laboratory practicum per week.

**Equivalent - Duplicate Degree Credit Not Granted:** ANTH 5245

**Requisites:** Requires prerequisite of ANTH 2200 (minimum grade D-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**ANTH 4270 (3) Plains Archaeology**

Archaeological evidence for Native American ways of life on the North American Great Plains from the initial peopling of the region into the 19th century.

**Equivalent - Duplicate Degree Credit Not Granted:** ANTH 5270

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisite ANTH 2200.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**ANTH 4330 (3) Human Ecology: Archaeological Aspects**

Surveys archaeological approaches to ecology, economy and landscape: glaciation, geomorphology and other physical processes creating and affecting sites and regions; environmental reconstruction; theories of human-environment interaction; landscape formation by forager, agricultural and complex societies; and ideologically structured landscapes.

**Equivalent - Duplicate Degree Credit Not Granted:** ANTH 5330

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisite ANTH 2200.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**ANTH 4340 (3) Archaeological Method and Theory**

Surveys archaeological theories and methods within the context of the history of archaeology. Includes archaeological approaches to data recovery, analysis, and interpretation as well as an overview of cultural resources management and ethical issues in contemporary archaeology.

**Recommended:** Prerequisites ANTH 2200 and students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**ANTH 4350 (2-6) Archaeological Field and Laboratory Research**

Students participate in archaeological field research or conduct laboratory analysis of archaeological materials and data. Students work with faculty on archaeological research projects with a field or lab focus, depending on the project undertaken.

**Equivalent - Duplicate Degree Credit Not Granted:** ANTH 5350

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Recommended:** Prerequisites ANTH 2200 and students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**ANTH 4380 (3) Lithic Analysis and Replication**

Uses diversity of approaches to the analysis of ancient stone tools, including fracture mechanics, lithic technology, materials, heat treatment and functional analysis. Percussion and pressure-flaking experiments are performed.

**Equivalent - Duplicate Degree Credit Not Granted:** ANTH 5380

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisite ANTH 2200.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**ANTH 4390 (3) Research Methods in Archaeology I**

Method and theory of archaeology, emphasizing the interpretation of materials and data and the relationship of archaeology to other disciplines. Instructor consent required.

**Equivalent - Duplicate Degree Credit Not Granted:** ANTH 5390

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisite ANTH 2200.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**ANTH 4465 (3) The Archaeology of Inequality**

Examines the theoretical and archaeological literature to understand how inequality develops, how it is maintained over time, and how it is negated. Presents an understanding of, and critically evaluates, the most prominent paradigms for understanding socially unequal relationships, and considers the vital role archaeology plays in understanding inequality.

**Grading Basis:** Letter Grade

**ANTH 4470 (3) Collections Research Practicum in Cultural Anthropology**

Designed as a practicum, introduces students to research and practice in museum anthropology, utilizing the extensive anthropology collections at CU-Boulder Museum. Students will gain skills in primary and secondary research, collections and object research and narrative story development for the exhibition of anthropological material culture.

**Equivalent - Duplicate Degree Credit Not Granted:** ANTH 5470 and MUSM 4912 and MUSM 5912

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**ANTH 4500 (3) Cross-Cultural Aspects of Socioeconomic Development**

Examines goals of international agencies that support development in underdeveloped countries. Anthropological perspective is provided for such issues as urban planning, health care and delivery, population control, rural development and land reform.

**Equivalent - Duplicate Degree Credit Not Granted:** ANTH 5500

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**ANTH 4505 (3) Globalization and Transnational Culture**

Covers the historical foundations for contemporary global change, addressing colonialism, global outsourcing, and cultural imperialism, with a particular emphasis on gender, class, and consumerism.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisite ANTH 2100.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Asia Content

**ANTH 4525 (3) Global Islams**

Examines the historical formation of Islam in Indonesia and Southeast Asia so as to situate contemporary Islamic practices in a global context.

**Recommended:** Prerequisite ANTH 2100.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Arts Sci Gen Ed: Diversity-Global Perspective

**ANTH 4530 (3) Theoretical Foundations of Sociocultural Anthropology**

Critically examines the pivotal schools of 20th century social theory that have shaped modern sociocultural anthropology, including the ideas of cultural evolutionism, Marxism, Durkheim, Weber, Freud, structuralism, postmodernism and contemporary anthropological approaches. Includes primary readings and seminar-style discussion.

**Equivalent - Duplicate Degree Credit Not Granted:** ANTH 5530

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisite ANTH 2100.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**ANTH 4570 (3) Anthropology of Fishing**

Examines fishing methods, peoples, societies and cultures, emphasizing anthropology's role in shaping fisheries management and development policy.

**Equivalent - Duplicate Degree Credit Not Granted:** ANTH 5570

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**ANTH 4580 (3) The Holocaust: An Anthropological Perspective**

Focuses on the Holocaust during the Third Reich, which involved the murder of millions of people, including six million Jews. Reviews the Holocaust's history, dynamics and consequences as well as other genocides of the 20th century, using an anthropological approach.

**Equivalent - Duplicate Degree Credit Not Granted:** JWST 4580

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**ANTH 4605 (3) Anthropology of Neuroscience**

Examines the connections between the production and social uptake of neuroscientific knowledge, and explores how transformations in neuroscience shape understandings of human nature. Focusing on anthropological, philosophical, and popular literature, this course addresses the following themes through a cultural and anthropological lens: subjectivity and neuroimaging, "disability" and "neurodiversity," child development, gender, "risk" and neoliberal governance, and the production of scientific expertise.

**Grading Basis:** Letter Grade

**ANTH 4610 (3) Medical Anthropology**

Examines health, illness, disease and treatment across a diversity of cases, all of which involve political economic inequalities, individual and collective experiences of medical systems and the historical and contemporary treatment of distinct populations. A demanding upper-level cultural anthropology course in the field of Medical Anthropology, a subfield of cultural anthropology, designed for advanced undergraduate students and early graduate students with an emphasis on the intersections of science, medicine and populations.

**Equivalent - Duplicate Degree Credit Not Granted:** ANTH 5610

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisite ANTH 2100.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**ANTH 4620 (3) Nationalism and Cultural Citizenship**

Explores the nature of ethnic conflict, nationalism, and cultural citizenship in different contexts, including the United States. Is the nation-state dead? What effect do extranational and transnational organizations/institutions (e.g., European Union) have on the development of nationalism? Through the exploration of contemporary theory and case studies, this class will address these important contemporary concerns.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisite ANTH 2100.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**ANTH 4630 (3) Nomadic Peoples of East Africa**

Examines the issues of current concern in the study of East African pastoral peoples. First half of the course is devoted to historical perspectives and the second half explores the transition from subsistence to market oriented economies.

**Equivalent - Duplicate Degree Credit Not Granted:** ANTH 5630

**Recommended:** Prerequisite students with 57-180 credits (Junior or Senior) Anthropology (ANTH) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**ANTH 4690 (3-6) Anthropology of Tibet**

Explores the culture of Tibet in both historical and thematic manners, considering the long-term development of Tibetan cultural practices and institutions as well as many of the abrupt changes introduced to Tibet in the 20th century. Topics covered include region, politics, gender, warfare, poetry and literature, and life under Chinese rule and as refugees around the world.

**Requisites:** Restricted to students with 57-180 credits (Junior or Senior) Anthropology (ANTH) majors only.

**Recommended:** Prerequisite ANTH 2100.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Asia Content

**ANTH 4700 (3) Practicing Anthropology**

Learn ethnographic methods in the classroom and implement these skills in placements with community organizations, where students pursue an applied research project. This course teaches students how to use anthropological theory and methods to investigate social problems, and to consider how ethnographic research techniques can be applied to positively impact society.

**Equivalent - Duplicate Degree Credit Not Granted:** ANTH 5700

**Requisites:** Requires prerequisite course of ANTH 2100 (minimum grade B). Restricted to students with 87-180 credits (Junior or Senior) Anthropology (ANTH) majors only.

**Grading Basis:** Letter Grade

**ANTH 4710 (3) Departmental Honors in Anthropology 1**

Course work built around theme of research design as a means of integrating previous training in the field of anthropology as well as providing an opportunity to perform creative scientific investigations. Prepares students to write an honors thesis in ANTH 4720. Required of students doing Anthropology departmental honors.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sciences Honors Course

**ANTH 4720 (3) Departmental Honors in Anthropology 2**

Continuation of ANTH 4710.

**Recommended:** Prerequisite ANTH 4710.

**Additional Information:** Arts Sciences Honors Course

**ANTH 4730 (3) Latin American Politics and Culture through Film and Text**

Introduces students to the political cultures and societies of Latin America. Through historical and ethnographic text and documentary and non-documentary cinema, this course will explore class relations, ideology and resistance from the conquest to the present.

**Equivalent - Duplicate Degree Credit Not Granted:** ANTH 5730

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisite ANTH 2100.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**ANTH 4735 (3) Contemporary Cuban Culture: Race, Gender and Power**

Ground students' understanding of contemporary Cuba within the global context. How do those outside the island imagine Cuba and why? What are the realities? In a world of U.S. dominated globalization, only recently have we relaxed a forceful economical blockade on the island: what does the U.S. mean in the Cuban imaginary, both in the past and present? To attend to global processes as they affect local (Cuban) experience, texts from anthropology, history, policy, literature, film and music will be drawn upon. Students will learn how long-standing patterns regarding race, color, class and gender relations have evolved into the socialist and now the "post-socialist" context.

**Equivalent - Duplicate Degree Credit Not Granted:** ANTH 5735

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**ANTH 4740 (3) Peoples and Cultures of Brazil**

Thematically surveys theoretical and ethnographic issues that have been important in understanding Brazil. Read and write critically about textual and visual representations of Brazil presented in the course.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisites ANTH 2100 and three or more cultural anthropology courses.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**ANTH 4745 (3) Science, Technology and Society**

Explores the cultural work of science and technology in contemporary societies. The course will focus on anthropological studies of technoscientific works ranging from high-energy particle physics and marine biology to hackathons and space exploration. Discussion topics include the relationship between science, technology and political power; scientific controversies; paradigm shifts and scientific revolutions; and ideas of objectivity, representation and abstraction.

**Equivalent - Duplicate Degree Credit Not Granted:** ANTH 5745

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**ANTH 4750 (3) Culture and Society in South Asia**

Intensive analysis of major issues in anthropological research on South Asia (India, Pakistan, Bangladesh, Nepal and Sri Lanka), including kinship, gender, marriage, caste system, religion and ritual, ethnic conflict and social change.

**Equivalent - Duplicate Degree Credit Not Granted:** ANTH 5750

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisite ANTH 2100.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Asia Content

**ANTH 4755 (3) Cultures of Expertise: Science, Power and Knowledge**

Examines the expertise as a cultural category. Students will consider the historical and cultural contexts of various forms of expertise and the social roles of experts from car mechanics to civil engineers, doctors and scientists. Students will be given opportunities to reflect analytically on their own experiences with increasingly specialized education as they develop "professional vision" in their chosen fields.

**Equivalent - Duplicate Degree Credit Not Granted:** ANTH 5755

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**ANTH 4760 (3) Ethnography of Southeast Asia and Indonesia**

Introduces the historical, political, and cultural dimensions of Southeast Asia, focusing primarily on Malaysia, the Philippines, Singapore and Indonesia, with some coverage of mainland Southeast Asia.

**Equivalent - Duplicate Degree Credit Not Granted:** ANTH 5760

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisite ANTH 2100.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Asia Content

**ANTH 4770 (3) Anthropology of Tourism**

Introduces students to anthropological theories on tourism and considers those theories in the contexts of the varied sites and forms of tourism practiced around the world today. We will ask: why do people tour? Where do they go? And most centrally: how do the hosts to tourism feel about these outside visitors? Having been exposed to questions of globalization, development, belonging, race, gender, and desire, students will then be asked to reflect upon and theorize their own touristic experiences.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisite ANTH 2100.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**ANTH 4800 (3) Language and Culture**

Principles of language structure and how language and culture interrelate, how language and language use are affected by culture and how culture may be affected by use of, or contact with, particular languages.

**Equivalent - Duplicate Degree Credit Not Granted:** LING 4800

**Recommended:** Prerequisites ANTH 2100 or LING 1000 or LING 2400 and students with 57-180 credits (Junior or Senior) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**ANTH 4840 (1-8) Independent Study**

For upper-division undergraduate students.

**Repeatable:** Repeatable for up to 8.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**ANTH 4910 (1-3) Teaching Anthropology**

Practicum by special arrangement only. Students learn to teach anthropology by serving as recitation leaders or tutors in introductory courses or as small group leaders in advanced courses.

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**ANTH 4930 (1-6) Anthropology Internship**

Provides academically supervised opportunities for junior and senior anthropology majors to work in public and private sectors on projects related to students' career goals. Relates classroom theory to practice. Requires at least 48 hours on the job per credit hour and evidence (paper, employer evaluation, work journal) of significant learning.

**Equivalent - Duplicate Degree Credit Not Granted:** ANTH 5930

**Repeatable:** Repeatable for up to 9.00 total credit hours.

**Recommended:** Prerequisites ANTH 2010 and ANTH 2100 and ANTH 2200 and students with 57-180 credits (Junior or Senior) Anthropology majors, with a minimum 3.25 GPA.

## Anthropology - Bachelor of Arts (BA)

Anthropology is the study of people, both ancient and modern, in their cultural context. The field involves a global look at human cultures from prehistoric times to the present, integrating findings from the social sciences, natural sciences and humanities. Students of anthropology learn to appreciate the variety of cultures throughout human history and to understand the meaning of human biological and cultural development as well as diversity.

The undergraduate degree in anthropology emphasizes knowledge and awareness of:

- basic methods, concepts, alternative theories and approaches and modes of explanation appropriate to each of the three main subfields of the discipline (archaeology, biological anthropology and cultural anthropology);
- basic archaeological techniques, including stratigraphy, dating and inference of human behavior from archaeological data, as well as human history from its beginning through the emergence of complex societies;
- variation, patterning and creativity in human communities and symbolic systems, including ecological, social structural and cultural factors exemplified in a diverse array of the world's societies, including those undergoing change as a result of globalization and the impact of contemporary social and political movements; and
- theories of primate and human evolution and the basic data of the hominid fossil record, as well as biological variation in contemporary human populations.

In addition, students completing the degree in anthropology are expected to acquire the ability and skills to:

- identify trends or patterns in anthropological data from different cultures or periods, identify an appropriate context of explanation or interpretation and formulate a testable explanation or reasonable interpretation, including the ability to identify data that constitute credible evidence for an explanation or interpretation; and
- identify and define a significant problem or topic in anthropology and analyze and interpret data in a systematic manner.

## Requirements

### Program Requirements

Students must complete the general requirements of the College of Arts and Sciences and the required courses listed below. A minimum of 30 credit hours in anthropology is required for the degree, 18 of which must be upper-division.

Through the required coursework for the major, students will complete all 12 credits in the Social Sciences area and a minimum of 6 credits in

the Natural Sciences area of the Gen Ed Distribution Requirement, and the Global Perspective component of the Gen Ed Diversity Requirement. Depending on elective courses selected within the major, students can complete the rest of the Natural Sciences area in the Gen Ed Distribution Requirement and the US Perspective component of the Gen Ed Diversity Requirement.

Additional notes for the ANTH major:

- Archaeology and Cultural Anthropology classes are within the Gen Ed Social Sciences division.
- Biological Anthropology classes are within the Gen Ed Natural Sciences division.

### Required Courses and Credit Hours

Code	Title	Credit Hours
<b>Required Courses</b>		
ANTH 2010	Introduction to Biological Anthropology 1	3
ANTH 2100	Introduction to Cultural Anthropology	3
ANTH 2200	The Archaeology of Human History	3
	One upper-division course in cultural anthropology	3
	One upper-division course in archaeology	3
	One upper-division course in physical anthropology	3
<b>Electives in Anthropology</b>		
	Lower or Upper-division ANTH Elective	3
	Upper-division ANTH Electives (students planning to pursue graduate work in anthropology are advised to take ANTH 4000 and ANTH 4530)	9
Total Credit Hours		30

In addition, students planning to pursue writing a senior honor's thesis or graduate work in anthropology are advised to take ANTH 4000 and an upper-division anthropology theory course.

### Graduating in Four Years

Consult the Four-Year Guarantee Requirements for more information on eligibility. The concept of "adequate progress" as it is used here only refers to maintaining eligibility for the four-year guarantee; it is not a requirement for the major. To maintain adequate progress in anthropology, students should meet the following requirement:

- By the beginning of the second semester, declare the anthropology major.

## Recommended Four-Year Plan of Study

Course	Title	Credit Hours
<b>Year One</b>		
<b>Fall Semester</b>		
ANTH 2010	Introduction to Biological Anthropology 1 ( fulfills Gen Ed Natural Science)	3
ANTH 2030	Laboratory in Biological Anthropology 1 (not required of the major, but fulfills Gen Ed Natural Science Requirement)	1
ANTH 2100	Introduction to Cultural Anthropology (fulfills Gen Ed Global Diversity)	3
	Gen. Ed. Skills course (example: Lower-division Written Communication)	3

Gen. Ed. Distribution/Diversity course (example: Arts & Humanities/US Perspective)	3
Elective/MAPS (if needed)	3
<b>Credit Hours</b>	<b>16</b>

**Spring Semester**

ANTH 2020 Introduction to Biological Anthropology 2 (fulfills Gen Ed Natural Science - recommended not required)	3
ANTH 2200 The Archaeology of Human History (May be taken sophomore year)	3

Gen. Ed. Skills course (example: QRMS)	3
Gen. Ed. Natural Science	3
Elective/MAPS (if needed)	3
<b>Credit Hours</b>	<b>15</b>

**Year Two****Fall Semester**

Gen. Ed. Distribution course (example: Arts & Humanities)	3
Gen. Ed. Distribution course (example: Arts & Humanities)	3
Elective	3
Elective	3
Elective	3
<b>Credit Hours</b>	<b>15</b>

**Spring Semester**

ANTH upper-division elective (57 credits completed or in-progress required)	3
Free elective	3
Free elective	3
Free elective	3
Free elective	3
<b>Credit Hours</b>	<b>15</b>

**Year Three****Fall Semester**

ANTH upper-division course (Cultural area)	3
ANTH upper-division course (Biological area)	3
Gen. Ed. Skills course (example: Upper-division Written Communication)	3
Upper-division elective	3
Upper-division elective	3
<b>Credit Hours</b>	<b>15</b>

**Spring Semester**

ANTH upper-division course (Archaeology area)	3
ANTH upper-division elective	3
Upper-division Arts & Humanities	3
Upper-division elective	3
Elective	3
<b>Credit Hours</b>	<b>15</b>

**Year Four****Fall Semester**

ANTH upper-division elective	3
Upper-division elective	3
Upper-division elective	3
Free elective	3

Free elective	3
<b>Credit Hours</b>	<b>15</b>

**Spring Semester**

Upper-division elective	3
Upper-division elective	3
Free elective	3
Free elective	3
Free elective	3

<b>Credit Hours</b>	<b>15</b>
<b>Total Credit Hours</b>	<b>121</b>

## Anthropology - Minor

Anthropology is the study of people, both ancient and modern, in their cultural, biological and environmental contexts. Anthropology is the only field to address all aspects of the human experience—cultural, biological, historical—so the discipline necessarily incorporates a wide range of theoretical and methodological traditions, drawing on and contributing to approaches in the humanities, social sciences and natural sciences. It is the breadth of our vision of what it means to be human, as well as the breadth of our theoretical and methodological approaches, that constitutes our unique mission and role within the university. Thus, a minor in anthropology would provide a rich intellectual complement to a wide range of majors within the College of Arts and Sciences.

## Requirements

A minimum of 18 credit hours of anthropology courses, including a minimum of 9 upper-division credit hours, are required for the minor. All coursework applied to the minor must be completed with a grade of C- or better; no pass/fail work may be applied. The grade point average for all anthropology coursework must equal 2.00 (C) or higher.

Students will be allowed to apply no more than 9 credit hours, including 6 upper-division credit hours, of transfer work towards a minor in anthropology.

Coursework applied towards a minor in anthropology may also be applied towards Gen. Ed. requirements.

## Required Courses and Credits

Code	Title	Credit Hours
<b>Required Courses</b>		
ANTH 2010	Introduction to Biological Anthropology 1	3
ANTH 2100	Introduction to Cultural Anthropology	3
ANTH 2200	The Archaeology of Human History	3
<b>Electives</b>		
Nine hours of upper-division electives in anthropology		9
<b>Total Credit Hours</b>		<b>18</b>

The three introductory courses will provide all minors with an appreciation of the range of scholarship encompassed by contemporary anthropology.

Students are recommended to select upper-division coursework to best complete their majors. For example, the following subjects work well with the majors listed:

- **Cultural anthropology:** Asian studies, communications, economics, ethnic studies, film studies, international affairs, Jewish studies, linguistics, media studies, political science, religious studies, sociology or women and gender studies majors.
- **Archaeology:** Art history, classics or environmental design majors.
- **Biological anthropology:** Ecology and evolutionary biology, integrated physiology or molecular, cellular and developmental biology majors.
- **Archaeology or biological anthropology:** History or humanities majors.
- **Any of the anthropology sub-disciplines:** Environmental studies or geography majors.

## Applied Mathematics

The Department of Applied Mathematics in the College of Arts and Sciences offers courses that focus on providing students with the mathematical tools and problem-solving strategies that are useful in science and engineering. The department offers a range of courses and research opportunities in many areas, including computational mathematics, mathematical biology, nonlinear phenomena, physical applied mathematics and probability and statistics. Each of these areas is described below.

The undergraduate Bachelor of Science degree (p. 655) in Applied Mathematics is offered through the College of Engineering and Applied Science. The undergraduate Bachelor of Arts degree in Statistics and Data Science is offered through the College of Arts and Sciences.

Course codes for this program include APPM and STAT.

## Computational Mathematics

The study of computational mathematics has grown rapidly over the past 15 years and has allowed mathematicians to answer questions and develop insights not possible only 20-30 years ago. Modern computational methods require an in-depth knowledge of a variety of mathematical subjects which include linear algebra, analysis, ordinary and partial differential equations, asymptotic analysis, elements of harmonic analysis, and nonlinear equations.

Since computers are invaluable tools for an applied mathematician, students are expected to attain a highly professional level of computer literacy and gain a substantial knowledge of operating systems and hardware.

Computational mathematics courses include the study of computational linear algebra, optimization, numerical solution of ordinary and partial differential equations, solution of nonlinear equations as well as advanced seminars in wavelet and multi-resolution analysis.

## Mathematical Biosciences

Recent advances in our ability to quantitatively study biological phenomena have provided a tremendous number of exciting opportunities for applied mathematicians. The careful modeling, analysis, and simulation of these systems using the standard tools of applied mathematics has led to novel and non-intuitive insights into biology.

Furthermore, deeper understanding of the inherently complex and multiscale nature of biological systems, in many cases, requires the development of new mathematical tools, techniques, and methodologies (a challenge to which applied mathematics is particularly well suited).

Research areas in APPM encompass immunology, infectious diseases, cardiology, neuroscience, and population genetics.

See the Mathematical Biology Group page (<http://mathbio.colorado.edu>)

## Mathematical Geosciences

Mathematical geosciences encompass quantitative modeling, analysis, and simulation of all aspects of the Earth system. Our faculty's research intersects a broad range of geosciences: from the geodynamo to ocean circulation, from computational methods for seismic imaging to the impacts of weather on epidemiology, from tsunamis to stochastic weather generators. The complex and multiscale nature of geophysical systems, in many cases, requires the development of new mathematical models and simulation strategies, a challenge to which applied mathematics is particularly well suited.

Appropriate coursework includes analysis and computation, probability and statistics, as well as background courses in one of the sciences or engineering fields in which one intends to do research.

## Nonlinear Waves and Dynamical Systems

In recent years there has been an explosion of interest in the study of nonlinear waves and dynamical systems with analytical results often motivated by the use of computers. The faculty in the Program is actively and intensively involved in this growing field; research areas include integrable and near-integrable systems, conservative and dissipative chaos, as well as numerical computation.

Topics of interest include solitons, dispersive shock waves, integrable systems, cellular automata, pattern formation, qualitative structure and bifurcation theory, onset of chaos and turbulence, analytic dynamics, and transport phenomena. Program courses in this field include dynamical systems, nonlinear wave motion and many advanced seminars.

Suitable background courses are: analysis, computation, partial differential equations, and methods in applied mathematics. Valuable supplemental courses include mechanics and fluid dynamics.

## Physical Applied Mathematics

Physical Applied Mathematics is a term which generally refers to the study of mathematical problems with direct physical application. This area of research is intrinsically interdisciplinary. In addition to mathematical analysis, it requires a deep understanding of the underlying applications area, and usually requires knowledge and experience in numerical computation.

The Program's affiliated faculty have a wide variety of expertise in various areas of application, e.g. atmospheric and fluid dynamics, theoretical physics, plasma physics, genetic structure, etc. The course requirements of the Program are designed to provide students with a foundation for their study (analysis and computation).

The Program also requires supplemental courses in one of the science or engineering fields which are needed to begin doing thesis research in physical applied mathematics.

See the Dispersive Hydrodynamics Lab (<https://www.colorado.edu/amath/dispersive-hydrodynamics-lab>) page, APPM's own fluid dynamics laboratory.

## Statistics and Applied Probability

Almost all natural phenomena in the technological, biological, physical and social sciences have random components. Applied probability is the application of probabilistic methods to understand the random elements in real-life problems. Statistics is the science of using data, which typically arises from the randomness inherent in nature, to gain new knowledge.

Research areas of the applied math and affiliated faculty exhibit this interplay between mathematics and real-life problems. Areas of current interest include optimization of stochastic networks; the study of stochastic processes and stochastic differential equations in hydrology and telecommunications; probabilistic models, and statistical tests based on these models, in genetics and RNA sequencing; extreme value theory in estimation of maximal wind speeds.

Appropriate coursework includes analysis, probability and statistics, as well as background courses in one of the sciences or engineering fields in which one intends to do research.

For details on the range of courses and research opportunities available through the Department of Applied Mathematics, visit [www.colorado.edu/amath](http://www.colorado.edu/amath).

## Bachelor's Degree

- Statistics and Data Science - Bachelor of Arts (BA) (p. 94)

## Minors

- Applied Mathematics - Minor (p. 96)
- Statistics - Minor (p. 96)

## Faculty

While many faculty teach both undergraduate and graduate students, some instruct students at the undergraduate level only. For more information, contact the faculty member's home department.

## Courses

### APPM 1235 (4) Pre-Calculus for Engineers

Prepares students for the challenging content and pace of the calculus sequence required for all engineering majors. Covers algebra, trigonometry and selected topics in analytical geometry. Prepares students for the calculus courses offered for engineering students. Requires students to engage in rigorous work sessions as they review topics that they must be comfortable with to pursue engineering course work. Structured to accustom students to the pace and culture of learning encountered in engineering math courses. For more information about the math placement referred to in the "Enrollment Requirements", please contact your academic advisor. Formerly GEEN 1235.

**Equivalent - Duplicate Degree Credit Not Granted:** MATH 1021 or MATH 1150

**Requisites:** Requires an ALEKS math exam taken in 2016 or earlier, or placement into pre-calculus based on your admissions data and/or CU Boulder coursework.

### APPM 1340 (4) Calculus 1 with Algebra, Part A

Studies selected topics in analytical geometry and calculus: rates of change of functions, limits, derivatives and their applications. This course and APPM 1345 together are equivalent to APPM 1350. The sequence of this course and APPM 1345 is specifically designed for students whose manipulative skills in the techniques of high school algebra and precalculus may be inadequate for APPM 1350. For more information about the math placement referred to in the "Enrollment Requirements", please contact your academic advisor.

**Requisites:** Requires prerequisite course of APPM 1235 or MATH 1021 or MATH 1150 or MATH 1160 (minimum grade C-) or an ALEKS math exam taken in 2016 or earlier, or placement into pre-calculus based on your admissions data and/or CU Boulder coursework.

**Additional Information:** Arts Sci Gen Ed: Quantitative Reasoning Math

### APPM 1345 (4) Calculus 1 with Algebra, Part B

Continuation of APPM 1340. Studies selected topics in calculus: derivatives and their applications, integration, differentiation and integration of transcendental functions. Algebraic and trigonometric topics are studied throughout, as needed.

**Equivalent - Duplicate Degree Credit Not Granted:** APPM 1350 or ECON 1088 or MATH 1081 or MATH 1300 or MATH 1310 or MATH 1330  
**Requisites:** Requires prerequisite course of APPM 1340 (minimum grade C-).

### APPM 1350 (4) Calculus 1 for Engineers

Topics in analytical geometry and calculus including limits, rates of change of functions, derivatives and integrals of algebraic and transcendental functions, applications of differentiations and integration. Students who have already earned college credit for calculus 1 are eligible to enroll in this course if they want to solidify their knowledge base in calculus 1. For more information about the math placement referred to in the "Enrollment Requirements", contact your academic advisor.

**Equivalent - Duplicate Degree Credit Not Granted:** APPM 1345 or ECON 1088 or MATH 1081 or MATH 1300 or MATH 1310 or MATH 1330  
**Requisites:** Requires prerequisite course of APPM 1235 or MATH 1021 or MATH 1150 or MATH 1160 or MATH 1300 (minimum grade C-) or an ALEKS math exam taken in 2016 or earlier, or placement into calculus based on your admissions data and/or CU Boulder coursework.

**Additional Information:** GT Pathways: GT-MA1 - Mathematics  
Arts Sci Core Curr: Quant Reasn Mathmat Skills  
Arts Sci Gen Ed: Quantitative Reasoning Math

**APPM 1360 (4) Calculus 2 for Engineers**

Continuation of APPM 1350. Focuses on applications of the definite integral, methods of integration, improper integrals, Taylor's theorem, and infinite series.

**Equivalent - Duplicate Degree Credit Not Granted:** MATH 2300

**Requisites:** Requires prerequisite course of APPM 1345 or APPM 1350 or MATH 1300 (minimum grade C-).

**APPM 1390 (1) A Game for Calculus**

Coaches students to implement study strategies geared specifically toward APPM Calculus in a structured, supportive, small group environment. Department consent required.

**Repeatable:** Repeatable for up to 3.00 total credit hours.

**APPM 2350 (4) Calculus 3 for Engineers**

Covers multivariable calculus, vector analysis, and theorems of Gauss, Green, and Stokes.

**Equivalent - Duplicate Degree Credit Not Granted:** MATH 2400

**Requisites:** Requires prerequisite course of APPM 1360 or MATH 2300 (minimum grade C-).

**APPM 2360 (4) Introduction to Differential Equations with Linear Algebra**

Introduces ordinary differential equations, systems of linear equations, matrices, determinants, vector spaces, linear transformations, and systems of linear differential equations.

**Equivalent - Duplicate Degree Credit Not Granted:** both MATH 2130 and MATH 3430

**Requisites:** Requires prerequisite course of APPM 1360 or MATH 2300 (minimum grade C-).

**APPM 2450 (1) Calculus 3 Computer Lab**

Selected topics in analytic geometry and calculus with a focus on symbolic computation using Mathematica.

**Requisites:** Requires a corequisite course of APPM 2350.

**Grading Basis:** Pass/Fail

**APPM 2460 (1) Differential Equations Computer Lab**

Selected topics in differential equations and linear algebra with a focus on symbolic computation using MATLAB.

**Requisites:** Requires enrollment in a corequisite course of APPM 2360.

**Grading Basis:** Pass/Fail

**APPM 2720 (1-3) Open Topics in Lower Division Applied Mathematics**

Provides a vehicle for the development and presentation of new topics that are accessible to lower division Applied Mathematics students. These topics have the potential to be incorporated into the core APPM curriculum.

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Requires prerequisite course of APPM 1350 or MATH 1300 (minimum grade C-).

**Grading Basis:** Letter Grade

**APPM 2750 (4) Java: Training, Mathematical Algorithms, and Mobile Apps**

Preparatory course for Java programming. Provides necessary background for Java language: basic object-oriented concepts, analysis, and design. Learn to create Java applets, applications and mobile apps, create graphic context, and identify the key features of Java foundation classes as well as other Java-related technology. Material is taught in the context of mathematical algorithms from calculus. Department enforced requisite, knowledge of a programming language.

**Requisites:** Requires prerequisite course of APPM 1350 or MATH 1300 (minimum grade C-).

**APPM 3010 (3) Chaos in Dynamical Systems**

Introduces undergraduate students to chaotic dynamical systems. Topics include smooth and discrete dynamical systems, bifurcation theory, chaotic attractors, fractals, Lyapunov exponents, synchronization and networks of dynamical systems. Applications to engineering, biology and physics will be discussed.

**Requisites:** Requires prerequisite course of APPM 2360 or MATH 3430 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**APPM 3050 (3) Scientific Computing in Matlab**

Topics covered include: approximations in computing, computer arithmetic, interpolation, matrix computations, nonlinear equations, optimization, and initial-value problems with emphasis on the computational cost, efficiency, and accuracy of algorithms. The problem sets are application-oriented with examples taken from orbital mechanics, physics, genetics, and fluid dynamics.

**Requisites:** Requires prerequisite course of APPM 2360 or MATH 3430 (minimum grade C-).

**APPM 3170 (3) Discrete Applied Mathematics**

Introduces students to ideas and techniques from discrete mathematics that are widely used in science and engineering. Mathematical definitions and proofs are emphasized. Topics include formal logic notation, proof methods; set theory, relations; induction, well-ordering; algorithms, growth of functions and complexity; integer congruences; basic and advanced counting techniques, recurrences and elementary graph theory. Other selected topics may also be covered.

**Requisites:** Requires a prerequisite of APPM 1360 or MATH 2300 (all minimum grade C-).

**APPM 3310 (3) Matrix Methods and Applications**

Introduces linear algebra and matrices with an emphasis on applications, including methods to solve systems of linear algebraic and linear ordinary differential equations. Discusses vector space concepts, decomposition theorems, and eigenvalue problems.

**Equivalent - Duplicate Degree Credit Not Granted:** MATH 2130 and MATH 2135

**Requisites:** Requires prerequisite course of APPM 2350 or APPM 2360 or MATH 2400 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**APPM 3350 (3) Advanced Engineering Calculus**

Extends the treatment of engineering mathematics beyond the topics covered in Calculus 3 and differential equations. Topics include non-dimensionalization, elementary asymptotics and perturbation theory, Reynold's transport theorem and extensions of Leibnitz's rule, as applied to continuum conservation equations, Hamiltonian formulations, Legendre and Laplace transforms, special functions and their orthogonality properties.

**Requisites:** Requires prerequisite course of APPM 2350 or MATH 2400 and APPM 2360 (all minimum grade C-).

**APPM 3570 (3) Applied Probability**

Studies axioms, counting formulas, conditional probability, independence, random variables, continuous and discrete distribution, expectation, joint distributions, moment generating functions, law of large numbers and the central limit theorem.

**Equivalent - Duplicate Degree Credit Not Granted:** ECEN 3810 or MATH 4510 STAT 3100

**Requisites:** Requires a prerequisite or corequisite course of APPM 2350 or MATH 2400 (prereq minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**APPM 4120 (3) Introduction to Operations Research**

Studies linear and nonlinear programming, the simplex method, duality, sensitivity, transportation and network flow problems, some constrained and unconstrained optimization theory, and the Kuhn-Tucker conditions, as time permits.

**Equivalent - Duplicate Degree Credit Not Granted:** APPM 5120 and MATH 4120 and MATH 5120

**Requisites:** Requires a prerequisite course of APPM 3310 or MATH 3130 or MATH 3135 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**APPM 4350 (3) Methods in Applied Mathematics: Fourier Series and Boundary Value Problems**

Reviews ordinary differential equations, including solutions by Fourier series. Physical derivation of the classical linear partial differential equations (heat, wave, and Laplace equations). Solution of these equations via separation of variables, with Fourier series, Fourier integrals, and more general eigenfunction expansions.

**Equivalent - Duplicate Degree Credit Not Granted:** APPM 5350

**Requisites:** Requires prerequisite courses of APPM 2350 or MATH 2400 and APPM 2360 (all minimum grade C-) and a prerequisite or corequisite course of APPM 3310 or MATH 3130 or MATH 3135 (prereq minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**APPM 4360 (3) Methods in Applied Mathematics: Complex Variables and Applications**

Introduces methods of complex variables, contour integration and theory of residues. Applications include solving partial differential equations by transform methods, Fourier and Laplace transforms and Reimann-Hilbert boundary-value problems, conformal mapping to ideal fluid flow and/or electrostatics.

**Equivalent - Duplicate Degree Credit Not Granted:** APPM 5360

**Requisites:** Requires prerequisite courses of APPM 2350 or MATH 2400 and APPM 2360 (all minimum grade C-) and a prerequisite or corequisite course of APPM 3310 or MATH 3130 or MATH 3135 (prereq minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**APPM 4370 (3) Computational Neuroscience**

Applies mathematical and computational methods to neuroscience. Techniques from linear algebra, differential equations, introductory dynamical systems, probability, stochastic processes, model validation, and machine learning will be learned and used. Neuroscience topics include neural spiking, network dynamics, probabilistic inference, learning, and plasticity. Will learn how the brain uses computational principles to enact decision making, vision, and memory. Recommended background includes linear algebra, differential equations, probability, and programming. Students will hone programming skills in MATLAB/Python and TensorFlow.

**Equivalent - Duplicate Degree Credit Not Granted:** APPM 5370

**Requisites:** Requires prerequisite courses of APPM 2360 and APPM 3310 (all minimum grade C-).

**Recommended:** Prerequisite APPM 3570/STAT 3100, STAT 2600 or CSCI 3022.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**APPM 4380 (3) Modeling in Applied Mathematics**

An exposition of a variety of mathematical models arising in the physical and biological sciences. Students' modeling projects are presented in class. Topics may include: GPS navigation, medical imaging, ocean waves, and computerized facial recognition.

**Equivalent - Duplicate Degree Credit Not Granted:** APPM 5380

**Requisites:** Requires prerequisite courses of APPM 2350 or MATH 2400 and APPM 2360 (all minimum grade C-).

**Recommended:** Prerequisites APPM 3310 and APPM 4350 and APPM 4650.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**APPM 4390 (3) Modeling in Mathematical Biology**

Investigates how complex systems in biology can be studied using applied mathematics. Examines several case studies which include topics from microbiology, enzyme reaction kinetics, neuroscience, ecology, epidemiology, physiology and bioengineering.

**Equivalent - Duplicate Degree Credit Not Granted:** APPM 5390

**Requisites:** Requires prerequisite courses of APPM 2360 and APPM 3310 or MATH 3130 or MATH 3135 (all minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**APPM 4440 (3) Undergraduate Applied Analysis 1**

Provides a rigorous treatment of topics covered in Calculus 1 and 2. Topics include convergent sequences; continuous functions; differentiable functions; Darboux sums, Riemann sums, and integration; Taylor and power series and sequences of functions.

**Requisites:** Requires prerequisite courses of APPM 2350 or MATH 2400 and APPM 2360 (all minimum grade C-) and a prerequisite or corequisite course of APPM 3310 or MATH 3130 or MATH 3135 (prereq minimum grade C-).

**APPM 4450 (3) Undergraduate Applied Analysis 2**

Continuation of APPM 4440. Study of multidimensional analysis including n-dimensional Euclidean space, continuity and uniform continuity of functions of several variables, differentiation, linear and nonlinear approximation, inverse function and implicit function theorems, and a short introduction to metric spaces.

**Requisites:** Requires prerequisite course of APPM 4440 or MATH 3001 (minimum grade C-).

**APPM 4510 (3) Data Assimilation in High Dimensional Dynamical Systems**

Develops and analyzes approximate methods of solving the Bayesian inverse problem for high-dimensional dynamical systems. After briefly reviewing mathematical foundations in probability and statistics, the course covers the Kalman filter, particle filters, variational methods and ensemble Kalman filters. The emphasis is on mathematical formulation and analysis of methods.

**Equivalent - Duplicate Degree Credit Not Granted:** APPM 5510, STAT 4250 and STAT 5250

**Requisites:** Requires prerequisite courses of APPM 3310 and APPM 3570 or STAT 3100 or MATH 4510 (all minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**APPM 4530 (3) Stochastic Analysis for Finance**

Studies mathematical theories and techniques for modeling financial markets. Specific topics include the binomial model, risk neutral pricing, stochastic calculus, connection to partial differential equations and stochastic control theory.

**Equivalent - Duplicate Degree Credit Not Granted:** APPM 5530, STAT 4230 and STAT 5230

**Requisites:** Requires prerequisite courses of APPM 3310 and APPM 3570, or STAT 3100, or MATH 4510 (all minimum grade C-).

**APPM 4560 (3) Markov Processes, Queues, and Monte Carlo Simulations**

Brief review of conditional probability and expectation followed by a study of Markov chains, both discrete and continuous time, including Poisson point processes. Queuing theory, terminology and single queue systems are studied with some introduction to networks of queues. Uses Monte Carlo simulation of random variables throughout the semester to gain insight into the processes under study.

**Equivalent - Duplicate Degree Credit Not Granted:** APPM 5560 and STAT 4100

**Requisites:** Requires prerequisite courses of APPM 3570 or STAT 3100 or MATH 4510 (all minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**APPM 4565 (3) Random Graphs**

Introduces mathematical techniques, including generating functions, the first- and second-moment method and Chernoff bounds to study the most fundamental properties of the Erdos-Renyi model and other celebrated random graph models such as preferential attachment, fixed degree distribution, and stochastic block models.

**Equivalent - Duplicate Degree Credit Not Granted:** APPM 5565

**Requisites:** Requires prerequisite APPM 3570 or MATH 4510 (both minimum grade C).

**Grading Basis:** Letter Grade

**APPM 4570 (3) Statistical Methods**

Covers basic statistical concepts with accompanying introduction to the R programming language. Topics include discrete and continuous probability laws, random variables, expectation and variance, central limit theorem, testing hypothesis and confidence intervals, linear regression analysis, simulations for validation of statistical methods and applications of methods in R.

**Equivalent - Duplicate Degree Credit Not Granted:** APPM 5570

**Requisites:** Requires prerequisite course of APPM 1360 or MATH 2300 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**APPM 4590 (3) Statistical Modeling**

Introduces methods, theory and applications of statistical models, from linear models (simple and multiple linear regression), to hierarchical linear models. Topics such as estimation, residual diagnostics, goodness of fit, transformations, and various strategies for variable selection and model comparison will be discussed in depth. Examples and exercises will be demonstrated using statistical software.

**Equivalent - Duplicate Degree Credit Not Granted:** APPM 5590

**Requisites:** Requires prerequisite course of APPM 4520 or APPM 4570 or MATH 4520 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**APPM 4650 (3) Intermediate Numerical Analysis 1**

Focuses on numerical solution of nonlinear equations, interpolation, methods in numerical integration, numerical solution of linear systems, and matrix eigenvalue problems. Stresses significant computer applications and software. Department enforced prerequisite: knowledge of a programming language.

**Equivalent - Duplicate Degree Credit Not Granted:** MATH 4650

**Requisites:** Requires a prerequisite course of MATH 3430 or APPM 2360 and APPM 3310 (minimum grade C-).

**APPM 4660 (3) Intermediate Numerical Analysis 2**

Continuation of APPM 4650. Examines numerical solution of initial-value problems and two-point boundary-value problems for ordinary differential equations. Also looks at numerical methods for solving partial differential equations. Department enforced prerequisite: knowledge of a programming language.

**Equivalent - Duplicate Degree Credit Not Granted:** MATH 4660

**Requisites:** Requires prerequisite course of APPM 4650 or MATH 4650 (minimum grade C-).

**APPM 4720 (1-3) Open Topics in Applied Mathematics**

Provides a vehicle for the development and presentation of new topics that may be incorporated into the core courses in applied mathematics. Department enforced prerequisite: variable, depending on the topic, see instructor.

**Equivalent - Duplicate Degree Credit Not Granted:** APPM 5720

**Repeatable:** Repeatable for up to 15.00 total credit hours. Allows multiple enrollment in term.

**APPM 4840 (1-3) Reading and Research in Applied Mathematics**

Introduces undergraduate students to the research foci of the Department of Applied Mathematics. Department enforced prerequisite: variable depending on the topic.

**Repeatable:** Repeatable for up to 9.00 total credit hours.

**APPM 4950 (1-3) Seminar in Applied Mathematics**

Introduces undergraduate students to the research foci of the program in applied mathematics. It is also designed to be a capstone experience for the program's majors. Department enforced prerequisite: variable depending on the topic.

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**STAT 2600 (4) Introduction to Data Science**

Introduces students to importing, tidying, exploring, visualizing, summarizing, and modeling data and then communicating the results of these analyses to answer relevant questions and make decisions. Students will learn how to program in R using reproducible workflows. During weekly lab sessions students will collaborate with their teammates to pose and answer questions using real-world datasets.

**Requisites:** Requires prerequisite of APPM 1350 or MATH 1300 (both require minimum grade C-).

**Grading Basis:** Letter Grade

**STAT 3100 (3) Applied Probability**

Studies axioms, counting formulas, conditional probability, independence, random variables, continuous and discrete distribution, expectation, joint distributions, moment generating functions, law of large numbers and the central limit theorem.

**Equivalent - Duplicate Degree Credit Not Granted:** ECEN 3810 or MATH 4510 APPM 3570

**Requisites:** Requires a prerequisite or corequisite course of APPM 2350 or MATH 2400 (prereq minimum grade C-).

**STAT 3400 (3) Applied Regression**

Introduces methods, theory, and applications of linear statistical models, covering topics such as estimation, residual diagnostics, goodness of fit, transformations, and various strategies for variable selection and model comparison. Examples will be demonstrated using statistical programming language R.

**Requisites:** Requires prerequisite STAT 2600 and STAT 3100 or MATH 4510 (all minimum grade C-). Requires corequisite APPM 3310.

**Grading Basis:** Letter Grade

**STAT 4000 (3) Statistical Methods and Application I**

Introduces exploratory data analysis, probability theory, statistical inference, and data modeling. Topics include discrete and continuous probability distributions, expectation, laws of large numbers, central limit theorem, statistical parameter estimation, hypothesis testing, and regression analysis. Considerable emphasis on applications in the R programming language.

**Equivalent - Duplicate Degree Credit Not Granted:** STAT 5000

**Requisites:** Requires prerequisite APPM 1360 or MATH 2300 (both minimum grade C-).

**Grading Basis:** Letter Grade

**STAT 4010 (3) Statistical Methods and Applications II**

Expands upon statistical techniques introduced in STAT 4000. Topics include modern regression analysis, analysis of variance (ANOVA), experimental design, nonparametric methods, and an introduction to Bayesian data analysis. Considerable emphasis on application in the R programming language.

**Equivalent - Duplicate Degree Credit Not Granted:** STAT 5010

**Requisites:** Requires prerequisite STAT 4000 (minimum grade C-).

**Grading Basis:** Letter Grade

**STAT 4100 (3) Markov Processes, Queues, and Monte Carlo Simulations**

Brief review of conditional probability and expectation followed by a study of Markov chains, both discrete and continuous time, including Poisson point processes. Queuing theory, terminology and single queue systems are studied with some introduction to networks of queues. Uses Monte Carlo simulation of random variables throughout the semester to gain insight into the processes under study.

**Equivalent - Duplicate Degree Credit Not Granted:** APPM 4560 and APPM 5560

**Requisites:** Requires prerequisite courses of APPM 3570 or STAT 3100 or MATH 4510 (all minimum grade C-).

**STAT 4230 (3) Stochastic Analysis for Finance**

Studies mathematical theories and techniques for modeling financial markets. Specific topics include the binomial model, risk neutral pricing, stochastic calculus, connection to partial differential equations and stochastic control theory.

**Equivalent - Duplicate Degree Credit Not Granted:** APPM 4530, APPM 5530 and STAT 5230

**Requisites:** Requires prerequisite courses of APPM 3310 and APPM 3570, or STAT 3100, or MATH 4510 (all minimum grade C-).

**STAT 4250 (3) Data Assimilation in High Dimensional Dynamical Systems**

Develops and analyzes approximate methods of solving the Bayesian inverse problem for high-dimensional dynamical systems. After briefly reviewing mathematical foundations in probability and statistics, the course covers the Kalman filter, particle filters, variational methods and ensemble Kalman filters. The emphasis is on mathematical formulation and analysis of methods.

**Equivalent - Duplicate Degree Credit Not Granted:** APPM 5510, APPM 4510 and STAT 5250

**Requisites:** Requires prerequisite courses of APPM 3310 and APPM 3570 or STAT 3100 or MATH 4510 (all minimum grade C-).

**STAT 4400 (3) Advanced Statistical Modeling**

Introduces methods, theory and applications of modern statistical models, from hierarchical linear models, to generalized hierarchical linear models, including hierarchical logistic and hierarchical count regression models. Topics such as estimation, residual diagnostics, goodness of fit, transformations, and various strategies for variable selection and model comparison will be discussed in depth. Examples will be demonstrated using statistical programming language R.

**Requisites:** Requires prerequisite STAT 3400 and (STAT 4520 or STAT 5010) (all minimum grade C-).

**Grading Basis:** Letter Grade

**STAT 4430 (3) Spatial Statistics**

Introduces the theory of spatial statistics with applications. Topics include basic theory for continuous stochastic processes, spatial prediction and kriging, simulation, geostatistical methods, likelihood and Bayesian approaches, spectral methods and an overview of modern topics such as nonstationary models, hierarchical modeling, multivariate processes, methods for large datasets and connections to spines.

**Equivalent - Duplicate Degree Credit Not Granted:** STAT 5430

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**STAT 4520 (3) Introduction to Mathematical Statistics**

Examines point and confidence interval estimation. Principles of maximum likelihood, sufficiency, and completeness: tests of simple and composite hypotheses, linear models, and multiple regression analysis if time permits. Analyzes various distribution-free methods.

**Equivalent - Duplicate Degree Credit Not Granted:** STAT 5520 and MATH 4520 and MATH 5520

**Requisites:** Requires prerequisites APPM 3570 or STAT 3100 or MATH 4510 (all minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**STAT 4540 (3) Introduction to Time Series**

Studies basic properties, trend-based models, seasonal models modeling and forecasting with ARIMA models, spectral analysis and frequency filtration.

**Equivalent - Duplicate Degree Credit Not Granted:** STAT 5540 and MATH 4540 and MATH 5540

**Requisites:** Requires prerequisite course of APPM 4520 or STAT 4520 or MATH 4520 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**STAT 4610 (3) Statistical Learning**

Consists of applications and methods of statistical learning. Reviews multiple linear regression and then covers classification, regularization, splines, tree-based methods, support vector machines, unsupervised learning and Gaussian process regression.

**Requisites:** Requires prerequisite course of STAT 3400 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**STAT 4630 (3) Computational Bayesian Statistics**

Introduces Bayesian statistics, normal and non-normal approximation to likelihood and posteriors, the EM algorithm, data augmentation, and Markov Chain Monte Carlo (MCMC) methods. Additionally, introduces more advanced MCMC algorithms and requires significant statistical computing. Examples from a variety of areas, including biostatistics, environmental sciences, and engineering, will be given throughout the course.

**Equivalent - Duplicate Degree Credit Not Granted:** STAT 5630

**Requisites:** Requires prerequisite course of APPM 4520 or STAT 4520 or MATH 4520 (minimum grade C-).

**Recommended:** Prerequisite prior programming and basic statistical modeling experience is required.

**STAT 4680 (3) Statistical Collaboration**

Educates and trains students to become effective interdisciplinary collaborators by developing the communication and collaboration skills necessary to apply technical statistics and data science skills to help domain experts answer research questions. Topics include structuring effective meetings and projects; communicating statistics to non-statisticians; using peer feedback, self-reflection and video analysis to improve collaboration skills; creating reproducible statistical workflows; working ethically.

**Equivalent - Duplicate Degree Credit Not Granted:** STAT 5680

**Requisites:** Requires a prerequisite course of STAT 4520 or MATH 4520 (minimum grade C-).

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**STAT 4690 (2) Advanced Statistical Collaboration**

Educates and trains students to become advanced interdisciplinary collaborators by developing and refining the communication, collaboration and technical statistics and data science skills necessary to collaborate with domain experts to answer research questions. Students work on multiple projects. Discussions center on technical skills necessary to solve research problems and video analysis to improve communication and collaboration skills.

**Equivalent - Duplicate Degree Credit Not Granted:** STAT 5690

**Requisites:** Requires prerequisite course of STAT 4680 or STAT 5680 (minimum grade C-).

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**STAT 4700 (3) Philosophical and Ethical Issues in Statistics**

Introduces students to philosophical issues that arise in statistical theory and practice. Topics include interpretations of probability, philosophical paradigms in statistics, inductive inference, causality, reproducible, and ethical issues arising in statistics and data analysis.

**Equivalent - Duplicate Degree Credit Not Granted:** STAT 5700

**Requisites:** Requires prerequisites STAT 4520 or STAT 3400 or STAT 4000 (all minimum grade C-).

**Grading Basis:** Letter Grade

## Statistics and Data Science - Bachelor of Arts (BA)

The Department of Applied Mathematics offers a Bachelor of Arts degree in statistics and data science through the College of Arts and Sciences. The BA degree is designed with an emphasis on inter- and cross-disciplinary training, and is intended to prepare students for a wide range of careers in areas such as statistics, data analytics, data science, business, engineering, economics, public health, epidemiology, insurance, forestry, psychology, social justice and human rights.

Courses at the undergraduate level are designed to provide students with skills in both traditional statistical methods and cutting edge data analysis techniques. These skills are in high demand in the current job market and prepare students for desirable careers in statistics and data science. Since statisticians and data scientists are often involved in interdisciplinary work, the BA degree requires an in-depth knowledge of some area of science, engineering, social science or liberal arts that uses statistics to solve important problems. This knowledge prepares graduates to successfully communicate and collaborate with practitioners in these fields. A capstone course in statistical collaboration provides the opportunity for students to synthesize their previous coursework.

The Department of Applied Math offers a broad range of undergraduate research opportunities funded by a variety of federal agencies. Working with faculty, students interested in statistics and data science have developed solutions to various problems in fluids, dynamical systems, data analysis, probability and statistics, networks, signal processing, math biology, math education and numerics. Students can gain professional exposure through the student chapter of the Society of Industrial and Applied Mathematics (SIAM) on campus.

## Outside Area of Emphasis/Application

Students will choose an outside area of emphasis/application to acquire knowledge in a discipline-specific area, where statistical applications are prevalent. Students will take a minimum of 18 credits in a department or certificate program outside of APPM/STAT, including a minimum of 6 credits at the upper-division level. Final course selection will be made in consultation with advisors and faculty from the departments, as well as faculty advisors within the Department of Applied Mathematics.

## Laboratory for Interdisciplinary Statistical Analysis (LISA)

After learning the communication and collaboration skills necessary to help domain experts answer their research, business or policy questions, students have the opportunity to join LISA to gain additional practical experience. Students will collaborate with a variety of researchers around campus and in the community to apply statistics and data science to solve real problems. Students in LISA will also work with graduate students and faculty to engage in outreach activities to improve statistics and data science skills and literacy in the wider community.

## Requirements

### Course Requirements

To earn a BA in statistics and data science, a student must complete the requirements of the College of Arts and Sciences.

Students must earn a grade of C- or better in all coursework applied to the major, and have at least a C average for all attempted work for the major. APPM 1350 and APPM 1360 are considered introductory courses and are prerequisites for the major.

### Required Courses and Credits

Code	Title	Credit Hours
<b>Required Courses</b>		
<i>Mathematical Foundations</i>		
APPM 2350	Calculus 3 for Engineers	4
	or MATH 2400 Calculus 3	
APPM 3310	Matrix Methods and Applications	3
<i>Computation</i>		
STAT 2600	Introduction to Data Science	4
<i>Statistics Theory</i>		
STAT 3100	Applied Probability	3
STAT 4520	Introduction to Mathematical Statistics	3
APPM 4560	Markov Processes, Queues, and Monte Carlo Simulations	3
<i>Statistical Modeling</i>		
STAT 3400	Applied Regression	3
STAT 4400	Advanced Statistical Modeling	3

STAT 4610	Statistical Learning	3
STAT 4630	Computational Bayesian Statistics	3
STAT 4680	Statistical Collaboration	3
Any <i>THREE</i> of the following courses: <sup>1</sup>		9
APPM 4530	Stochastic Analysis for Finance	
APPM 4510	Data Assimilation in High Dimensional Dynamical Systems	
STAT 4430	Spatial Statistics	
STAT 4540	Introduction to Time Series	
STAT 4700	Philosophical and Ethical Issues in Statistics	
Total Credit Hours		44

<sup>1</sup> Any one of APPM's 3-credit special topics courses in probability or statistics may also be used to meet this requirement.

### Ancillary Coursework

Code	Title	Credit Hours
<b>Required Courses</b>		
CSCI 1300 or CSCI 1320	Computer Science 1: Starting Computing-Engineering Applications	4
CSCI 2270	Computer Science 2: Data Structures	4
Outside Area of Emphasis Coursework (can be used to fulfill Gen. Ed. requirements when applicable)		18
Total Credit Hours		26

### Graduating in Four Years

Consult the Four-Year Guarantee Requirements for information on eligibility. The concept of "adequate progress" as it is used here only refers to maintaining eligibility for the four-year guarantee; it is not a requirement for the major. To maintain adequate progress in Statistics and Data Science, students should meet the following requirements:

- In the first semester, declare the statistics and data science major.

Students must consult with a major advisor to determine adequate progress toward completion of the major.

### Recommended Four-Year Plan of Study

Through the required coursework for the major, students can likely fulfill some of the required credit hours of the Gen. Ed. Distribution Requirement and Diversity Requirement (depending on the courses used for the Outside Area of Emphasis) and will complete the QRMS component of the Gen. Ed. Skills Requirement.

Course	Title	Credit Hours
<b>Year One</b>		
<b>Fall Semester</b>		
APPM 1350	Calculus 1 for Engineers	4
CSCI 1300	Computer Science 1: Starting Computing	4
Gen. Ed. Skills course (example: Lower-division Written Communication)		3

Gen. Ed. Distribution course (example: Natural Sciences with Lab)		4
Credit Hours		15

#### Spring Semester

APPM 1360	Calculus 2 for Engineers	4
STAT 2600	Introduction to Data Science	4
CSCI 2270	Computer Science 2: Data Structures	4
Gen. Ed. Distribution/Diversity course (example: Arts & Humanities/US Perspective)		3
Credit Hours		15

#### Year Two

##### Fall Semester

APPM 2350	Calculus 3 for Engineers	4
APPM 2450	Calculus 3 Computer Lab (recommended, not required)	1
STAT 3100	Applied Probability	3
Gen. Ed. Distribution course (example: Arts & Humanities)		3
Gen. Ed. Distribution/Diversity course (example: Social Sciences/Global Perspective)		3
Outside Area of Emphasis course		3
Credit Hours		17

##### Spring Semester

APPM 3310	Matrix Methods and Applications	3
STAT 3400	Applied Regression	3
Outside Area of Emphasis course		3
Gen. Ed. Distribution course (example: Social Sciences)		3
Elective		3
Credit Hours		15

#### Year Three

##### Fall Semester

STAT 4520	Introduction to Mathematical Statistics	3
STAT 4610	Statistical Learning	3
Outside Area of Emphasis Course (Upper-division)		3
Gen. Ed. Skills course (example: Upper-division Written Communication)		3
Gen. Ed. Distribution course (example: Arts & Humanities)		3
Credit Hours		15

##### Spring Semester

STAT 4400	Advanced Statistical Modeling	3
Upper-division STAT elective		3
Outside Area of Emphasis Course (Upper-division)		3
Gen. Ed. Distribution course (example: Arts & Humanities)		3
Gen. Ed. Distribution course (example: Social Sciences)		3
Credit Hours		15

#### Year Four

##### Fall Semester

STAT 4680	Statistical Collaboration	3
Upper-division STAT elective		3
Gen. Ed. Distribution course (Social Sciences)		3
Outside Area of Emphasis course or elective		3
Outside Area of Emphasis course or elective		3
Credit Hours		15

Spring Semester		
APPM 4560	Markov Processes, Queues, and Monte Carlo Simulations	3
STAT 4630	Computational Bayesian Statistics	3
Upper-division STAT elective		3
Outside Area of Emphasis course or elective		4
Credit Hours		13
Total Credit Hours		120

## Applied Mathematics - Minor

A minor is offered in applied mathematics. Declaration of a minor is open to any student enrolled at CU Boulder, regardless of college or school.

The minor in applied mathematics was developed to provide in-depth training in mathematical techniques and computational methods well beyond the training usually received by science and engineering majors. The minor currently offers three tracks: general emphasis, scientific computing and mathematical software, or probability and statistics. The goals of each track are to introduce students to more advanced mathematical techniques and problem-solving strategies. Such skills are becoming increasingly important for students who expect to participate in areas requiring analysis or modeling of real world situations.

The department also offers a minor in statistics (p. 96) which was developed to provide in-depth training in statistical methods and techniques well beyond the training usually received by science and engineering majors. The ability to understand, visualize and analyze data is becoming an increasingly important skill in many disparate fields. This minor offers undergraduate students from any major the opportunity to develop their statistical knowledge.

## Requirements

### Prerequisites

Prerequisites for the applied math minor are two semesters of calculus and computing experience, as provided by CSCI 1300, CSCI 1320 or CHEN 1310.

### Residency

A minimum of 20 credits at the 2000 level and above is required. At least three APPM or STAT courses, two of which must be at the 3000 level or above, need to be taken on the Boulder campus. No more than 9 credits may be applied from transfer work; of those, no more than 6 credits may be 3000 level or above.

### Minimum Grades

A cumulative GPA of 2.00 or better is required in the courses that are used to satisfy the requirements for this minor. Each individual course that is counted towards these degree requirements must be passed with a grade of C- or better.

## Required Courses and Credits

Code	Title	Credit Hours
<b>Course Requirements</b>		20
APPM 2350	Calculus 3 for Engineers	4
or MATH 2400	Calculus 3	
APPM 2360	Introduction to Differential Equations with Linear Algebra	4

APPM 3310	Matrix Methods and Applications	3
-----------	---------------------------------	---

### Choose one area of emphasis:

#### General Emphasis:

Choose two of the following three courses:

APPM 4650	Intermediate Numerical Analysis 1
APPM 4350	Methods in Applied Mathematics: Fourier Series and Boundary Value Problems
APPM 4360	Methods in Applied Mathematics: Complex Variables and Applications

One 3-credit upper division APPM or STAT course at the 3000 or 4000 level

#### Scientific Computation Emphasis:

APPM 3050	Scientific Computing in Matlab <sup>1</sup>
APPM 4650 & APPM 4660	Intermediate Numerical Analysis 1 and Intermediate Numerical Analysis 2

#### Probability and Statistics Emphasis: <sup>2</sup>

APPM 3570	Applied Probability	3
-----------	---------------------	---

One of the following sequences:

STAT 4000 & STAT 4010	Statistical Methods and Application I and Statistical Methods and Applications II
APPM 4560 & STAT 4520	Markov Processes, Queues, and Monte Carlo Simulations and Introduction to Mathematical Statistics

<sup>1</sup> APPM 3050 is not appropriate for junior or senior aerospace engineering sciences majors. These students should substitute another upper division applied math course.

<sup>2</sup> A student cannot earn a minor in statistics (p. 96) and a minor in applied mathematics with probability and statistics emphasis.

## Statistics - Minor

The Department of Applied Mathematics offers a minor in statistics. Declaration of a minor is open to any undergraduate student enrolled at CU Boulder, regardless of college or school. For more information, see the university's minor requirements on the Policies & Requirements (p. 63) page.

The minor in statistics was developed to provide in-depth training in statistical methods and techniques well beyond the training usually received by science and engineering majors. The ability to understand, visualize, and analyze data is becoming an increasingly important skill in many disparate fields. This minor offers undergraduate students from any major the opportunity to develop their statistical knowledge.

## Requirements

Prerequisites for the statistics minor are two semesters of calculus and computing experiences such as provided by CSCI 1300, CSCI 1320 or CHEN 1310. A student cannot earn both a minor in statistics and a minor in applied mathematics (p. 96) with the probability and statistics emphasis.

### Residency

A *minimum* of 23 credits at the 2000 level and above is required. At least three APPM or STAT courses, two of which must be at the 3000 level or above, need to be taken on the Boulder campus. No more than nine credit hours may be applied from transfer work; of those nine, no more than six may be 3000 level or above.

## Minimum Grades

A cumulative GPA of 2.00 or better is required in the courses that are used to satisfy the requirements for this minor. Each individual course that is counted towards these degree requirements must be passed with a grade of C- or better.

## Required Courses and Credit Hours

Code	Title	Credit Hours
<b>Required Courses</b>		
APPM 2350 or MATH 2400	Calculus 3 for Engineers Calculus 3	4-5
APPM 3310	Matrix Methods and Applications	3
STAT 2600	Introduction to Data Science	4
APPM 3570/ STAT 3100	Applied Probability	3
STAT 3400	Applied Regression	3
<b>Elective Courses</b>		
Select two of the following courses: <sup>1</sup>		6
STAT 4400	Advanced Statistical Modeling	
STAT 4430	Spatial Statistics	
STAT 4520	Introduction to Mathematical Statistics	
STAT 4540	Introduction to Time Series	
APPM 4560	Markov Processes, Queues, and Monte Carlo Simulations	
STAT 4610	Statistical Learning	
Total Credit Hours		23-24

<sup>1</sup> Any one of APPM's 3-credit special topics courses in probability or statistics may also be used to meet this requirement.

## Art and Art History

The Department of Art and Art History (AAH) comprises two programs at the undergraduate level: art history and art practices. The art history program offers the BA and the art practices program is divided into five areas that offer degree tracks for the BA and the BFA: ceramics, integrated media arts practices (photography, digital media, video, integrated arts), painting & drawing, printmaking, and sculpture & post-studio practice. The department offers a rigorous curriculum that crosses disciplines and attracts inquisitive, dedicated students with wide-ranging interests, encouraging creative investigation as an essential skill informed by the highest standards of critical thought. Our diverse faculty, students and staff are committed to ongoing engagement with communities locally and globally.

Course codes for these programs are ARTF, ARTH and ARTS.

## Honors

Students may graduate with departmental honors. Those interested in pursuing this program should contact the Honors Department and/or the Department of Art and Art History honors representative as early as possible. The minimum GPA requirement is 3.300 overall and 3.500 in the major. Students may take Art Practices or Art History Honors Thesis to complete individual work.

## Special Programs

### The CU Art Museum

The CU Art Museum is a cultural gateway to the University of Colorado Boulder, facilitating engagement with larger societal issues through a greater understanding of the arts in a global context. The CU Art Museum is committed to enhancing understanding and appreciation of the visual arts within the academic community and among regional, national and international audiences. It provides access to art of the highest quality through exhibitions, publications and related educational events that reflect diversity, critical thinking and creative research. The museum also facilitates student training in museum practices. As a collecting institution, the CU Art Museum promotes the excellence, preservation, scholarly interpretation, exhibition and growth of its comprehensive permanent collection, which includes artworks from numerous time periods, artistic traditions and cultures. The state of the art 25,000-square-foot CU Art Museum contains five galleries including permanent collection galleries, changing exhibition galleries and a video gallery. The CU Art Museum also includes a collections study center, allowing students, faculty and researchers the opportunity to schedule appointments to view, research and study works in its permanent collection.

### The CU Art Museum's Permanent Collection

The Permanent Collection of the CU Art Museum contains over 8,800 works of art. The collection includes works from numerous time periods and cultures including ancient Greek pottery, Roman Glass, ancient Iranian pottery, Southwestern and South American santos, Southeast Asian pottery, African sculpture, Old Master works on paper, British 18th century prints, 19th and 20th century American prints and paintings, Japanese *ukiyo-e* prints, 19th century photography, Pop art, Minimalist works on paper and modern and contemporary ceramics, contemporary New Mexican Santos, sculpture, works on paper, paintings, photography, video and new media art.

### Visiting Scholar Program

This program is organized to explore the discipline of art history—its cultural connections, methodological pursuits and its changing nature—by focusing extensively on the research and insights of individual academic experts. Three to five highly regarded art historians and/or art critics speak at a public lecture, presenting current research and published papers.

### Visiting Artist Program

Artists of national and international reputation interact with graduate and advanced undergraduate students and discuss their studio work at seminar meetings. Artists present a public lecture during their visit, providing continuous input of significant developments and a comprehensive view of contemporary issues in the arts.

### Visual Resources Center (VRC)

The mission of the VRC is to provide and facilitate access to images, imaging and related information resources for teaching and research in the Department of Art and Art History. This includes:

1. a departmental image collection and support for other important image resources;
2. resources, training and support in digital imaging and image presentation software; and

3. equipment for use in creative work, documentation and classrooms within the department.

The digital image collection contains works by faculty, MFA thesis recipients, visiting artists and other contemporary and historical works. Digital imaging resources include slide and flatbed scanning stations, with training available in digitization standards and best practices. VRC equipment includes laptops, data projectors, digital SLR cameras, video cameras, tripods and other equipment for use in the department. The VRC also circulates its collection of DVDs containing lectures and interviews from the department's Visiting Artist Program. More information is available on the department's Visual Resources Center (<http://cuart.colorado.edu/resources/vrc>) webpage.

## Rural Environments Field School

The Art & Rural Environments Field School is an intensive off-campus course designed for students interested in the intersection of art and the rural environment. The Field School experience puts students in touch with various rural landscapes and focuses on site and context-based approaches to art creation. While living and working together in the field and on the road, students create site-interpretation artworks exploring various mediums including photography, sculpture and drawing, as well as dialogical projects, social actions and collaborative experiments.

Based out of CU Boulder, sessions are open to both CU students and students from further afield. The Field School also partners with various other schools. For students from other universities: in most cases, the 6 hours of Art Practices course credit will transfer to the home institution. This is an advanced or 4000-level course and is also open to graduate students at the 5000 level. Fieldwork for the 2018 session will take place May 14–June 1.

For more information, visit the Department of Art & Art History (<http://cuart.colorado.edu>) and Rural Environments Field School & Archive (<http://www.ruralenvironments.org>) websites.

## Bachelor's Degrees

- Art History - Bachelor of Arts (BA) (p. 115)
- Art Practices - Bachelor of Arts (BA) (p. 117)
- Art Practices - Bachelor of Fine Arts (BFA) (p. 118)

## Minors

- Art History - Minor (p. 120)
- Art Practices - Minor (p. 120)

## Faculty

While many faculty teach both undergraduate and graduate students, some instruct students at the undergraduate level only. For more information, contact the faculty member's home department.

## Courses

### Art History

#### ARTH 1300 (3) History of World Art 1

Surveys major art styles from the Paleolithic period through the Renaissance, including European, Asian, and the Pre-Columbian/Islamic world. Emphasizes comparison of Western and non-Western visual expressions as evidence of differing cultural orientations.

**Additional Information:** GT Pathways: GT-AH1 - Arts Hum: Arts Expression  
Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Art History

#### ARTH 1400 (3) History of World Art 2

Surveys major art styles from about 1600 to the present, including Europe, Asia, the Islamic world, the Americas and Africa. Emphasizes comparison of Western and non-Western visual expressions as evidence of differing cultural orientations.

**Additional Information:** GT Pathways: GT-AH1 - Arts Hum: Arts Expression  
Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Art History

#### ARTH 1500 (3) Global Art and Visual Culture

Introduces critical issues in the study and interpretation of the arts and visual cultures of Africa, the Americas, Asia, Europe, and Oceania. This course serves as a complement to U.S. Art Across Cultures (ARTH 1600). Themes explored include the conceptual and social status of the artist, cultural exchange, the environment, gender, and power. In lecture and in recitations sections, you will be introduced to methods of object-based research and principles of museum exhibition curation. You will leave this class with an understanding of key concepts and methods in the history of art, as well as familiarity with an array of global visual cultures.

**Recommended:** Corequisite ARTH 1600.

#### ARTH 1509 (3) Trash and Treasure, Temples and Tombs: Art and Archaeology of the Ancient World

Introduces the art and archaeology of ancient Egypt, Mesopotamia, Greece and Rome, examining various ancient approaches to power, religion, death and the human body. Analyzes art, architecture and everyday trash to learn about ancient humanity.

**Equivalent - Duplicate Degree Credit Not Granted:** CLAS 1509

**Requisites:** Restricted to students with 0-56 credits (Freshmen or Sophomore) only.

**Additional Information:** Arts Sci Core Curr: Historical Context  
Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-Global Perspective  
Departmental Category: Art History

#### ARTH 1600 (3) U.S. Art Across Cultures

Examines historical and contemporary issues in American arts and visual culture, emphasizing issues of race, gender, class, cross-cultural interactions, diversity of artistic traditions, and the global position of the United States in the modern world. We will focus on key monuments, objects, artists, and concepts relevant to the American context and impactful across geopolitical borders, ethnic groups, and genders.

**Recommended:** Corequisite ARTH 1500.

**ARTH 1709 (3) Freshmen Seminar: Critical Introduction to Art History**

Provides a broad introduction to understanding and appreciating art and art history within a critical lecture seminar and discussion format. The focus of this course is a selected Particularity directed to nonmajors.

**Additional Information:** Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Art History

**ARTH 2029 (3) Art and Archaeology of Ancient Egypt**

Emphasizes the origin of the Egyptian culture, its importance and its impact on other cultures. In addition, the different points of view of various scholars are discussed with a comparative study of the ancient Egyptian culture and modern culture of Egypt and the Middle East. Formerly ANTH 1160.

**Equivalent - Duplicate Degree Credit Not Granted:** CLAS 2029

**Additional Information:** Arts Sci Core Curr: Human Diversity  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-Global Perspective  
Departmental Category: Art History

**ARTH 2039 (3) Greek Art and Archaeology**

Covers prehistoric Aegean through the fourth century B.C.E., considering architecture, pottery, painting, sculpture, and personal ornament. Societal customs such as use of space and burial patterns are considered as well as art and its uses, to help understand developments in Greek culture.

**Equivalent - Duplicate Degree Credit Not Granted:** CLAS 2039

**Additional Information:** Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Art History

**ARTH 2049 (3) Introduction to Roman Art and Architecture**

Introduces the monuments and sites of the ancient Roman world from the foundation of Rome (753 B.C.E.) to Constantine (306-307 C.E.). Emphasizes the relationship of art, architecture, and artifacts to the political, social, and religious institutions of Italy and the provinces.

**Equivalent - Duplicate Degree Credit Not Granted:** CLAS 2049

**Additional Information:** Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Art History

**ARTH 2409 (3) Intro to Asian Art**

Designed for those having no previous experience in the study of Asian art. Traces development of sculpture, painting, architecture, and the other visual arts of South Asia, the Far East, and Southeast Asia, with a synopsis of developments from 1453 through the 18th century.

**Additional Information:** GT Pathways: GT-AH1 - Arts Hum: Arts Expression  
Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Art History  
Departmental Category: Asia Content

**ARTH 3009 (3) Critical Thinking in Art History**

Through structured discussions, selected readings, and written assignments provides an understanding of how art history has evolved as an academic discipline and how art historians evaluate complex issues of style, form, content, and theory in the visual arts.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Art History

**ARTH 3019 (3) Pompeii and the Cities of Vesuvius**

Introduces the towns and villas buried by the eruption of Mt. Vesuvius in 79 C.E. Explores the layout and decoration of ancient Roman houses, the variety of artifacts uncovered as evidence for daily life and the history of the excavations.

**Equivalent - Duplicate Degree Credit Not Granted:** CLAS 3019

**Additional Information:** Arts Sci Core Curr: Historical Context  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Art History

**ARTH 3079 (3) Medieval Art Survey**

Surveys the history of Western art from Constantine to around the year 1300, including Carolingian, Ottonian, Anglo-Saxon, Romanesque, and Gothic. Considers "Barbarian," Byzantine, and Islamic influences.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Art History

**ARTH 3109 (3) Art in Contemporary Society**

Examines writings by philosophers and art critics as they address the question: What is art for? Readings focus on the 19th and 20th centuries, including current theories and some non-Western theories. Students are encouraged to develop their own responses to the question.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Art History

**ARTH 3209 (3) Art, Culture, and Gender Diversity, 1400--1600: Renaissance Art Out of the Canon**

Studies the rising status of painting, sculpture, and architecture in Europe and how Europeans perceived non-Western art during the early modern period. Introduces history of race/ethnicity, gender, and class concerns embodied in the European category visual arts. Emphasizes new methods for interpreting history without imposing Eurocentric viewpoints.

**Additional Information:** Arts Sci Core Curr: Human Diversity  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-Global Perspective  
Departmental Category: Art History

**ARTH 3241 (3) Art in Islamic Cultures**

Offers an overview of art in Islamic cultures. Discusses a range of literary texts and images in order to understand these cultures. Offers an opportunity for undergraduates to expand their understanding of literature and art history. Taught in English.

**Equivalent - Duplicate Degree Credit Not Granted:** ARAB 3241  
**Additional Information:** Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Art History

**ARTH 3329 (3) Art in France: Revolution to 1870**

Covers major art movements and theories in France from 1793 to 1870 on location in Paris. Students study ceramics, painting, sculpture, photography and some architecture. Political and cultural events are considered for their influence on art: excavations at Pompeii, colonial expansion in Middle East and Africa, influx of Asian art, exploration of Americas and various technical inventions.

**Recommended:** Prerequisites ARTH 1300 and second semester sophomore, junior or senior standing.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Art History

**ARTH 3339 (3) Art in France: 1870-1970**

Covers major art movements and theories in France from the Paris Commune through 1970 on location in Paris. Students study ceramics, painting, sculpture, photography and some architecture. Political and cultural events are considered for their influence on art: excavations at Pompeii, colonial expansion in Middle East and Africa, influx of Asian art, exploration of Americas and various technical inventions.

**Recommended:** Prerequisite ARTH 1300 and second semester sophomore, junior or senior standing.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Art History

**ARTH 3359 (3) Art in Spain: Goya to 1900**

Explores the scope of Goya's works in context of his contemporaries and antecedent, Velazquez; Moorish influences, genre painting costumbrismo, Romanticism and historical narratives are considered in relation to Enlightenment ideals, French Neoclassicism, Romanticism, Orientalism and the Napoleonic invasion. Teaching occurs mostly on site: Alhambra, Prado, Bellas Artes, Palacio Real, Museo de Romanticismo; seminars and tests are in Madrid classrooms.

**Recommended:** Prerequisite ARTH 1300.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Art History

**ARTH 3369 (3) Art in Spain: 1900-1990**

Covers Gaudi, Picasso and artists of Modernismo movement as well as Dali are studied in Barcelona; Dada and Surrealism are explored through works of Picasso, Gonzalez, Gris, Varo, Dali, Bunuel and others. Photography and film of Spanish Civil War and thereafter are studied in seminar in Madrid classroom; students experience flamenco performances and Q&A with performers. Tests administered in class.

**Recommended:** Prerequisite ARTH 1300.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Art History

**ARTH 3419 (3) Modern Art Survey**

Surveys the loss of beauty in art and discusses whether or not that loss is regrettable. Questions the function and historical meaning of modern and postmodern art: is it all hype and strategic positioning by artists for fame and fortune? Is it serious? Are the fine arts still fine?

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Art History

**ARTH 3509 (3) American Art**

Surveys American art and material culture from the precolonial era to the present day. Considers cultural and artistic interaction, ethnic expressions, patronage, European and non-Western influences, and the struggle to develop a uniquely American artistic identity.

**Additional Information:** Arts Sci Core Curr: United States Context  
Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Art History

**ARTH 3519 (3) Modern Architecture, 1780--1960**

Introduces the major movements and developments in European and American architecture from Neoclassicism to Postmodernism. Considers the impact of exhibitions, expositions, and vernacular architecture.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Art History

**ARTH 3539 (3) Contemporary Art**

Examines contemporary art and theory in the transition from modern to postmodern expression. Discusses painting, sculpture, installations, performance, video, photography, and architecture with attention to historical context and criticism. Considers neoexpressionist, feminist, minority, political, and public art.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Art History

**ARTH 3619 (3) The Arts of China**

Surveys Chinese painting, sculpture, architecture, and other arts from neolithic to modern times.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Art History

Departmental Category: Asia Content

**ARTH 3629 (3) The Arts of Japan**

Offers an appreciation and chronological development of the arts of Japan. Emphasizes the arts of Shintoism and Buddhism as well as the particular Japanese aesthetic from prehistoric times to the present.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Art History

Departmental Category: Asia Content

**ARTH 3719 (3) History of Media Arts**

Surveys the development of technological media both as sources of information and as art. Photography and related media, film, video, holography, and electronic imaging systems are surveyed as art and as technologies, emphasizing major artists, movements, exhibitions, and other productions in the 19th and 20th centuries.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Art History

**ARTH 3729 (3) Foundations in Latin American Art**

Examines Latin America's cultural pluralism and art production beginning in pre-Columbian times and following through to the present. Considers the various functions of art as well as the relationship between objects, artists, and the cultures from which they come. Provides students with a broad frame of reference for many historical periods and equips students to evaluate art objects and their cultural contexts.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Art History

**ARTH 3929 (1-3) Special Topics in Art History**

**Repeatable:** Repeatable for up to 18.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Art History

**ARTH 4029 (1) Art History Research Methods**

In this class we will investigate how art scholarship is formed and organized; learn to expertly navigate the vast array of art research resources; and explore advanced techniques for searching both online and offline sources of art information. We will work to develop a critical understanding of our own research processes and reflect on the tools and techniques that lead to both expert research and successful participation in art discourse.

**Equivalent - Duplicate Degree Credit Not Granted:** LIBR 4029 and ARTH 5029

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Art History

**ARTH 4069 (3) Medieval Manuscripts**

Surveys decorated books from late antiquity to the advent of the printing press. Examines the various roles manuscripts played within different medieval communities.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Art History

**ARTH 4089 (3) Romanesque and Gothic Art**

Examines major artistic trends in Europe between the years 1000 and 1300, a period that witnessed, among others, the development of gothic cathedrals and the rise of the professional artist. Particular attention will be given to exchange with other cultures.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Art History

**ARTH 4099 (3) Ancient Greek Sculpture**

Understanding that Greek sculpture, like all visual media, was part of the fabric of ancient Greek life and expressed the values of its creators and audience is a valuable way to gain insights into the social, economic, and political world of ancient Greece. This course will examine the work of Greek sculptors from the Archaic to the Hellenistic period. Key stylistic and technical developments, as well as significant works of art, sculptors and workshops will be discussed in detail. Some issues we will consider are the physical, religious and/or socio-historical context of individual freestanding sculptures and how specific sculptural programs illustrate aspects of Greek culture. Iconographic and narrative choices made by artists working in stone, compared to other material, will also be addressed.

**Equivalent - Duplicate Degree Credit Not Granted:** CLAS 5099, CLAS 4099 and ARTH 5099

**ARTH 4109 (3) Ancient Italian Painting**

Explores the problems, theories and methods for understanding the iconography, styles, topologies, contexts and techniques of fresco wall painting in ancient Italy from the 6th century B.C.E. to the 4th century C.E. Topics covered include Etruscan tomb paintings, late Republican and early imperial fresco paintings from Rome and Campania and later Roman wall paintings, including the painted images in ancient catacombs. Previous coursework on ancient Italy or the history of pre-modern art is highly recommended.

**Equivalent - Duplicate Degree Credit Not Granted:** ARTH 5109 and CLAS 4109 and CLAS 5109

**Recommended:** Prerequisite CLAS 1509 or ARTH 1509 or CLAS 2049 or ARTH 2049.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Art History

**ARTH 4119 (3) Roman Sculpture**

Examines ancient Roman sculpture with emphasis on the display, iconography, and production of private and public monuments in the Roman Empire. Explores sculpture as evidence for historical developments, societal and gender attitudes, and state ideologies in the ancient Roman world.

**Equivalent - Duplicate Degree Credit Not Granted:** ARTH 5119 and CLAS 4119 and CLAS 5119

**Recommended:** Prerequisite ARTH 1300 or CLAS 2049.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Art History

**ARTH 4129 (3) Aegean Art and Archaeology**

Detailed study of the cultures of prehistoric Greece, the Cycladic Islands and Crete, their art and archaeology and their history within the broader context of the eastern Mediterranean, from earliest human settlement to the collapse of the Bronze Age at about 1100 B.C.E. Emphasis is on palace states.

**Equivalent - Duplicate Degree Credit Not Granted:** ANTH 4129 and ANTH 5129 and CLAS 4129 and CLAS 5129

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Art History

**ARTH 4139 (3) Greek Vase Painting**

A comprehensive overview of Greek vase painting, from prehistoric through the fourth century B.C.E. Emphasis is on learning the development of primary decorative styles and on refining skills of visual analysis, scholarly research, critical thinking, oral commentary and written presentation.

**Equivalent - Duplicate Degree Credit Not Granted:** ARTH 5139 and CLAS 4139 and CLAS 5139

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Art History

**ARTH 4149 (3) Greek Cities and Sanctuaries**

Examines Greek architecture in context, from the ninth century B.C.E. into the Hellenistic period, considering the use of space, both in religious and in civic settings and using texts as well as material culture. Emphasis is on developing analytical skills.

**Equivalent - Duplicate Degree Credit Not Granted:** CLAS 4149 and CLAS 5149

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Art History

**ARTH 4169 (3) Topics in Ancient and Classical Art and Archaeology**

In-depth consideration of an aspect of ancient Mediterranean culture. Topics vary and may include ancient wall painting, Greek sculpture, artists and patrons, the ancient Near East, Egyptian art and archaeology, or Etruscan art and archaeology.

**Equivalent - Duplicate Degree Credit Not Granted:** ARTH 5169 and CLAS 4169 and CLAS 5169

**Repeatable:** Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Art History

**ARTH 4189 (3) Medieval Art**

Focuses on one area of medieval art. Topics vary, but may include Carolingian, Ottonian, Romanesque, or Gothic art. Emphasizes critical thinking, methods of scholarly research, and development of writing skills.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Art History

**ARTH 4199 (3) Roman Architecture**

Examines the designs, functions and construction methods of ancient Roman towns, temples, baths, houses and civic structures, as well as utilitarian structures including roads and aqueducts. Emphasizes Roman architectural forms and spaces as vehicles for political propaganda and empire consolidation.

**Equivalent - Duplicate Degree Credit Not Granted:** CLAS 4199 and CLAS 5199

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Art History

**ARTH 4209 (6) Classical Archaeological Field Methods**

Offers experiential learning in theories and methods of archaeological fieldwork in the western Argolid in Greece. Applies methods for extensive survey, stratigraphic excavation, GIS modeling, ceramic analysis, numismatic analysis, architectural studies, artifact and data processing and documentation. Offered abroad only.

**Equivalent - Duplicate Degree Credit Not Granted:** CLAS 4209 and CLAS 5209

**Repeatable:** Repeatable for up to 12.00 total credit hours.

**Recommended:** Prerequisites CLAS 1509 or ARTH 1509 or CLAS/ARTH 2039 or CLAS/ARTH 2049.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Art History

**ARTH 4229 (3) Ancient Egyptian Art and Archaeology**

Archaeology of ancient Egypt in light of recent excavations; the history of excavations of the different sites; and the art of ancient Egypt through time. Formerly ANTH 4420.

**Equivalent - Duplicate Degree Credit Not Granted:** ARTH 5229 and CLAS 4229 and CLAS 5229

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Art History

**ARTH 4269 (3) Art and Archaeology of the Ancient Near East**

Examines civilizations of the Iran-Iraq region from the rise of urbanism in Mesopotamia through the era of the first 'world empire,' Achaemenid Persia. Emphasizes the material record of religious and state institutions of the ancient Near East, especially monuments that illustrate concepts of kingship. Explores notions of style, symbolism, visual rhetoric, text-image synthesis, patronage, creativity and roles of artists.

**Equivalent - Duplicate Degree Credit Not Granted:** ARTH 5269 and CLAS 4269 and CLAS 5269

**Recommended:** Prerequisite CLAS 1509 or ARTH 1509.

**Additional Information:** Arts Sci Core Curr: Human Diversity

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Diversity-Global Perspective

Departmental Category: Art History

Departmental Category: Asia Content

**ARTH 4279 (3) Michelangelo (1475-1564)**

Focuses on Michelangelo's long career, marked by outstanding achievements in sculpture, painting, architecture and poetry. Emphasizes his projects and achievements in light of 16th century artistic theory, including relationships to his contemporaries in the arts and literature.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Art History

**ARTH 4309 (3) Neoclassicism and Romanticism: 1760-1840**

Surveys painting and sculpture in England and France from the last quarter of the 18th century through the first half of the 19th century.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Art History

**ARTH 4319 (3) European Art from 1830 to 1886**

Surveys the major movements in painting in France and England from the Revolution of 1830 to the impressionist crisis of 1886. Emphasizes and discusses painting and major expressions in sculpture and architecture.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Art History

**ARTH 4329 (3) Modern Art 1**

Provides an in-depth study of the fin de siècle, stressing postimpressionism, art nouveau and symbolism. Concludes with fauvism in France and the expressionist movement in Germany.

**Additional Information:** Arts Sci Core Curr: Literature and the Arts

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Art History

**ARTH 4339 (3) Modern Art 2**

Begins with early Picasso and cubism, including analytic and synthetic cubism and emphasizing the various isms of the 20th century. Also studies Italian futurism, de Stijl and the Bauhaus, dada and surrealism.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Art History

**ARTH 4419 (3) The Arts of Colonial Mexico and Peru**

Examines important works, artists, and themes that comprise the artistic production of colonial Latin America. Focuses on the intermingling, convergence, and at times the clash of European, Amerindian, and African cultures, which established the foundation of Latin America's pluralism.

**Recommended:** Prerequisite ARTH 3729.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Art History

**ARTH 4449 (3) Arts of India and Southeast Asia**

Surveys Indian painting, sculpture and architecture from its earliest phases in the Indus Valley through the Mughal Empire. Encompasses Hindu, Buddhist and Islamic art of the subcontinent and Southeast Asia, as well as Himalayan cultures directly impacted by India's artistic legacies. Department enforced prerequisite: one 3000-level art history course (minimum grade D-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Art History

**ARTH 4459 (3) Precolumbian Art of Mesoamerica**

Introduces students to the art, architecture, and cultures of Mesoamerica, a region that encompasses modern-day Mexico, Guatemala, Belize, and parts of El Salvador, and Honduras. Focuses on major Pre-Columbian art objects and monuments to learn about the societies and cultures from which they came. Also considers the various roles that the visual arts and architecture played in these societies. Covers Olmec through Aztec civilizations.

**Recommended:** Prerequisite ARTH 3729.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Art History

**ARTH 4559 (3) Twentieth-Century Architecture**

Examines the major movements and development in European and American architecture, 1900-1960's. Considers the major styles, as well as cultural interactions, race/ethnicity, gender and class concerns as they relate to both the practice and profession of architecture.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Art History

**ARTH 4569 (3) United States Architecture**

Examines architecture as it developed in the area now defined as the continental United States from early cultures to the present. Considers the major styles and issues of cultural interaction, race/ethnicity, gender and class concerns as they relate to the practice, theory, and profession of architecture.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Art History

**ARTH 4599 (3) Contemporary Architecture**

Examines the history and theory of contemporary architecture. In the field of architecture, theory and history differ in that the former describes and analyzes past work, while theory offers alternative solutions or new strategies for approaching the discipline. Both of these components are key to understanding contemporary architecture, and this course will work between the two modes of understanding.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Art History

**ARTH 4609 (3) Critical Issues in Photography**

Examines the history and theory of photography and the relationship of photography to the other arts, as well as to literary, political, social and philosophical issues. Analyzes the critical issues that inform photography through the writings of critics, historians, and photographers using both thematic and chronological approaches.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Art History

**ARTH 4639 (3) Manet Seminar**

Introduces current Manet studies and research methods by drawing upon recent books, exhibition catalogues, and scholarly journal articles. Fulfills requirement for ARTH 4919, Capstone Seminar.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Art History

**ARTH 4649 (3) Impressionism & Post-Impressionism**

Fosters creative study of the background and foundation in modern art. Considers 19th-century European painting and, to a lesser degree, sculpture, in relation to social, cultural, and political history from 1863 to 1900. Focuses on France, but gives attention to other countries as well.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Art History

**ARTH 4669 (3) Romanticism & Realism**

Fosters creative study of the background and foundation of modern art. Considers 19th-century European (and, to a lesser degree, American) painting and sculpture in relation to social, cultural, and political history from 1789 (the French Revolution) to 1863 (the Salon des refusés). Focuses on France, but gives attention to other countries as well.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Art History

**ARTH 4689 (3) Post-Impressionism Seminar**

Introduces current Post-Impressionism studies and research methods by drawing upon recent books, exhibition catalogues, and scholarly journal articles.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Art History

**ARTH 4699 (3) The Idea of Art**

Studies contemporary critiques of historical ideas about the twin institutions of the university and the museum and the role of art history in the cultural mission of both. Explores fundamental questions about the role of art in society through weekly discussions of readings, a class presentation, and final research. Fulfills ARTH 4919 capstone seminar required for art history majors.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Art History

**ARTH 4739 (3) The Intellectual Roots of Italian Renaissance Art**

Studies critical issues raised in the literature on art, focusing on Renaissance interpretations of key historical themes such as imitation and decorum. Carefully examines the language used in primary sources (available in English).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Art History

**ARTH 4749 (3) Italian Renaissance Art: Studies in the Exchange between Theory and Practice**

Addresses how artists developed new compositional procedures, graphic techniques and audiences, and how these procedures were theorized in an age when artists' intellectual and social status rose dramatically. Explores reception of new graphic technology. Studies specific commissions and primary texts in depth.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Art History

**ARTH 4769 (3) Gender Studies in Early Modern Visual Culture**

Examines 15th and 16th century European ideas about women from a variety of feminist perspectives. Focuses on recent contributions to history of women as they intersect with the visual arts.

**Equivalent - Duplicate Degree Credit Not Granted:** WGST 4769

**Additional Information:** Arts Sci Core Curr: Human Diversity  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-Global Perspective  
Departmental Category: Art History

**ARTH 4909 (1-3) Independent Study---Art History**

**Repeatable:** Repeatable for up to 7.00 total credit hours.

**Additional Information:** Departmental Category: Art History

**ARTH 4919 (3) Capstone Seminar: Topics in Art History**

Seminar course dealing with selected areas or problems within the history of art. Consult current online Schedule Planner for seminar topic.

**Repeatable:** Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Restricted to Art History (AAAH) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Art History

**ARTH 4929 (1-3) Special Topics in Art History**

**Equivalent - Duplicate Degree Credit Not Granted:** ARTH 5929

**Repeatable:** Repeatable for up to 18.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Art History

**ARTH 4939 (3-6) Art Museum Internship**

Focuses on opportunities at the Denver Art Museum, working with individual curators and master teachers in selected areas, such as audience interpretation, interpretive research files, and public school curriculums. Introduces students to the professional culture and activities of art museums.

**Equivalent - Duplicate Degree Credit Not Granted:** ARTH 5939

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Departmental Category: Art History

**ARTH 4959 (3) Art History Honors Thesis**

May be elected during the final semester. Consists of a substantial, original written thesis. Requires faculty sponsorship. Does not guarantee a student will receive honors.

**Additional Information:** Arts Sciences Honors Course  
Departmental Category: Art History

## Art Studio and Non-Studio

### ARTS 1002 (3) Beginning Drawing 1

Formal visual elements are presented through a study of spatial relationship. Built around a series of related problems, each of which is designed to develop fluency in drawing, offer experience in handling media, foster self-confidence and promote an understanding of the visual elements and their role in the development of pictorial space.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Painting/Drawing

### ARTS 1003 (3) Printmaking for Non-Majors

Emphasizes processes involved with both nonmultiple and multiple methods, including but not limited to metal plate etching (intaglio), lithography, collagraph, woodcut, linoleum cut, Xerox transfer, and monotype. Places equal emphases on developing drawing skills and understanding design principles.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Printmaking

### ARTS 1010 (3) Introduction to Studio Art

Presents creative activity conceptually, and art history thematically, with an interdisciplinary, experimental, and multicultural focus. Fine arts majors explore visual literacy and culture through presentations and student-centered projects that emphasize individual development.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Foundations

### ARTS 1012 (3) Drawing for Non-Majors

Explores varied drawing techniques and media. Introduces concepts relevant to the understanding of drawing and the creative process. May not be repeated.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Painting/Drawing

### ARTS 1020 (3) Introduction to Studio Art 2

Presents creative activity conceptually and art history thematically, with an interdisciplinary, experimental, and multicultural focus. Art and art history majors explore visual literacy and culture through presentations and student-centered projects that emphasize individual development.

**Requisites:** Requires prerequisite course of ARTS 1010 (minimum grade D-). Restricted to Studio Arts (AASA or AASF) or Art History (AAAH) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Foundations

### ARTS 1030 (3) Principles of Color

Introduces the relative effects of color as used by the artist. Emphasizes the practice of color relations including basic characteristics, mixtures, illusions, optical mixture, color intervals, and color quantity. May not be repeated.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Foundations

### ARTS 1171 (3) Photography for Non-Majors

Introduces techniques and concepts of photography as art. Emphasizes photography as a means to formal and expressive ends. Students must have an adjustable film camera.

**Equivalent - Duplicate Degree Credit Not Granted:** ARTS 2171

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Photography

### ARTS 1202 (3) Basic Painting

The aim of this course is to develop the basic skills, techniques and processes of painting with an understanding of basic colour principles. This integration of paint application and colour principle will develop awareness that painting and colour are used, not only as mediums for representation, but also as mediums for expressive purposes. Demonstrations, lectures, group and individual critiques will be given throughout the course.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Painting/Drawing

### ARTS 1212 (3) Painting for Non-Majors

Explores varied painting techniques. Introduces concepts relevant to the understanding of painting and the creative process. May not be repeated.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Painting/Drawing

### ARTS 1514 (3) Sculpture for Non-Majors

Offers an orientation involving three-dimensional form and application. Studies expressive and conceptual problems based on non-objective form relationships in various sculptural materials. May not be repeated.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Sculpture

### ARTS 1875 (3) Ceramics for Non-Majors

Encompasses broad and fundamental uses of clay. Basic instruction and demonstration of throwing, hand building, and primitive clay forming methods. Investigates utility, function, and ceramics in the broader context of contemporary art. Slide presentations explore historical and contemporary attitudes involving ceramics.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Ceramics

### ARTS 2004 (3) Participatory Objects (Sculpture and Post-Studio Practice)

Looks at the tendency in contemporary sculpture to create interactive objects and experiences for the viewer. Students in this course are required to create hands-on projects, participate in group critiques and develop presentations and research projects.

**Recommended:** Prerequisite ARTS 2504.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Sculpture

### ARTS 2022 (3) Beginning Drawing

Emphasizes proportion and perspective through observation based drawing. Students are introduced to various drawing materials and learn to translate what they see into drawing media using two basic subjects: still-life and the figure.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Painting/Drawing

### ARTS 2085 (3) Ceramics 2: Handbuilding

Introduces techniques of hand-built clay forms as they relate to function and nonfunction. Various clay techniques, glazing and firing procedures are explored. Emphasizes ceramics in the broader context of contemporary art. May not be repeated.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Ceramics

### ARTS 2095 (3) Ceramics 2: Wheelthrowing

Introduces techniques of wheel-thrown forms as they relate to function and nonfunction. Explores various glazing and firing methods. May not be repeated.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Ceramics

**ARTS 2104 (3) Colossal Objects (Sculpture and Post-Studio Practice)**

Focuses on the conception, design and production of art works that are larger than human scale. Each object will be the result of individual and team design collaboration. Primarily focuses on sculpture constructed and engineered from metal although other materials are welcome.

**Recommended:** Prerequisite ARTS 2504.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Sculpture

**ARTS 2126 (3) Digital Art 1**

An introductory course in the use of the personal computer to create and process images in the visual arts.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Media Arts

**ARTS 2171 (3) Photography 1**

Introduces techniques and concepts of photography as art. Emphasizes photography as a means to formal and expressive ends. Students must have an adjustable camera.

**Equivalent - Duplicate Degree Credit Not Granted:** ARTS 1171

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Photography

**ARTS 2191 (3) Photography 2**

Explores more sophisticated technical and conceptual skills to the creative process.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Photography

**ARTS 2222 (3) Beginning Painting**

Emphasizes color and descriptive mark making through observation based painting. Students are introduced to various painting materials and learn to translate what they see into painting media using two basic subjects: still-life and the figure.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Painting/Drawing

**ARTS 2244 (3) Drawing for Sculpture (Sculpture and Post-Studio Practice)**

Explores and examines many relationships between sculpture and drawing. Projects will explore 2-D drawing and mixed media projects through the lens of sculptural practice. Scale, materials and styles will be researched along with topics such as the artists proposal, investigative processes, drawing and sculptural installations.

**Recommended:** Prerequisite ARTS 2504.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Sculpture

**ARTS 2284 (3) Nothing Flat 1: Project a Week (Sculpture & Post-Studio Practice)**

Provides students the opportunity to work with a range of sculptural materials through a series of quick projects (e.g. installation, objects, writing). Students will learn to generate ideas quickly, engage issues and formats particular to sculpture, and produce a wide range of work over 15 weeks.

**Requisites:** Requires prerequisite of ARTS 1010 (minimum grade D-).

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**ARTS 2303 (3) Beginning Relief**

Emphasis on introductions to the concepts and techniques of relief processes, including white line, black line and four color reductive processes. Students will gain a working knowledge of fundamental relief processes, plus safe and appropriate use of all materials and equipment in the studio.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Printmaking

**ARTS 2384 (3) Fleeting and Found 1: Ephemeral Sculpture 1**

Focuses on introductory level processes of creating sculpture projects which are ephemeral and temporary. Themes of process, lifespan, migration, tension, entropy, and degradation will be explored. This course will include lectures, readings and discussions, writing assignments, studio projects, and visual presentations.

**Requisites:** Requires prerequisite of ARTS 1010 (minimum grade C).

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Sculpture

**ARTS 2403 (3) Beginning Intaglio**

Emphasizes an introduction to techniques of intaglio and a focus on working with copper and ferric chloride. Historical approaches and use through contemporary materials/concepts. Emphasizes interrelationship of process, materials and ideas/aesthetics.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Printmaking

**ARTS 2413 (3) Beginning Lithography**

Exploration into stone lithography and aluminum plate is presented in this class. Individual direction and development of conceptual focus and studio techniques are important objectives in this class. Safer ways to make lithographs is highlighted and the toxic traditional methods are left behind.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Printmaking

**ARTS 2423 (3) Beginning Screenprinting**

Exploration into screenprinting at the basic level, using stencil-making processes for screenprinting with acrylic-based screenprinting inks. Emphasis is placed on exploring and developing challenging concepts, mastering basic techniques and creating compositions and visual images that successfully convey your concept and challenge the viewer. Course is focused on the art of fine art printing on paper.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Printmaking

**ARTS 2433 (3) Beginning Alternative Printmaking**

Presents creative development of concepts in printmaking beyond the traditional two-dimensional image on paper that is contained in a portfolio or frame. Focus will be made on expanding the concept of what is a print will be explored in relation to each student's studio practice and interests.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Printmaking

**ARTS 2453 (3) Beginning Monotype**

Introduces the monoprint and monotype methods. Students will learn the about making non-editioned prints using a variety of four or more technical approaches. These processes will be discussed and demonstrated in depth. Students will develop a portfolio of finished prints during the semester.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Printmaking

**ARTS 2504 (3) Basic Sculpture: Materials and Techniques**

Introduces the basic properties of metal, wood and mold making. Students will explore and demonstrate an understanding of basic fabrication methods involved in each element. Students will investigate both traditional and non-traditional working methods and will consider how materials and techniques inform sculptural concepts.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Sculpture

**ARTS 2524 (3) Visual Thinking (Sculpture and Post-Studio Practice)**

Explores ideas concerning the structure and nature of visual thinking and their relationship to the creative thought process. Investigates form in terms of the organizing principles of three-dimensional design and its application to contemporary sculpture. Includes lecture and studio projects.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Sculpture

**ARTS 3002 (3) Drawing Alternative Process/Materials**

Continuation of Drawing 2. Offers creative possibilities in drawing and related media. Emphasizes experimentation and individual expression. Content varies by semester according to instructor; contact individual instructor for more information. May be repeated once.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires prerequisite course of ARTS 2002 (minimum grade D-). Restricted to Studio Arts (AASA or AASF) or Art History (AAAH) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Painting/Drawing

**ARTS 3004 (3) Land and Environmental Art (Sculpture and Post-Studio Practice)**

Covers land and environmental art, providing an historical survey along with hands on projects in the landscape. Focusing on themes of site, environment, landforms, weather and earth materials, students will design and realize art projects on the land. Includes lectures, readings and discussions, writing assignments, studio projects and visual presentations.

**Requisites:** Requires a prerequisite or corequisite course of ARTS 1020 (minimum grade D-). Restricted to Studio Arts (AASA or AASF) or Art History (AAAH) majors only.

**Recommended:** Prerequisites ARTS 2504 and ARTS 2524.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Sculpture

**ARTS 3012 (3) Figure Drawing**

Explores varied drawing techniques and media. Introduces concepts relevant to the understanding of drawing and the creative process. May not be repeated. Formerly ARTS 2002.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Painting/Drawing

**ARTS 3014 (3) Art and Social Practice (Sculpture and Post-Studio Practice)**

Covers social art practice, providing an historical survey along with hands on projects in social environments. Focusing on issues of public space, economic and cultural marginalization and political causes, this course provides students a forum for expressions of social reality. Includes lectures, readings and discussions, writing assignments, studio projects and visual presentations.

**Requisites:** Requires a prerequisite or corequisite course of ARTS 1020 (minimum grade D-). Restricted to Studio Arts (AASA or AASF) or Art History (AAAH) majors only.

**Recommended:** Prerequisites ARTS 2504 and ARTS 2524.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Sculpture

**ARTS 3017 (1-3) Special Topics in Studio Arts**

Introduces timely subjects in studio arts courses that cannot be offered on a regular basis. Information concerning the topics in any given semester is available prior to pre-registration from the department of Art and Art History.

**Repeatable:** Repeatable for up to 7.00 total credit hours.

**Requisites:** Requires prerequisite courses of ARTS 1010 and ARTS 1020 and ARTH 1300 or ARTH 1400 (all minimum grade D-). Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Seminars/Special Topics

**ARTS 3022 (3) Intermediate Drawing**

In addition to being a continuation of Beginning Drawing, Intermediate Drawing will focus on a non-traditional approach to making images encouraging conceptual development, experimentation and research. Moving beyond observation based drawings multiple thematic possibilities will be explored. Emphasis will be placed equally on ideas and technical execution.

**Requisites:** Requires prerequisite courses of ARTS 1010, 1020 and 2022 (all minimum grade C-). Restricted to students with 57-180 credits (Juniors or Seniors).

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Painting/Drawing

**ARTS 3054 (3) Sculpture: Modules and Multiples 2**

Exposes students to the practice of creating large works through smaller multiples and modules. By learning about the practices of artists such as Andy Warhol, Joseph Beuys, Rachel Whiteread and Robert Gober, along with many others, students will generate an understanding and appreciation for the module and multiple in contemporary art practice. Students will learn to cast using plaster and other type of molds, will be introduced to jigs as a way to streamline production of multiple objects and will work with found objects. Students will be required to complete 3 projects, participate in group critiques of projects, produce a slide presentation on a contemporary artist whose work/practice fits within the theme of the course and prepare a final portfolio. Studio work and demonstrations will be augmented by readings and discussions on contemporary art.

**Requisites:** Requires a prerequisite or corequisite course of ARTS 1020 (minimum grade D-). Restricted to Studio Arts (AASA or AASF) or Art History (AAAH) majors only.

**Recommended:** Prerequisite ARTS 2504.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Sculpture

**ARTS 3085 (3) Ceramics 3**

Deals with further exploration of techniques approached in ARTH 2085 and ARTH 2095. Students are encouraged to develop personal concentration in relation to medium.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires prerequisite courses of ARTS 2085 and ARTH 2095 (all minimum grade D-). Restricted to Studio Arts (AASA or AASF) or Art History (AAAH) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Ceramics

**ARTS 3097 (1-3) Special Topics - Non-Studio**

Introduces timely subjects in fine arts that cannot be offered on a regular basis. Information concerning the topics offered in any given semester is available prior to preregistration from the Department of Art and Art History.

**Repeatable:** Repeatable for up to 7.00 total credit hours.

**Requisites:** Requires prerequisite courses of ARTS 1010 and ARTS 1020 and ARTH 1300 or ARTH 1400 (all minimum grade D-). Restricted to Studio Arts (AASA) or Fine Arts-Studio (BASA and BFAS) or Fine Arts-Art History (BAAH) or Art History (AAAH) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Seminars/Special Topics

**ARTS 3124 (3) Intervention, Exchange, and Duration (Sculpture & Post-Studio Practice)**

Focuses on the production of works of art outside of the traditional studio, museum and gallery. Projects will be designed to interrupt, intervene, co-opt, provide a service, exist for a defined amount of time, or engage a site, community or situation. Includes lectures, readings and discussions, writing assignments, studio projects and visual presentations.

**Requisites:** Requires a prerequisite or corequisite course of ARTS 1020 (minimum grade D-). Restricted to Studio Arts (AASA or AASF) or Art History (AAAH) majors only.

**Recommended:** Prerequisite ARTS 2504.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Sculpture

**ARTS 3184 (3) Nothing Flat: Project a Week (Sculpture & Post-Studio Practice)**

Provides students the opportunity to work with a range of sculptural materials through a series of quick projects (e.g. installation, objects, writing). Students will learn to generate ideas quickly, engage issues and formats particular to sculpture, and produce a wide range of work over 15 weeks. Formerly ARTS 2184.

**Requisites:** Requires a prerequisite or corequisite course of ARTS 1020 (minimum grade D-). Restricted to Studio Arts (AASA or AASF) or Art History (AAAH) majors only.

**Recommended:** Prerequisite ARTS 2504.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Sculpture

**ARTS 3191 (3) Photography 3**

Continues the exploration of the possibility of individual photographic expression. Students are encouraged to discover and develop a personal position in relation to the medium.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires prerequisite course of ARTS 2191 (minimum grade D-). Restricted to Studio Arts (AASA or AASF) or Art History (AAAH) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Photography

**ARTS 3196 (3) Photo-Imaging**

Introduces techniques, software, and related concepts of digital photography as art. Emphasizes digital photography as a means to formal and expressive ends.

**Requisites:** Requires prerequisite course of ARTS 1171 (minimum grade D-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Media Arts

**ARTS 3202 (3) Painting Alternative Process/Materials**

Continuation of Painting 2. Offers creative possibilities in painting and related media. Emphasizes experimentation and individual expression. Content varies by semester according to instructor; contact individual instructor for more information.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires prerequisite course of ARTS 3212 (minimum grade D-). Restricted to Studio Arts (AASA or AASF) or Art History (AAAH) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Painting/Drawing

**ARTS 3212 (3) Figure Painting**

Explores varied painting techniques. Introduces concepts relevant to the understanding of painting and the creative process. May not be repeated. Formerly ARTS 2202.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Painting/Drawing

**ARTS 3222 (3) Intermediate Painting**

In addition to being a continuation of Beginning Painting, this course focuses on a non-traditional approach to making paintings encouraging conceptual development, experimentation and research. Moving beyond observation based painting multiple thematic possibilities will be explored. Emphasis will be placed equally on ideas and technical execution.

**Requisites:** Requires prerequisite courses of ARTS 1010 and ARTS 1020 and ARTS 2222 (all minimum grade C-). Restricted to students with 57-180 credits (Juniors or Seniors).

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Painting/Drawing

**ARTS 3224 (3) Picturing Sculpture**

Explores the many ways photography and other forms of imagery have been utilized in the field of sculpture. Students will start from the sculptural, but those objects and installations will function as an intermediary to creating final work that will rest in the image. Include lectures, readings and discussions, writing assignments, studio projects and visual presentations.

**Requisites:** Requires a prerequisite or corequisite course of ARTS 1020 (minimum grade D-). Restricted to Studio Arts (AASA or AASF) or Art History (AAAH) majors only.

**Recommended:** Prerequisites ARTS 2504 and ARTS 2524.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Sculpture

**ARTS 3236 (3) Electronic Arts Survey**

Explores the development of video as an art form through tape screenings, readings, lectures, and discussions. Prerequisite for further studies in video production.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Media Arts

**ARTS 3284 (3) Nothing Flat 2: Project a Week (Sculpture and Post-Studio Practice)**

Provides students the opportunity to work with a range of sculptural materials through a series of quick projects (e.g. installation, objects, writing). Students will learn to generate ideas quickly, engage issues and formats particular to sculpture, and produces a wide range of work over 15 weeks. This course builds on ideas introduced in Nothing Flat 1.

**Requisites:** Requires prerequisite of ARTS 1010 and ARTS 1020 and prerequisite or corequisite of ARTS 2504 (all minimum grade D-).

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**ARTS 3303 (3) Relief 1**

Continued exploration of relief processes: various techniques of the collage process in combination with the art and process of the collograph. Examining the collage aesthetic, creating collages and collograph prints from found materials and objects. Other skills to be focused on include registration methods, blend rolls and the experimentation with rubbings.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires prerequisite courses of ARTS 1010 and ARTS 1020 and ARTS 2303 (all minimum grade D-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Printmaking

**ARTS 3354 (3) Bend, Build, Burn: Sculpture in Wood**

Focuses on the production of works of art in wood. Class projects explore building, bending, and burning with wood. Focuses on sculptural constructed objects although possibilities of installation, site-specific and public art will also be explored.

**Requisites:** Requires prerequisite courses of ARTS 1010 and ARTS 1020 (all minimum grade D-).

**Recommended:** Prerequisites ARTS 2504 and ARTS 2524.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Sculpture

**ARTS 3384 (3) Fleeting and Found 2: Ephemeral Sculpture 2**

Focuses on creating sculpture projects which are ephemeral and temporary. Themes of process, lifespan, migration, tension, entropy and degradation will be explored. Includes lectures, readings and discussions, writing assignments, studio projects and visual presentations.

**Requisites:** Requires prerequisite of ARTS 1010 (minimum grade C).

**Recommended:** Prerequisites ARTS 2504 and ARTS 2524.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Sculpture

**ARTS 3403 (3) Intaglio 1**

Exploration into techniques of Intaglio with a focus on working with copper and ferric chloride. Historical approaches and use through contemporary materials and concepts. Emphasis is placed on mastering basic techniques, creating compositions and visual images, and exploring and developing concepts that challenge the viewer.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires prerequisite courses of ARTS 1010 and ARTS 1020 and ARTS 2403 (all minimum grade D-). Restricted to Studio Arts (AASA or AASF) or Art History (AAAH) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Printmaking

**ARTS 3413 (3) Lithography 1**

Introduces the study of stone and metal plate lithography, emphasizing individual creative development in black and white and further development in color printing processes. Not available to freshmen. Taught with ARTS 4413 and ARTS 5413.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Restricted to Studio Arts (AASA or AASF) or Art History (AAAH) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Printmaking

**ARTS 3423 (3) Screen Printing 1**

Introduces the study of silkscreen techniques, emphasizing creativity, individual development, and experimentation in contemporary silkscreen processes.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) Studio Arts (AASA or AASF) or Art History (AAAH) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Printmaking

**ARTS 3433 (3) Alternative Printmaking 1**

Continued exploration into the development of alternative techniques and materials, methods of extending the print beyond 2-dimensions and expanding the concept of what is a print will be explored in relation to each student's studio practice and interests.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires prerequisite courses of ARTS 1010 and ARTS 1020 and ARTS 2433 (all minimum grade D-).

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Printmaking

**ARTS 3434 (3) Collaboration: Art and Collective Action**

Covers both historical background and hands on projects that are collaborative in nature. Includes lectures, readings and discussions, writing assignments, studio projects and visual presentations.

**Requisites:** Requires a prerequisite or corequisite course of ARTS 1020 (minimum grade D-). Restricted to Studio Arts (AASA or AASF) or Art History (AAAH) majors only.

**Recommended:** Prerequisites ARTS 2504 and ARTS 2524.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Sculpture

**ARTS 3453 (3) Monotype 1**

A continued exploration in the monoprint and monotype methods. Use of a varied grouping of matrixes will be the focus of this class. Students will develop a portfolio of finished prints during the semester.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires prerequisite courses of ARTS 1010 and ARTS 1020 and ARTS 2453 (all minimum grade D-).

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Printmaking

**ARTS 3504 (3) Sculpture 3: Experiments 1**

Explores materials, methods, and techniques through a series of assignments emphasizing individual ideas and their relationship to contemporary aesthetics.

**Requisites:** Requires prerequisite courses of ARTS 2504 and ARTS 2524 (all minimum grade D-). Restricted to Studio Arts (AASA or AASF) or Art History (AAAH) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Sculpture

**ARTS 3514 (3) Sculpture 3: Experiments 2**

Explores individual concepts and ideas and their relationship to contemporary issues and aesthetics. a series of assignments are worked out with the instructor based on individual interest.

**Requisites:** Requires prerequisite course of ARTS 3504 (minimum grade D-). Restricted to Studio Arts (AASA or AASF) or Art History (AAAH) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Sculpture

**ARTS 3604 (3) Beyond the Studio: Post-Studio Art Practice**

Overview of post-studio art practice and covers the historical landscape of artists and projects that have pushed "beyond the studio" since 1970. Includes lectures, readings and discussions, writing assignments, studio projects and visual presentations.

**Requisites:** Requires a prerequisite or corequisite course of ARTS 1020 (minimum grade D-). Restricted to Studio Arts (AASA or AASF) or Art History (AAAH) majors only.

**Recommended:** Prerequisites ARTS 2504 and ARTS 2524.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Sculpture

**ARTS 3614 (3) Lost in Space: Installation Art**

Students learn how to develop ideas in relation to installation art, exhibition spaces, and explore practical skills to help carry out their ideas. Includes lectures, readings and discussion, writing assignments, studio projects and visual presentations.

**Requisites:** Requires a prerequisite or corequisite course of ARTS 1020 (minimum grade D-). Restricted to Studio Arts (AASA or AASF) or Art History (AAAH) majors only.

**Recommended:** Prerequisites ARTS 2504 and ARTS 2524.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Sculpture

**ARTS 3702 (3) Special Focus in Painting and Drawing**

Offers varied focus and special topics in painting, drawing, and related media to explore specialized directions and creative possibilities. Emphasizes experimentation. Content varies by semester; contact individual instructor for more information.

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Requires prerequisite course of ARTS 2002 or ARTS 2202 (minimum grade D-).

**Recommended:** Prerequisite ARTS 3002 or ARTS 3202.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Painting/Drawing

**ARTS 3714 (3) Experimental Structures (Sculpture and Post-Studio Practice)**

Explores the interface of sculpture and architecture. Looks at individuals and collectives that have become renowned for their work with experimental structures and students will have the opportunity to build hands-on experiments. Includes lectures, readings and discussions, writing assignments, studio projects and visual presentations.

**Requisites:** Requires a prerequisite or corequisite course of ARTS 1020 (minimum grade D-). Restricted to Studio Arts (AASA or AASF) or Art History (AAAH) majors only.

**Recommended:** Prerequisites ARTS 2504 and ARTS 2524.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Sculpture

**ARTS 3841 (1-3) Undergraduate Independent Study---Photography**

Reserved only for special projects in photography, not offered in the curriculum. Requires a detailed proposal, instructor's signature and departmental approval.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires prerequisite course of ARTS 3191 or ARTS 4161 (minimum grade D-).

**Additional Information:** Departmental Category: Photography

**ARTS 3842 (1-3) Undergraduate Independent Study---Painting**

Reserved for special projects in painting not offered in the curriculum. Requires a detailed proposal, instructor's sponsorship, and departmental approval.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires prerequisite course of ARTS 3202 (minimum grade D-).

**Additional Information:** Departmental Category: Painting/Drawing

**ARTS 3845 (1-3) Undergraduate Independent Study---Ceramics**

Reserved for special projects in ceramics not offered in the curriculum. Requires a detailed proposal, instructor's sponsorship, and departmental approval.

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Requires prerequisite course of ARTS 3085 (minimum grade D-).

**Additional Information:** Departmental Category: Ceramics

**ARTS 3847 (1-3) Independent Study**

Reserved for special projects not offered in the curriculum. Department enforced prerequisite: detailed proposal, instructor sponsorship, and departmental approval.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Additional Information:** Departmental Category: Seminars/Special Topics

**ARTS 3906 (1-3) Undergraduate Independent Study---Video**

Reserved for special projects in video not offered in the curriculum. Requires a detailed proposal, instructor's sponsorship, and departmental approval.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires prerequisite course of ARTS 4246 (minimum grade D-).

**Additional Information:** Departmental Category: Media Arts

**ARTS 3937 (1-6) Internship**

Gives upper-division students the opportunity to work in public or private organizations on assignments relating to their career goals, and allows them to explore the relationship between theory and practice in their major.

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Restricted to students with 57-180 credits (Junior or Senior) Studio Arts (AASA or AASF) or Art History (AAAH) majors only.

**Additional Information:** Departmental Category: Seminars/Special Topics

**ARTS 4002 (3) Advanced Drawing/Portfolio**

Continuation of Drawing 3. Advanced studio class in drawing for creative expression and individual portfolio development. Emphasis varies by semester; contact individual instructor for more information.

**Repeatable:** Repeatable for up to 12.00 total credit hours.

**Requisites:** Requires prerequisite course of ARTS 1010 and 1020 and 2222 and 3222 (all require minimum grade of D-). Restricted to Junior and Senior Studio Arts (AASA or AASF) or Art History (AAAH) majors only. .

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Painting/Drawing

**ARTS 4004 (3) Land and Environmental Art (Sculpture and Post-Studio Practice)**

Covers land and environmental art, providing an historical survey along with hands on projects in the landscape. Focusing on themes of site, environment, landforms, weather, and earth materials, students will design and realize art projects on the land. Includes lectures, readings and discussions, writing assignments, studio projects and visual presentations.

**Requisites:** Requires a prerequisite or corequisite course of ARTS 1020 (minimum grade D-). Restricted to Studio Arts (AASA or AASF) or Art History (AAAH) majors only.

**Recommended:** Prerequisites ARTS 2504 and ARTS 2524.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Sculpture

**ARTS 4014 (3) Art and Social Practice (Sculpture and Post-Studio Practice)**

Covers social art practice, providing an historical survey along with hands on projects in social environments. Focusing on issues of public space, economic and cultural marginalization and political causes, provides students a forum for expressions of social reality. Includes lectures, readings and discussions, writing assignments, studio projects and visual presentations.

**Requisites:** Requires a prerequisite or corequisite course of ARTS 1020 (minimum grade D-). Restricted to Studio Arts (AASA or AASF) or Art History (AAAH) majors only.

**Recommended:** Prerequisites ARTS 2504 and ARTS 2524.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Sculpture

**ARTS 4017 (1-3) Special Topics in Studio Arts**

Introduces timely subjects in studio art courses that cannot be offered on a regular basis. Information on topics in any given semester is available prior to pre-registration in departmental office.

**Equivalent - Duplicate Degree Credit Not Granted:** ARTS 5017

**Repeatable:** Repeatable for up to 18.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Requires prerequisite courses of ARTS 1010 and ARTS 1020 and ARTH 1300 or ARTH 1400 (all minimum grade D-). Restricted to Studio Arts (AASA or AASF) or Art History (AAAH) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Seminars/Special Topics

**ARTS 4024 (3) Public Art**

Focuses on the two areas 1) lecture/discussion, both based on political, historical and the aesthetic evolution regarding examples of public art and 2) current practice, in reference to how to use such information to generate new more innovative and original ideas regarding public art and its application. Includes lectures, readings and discussions, writing assignments, studio projects and visual presentations.

**Equivalent - Duplicate Degree Credit Not Granted:** ARTS 5024

**Requisites:** Requires a prerequisite or corequisite course of ARTS 1020 (minimum grade D-). Restricted to Studio Arts (AASA or AASF) or Art History (AAAH) majors only.

**Recommended:** Prerequisites ARTS 2504 and ARTS 2524 and ARTS 3504.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Sculpture

**ARTS 4085 (3) Ceramics 4**

Develop a personal creative practice through self-generated, independent projects. The focus is on developing an individual studio discipline through experimentation, research, reading and writing and examining the work in individual critiques.

**Repeatable:** Repeatable for up to 12.00 total credit hours.

**Requisites:** Requires prerequisite course of ARTS 3085 (minimum grade D-). Restricted to Studio Arts (AASA or AASF) or Art History (AAAH) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Ceramics

**ARTS 4087 (3) Selected Topics in Contemporary Art**

Selectively studies significant areas of visual art of the last decade including major critical opinions.

**Equivalent - Duplicate Degree Credit Not Granted:** ARTS 5087

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Requires prerequisite of 20 units of ARTS or ARTH coursework completed (minimum grade D-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Seminars/Special Topics

**ARTS 4095 (3) Special Topics in Ceramics**

Designed for students majoring in ceramics.

**Equivalent - Duplicate Degree Credit Not Granted:** ARTS 5095

**Repeatable:** Repeatable for up to 9.00 total credit hours.

**Requisites:** Requires prerequisite course of ARTS 3085 (minimum grade D-). Restricted to Studio Arts (AASA or AASF) or Art History (AAAH) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Ceramics

**ARTS 4097 (1-3) Special Topics-Non-Studio**

Introduces timely subjects in the visual arts that cannot be offered on a regular basis. Information concerning the topics offered in any given semester is available prior to preregistration from the fine arts department.

**Equivalent - Duplicate Degree Credit Not Granted:** ARTS 5097

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires prerequisite courses of ARTS 1010 and ARTS 1020 and ARTH 1300 or ARTH 1400 (all minimum grade D-). Restricted to Studio Arts (AASA or AASF) or Art History (AAAH) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Seminars/Special Topics

**ARTS 4104 (3) Performance/Installation**

Primarily focuses upon personal imagery as a live situation occurring in either an invented constructed reality or real environment. Work may be individual or group configuration and may also take on the visual linguistic form of a solo performance or of a multimedia presentation.

**Equivalent - Duplicate Degree Credit Not Granted:** ARTS 5104

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires prerequisite courses of ARTS 1010 and ARTS 1020 and ARTH 1300 or ARTH 1400 (all minimum grade D-). Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Sculpture

**ARTS 4107 (1-3) Special Topics**

**Repeatable:** Repeatable for up to 3.00 total credit hours.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Seminars/Special Topics

**ARTS 4117 (3) BFA Seminar**

For students intending to pursue graduate work and/or a professional career in art. Emphasizes the development of a critical overview of their work and interests and how they relate to the problems of professional activity.

**Requisites:** Restricted to Studio Arts (AASF) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Seminars/Special Topics

**ARTS 4118 (3) Visiting Artist Program**

Artists of national and international reputation, interacting with graduate and advanced undergraduate students, discuss their studio work at seminar meetings and at public lectures or events. Provides continuous input of significant developments and a comprehensive view of contemporary issues in the arts. Department enforced prerequisite: portfolio review.

**Equivalent - Duplicate Degree Credit Not Granted:** ARTS 5118

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Restricted to students with 87-180 credits (Senior) Studio Arts (AASA or AASF) or Art History (AAAH) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Visiting Artist Program

**ARTS 4126 (3) Digital Art 2**

Offers studio experience using personal computer in the generation and processing of imagery in the visual arts.

**Equivalent - Duplicate Degree Credit Not Granted:** ARTS 5126

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires prerequisite course of ARTS 2126 (minimum grade D-). Restricted to Studio Arts (AASA or AASF) or Art History (AAAH) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Media Arts

**ARTS 4127 (3) Art from Nature**

Provides an opportunity for advanced students to create nature based art. Studio work and/or appropriate on-site works will be generated through readings and individual and group experiences of nature.

**Requisites:** Requires prerequisite of one 4000-level ARTS course (minimum grade D-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Seminars/Special Topics

**ARTS 4130 (3) Integrated Media**

Encourages experimentation with media and integration of traditional areas of drawing, painting, sculpture and photography. Covers two- and three-dimensional collage/assemblage, correspondence art, artist's books, site-specific, performance, audio and video art.

**Equivalent - Duplicate Degree Credit Not Granted:** ARTS 5130

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Integrated Arts

**ARTS 4154 (3) Metalsmithing 1**

Introduces students to the fundamental techniques used in metalsmithing, including cold and hot fabrication techniques, forming and coloring. Through projects, discussions, readings and demonstrations, students will learn how to create, analyze, understand and critique contemporary metalwork. Projects will focus on design and concept development, while enhancing students' technical and problem-solving skills.

**Equivalent - Duplicate Degree Credit Not Granted:** ARTS 5154

**Requisites:** Requires prerequisite courses of ARTS 1010, 1020, at least one 2000-level ARTS course, and at least one 3000-level ARTS course (all minimum grade D-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Sculpture

**ARTS 4161 (3) Photography 4**

Explores advanced techniques and concepts of photography as art. Emphasizes photography as a means to formal and expressive ends.

**Repeatable:** Repeatable for up to 12.00 total credit hours.

**Requisites:** Requires prerequisite course of ARTS 3191 (minimum grade D-). Restricted to Studio Arts (AASA or AASF) or Art History (AAAH) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Photography

**ARTS 4171 (3) New Directions in Photography**

Investigates the use of the photographic image in new, antique, or nonstandard ways including nonsilver, photosculture, various color processes, photolanguage, photoinstallations, electronic media, performance, filmmaking, electrostatic art (copy machine), photobooks, photocollage, and audio/visual art. Course content changes each semester.

**Equivalent - Duplicate Degree Credit Not Granted:** ARTS 5171

**Repeatable:** Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Requires prerequisite course of ARTS 3191 (minimum grade D-). Restricted to Studio Arts (AASA or AASF) or Art History (AAAH) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Photography

**ARTS 4176 (3) New Directions in Digital Art**

Investigates the use of digital art in various contexts including digital narrative, web publishing, Internet art, multimedia performance, animation, conceptual art, information art, sound art, language art and network installations.

**Equivalent - Duplicate Degree Credit Not Granted:** ARTS 5176

**Repeatable:** Repeatable for up to 9.00 total credit hours.

**Requisites:** Requires prerequisite courses of ARTS 2126 and ARTS 4316 or ARTS 5316 (all minimum grade D-). Restricted to Studio Arts (AASA or AASF) or Art History (AAAH) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Media Arts

**ARTS 4196 (3) Advanced Photo-Imaging**

Offers an in-depth exploration of digital imaging in the context of the history, aesthetics, and tradition of photography as contemporary art. Emphasis is on digital manipulation, output and individual growth and development.

**Equivalent - Duplicate Degree Credit Not Granted:** ARTS 5196

**Repeatable:** Repeatable for up to 9.00 total credit hours.

**Requisites:** Requires prerequisite course of ARTS 2191 (minimum grade D-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Media Arts

**ARTS 4202 (3) Advanced Painting/Portfolio**

Continuation of Painting 3. Advanced studio class in painting for creative expression and individual portfolio development. Emphasis varies by semester; contact individual instructor for more information.

**Repeatable:** Repeatable for up to 12.00 total credit hours.

**Requisites:** Requires prerequisite course of ARTS 1010 and 1020 and 2222 and 3222 (all require minimum grade of D-). Restricted to Junior and Senior Studio Arts (AASA or AASF) or Art History (AAAH) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Painting/Drawing

**ARTS 4217 (3) Art and Race/Ethnicity**

Examines the impact of race and ethnicity on the art world. Examines the art of Native Americans, Chicanos, Puerto Ricans, Cuban Americans, Latin Americans, African Americans, Asian Americans and ethnic and cultural mixing. Grounded in Critical Multicultural Theory and Postcolonial Theory.

**Equivalent - Duplicate Degree Credit Not Granted:** ARTS 5217

**Recommended:** Prerequisites ARTS 1300 and ARTS 1400 or instructor consent required.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Seminars/Special Topics

**ARTS 4226 (3) Advanced Computer Imaging**

Explores advanced techniques and concepts of digital image-making. Emphasizes the creative application of computer imaging in the production of visual art through individual projects.

**Equivalent - Duplicate Degree Credit Not Granted:** ARTS 5226

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires prerequisite course of ARTS 4126 (minimum grade D-). Restricted to students with 57-180 credits (Junior or Senior) Studio Arts (AASA or AASF) or Art History (AAAH) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Media Arts

**ARTS 4236 (3) Electronic Arts Survey 2**

Continuation of electronic arts survey. Explores the development of video as an art form. Prerequisite for further studies in video production.

**Equivalent - Duplicate Degree Credit Not Granted:** ARTS 5236

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Media Arts

**ARTS 4246 (3) Beginning Video Production**

Presents a studio course on basic single camera video production strategies and concepts. Through class screenings, projects, demonstrations, discussions, and readings, students gain an introductory familiarity with camera, lighting, sound, editing and the organization and planning involved in a video project. Explores a basic theoretical understanding of video as an art form and its relationship to television, film, art, history, culture.

**Equivalent - Duplicate Degree Credit Not Granted:** ARTS 5246 and FILM 4240

**Repeatable:** Repeatable for up to 9.00 total credit hours.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Media Arts

**ARTS 4303 (3) Relief 2**

Continued exploration into the expressive/formal aesthetics of relief processes. Studio practice/investigation of artistic attitudes as exemplified through historical perspectives, traditional/contemporary usages.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires prerequisite courses of ARTS 1010 and ARTS 1020 and ARTS 3303 (all minimum grade D-).

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Printmaking

**ARTS 4316 (3) History and Theory of Digital Art**

Explores the history and theory of digital art. Discussion topics include the emergence of Internet art, hypertext, new media theory, online exhibitions, web publishing, virtual reality and the networked interface. Includes collaborative and individual projects.

**Equivalent - Duplicate Degree Credit Not Granted:** ARTS 5316

**Requisites:** Requires prerequisite course of ARTS 2126 (minimum grade D-). Restricted to Studio Arts (AASA or AASF) or Art History (AAAH) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Media Arts

**ARTS 4327 (3) Biennial Art**

Covers art represented in the most current international biennials (Documenta, Venice Biennale, Sao Paulo Biennial, Havana Biennial, Gwanju Biennial and the Istanbul Biennial). Art will be analyzed by applying postmodern theory, postcolonial theory and international theoretical perspectives that have not yet been integrated into Western thought.

**Equivalent - Duplicate Degree Credit Not Granted:** ARTS 5327

**Requisites:** Requires prerequisite courses of ARTH 1300 and ARTH 1400 (minimum grade D-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Seminars/Special Topics

**ARTS 4403 (3) Intaglio 2**

Continued exploration of techniques of intaglio process, including non-acid and ferric chloride techniques with copper as the main matrix being used. Possible processes focused on include: photo etching using solar plates and introduction to printing ala poupee wiping, chine colle and basic color. Building a unified body of work is the main focus.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires prerequisite courses of ARTS 1010 and ARTS 1020 and ARTS 3403 (all minimum grade D-). Restricted to Studio Arts (AASA or AASF) or Art History (AAAH) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Printmaking

**ARTS 4413 (3) Lithography 2**

Continues the study of stone and metal plate lithography, emphasizing individual creative development in black and white and further development in color printing processes. Digital imaging and nontoxic processes are emphasized as much as possible. Taught with ARTS 3413 and ARTS 5413.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires prerequisite course of ARTS 3413 (minimum grade D-). Restricted to Studio Arts (AASA or AASF) or Art History (AAAH) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Printmaking

**ARTS 4423 (3) Screen Printing 2**

Introduces advanced screen printing technology, emphasizing individual creativity and the ability to resolve problems of two-dimensional form.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires prerequisite course of ARTS 3423 (minimum grade D-). Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) Studio Arts (AASA or AASF) or Art History (AAAH) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Printmaking

**ARTS 4433 (3) Alternative Printmaking 2**

Continued research into developing a sharper critical response, both aesthetically and conceptually, to their own work, as well as the work of other artists. Various alternative printmaking methods will be introduced and each student is expected to explore and examine these processes through a body of work. Emphasis is put on the interrelationship of processes, materials and ideas/aesthetics.

**Equivalent - Duplicate Degree Credit Not Granted:** ARTS 5433

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires prerequisite courses of ARTS 1010 and ARTS 1020 and ARTS 3433 (all minimum grade D-). Restricted to Studio Arts (AASA or AASF) or Art History (AAAH) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Printmaking

**ARTS 4434 (3) Collaboration: Art & Collective Action**

Covers both historical background and hands on projects that are collaborative in nature. Includes lectures, readings and discussions, writing assignments, studio projects and visual presentations.

**Requisites:** Requires prerequisite courses of ARTS 1010 and ARTS 1020 (all minimum grade D-).

**Recommended:** Prerequisites ARTS 2504 and ARTS 2524.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Sculpture

**ARTS 4444 (6) Art and Rural Environments Field School**

Puts students in touch with various rural landscapes in Colorado. Takes place off campus each summer during Maymester. Focuses on site-based approaches to art creation and is designed as an experiential course, meaning that students learn through the experience of place and then by the process of making. After introductions to each site, students will be responsible for a site interpretation piece utilizing various mediums including photography, drawing, land art and collaboration.

**Equivalent - Duplicate Degree Credit Not Granted:** ARTS 5444

**Requisites:** Requires prerequisite courses of ARTS 1010 and ARTS 1020 (all minimum grade D-).

**Recommended:** Prerequisite ARTS 2504.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Sculpture

**ARTS 4453 (3) Monotype 2**

Continued research into developing techniques of using a varied grouping of matrixes will be the focus of this class. Students will be expected to develop sharper critical responses both aesthetically and conceptually, to their own work, as well as the work of other artists.

**Equivalent - Duplicate Degree Credit Not Granted:** ARTS 5453

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires prerequisite courses of ARTS 1010 and ARTS 1020 and ARTS 3453 (all minimum grade D-). Restricted to Studio Arts (AASA or AASF) or Art History (AAAH) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Printmaking

**ARTS 4457 (3) Sound Art Seminar**

Covers the history of sound art from Luigi Russolo and his noise machine during the Futurist Movement to today's experimental music/sound art contributions. Students will listen to sound art works by artists in all areas of sound art, as well as read about theoretical views on sound art.

**Equivalent - Duplicate Degree Credit Not Granted:** ARTS 5457

**Requisites:** Requires prerequisite courses of ARTH 1300 and ARTH 1400 (minimum grade D-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Seminars/Special Topics

**ARTS 4504 (3) Advanced Sculpture Studio**

Students in this course will be required to complete projects, participate in group critiques of projects, produce a slide presentation on a contemporary artist whose work/practice fits within the theme of the course and prepare a final portfolio. Studio work and demonstrations will be augmented by readings and discussions on contemporary art.

**Repeatable:** Repeatable for up to 12.00 total credit hours.

**Requisites:** Requires prerequisite courses of ARTS 3504 and ARTS 3514 (all minimum grade D-). Restricted to Studio Arts (AASA or AASF) or Art History (AAAH) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Sculpture

**ARTS 4604 (3) Beyond the Studio: Post-Studio Art Practice**

Overview of Post-Studio art practice and covers the historical landscape of artists and projects that have pushed "beyond the studio" since 1970. Includes lectures, readings and discussions, writing assignments, studio projects and visual presentations.

**Requisites:** Requires prerequisite courses of ARTS 1010 and ARTS 1020 (all minimum grade D-).

**Recommended:** Prerequisites ARTS 2504 and ARTS 2524.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Sculpture

**ARTS 4607 (3) Art and Social Change**

Examines how art is used as an agent for social change. Among topics addressed by artists interested in social change are: immigration, HIV/AIDS, illness/disease, ecology/the environment, feminism, gay and lesbian issues, war, violence, racial and ethnic minorities, etc.

**Equivalent - Duplicate Degree Credit Not Granted:** ARTS 5607

**Requisites:** Requires prerequisite courses of ARTH 1300 and ARTH 1400 (minimum grade D-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Seminars/Special Topics

**ARTS 4641 (3) String Instrument Building**

As a prelude to sculptural art making processes, this course explores a variety of materials, methods and techniques and their application to the making of a musical string instrument, i.e. planning, designing, material selection and a wide variety of woodworking processes. We will also cover theoretical discussions into what is being made.

**Equivalent - Duplicate Degree Credit Not Granted:** ARTS 5641

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Sculpture

**ARTS 4714 (3) Experimental Structures (Sculpture and Post Studio Practice)**

Explores the interface of sculpture and architecture. Looks at individuals and collectives that have become renowned for their work with experimental structures and students will have the opportunity to build hands-on experiments. Includes lectures, readings and discussions, writing assignments, studio projects and visual presentations.

**Requisites:** Requires prerequisite courses of ARTS 1010 and ARTS 1020 (all minimum grade D-).

**Recommended:** Prerequisites ARTS 2504 and ARTS 2524.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Sculpture

**ARTS 4717 (1-3) Studio Critique**

Consists of consultations with faculty on individual studio problems and projects. Department consent required.

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Seminars/Special Topics

## Art History - Bachelor of Arts (BA)

The Art History program teaches students how to analyze art within many contexts, including historical, intellectual, cultural, political, social and stylistic. In addition to examining diverse methodologies, introductory and upper-division courses cover artistic production from a wide range of cultures and periods, including European art and architecture—Ancient, Medieval, Early Modern (Renaissance, Baroque), Modern and Contemporary—and art and architecture of Asia and the Americas (Pre-Columbian, Colonial Latin American, Native North American).

## Requirements

Students must complete the general requirements of the College of Arts and Sciences and the required courses listed below. A minimum of 39 credits are required for the major, 24 of which must be upper-division.

### Required Courses and Credits

Code	Title	Credit Hours
<b>Introductory Studio Art Sequence</b>		
ARTS 1010 & ARTS 1020	Introduction to Studio Art and Introduction to Studio Art 2	6
<b>One of the following Introductory Art History Sequences</b>		
ARTH 1300 & ARTH 1400	History of World Art 1 and History of World Art 2	6
ARTH 1500 & ARTH 1600	Global Art and Visual Culture and U.S. Art Across Cultures	

<b>Upper-division Art History Courses</b>		
3000 or 4000-level art history courses		9
4000-level art history courses		12
ARTH 4919	Capstone Seminar: Topics in Art History (in addition to the 12 hours of 4000 level art history courses)	3
<b>Major Electives</b>		
ARTS or ARTH electives; fourth semester or higher foreign language is also acceptable		3
Total Credit Hours		39

## Distribution Requirements

It is strongly recommended that students take classes in a wide variety of time periods and cultures. With respect to time periods, it is recommended that students complete at least three hours at the 3000- or 4000-level in each of the following timeframes: pre-1400 CE (e.g., ancient or medieval), 1400-1800 CE (e.g., Early Modern), and 1800-present (e.g., modern or contemporary). With respect to cultures, it is recommended that students complete at least three hours at the 3000- or 4000-level in at least three of the four following areas: Africa, Americas, Europe, and Asia. Students must complete at least 36 hours at the upper-division level on the Boulder campus after starting the program.

## Graduating in Four Years

Consult the Four-Year Guarantee Requirements for information on eligibility. The concept of "adequate progress" as it is used here only refers to maintaining eligibility for the four-year guarantee; it is not a requirement for the major. To maintain adequate progress toward a BA in art history, students should meet the following requirements:

- Declare the major by the beginning of the second semester.
- By the end of the third semester, complete lower-division studio courses, lower-division art history courses and two classes in upper-division art history.
- By the end of the sixth semester complete up to 32 credits in the major.

## Recommended Four-Year Plan

Through the required coursework for the major, students will complete all 12 credits of the Arts & Humanities area of the Gen Ed Distribution Requirement.

Course	Title	Credit Hours
<b>Year One</b>		
<b>Fall Semester</b>		
ARTS 1010	Introduction to Studio Art	3
ARTH 1300 or ARTH 1500	History of World Art 1 or Global Art and Visual Culture	3
Gen. Ed. Skills course (example: QRMS)		3
Gen. Ed. Skills course (example: Lower-division Written Communication)		3

ARTH 4919 Capstone Seminar: Topics in Art History	3
Gen. Ed. Distribution course (example: Social Sciences)	3
Upper-Division Elective	3
Upper-Division Elective	3

Elective	3
<b>Credit Hours</b>	<b>15</b>
<b>Total Credit Hours</b>	<b>121</b>

## Learning Outcomes

The undergraduate degree in art history emphasizes knowledge and awareness of:

- the major artistic traditions of the world in a historical and theoretical context;
- varied methodologies used to study art historically; and
- artistic media and techniques.

In addition, students completing the degree in art history are expected to:

- think and write critically about art in its cultural contexts;
- interpret historical and critical information about works of art, artists and related issues;
- know the methods by which art can be evaluated; and
- carry out scholarly research on art historical topics.

## Bachelor's-Accelerated Master's Degree Program Overview

The Bachelor's-Accelerated Master's (BAM) degree program offers currently enrolled CU Boulder undergraduate students the opportunity to receive a bachelor's and master's degree in a shorter period of time. Students receive the bachelor's degree first, but begin taking graduate coursework as undergraduates, typically in their senior year. Because some courses are allowed to double count for both the bachelor's and the master's degrees, students receive a master's degree in less time and at a lower cost than if they were to enroll in a stand-alone master's degree program after completion of their baccalaureate degree. In addition, staying at CU Boulder to pursue a Bachelor's-Accelerated Master's program enables students to continue working with their established faculty mentors.

### BAM in Art History

The BAM program in art history is a demanding, accelerated program aimed primarily at our best undergraduates who are planning to pursue a PhD. The typical student will be a student writing an honors thesis who will use that project as the basis for developing the MA thesis. It is expected that the BAM program be completed within five years. For details about admission into the program and degree requirements, visit the department's BAM webpage (<http://cuart.colorado.edu/degrees/undergraduate/bama>).

### Admissions Requirements

In order to gain admission to the BAM program named above, a student must meet the following criteria:

- Have a cumulative GPA of 3.3 or higher
- Initial acceptance to the BAM program occurs during the junior year
- Transfer students must have completed a minimum of 24 credit hours at CU Boulder
- GPA of 3.6 or higher in the art history major
- must have completed all MAPS deficiencies

### Program Requirements

Students may take up to and including 12 hours while in the undergraduate program which can later be used toward the master's

degree. However, only 6 credits may be double counted toward the bachelor's degree and the master's degree. Students must apply to graduate with the bachelor's degree, and apply to continue with the master's degree, early in the semester in which the undergraduate requirements will be completed.<sup>1</sup>

If you are interested in the BAM degree program, please contact the director of graduate studies in art history, contact found on the MA degree page, or contact the graduate program coordinator for the department of Art and Art History at art.grad@colorado.edu.

<sup>1</sup>Students who were admitted prior to July 2019 follow a concurrent Bachelor's/Master's structure, and the two degrees are awarded simultaneously when requirements for both degrees are met.

## Art Practices - Bachelor of Arts (BA)

The BA in art practices allows students to explore their interests and refine their skills in art history, ceramics, IMA (photography, digital media, video, integrated arts), painting and drawing, printmaking, and sculpture and post-studio practice. Students gain a broad understanding of the field of contemporary art and experience in contemporary art practices while pursuing a liberal arts degree at the university.

*Portfolio submission is not required to declare art practices as a major or minor.*

## Requirements

### Required Courses and Credits

Students must complete the general requirements of the College of Arts and Sciences and the required courses listed below. Students must complete 39 credits in the major. See the Art Practices - Bachelor of Fine Arts (BFA) (p. 118) page for information about admission to that program.

Code	Title	Credit Hours
<b>Introductory Studio Art Sequence</b>		
ARTS 1010 & ARTS 1020	Introduction to Studio Art and Introduction to Studio Art 2	6

Total Credit Hours		39

### Graduating in Four Years

Consult the Four-Year Guarantee Requirements for information on eligibility. The concept of "adequate progress" as it is used here only refers to maintaining eligibility for the four-year guarantee; it is not a

requirement for the major. To maintain adequate progress toward a BA in studio arts, students should meet the following requirements:

- Declare major by the beginning of the second semester.
- Complete ARTS 1010 and ARTS 1020, two level-1 studio classes and lower-division art history courses by the end of the third semester.
- Complete 30–36 credits in the major by the end of the sixth semester.

Students must also complete at least 12 upper-division ARTS/ARTH courses on the Boulder campus after starting the program.

## Recommended Four-Year Plan of Study

Through the required coursework for the major, students will complete all 12 credits of the Arts & Humanities area of the Gen Ed Distribution Requirement.

<b>Total Credit Hours</b>	<b>120</b>

\*The BA degree requires a minimum of 45 upper-division (3000- and 4000-level courses) credits. Please consult with your advisor to ensure this general BA degree requirement is met by the fourth year.

## Learning Outcomes

The undergraduate degree in art practices emphasizes knowledge and awareness of:

- the significance of the major traditions in art history;
- at least one discipline of art practices;
- related critical issues in art practice; and
- a wide range of stylistic approaches.

In addition, students completing a degree in art practices are expected to acquire the ability and skills to:

- analyze their own works of art in terms of form and content;
- interpret the work of others;
- execute ideas in one or more artistic media;
- demonstrate artistic ability and technical proficiency in one chosen medium; and

- communicate in verbal and written form the particular conceptual and perceptual attitudes and stances of their own artistic production.

## Art Practices - Bachelor of Fine Arts (BFA)

The BFA in art practices is a more in-depth degree intended for motivated students interested in and committed to pursuing a professional career in the arts. Students gain training in studio techniques and post-studio practice, an overview of historical and contemporary artists and movements, and an introduction to criticism. Additionally, students participate in the BFA Seminar, are eligible to enroll in the Visiting Artist Seminar, and present work in the culminating BFA exhibition.

This is a highly selective program. Only art majors may apply to the program with a portfolio and application materials, which are reviewed once in the fall and once in the spring.

For application information, please visit the department's website (<https://www.colorado.edu/artandarthistory/degrees/bfa-degree-information-application>). For overall degree requirements, students should run a degree audit and consult with their advisor. Students must have completed or be in progress of completing 30 credits in the major to apply for the BFA.

## Requirements

Students must complete 63 credits toward the major, of which at least 12 upper-division credits must have been completed at CU Boulder.

Students must present and pass a portfolio review to be eligible for the BFA degree (a minimum of 30 ARTS/ARTH credits are required to be completed or in progress to apply).

## Required Courses and Credits

Code	Title	Credit Hours
<b>Introductory Studio Art sequence</b>		
ARTS 1010 & ARTS 1020	Introduction to Studio Art and Introduction to Studio Art 2	6
<b>Introductory Art History Sequence</b>		
<i>Choose on of the following two-course sequences</i>		
ARTH 1300 & ARTH 1400	History of World Art 1 and History of World Art 2	6
ARTH 1500 & ARTH 1600	Global Art and Visual Culture and U.S. Art Across Cultures	6
<b>Studio Art Courses</b>		
Two 2000-level studio courses in area of emphasis		6
Upper-division studio courses		18
Painting and drawing majors must take any sequence of courses culminating in ARTS 4002 or ARTS 4202.		
Ceramics majors must take ARTS 4085 and ARTS 4095.		
ARTS 4117	BFA Seminar	3
<b>Upper-division Art History Courses</b>		
Any two 3000- or 4000-level ARTH courses		6
<b>Major Electives</b>		
Upper- or lower-division electives in ARTS or ARTH		18
<b>Total Credit Hours</b>		<b>63</b>

NOTE: Printmaking majors are not required to take ARTS 1003, and may register for ARTS 3403, ARTS 3413 and ARTS 3423 as sophomores.

Students must also complete at least 12 upper-division ARTS/ARTH courses on the Boulder campus after starting the program.

## Graduating in Four Years

Consult the Four-Year Guarantee Requirements for information on eligibility. The concept of "adequate progress" as it is used here only refers to maintaining eligibility for the four-year guarantee; it is not a requirement for the major. To maintain adequate progress toward a BFA in studio arts or divisional studio arts, students should meet the following requirements:

- Declare the major by the beginning of the first semester, freshman year.
- By the end of the third semester, complete ARTS 1010 and ARTS 1020, ARTH 1300 and ARTH 1400, two 2000-level courses and one lower-division or upper-division studio or art history course (21 credit hours).
- Apply for the BFA in the fourth or fifth semester, with a minimum of 30 credit hours in the major.
- By the end of the sixth semester, complete up to 48 credit hours in the major.
- A total of 18 credit hours in ARTS/ARTH electives are required. Up to 6 credit hours of electives may be taken outside the department with advisor permission.

## Recommended Four-Year Plan of Study

Through the required coursework for the major, students will fulfill all 12 credits of the Arts & Humanities area of the Gen Ed Distribution Requirement.

## Art History - Minor

The Department of Art and Art History offers a minor in art history for undergraduate students, regardless of college or school, who are interested in the field but cannot undertake the major.

### Requirements

#### Program Requirements

All coursework applied to the minor must be completed with a grade of C- or better; no pass/fail work may be applied. The grade point average for all minor degree coursework must be equal to 2.000 (C) or higher.

Students are allowed to apply no more than 9 credits, including 6 upper-division credits, of transfer work toward a minor. Art practices majors may apply ARTH 1300 and ARTH 1400 OR ARTH 1500 and ARTH 1600 (both major requirements) toward the completion of an art history minor, but may not apply major electives toward completion of the minor.

#### Required Courses and Credits

The minor in art history requires a minimum of 18 credit hours in art history coursework, as follows:

Code	Title	Credit Hours
<b>One of the two following Art History sequences</b>		6
ARTH 1300 & ARTH 1400	History of World Art 1 and History of World Art 2	
ARTH 1500 & ARTH 1600	Global Art and Visual Culture and U.S. Art Across Cultures	
<b>Minor Electives</b>		
Select 12 credits of ARTH courses at the 3000 or 4000 level, with at least two courses at the 4000 level. It is recommended that at least one upper-division course be completed in each of the following areas:		12
Ancient, Asian, Pre-Columbian or Native American		
Medieval, Early Modern (Renaissance/Baroque) or Colonial Latin American		
Modern, Contemporary or Theory		
Total Credit Hours		18

## Art Practices - Minor

The Department of Art and Art History offers a minor in art practices for undergraduate students who are interested in studio arts but cannot undertake the arts practices major.

### Requirements

The requirements for the minor in art practices include:

- a minimum of 21 credit hours in art practices coursework;
- all coursework applied to the minor must be completed with a grade of C- or better; no pass/fail work may be applied. The grade point average for all minor degree coursework must be equal to 2.000 (C) or higher, and
- students are allowed to apply no more than 9 credit hours, including 6 upper-division credit hours, of transfer work toward a minor.

Art history majors may apply ARTS 1010 and ARTS 1020 (both major requirements) toward the completion of an art practices minor, but may not apply major electives toward completion of the minor.

#### Required Courses and Credits

Code	Title	Credit Hours
ARTS 1010	Introduction to Studio Art	3
ARTS 1020	Introduction to Studio Art 2	3
At least 6 credits of ARTS courses at the 2000-level.		6
At least 9 credits of ARTS courses at the 3000- or 4000-level.		9
Total Credit Hours		21

## Asian Languages and Civilizations

The Department of Asian Languages and Civilizations, founded in 1982, offers undergraduate majors in Chinese and Japanese, minors in Arabic, Chinese, Hindi/Urdu, Japanese and Korean, and certificates in Middle Eastern and Islamic Studies and South Asian Languages and Civilizations, as well as language, literature and culture courses in Arabic, Chinese, Farsi, Hindi/Urdu, Japanese and Korean.

Undergraduate students receive a thorough grounding in the modern language, an introduction to the classical language and literature and a broad familiarity with the literary and cultural history of their selected area.

Students interested in Chinese or Japanese (<https://www.colorado.edu/alc/undergraduate/majors>) are encouraged to broaden their academic horizon through a double major, combining either language with another field of interest. Likewise, students in all Asian Languages and Civilizations programs as well as programs outside the department can pursue one of the department's minors (<https://www.colorado.edu/alc/undergraduate/minors>) or certificates (<https://www.colorado.edu/alc/undergraduate/certificates>) as a way of broadening their career options.

Before registering for specific courses, students should consult with a departmental advisor (<https://www.colorado.edu/alc/undergraduate/advising>) concerning appropriate placement in language classes beyond the beginning level.

In addition to language instruction courses, the department offers several courses taught in English (<https://www.colorado.edu/alc/courses>). These courses provide an excellent introduction to the literary and cultural histories of the areas involved. They are open to all interested students and do not require previous study of the language or subjects addressed.

The department strongly encourages all students to participate in Study Abroad to enrich their studies in our programs. For information about programs throughout the world, contact the Education Abroad office (<http://abroad.colorado.edu>).

Recent graduates have found positions in such fields as government service, international business and secondary-school teaching; others have gone on to graduate study in Chinese or Japanese. Additional career opportunities can be found on the Career Services website (<http://www.colorado.edu/career>).

For more information about the Department of Asian Languages and Civilizations, please visit the department website (<https://www.colorado.edu/alc>).

Course codes for the department's six programs are ARAB, CHIN, FRSI, HIND, JPNS and KREN.

## Bachelor's Degrees

- Chinese - Bachelor of Arts (BA) (p. 132)
- Japanese - Bachelor of Arts (BA) (p. 136)

## Minors

- Arabic - Minor (p. 132)
- Chinese - Minor (p. 135)
- Hindi/Urdu - Minor (p. 135)
- Japanese - Minor (p. 138)
- Korean - Minor (p. 139)

## Certificates

- Middle Eastern and Islamic Studies - Certificate (p. 139)
- South Asian Languages and Civilizations - Certificate (p. 140)

## Faculty

While many faculty teach both undergraduate and graduate students, some instruct students at the undergraduate level only. For more information, contact the faculty member's home department.

## Courses

### Arabic

#### ARAB 1010 (5) Beginning Arabic 1

Introduces students to speaking, listening, reading, and writing skills in the standard means of communication in the Arab world. This course is proficiency-based. All activities within the course are aimed at placing the student in the context of the native-speaking environment from the very beginning.

**Additional Information:** Arts Sci Core Curr: Foreign Language

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Foreign Language

Departmental Category: Arabic

Departmental Category: Asia Content

#### ARAB 1011 (3) Introduction to Arab and Islamic Civilizations

Provides an interdisciplinary overview of the cultures of the Arabic-speaking peoples of Southwest Asia and North Africa from the rise of Islam in the 7th century to the present. Readings include historical, religious, literary and cultural texts from both the medieval and modern eras. Taught in English.

**Additional Information:** Arts Sci Core Curr: Human Diversity

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Diversity-Global Perspective

Departmental Category: Arabic Courses in English

Departmental Category: Asia Content

**ARAB 1020 (5) Beginning Arabic 2**

Continuation of ARAB 1010.

**Requisites:** Requires prerequisite course of ARAB 1010 (minimum grade C).

**Additional Information:** Arts Sci Core Curr: Foreign Language

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Foreign Language

Departmental Category: Arabic

Departmental Category: Asia Content

**ARAB 2110 (5) Intermediate Arabic 1**

Proficiency-based course emphasizes speaking, listening, reading, and writing. Covers a variety of topics. Students give classroom presentations and write short essays in Arabic. Speaking ability is assessed through an oral proficiency interview.

**Requisites:** Requires prerequisite course of ARAB 1020 (minimum grade C).

**Additional Information:** GT Pathways: GT-AH4 - Arts Hum: Foreign Languages

Arts Sci Core Curr: Foreign Language

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Foreign Language

Departmental Category: Arabic

Departmental Category: Asia Content

**ARAB 2120 (5) Intermediate Arabic 2**

Continuation of ARAB 2110.

**Requisites:** Requires prerequisite course of ARAB 2110 (minimum grade C).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Arabic

Departmental Category: Asia Content

**ARAB 2231 (3) Love, Loss and Longing in Classical Arabic Literature**

Surveys Arabic literature from the sixth through the eighteenth centuries. It offers an introduction to Arabic literature, namely prose and poetry, through its key texts as well as the range of themes and techniques found in this literature, and it lays the groundwork for contextualizing the literature in the framework of other literary traditions. Taught in English.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Core Curr: Literature and the Arts

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Arabic Courses in English

Departmental Category: Asia Content

**ARAB 2320 (3) The Muslim World, 600-1250**

Focusing on the history of the Muslim World in the age of the caliphates, this course takes an interdisciplinary, comparative approach to the development of Islamic society, focusing on social structure, politics, economics and religion. Students will use primary and secondary sources to write a research paper, and make in-class presentations to cultivate critical thinking, research and writing skills. Taught in English.

**Equivalent - Duplicate Degree Credit Not Granted:** RLSL 2320

**Grading Basis:** Letter Grade

Departmental Category: Arabic Courses in English

Departmental Category: Asia Content

**ARAB 3110 (3) Advanced Arabic 1**

Designed to train students further in the four language skills (writing, speaking, reading, listening/comprehension) at an advanced level.

Enables students to acquire a better and broader understanding of Arabic culture and texts drawn from various genres of Arabic letters.

**Requisites:** Requires prerequisite course of ARAB 2120 (minimum grade C).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Arabic

Departmental Category: Asia Content

**ARAB 3120 (3) Advanced Arabic 2**

Continues training in the four language skills (writing, speaking, reading, listening/comprehension) at an advanced level. Enables students to acquire a better and broader understanding of Arabic culture and texts drawn from various genres of Arabic letters.

**Requisites:** Requires prerequisite course of ARAB 3110 (minimum grade C).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Arabic

Departmental Category: Asia Content

**ARAB 3230 (3) Islamic Culture and the Iberian Peninsula**

Examines Islamic, especially Arab, culture and history as it relates to the Iberian Peninsula from 92 Ah/711 Ce to the present. Taught in English.

**Additional Information:** Arts Sci Core Curr: Historical Context

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Foreign Language  
Departmental Category: Japanese  
Departmental Category: Asia Content

**JPNS 2120 (5) Intermediate Japanese 2**

Continuation of JPNS 2110.

**Requisites:** Requires prerequisite course of JPNS 2110 (minimum grade C).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Japanese  
Departmental Category: Asia Content

**JPNS 2441 (3) Japanese Culture through Film and Anime**

Examines 20th century Japanese culture through cinematic and animated films. Studies films by Ozu, Kurosawa, Mizoguchi, and contemporary animators Tezuka, Miyazaki, and Kon Satoshi. Considers cultural issues raised in film and anime in light of modern Japanese history and literature. Requires no knowledge of Japanese. Taught in English.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Japanese Courses in English  
Departmental Category: Asia Content

**JPNS 2811 (3) Heroes and the Supernatural: Word and Image in Old Japan**

Examines the fusion of literary and visual arts in twelfth- to nineteenth-century Japan, focusing on illustrated handscrolls and narrative paintings. Students will explore tales of monsters, samurai, fantastic journeys to other worlds, anthropomorphic animals, and the eighteenth- and nineteenth-century precursors of contemporary Japanese comics. This course seeks to analyze visual-literary texts in their historical contexts as both literature and art. Taught in English.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Japanese Courses in English  
Departmental Category: Asia Content

**JPNS 3110 (5) Advanced Japanese 1**

Enhances student competence and performance in Japanese language in a holistic and integrative manner.

**Requisites:** Requires prerequisite course of JPNS 2120 (minimum grade C).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Japanese  
Departmental Category: Asia Content

**JPNS 3120 (5) Advanced Japanese 2**

Continuation of JPNS 3110. Enhances student competence and performance in Japanese language in a holistic and integrative manner.

**Requisites:** Requires prerequisite course of JPNS 3110 (minimum grade C).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Japanese  
Departmental Category: Asia Content

**JPNS 3200 (3) Adv Wrtg Topics on Chinese & Japanese Literature and Civilization**

Provides an introduction to the academic study of Chinese and Japanese literature and culture with a focus on writing skills in English through a survey of standard academic writing conventions. Review and assessment of selected textual materials, class presentation, critique, and revision. Recommended for majors. Taught in English.

**Equivalent - Duplicate Degree Credit Not Granted:** CHIN 3200

**Requisites:** Restricted to students with a minimum of 45 credits completed.

**Additional Information:** Arts Sci Core Curr: Written Communication  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Written Communication-Upper  
Departmental Category: Chinese Courses in English  
Departmental Category: Asia Content

**JPNS 3311 (3) Japanese Colonial and Transnational Literature**

Explores the development of Japanese and colonial identities in literature produced in and about Japan's colonies during the first half of the 20th century. We will read works written during and about the Japanese empire by Chinese, Japanese, Korean, Okinawan and Taiwanese writers looking at the different representations of empire. Taught in English.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Japanese Courses in English

**JPNS 3321 (3) Fantasy and Sci-Fi in Japanese Literature, Film and Culture**

Explores the development of Japanese science fiction and fantasy literature produced in the past century. We will read works written by writers such as Abe Kobo, Hoshi Shin'ichi, Kurahashi Yumiko, Ueda Sayuri and Project Ito. Taught in English.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Japanese Courses in English

**JPNS 3331 (3) Business Japanese**

Designed to teach Japanese with emphasis on using Japanese for professional purposes. The course aims to foster the skills and the knowledge of effective cross-cultural and interpersonal communication in Japanese and to develop intercultural competence in business contexts.

**Requisites:** Requires prerequisite course of JPNS 2120 (minimum grade C).

**Recommended:** Prerequisite JPNS 3110.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Japanese  
Departmental Category: Asia Content

**JPNS 3511 (3) From Rebellion to Calamity: Contemp Japanese Lit in Transl**

Explores post-1945 Japanese literature through close reading of prose fiction (including SF, mystery, horror, e-novel and cell-phone novel genres), poetry, visual narratives (manga) and critical essays. Texts will be considered in historical and cultural contexts, with attention to their relationship to traditional arts and global trends. Taught in English.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Japanese Courses in English

**JPNS 3811 (3) Love, Death, and Desire: Classical Japanese Literature in Translation**

Surveys the major works and authors of classical Japanese literature, both poetry and prose, from the earliest historical records and literary anthologies through the Heian period (784-1185). Taught in English.

**Equivalent - Duplicate Degree Credit Not Granted:** HUMN 3811

**Recommended:** Prerequisite JPNS 1051.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Japanese Courses in English  
Departmental Category: Asia Content

**JPNS 3821 (3) Monsters, Monks, and Mayhem: Medieval Japanese Literature in Translation**

Surveys the major works and authors of medieval Japanese (poetry, prose, and drama) from the Kamakura and Muromachi periods (1185-1600). Taught in English.

**Recommended:** Prerequisite JPNS 1051.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Japanese Courses in English  
Departmental Category: Asia Content

**JPNS 3831 (3) The Floating World of Play and Passion: Early Modern Japanese Literature in Translation**

Surveys the major works, authors, and genres of literature from the Tokugawa through Meiji periods in their historical and cultural contexts. Attention is given to various approaches of literary analysis and interpretation. Taught in English.

**Recommended:** Prerequisite JPNS 1051.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Japanese Courses in English  
Departmental Category: Asia Content

**JPNS 3841 (3) Tradition and Transgression: Modern Japanese Literature in Translation**

Surveys the major works, authors and genres of literature from the late Meiji period and 20th century in their historical and cultural contexts. Attention is given to various approaches of literary analysis and interpretation. Taught in English.

**Equivalent - Duplicate Degree Credit Not Granted:** HUMN 3841

**Recommended:** Prerequisite JPNS 1051.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Japanese Courses in English  
Departmental Category: Asia Content

**JPNS 3851 (3) Studies in Japanese Popular Culture**

Introduces aspects of Japanese popular culture from the early 1990s economic collapse until the present through a variety of artistic mediums including manga, anime, literature, live-action cinema, video gaming, music, and the visual arts. Taught in English.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Japanese Courses in English  
Departmental Category: Asia Content

**JPNS 3861 (3) Imagining the Samurai in Japanese Literature and Culture**

Explores the rich history of the imagination of the samurai in Japan, across multiple genres of fiction, poetry, drama, visual art, and cinema, from earliest times to the present. Attention is given to the varied meanings the image of the samurai has held at different historical moments, and to contrasts between the representations of the realities of samurai life. Taught in English.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Japanese Courses in English  
Departmental Category: Asia Content

**JPNS 3871 (3) Horror and the Macabre in Japanese Literature, Film, Culture**

Explores Japanese horror texts from both the pre-modern and modern eras in a variety of genres, including the monogatari, kaidan, kabuki, contemporary horror fiction, film and anime. Texts will be considered in historical and cultural context with attention being given to interactions with and within popular culture. Taught in English.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Japanese Courses in English  
Departmental Category: Asia Content

**JPNS 3881 (3) Environment, Nature and Disaster in Japanese Literature and Culture**

Explores the significance of the environment, nature and disaster in Japanese literature and culture through readings in a variety of genres, including fiction, essay, poetry, sci-fi, film and anime. Attention will also be given to environmental/ecological issues, such as conservation, pollution, biodiversity and industrial development. Taught in English.

**Additional Information:** Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-Global Perspective  
Departmental Category: Japanese Courses in English  
Departmental Category: Asia Content

**JPNS 3891 (3) Travel/Travel Writing in Japanese Literature and Culture**

Explores selected Japanese literary and cultural texts that treat travel and travel writing, including short and long fiction, poetry, memoir, nonfiction, biography and travel commentary. Taught in English.

**Recommended:** Prerequisite JPNS 1051.  
**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-Global Perspective  
Departmental Category: Japanese Courses in English  
Departmental Category: Asia Content

**JPNS 4030 (3) Japanese Syntax**

Deals with syntactic phenomena from five areas of Japanese grammar that cause the most difficulty for learners. Their characteristics are explored in forms and discursal functions that go beyond the explanations in basic, prescriptive grammars of Japanese.

**Requisites:** Requires prerequisite course of JPNS 3120 or JPNS 4120 (minimum grade C).  
**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Japanese  
Departmental Category: Asia Content

**JPNS 4050 (3) Japanese Sociolinguistics: Japanese Language and Society**

Issues of Japanese sociolinguistics in areas such as speech varieties, language behaviors and attitudes, linguistic contact and change and language policy. Incorporating critical perspectives of sociolinguistics into analyses of Japanese literature and Japanese language education.

**Equivalent - Duplicate Degree Credit Not Granted:** JPNS 5050 and LING 4050  
**Requisites:** Requires prerequisite course of JPNS 3110 (minimum grade C).

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Japanese  
Departmental Category: Asia Content

**JPNS 4070 (3) Second Language Acquisition of Japanese**

Studies language acquisition theories and research on Japanese as a second language (JSL). Covers the issues in JSL from linguistic, cognitive and sociolinguistic perspectives: orthography, grammar, phonology and vocabulary in the contexts of teaching and learning JSL. Department consent required.

**Equivalent - Duplicate Degree Credit Not Granted:** JPNS 5070  
**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Japanese  
Departmental Category: Asia Content

**JPNS 4080 (3) Kanji in Japanese Orthography**

Covers the issues in kanji research from historical, sociolinguistic, linguistic, cognitive perspective and vocabulary acquisition theories in the context of teaching and learning the Japanese language.

**Equivalent - Duplicate Degree Credit Not Granted:** JPNS 5080  
**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Japanese  
Departmental Category: Asia Content

**JPNS 4110 (3) Advanced Readings in Modern Japanese 1**

Surveys a variety of material written in modern Japanese, including texts from literature, the social sciences, religion, and cultural history. Emphasizes content and style. Texts and selections vary from year to year.

**Requisites:** Requires prerequisite course of JPNS 3120 (minimum grade C).  
**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Japanese  
Departmental Category: Asia Content

**JPNS 4120 (3) Advanced Readings in Modern Japanese 2**

Continuation of JPNS 4110. Texts and selections vary from year to year.  
**Requisites:** Requires prerequisite course of JPNS 4110 (minimum grade C).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Japanese  
Departmental Category: Asia Content

**JPNS 4150 (3) Japanese to English Translation: Theory and Practice**

Introduction to a range of translation tasks and approaches, as well as to professional translation practices, ethics, methods and resources. Emphasis is on application, through translation of representative texts from Japanese into English in the fields of social science, humanities and the arts, journalism, and commerce.

**Recommended:** Prerequisite JPNS 3110.  
**Grading Basis:** Letter Grade  
**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Japanese  
Departmental Category: Asia Content

**JPNS 4210 (3) Contemporary Japanese 1: Current Issues**

Offers intensive review of Japanese language skills beyond the first eight semesters and cultivates further proficiency. Readings will be selected from a wide range of contemporary writings that reflect and represent issues in Japanese as well as global communities. Emphasizes all skills: reading, listening, writing, speaking and translation. Instructional technology is extensively integrated into the curriculum.

**Requisites:** Requires prerequisite course of JPNS 4120 (minimum grade C).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Japanese  
Departmental Category: Asia Content

**JPNS 4300 (3) Open Topics: Readings in Japanese**

Examines selected texts on a particular topic taught by regular or visiting faculty. Topics change each term.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Japanese  
Departmental Category: Asia Content

**JPNS 4310 (3) Classical Japanese 1**

Introduces reference tools for reading classical Japanese, and grammar, vocabulary, and use of scripts in premodern Japanese, focusing on the 10th century Taketori Monogatari and the 13th century Hojoki.

**Requisites:** Requires prerequisite course of JPNS 3110 (minimum grade C).

**Recommended:** Prerequisites JPNS 3120 and JPNS 3811 and JPNS 3821.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Japanese  
Departmental Category: Asia Content

**JPNS 4320 (3) Classical Japanese 2**

Continuation of JPNS 4310. Surveys changes in Japanese literary language from the Nara (eighth century) to Meiji (late 19th century) periods. Attention given to changes in grammar, vocabulary, and use of scripts in premodern Japanese. Introduces representative works of classical Japanese literature of all periods.

**Requisites:** Requires prerequisite course of JPNS 4310 (minimum grade C).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Japanese  
Departmental Category: Asia Content

**JPNS 4400 (3) Critical Theory and Japanese Literature and Culture**

Examines Japanese literary and cultural texts through the lens of specific theoretical paradigms as developed by Japanese and non-Japanese thinkers and academicians. Taught in English.

**Recommended:** Prerequisite JPNS 1051.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Japanese Courses in English  
Departmental Category: Asia Content

**JPNS 4900 (1-3) Independent Study**

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Departmental Category: Japanese  
Departmental Category: Asia Content

**JPNS 4950 (3) Honors Thesis**

**Additional Information:** Arts Sciences Honors Course  
Departmental Category: Japanese  
Departmental Category: Asia Content

**JPNS 4980 (1) Practical Issues in Japanese Language Pedagogy**

Focuses on practical issues in Japanese language pedagogy for students who will serve as teaching assistants in Japanese language classes.

Examines the connection between theory and practice as well as practical methods for teaching Japanese. Discusses how to teach Japanese as a second language in a communicative approach and how to assess student language learning.

**Equivalent - Duplicate Degree Credit Not Granted:** JPNS 5980

**Requisites:** Requires prerequisite course of JPNS 4120 (minimum grade C).

**Additional Information:** Departmental Category: Japanese  
Departmental Category: Asia Content

**Korean****KREN 1010 (5) Beginning Korean 1**

Trains students in elementary conversational and writing skills and provides grounding in the basic idiomatic and syntactical features of Korean, through lectures, drills, and language laboratory sessions based on set dialogues and readings.

**Additional Information:** Arts Sci Core Curr: Foreign Language

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Foreign Language

Departmental Category: Korean

Departmental Category: Asia Content

**KREN 1011 (3) Introduction to Korean Civilization**

Introduces the history of Korean culture within the context of political, social, and economic history. Covers the old Choson dynasty to present day Korea. Taught in English.

**Additional Information:** Arts Sci Core Curr: Human Diversity

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Diversity-Global Perspective

Departmental Category: Korean Courses in English

Departmental Category: Asia Content

**KREN 1020 (5) Beginning Korean 2**

Continuation of KREN 1010.

**Requisites:** Requires prerequisite course of KREN 1010 (minimum grade C).

**Additional Information:** Arts Sci Core Curr: Foreign Language

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Foreign Language

Departmental Category: Korean

Departmental Category: Asia Content

**KREN 2110 (5) Intermediate Korean 1**

Extends the conversational and written skills acquired at the elementary level. Although emphasis remains on spoken Korean, readings are increased, elementary writing skills are introduced gradually, and some Sino Korean characters are taught.

**Requisites:** Requires prerequisite course of KREN 1020 (minimum grade C).

**Additional Information:** Arts Sci Core Curr: Foreign Language

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Foreign Language

Departmental Category: Korean

Departmental Category: Asia Content

**KREN 2120 (5) Intermediate Korean 2**

Continuation of KREN 2110.

**Requisites:** Requires prerequisite course of KREN 2110 (minimum grade C).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Korean  
Departmental Category: Asia Content

**KREN 2441 (3) Film and Korean Culture**

Introduces students to major works, genres, and trends of Korean cinema from the colonial period to the present. We will explore how cinema registers Korea's experience with modernity, colonialism, national division, the Cold War, and globalization, paying particular attention to class, gender, nation, race and migration. Taught in English. No prior knowledge of Korea or film art is required.

**Additional Information:** Arts Sci Core Curr: Human Diversity  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-Global Perspective  
Departmental Category: Korean Courses in English  
Departmental Category: Asia Content

**KREN 3110 (5) Advanced Korean 1**

Promotes an advanced level of speaking, reading, and writing. Focuses on contemporary business Korean language as reflected in various Korean media such as newspapers, magazines, and television. The goal is to acquire Korean language skills at a level that allows students to conduct business activities.

**Requisites:** Requires prerequisite course of KREN 2120 (minimum grade C).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Korean  
Departmental Category: Asia Content

**KREN 3120 (5) Advanced Korean 2**

This second semester of Korean offers advanced level speaking and writing. Focuses on understanding contemporary Korean languages as reflected in various communication media, such as print, TV, and films to help students understand Korean in a variety of contexts.

**Requisites:** Requires prerequisite course of KREN 3110 (minimum grade C).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Korean  
Departmental Category: Asia Content

**KREN 3841 (3) Modern Korean Literature in English Translation**

Surveys masterpieces of modern Korean literature written by significant Korean/Korean American authors in English. Provides various literary and theoretical frameworks to understand Korean literature within the context of Asian global culture. Covers from colonial period to the present. Taught in English. No prior knowledge of Korea or Korean literature is required.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-Global Perspective  
Departmental Category: Korean Courses in English  
Departmental Category: Asia Content

**KREN 3851 (3) Studies in Korean Popular Culture**

Introduces Korean popular culture, considering its ideological, economic, and socio-political function, its reception and use, and medium-specific textual operations of individual works, drawing from music, cinema, dance, music videos, literature, comics, and other forms of texts and events. The course moves from the Japanese colonial period to the contemporary moment, providing coverage of North and South Korea. Taught in English.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Korean Courses in English

**KREN 4900 (1-6) Independent Study**

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Additional Information:** Departmental Category: Korean  
Departmental Category: Asia Content

## Arabic - Minor

A minor in Arabic studies can be selected by students who wish to gain a basic understanding of the language as well as history, culture and literary traditions of the Middle East and North Africa. Students cannot earn both the certificate in Middle Eastern and Islamic studies and the minor in Arabic studies.

For more information, visit the department's Minors (<http://www.colorado.edu/alc/undergraduate/minors>) webpage or see the department's undergraduate academic advisor (<https://www.colorado.edu/alc/undergraduate/advising>).

## Requirements

A minimum of 19 credits must be taken in Arabic language and literature courses, including a total of 9 upper-division credits. A cumulative GPA of 2.00 or better is required in all ARAB courses attempted. Each course that is counted towards these degree requirements must be passed with a grade of C- or better. Pass/fail work will not apply to the minor. Students are allowed to apply no more than 9 credits, including 6 upper-division credits, of transfer work toward a minor.

### Required Courses and Credits

Code	Title	Credit Hours
<b>Required Courses</b>		
ARAB 2110	Intermediate Arabic 1	5
ARAB 2120	Intermediate Arabic 2	5
<b>Electives</b>		
At least three additional upper-division, 3-credit-hour ARAB courses. At least one of the content courses must focus on the premodern period.		
ARAB 3110	Advanced Arabic 1	
ARAB 3120	Advanced Arabic 2	
ARAB 3230	Islamic Culture and the Iberian Peninsula	
ARAB 3231	In the Footsteps of Travelers: Travel Writing in Arabic Lit	
ARAB 3241	Art in Islamic Cultures	
ARAB 3330	The Arabic Novel	
ARAB 3340	Representing Islam	
ARAB 3350	Narrating the City: Literary Mappings of the Urban Landscape	
ARAB 3410	Gender, Sexuality and Culture in the Modern Middle East

19

## Chinese - Bachelor of Arts (BA)

The undergraduate degree in Chinese emphasizes knowledge and awareness of:

- Chinese literary history, focusing on selected canonical or widely recognized works;

- the historical and cultural contexts in which particular works were written;
- critical approaches to the study of Chinese language and civilization; and
- the challenges, deficiencies and possible gains inherent in the process of translating from one language to another.

In addition, students completing the degree in Chinese are expected to acquire the ability and skills to:

- read modern Chinese at a level at which critical literary analysis can be performed;
- read classical Chinese, with the aid of appropriate reference works, at the level at which the text may begin to be appreciated for its literary value;
- speak and comprehend Mandarin sufficient for all situations in daily life and for a basic level of academic conversation;
- analyze and interpret literary texts in terms of style, structure, character, themes and use of allusion; and
- communicate such interpretations competently in standard written English.

With a Chinese major (<https://www.colorado.edu/alc/undergraduate/majors>), students will have skills, information and concepts that are relevant to careers in virtually every area. Competency in a foreign language is a highly desirable skill in all fields. A knowledge of Chinese is particularly beneficial and useful in business, engineering, industry, commerce, the civil or foreign service, law, library science, natural and social sciences, the media, economics, public administration, journalism, government and teaching at all levels. In addition, China is an increasing source of a wide variety of excellent careers, as it is among the world's largest economies (<http://databank.worldbank.org/data/download/GDP.pdf>) and trading partners with the U.S. ([http://www.trade.gov/mas/ian/build/groups/public/@tg\\_ian/documents/webcontent/tg\\_ian\\_003364.pdf](http://www.trade.gov/mas/ian/build/groups/public/@tg_ian/documents/webcontent/tg_ian_003364.pdf)) and Colorado. Students are encouraged to consider combining their Chinese language training with courses in these or other fields. Additional career opportunities can be found on the Career Services website (<http://www.colorado.edu/career>).

## Requirements

Students must complete the general requirements of the College of Arts and Sciences and the required courses listed below. CHIN 1010, CHIN 1020 and CHIN 2110 do not count toward the maximum of 45 credit hours in the major department.

The major program for the BA degree in Chinese requires successful completion of 30 credits, of which at least 18 credits must be at the upper-division level.

## Required Courses and Credits

Code	Title	Credit Hours
<b>Required Courses</b>		
CHIN 2120	Intermediate Chinese 2	5
CHIN 3110	Advanced Chinese 1	5
CHIN 3120	Advanced Chinese 2	5
CHIN 4210	Introduction to Classical Chinese <sup>1</sup>	3
<b>Electives</b>		

The remaining 12 credit hours (at least 5 of which must be upper-division) may be chosen from the courses listed below; 3 of these credit hours may be satisfied by courses focusing wholly or substantially on China offered in other departments, subject to approval by the Chinese undergraduate faculty advisor.

CHIN 1012	Introduction to Chinese Civilization	12
CHIN 1051	Masterpieces of Chinese Literature in Translation	
CHIN 2441	Film and the Dynamics of Chinese Culture	
CHIN 3200	Adv Wrtg Topics on Chinese & Japanese Literature and Civilization <sup>2</sup>	
CHIN 3311	The Dao and the World in Medieval China	
CHIN 3321	Culture and Literature of Ancient China	
CHIN 3331	Culture and Literature of Late Imperial China	
CHIN 3334	Chinese Narrative Tradition	
CHIN 3341	Literature and Popular Culture in Modern China	
CHIN 3342	Literary Culture in Contemporary China	
CHIN 3351	Reality and Dream in Traditional Chinese Literature	
CHIN 3361	Women and the Supernatural in Chinese Literature	
CHIN 3371	Topics in Chinese Film (taught in English)	
CHIN 4110	Advanced Readings in Modern Chinese 1 <sup>1</sup>	
CHIN 4120	Advanced Readings in Modern Chinese 2 <sup>1</sup>	
CHIN 4220	Readings in Classical Chinese <sup>1</sup>	
CHIN 4300	Open Topics: Readings in Chinese Literature	
CHIN 4750	Daoism	
CHIN 4900	Independent Study	
CHIN 4950	Honors Thesis	
Total Credit Hours		30

<sup>1</sup> Transfer credit for these courses, whether from universities in this country or abroad, will be considered only in exceptional cases; normally, no credit toward the major will be given for these courses unless taken in residence.

<sup>2</sup> Fulfills both a major elective requirement and a component of the Gen Ed Skills Requirement.

## Graduating in Four Years

Consult the Four-Year Guarantee Requirements for information on eligibility. The concept of "adequate progress" as it is used here only refers to maintaining eligibility for the four-year guarantee; it is not a requirement for the major. To maintain adequate progress in Chinese, students should meet the following requirements:

- Declare the major by the first semester of sophomore year.
- Students wishing to major in Chinese and who have no prior knowledge of the language should begin the required major courses no later than the sophomore year.
- Students must consult with the department's undergraduate academic advisor (<https://www.colorado.edu/alc/undergraduate/advising>) to determine adequate progress toward completion of the major.

## Recommended Four-Year Plan of Study

Through the required coursework for the major, students will fulfill all 12 credits of the Arts & Humanities area of the Gen Ed Distribution Requirement. Average 30 credits per year. Credits may vary due to 5 credit language courses. Expect to take 14-17 credits per term. Keep the first year schedule closer to 14. Not all courses will be taught in the semester listed below. Be flexible with course options and you should speak with your advisor for specific recommendations.

Course	Title	Credit Hours
<b>Year One</b>

## Bachelor's–Accelerated Master's Degree Program(s)

The Bachelor's–Accelerated Master's (BAM) degree program options offer currently enrolled CU Boulder undergraduate students the opportunity to receive a bachelor's and master's degree in a shorter period of time. Students receive the bachelor's degree first, but begin taking graduate coursework as undergraduates (typically in their senior year). Because some courses are allowed to double count for both the bachelor's and the master's degrees, students receive a master's degree in less time and at a lower cost than if they were to enroll in a stand-alone master's degree program after completion of their baccalaureate degree. In addition, staying at CU Boulder to pursue a bachelor's–accelerated master's program enables students to continue working with their established faculty mentors.

### BA in Chinese, MA in Asian Languages and Civilizations

The Bachelor's–Accelerated Master's (BAM) degree program in Chinese recognizes the need for master's-level training upon entering the job market in a variety of sectors that call for highly advanced proficiency in the Chinese language, knowledge of the culture of China and its literature and the skills acquired by BA and MA graduates in the humanities: research, analysis, interpretation, translation and communication. This degree offers a challenging and focused academic experience for

exceptional students (particularly those who enter the university with significant preparation in Chinese studies from high school or with other backgrounds, or those who participate in study abroad opportunities at CU) who demonstrate the ability to express their ideas clearly, both orally and in written form, using standard English.

### Admissions Requirements

In order to gain admission to the BAM program named above, a student must meet the following criteria:

- Current CU Boulder Undergraduate Student
- Completion of all MAPS deficiencies
- Have a cumulative GPA of 3.25 or higher for all courses taken at CU Boulder
- Transfer students must have completed a minimum of 24 credit hours at CU Boulder

Students must submit the following materials by September 1 of their junior year (or, in exceptional circumstances, during the student's senior year) to the director of graduate studies in Chinese (<https://www.colorado.edu/alc/graduate/advising>). Applications will be reviewed by the Chinese graduate faculty. Students interested in applying for this option must consult with the department's undergraduate academic advisor (<https://www.colorado.edu/alc/undergraduate/advising>) early in their career at CU to establish their program of study.

- Intent application
- Statement of purpose
- Writing sample
- Three letters of recommendation (at least one from a full-time member of the Chinese faculty)

### Program Requirements

Students are required to fulfill separately all requirements for the BA in Chinese and MA in Chinese, with the following exception that can satisfy requirements for both the BA and the MA:

- CHIN 4220 Readings in Classical Chinese (3 credits)
- CHIN 5010 Sinological Methods (3 credits)

Students must apply to graduate with the bachelor's degree, and apply to continue with the master's degree, early in the semester in which the undergraduate requirements will be completed.<sup>1</sup>

Additional information about the BAM requirements and curriculum (<https://www.colorado.edu/alc/graduate/chinese>) can be found on the department website.

<sup>1</sup>Students who were admitted prior to July 2019 follow a concurrent Bachelor's/Master's structure, and the two degrees are awarded simultaneously when requirements for both degrees are met.

## Chinese - Minor

A minor in Chinese can be selected by students who wish to gain a basic understanding of the language as well as history, culture and literary traditions of China.

For more information, visit the department's Minors (<http://www.colorado.edu/alc/undergraduate/minors>) webpage or see the department's undergraduate academic advisor (<https://www.colorado.edu/alc/undergraduate/advising>).

## Requirements

A minimum of 18 credits must be taken in Chinese language and literature courses, including a total of 13 upper-division credits.

Pass/fail work and CHIN 3200 will not apply to the minor. Students are allowed to apply no more than 9 credits, including 6 upper-division credits, of transfer work toward a minor.

### Required Courses and Credits

Code	Title	Credit Hours
<b>Required Courses</b>		
CHIN 2120	Intermediate Chinese 2	5
CHIN 3110	Advanced Chinese 1	5
CHIN 3120	Advanced Chinese 2	5
<b>Electives</b>		
At least one additional upper-division, 3-credit-hour CHIN course.		3
Total Credit Hours		18

## Hindi/Urdu - Minor

A minor in Hindi/Urdu studies can be selected by students who wish to gain a basic understanding of the language as well as history, culture and literary traditions of South Asia. Students cannot declare both the certificate in South Asian languages and civilizations and the minor in Hindi/Urdu studies.

For more information, visit the department's Minors (<http://www.colorado.edu/alc/undergraduate/minors>) webpage or see the department's undergraduate academic advisor (<https://www.colorado.edu/alc/undergraduate/advising>).

## Requirements

A minimum of 19 credit hours must be taken in Hindi/Urdu language and literature courses, including a total of 9 upper-division credit hours.

All coursework applied to the minor must be completed with a grade of C- or better. The GPA for all minor coursework must equal 2.00 or higher. No pass/fail work may be applied. Students are allowed to apply no more than 9 credit hours, including 6 upper-division credit hours, of transfer work toward a minor.

### Required Courses and Credits

Code	Title	Credit Hours
<b>Required Courses</b>		
HIND 2110	Intermediate Hindi 1	5
HIND 2120	Intermediate Hindi 2	5
<b>Electives</b>		
At least three upper-division, 3-credit-hour HIND courses.		
HIND 3110	Advanced Hindi 1	
HIND 3120	Advanced Hindi 2	
HIND 3441	Screening India: A History of Bollywood Cinema	
HIND 3651	Living Indian Epics: The Ramayana and the Mahabharata in the Modern Political Imagination	

HIND 3661	South Asian Diasporas: Imagining Home Abroad
HIND 3811	The Power of the Word: Subversive and Censored 20th Century Indo-Pakistani Literature
HIND 3831	The Many Faces of Krishna in South Asia Literature and Culture
HIND 3851	Devotional Literature in South Asia

Total Credit Hours 19

## Japanese - Bachelor of Arts (BA)

The undergraduate degree in Japanese emphasizes knowledge and awareness of:

- the outlines of the history of Japanese literature from the Nara period to the present
- the outlines of Japanese historical and cultural development
- appropriate research strategies for Japanese language, literature and culture

In addition, students completing the degree in Japanese are expected to acquire the ability and skills to:

- speak and comprehend Japanese sufficiently for daily life
- read, interpret and analyze modern written texts
- compose letters and simple compositions
- use cultural awareness and understanding to function appropriately in a range of social situations
- communicate the results of research in English

In addition, students target one or more of the following goals:

- read and comprehend classical Japanese, with the aid of appropriate reference works
- translate a range of Japanese texts into English
- understand and analyze the structure of the Japanese language and communication patterns in Japanese

With a Japanese major (<https://www.colorado.edu/alc/undergraduate/majors>), students will have skills, information and concepts that are relevant to careers in virtually every area. Competency in a foreign language is a highly desirable skill in all fields. A knowledge of Japanese is particularly beneficial and useful in business, engineering, industry, commerce, the civil or foreign service, law, library science, natural and social sciences, the media, economics, public administration, journalism, government and teaching at all levels. In addition, Japan is an increasing source of a wide variety of excellent careers, as it is among the world's largest economies (<http://databank.worldbank.org/data/download/GDP.pdf>) and trading partners with the U.S. ([http://www.trade.gov/mas/ian/build/groups/public/@tg\\_ian/documents/webcontent/tg\\_ian\\_003364.pdf](http://www.trade.gov/mas/ian/build/groups/public/@tg_ian/documents/webcontent/tg_ian_003364.pdf)) and Colorado. Students are encouraged to consider combining their Japanese language training with courses in these or other fields. Additional career opportunities can be found on the Career Services website (<http://www.colorado.edu/career>).

## Requirements

### Program Requirements

Students must complete the general requirements of the College of Arts and Sciences and the required courses listed below. JPNS 1010,

JPNS 1020 and JPNS 2110 do not count toward the maximum of 45 credit hours in the major department.

The major program for the BA degree in Japanese requires successful completion of 30 credit hours, of which at least 18 credit hours must be at the upper-division level.

### Required Courses and Credits

Code	Title	Credit Hours
<b>Required Courses</b>		
JPNS 2120	Intermediate Japanese 2	5
JPNS 3110	Advanced Japanese 1	5
JPNS 3120	Advanced Japanese 2	5
<b>Electives</b>		
The remaining 15 credit hours should be chosen from the courses listed below; 6 of these credit hours may be satisfied by courses focusing wholly or substantially on Japan offered in other departments, subject to approval by the Japanese undergraduate faculty advisor; and 9 of these credit hours must be at the upper-division level.		15
JPNS 1012	Introduction to Japanese Civilization	
JPNS 1051	Masterpieces of Japanese Literature in Translation	
JPNS 2441	Japanese Culture through Film and Anime	
JPNS 2811	Heroes and the Supernatural: Word and Image in Old Japan	
JPNS 3200	Adv Wrtg Topics on Chinese & Japanese Literature and Civilization (recommended)	
JPNS 3511	From Rebellion to Calamity: Contemp Japanese Lit in Transl	
JPNS 3811	Love, Death, and Desire: Classical Japanese Literature in Translation	
JPNS 3821	Monsters, Monks, and Mayhem: Medieval Japanese Literature in Translation	
JPNS 3831	The Floating World of Play and Passion: Early Modern Japanese Literature in Translation	
JPNS 3841	Tradition and Transgression: Modern Japanese Literature in Translation	
JPNS 3851	Studies in Japanese Popular Culture	
JPNS 3871	Horror and the Macabre in Japanese Literature, Film, Culture	
JPNS 3881	Environment, Nature and Disaster in Japanese Literature and Culture	
JPNS 3891	Travel/Travel Writing in Japanese Literature and Culture	
JPNS 4110	Advanced Readings in Modern Japanese 1	
JPNS 4120	Advanced Readings in Modern Japanese 2	
JPNS 4150	Japanese to English Translation: Theory and Practice	
JPNS 4210	Contemporary Japanese 1: Current Issues	
JPNS 4300	Open Topics: Readings in Japanese	
JPNS 4310	Classical Japanese 1 <sup>1</sup>	
JPNS 4320	Classical Japanese 2 <sup>1</sup>	

JPNS 4400	Critical Theory and Japanese Literature and Culture	
JPNS 4900	Independent Study <sup>2</sup>	
JPNS 4950	Honors Thesis	
Total Credit Hours		30

<sup>1</sup> Transfer credit for these courses, whether from universities in this country or abroad, will be considered only in exceptional cases; normally, no credit toward the major will be given for these courses unless taken in residence.

<sup>2</sup> Independent Study will be considered only in exceptional cases. Please consult with the Japanese Undergraduate Faculty Advisor.

## Graduating in Four Years

Consult the Four-Year Guarantee Requirements for information on eligibility. The concept of “adequate progress” as it is used here only refers to maintaining eligibility for the four-year guarantee; it is not a requirement for the major. To maintain adequate progress in Japanese, students should meet the following requirements:

- Declare the major by the first semester of sophomore year.
- Students wishing to major in Japanese and who have no prior knowledge of the language should begin the required major courses no later than the sophomore year.
- Students must consult with the department’s undergraduate academic advisor (<https://www.colorado.edu/alc/undergraduate/advising>) to determine adequate progress toward completion of the major. An example four-year plan is available on the department website (<https://www.colorado.edu/alc/undergraduate/majors>).

## Recommended Four-Year Plan of Study

Through the required coursework for the major, students will fulfill all 12 credits of the Arts & Humanities area of the Gen Ed Distribution Requirement, and potentially, the Upper-division Written Communication component of the Gen Ed Skills Requirement and the Global Perspective category of the Gen Ed Diversity Requirement.

Course	Title	Credit Hours
<b>Year One</b>		
<b>Fall Semester</b>		
JPNS 1010	Beginning Japanese 1	5
JPNS 1051 or JPNS 1012	Masterpieces of Japanese Literature in Translation <sup>1</sup> or Introduction to Japanese Civilization	3

	Upper-division Elective	3
	Upper-division Elective	3

Upper-division Elective	3
Credit Hours	15
Total Credit Hours	121

<sup>1</sup> JPNS 1012 recommended; fulfills both JPNS major requirement and the Global Perspective category in the Gen. Ed. Diversity Requirement.

## Bachelor's–Accelerated Master's Degree Program(s)

The Bachelor's–Accelerated Master's (BAM) degree program options offer currently enrolled CU Boulder undergraduate students the opportunity to receive a bachelor's and master's degree in a shorter period of time. Students receive the bachelor's degree first, but begin taking graduate coursework as undergraduates (typically in their senior year). Because some courses are allowed to double count for both the bachelor's and the master's degrees, students receive a master's degree in less time and at a lower cost than if they were to enroll in a stand-alone master's degree program after completion of their baccalaureate degree. In addition, staying at CU Boulder to pursue a bachelor's–accelerated master's program enables students to continue working with their established faculty mentors.

### BA in Japanese, MA in Asian Languages and Civilizations

The Bachelor's–Accelerated Master's (BAM) degree in Japanese recognizes the need for master's-level training upon entering the job market in a variety of sectors that call for highly advanced proficiency in the Japanese language, knowledge of the culture of Japan and its literature, and the skills acquired by BA and MA graduates in the humanities: research, analysis, interpretation, translation and communication. This degree offers a challenging and focused academic experience for exceptional students (particularly those who enter the university with significant preparation in Japanese studies from high school or with other backgrounds, or those who participate in study abroad opportunities at CU) who demonstrate the ability to express their ideas clearly, both orally and in written form, using standard English.

### Admissions Requirements

In order to gain admission to the BAM program named above, a student must meet the following criteria:

- Current CU Boulder Undergraduate Student
- Completion of all MAPS deficiencies
- Have a cumulative GPA of 3.25 or higher for all courses taken at CU Boulder
- Transfer students must have completed a minimum of 24 credit hours at CU Boulder

Students must submit the following materials by September 1 of their junior year (or, in exceptional circumstances, during the student's senior year) to the director of graduate studies in Chinese (<https://www.colorado.edu/alc/graduate/advising>). Applications will be reviewed by the Chinese graduate faculty. Students interested in applying for this option must consult with the department's undergraduate academic advisor (<https://www.colorado.edu/alc/undergraduate/advising>) early in their career at CU to establish their program of study.

- Intent application
- Statement of purpose

- Writing sample
- Three letters of recommendation (at least one from a full-time member of the Chinese faculty)

### Program Requirements

Students are required to fulfill separately all requirements for the B.A. in Japanese and M.A. in Japanese, with the exception that 6 credits of coursework can satisfy requirements for both the B.A. and the M.A. Selection of the overlap courses should be made in consultation with the director of graduate studies in Japanese (<https://www.colorado.edu/alc/people/advising/graduate>).

Students must apply to graduate with the bachelor's degree, and apply to continue with the master's degree, early in the semester in which the undergraduate requirements will be completed.<sup>1</sup>

Specific information about the BAM requirements and curriculum (<https://www.colorado.edu/alc/graduate/chinese>) can be found on the department website.

<sup>1</sup> Students who were admitted prior to July 2019 follow a concurrent Bachelor's/Master's structure, and the two degrees are awarded simultaneously when requirements for both degrees are met.

## Japanese - Minor

A minor in Japanese can be selected by students who wish to gain a basic understanding of the language as well as history, culture and literary traditions of Japan.

For more information, visit the department's Minors (<http://www.colorado.edu/alc/undergraduate/minors>) webpage or see the department's undergraduate academic advisor (<https://www.colorado.edu/alc/undergraduate/advising>).

### Requirements

A minimum of 18 credit hours must be taken in Japanese language and literature courses, including a total of 13 upper-division credit hours.

Pass/fail work and JPNS 3200 will not apply to the minor. Students are allowed to apply no more than 9 credits, including 6 upper-division credits, of transfer work toward a minor.

All coursework applied to the minor must be completed with a grade of C- or better (no pass/fail work may be applied). The GPA for all coursework taken in the minor department must be equal to 2.00 (C) or higher.

### Required Courses and Credits

Code	Title	Credit Hours
<b>Required Courses</b>		
JPNS 2120	Intermediate Japanese 2	5
JPNS 3110	Advanced Japanese 1	5
JPNS 3120	Advanced Japanese 2	5
<b>Electives</b>		
At least one additional upper-division, 3-credit-hour JPNS course.		3
Total Credit Hours		18

## Korean - Minor

A minor in Korean can be selected by students who wish to gain a basic understanding of the language as well as history, culture and literary traditions of Korea.

For more information, visit the department's Minors (<http://www.colorado.edu/alc/undergraduate/minors>) webpage or see the department's undergraduate academic advisor (<https://www.colorado.edu/alc/undergraduate/advising>).

### Requirements

A minimum of 18 credit hours must be taken in Korean language and literature courses, including a total of 13 upper-division credit hours.

All coursework applied to the minor must be completed with a grade of C- or better (no pass/fail work may be applied). The GPA for all coursework taken in the minor department must be equal to 2.00 (C) or higher.

Code	Title	Credit Hours
<b>Required Courses</b>		
KREN 2120	Intermediate Korean 2	5
KREN 3110	Advanced Korean 1	5
KREN 3120	Advanced Korean 2	5
<b>Electives</b>		
At least one additional 3000-level Korean content course.		
KREN 3841	Modern Korean Literature in English Translation	3
KREN 3851	Studies in Korean Popular Culture	3
Total Credit Hours		18

Pass/fail work will not apply to the minor. Students are allowed to apply no more than 9 credit hours, including 6 upper-division credit hours, of transfer work toward a minor.

## Middle Eastern and Islamic Studies - Certificate

The Certificate in Middle Eastern and Islamic Studies provides students the opportunity to formally explore the cultural, political and religious diversity of the Middle East and the Islamic worlds.

The region commonly referred to as the Middle East includes over 20 Arabic speaking countries, as well as Iran, Turkey, and Israel and spans Southwest Asia and North Africa. A culturally, religiously and linguistically diverse region, the Middle East today is one of the most geopolitically critical regions in the world. It is the birthplace of the three major monotheistic faiths, Judaism, Christianity and Islam; the home of medieval Islamic civilizations; and home to rich literary, architectural and religious traditions. Islam, a monotheistic faith that began in the Arabian Peninsula in the 7th century, is today practiced by over one billion people and is diversely expressed through a vast geographic, linguistic and cultural terrain, from West Africa to East Asia.

Students currently pursuing the requirements of the Certificate in Middle Eastern and Islamic Studies (MEIS) or interested in doing so should complete the Statement of Intent form (<https://www.colorado.edu/alc/undergraduate/certificates>) available on the department website.

Students who have completed the requirements for the MEIS certificate and are graduating in December or May must complete the Program of Study form (<https://www.colorado.edu/alc/undergraduate/certificates>) and the Certificate Completion form (<https://www.colorado.edu/alc/undergraduate/certificates>), also available on the department website, and submit them to the MEIS certificate advisor (<https://www.colorado.edu/alc/undergraduate/advising>) two months prior to graduation.

Students cannot earn both the Certificate in Middle Eastern and Islamic Studies and the Minor in Arabic.

### Requirements

The certificate requires a total of 19 credit hours (9 of which must be upper-division), which include both language and content courses.

**Required Courses:** At least one year of either Arabic or Farsi language courses beginning at the intermediate level (2000 level) with a grade of C or better. A student who participates in an approved study abroad program may earn up to 10 credit hours for language study at an intermediate or advanced level.

**Electives:** Three courses, at least one of which must be a course designated ARAB and has a specific focus on Islam and the Islamic world. These nine credit hours may be selected from the list of approved content courses below and are to be completed with a grade of C- or better. Approval of study abroad credits for content courses will be reviewed on a case-by-case basis.

Code	Title	Credit Hours
<b>Possible Electives Include:</b>		
ANTH/JWST 4050	Anthropology of Jews and Judaism (Cultures of Israel & Palestine)	
ANTH 4180	Anthropological Perspectives: Contemporary Issues (Global Islams)	
ARAB 2231	Love, Loss and Longing in Classical Arabic Literature	
ARAB/RLST 2320	The Muslim World, 600-1250	
ARAB 3230	Islamic Culture and the Iberian Peninsula	
ARAB 3231	In the Footsteps of Travelers: Travel Writing in Arabic Lit	
ARAB 3241	Art in Islamic Cultures	
ARAB 3330	The Arabic Novel	
ARAB 3340	Representing Islam	
ARAB 3350	Narrating the City: Literary Mappings of the Urban Landscape	
ARAB 3410	Gender, Sexuality and Culture in the Modern Middle East	
GEOG 3742	Place, Power, and Contemporary Culture	
GEOG 4742	Topics in Environment and Society (Geographies of the Muslim World)	
GEOG 4742	Topics in Environment and Society (Contemporary Islam: Empire/Terror/Revolution)	
GEOG 4762	Geographies of Political Islam: Empire, Terror and Revolution	
JWST 2350	Introduction to Jewish Culture	

HEBR/JWST 4203	Israeli Literature: Exile, Nation, Home
HIST 3328	Seminar in Middle Eastern History
HIST 4328	The Modern Middle East, 1600 to the Present
HIST 4329	Islam in the Modern World: Revivalism, Modernism, and Fundamentalism, 1800-2001
HIST/JWST 4338	History of Modern Israel/Palestine
HIST/JWST 4348	Topics in Jewish History (Tel Aviv Urban History and Culture)
HIST/JWST 4378	History of Modern Jewish-Muslim Relations
HIST 4528	Islam in South and Southeast Asia (1000 to the Present)
HUMN 3850	The Mediterranean: Religion Before Modernity
IAFS 3000	Special Topics in International Affairs (Arab / Israel Conflict)
IAFS 3000	Special Topics in International Affairs (Political Economy/Middle East)
IAFS 3000	Special Topics in International Affairs (Security in the Middle East)
IAFS 3000	Special Topics in International Affairs (Statebuilding in the 21st Century)
IAFS 3000	Special Topics in International Affairs (Turkey-Mediator/Arab Spring)
IAFS 3000	Special Topics in International Affairs (Gender, Geopolitics and Islam)
IAFS 4500	The Post-Cold War World (Afghanistan and Iraq)
IAFS 4500	The Post-Cold War World (Understanding 9/11: Causes, Events, Legacies)
IAFS 4500	The Post-Cold War World (The Geopolitics and Economics of Oil)
JWST/IAFS/RLST 3530	Global Seminar: Jews and Muslims - The Multiethnic History of Istanbul
JWST 4302	Global Seminar: Justice, Human Rights and Democracy in Israel
RLST 2202	Islam
RLST 2600	Judaism, Christianity, and Islam
RLST 3040	The Quran
RLST 3060	Fundamentalism and Islam
RLST 3070	Islamic Mysticism: Ibn Arabi, Rumi, and the Sufi Tradition
RLST 4820/5820	Interdisciplinary Seminar on Religion
SOCY 4132	Gender, Islam and Modernity

Students should consult with the MEIS certificate advisor (<https://www.colorado.edu/alc/undergraduate/advising>) annually and must fulfill the requirements for an undergraduate degree at CU Boulder.

## South Asian Languages and Civilizations - Certificate

The Certificate in South Asian Languages and Civilizations is designed to help prepare CU students for careers with international companies and government agencies that are searching for employees with language skills in Hindi/Urdu and a broad understanding of South Asia.

South Asia—comprising India, Pakistan, Sri Lanka, Bangladesh, Nepal and Tibet—has emerged as a key center of economic, political and cultural power in the 21st century. South Asia in ancient times drove the economy of Central and Southeast Asia, exported a cosmopolitan Sanskrit literary culture and was the spiritual home of Hinduism and Buddhism. South Asia in medieval times was a major hub of global trade and the pride of a wide-ranging Persianate civilization. Its Mughal Empire was far more populous and wealthy than the Ottomans and Safavids combined. South Asia today is home to over 100 officially recognized languages and most of the world's major religious traditions. With some 500 million speakers, Hindi/Urdu is one of the most popular languages in the world, alongside Mandarin, English and Spanish. Hindi-Urdu boasts thriving contemporary literary and media cultures, and—with Bollywood—the world's largest and most influential film industry.

Students currently pursuing the requirements of the Certificate in South Asian Languages and Civilizations (SALC) or interested in doing so should complete the Statement of Intent form (<https://www.colorado.edu/alc/undergraduate/certificates>) available on the department website. Students who have completed the requirements for the SALC certificate and are graduating in December or May must complete the Program of Study form (<https://www.colorado.edu/alc/undergraduate/certificates>) and the Certificate Completion form (<https://www.colorado.edu/alc/undergraduate/certificates>), also available on the department website, and submit them to the SALC certificate advisor (<https://www.colorado.edu/alc/undergraduate/advising>) two months prior to graduation.

Students cannot earn both the Certificate in South Asian Languages and Civilizations and the Minor in Hindi/Urdu.

## Requirements

The certificate requires a total of 19 credit hours (9 of which must be upper-division), which include both language and content courses.

**Required Courses:** At least one year of Hindi/Urdu language courses beginning at the intermediate level (2000 level) with a grade of C or better. A student who participates in an approved study abroad program may earn up to 10 credit hours for language study at an intermediate or advanced level.

**Electives:** Three courses, at least one of which must be a course designated HIND. These nine credit hours may be selected from the list of approved content courses below and are to be completed with a grade of C- or better. Approval of study abroad credits for content courses will be reviewed on a case-by-case basis.

Code	Title	Credit Hours
------	-------	--------------

### Possible Electives Include:

ANTH 4180	Anthropological Perspectives: Contemporary Issues (The Himalayas)	
ANTH 4750	Culture and Society in South Asia	

ANTH 4690	Anthropology of Tibet
HIND 3441	Screening India: A History of Bollywood Cinema
HIND 3811	The Power of the Word: Subversive and Censored 20th Century Indo-Pakistani Literature
HIND 3651	Living Indian Epics: The Ramayana and the Mahabharata in the Modern Political Imagination
HIND 3661	South Asian Diasporas: Imagining Home Abroad
HIND 3831	The Many Faces of Krishna in South Asia Literature and Culture
HIND 3851	Devotional Literature in South Asia

HIST 4538	History of Modern India
HIST 4548	Women in Modern India
HIST 4558	Buddha to Gandhi: A History of Indian Nonviolence
HIST 4820	Human Rights: Historical Perspectives
IAFS 4500	The Post-Cold War World (South Asia)
IAFS 4500	The Post-Cold War World (South Asia/ Conflict/Resolution)
IAFS 4500	The Post-Cold War World (Conflict/Culture in South Asia)
RLST 2610	Happiness and Nirvana: Enlightenment in Indian Religions
RLST 2612	Yoga: Ancient and Modern
RLST 3070	Islamic Mysticism: Ibn Arabi, Rumi, and the Sufi Tradition
RLST 3200	Hinduism
RLST 3300	Foundations of Buddhism
RLST 3550	Tibetan Buddhism
RLST 3820	Topics in Religious Studies (Tibetan Buddhism)
RLST 4200	Topics in Hinduism
RLST 4250	Topics in Buddhism
RLST 4280	Body and Magic in India
RLST 5210	Advanced Readings in Sanskrit

Students should consult with the SALC certificate advisor (<https://www.colorado.edu/alc/undergraduate/advising>) annually and must fulfill the requirements for an undergraduate degree at CU Boulder.

## Asian Studies

The Center for Asian Studies offers a broad interdisciplinary undergraduate major in Asian studies—including optional tracks for students wishing to focus on the Middle East/West Asia, Korea or South Asia—and a minor.

Students planning to major in Asian studies may obtain credit when they participate in study abroad programs in Asia with prior approval from the Asian Studies Program and Education Abroad.

For additional information on the major program, see Asian Studies - Bachelor of Arts (BA) (p. 142) or contact Colleen Berry at [colleen.berry@colorado.edu](mailto:colleen.berry@colorado.edu) or 303-735-5224.

**Course code for this program is ASIA.**

## Bachelor's Degree

- Asian Studies - Bachelor of Arts (BA) (p. 142)

## Minor

- Asian Studies - Minor (p. 150)

## Faculty

While many faculty teach both undergraduate and graduate students, some instruct students at the undergraduate level only. For more information, contact the faculty member's home department.

Berry, J. Colleen ([https://experts.colorado.edu/display/fisid\\_155491](https://experts.colorado.edu/display/fisid_155491))  
Instructor, Associate Faculty Director; PhD, Indiana University  
Bloomington

Jones, Carla Mae ([https://experts.colorado.edu/display/fisid\\_134172](https://experts.colorado.edu/display/fisid_134172))  
Faculty Director; PhD, University of North Carolina, Chapel Hill

## Courses

**ASIA 2000 (3) Gateway to Modern Asia: Exploring Regional Connections**  
Introduces main themes, intellectual approaches used in Asian Studies through a transdisciplinary perspective that focuses on interactions and links between geographic regions and national boundaries. Presents Asia as a concept, a powerful imaginary geography, and historically dynamic construct that has shaped / been shaped by global patterns of economic development, nation building, war and diplomacy, colonialism and aspirations for better lives.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Core Curr: Human Diversity

Arts Sci Gen Ed: Distribution-Arts-Humanities

Arts Sci Gen Ed: Diversity-Global Perspective

Arts Sci Gen Ed: Distribution-Social Sciences

Departmental Category: Asia Content

**ASIA 2852 (3) Contemporary Southeast Asia: Environmental Politics**  
Examines globally pressing questions of environmental sustainability, regional inequality and development in the dynamic and heterogeneous landscapes of contemporary Southeast Asia. Focuses on interactions between histories of uneven development and contemporary debates over energy and infrastructure, food security, governance and access to land, forest and water-based resources.

**Equivalent - Duplicate Degree Credit Not Granted:** GEOG 2852

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

Arts Sci Gen Ed: Diversity-Global Perspective

**ASIA 3300 (3) Sex and Gender in Asian Film and Literature**

Explores issues of sex and gender in traditional and contemporary Asian cultures by looking at how sex and gendered roles are configured and play out in Asian cultures. Employs film and literary sources which reflect, subvert and act as agents of change in the dominant cultures.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Asia Content

**ASIA 3900 (3) Discovering Urban China: Tradition, Modernity, Nostalgia**

Explores the ways Chinese cities, especially Beijing and Shanghai, are depicted in scholarly articles, films, literature and population culture in terms of tradition, modernity and nostalgia. Begins by defining the terms then discusses texts dealing with these themes. Discussions are linked to what the students observe first-hand as they explore the cities. Takes place in China.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Asia Content

**ASIA 4001 (1) Advanced Language Co-Seminar Arts and Humanities**

Acts as a Co-Seminar for advanced Asian Studies students.

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Grading Basis:** Pass/Fail

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**ASIA 4002 (1) Advanced Language Co-Seminar Social Sciences**

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Grading Basis:** Pass/Fail

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**ASIA 4300 (3) Open Topics in Asian Literature and Culture**

Examines selected texts on a particular topic. Taught by regular or visiting faculty. Topics change each term.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Asia Content

**ASIA 4448 (3) World War II in Southeast Asia**

Examines World War II in Southeast Asia, emphasizing the political, social, economic, cultural, and ideological impact of the conflict. How can we define ¿Southeast Asia¿? In what ways did conflict affect men and women, soldiers and civilians, and ethnic, religious, and sexual communities? How can we understand the war as a local, regional, and global experience, with legacies for today?

**ASIA 4500 (3) Urban Asia: Tradition, Modernity, Challenges**

Explores change in urban Asia, the representation of Asian cities, and the challenges of urban life through a transdisciplinary and thematic approach using academic articles, documentaries, and literary materials. The class discusses the role of tradition, concepts of modernity, the impact of tourism, rural to urban migration, poverty, the effects of war, legacies of colonialism, and environmental challenges.

**Grading Basis:** Letter Grade

**Additional Information:** Departmental Category: Asia Content

**ASIA 4830 (3) Senior Seminar in Asian Studies**

Participates in a discussion seminar on topics in Asian Studies, conducts research and writes a final paper or creates a final project on an approved Asian topic, following guidelines established by the program director.

Required for an Asian Studies major but open to non-Asian Study majors.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Asia Content

**ASIA 4840 (1-3) Independent Study**

Provides an independent study opportunity, by special arrangement with Asian Studies faculty, for students with particular Asian Studies interests.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Restricted to Asian Studies (ASIA) majors only.

**Additional Information:** Departmental Category: Asia Content

**ASIA 4842 (3) Global Frontiers in Southeast Asia**

Uses the theme of the global frontier to examine and compare three key moments in the modern history of Southeast Asia: the colonial encounter, the rise of the modern territorial state, and the age of contemporary globalization. Examines case studies from earlier eras to analyze emerging global frontiers at the junction of state territoriality and transnational economic expansion.

**Equivalent - Duplicate Degree Credit Not Granted:** GEOG 4842 and GEOG 5842

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Distribution-Social Sciences

**ASIA 4930 (1-6) Engage Asia: Internship in Asian Studies**

Matches students with supervised internships relevant to academic topics in Asian studies. Students work with CAS faculty and internship supervisors, i.e., intern with companies or non-profits doing Asia-related business or project.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Requisite Asian language and culture courses.

**Grading Basis:** Letter Grade

**Additional Information:** Departmental Category: Asia Content

## Asian Studies - Bachelor of Arts (BA)

The study of Asia is highly relevant and important in this global age. Its influences on the Western world can be seen in economics, politics, music, the arts, entertainment and religion.

The Asian studies major at CU Boulder encompasses a diverse interdisciplinary study of Asia and gives students an opportunity to discover Asia through a wide variety of courses that reflect the astonishing diversity of the region. Many students choose Asian studies as a second major to complement the study of such subjects as history, international affairs, Asian languages and geography. As part of the Asian studies major requirements, students will receive a thorough grounding in the history of Asia and will study an Asian language: Arabic, Chinese, Hindi, Farsi, Japanese, Korean, Sanskrit or Tibetan. All majors complete their Asian studies degree with the Senior Capstone in Asian Studies, a cumulative learning experience to deepen student knowledge of Asian studies.

Upon completion of this course of study, students will have received a highly individualized and broad education in the Asian region that will

allow them to better understand its history and culture as well as its current dynamics.

NOTE: Students have several options when majoring in Asian studies. One is the general Asian studies Bachelor of Arts degree. However, if a student wishes to choose a particular area of emphasis that will appear on their transcript, there are three options below.

## Optional Specific Area Tracks

### Korea Track

An option for students who want to make Korea their area of emphasis and who would like to see it shown on their transcripts.

### South Asia Track

An option for students who want South Asia to be their focus and who would like to see it shown on their transcripts.

### West Asia/Middle East Track

An option for students who want to focus on West Asia/Middle East and who would like to see it shown on their transcripts.

## Contact Information

Please contact Faculty Advisor Colleen Berry at [colleen.berry@colorado.edu](mailto:colleen.berry@colorado.edu). Her office is located in Room 202 in the Center for Asian Studies building at 1424 Broadway (two doors north of the intersection of University and Broadway).

Contact the Undergraduate Advisor Christine Luft at [christine.luft@colorado.edu](mailto:christine.luft@colorado.edu). To change your major to Asian studies, please schedule an appointment through [advising.colorado.edu](http://advising.colorado.edu) (<http://advising.colorado.edu>)'s appointment system.

## Requirements

Students must complete the general requirements of the College of Arts and Sciences and the required courses listed below: 42 credits minimum, 18 of which must be upper division (College of Arts and Sciences minimum). Other courses not listed here, including some study abroad courses and special topics courses, may be applicable toward the Asian studies major, but they must first be approved by the Asian studies faculty advisor.

### Required Courses and Credits

Code	Title	Credit Hours
<b>Required Courses</b>		
ASIA 2000	Gateway to Modern Asia: Exploring Regional Connections	3
ASIA 4830	Senior Seminar in Asian Studies	3
<i>Asian Language</i>		
Four semesters of a single Asian language:		12-20
Arabic (sequence of three years offered)		
Chinese (sequence of four years offered)		
Farsi (sequence of four years offered)		
Hindi (sequence of three years offered)		
Japanese (sequence of four years offered)		
Korean (sequence of three years offered)		
Sanskrit and Tibetan are also available through Continuing Education.		

### Traditional Asian Civilizations

Students take any two introductory courses, focusing on two different civilizations: East Asia, South Asia or West Asia (6 credits minimum, lower division; see Traditional Asian Civilizations below).	6
---	---

### Modern Asian Civilizations

Students take one 3-credit course (lower division or upper division; see Modern Asian Civilizations below).	3
---	---

### Electives

Students take 12-15 upper-division credits (see Electives below).	15-12
---	-------

Total Credit Hours

42-47

## Traditional Asian Civilizations

Students take any two of the following introductory courses, focusing on two different civilizations: East Asia, South Asia or West Asia (6 credits minimum, lower division).

Code	Title	Credit Hours
<b>East Asian Civilization</b>		
CHIN 1012	Introduction to Chinese Civilization	
HIST 1618	Introduction to Chinese History to 1644	
HIST 1708	Introduction to Japanese History	
JPNS 1012	Introduction to Japanese Civilization	
HIST 1438	Introduction to Korean History	
KREN 1011	Introduction to Korean Civilization	
RLST 2620	Religions of East Asia

Students take one course; 3 credit hours, lower division or upper division.		3
<b>Electives</b>		
Students take 12-15 credit hours, 6 credit hours of which focus on Korea, all upper-division.		15-12
Courses with a Korean focus		
All KREN courses		
HIST 1438	Introduction to Korean History	
HIST 2220	History of War and Society (Korea through Wars)	
Total Credit Hours		50-47

## South Asia Track

Students must complete the general requirements of the College of Arts and Sciences and the required courses listed below: 42 credit hours minimum, 18 of which must be upper-division (College of Arts and Sciences minimum). Other courses not listed here, including some study abroad courses and special topics courses, may be applicable toward the Asian Studies major, but must first be approved by the Asian Studies Faculty Advisor.

Code	Title	Credit Hours
<b>Required Courses</b>		
ASIA 2000	Gateway to Modern Asia: Exploring Regional Connections	3
ASIA 4830	Senior Seminar in Asian Studies (The Senior Thesis/Project should focus on a South Asian topic.)	3
<b>Asian Language</b>		
4 semesters of a single South Asian language (12-20 credit hours). Additional semesters can count as Asian Studies Electives.		12-20
Hindi (sequence of three years offered)		
Sanskrit and Tibetan are also available through Continuing Education		
<b>Traditional Asian Civilizations</b>		
Students take two introductory courses, one on South Asia and one on West or East Asia; 6 credits minimum, lower division.		6
<b>South Asian Civilization</b>

44-47

## Recommended Four-Year Plan of Study

Through the required coursework for the major, students will complete all 12 credits of the Arts & Humanities area and some of the credits in the Social Sciences area of the Gen Ed Distribution Requirement and the Global Perspective component of the Gen Ed Diversity Requirement. Depending on elective courses selected within the major, students can potentially also complete the Social Sciences area of the Gen Ed Distribution Requirement.

Course	Title	Credit Hours
<b>Year One</b>		
<b>Fall Semester</b>		
Traditional Asian Civilization - Major course		3

Total Credit Hours	120

## Asian Studies - Minor

The minor in Asian studies allows students to engage in interdisciplinary study of Asia, adding an important global focus to their primary studies. While the minor does not grant credit for foreign language, students are encouraged to study abroad, and are able to gain a strong foundation in knowledge of the Asian world through a vast array of fascinating coursework. The Asian studies academic advisor and faculty advisor strongly encourage thematic or regional concentration, and are available for help in customizing the minor.

For any questions, please email Dr. Colleen Berry ([colleen.berry@colorado.edu](mailto:colleen.berry@colorado.edu)) or call (303) 735-5224. Visit the Asian Studies Minor (<http://www.colorado.edu/cas/academics/asian-studies-minor>) webpage for additional information.

## Requirements

### Required Courses and Credit Hours

Students must take a minimum of 21 credit hours, 12 of which must be upper-division (usually four 3-credit courses). Up to, but no more than, 9 credit hours earned through study abroad can be counted toward the minor.

All coursework applied to the minor must be completed with a grade of C- or better; no pass/fail work may be applied. The grade point average for all minor degree coursework must be equal to 2.000 (C) or higher.

Students are allowed to apply no more than 9 credit hours, including 6 upper-division credit hours, of transfer work toward a minor.

Code	Title	Credit Hours
<b>Required Courses</b>		
ASIA 2000	Gateway to Modern Asia: Exploring Regional Connections	3
Traditional Asian Civilizations: Two courses from two different civilizations (see link below).		6
Modern Asian Civilizations: One upper-division course (see link below).		3
<b>Upper-Division Electives</b>		
The remaining credits are fulfilled through a variety of available upper-division electives (see link below)		9
Total Credit Hours		21

### Traditional Asian Civilizations

Students take two of the following introductory courses, choosing one from each of two different civilizations (East Asia, South Asia, West Asia); 6 credit hours minimum, lower division. See the requirements on the Asian Studies - Bachelor of Arts (BA) (p. 143) page and scroll down to the Traditional Asian Civilizations courses.

### Modern Asian Civilizations

Students take one course; 3 credit hours. This course must be upper-division since the minor as a whole requires 12 upper-division credits. See

the requirements on the Asian Studies - Bachelor of Arts (BA) (p. 143) page and scroll down to the Modern Asian Civilizations courses.

## Upper-Division Electives

Students take at least 3 courses (9 credits, upper division). Upper-division credits are required for the electives, since the minor as a whole requires 12 upper-division credits. See the requirements on the Asian Studies - Bachelor of Arts (BA) (p. 143) page and scroll down to the Electives courses for possible choices.

After meeting the Modern Asian Civilizations requirement, additional upper-division courses from that category may also be taken as electives. ASIA 4830 can also be taken as an elective.

## Astrophysical and Planetary Sciences

The Department of Astrophysical and Planetary Sciences is one of the few programs that combines both astrophysics and planetary science, providing a unified view of space sciences, the solar system and comparative planetology, stellar and galactic astronomy, and cosmology. Students are given hands-on experience with telescopes, optics, instrumentation, and computer-image processing and modeling.

Course code for this program is ASTR.

## Bachelor's Degree

- Astronomy - Bachelor of Arts (BA) (p. 155)

## Minor

- Astronomy - Minor (p. 159)

## Faculty

While many faculty teach both undergraduate and graduate students, some instruct students at the undergraduate level only. For more information, contact the faculty member's home department.

## Courses

### ASTR 1000 (3) The Solar System

Introduction to the night sky, planets, moons and the life in our solar system. Highlights the latest discoveries from space. For non-science majors. Some lectures may be held at Fiske Planetarium. Offers opportunities for nighttime observations at Sommers-Bausch Observatory.

**Equivalent - Duplicate Degree Credit Not Granted:** ASTR 1010, but without lab ASTR 1010 or ASTR 1030

**Requisites:** Restricted to non- Astronomy (ASTR) majors only.

**Additional Information:** Arts Sci Core Curr: Natural Science Sequence  
Arts Sci Core Curr: Natural Science Non-Sequence  
Arts Sci Gen Ed: Distribution-Natural Sciences  
MAPS Course: Natural Science

### ASTR 1010 (4) Introductory Astronomy 1

Introduction to the night sky, planets, moons and the life in our solar system. Highlights the latest discoveries from space. For non-science majors. Some lectures may be held at Fiske Planetarium. Requires nighttime observations at Sommers-Bausch Observatory. Degree credit granted for only one of ASTR 1000 or ASTR 1010.

**Equivalent - Duplicate Degree Credit Not Granted:** ASTR 1000, but with additional lab

**Requisites:** Restricted to non- Astronomy (ASTR) majors only.

**Additional Information:** Arts Sci Core Curr: Natural Science Sequence  
Arts Sci Core Curr: Natural Science Lab  
Arts Sci Gen Ed: Distribution-Natural Sci Lab  
Arts Sci Gen Ed: Distribution-Natural Sciences  
MAPS Course: Natural Science Lab or Lab/Lec

### ASTR 1020 (4) Introductory Astronomy 2

Non-science majors learn the nature and workings of the Sun, stars, neutron stars, black holes, galaxies, quasars, structure and origins of the universe. Some lectures may be held at Fiske Planetarium.

Offers opportunities for nighttime observations at Sommers-Bausch Observatory. Includes recitation. Sequence link ASTR 1010. Credit granted for only one of ASTR 1020 or ASTR 1200.

**Requisites:** Requires a prerequisite course of ASTR 1000 or ASTR 1010 (minimum grade C-). Restricted to non- Astronomy (ASTR) majors only.

**Additional Information:** Arts Sci Core Curr: Natural Science Sequence  
Arts Sci Core Curr: Natural Science Non-Sequence  
Arts Sci Gen Ed: Distribution-Natural Sciences

### ASTR 1030 (4) Accelerated Introductory Astronomy 1

Covers principles of modern astronomy summarizing our present knowledge about the Earth, Sun, moon, planets and origin of life. Requires nighttime observation sessions at Sommers-Bausch Observatory. Required in ASTR major/minor. Like ASTR 1000 and 1010, but taught at a higher intellectual level, including a significant amount of quantitative analysis.

**Equivalent - Duplicate Degree Credit Not Granted:** ASTR 1000 or ASTR 1010

**Requisites:** Requires prerequisite or corequisite course of MATH 1300 or APPM 1350 or APPM 1340 and APPM 1345 (all minimum grade C-).

**Additional Information:** GT Pathways: GT-SC1 - Natural Physcal Sci:Lec  
Crse w/ Req Lab  
Arts Sci Core Curr: Natural Science Sequence  
Arts Sci Core Curr: Natural Science Lab  
Arts Sci Gen Ed: Distribution-Natural Sciences  
Arts Sci Gen Ed: Distribution-Natural Sci Lab

### ASTR 1040 (4) Accelerated Introductory Astronomy 2

Covers principles of modern astronomy summarizing our present knowledge about the Sun, stars, birth and death of stars, neutron stars, black holes, galaxies, quasars, and the organization and origins of the universe. May require nighttime observing sessions at Sommers-Bausch Observatory. Required in ASTR major/minor. Includes a recitation. Taught at a higher intellectual level including a significant amount of quantitative analysis.

**Equivalent - Duplicate Degree Credit Not Granted:** ASTR 1020 and ASTR 1200

**Requisites:** Requires prerequisite course of ASTR 1010 or ASTR 1030 and MATH 1300 or APPM 1350 or APPM 1340 and APPM 1345 (all minimum grade C-).

**Additional Information:** GT Pathways: GT-SC2 -Natural Physicl Sci:Lec  
Crse w/o Req Lab  
Arts Sci Core Curr: Natural Science Sequence  
Arts Sci Gen Ed: Distribution-Natural Sciences

**ASTR 1200 (3) Stars and Galaxies**

Non-science majors are introduced to the nature and workings of the Sun, stars, neutron stars, black holes, interstellar gas, galaxies, quasars, plus structure and origins of the universe. Some lectures may be held at Fiske Planetarium. Offers opportunities to attend nighttime observation sessions at Sommers-Bausch Observatory.

**Equivalent - Duplicate Degree Credit Not Granted:** ASTR 1020 and ASTR 1040

**Requisites:** Restricted to non- Astronomy (ASTR) majors only.

**Additional Information:** Arts Sci Core Curr: Natural Science Non-Sequence  
Arts Sci Gen Ed: Distribution-Natural Sciences  
MAPS Course: Natural Science

**ASTR 2000 (3) Ancient Astronomies of the World**

Documents the numerous ways in which observational astronomy and cosmology have been features of ancient cultures. Includes naked eye astronomy, archaeoastronomy, ethnoastronomy, concepts of time, calendrics, cosmogony, and cosmology.

**Additional Information:** Arts Sci Core Curr: Human Diversity

Arts Sci Core Curr: Natural Science Non-Sequence

Arts Sci Gen Ed: Diversity-Global Perspective

Arts Sci Gen Ed: Distribution-Natural Sciences

MAPS Course: Natural Science

**ASTR 2010 (3) Modern Cosmology-Origin and Structure of the Universe**

Introduces modern cosmology to nonscience majors. Covers the Big Bang; the age, size, and structure of the universe; and the origin of the elements and of stars, galaxies, the solar system, and life.

**Additional Information:** Arts Sci Core Curr: Natural Science Non-Sequence

Arts Sci Gen Ed: Distribution-Natural Sciences

MAPS Course: Natural Science

**ASTR 2020 (3) Space Astronomy and Exploration**

Covers physical principles of performing astronomy from space for science and exploration. The basic design of launch vehicles and spacecraft, orbital dynamics, and instruments will be described in the context of specific space missions (e.g. Hubble Telescope, Mars rovers) as well as prospects for future space observatories in orbit and on the Moon.

**Additional Information:** Arts Sci Core Curr: Natural Science Non-Sequence

Arts Sci Gen Ed: Distribution-Natural Sciences

MAPS Course: Natural Science

**ASTR 2030 (3) Black Holes**

Black holes are one of the most bizarre phenomena of nature. Students are introduced to the predicted properties of black holes, astronomical evidence for their existence and formation, and modern ideas about space, time, and gravity.

**Additional Information:** Arts Sci Core Curr: Natural Science Non-Sequence

Arts Sci Gen Ed: Distribution-Natural Sciences

MAPS Course: Natural Science

**ASTR 2040 (3) The Search for Life in the Universe**

Introduces the scientific basis for the possible existence of life elsewhere in the universe. Includes origin and evolution of life on Earth and the search for evidence of life in our solar system, including Mars and Jupiter's moon Europa. Discusses the conditions necessary for life and whether they might arise on planets around other stars. Credit only for this course or ASTR 3300.

**Equivalent - Duplicate Degree Credit Not Granted:** GEOL 2040

**Additional Information:** Arts Sci Core Curr: Natural Science Non-Sequence

Arts Sci Gen Ed: Distribution-Natural Sciences

**ASTR 2050 (3) The Sun and Society: Living with an Active Star**

Introduces non-science majors to the many ways our Sun influences life and society. Covers how the Sun generates energy, how it evolves over billions of years, how it affects Earth's climate and biology, how it produces dangerous "space weather", how we can harness its power and how life in other solar systems would depend on the properties of their Suns.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

MAPS Course: Natural Science

**ASTR 2100 (3) Fundamental Concepts in Astrophysics**

Covers topics in modern physics required for upper-level astrophysics and planetary science courses, including quantum mechanics, electromagnetic spectra, atomic and nuclear physics, and thermodynamics, in the context of astrophysics, planetary and space sciences. Also introduces key topics in mathematics to support these topics.

**Requisites:** Requires prerequisite course of PHYS 1120 or PHYS 1125 and APPM 1360 or MATH 2300 (minimum grade C-).

**Grading Basis:** Letter Grade

**ASTR 2500 (3) Gateway to Space**

Introduces the basics of atmosphere and space sciences, space exploration, spacecraft design, rocketry and orbits. Students design, build, and launch a miniature satellite on a high altitude balloon. Explores the current research in space through lectures from industry.

**Equivalent - Duplicate Degree Credit Not Granted:** ASEN 1400

**Requisites:** Restricted to Astronomy (ASTR) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**ASTR 2600 (3) Introduction to Scientific Programming**

Introduces principles, methods and tools of scientific programming commonly used in research. Topics include an introduction to programming in Python, data structures, numerical methods for calculus and data manipulation/visualization. Techniques covered are relevant to many technical fields but emphasis is placed on application to problems in astronomy and planetary science. Class time is split between lectures and in-lab tutorials.

**Requisites:** Requires prerequisite course of MATH 1300 or APPM 1350 and PHYS 1110 or PHYS 1115 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**ASTR 2840 (1-3) Independent Study**

Instructor consent required.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**ASTR 3300 (3) Extraterrestrial Life**

Discusses the scientific basis for the possible existence of extraterrestrial life. Includes origin and evolution of life on Earth; possibility of life elsewhere in the solar system, including Mars; and the possibility of life on planets around other stars. Department enforced prerequisite: one-year sequence in a natural science. Credit only for this course or ASTR 2040.

**Equivalent - Duplicate Degree Credit Not Granted:** GEOL 3300

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**ASTR 3400 (3) Research Methods in Astronomy**

Introduces research methods in astronomy and engages students in an active research project. The research projects will vary and may include astronomical observations, data analysis, scientific programming, theoretical models and statistical inference. As part of their research, students will read scientific papers, attend local seminars and prepare oral and written research proposals and reports. Elective for ASTR majors.

**Requisites:** Requires prerequisite courses of ASTR 1040 and PHYS 1125 or 1120 (all minimum grade C-). Requires co-requisite or prerequisite of ASTR 2600 (minimum grade C-). Restricted to ASTR majors.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences  
Arts Sci Gen Ed: Distribution-Natural Sci Lab

**ASTR 3510 (4) Observations and Instrumentation 1**

Lab course in astronomical observation and instrumentation. Hands-on exercises include obtaining and analyzing multi-wavelength data, basic optical design and instrumentation and statistical analysis of data, with emphasis on imaging applications. A significant number of night time observation sessions are required. Elective for APS majors. Elective for APS minors on space available basis.

**Requisites:** Requires a prerequisite or corequisite core of APPM 1360 or MATH 2300 and ASTR 1020 or ASTR 1040 and PHYS 1120 (all minimum grade C-). Restricted to Astrophysics (ASTR) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences  
Arts Sci Gen Ed: Distribution-Natural Sci Lab

**ASTR 3520 (4) Observations and Instrumentation 2**

Lab course in observation and instrumentation. Hands-on exercises include obtaining and analyzing multi-wavelength data, optical design and instrumentation, and statistical analysis, with emphasis on spectroscopy. A significant number of night time observation sessions are required. Elective for APS majors. Elective for APS minors on space available basis.

**Requisites:** Requires a prerequisite course of ASTR 3510 (minimum grade C-). Restricted to Astrophysics (ASTR) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences  
Arts Sci Gen Ed: Distribution-Natural Sci Lab

**ASTR 3560 (3) Astronomical Instrumentation Laboratory**

Teaches students aspects of astronomical instrument design in a hands-on setting. Students will learn elementary principles of geometrical optics, diffraction, light detection, signal conditioning, data acquisition and motion control, and mechanical design. Students will apply these principles working in groups to design and build optical spectrometers.

**Requisites:** Requires prerequisites courses of ASTR 1040 and MATH 2300 or APPM 1360 and PHYS 2170 (minimum grade C-).

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences  
Arts Sci Gen Ed: Distribution-Natural Sci Lab

**ASTR 3710 (3) Formation & Dynamics of Planetary Systems**

Covers the origin of planetary systems and their dynamical evolution. Topics include the physics and chemistry of planetary formation, orbital mechanics and extrasolar planets. This course and ASTR 3720 and ASTR 3750 may be taken in any order. Elective for APS major and minor.

**Requisites:** Requires prerequisite course of PHYS 1120 and MATH 2300 or APPM 1360 (all minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**ASTR 3720 (3) Planets and Their Atmospheres**

Explores the physics and chemistry of the atmospheres of Mars, Venus, Jupiter, Saturn, and Titan. Examines evolution of the atmospheres of Earth, Venus, and Mars; and the escape of gases from the Galilean satellites, Titan and Mars; the orbital characteristics of moons, planets, and comets. Uses recent results of space exploration. Elective for APS major and minor.

**Equivalent - Duplicate Degree Credit Not Granted:** ATOC 3720

**Requisites:** Requires prerequisite courses of PHYS 1120 and APPM 1360 or MATH 2300 (all minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**ASTR 3730 (3) Astrophysics 1 - Stellar and Interstellar**

Provides a quantitative introduction to the radiative and gravitational physics relevant to stellar and galactic astrophysics, as applied to understanding observations of stars, stellar evolution, stellar remnants and the structure of the Milky Way. Elective for APS major and minor.

**Requisites:** Requires prerequisite courses of PHYS 2130 or PHYS 2170 or ASTR 2100 (all minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**ASTR 3740 (3) Cosmology and Relativity**

Special and general relativity as applied to astrophysics, cosmological models, observational cosmology, experimental relativity and the early universe. Elective for APS major and minor.

**Requisites:** Requires prerequisite courses of PHYS 2130 or PHYS 2170 or ASTR 2100 (all minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**ASTR 3750 (3) Planets, Moons, and Rings**

Approaches the physics of planets, emphasizing their surfaces, satellites, and rings. Topics include formation and evolution of planetary surfaces, history of the terrestrial planets, and dynamics of planetary rings. This course and ASTR 3720 may be taken for credit in any order. Elective for APS major and minor.

**Requisites:** Requires prerequisite courses of PHYS 1120 and APPM 1360 or MATH 2300 (all minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**ASTR 3760 (3) Solar and Space Physics**

Explores the physical processes linking the Sun and planets, emphasizing solar radiative and particulate variability and the response of planetary atmospheres and magnetospheres. Topics include the solar dynamo, solar wind, coronal mass ejections, cosmic ray modulation, magnetospheres, aurora, the space environment, and climate variability. Elective for APS major and minor.

**Requisites:** Requires prerequisite courses of PHYS 2130 or PHYS 2170 or ASTR 2100 (all minimum grade C-).

**Recommended:** Prerequisite PHYS 3310.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**ASTR 3800 (3) Introduction to Scientific Data Analysis and Computing**

Introduces scientific data analysis from a practical perspective. Covers statistical analysis, model fitting, error analysis, theoretical compliance and image analysis with examples from space-based and ground-based astronomy. Elective for APS major. Opened to qualified non-majors with instructor consent.

**Requisites:** Requires prerequisite course of ASTR 2600 and prerequisite or corequisite courses of ASTR 1020 or ASTR 1040 and PHYS 1120 and APPM 1360 or MATH 2300 (all minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**ASTR 3830 (3) Astrophysics 2 - Galactic and Extragalactic**

The second semester of a year-long introduction to astrophysical processes. The physical processes developed in ASTR 3730 are applied to topics in extragalactic astronomy, including galaxies, supermassive black holes, galaxy clusters and cosmology. Elective for APS major and minor.

**Requisites:** Requires prerequisite courses of ASTR 3730 and PHYS 2130 or PHYS 2170 and APPM 2350 or MATH 2400 (all minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**ASTR 4330 (3) Cosmochemistry**

Investigates chemical and isotopic data to understand the composition of the solar system: emphasis on the physical conditions in various objects, time scales for change, chemical and nuclear processes leading to change, observational constraints, and various models that attempt to describe the chemical state and history of cosmological objects in general and the early solar system in particular. Department enforced prerequisite: upper-division undergraduate standing in physical science and upper-division undergraduate chemistry or physics or math courses.

**Equivalent - Duplicate Degree Credit Not Granted:** ASTR 5330 and GEOL 4330 and GEOL 5330

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**ASTR 4500 (1-3) Special Topics in Astrophysical and Planetary Sciences**

Topics vary each semester.

**Repeatable:** Repeatable for up to 9.00 total credit hours.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**ASTR 4800 (3) Space Science: Practice and Policy**

Exposes students to current controversies in science that illustrate the scientific method and the interplay of observation, theory, and science policy. Students research and debate both sides of the issues, which include strategies and spin-offs of space exploration, funding of science, big vs. small science, and scientific heresy and fraud.

**Recommended:** Prerequisite one year of college level astronomy or physics.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**ASTR 4840 (1-3) Independent Study**

Instructor consent required.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**ASTR 4841 (1-3) Independent Study**

**Repeatable:** Repeatable for up to 7.00 total credit hours.

## Astronomy - Bachelor of Arts (BA)

The Department of Astrophysical and Planetary Sciences (APS) combines both astrophysics and planetary science. As a result, we provide a unified view of solar and space sciences, planetary systems (our solar system and others), stellar and galactic astronomy, and cosmology. We also offer hands-on experience with telescopes, optics, instrumentation, computer image processing and computer modeling. These skills are useful for students wishing to pursue graduate degrees or careers in aerospace, technical or computer industries.

The University of Colorado is recognized as a top university in the exploration and study of space. Our faculty members carry out forefront research in a wide range of disciplines, from theoretical cosmology to finding planets around other stars; from observing cosmic microwave background in Antarctica to building space probes to explore Mars' atmosphere. We offer many types of research opportunities for undergraduates including research-based courses, student positions that support research programs and individual research projects with faculty. Students can apply for funding from the Undergraduate Research

Opportunities Program. The Honors Program (<https://www.colorado.edu/aps/undergraduate-students/honors-program>) encourages students to write research theses to qualify for Latin Honors upon graduation.

## Program Tracks

Students pursuing an astronomy degree can choose from two tracks: general astronomy and astrophysics/physics. For more detailed information, visit the department website (<https://www.colorado.edu/aps/undergraduate-studies>).

### General Astronomy Track

The general astronomy track highlights the science of astronomy, observation and technology. As a major on this track, students receive core training in astronomy, mathematics, physics and computational and instrumental technology. These skills prepare students for professions in space sciences and a range of other careers in education, science and technology. The general astronomy track is also designed to provide opportunities for students to explore a minor or second major in a complementary area of study.

### Astrophysics/Physics Track

The astrophysics/physics track shares the same fundamental astronomy, math, and physics course sequences as general astronomy for the first two semesters, but then focuses on more advanced work in these topics. The track is jointly administered with the Department of Physics and requires substantial upper-division work in this field. Upon graduation, students should have solid theoretical and applied training for careers or graduate studies in the space sciences.

Students may declare either track when beginning their coursework, or wait until completion of their fundamental courses in astronomy, physics and mathematics (usually after the first 2–3 semesters). Students are mentored in groups during these first semesters, but meet individually with an APS faculty member every semester thereafter to discuss their academic progress and post-graduation plans.

We encourage all students to explore and share their enthusiasm for science and we support a wide range of extra-curricular activities. These include student groups, the Learning Assistant program, research activities and public outreach. The Sommers-Bausch Observatory (<http://www.colorado.edu/sbo>) and Fiske Planetarium (<http://www.colorado.edu/fiske>) offer opportunities for undergraduate students to become involved.

We offer you the ability to graduate with honors. This requires you maintain a minimum GPA and that you write and defend an honors thesis. More information can be obtained from the APS department office and/or the Honors Council Representative (Ann-Marie Madigan (<https://www.colorado.edu/aps/ann-marie-madigan>)). More general information about the honors thesis is on the Arts and Sciences Honors Program page (<http://www.colorado.edu/honors>).

## Requirements

### General Astronomy Track

This is appropriate for someone aiming for a career in K–12 education, science journalism, science policy, information technology, science management or technical work that does not require a graduate degree.

Students must complete a minimum of 32 credit hours in astronomy (this must include at least 18 upper-division credit hours) and a minimum of 9 credit hours in physics.

Through the required coursework for this track of the major, students will fulfill all 12 credits of the Natural Sciences area of the Gen Ed Distribution Requirement, including the lab component, and the QRMS component of the Gen Ed Skills Requirement. If ASTR 2000 is selected, a student could also complete the Global Perspective component of the Gen Ed Diversity Requirement.

### Required Courses and Credits

Code	Title	Credit Hours
<b>Required Courses</b>		
ASTR 1030 & ASTR 1040	Accelerated Introductory Astronomy 1 and Accelerated Introductory Astronomy 2 <sup>1</sup>	8
PHYS 1115 or PHYS 1110	General Physics 1 for Majors General Physics 1	4
PHYS 1125 or PHYS 1120	General Physics 2 for Majors General Physics 2	4
PHYS 1140	Experimental Physics 1	1
<i>Select one of the following:</i>		3
PHYS 2130	General Physics 3	
ASTR 2100	Fundamental Concepts in Astrophysics	
PHYS 2170	Foundations of Modern Physics	
<i>Select a minimum of two of the following:</i>		6
ASTR 2000	Ancient Astronomies of the World	
ASTR 2010	Modern Cosmology-Origin and Structure of the Universe	
ASTR 2020	Space Astronomy and Exploration	
ASTR 2030	Black Holes	
ASTR 2040	The Search for Life in the Universe	
ASTR 2050	The Sun and Society: Living with an Active Star	
ASTR 2500	Gateway to Space	
ASTR 2600	Introduction to Scientific Programming	
<i>Select one of the following upper-division course sequences:</i>		6
ASTR 3720 & ASTR 3750	Planets and Their Atmospheres and Planets, Moons, and Rings	
ASTR 3730 & ASTR 3830	Astrophysics 1 - Stellar and Interstellar and Astrophysics 2 - Galactic and Extragalactic	
<b>Major Electives</b>		
Select four additional courses from the following or from those sequence courses not used for the upper-division sequence requirement above:		12-15
ASEN 4010	Introduction to Space Dynamics	
ASTR 3510	Observations and Instrumentation 1	
ASTR 3520	Observations and Instrumentation 2	
ASTR 3560	Astronomical Instrumentation Laboratory	
ASTR 3710	Formation & Dynamics of Planetary Systems	
ASTR 3740	Cosmology and Relativity	
ASTR 3760	Solar and Space Physics	
ASTR 3800	Introduction to Scientific Data Analysis and Computing	
ASTR 4330	Cosmochemistry	

ASTR 4800	Space Science: Practice and Policy	
ASTR 5760	Astrophysical Instrumentation	
ATOC 4720	Introduction to Atmospheric Dynamics	
Total Credit Hours		44-47

### Required Ancillary Coursework

Code	Title	Credit Hours
------	-------	--------------

#### Required Ancillary Calculus Coursework

Select one of the following sequences: 8-10

APPM 1350 & APPM 1360  
Calculus 1 for Engineers and Calculus 2 for Engineers

MATH 1300 & MATH 2300  
Calculus 1 and Calculus 2

#### Required Ancillary Science Sequence with Lab

Select one other science sequence with lab, such as:<sup>2</sup> 7-10

##### CHEM Sequence

CHEM 1113 & CHEM 1114  
General Chemistry 1 and Laboratory in General Chemistry 1

CHEM 1133 & CHEM 1134  
General Chemistry 2 and Laboratory in General Chemistry 2

##### EBIO Sequence

EBIO 1210 & EBIO 1230  
General Biology 1 and General Biology Laboratory 1

EBIO 1220 & EBIO 1240  
General Biology 2 and General Biology Laboratory 2

##### GEOL Sequence

GEOL 1010 & GEOL 1030  
Exploring Earth and Introduction to Geology Laboratory 1

GEOL 1020  
Dodos, Dinos, and Deinococcus: The History of a Habitable Planet

##### ATOC Sequence

ATOC 1050 & ATOC 1070  
Weather and the Atmosphere and Weather and the Atmosphere Laboratory

ATOC 1060  
Our Changing Environment: El Nino, Ozone, and Climate

Total Credit Hours 15-20

<sup>1</sup> Or ASTR 1010 and ASTR 1020 with permission from Lead APS Faculty Mentor.

### Astrophysics/Physics Track (Jointly Supervised by the APS and Physics Departments)

For students aiming for a graduate program in astronomy or planetary sciences. Similar to Physics Plan 2 (Astrophysics), with additional astrophysics instrumentation labs and different electives.

Students must complete a minimum of 23 credits in astronomy and a minimum of 28 credits in physics (this must include at least 15 upper-division credits in astronomy and 12 in physics).

Through the required coursework for this track of the major, students will fulfill all 12 credits of the Natural Sciences area of the Gen Ed Distribution Requirement, including the lab component, and the QRMS component of the Gen Ed Skills Requirement.

**Required Courses and Credits**

Code	Title	Credit Hours
------	-------	--------------

**Lower-Division Coursework**

The following courses are required:

ASTR 1030 & ASTR 1040	Accelerated Introductory Astronomy 1 and Accelerated Introductory Astronomy 2	8
PHYS 1115 & PHYS 1125 & PHYS 1140	General Physics 1 for Majors and General Physics 2 for Majors and Experimental Physics 1 <sup>1</sup>	9
PHYS 2170 & PHYS 2150	Foundations of Modern Physics and Experimental Physics 2	4
PHYS 2210	Classical Mechanics and Mathematical Methods 1	3

**Upper-Division Coursework**

The following physics courses are required:

PHYS 3310	Principles of Electricity and Magnetism 1	3
PHYS 3320	Principles of Electricity and Magnetism 2	3
PHYS 3210	Classical Mechanics and Mathematical Methods 2	3
PHYS 3220	Quantum Mechanics 1	3

Select one of the following two astronomy sequences (6-hour minimum):

ASTR 3720 & ASTR 3750	Planets and Their Atmospheres and Planets, Moons, and Rings	6
ASTR 3730 & ASTR 3830	Astrophysics 1 - Stellar and Interstellar and Astrophysics 2 - Galactic and Extragalactic	6

**Astronomy Electives**

Select three additional courses from the following or from those sequence courses not used above (9-hour minimum):

ASTR 3510	Observations and Instrumentation 1	9
ASTR 3520	Observations and Instrumentation 2	
ASTR 3560	Astronomical Instrumentation Laboratory	
ASTR 3710	Formation & Dynamics of Planetary Systems	
ASTR 3740	Cosmology and Relativity	
ASTR 3760	Solar and Space Physics	
ASTR 3800	Introduction to Scientific Data Analysis and Computing	
ASTR 4330	Cosmochemistry	
ATOC 4720	Introduction to Atmospheric Dynamics	
ASEN 4010	Introduction to Space Dynamics	
Any ASTR 5000- or 6000-level course with instructor's permission		

Total Credit Hours 51

**Required Ancillary Calculus Coursework**

Code	Title	Credit Hours
------	-------	--------------

Select one of the following sequence of courses: 16-19

APPM 1350 & APPM 1360 & APPM 2350 & APPM 2360	Calculus 1 for Engineers and Calculus 2 for Engineers and Calculus 3 for Engineers and Introduction to Differential Equations with Linear Algebra	16-19
--	---	-------

MATH 1300 & MATH 2300 & MATH 2400 & APPM 2360	Calculus 1 and Calculus 2 and Calculus 3 and Introduction to Differential Equations with Linear Algebra	16-19
--	---	-------

Total Credit Hours 16-19

<sup>1</sup> Or equivalent PHYS 1110 + PHYS 1120 + PHYS 1140 sequence.

**Recommended Physics Electives**

Code	Title	Credit Hours
PHYS 4150	Plasma Physics	3
PHYS 4230	Thermodynamics and Statistical Mechanics	
PHYS 4410	Quantum Mechanics 2	
PHYS 4420	Nuclear and Particle Physics	
PHYS 4510	Optics	

**Four-Year Plans of Study****General Astronomy Track**

Course	Title	Credit Hours
--------	-------	--------------

**Year One****Fall Semester**

ASTR 1030	Accelerated Introductory Astronomy 1	4
APPM 1350 or MATH 1300	Calculus 1 for Engineers or Calculus 1	4-5

## Astronomy - Minor

Declaration of a minor in Astrophysical and Planetary Sciences is open to any student enrolled at CU-Boulder. Coursework applied to the minor may be applied to another major or towards General Education requirements. Astronomy Minor requirements can be found here (<https://www.colorado.edu/aps/current-students/undergraduate-studies/degree-requirements/minor-course-requirements>).

## Requirements

Coursework applied to the minor may be applied toward General Education requirements or to a major offered by another department. Minimum requirements for a minor include:

- A minimum of six ASTR courses (18 credits), including at least three advanced courses (numbered above 3500; 9 credits).
- All coursework applied to a minor must be completed with a grade of C- or better; no pass/fail work may be applied. The GPA for all minor degree coursework must be equal to 2.00 (C) or higher.
- Students pursuing an individually structured major or a major in distributed studies are not eligible to earn a minor.
- Students are allowed to apply no more than three courses (9 credits), including two advanced courses (6 credits), of transfer work toward a minor.

## Required Courses and Credits

Code	Title	Credit Hours
<b>Elementary</b>		
Select a maximum of three courses from the following:		9
ASTR 1030 & ASTR 1040	Accelerated Introductory Astronomy 1 and Accelerated Introductory Astronomy 2 <sup>1</sup>	
ASTR 2000	Ancient Astronomies of the World	
ASTR 2010	Modern Cosmology-Origin and Structure of the Universe	
ASTR 2020	Space Astronomy and Exploration	

ASTR 2030	Black Holes	
ASTR 2040	The Search for Life in the Universe	
ASTR 2500/ASEN 1400	Gateway to Space	
ASTR 2600	Introduction to Scientific Programming	
ASTR 3300	Extraterrestrial Life	

**Advanced**

Select one of the following upper-division course sequences: 6

*Planetary Sequence:*

ASTR 3720 Planets and Their Atmospheres  
& ASTR 3750 and Planets, Moons, and Rings

*Astrophysics Sequence:*

ASTR 3730 Astrophysics 1 - Stellar and Interstellar  
& ASTR 3830 and Astrophysics 2 - Galactic and Extragalactic

Select a minimum of one of the following: 3-4

ASTR 3400	Research Methods in Astronomy
ASTR 3510	Observations and Instrumentation 1
ASTR 3520	Observations and Instrumentation 2
ASTR 3710	Formation & Dynamics of Planetary Systems
ASTR 3720	Planets and Their Atmospheres
ASTR 3730	Astrophysics 1 - Stellar and Interstellar
ASTR 3740	Cosmology and Relativity
ASTR 3750	Planets, Moons, and Rings
ASTR 3760	Solar and Space Physics
ASTR 3830	Astrophysics 2 - Galactic and Extragalactic
ASTR 4330	Cosmochemistry
ASTR 4840	Independent Study
ATOC 4720	Introduction to Atmospheric Dynamics

Total Credit Hours 18-19

<sup>1</sup> Or ASTR 1010 and ASTR 1020 with permission.

Additional information is available from any faculty mentor. See the department's Undergraduate Studies (<https://www.colorado.edu/aps/undergraduate-students/prospective-students>) webpage.

## Atmospheric and Oceanic Sciences

The Department of Atmospheric and Oceanic Sciences (ATOC) is an interdisciplinary program that provides an educational and research environment to examine the dynamical, physical and chemical processes in the atmosphere, ocean and land surface, and the manner in which they interact. A major theme is the establishment of a physical basis for understanding, observing and modeling climate and global change.

ATOC began offering an undergraduate major in fall 2016. This Bachelor of Arts degree is the first of its kind at CU Boulder for students interested in an in-depth understanding of the physical basis for the role of the atmosphere and oceans in Earth's climate system. In addition, ATOC offers a minor in atmospheric and oceanic sciences for students pursuing a bachelor's degree in another academic department. ATOC also offers many courses approved for the Natural Science requirement of the College of Arts & Sciences Core Curriculum.

For more information about ATOC programs and application procedures, call the ATOC office at 303-492-6633 or visit the Atmospheric and Oceanic Sciences (<http://www.colorado.edu/atoc>) website.

**Course code for this program is ATOC.**

## Bachelor's Degree

- Atmospheric and Oceanic Sciences - Bachelor of Arts (BA) (p. 163)

## Minor

- Atmospheric and Oceanic Sciences - Minor (p. 165)

## Faculty

While many faculty teach both undergraduate and graduate students, some instruct students at the undergraduate level only. For more information, contact the faculty member's home department.

## Courses

### ATOC 1050 (3) Weather and the Atmosphere

Introduces principles of modern meteorology for nonscience majors, with emphasis on scientific and human issues associated with severe weather events. Includes description, methods of prediction, and impacts of blizzards, hurricanes, thunderstorms, tornadoes, lightning, floods, and firestorms.

**Additional Information:** GT Pathways: GT-SC2 -Natural Physicl Sci:Lec Crse w/o Req Lab  
Arts Sci Core Curr: Natural Science Sequence  
Arts Sci Gen Ed: Distribution-Natural Sciences  
MAPS Course: Natural Science

### ATOC 1060 (3) Our Changing Environment: El Nino, Ozone, and Climate

Discusses the Earth's climate for nonscience majors, focusing on the role of the atmosphere, oceans, cryosphere and land surface. Describes the water cycle, atmospheric circulations and ocean currents, and how they influence global climate, El Nino and the ozone hole. Discusses human impacts from climate change.

**Equivalent - Duplicate Degree Credit Not Granted:** GEOL 1060

**Recommended:** Prerequisite ATOC 1050.

**Additional Information:** Arts Sci Core Curr: Natural Science Sequence  
Arts Sci Gen Ed: Distribution-Natural Sciences

### ATOC 1070 (1) Weather and the Atmosphere Laboratory

Illustrates fundamentals of meteorology with laboratory experiments. Covers collection, analysis and discussion of data related to local weather. Uses computers for retrieval and interpretation of weather data from Colorado and across the U.S. Optional lab for ATOC 1050.

**Recommended:** Prerequisite or corequisite ATOC 1050.

**Additional Information:** GT Pathways: GT-SC1 - Natural Physcal Sci:Lec Crse w/ Req Lab  
Arts Sci Core Curr: Natural Science Lab  
Arts Sci Gen Ed: Distribution-Natural Sci Lab  
Arts Sci Gen Ed: Distribution-Natural Sciences  
MAPS Course: Natural Science Lab or Lab/Lec

**ATOC 2500 (1-3) Special Topics in Atmospheric and Oceanic Sciences - Lower Division**

Acquaints students at the lower division level with current research in atmospheres, oceans and climate (Topics may vary each semester). Students may register for more than one section of this course in the same semester. Recommended restriction: students with 0-56 credits (Freshmen or Sophomores).

**Repeatable:** Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.

**Recommended:** Prerequisite or corequisite will vary depending on topic.

**ATOC 3050 (3) Principles of Weather**

Explores the processes that influence middle latitude weather including atmospheric thermodynamics, cloud and precipitation processes, atmospheric dynamics, air masses and fronts, and mid-latitude cyclones. Recitations and homework assignments will allow students to apply these concepts to real weather data through analysis of weather maps, thermodynamics diagrams and conceptual models.

**Recommended:** Prerequisites ATOC 1050 or ATOC major.

**Additional Information:** Arts Sci Core Curr: Natural Science Non-Sequence Arts Sci Gen Ed: Distribution-Natural Sciences

**ATOC 3070 (3) Introduction to Oceanography**

Explores Earth's dynamic oceans. Discusses the disciplines of oceanography including marine geology, chemistry, biology and physical oceanography with emphasis on global change. Specific topics may include: tectonics, currents, biogeochemical cycles, ecology and global warming.

**Equivalent - Duplicate Degree Credit Not Granted:** GEOL 3070

**Recommended:** Prerequisite any 1000-level ATOC or GEOL course or ATOC major.

**Additional Information:** Arts Sci Core Curr: Natural Science Non-Sequence Arts Sci Gen Ed: Distribution-Natural Sciences

**ATOC 3180 (3) Aviation Meteorology**

Familiarizes students with a wide range of atmospheric behavior pertinent to air travel: rudiments of aerodynamics; aircraft stability and control; atmospheric circulation, vertical motion, turbulence and wind shear; fronts, clouds and storms.

**Recommended:** Prerequisite ATOC 1050 or ATOC major.

**Additional Information:** Arts Sci Core Curr: Natural Science Non-Sequence Arts Sci Gen Ed: Distribution-Natural Sciences

**ATOC 3300 (3) Analysis of Climate and Weather Observations**

Discusses instruments, techniques and statistical methods used in atmospheric observations. Covers issues of data accuracy and analysis of weather maps. Provides application to temperature and precipitation records, weather forecasting and climate change trends. Uses computers to access data sets and process data.

**Equivalent - Duplicate Degree Credit Not Granted:** GEOG 3301

**Recommended:** Prerequisites ATOC 1050 or ATOC 1060 or ATOC 3600 or GEOG 3601 or ENV 3600 or GEOG 1001 and one semester calculus.

**Additional Information:** Arts Sci Core Curr: Natural Science Non-Sequence Arts Sci Gen Ed: Distribution-Natural Sciences  
Arts Sci Gen Ed: Distribution-Natural Sci Lab

**ATOC 3500 (3) Air Chemistry and Pollution**

Examines the composition of the atmosphere and sources of gaseous and particulate pollutants: their chemistry, transport and removal from the atmosphere. Applies general principles to acid rain, smog and stratospheric ozone depletion.

**Equivalent - Duplicate Degree Credit Not Granted:** CHEM 3151

**Recommended:** Prerequisite one semester of college-level chemistry or one year of high school chemistry.

**Additional Information:** Arts Sci Core Curr: Natural Science Non-Sequence Arts Sci Gen Ed: Distribution-Natural Sciences

**ATOC 3600 (3) Principles of Climate**

Describes the basic components of the climate system: the atmosphere, ocean, cryosphere and lithosphere. Investigates the basic physical processes that determine climate and link the components of the climate system. Covers the hydrological cycle and its role in climate, climate stability and global change.

**Equivalent - Duplicate Degree Credit Not Granted:** GEOG 3601 and ENV 3600

**Recommended:** Prerequisites one semester of calculus and ATOC 1060 or ATOC 3300 or GEOG 3301 or GEOG 1001 or ATOC major.

**Additional Information:** Arts Sci Core Curr: Natural Science Non-Sequence Arts Sci Gen Ed: Distribution-Natural Sciences

**ATOC 3720 (3) Planets and Their Atmospheres**

Explores the physics and chemistry of the atmospheres of Mars, Venus, Jupiter, Saturn, and Titan. Examines evolution of the atmospheres of Earth, Venus, and Mars; and the escape of gases from the Galilean satellites, Titan and Mars; the orbital characteristics of moons, planets, and comets. Uses recent results of space exploration. Elective for APS major and minor.

**Equivalent - Duplicate Degree Credit Not Granted:** ASTR 3720

**Requisites:** Requires prerequisite courses of PHYS 1120 and APPM 1360 or MATH 2300 (all minimum grade C-). Restricted to students with 57-180 credits (Junior or Senior) Astronomy (ASTR) or Atmospheric Oceanic Sciences (ATOC) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**ATOC 4200 (3) Biogeochemical Oceanography**

Provides a large-scale synthesis of the processes impacting ocean biogeochemistry. Transforms theoretical understanding into real-world applications using oceanographic data and models. Topics include: chemical composition, biological nutrient utilization and productivity, air-sea gas exchange, carbonate chemistry, ocean acidification, ocean deoxygenation, iron fertilization, biogeochemical climate feedbacks and more.

**Equivalent - Duplicate Degree Credit Not Granted:** ATOC 5200

**Recommended:** Prerequisites one semester of calculus and one semester of chemistry.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**ATOC 4500 (1-3) Special Topics in Atmospheric and Oceanic Sciences - Upper Division**

Acquaints students at the upper division level with current research in atmospheres, oceans, and climate. Topics may vary each semester. Students may register for more than one section of this course in the same semester. Recommended restriction: students with 57-180 credits (Juniors or Seniors).

**Repeatable:** Repeatable for up to 18.00 total credit hours. Allows multiple enrollment in term.

**Recommended:** Prerequisites and corequisites: will vary depending on topic.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**ATOC 4550 (3) Mountain Meteorology**

Investigating main processes that control weather and climate in the western United States and other mountain ranges around the world is the emphasis of this course. Provides an advanced survey of synoptic, mesoscale, and microscale meteorology in complex terrain including orographically modified cyclone evolution, front-mountain interactions, terrain and thermally driven flows, mountain waves, downslope winds, and orographic precipitation.

**Equivalent - Duplicate Degree Credit Not Granted:** ATOC 5550

**Recommended:** Prerequisite ATOC 1050 or ATOC major.

**Additional Information:** Arts Sci Core Curr: Natural Science Non-Sequence  
Arts Sci Gen Ed: Distribution-Natural Sciences

**ATOC 4700 (3) Weather Analysis & Forecasting**

Utilizing a range of operational weather observations to analyze current weather conditions, providing hands-on experience interpreting observations and relating those observations to the physical principles that govern atmospheric behavior is the course emphasis. It focuses on how to read weather reports, analyze observations, and how to prepare weather maps to analyze current conditions and how to interpret numerical weather forecasts.

**Recommended:** Prerequisite ATOC 1050 or ATOC 1060 or ATOC 4720 or ATOC major.

**Additional Information:** Arts Sci Core Curr: Natural Science Non-Sequence  
Arts Sci Gen Ed: Distribution-Natural Sciences

**ATOC 4710 (3) Introduction to Atmospheric Physics**

Provides a fundamental overview of the physics of Earth's atmosphere. Topics include atmospheric composition and structure, atmospheric radiation and optics (rainbows, halos and other phenomena), atmospheric thermodynamics, cloud physics and atmospheric electricity and lightning. Including both descriptive and quantitative approaches to the subject material. Where applicable, observations from the ATOC Skywatch Observatory will be introduced.

**Recommended:** Prerequisite one year of calculus and one year of physics with calculus.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**ATOC 4720 (3) Introduction to Atmospheric Dynamics**

Introduces the fundamental physical principles that govern the atmospheric circulations across a range of spatial and temporal scales and provides a quantitative description and interpretation of a wide range of atmospheric phenomena. Topics include atmospheric forces, governing equations, balanced and unbalanced flows, atmospheric waves and mid-latitude cyclones.

**Recommended:** Prerequisite one year of calculus and one semester of physics with calculus.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**ATOC 4730 (3) Physical Oceanography and Climate**

Introduces the field of physical oceanography, with emphasis on the ocean's interaction with the global atmosphere. Analysis of the ocean's heat, salt, and momentum budgets, wind-driven and thermohaline circulations, climate cycles including El Niño, and the ocean's role in climate change. Theory complemented by state-of-the-art observations and models. Department recommended prerequisites: ATOC 1060 or ATOC 3070 or ATOC 3600 and one semester of calculus.

**Equivalent - Duplicate Degree Credit Not Granted:** ATOC 5730

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**ATOC 4750 (3) Desert Meteorology and Climate**

Introduces students to the dynamic causes of deserts in the context of atmospheric processes and land-surface physics. Discusses desert severe weather, desert microclimates, human impacts and desertification, inter-annual variability in aridity (drought), the effects of deserts on global climate and the impact of desert climate on humans.

**Equivalent - Duplicate Degree Credit Not Granted:** ATOC 5750

**Recommended:** Prerequisites one semester of calculus and ATOC 1050 or ATOC 1060 or ATOC 3600 or ATOC major.

**Additional Information:** Arts Sci Core Curr: Natural Science Non-Sequence  
Arts Sci Gen Ed: Distribution-Natural Sciences

**ATOC 4770 (3) Wind Energy Meteorology**

Explores the complex interactions of the atmosphere and wind energy generation. Surveys wind turbine designs. Explores planetary boundary layer dynamics, traditional and novel wind measurement methods, forecasting methods, wind turbine and wind farm wakes, wind farm optimization, sound propagation from wind plants, climate change impacts on wind resources and the impacts of wind plants on local environments.

**Equivalent - Duplicate Degree Credit Not Granted:** ATOC 5770

**Recommended:** Prerequisite ATOC 1050 or ATOC major.

**Additional Information:** Arts Sci Core Curr: Natural Science Non-Sequence  
Arts Sci Gen Ed: Distribution-Natural Sciences

**ATOC 4800 (3) Policy Implications of Climate Controversies**

Examines controversial issues related to the environment, including climate change. Covers scientific theories and the intersection between science and governmental policy. Includes discussion, debate and critical reading of textual materials. Department enforced prerequisite: ATOC 1060 or ATOC 3600.

**Equivalent - Duplicate Degree Credit Not Granted:** ATOC 5000 and ENVS 5830

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**ATOC 4815 (3) Scientific Programming, Data Analysis and Visualization Laboratory**

Teaches programming in python, as well as analysis skills for accessing, analyzing and visualizing data that are commonly used in the atmospheric and oceanic sciences. Basic data analysis includes curve fitting and re-gridding/aggregation of satellite observations or meteorological data for global climatologies. The course content is primarily conveyed through hands-on code development. A final project, involving the independent analysis and visualization of a scientific data set, integrates skills acquired throughout the course.

**Recommended:** Requisites prior experience with Python or a basic programming course such as CSCI 1300 or equivalent, basic knowledge of calculus and algebra.

**ATOC 4900 (1-3) Independent Study**

Department enforced prerequisite: instructor consent.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**ATOC 4950 (1-3) Honors Thesis**

Students work independently on a research topic under the guidance of a faculty member. A written thesis and an oral presentation of the work are required. Registration by arrangement and with consent of faculty mentor. Department enforced prerequisite: minimum 3.00 GPA.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sciences Honors Course

**ATOC 4990 (1-3) Internship**

This course is designed to provide junior and senior ATOC majors with the opportunity to work hands-on in the community and to gain practical knowledge and experience in both research and industry. Participation in the program requires both on-site and academic work. 0.

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Recommended:** Students should have junior or senior standing (at the time of the internship) and have a minimum cumulative GPA of 2.

## Atmospheric and Oceanic Sciences - Bachelor of Arts (BA)

The atmospheric and oceanic sciences (ATOC) Bachelor of Arts degree is the first of its kind at CU Boulder for students interested in an in-depth understanding of the physical basis for the role of the atmosphere and oceans in Earth's climate system. An ATOC degree will prepare students to pursue a wide range of careers in areas as diverse as the energy sector, insurance, military, air and water quality monitoring, weather and aerospace industries. It will provide a solid foundation for advanced degrees in the atmospheric and oceanic sciences, and for professions in scientific research and academia.

ATOC's curriculum responds to demands of current students for more interactive learning opportunities and to demands of employers for graduates who have been trained to provide quantitative solutions to real-world problems. It is designed to provide students with a core set of knowledge and skills related to atmospheric and oceanic sciences, and to engage students in hands-on, interactive learning early and often. To that end, it requires students to take several "methods" courses that emphasize quantitative problem-solving by focusing on some combination of data analysis, observations and/or modeling; all of these courses will incorporate some level of computer programming or scientific computing. ATOC strongly recommends that every student have a laptop computer if it is financially feasible. Students who intend to purchase a computer and wish to have its cost included in their financial aid calculations are strongly encouraged to consult the Office of Financial Aid before purchase.

ATOC's curriculum is also designed to take advantage of our unique position as a university in the center of a world-renowned mecca for earth system science. Scientists from the local community contribute their expertise to the ATOC curriculum, particularly in the interactive methods courses, and mentor seniors in their thesis research.

## Contact Information

ATOC Undergraduate Advisors:

- Associate Professor Katja Friedrich (katja.friedrich@colorado.edu), SEEC N241B
- Associate Professor John Cassano (john.cassano@colorado.edu), SEEC C279

Academic Advising Center for first year students in physical sciences:

- Laura Gonzalez (laura.gonzalez@colorado.edu)
- Christopher Swenson (christopher.swenson@colorado.edu)

Academic Advising Center for ATOC majors beyond first year:

- Brendan Griffiths (brendan.griffiths@colorado.edu)
- Gretchen Lang (gretchen.lang@colorado.edu)

For further information concerning undergraduate studies, contact ATOC's graduate and undergraduate program assistant, Laurie Conway (laurie.conway@colorado.edu).

## Requirements

### Program Requirements

Students receiving a BA in atmospheric and oceanic sciences (ATOC) must satisfy the basic requirements of the College of Arts and Sciences (MAPS, Gen Ed requirements and credits) and fulfill the requirements listed below.

Students are required to complete 45 credits in lower and upper-division ATOC coursework, including 21 credits of core ATOC courses, 12 credits of methods in ATOC, and 12 credits of designated upper-division ATOC electives. The requirements for the ATOC major also include 32–37 hours of ancillary science and mathematics. All required major courses and all required ancillary courses must be passed with a C- or better.

Under normal circumstances, no more than 45 credits in ATOC may be used toward a student's total University of Colorado graduation requirements. However, up to 6 hours of designated department honors courses are exempted from this credit-hour maximum. Students must have a grade point average of at least 2.000 in the major in order to graduate.

### Required Courses and Credits

Code	Title	Credit Hours
<b>Atmospheric and Oceanic Sciences major requirements</b>		
<i>Introductory Atmospheric and Oceanic Sciences Requirement:</i> <sup>1</sup>		3-6
Select one or two of the following:		
ATOC 1050	Weather and the Atmosphere	
ATOC 1060	Our Changing Environment: El Nino, Ozone, and Climate	
ATOC 2500	Special Topics in Atmospheric and Oceanic Sciences - Lower Division	
FYSM 1000	First Year Seminar (Stratospheric Explorations)	
<i>Core Atmospheric and Oceanic Sciences Requirements</i>		9
Select three of the following courses:		
ATOC 3050	Principles of Weather	
ATOC/GEOL 3070	Introduction to Oceanography	
ATOC 3500/ CHEM 3151	Air Chemistry and Pollution	
ATOC 3600	Principles of Climate	
<i>Fundamentals of Atmospheric and Oceanic Sciences</i>		9
Select three of the following courses:		
ATOC 4200	Biogeochemical Oceanography	
ATOC 4710	Introduction to Atmospheric Physics	
ATOC 4720	Introduction to Atmospheric Dynamics	
ATOC 4730	Physical Oceanography and Climate	
<i>Methods in Atmospheric and Oceanic Sciences</i>		12

Select 12 credit hours of the following, 6 of which can be from independent research (4900 or 4950).

ATOC 4500	Special Topics in Atmospheric and Oceanic Sciences - Upper Division (Scientific Programming and Data Visualization)	
ATOC 4500	Special Topics in Atmospheric and Oceanic Sciences - Upper Division (Instrument Lab)	
ATOC 4500	Special Topics in Atmospheric and Oceanic Sciences - Upper Division (Remote Sensing)	
ATOC 4500	Special Topics in Atmospheric and Oceanic Sciences - Upper Division (Field Observations and Measurements)	
ATOC 4500	Special Topics in Atmospheric and Oceanic Sciences - Upper Division (Numerical Methods and Modeling)	
ATOC 4500	Special Topics in Atmospheric and Oceanic Sciences - Upper Division (Objective Data Analysis)	
ATOC 4500	Special Topics in Atmospheric and Oceanic Sciences - Upper Division (Applications of Numerical Models)	
ATOC 4700	Weather Analysis & Forecasting	
ATOC 4900	Independent Study	
ATOC 4950	Honors Thesis	
<i>ATOC Upper-division Electives</i>		<i>12-9</i>
At least 9 credit hours in ATOC not used to fulfill a requirement above; all courses offered as ATOC 4500 "Special Topics" will satisfy this requirement.		
Total Credit Hours		45

<sup>1</sup> No more than 6 lower division ATOC credits can be applied to the major.

**Required ancillary coursework from outside ATOC**

Code	Title	Credit Hours
<b>Ancillary Science and Mathematics Requirements</b>		
The field of atmospheric and oceanic sciences is highly interdisciplinary; therefore, students must develop a basic understanding of physics, chemistry, and mathematics to be successful. The required courses in the physical sciences and math departments outside of ATOC are a critical part of the major; they are needed to build a strong foundation upon which the remaining curriculum is based. All courses must be passed with a grade of C- or better required.		
APPM 1350	Calculus 1 for Engineers	4-5
	or MATH 1300 Calculus 1	
APPM 1360	Calculus 2 for Engineers	4-5
	or MATH 2300 Calculus 2	
APPM 2350	Calculus 3 for Engineers	4-5
	or MATH 2400 Calculus 3	
APPM 2360	Introduction to Differential Equations with Linear Algebra (Or MATH 2130 and MATH 3430)	4-6
CHEM 1113	General Chemistry 1	4
CSCI 1300	Computer Science 1: Starting Computing	4

PHYS 1110	General Physics 1	4
PHYS 1120	General Physics 2	4
Total Credit Hours		32-37

**Graduating in Four Years**

Consult the Four-Year Guarantee Requirements for information on eligibility. The concept of "adequate progress" as it is used here only refers to maintaining eligibility for the four-year guarantee; it is not a requirement for the major. To maintain adequate progress in ATOC, students should meet the following requirements:

- In the first semester, declare the Atmospheric and Oceanic Sciences major.

Students must consult with a major advisor to determine adequate progress toward completion of the major.

**Sample Four-Year Plan of Study**

Through the required coursework for the major, students will complete all 12 credits of the Natural Sciences area of the Gen Ed Distribution Requirement and the QRMS component of the Gen Ed Skills Requirement.

Not all ATOC 4500 courses satisfy all requirements. See department for more information.

Course	Title	Credit Hours
<b>Year One</b>		
<b>Fall Semester</b>		
FYSM 1000	First Year Seminar (ATOC section)	1-3
	or ATOC 1050 or Weather and the Atmosphere	
	or ATOC 1060 or Our Changing Environment: El Nino, Ozone, and Climate	
	or ATOC 2500 or Special Topics in Atmospheric and Oceanic Sciences - Lower Division

## Learning Outcomes

ATOC's curriculum responds to demands of current students for more interactive learning opportunities and to demands of employers for graduates who have been trained to provide quantitative solutions to real-world problems. It is designed to provide students with a core set of knowledge and skills related to atmospheric and oceanic sciences, and to engage students in hands-on, interactive learning early and often.

To that end, it requires students to take several "methods" courses that emphasize quantitative problem-solving by focusing on some combination of data analysis, observations, and/or modeling; all of these courses will incorporate some level of computer programming or scientific computing.

ATOC course learning goals include graphical literacy, investigative thinking, societal and personal relevance, and knowledge of the physical processes of weather and climate. In addition, ATOC majors should demonstrate skill in communication scientific concepts elegantly and clearly.

## Atmospheric and Oceanic Sciences - Minor

The Department of Atmospheric and Oceanic Sciences (ATOC) offers an undergraduate minor for students pursuing a bachelor's degree in another academic department. Students who successfully complete a major at CU Boulder in a quantitative field, such as physics or chemistry, and a minor in ATOC, will be prepared for graduate work in atmospheric and oceanic sciences. The ATOC minor is offered through the College of Arts and Sciences and is noted on the official CU Boulder transcript.

Although the ATOC minor is primarily designed for students who are interested in developing a knowledge base in atmospheric and oceanic sciences with an emphasis on the earth's climate, there is considerable latitude within the minor program for students to design a course of study that is tailored to their individual interests.

Students who wish to declare the ATOC minor should contact the ATOC Undergraduate & Graduate Program Assistant by email at [atocasst@colorado.edu](mailto:atocasst@colorado.edu) or by phone at 303-492-6633. Questions regarding coursework or advising should be directed to the ATOC minor advisor, Dr. Katja Friedrich, at [katja.friedrich@colorado.edu](mailto:katja.friedrich@colorado.edu).

## Requirements

A minimum of 18 credits is required for the minor, at least 9 of which must be upper-division (see list below). The other 9 may be lower-division, upper-division or a combination of both.

All coursework applied to the minor must be completed with a grade of C- or better; no pass/fail work may be applied. Students must have at least a C (2.00) average for all attempted work in atmospheric and oceanic sciences.

Courses toward a minor may also be applied toward graduation requirements, as well as the major requirements for a non-ATOC major. Students are allowed to apply no more than 9 credit hours, including 6 upper-division credit hours, of transfer work to a minor.

## Available Courses

Code	Title	Credit Hours
<b>Lower-Division</b>		
FYSM 1000	First Year Seminar (Stratospheric Explorations)	
ATOC 1050	Weather and the Atmosphere	
ATOC 1060	Our Changing Environment: El Nino, Ozone, and Climate	
ATOC 2500	Special Topics in Atmospheric and Oceanic Sciences - Lower Division	
<b>Upper-Division</b>		
ATOC 3050	Principles of Weather	
ATOC/GEOL 3070	Introduction to Oceanography	
ATOC 3180	Aviation Meteorology	

ATOC 3300	Analysis of Climate and Weather Observations
ATOC 3500/ CHEM 3151	Air Chemistry and Pollution
ATOC/ ENVS 3600/ GEOG 3601	Principles of Climate
ATOC/ASTR 3720	Planets and Their Atmospheres
ATOC 4200	Biogeochemical Oceanography
ATOC 4500	Special Topics in Atmospheric and Oceanic Sciences - Upper Division
ATOC 4550	Mountain Meteorology
ATOC 4700	Weather Analysis & Forecasting
ATOC 4710	Introduction to Atmospheric Physics
ATOC 4720	Introduction to Atmospheric Dynamics
ATOC 4730	Physical Oceanography and Climate
ATOC 4750	Desert Meteorology and Climate
ATOC 4770	Wind Energy Meteorology
ATOC 4800	Policy Implications of Climate Controversies
ATOC 4900	Independent Study

## Biochemistry

The biochemistry major provides interdisciplinary training, education and experience in the chemical and biological sciences. Biochemistry focuses on understanding the chemical processes of living organisms, the reaction pathways that sustain life, the principles of how structure defines function and the physical basis of biomolecular interactions. Students who major in biochemistry are prepared for diverse careers in medicine, scientific research, biotechnology, pharmacy, biomedical consulting, teaching and education, among other professions.

The undergraduate degree in biochemistry emphasizes knowledge and understanding of:

- Foundational principles of biology and chemistry
- The building blocks of life (DNA, RNA and proteins), how they evolved, how they interact, and how organisms make and degrade these building blocks
- How living organisms maintain homeostasis and regulate metabolism
- The molecular mechanisms of how living systems respond to changes, such as environmental perturbations, disease, and chemical therapeutics
- How chemical reactions impact human health

The undergraduate degree in Biochemistry also emphasizes and cultivates development of the following skills:

- Quantitative problem solving
- Critical thinking and analytical reasoning
- Communication of scientific concepts and ideas

Because biochemistry connects to scientific disciplines ranging from genetics, human physiology, microbiology, neuroscience, cell biology, chemistry and geology, biochemistry majors are given the freedom to explore advanced electives in many of these subjects. Additional

information about the biochemistry BA can be found on the Biochemistry Department website (<https://www.colorado.edu/biochemistry>).

**Course code for this program is BCHM.**

## Courses

### BCHM 1041 (3) Biotechnology and Society

Covers recent advances in biotechnology and how those impact society. Content and discussion will focus on both the science behind technological advances, their impact on society, and the ethical issues raised by new technologies. Topics change each semester but can include: GMO crops, genome editing, drug discovery and development, stem cell therapies, development and use of new cancer treatments, human genome sequencing and its impact on diagnosis and treatments, human microbiome, neurodegenerative diseases. Formerly CHEM 1041.

**Requisites:** Restricted to students with 0-56 credits (Freshmen or Sophomore) only.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

### BCHM 2700 (4) Foundations of Biochemistry

Covers chemistry of aqueous solutions; energetics in biology; structure of proteins, nucleic acids, carbohydrates, and membranes; protein evolution; macromolecular interactions; enzyme kinetics, mechanism and regulation. Will be taught from a strong chemical perspective and mastery of basic concepts of general and organic chemistry will be required. Familiarity with basic concepts of molecular and cellular biology encouraged.

**Requisites:** Requires prerequisite course of CHEM 3311 or CHEM 3451 (minimum grade C-). Restricted to Biochemistry (BCHM) majors and minors only.

**Grading Basis:** Letter Grade

### BCHM 3491 (4) Organic Chemistry 2 for Biochemistry Majors

Covers amines, alkylation reactions, additions to unsaturated C-C bonds, aromaticity and aromatic reactivity, organic materials, biomolecules, nomenclature of organic compounds, reaction mechanism. Department enforced corequisite: CHEM 3341 or CHEM 3381. Formerly CHEM 3491.

**Equivalent - Duplicate Degree Credit Not Granted:** CHEM 3471 and CHEM 3331

**Requisites:** Requires prerequisite courses of CHEM 3451 and CHEM 3321 or CHEM 3361 (all minimum grade C-). Restricted to Chemistry (CHEM) or Biochemistry (BCHM) majors only.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

### BCHM 4312 (3-4) Quantitative Optical Imaging

Explores the fundamentals of optical imaging in biology. Covered topics include an introduction to optics and microscopes, fluorescence microscopy and image analysis. MATLAB will be taught throughout the course and used for image processing.

**Equivalent - Duplicate Degree Credit Not Granted:** MCDB 4312, MCDB 5312 and BCHM 5312

**Grading Basis:** Letter Grade

### BCHM 4400 (4) Core Concepts in Physical Chemistry for Biochemists

Introduces thermodynamics, kinetics and spectroscopy, emphasizing macromolecule and biochemical applications. Includes thermodynamics, chemical and physical equilibria, solution chemistry, rates of chemical and biochemical reactions, chemical bonds and principles and selected examples of spectroscopies applied to biological systems. Department enforced prerequisite or corequisite: PHYS 1120 or PHYS 2020. Formerly CHEM 4411.

**Equivalent - Duplicate Degree Credit Not Granted:** BCHM 5400 and CHEM 4511

**Requisites:** Requires prerequisite courses BCHM 2700 or CHEM 4700 and PHYS 1110 or PHYS 2010 and MATH 2300 or APPM 1360 (all minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

### BCHM 4491 (3) Modern Biophysical Methods

Covers the basic theory of biophysical methods widely employed in biochemistry and biology, including: electrophoresis, mass spec, calorimetry, evanescent waves, plasmon resonance, X-ray diffraction, absorbance and fluorescence spectroscopy, magnetic resonance, electron and optical microscopy and single molecule methods. Discusses ways to maximize rigor and reproducibility in biophysical studies.

Department enforced prerequisites: undergraduate chemistry (general, organic physical); physics; calculus.

**Equivalent - Duplicate Degree Credit Not Granted:** BCHM 5491

**Requisites:** Requires prerequisite courses of CHEM 3311 or CHEM 3451 and PHYS 1110 or PHYS 2010 and MATH 2300 or APPM 1360 and CHEM 4400 (formerly CHEM 4411) or CHEM 4511 or corequisite of CHEM 4400 or CHEM 4511 (all minimum grade C).

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

### BCHM 4611 (3) Principles of Biochemistry

Lec. One-semester survey of the main themes of modern biochemistry: biomolecular structure/function, metabolism, biosynthesis, DNA from genome to proteome and cellular signaling. For biology and engineering majors and others wanting a survey of biochemistry. Formerly CHEM 4611.

**Requisites:** Requires prerequisite course of CHEM 3311 or CHEM 3451 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

### BCHM 4621 (3) Genome Databases: Mining and Management

Lec. Develops essential skills for performing genomic analyses, with focus on developing practical research tools. Introduces human genome and microbiome projects, Python/SQL scripting, accessing and understanding genomic data, sequence alignment and search, evolutionary models, expression data, biological networks, and macromolecular structure.

**Equivalent - Duplicate Degree Credit Not Granted:** MCDB 4621, MCDB 5621 and BCHM 5621

**Requisites:** Requires prerequisite course of BCHM 4700 or CSCI 3104 or MCDB 3500 (minimum grade C-).

**Recommended:** Prerequisite MCDB 3135 or CSCI 3104 or CHEM 4700 and recommended corequisite of CSCI 2270.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**BCHM 4720 (4) Metabolic Pathways and Human Disease**

Covers energy metabolism and anabolic/catabolic pathways; metabolism of carbohydrates, lipids, amino acids, and nucleic acids; photosynthesis; special topics on human diseases with pathologies and metabolic pathways. Formerly CHEM 4720.

**Equivalent - Duplicate Degree Credit Not Granted:** BCHM 5720

**Requisites:** Requires prerequisite courses of BCHM 2700 or CHEM 4700 and CHEM 3331 or CHEM 3471 (all minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**BCHM 4740 (4) Biochemistry of Gene Transmission, Expression and Regulation**

Covers biosynthesis and function of macromolecules including DNA, RNA and proteins; molecular basis of replication, transcription and translation; biochemistry of subcellular systems; signaling and regulation of gene expression in eukaryotes; and special topics. Formerly CHEM 4740.

**Equivalent - Duplicate Degree Credit Not Granted:** BCHM 5740

**Requisites:** Requires a prerequisite course of BCHM 2700 or CHEM 4700 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**BCHM 4751 (3) Current Topics in Biochemical Research**

Lec. Covers current topics in modern biochemical research through lectures, reading recent research articles, critical thinking and class discussion. Topics include protein and nucleic acid structure and function, biomolecular interactions, enzyme function and cellular signaling and regulation. Formerly CHEM 4751.

**Equivalent - Duplicate Degree Credit Not Granted:** BCHM 5751

**Requisites:** Requires prerequisite courses of BCHM 4700 and BCHM 4740 or MCDB 3135 (all minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**BCHM 4761 (3) Biochemistry Laboratory**

Two 4-hour periods per week. Introduction to modern biochemical techniques. Topics include enzymology, spectrophotometry, electrophoresis, multi-step protein purification, recombinant DNA techniques and molecular cloning. Formerly CHEM 4761.

**Requisites:** Requires prerequisite courses of BCHM 2700 or CHEM 4700 and CHEM 3341 or 3381 (all minimum grade C-). Restricted to Chemistry (CHEM) or Biochemistry (BCHM) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sci Lab  
Arts Sci Gen Ed: Distribution-Natural Sciences

**BCHM 4901 (1-6) Independent Study in Biochemistry**

For undergraduate study. Department consent required.

**Repeatable:** Repeatable for up to 8.00 total credit hours.

## Biochemistry - Bachelor of Arts (BA)

The biochemistry major provides interdisciplinary training, education and experience in the chemical and biological sciences. Biochemistry focuses on understanding the chemical processes of living organisms, the reaction pathways that sustain life, the principles of how structure defines function, and the physical basis of biomolecular interactions. Students who major in biochemistry are prepared for diverse careers in medicine, scientific research, biotechnology, pharmacy, biomedical consulting, teaching and education, among other professions. The undergraduate degree in biochemistry emphasizes knowledge and understanding of:

- Foundational principles of biology and chemistry
- The building blocks of life (DNA, RNA and proteins), how they evolved, how they interact, and how organisms make and degrade these building blocks

- How living organisms maintain homeostasis and regulate metabolism
- The molecular mechanisms of how living systems respond to changes, such as environmental perturbations, disease, and chemical therapeutics
- How chemical reactions impact human health

The undergraduate degree in biochemistry also emphasizes and cultivates development of the following skills:

- Quantitative problem solving
- Critical thinking and analytical reasoning
- Communication of scientific concepts and ideas

Because biochemistry connects to scientific disciplines ranging from genetics, human physiology, microbiology, neuroscience, cell biology, chemistry and geology, biochemistry majors are given the freedom to explore advanced electives in many of these subjects. Additional information about the biochemistry BA can be found on the Biochemistry Department website (<https://www.colorado.edu/biochemistry>).

Biochemistry major students are prepared for many different careers after graduation. Career Services (<http://www.colorado.edu/careerservices>) offers a number of programs and services designed to help students plan their career, including workshops, internships, and placement services after graduation. For an appointment with a career counselor or for more information, call 303-492-6541 or stop by Center for Community, N352.

### Additional Opportunities

## Undergraduate Research

Undergraduates are encouraged to participate in research to prepare themselves for graduate school, professional school, or industry. There are multiple opportunities for undergraduates to be involved in research within the Department of Biochemistry. For more information, visit our Departmental Undergraduate research page (<https://www.colorado.edu/biochemistry/current-students/undergraduate/undergraduate-research>).

## Study Abroad

The experience of studying abroad can prove invaluable. For information about study abroad programs, visit the Office of International Education/ Study Abroad (<http://studyabroad.colorado.edu>) website.

## Teaching Certification

Biochemistry majors can also earn certification as teachers through the School of Education. The program for a secondary school science-teaching certificate is challenging requiring a broad, strong background in science, as well as coursework in education and practice teaching. It usually requires at least five years of study. Students interested in teacher certification are encouraged to contact the School of Education (<http://www.colorado.edu/education>).

## Requirements

### Program Requirements

The biochemistry major provides interdisciplinary training in the biological and chemical sciences, including courses in general chemistry, organic chemistry, physical chemistry and biochemistry, as well as in biology, calculus and physics.

In addition to these, students must fulfill the graduation requirements of the College of Arts and Sciences. No more than 45 credits of BCHM courses can be applied to the 120-credit minimum to graduate.

Transfer students who plan to complete a BA degree in biochemistry must complete at the Boulder campus a minimum of 12 credits of upper-division courses in biochemistry covering at least two of the sub-disciplines in their major: organic, physical and biochemistry.

Students may want to consult each semester's Registration Handbook and Schedule of Courses (<http://www.colorado.edu/registrar>), as well as the Professor Performance Guide (<http://www.colorado.edu/pba/fcq>) for further information about course offerings and faculty.

## Required Courses and Credits

Code	Title	Credit Hours
<b>General Chemistry</b>		
CHEM 1400 & CHEM 1401	Foundations of Chemistry and Foundations of Chemistry Lab (Recommended)	5
or CHEM 1113 & CHEM 1114 & CHEM 1133 & CHEM 1134	General Chemistry 1 and Laboratory in General Chemistry 1 and General Chemistry 2 and Laboratory in General Chemistry 2	
<b>Organic Chemistry</b>		
CHEM 3451	Organic Chemistry for Chemistry and Biochemistry Majors (Recommended)	4
or CHEM 3311	Organic Chemistry 1	
CHEM 3321	Laboratory in Organic Chemistry 1	1-2
or CHEM 3361	Laboratory in Organic Chemistry 1 for Chemistry Majors	
BCHM 3491	Organic Chemistry 2 for Biochemistry Majors (Recommended)	4
or CHEM 3471	Organic Chemistry 2 for Chemistry Majors	
or CHEM 3331	Organic Chemistry 2	
CHEM 3341	Laboratory in Organic Chemistry 2	1-2
or CHEM 3381	Laboratory in Organic Chemistry 2 for Chemistry Majors	
<b>Biochemistry</b>		
BCHM 2700	Foundations of Biochemistry	4
BCHM 4720	Metabolic Pathways and Human Disease	4
BCHM 4740	Biochemistry of Gene Transmission, Expression and Regulation	4
BCHM 4761	Biochemistry Laboratory	3
<b>Physical Chemistry</b>		
BCHM 4400	Core Concepts in Physical Chemistry for Biochemists <sup>1</sup>	4
<b>Advanced Major Electives</b>		
Select three of the following elective courses:		9-12
BCHM 4751	Current Topics in Biochemical Research	
BCHM 5341	Chemical Biology and Drug Design	
CHEM 4791	Bioorganic Chemistry in Biotechnology	
CHEM 4011	Modern Inorganic Chemistry	
CHEM 4171	Instrumental Analysis - Lecture and Laboratory 1	

CHEM 4181	Instrumental Analysis - Lecture and Laboratory 2
MCDB 2150	Principles of Genetics (cannot also count EBIO 2070 as a required ancillary course or an advanced elective)
MCDB 3145	Molecular Cell Biology II
MCDB 3150	Biology of the Cancer Cell
MCDB 3160	Infectious Disease
MCDB 3350	Fertility, Sterility, and Early Mammalian Development
MCDB 3501	Structural Methods for Biological Macromolecules
MCDB 3650	The Brain - From Molecules to Behavior
MCDB 3990	Introduction to Systems Biology for Biologists
MCDB 4300	Immunology (cannot also count IPHY 4600 as a required Advanced Major Elective)
MCDB 4310	Microbial Genetics and Physiology
MCDB 4350	Microbial Diversity and the Biosphere
MCDB 4410	Human Molecular Genetics
MCDB 4426	Cell Signaling and Developmental Regulation
MCDB 4444	Cellular Basis of Disease
MCDB 4471	Mechanisms of Gene Regulation in Eukaryotes
MCDB 4520	Bioinformatics and Genomics
MCDB 4615	Biology of Stem Cells
MCDB 4750	Animal Virology
MCDB 4790	Oocytes, Stem Cells, Organisms: Experiments to Discoveries
EBIO 2070	Genetics: Molecules to Populations (cannot also count MCDB 2150 as a required ancillary course or an advanced elective)
EBIO 3040	Conservation Biology
EBIO 3080	Evolutionary Biology
EBIO 3190	Tropical Marine Ecology
EBIO 3240	Animal Behavior
EBIO 3400	Microbiology
EBIO 3523	The Art and Strategy of Science Communication: Branding Climate Change
EBIO 3590	Plants and Society
EBIO 3630	Parasitology
EBIO 3850	Animal Diversity: Invertebrates
EBIO 4030	Limnology
EBIO 4060	Landscape Ecology
EBIO 4080	Freshwater Phycology
EBIO 4140	Plant Ecology
EBIO 4155	Ecosystem Ecology
EBIO 4290	Phylogenetics and Comparative Biology
EBIO 4410	Biological Statistics
EBIO 4420	Computational Biology
EBIO 4440	Animal Developmental Diversity
EBIO 4500	Plant Biodiversity and Evolution
EBIO 4530	Functional Plant Biology

IPHY 3400	Nutrition for IPHY Majors
IPHY 3410	Human Anatomy
IPHY 3430	Human Physiology
IPHY 3470	Human Physiology 1
IPHY 3480	Human Physiology 2
IPHY 3490	Introduction to Epidemiology
IPHY 4440	Endocrinology
IPHY 4470	Biology of Human Reproduction
IPHY 4600	Immunology (cannot also count MCDB 4300 as a required Advanced Major Elective)
IPHY 4720	Neurophysiology
NRSC 2100	Introduction to Neuroscience
NRSC 4032	Neurobiology of Learning and Memory
NRSC 4082	Neural Circuits of Learning and Decision Making
NRSC 4092	Behavioral Neuroendocrinology
NRSC 4132	Neuropharmacology
NRSC 4545	Neurobiology of Addiction
ATOC 4200	Biogeochemical Oceanography
PSYC 3102	Behavioral Genetics
PSYC 3112	Behavioral Genetics II
PSYC 4052	Behavioral Neuroscience
GEOL 3320	Introduction to Geochemistry
GEOL 4160	Introduction to Biogeochemistry
GEOL 4270	Marine Chemistry and Geochemistry
GEOL 4330	Cosmochemistry
GEOL 4670	Isotope Geology
GEOL 4675	Stable Isotopes in Paleoclimate and Paleocology
PHIL 3140	Environmental Ethics (cannot also count PHIL 3160 as a required Advanced Major Elective)
PHIL 3160	Bioethics (cannot also count PHIL 3140 as a required Advanced Major Elective)
Total Credit Hours	43-48

**Required Ancillary Coursework from Outside Biochemistry**

Code	Title	Credit Hours
<b>Physics</b>		
PHYS 1110	General Physics 1	4
PHYS 1120	General Physics 2	4
PHYS 1140	Experimental Physics 1	1
<b>Calculus</b>		
MATH 1300	Calculus 1	4-5
or APPM 1350	Calculus 1 for Engineers	
MATH 2300	Calculus 2	4-5
or APPM 1360	Calculus 2 for Engineers	
<b>Biology Sequence with Labs</b>		
<i>Lectures (One of the following sequences)</i>		6
MCDB 1150	Introduction to Cellular and Molecular Biology	
& MCDB 2150	and Principles of Genetics	

MCDB 1111	Core Concepts in Biology I: Evolutionary, Molecular and Cell Biology	
& MCDB 2222	and Core Concepts in Biology II: Genes, Genetics and Phenotypes	
EBIO 1210	General Biology 1	
& EBIO 1220	and General Biology 2	
<i>Labs (One of the following sequences)</i>		2
MCDB 1161	From Dirt to DNA: Phage Genomics Laboratory I	
or MCDB 1171	Drug Discovery Through Hands-on Screens I	
or MCDB 2171	Drug Discovery Through Hands-On Screens 2	
EBIO 1230	General Biology Laboratory 1	
& EBIO 1240	and General Biology Laboratory 2	
Total Credit Hours		25-27

<sup>1</sup> Or CHEM 4511 and CHEM 4531

All students, and especially those intending to go onto graduate school in biochemistry, will benefit from additional advanced courses. Recommended electives include graduate courses in various fields of chemistry, or advanced courses in biology or mathematics.

**Graduating in Four Years**

Consult the Four-Year Guarantee Requirements for information on eligibility. The concept of "adequate progress" as it is used here only refers to maintaining eligibility for the four-year guarantee; it is not a requirement for the major. To maintain progress in biochemistry, students should declare the biochemistry major in the first semester.

Students must consult with a major advisor to determine adequate progress toward completion of the major.

**Recommended Four-Year Plan of Study**

Through the required coursework for the major, students will fulfill all 12 credits of the Natural Sciences area of the Gen Ed Distribution Requirement and the QRMS component of the Gen Ed Skills Requirement.

Course	Title	Credit Hours
<b>Year One</b>		
<b>Fall Semester</b>		
CHEM 1400	Foundations of Chemistry	4
CHEM 1401	Foundations of Chemistry Lab	1
MATH 1300	Calculus 1	4-5
or APPM 1350	or Calculus 1 for Engineers	
Gen. Ed. Distribution course (example: Social Sciences)		3
Gen. Ed. Skills course (example: Lower-division Written Communication)		3
Credit Hours		15-16
<b>Spring Semester</b>		
CHEM 3451	Organic Chemistry for Chemistry and Biochemistry Majors	4
CHEM 3321	Laboratory in Organic Chemistry 1	1
MATH 2300	Calculus 2	4-5
or APPM 1360	or Calculus 2 for Engineers	
Gen. Ed. Distribution/Diversity course (example: Arts & Humanities/US Perspective)		3

Gen. Ed. Distribution/Diversity course (example: Social Sciences/Global Perspective) 3

Credit Hours 15-16

### Year Two

#### Fall Semester

BCHM 3491 Organic Chemistry 2 for Biochemistry Majors 4

CHEM 3341 Laboratory in Organic Chemistry 2 1

MCDB 1150 Introduction to Cellular and Molecular Biology 3  
or MCDB 1111 Biology

Elective 3

Elective 3

Credit Hours 15

Total Credit Hours 121-123

## Biochemistry - Minor

Minors are offered in biochemistry. Declaration of a biochemistry minor is open to any student enrolled at CU Boulder, regardless of college or school.

## Requirements

The College of Arts and Sciences will allow a maximum of 9 hours of transfer credit, including 6 upper-division credit hours to count toward a minor. Students may transfer courses through organic chemistry only. All courses required for the minor must be completed with a grade of C- or better, and the overall GPA in all BCHM and CHEM courses taken must be a 2.00.

Students who have taken CHEN 1211 and CHEM 1221 may substitute them for CHEM 1113. Engineering students who have taken CHEN 4521 may NOT use this to satisfy the physical chemistry requirement.

Code	Title	Credit Hours
------	-------	--------------

#### General Chemistry

Select one of the following two options: 5-10

##### Option 1:

CHEM 1113	General Chemistry 1 & CHEM 1114	and Laboratory in General Chemistry 1
-----------	---------------------------------	---------------------------------------

CHEM 1133	General Chemistry 2 & CHEM 1134	and Laboratory in General Chemistry 2
-----------	---------------------------------	---------------------------------------

##### Option 2:

CHEM 1400	Foundations of Chemistry & CHEM 1401	and Foundations of Chemistry Lab
-----------	--------------------------------------	----------------------------------

**Organic Chemistry** 10-12

#### Organic Chemistry 1

##### Lecture

CHEM 3311	Organic Chemistry 1
or CHEM 3450	Organic Chemistry for Chemistry and Biochemistry Majors

##### Lab

CHEM 3321	Laboratory in Organic Chemistry 1
or CHEM 3361	Laboratory in Organic Chemistry 1 for Chemistry Majors

#### Organic Chemistry 2

## Lecture

CHEM 3331 Organic Chemistry 2  
or CHEM 347 Organic Chemistry 2 for Chemistry Majors  
or BCHM 345 Organic Chemistry 2 for Biochemistry Majors

## Lab

CHEM 3341 Laboratory in Organic Chemistry 2  
or CHEM 338 Laboratory in Organic Chemistry 2 for Chemistry Majors

**Physical Chemistry**

Select one of the following: 3-4

BCHM 4400 Core Concepts in Physical Chemistry for Biochemists

CHEM 4511 Physical Chemistry 1

**Biochemistry**

Select one of the following: 3-8

BCHM 4611 Principles of Biochemistry

BCHM 2700 Foundations of Biochemistry  
& BCHM 4720 and Metabolic Pathways and Human Disease

BCHM 2700 Foundations of Biochemistry  
& BCHM 4740 and Biochemistry of Gene Transmission, Expression and Regulation

Total Credit Hours 21-34

## British and Irish Studies

The Center for British and Irish Studies encourages students to develop programs that include a focus on British and Irish culture, history and contemporary life from a variety of disciplinary perspectives. The center offers a certificate in British and Irish studies for students who have taken 24 credits in British and Irish literature, history and/or other fields.

For more information, contact the Center for British and Irish Studies at paul.hammer@colorado.edu. For more information, visit the Center for British and Irish Studies (<https://www.colorado.edu/artssciences/british>) website.

### Certificate

- British and Irish Studies - Certificate (p. 172)

## British and Irish Studies - Certificate

Undergraduates interested in the literature, history and culture of Britain and Ireland are encouraged to develop an interdisciplinary concentration in British and Irish studies. Completed in addition to a regular departmental major, this work will lead to a certificate in British and Irish studies. The certificate demonstrates that the student has done serious work in several aspects of British and Irish studies and will be advantageous when applying to graduate school or for jobs. It is open to students in any school or college.

### Requirements

A total of 24 credits in British and Irish studies (normally eight courses of 3 credits each) with a grade of C- or better in all classes.

The courses should be distributed as follows:

- In the department of primary focus (either English or history, depending on the student's own interests), any four courses in British

or Irish studies. CBIS will provide a list of possible courses (see below).

- In the secondary department (either history, English or political science, depending upon primary area), a minimum of two courses and a maximum of four courses. CBIS will provide a list of possible courses (see below). Topics courses may be substituted with approval of the director.
- Students may take one or two courses in departments other than English, history or political science, chosen from the list below, in place of courses in the secondary department. Students are encouraged to do some work of an explicitly interdisciplinary nature such as team-taught courses offered by two departments or an independent study or honors thesis spanning two disciplines.
- Studying in Britain or Ireland would be a fine addition to the certificate. Contact the Office of International Education, Center for Community S355, 303-492-6016, for information on CU's Study Abroad programs.

### Approved Courses

Code	Title	Credit Hours
ECON 4514	Economic History of Europe	3
ENGL 1500	Masterpieces of British Literature	3
ENGL 2503	British Literary History to 1660	3
ENGL 2504	British Literary History after 1660	3
ENGL 2767	Survey of Post-Colonial Literature	3
ENGL 3000	Shakespeare for Nonmajors	3
ENGL 3068	Literature in English, 1900-1945	3
ENGL 3078	Literature in English, 1945-Present	3
ENGL 3164	History and Literature of Georgian Britain	3
ENGL 3523	The Early English Renaissance	3
ENGL 3533	The Later English Renaissance	3
ENGL 3544	The Long Eighteenth Century: Satire, Sense, and Sentiment from Behn to Austen	3
ENGL 3553	Geoffrey Chaucer	3
ENGL 3563	Shakespeare	3
ENGL 3564	Romanticism	3
ENGL 3573	Shakespeare in Performance	3
ENGL 3583	Milton	3
ENGL 3604	The Victorians	3
ENGL 4003	Introduction to Old English	3
ENGL 4113	History and Culture of Medieval England	3
ENGL 4048	Modern British and Irish Novel	3
ENGL 4513	British Medieval Literature	3
ENGL 4514	Advanced Topics: The Long 18th Century	3
ENGL 4524	Advanced Topics: Romanticism	3
ENGL 4583	Elizabeth I and Her Times	3
ENGL 4624	Transnational/Historic/Interdiscipline Approaches 1660-1900	3
ENGL 4634	Advanced Topics: The Victorians	3
ENGL 4693	Advanced Topics in British Literature to 1660	3
HIST 1113	Introduction to British History to 1660	3
HIST 1123	Introduction to British History Since 1660	3

HIST 3113	Seminar in Medieval and Early Modern English History	3
HIST 3133	Seminar in Britain since 1688	3
HIST 4013	Law and Society in Premodern England to 1688	3
HIST 4053	Britain and the Empire, 1688-1964	3
WGST 4063	Women in Victorian England	3
HIST 4123	Medieval England	3
HIST 4125	Early American History to 1763	3
HIST 4133	The Tudors: British History 1485-1603	3
HIST 4143	The Making of Great Britain: British History 1603-1714	3
HIST 4339	Borderlands of the British Empire	3
HIST 4349	Decolonization of the British Empire	3
PSCI 2004	Survey of Western Political Thought	3
PSCI 3172	Democracy and Its Citizens in the US and EU	3
PSCI 4002	Western European Politics	3
PSCI 4213	Europe and the International System	3
PSCI 4302	European Union Politics	3

## Central and East European Studies

The Central and East European Studies certificate offers students the opportunity for the integrated, interdisciplinary study of the history, politics, language, literature, and culture of Russia, Central and Eastern Europe.

The program serves to foster new knowledge and understanding of Central and Eastern Europe, and to train a new generation by providing the knowledge, tools, and experience necessary for understanding these societies and for playing productive roles in their reconstruction.

The program offers students a broad understanding of the cultures and societies of Central and Eastern Europe for which it draws upon the expertise of faculty from a variety of campus departments.

Course code for this program is CEES.

### Certificate

- Central and East European Studies - Certificate (p. 173)

#### CEES 1623 (3) Introduction to Central and East European History since 1770

Examines major themes and events in the history of East-Central Europe from the late 1700s to the present. Themes include the impacts of nationalism, fascism, liberal democracy and communism in shaping the history of the region. Topics include World War I, World War II and the Holocaust, the Cold War, the fall of Communism, the Ukrainian revolution and more.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 1623

**Additional Information:** Arts Sci Core Curr: Historical Context  
Departmental Category: Arts Sciences Special Courses

## Central and East European Studies - Certificate

Students who seek in-depth, interdisciplinary knowledge of the region are encouraged to pursue the certificate in central and east European

studies (CEES). The certificate program offers students the opportunity to explore the culture, history and politics of the nations of central and eastern Europe from a variety of disciplinary perspectives.

The purpose of the certificate program is to enhance, rather than to replace, the department major. Students work with CEES faculty advisors to plan an appropriate certificate program. The certificate is awarded in addition to a bachelor's degree in another field.

Contact the director of Central and East European Studies, Professor Laura Osterman (laura.osterman@colorado.edu), at 303-492-7729 for additional information.

### Requirements

Completion of the certificate requires the completion of 18 credits (9 upper-division) of approved courses with grades of C- or higher. Only 9 credits that apply to a student's major or minor can be used to fulfill CEES certificate requirements, and only 6 semester credit hours transferred from other institutions can be used to fulfill certificate requirements.

Students pursuing the CEES certificate are strongly encouraged to take advantage of a recognized study abroad program in eastern Europe affiliated with CU Boulder. Courses taken on such a program, as approved by the certificate director, count toward the certificate in CEES even though it is not possible to list them below.

#### Required Courses and Credits

## Chemistry

The undergraduate degree in chemistry emphasizes knowledge and awareness of:

- The basic principles of chemistry—atomic and molecular theory, reactivities and properties of chemical substances and the states of matter
- The basic subfields of chemistry—organic, physical, analytical, inorganic and biochemistry
- Mathematics sufficient to facilitate the understanding and derivation of fundamental relationships and to analyze and manipulate experimental data
- The basic principles of physics
- Safe chemical practices, including waste handling and safety equipment

In addition, students completing a degree in chemistry are expected to acquire the ability and skills to:

- Read, evaluate and interpret information on a numerical, chemical and general scientific level
- Assemble experimental chemical apparatus, design experiments and use appropriate apparatus to measure chemical composition and properties
- Communicate results of scientific inquiries verbally and in writing

Course code for this program is CHEM.

## Bachelor's Degree

- Chemistry - Bachelor of Arts (BA) (p. 181)

## Minor

- Chemistry - Minor (p. 184)

## Faculty

While many faculty teach both undergraduate and graduate students, some instruct students at the undergraduate level only. For more information, contact the faculty member's home department.

## Courses

### CHEM 1011 (3) Environmental Chemistry 1

Lect. Introduces basic principles of chemistry with applications to current environmental issues including toxic chemicals, air and water pollution, energy sources and their environmental impact, and climate change resulting from the greenhouse effect. No credit given to chemistry or biochemistry majors for this course if students already have credit in any college-level chemistry course numbered 1113/1114 (formerly 1111) or higher.

**Additional Information:** GT Pathways: GT-SC2 -Natural Physicl Sci:Lec Crse w/o Req Lab

Arts Sci Core Curr: Natural Science Sequence  
Arts Sci Core Curr: Natural Science Non-Sequence  
Arts Sci Gen Ed: Distribution-Natural Sciences  
MAPS Course: Chemistry  
MAPS Course: Physics  
MAPS Course: Natural Science

### CHEM 1021 (4) Introductory Chemistry

Lect. and lab. For students with no high school chemistry or a very weak chemistry background. Remedies a deficiency in natural science MAPS requirements and prepares students for CHEM 1113 and CHEM 1114. No credit given to chemistry or biochemistry majors for this course if students already have credit in any college-level chemistry course numbered 1113/1114 (formerly 1111) or higher. Department enforced prerequisite: one year high school algebra or concurrent enrollment in MATH 1011.

**Additional Information:** GT Pathways: GT-SC1 - Natural Physcal Sci:Lec Crse w/ Req Lab

Arts Sci Core Curr: Natural Science Non-Sequence  
Arts Sci Core Curr: Natural Science Lab  
Arts Sci Gen Ed: Distribution-Natural Sciences  
Arts Sci Gen Ed: Distribution-Natural Sci Lab  
MAPS Course: Natural Science Lab or Lab/Lec

### CHEM 1031 (4) Environmental Chemistry 2

Lect. and lab. Applications of chemical principles to current environmental issues including acid rain, stratospheric ozone depletion, the Antarctic ozone hole, solar energy conversion and fuel cells, and the environmental consequences of nuclear war. Laboratory experience is included. No credit given to chemistry or biochemistry majors this course if students already have credit in any college-level chemistry course numbered 1113/1114 (formerly 1111) or higher.

**Requisites:** Requires prerequisite course of CHEM 1011 (minimum grade C-).

**Additional Information:** Arts Sci Core Curr: Natural Science Sequence  
Arts Sci Core Curr: Natural Science Lab

Arts Sci Gen Ed: Distribution-Natural Sciences  
Arts Sci Gen Ed: Distribution-Natural Sci Lab

### CHEM 1113 (4) General Chemistry 1

Lect., rec. Intended for first-semester students whose academic plans require advanced work in chemistry. Subjects: components of matter, stoichiometry, classes of reactions, gases, thermochemistry, atomic structure, electron configuration, chemical bonding, molecular shapes, covalent bonding, organic compounds, intermolecular forces, equilibrium. Department enforced prerequisites: one year high school chemistry or CHEM 1021 (min grade C-); high school math through pre-calculus. Not recommended for students with grades below B- in CHEM 1021. Department enforced corequisite: CHEM 1114. Not open to engineering students with exception of EPEN majors.

**Equivalent - Duplicate Degree Credit Not Granted:** CHEM 1400 or CHEN 1211

**Requisites:** AMEN, AREN, ASEN, CHEN, CSEN, CVEN, ECEN, EEEN, EVEN, MCEN, OPEN or CBEN majors are not allowed to take this class.

**Additional Information:** GT Pathways: GT-SC2 -Natural Physicl Sci:Lec Crse w/o Req Lab

Arts Sci Core Curr: Natural Science Sequence  
Arts Sci Gen Ed: Distribution-Natural Sciences

**CHEM 1114 (1) Laboratory in General Chemistry 1**

Lab. Intended for first-semester students whose academic plans require advanced work in chemistry. Instruction in experimental techniques which coordinate with lecture topics in CHEM 1113. Department enforced prerequisites: one year high school chemistry or CHEM 1021 (min grade C-); high school math through pre-calculus. Not recommended for students with grades below B- in CHEM 1021. Department enforced corequisites: CHEM 1113. Not open to engineering students with exception of EPEN majors.

**Equivalent - Duplicate Degree Credit Not Granted:** CHEM 1401 or CHEM 1221

**Requisites:** AMEN, AREN, ASEN, CHEN, CSEN, CVEN, ECEN, EEEN, EVEN, MCEN, OPEN or CBEN majors are not allowed to take this class.

**Additional Information:** GT Pathways: GT-SC1 - Natural Physical Sci:Lec Crse w/ Req Lab

Arts Sci Core Curr: Natural Science Lab

Arts Sci Gen Ed: Distribution-Natural Sci Lab

Arts Sci Gen Ed: Distribution-Natural Sciences

**CHEM 1133 (4) General Chemistry 2**

Lect., rec. Intended for second-semester students whose academic plans require advanced work in chemistry. Subjects: acid-base equilibria, buffers and titrations, thermodynamics, redox reactions, electrochemistry, transition elements and their coordination compounds, solubility/solubility equilibria, crystal field theory, kinetics, nuclear chemistry. Department enforced corequisite: CHEM 1134.

**Equivalent - Duplicate Degree Credit Not Granted:** CHEM 2100

**Requisites:** Requires prerequisite courses of CHEM 1113 and CHEM 1114 or CHEM 1400 and CHEM 1401 (formerly CHEM 1251) or CHEN 1211 and CHEM 1221 (all minimum grade C-).

**Additional Information:** GT Pathways: GT-SC2 -Natural Physical Sci:Lec Crse w/o Req Lab

Arts Sci Core Curr: Natural Science Sequence

Arts Sci Gen Ed: Distribution-Natural Sciences

**CHEM 1134 (1) Laboratory in General Chemistry 2**

Lab. Intended for second-semester students whose academic plans require advanced work in chemistry. Instruction in experimental techniques which coordinate with lecture topics in CHEM 1133. Department enforced corequisite: CHEM 1133.

**Equivalent - Duplicate Degree Credit Not Granted:** CHEM 2101

**Requisites:** Requires prerequisite courses of CHEM 1113 and CHEM 1114 or CHEM 1400 and CHEM 1401 (formerly CHEM 1251) or CHEN 1211 and CHEM 1221 (all minimum grade C-).

**Additional Information:** GT Pathways: GT-SC1 - Natural Physical Sci:Lec Crse w/ Req Lab

Arts Sci Core Curr: Natural Science Lab

Arts Sci Gen Ed: Distribution-Natural Sci Lab

Arts Sci Gen Ed: Distribution-Natural Sciences

**CHEM 1221 (1) Engineering General Chemistry Lab**

Meets general chemistry laboratory requirement for engineering students. Designed to illustrate chemical concepts and introduce basic techniques in chemical measurement and synthesis. Department enforced prerequisites: one year of high school chemistry or CHEM 1021 (min. grade C-) and high school algebra; B- in CHEM 1021 recommended.

**Equivalent - Duplicate Degree Credit Not Granted:** CHEM 1114 or CHEM 1401

**Requisites:** Requires prerequisite course of CHEN 1211 or CHEM 1133 (minimum grade C-), or corequisite course of CHEN 1211 or CHEM 1133.

Restricted to undergraduate engineering students only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sci Lab

Arts Sci Gen Ed: Distribution-Natural Sciences

**CHEM 1400 (4) Foundations of Chemistry**

Covers core concepts in chemistry: nature of matter (atomic and molecular structure, bonding and macroscopic properties), transformations of matter (chemical reactivity), and quantifying chemical transformations (thermochemistry, thermodynamics and kinetics). Emphasizes critical thinking and cultivate core problem solving skills utilized by scientists. Intended for first semester CHEM/BCHM majors. Department enforced prerequisites: one year high school chemistry or CHEM 1021 (minimum grad C-) and high school math through pre-calculus. Not recommended for students with grades below B- in CHEM 1021. Department enforced corequisite: CHEM 1401. Formerly CHEM 1251.

**Equivalent - Duplicate Degree Credit Not Granted:** CHEM 1113

**Requisites:** Restricted to Chemistry (CHEM) or Biochemistry (BCHM) majors only.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Core Curr: Natural Science Non-Sequence

Arts Sci Gen Ed: Distribution-Natural Sciences

**CHEM 1401 (1) Foundations of Chemistry Lab**

Coordinates with lecture topics in CHEM 1400. Intended for first-semester CHEM and BCHM majors. Emphasizes the development of hands-on practical laboratory skills, experimental design, data interpretation, problem solving and open inquiry. Department enforced prerequisites: one year high school chemistry or CHEM 1021 (minimum grad C-) and high school math through pre-calculus. Not recommended for students with grades below B- in CHEM 1021. Department enforced corequisite: CHEM 1400.

**Equivalent - Duplicate Degree Credit Not Granted:** CHEM 1114 or CHEM 1221

**Requisites:** Restricted to Chemistry (CHEM) or Biochemistry (BCHM) majors only.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Core Curr: Natural Science Lab

Arts Sci Gen Ed: Distribution-Natural Sci Lab

Arts Sci Gen Ed: Distribution-Natural Sciences

**CHEM 2100 (4) Chemical Energetics and Dynamics**

Covers the energetic principles that determine when chemical reactions occur and the dynamic principles that determine how rapidly they will occur. Applications include ionic equilibria in solution (acids and bases, buffers and titrations), oxidation-reduction reactions, electrochemistry and chemical kinetics. These applications will be situated in a context of current research problems in areas such as renewable energy and atmospheric chemistry. Department enforced corequisite: CHEM 2101. Formerly CHEM 1271.

**Equivalent - Duplicate Degree Credit Not Granted:** CHEM 1133

**Requisites:** Requires prerequisite courses of CHEM 3331 or CHEM 3471 (formerly CHEM 3371) or CHEM 3491 and MATH 2300 or APPM 1360 (all minimum grade C-). Restricted to Chemistry (CHEM) or Biochemistry (BCHM) majors only.

**Additional Information:** Arts Sci Core Curr: Natural Science Sequence

Arts Sci Gen Ed: Distribution-Natural Sciences

**CHEM 2101 (1) Laboratory for Chemical Energetics and Dynamics**

Coordinates with the lectures topics in CHEM 2100. Required for fourth semester CHEM majors and an elective for BCHEM majors. Emphasizes the acquisition of more advanced laboratory skills, experimental design, data interpretation and analysis. Department enforced corequisite: CHEM 2100.

**Requisites:** Requires a prerequisite course of CHEM 3341 or CHEM 3381 (minimum grade C-).

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Core Curr: Natural Science Lab

Arts Sci Gen Ed: Distribution-Natural Sciences

Arts Sci Gen Ed: Distribution-Natural Sci Lab

**CHEM 3151 (3) Air Chemistry and Pollution**

Examines the composition of the atmosphere, and sources of gaseous and particulate pollutants: their chemistry, transport and removal from the atmosphere. Applies general principles to acid rain, smog and stratospheric ozone depletion. Department enforced prerequisite: two semesters of chemistry.

**Equivalent - Duplicate Degree Credit Not Granted:** ATOC 3500

**Additional Information:** Arts Sci Core Curr: Natural Science Non-Sequence

Arts Sci Gen Ed: Distribution-Natural Sciences

**CHEM 3251 (3) Sustainable Energy from a Chemistry Perspective**

Explores qualitative and quantitative chemical aspects of energy systems (production, transmission, storage, utilization) including fossil, wind, solar, nuclear and biomass energy. Applies chemical principles including composition, structure, bonding, physical properties, thermodynamics, equilibrium and kinetics to energy systems and sustainability, especially environmental implications. Describes the importance of energy to the chemical industries and society as a whole.

**Requisites:** Requires prerequisite course of CHEM 1133 and 1134 or CHEM 2100 and 2101 or CHEN 1211 and CHEM 1221 (all minimum grade C-).

**CHEM 3311 (4) Organic Chemistry 1**

Lect. and rec. Intended primarily for nonmajors. Topics include structure and reactions of alkanes, alkenes, alkynes, alkyl halides, and aromatic molecules; nomenclature of organic compounds; stereochemistry; reaction mechanisms and dynamics. Department enforced corequisite: CHEM 3321 or CHEM 3361.

**Requisites:** Requires prerequisite course of CHEM 1133 and CHEM 1134 or CHEM 1400 and CHEM 1401 or CHEM 2100 and CHEM 2101 or CHEN 1211 and CHEM 1221 (all minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**CHEM 3321 (1) Laboratory in Organic Chemistry 1**

Lab. Instruction in experimental techniques of modern organic chemistry emphasizing chemical separations and reactions of alkanes, alkenes, and aromatic compounds. Stereochemical modeling and the identification of organic unknowns by spectroscopic and chemical methods are also introduced. Department enforced corequisite: CHEM 3311 or CHEM 3451.

**Equivalent - Duplicate Degree Credit Not Granted:** CHEM 3361

**Requisites:** Requires prerequisite course of CHEM 1133 and CHEM 1134 or CHEM 2100 or CHEM 1400 and CHEM 1401 or CHEN 1211 and CHEM 1221 (all minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sci Lab

Arts Sci Gen Ed: Distribution-Natural Sciences

**CHEM 3331 (4) Organic Chemistry 2**

Lect. and rec. Intended primarily for nonmajors. Topics include structure and reactions of alkyl halides, alcohols, ethers, carboxylic acids, aldehydes, ketones, and amines; introduction to the chemistry of heterocycles, carbohydrates, and amino acids; nomenclature of organic compounds; synthesis; and reaction mechanisms. Department enforced corequisite: CHEM 3341 or CHEM 3381.

**Equivalent - Duplicate Degree Credit Not Granted:** CHEM 3471 or BCHM 3491

**Requisites:** Requires prerequisite courses of (CHEM 3311 or CHEM 3451) and (CHEM 3321 or CHEM 3361) all minimum grade C-.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**CHEM 3341 (1) Laboratory in Organic Chemistry 2**

Lab. For biochemistry and nonchemistry majors. Instruction in experimental techniques of modern organic chemistry emphasizing reactions involving alcohols, ketones, carboxylic acids, and their derivatives. Multistep syntheses are also introduced. Department enforced corequisite: CHEM 3331 or CHEM 3471 or CHEM 3491.

**Requisites:** Requires prerequisite courses of CHEM 3311 or CHEM 3451 and CHEM 3321 or CHEM 3361 (all minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

Arts Sci Gen Ed: Distribution-Natural Sci Lab

**CHEM 3361 (2) Laboratory in Organic Chemistry 1 for Chemistry Majors**

Lab. Required course for chemistry majors. Instruction in experimental techniques of modern organic chemistry emphasizing chemical separations and reactions of alkanes, alkenes, alcohols, ketones, and alkyl halides. Explores stereochemical modeling and the chemical identification of organic unknowns. Department enforced corequisite: CHEM 3351 or CHEM 3311 or CHEM 3451.

**Equivalent - Duplicate Degree Credit Not Granted:** CHEM 3321

**Requisites:** Requires prerequisite course of CHEM 1133 and CHEM 1134 or CHEM 2100 or CHEM 1400 and CHEM 1401 or CHEN 1211 and CHEM 1221 (all minimum grade C-). Restricted to Chemistry (CHEM) or Biochemistry (BCHM) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

Arts Sci Gen Ed: Distribution-Natural Sci Lab

**CHEM 3381 (2) Laboratory in Organic Chemistry 2 for Chemistry Majors**

Lab. Required course for chemistry majors. Instruction in experimental techniques of modern chemistry, emphasizing reactions involving alcohols, ketones, carboxylic acids, aromatic compounds, and their derivatives. Multistep syntheses are also introduced. Department enforced corequisite: CHEM 3331 or CHEM 3471 or CHEM 3491.

**Requisites:** Requires prerequisite courses of CHEM 3311 or CHEM 3451 and CHEM 3321 or CHEM 3361 (all minimum grade C-). Restricted to Chemistry (CHEM) or Biochemistry (BCHM) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

Arts Sci Gen Ed: Distribution-Natural Sci Lab

**CHEM 3451 (4) Organic Chemistry for Chemistry and Biochemistry Majors**

Covers bonding, acidity, reaction mechanisms, nomenclature of organic compounds; stereochemistry; structure and reactions of aldehydes, ketones, and carboxylic acids and derivatives. Department enforced corequisite: CHEM 3361 or CHEM 3321.

**Requisites:** Requires prerequisite courses of CHEM 1400 and CHEM 1401 (minimum grade C-) or CHEM 1133 and CHEM 1134 (minimum grade B+). Restricted to Chemistry (CHEM) or Biochemistry (BCHM) majors only.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**CHEM 3471 (4) Organic Chemistry 2 for Chemistry Majors**

Covers Amines, alkylation reactions, additions to unsaturated C-C bonds, aromaticity, and aromatic reactivity, organic materials, biomolecules, nomenclature of organic compounds, reaction mechanisms. Department enforced corequisite: CHEM 3381 or CHEM 3341. Formerly CHEM 3371.

**Equivalent - Duplicate Degree Credit Not Granted:** CHEM 3331 and BCHM 3491

**Requisites:** Requires prerequisite courses of CHEM 3451 and CHEM 3361 or CHEM 3321 (all minimum grade C-). Restricted to Chemistry (CHEM) or Biochemistry (BCHM) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**CHEM 4011 (3) Modern Inorganic Chemistry**

Lect. Required course for chemistry majors. Introduces modern inorganic chemistry for undergraduates. Includes atomic structure, chemical periodicity, structure and bonding in molecules and crystals, reaction mechanisms, chemistry of selected main group and transition elements, and emphasis on catalyst, materials, bioinorganic, and organometallic systems.

**Requisites:** Requires a prerequisite course of CHEM 3331 or CHEM 3471 (formerly CHEM 3371) or CHEM 3491 (minimum grade C-). Restricted to Chemistry (CHEM) or Biochemistry (BCHM) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**CHEM 4021 (3) Inorganic Laboratory**

One lect. and two 3-hour labs per week. Instruction in experimental techniques of modern inorganic chemistry. Includes syntheses and spectroscopic characterizations of transition metal and main group compounds, experience in manipulation of air sensitive compounds, and techniques involving unusual conditions of pressure or temperature.

**Requisites:** Requires prerequisite course of CHEM 4011 (minimum grade C-). Restricted to Chemistry (CHEM) or Biochemistry (BCHM) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences  
Arts Sci Gen Ed: Distribution-Natural Sci Lab

**CHEM 4141 (3) Environmental Water and Soil Chemistry**

Application of basic chemical principles to understanding the processes that determine the chemical composition of oceans, lakes, rivers, soils and sediments. Topics include air-water exchange; acid-base, redox, coordination, precipitation and dissolution, ion exchange and sorption reactions; nutrient chemistry; and the use of simple equilibrium and kinetic models for describing the chemistry of inorganic and organic species in air-water-soil systems.

**Equivalent - Duplicate Degree Credit Not Granted:** CHEM 5141

**Requisites:** Requires prerequisite course of CHEM 2100 and CHEM 2101 or CHEM 1133 and CHEM 1134 (minimum grade C-). Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**CHEM 4171 (3) Instrumental Analysis - Lecture and Laboratory 1**

Two Lect. and 3 hours of lab per week. Instruction and experience in using instrumental methods of chemical analysis to address problems in chemistry, biochemistry, industrial chemistry and environmental chemistry.

**Requisites:** Requires prerequisite course of CHEM 3331 or CHEM 3471 or CHEM 3491 and CHEM 3341 or CHEM 3381 and PHYS 1140 or CHEM 4400 or CHEM 4511 (minimum grade C-). Restricted to Chemistry (CHEM) or Biochemistry (BCHM) majors only.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sci Lab

Arts Sci Gen Ed: Distribution-Natural Sciences

**CHEM 4181 (3) Instrumental Analysis - Lecture and Laboratory 2**

Two lect. and 3 hours of lab per week. Instruction and experience in using instrumental methods of chemical analysis. Builds on material learned in CHEM 4171.

**Requisites:** Requires prerequisite course of CHEM 4171 (minimum grade C-). Restricted to Chemistry (CHEM) or Biochemistry (BCHM) majors only.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences  
Arts Sci Gen Ed: Distribution-Natural Sci Lab

**CHEM 4251 (3) Materials Chemistry and Properties**

Lec. Understanding of materials from chemistry perspective including metals, oxides, semiconductors and polymers. Basic description of chemical preparation of materials. Overview of fundamental properties of materials including structural, chemical, mechanical, thermal, electrical, and optical properties. Description of behavior of materials and various applications in modern technology. Discussion of materials characterization methods.

**Equivalent - Duplicate Degree Credit Not Granted:** CHEM 5251

**Requisites:** Requires prerequisite course of CHEM 3331 or CHEM 3471 or CHEM 3491 and CHEM 4521 or CHEM 4531 (all minimum grade C-).

**CHEM 4261 (3) Organic Materials: Structures and Functions**

Overview of the preparation and functioning mechanism of novel organic materials that have recently been developed, including conductive polymers, 2-D macrocyclic structures, 3-D molecular cages, molecular machines/muscles/switches, fullerene derivatives and carbon nanotube composites. Emphasizes the use of organic and physical chemistry as tools to develop novel materials and probe their structure-property relationship.

**Equivalent - Duplicate Degree Credit Not Granted:** CHEM 5261

**Requisites:** Requires prerequisite courses of CHEM 3331 or CHEM 3471 or CHEM 3491 and CHEM 4531 (all minimum grade C-).

**CHEM 4271 (3) Chemistry of Solar Energy**

Chemical principles of conversion of solar energy into electricity and fuels in molecular and semiconductor-based systems. Overview of solid-state electronic structure of materials and interfaces, light-matter interactions, principles of harvesting photoexcited currents and useful chemical species. Description of processes utilized in established and emerging solar energy technologies.

**Equivalent - Duplicate Degree Credit Not Granted:** CHEM 5271

**Requisites:** Requires prerequisite courses of CHEM 3331 or CHEM 3471 or CHEM 3491 and CHEM 4531 (all minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**CHEM 4511 (3) Physical Chemistry 1**

Lect. Chemical thermodynamics and kinetics. Includes study of laws of thermodynamics, thermochemistry, entropy, free energy, chemical potential, chemical equilibria, and the rates and mechanisms of chemical reactions. Department enforced prereq or coreq., PHYS 1120 (minimum grade C-).

**Equivalent - Duplicate Degree Credit Not Granted:** BCHM 4400 and BCHM 5400

**Requisites:** Requires prerequisite of courses CHEM 3311 or CHEM 3451 and MATH 2400 or APPM 2350 and PHYS 1110 or PHYS 2020 (all minimum grade C-). Restricted to Chemistry (CHEM) or Biochemistry (BCHM) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**CHEM 4531 (3) Physical Chemistry 2**

Lect. Introduces the quantum theory of atoms, molecules and chemical bonding, and statistical thermodynamics. Includes principles of quantum mechanics and their application to atomic structure, molecular spectroscopy, symmetry properties, and the determination of molecular structure. Also includes principles of statistical mechanics and their applications to properties of gases, liquids, and solids.

**Requisites:** Requires prerequisite courses of CHEM 4511 and PHYS 1120 or PHYS 2020, and MATH 2400 or APPM 2350 (all minimum grade C-).

Restricted to Chemistry (CHEM) or Biochemistry (BCHM) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**CHEM 4555 (4) Theoretical and Computational Chemistry**

Explores computational methods to understand chemical systems.

Topics include: atomic and molecular electronic structure calculations, Monte Carlo and molecular dynamics simulations and thermodynamic calculations. Not recommended for students with a grade below B- in the prerequisite course.

**Equivalent - Duplicate Degree Credit Not Granted:** CHEM 5555

**Requisites:** Requires prerequisite course of CHEM 4531 (minimum grade C-).

**Grading Basis:** Letter Grade

**CHEM 4581 (1) Physical Chemistry Lab 1**

One 3-hour lab per week. Instruction in experimental techniques of modern physical chemistry. Experiments illustrate the fundamental principles of thermodynamics and chemical kinetics. Illustrates the material discussed in CHEM 4511.

**Requisites:** Requires prerequisite or corequisite course of CHEM 4511 (minimum grade C-). Restricted to Chemistry (CHEM) or Biochemistry (BCHM) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

Arts Sci Gen Ed: Distribution-Natural Sci Lab

**CHEM 4591 (2) Physical Chemistry Lab 2**

One lect. and one 3-hour laboratory every two weeks. a continuation of CHEM 4581, but may be taken concurrently with CHEM 4531. Experiments illustrate the principles of quantum chemistry and spectroscopy discussed in CHEM 4531.

**Requisites:** Requires prerequisite courses of CHEM 4511 and CHEM 4581 (all minimum grade C-). Requires prerequisite or corequisite course of CHEM 4531 (minimum grade C-). Restricted to Chemistry (CHEM) or Biochemistry (BCHM) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

Arts Sci Gen Ed: Distribution-Natural Sci Lab

**CHEM 4791 (3) Bioorganic Chemistry in Biotechnology**

Lec. Explores examples of antibodies, peptides, proteins, RNA, DNA, carbohydrates and lipids. Uses the primary literature and requires student participation.

**Equivalent - Duplicate Degree Credit Not Granted:** CHEM 5791

**Requisites:** Requires prerequisite courses of CHEM 3331 or CHEM 3471 (formerly CHEM 3371) or CHEM 3491 and CHEM 4700 (minimum grade C-).

**Recommended:** Prerequisite undergraduate molecular biology.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**CHEM 4901 (1-6) Independent Study in Chemistry**

For undergraduate study. Department consent required. Repeatable up to 8 total credit hours.

**Repeatable:** Repeatable for up to 8.00 total credit hours.

## Chemistry - Bachelor of Arts (BA)

Chemistry major students are prepared for many different careers after graduation. About 50 percent of chemistry majors enter directly into industry or government positions that require scientific expertise, such as chemical, oil, electronics, mining and manufacturing industries, water districts, crime laboratories, biotechnology, health and safety, atmospheric science and environmental quality.

Approximately 25 percent of chemistry graduates are attracted by specialized graduate education in chemistry and biochemistry. Graduate work is often in one of the traditional areas of biochemistry or analytical, inorganic, organic or physical chemistry and, increasingly, in interdisciplinary areas such as atmospheric, bio-organic or organo-metallic chemistry, molecular biology, biotechnology and chemical physics for their advanced work. Another 25 percent of a typical graduating class goes on to professional school, pursuing advanced degrees in medicine, dentistry, pharmacy, law, business, engineering and computer science.

Career Services (<http://www.colorado.edu/careerservices>) offers a number of programs and services designed to help students plan their career, including workshops, internships, and placement services after graduation. For an appointment with a career counselor or for more information call 303 492 6541, or stop by Center for Community, S440 and N450. .

## Announcements

See the undergraduate blog (<http://www.colorado.edu/chembio/undergraduate-blog>) and second-floor Ekeley bulletin board for announcements and postings. Some examples of the information posted are:

- Main page: contact information and general announcements.
- Student opportunities: internship/job announcements, summer programs, events/programs offered by other campus offices and departments that may be of interest.
- Scholarship announcements: announcements of scholarships opportunities and information meetings.
- Seminars and conferences: seminar and conference announcements.
- Academic support: SASC workshop schedule, tutors, and other academic support opportunities.
- Career services: schedule of events offered by this office.
- Education abroad: announcements from education abroad about their programs and information meetings.
- Courses: information about new and/or interesting courses for core and elective credit.

## Chemistry Honors Program

Opportunity is provided for qualified chemistry and biochemistry majors to participate in the departmental honors program and graduate with honors (*cum laude*, *magna cum laude*, or *summa cum laude*) in chemistry. Students interested in the honors program should contact the departmental honors advisor during their junior year.

## American Chemical Society Certification

The American Chemical Society maintains a certification program in which a student graduating with a specified minimum program is certified to the society upon graduation. To be certified, a graduate must satisfy requirements in addition to the minimum for graduation. The department

offers this certificate for the chemistry or chemistry/biochemistry double majors only. A list of these requirements may be obtained from the undergraduate chemistry and biochemistry advising office.

## Research Opportunities

### Undergraduate Research Opportunities Program

The Undergraduate Research Opportunities Program (UROP) offers students a chance to work alongside a faculty sponsor on original research. Learn to write proposals, conduct research, pursue creative work, analyze data, and present the results. For more information please visit the Undergraduate Research Opportunities Program (<http://www.colorado.edu/suep/about-urop>) website. Visit Other Funding Opportunities (<http://www.colorado.edu/suep/urop/other-funding>) for a list of other funding opportunities for undergraduate students.

### Independent Study

Independent study (CHEM 4901), provides an opportunity for a student to work on a research project with an individual faculty member outside of the regular class structure. This generally provides an experience much more like real-life chemistry or biochemistry, where new results are being sought and the outcome of the research is not known in advance. The student may have a totally independent project or may become part of a research team working at the forefront of science. In favorable cases the project may result in publication of the results of the independent study in the scientific literature. As part of the research team in a particular group the student will usually participate in group seminars and informal discussions with other members of the group.

### Education Abroad

The experience of studying abroad can prove invaluable. For information about study abroad programs, visit the Education Abroad (<http://studyabroad.colorado.edu>) website.

### Teaching Certification

Chemistry majors can also earn certification as teachers through the School of Education. The program for a secondary school science-teaching certificate is challenging requiring a broad, strong background in science, as well as coursework in education and practice teaching. It usually requires at least five years of study. Students interested in teacher certification are encouraged to contact the School of Education (<http://www.colorado.edu/education>).

## Requirements

### Program Requirements

The chemistry major requires 30 credits of upper-division chemistry coursework, including courses in general, organic, physical and analytical/instrumental chemistry, as well as an introductory general chemistry sequence and ancillary work in calculus and physics.

Students must complete the general requirements of the College of Arts and Sciences and the required courses listed below. No more than 45 credits of CHEM courses can be applied to the 120-credit minimum to graduate.

Transfer students who plan to take a chemistry major must complete at the Boulder campus a minimum of 12 credits of upper-division work covering at least two subdisciplines: organic, physical, analytical and inorganic for chemistry majors.

Students may want to consult each semester's Registration Handbook and Schedule of Courses (<http://www.colorado.edu/registrar>) as well as the Professor Performance Guide (<http://www.colorado.edu/pba/fcq>) for further information about course offerings and faculty.

### Required Courses and Credits

Code	Title	Credit Hours
<b>General Chemistry</b>		
Select one of the following general chemistry sequence options:		10
<i>Option 1</i>		
CHEM 1400 & CHEM 1401	Foundations of Chemistry and Foundations of Chemistry Lab	
CHEM 2100 & CHEM 2101	Chemical Energetics and Dynamics and Laboratory for Chemical Energetics and Dynamics	
<i>Option 2</i>		
CHEM 1113 & CHEM 1114	General Chemistry 1 and Laboratory in General Chemistry 1	
CHEM 1133 & CHEM 1134	General Chemistry 2 and Laboratory in General Chemistry 2	
<b>Organic Chemistry</b>		
<i>Organic Chemistry 1 Lecture</i>		
Choose one of the following lectures:		4
CHEM 3451	Organic Chemistry for Chemistry and Biochemistry Majors or CHEM 331 Organic Chemistry 1	
<i>Organic Chemistry 2 Lecture</i>		
Choose one of the following lectures:		4
CHEM 3471	Organic Chemistry 2 for Chemistry Majors or BCHM 3490 Organic Chemistry 2 for Biochemistry Majors or CHEM 3330 Organic Chemistry 2	
<i>Organic Chemistry Labs</i> <sup>1</sup>		
CHEM 3361 & CHEM 3381	Laboratory in Organic Chemistry 1 for Chemistry Majors and Laboratory in Organic Chemistry 2 for Chemistry Majors	4
<b>Required Advanced CHEM Coursework</b>		
CHEM 4011	Modern Inorganic Chemistry	3
CHEM 4171	Instrumental Analysis - Lecture and Laboratory 1	3
CHEM 4181	Instrumental Analysis - Lecture and Laboratory 2	3
CHEM 4511 & CHEM 4581	Physical Chemistry 1 and Physical Chemistry Lab 1	4
CHEM 4531 & CHEM 4591	Physical Chemistry 2 and Physical Chemistry Lab 2	5
Total Credit Hours		40

<sup>1</sup> The organic chemistry labs requirement can alternatively be fulfilled with the following: CHEM 3321 and CHEM 3341, along with one of the three following courses, CHEM 3381, CHEM 4021, or CHEM 4901.

**Required Ancillary Coursework from Outside Chemistry**

Code	Title	Credit Hours
<b>Required Physics Courses</b>		
PHYS 1110 & PHYS 1120	General Physics 1 and General Physics 2	8
PHYS 1140	Experimental Physics 1	1
<b>Calculus</b>		12-15
Complete three semesters of calculus (through Calculus 3):		
MATH 1300 or APPM 135	Calculus 1 Calculus 1 for Engineers	
MATH 2300 or APPM 1360	Calculus 2 Calculus 2 for Engineers	
MATH 2400 or APPM 235	Calculus 3 Calculus 3 for Engineers	
Total Credit Hours		21-24

**Recommended Chemistry Electives**

All students, and especially those intending to go on to graduate school in chemistry, will benefit from additional advanced courses. Recommended electives include the following:

Code	Title	Credit Hours
CHEM 3151	Air Chemistry and Pollution	
CHEM 3251	Sustainable Energy from a Chemistry Perspective	
CHEM 4021	Inorganic Laboratory	
CHEM 4141	Environmental Water and Soil Chemistry	
CHEM 4251	Materials Chemistry and Properties	
CHEM 4261	Organic Materials: Structures and Functions	
CHEM 4271	Chemistry of Solar Energy	
BCHM 4611	Principles of Biochemistry	
BCHM 4720	Metabolic Pathways and Human Disease	
BCHM 4740	Biochemistry of Gene Transmission, Expression and Regulation	
CHEM 4901	Independent Study in Chemistry	
Graduate courses in various fields of chemistry		
Advanced courses in mathematics or physics		

**Graduating in Four Years**

Consult the Four-Year Guarantee Requirements for information on eligibility. The concept of "adequate progress" as it is used here only refers to maintaining eligibility for the four-year guarantee; it is not a requirement for the major. To maintain progress in chemistry students should declare the chemistry major in the first semester.

Students must consult with a major advisor to determine adequate progress toward completion of the major.

**Recommended Four-Year Plan of Study**

Through the required coursework for the major, students will fulfill all 12 credits of the Natural Sciences area of the Gen Ed Distribution Requirement, including the lab component and the QRMS component of the Gen Ed Skills Requirement.

Course	Title	Credit Hours
<b>Year One</b>		
<b>Fall Semester</b>		
CHEM 1400	Foundations of Chemistry	4
CHEM 1401	Foundations of Chemistry Lab	1
MATH 1300 or APPM 1350	Calculus 1 or Calculus 1 for Engineers	4-5
Gen. Ed. Distribution course (example: Arts & Humanities)		3
Gen. Ed. Skills course (example: Lower-division Written Communication)		3
Credit Hours		15-16
<b>Spring Semester</b>		
CHEM 3451	Organic Chemistry for Chemistry and Biochemistry Majors	4
CHEM 3361	Laboratory in Organic Chemistry 1 for Chemistry Majors	2
MATH 2300 or APPM 1360	Calculus 2 or Calculus 2 for Engineers	4-5
Gen. Ed. Distribution/Diversity course (example: Social Sciences/US Perspective)		3
Credit Hours		13-14
<b>Year Two</b>		
<b>Fall Semester</b>		
CHEM 3471	Organic Chemistry 2 for Chemistry Majors	4
CHEM 3381	Laboratory in Organic Chemistry 2 for Chemistry Majors	2
PHYS 1110	General Physics 1 ((Calculus-based))	4
MATH 2400 or APPM 2350	Calculus 3 or Calculus 3 for Engineers	4-5
Gen. Ed. Distribution course (example: Arts & Humanities)		3
Credit Hours		17-18
<b>Spring Semester</b>		
CHEM 2100	Chemical Energetics and Dynamics	4
CHEM 2101	Laboratory for Chemical Energetics and Dynamics	1
PHYS 1120	General Physics 2	4
PHYS 1140	Experimental Physics 1	1
Gen. Ed. Distribution course (example: Arts & Humanities)		3
Elective/MAPS		3
Credit Hours		16
<b>Year Three</b>		
<b>Fall Semester</b>		
CHEM 4511	Physical Chemistry 1	3
CHEM 4581	Physical Chemistry Lab 1	1
Gen. Ed. Distribution/Diversity course (example: Social Sciences/Global Perspective)		3
Elective/MAPS		3
Elective/MAPS		3
Elective		3-0
Credit Hours		16-13
<b>Spring Semester</b>		
CHEM 4531	Physical Chemistry 2	3
CHEM 4591	Physical Chemistry Lab 2	2

Gen. Ed. Distribution course (example: Arts & Humanities)	3
Gen. Ed. Skills course (example: Upper-division Written Communication)	3
Elective	3
<b>Credit Hours</b>	<b>14</b>
<b>Year Four</b>	
<b>Fall Semester</b>	
CHEM 4011 Modern Inorganic Chemistry	3
CHEM 4171 Instrumental Analysis - Lecture and Laboratory 1	3
Gen. Ed. Distribution course (example: Social Sciences)	3
Upper-division Elective	3
Elective	3
<b>Credit Hours</b>	<b>15</b>
<b>Spring Semester</b>	
CHEM 4181 Instrumental Analysis - Lecture and Laboratory 2	3
Gen. Ed. Distribution course (example: Social Sciences)	3
Upper-division Elective	3
Upper-division Elective	3
Upper-division Elective	3
<b>Credit Hours</b>	<b>15</b>
<b>Total Credit Hours</b>	<b>121</b>

## Chemistry - Minor

The department offers a minor in chemistry. Declaration of a chemistry minor is open to any student enrolled at CU Boulder, regardless of college or school.

### Requirements

The College of Arts and Sciences will allow a maximum of 9 hours of transfer credit, including 6 upper-division credit hours, to count toward a minor. Students may only transfer courses through organic chemistry. All courses required for the minor must be completed with a grade of C- or better, and the overall GPA in all CHEM courses taken must be a 2.00.

Students who have taken CHEN 1211 and CHEM 1221 may substitute them for General Chemistry 1. Engineering students who have taken CHEN 4521 may **not** use this to satisfy the physical chemistry requirement.

Code	Title	Credit Hours
<b>General Chemistry</b>		
Select one of the following two options:		5-10
<i>Option 1:</i>		
CHEM 1113 & CHEM 1114	General Chemistry 1 and Laboratory in General Chemistry 1	
CHEM 1133 & CHEM 1134	General Chemistry 2 and Laboratory in General Chemistry 2	
<i>Option 2:</i>		
CHEM 1400 & CHEM 1401	Foundations of Chemistry and Foundations of Chemistry Lab	
<b>Organic Chemistry</b>		10-12
<i>Organic Chemistry 1</i>		

<b>Lecture</b>		
CHEM 3311	Organic Chemistry 1	
or CHEM 3450	Organic Chemistry for Chemistry and Biochemistry Majors	
<b>Lab</b>		
CHEM 3321	Laboratory in Organic Chemistry 1	
or CHEM 3361	Laboratory in Organic Chemistry 1 for Chemistry Majors	
<i>Organic Chemistry 2</i>		
<b>Lecture</b>		
CHEM 3331	Organic Chemistry 2	
or CHEM 3470	Organic Chemistry 2 for Chemistry Majors	
or BCHM 3470	Organic Chemistry 2 for Biochemistry Majors	
<b>Lab</b>		
CHEM 3341	Laboratory in Organic Chemistry 2	
or CHEM 3361	Laboratory in Organic Chemistry 2 for Chemistry Majors	
<b>Physical Chemistry</b>		3
CHEM 4511	Physical Chemistry 1	
<b>Elective</b>		
Select one of the following:		3
CHEM 4011	Modern Inorganic Chemistry	
CHEM 4171	Instrumental Analysis - Lecture and Laboratory 1	
CHEM 4531	Physical Chemistry 2	
<b>Total Credit Hours</b>		<b>21-28</b>

## Cinema Studies & Moving Image Arts

The Department of Cinema Studies & Moving Image Arts educates students in the history and development of film as an art form, from its inception to its contemporary forms. The curriculum instills an informed analytic awareness of the ways in which cinema has evolved, its artistic and stylistic evolution, and the contexts of international cinemas. For students in the creative BA and BFA tracks, the curriculum also provides the resources for significant cutting edge and original creative exploration of the medium in all its forms.

The undergraduate degrees in cinema studies emphasize knowledge and awareness of:

- The major artistic contributions to the evolution of cinema, from the advent of the moving image to the present.
- The general outlines of world cinema from the silent period to the present, with emphasis on the historical contributions of major national cinemas.
- Film criticism, aesthetics and film theory.

Students completing either the BA or the BFA degree in cinema studies are expected to acquire the ability and skills to:

- Analyze and interpret films critically.
- Communicate critical interpretations competently in essay form.
- Make a short creative film or video work (BA Production and BFA only).

*Note:* Admission to any class after the third meeting of the class is contingent on professor permission. The department may drop a student from a class if the student misses the first two classes of the semester.

**Course code for this program is CINE.**

## Bachelor's Degrees

- Cinema Studies - Bachelor of Arts (BA) (p. 194)
- Cinema Studies & Moving Image Arts - Bachelor of Fine Arts (BFA) (p. 192)

## Minor

- Cinema Studies - Minor (p. 199)

## Faculty

While many faculty teach both undergraduate and graduate students, some instruct students at the undergraduate level only. For more information, contact the faculty member's home department.

Acevedo-Munoz, Ernesto R. ([https://experts.colorado.edu/display/fisid\\_113061](https://experts.colorado.edu/display/fisid_113061))

Professor; PhD, University of Iowa

## Courses

### CINE 1002 (3) Film Analysis for Non-Majors

Introduces the critical study of film, exploring theoretical, historical and technical concerns while presenting a survey of important film periods and genres. Students will hone critical-thinking, close-analysis, and writing skills. Covers a wide variety of films, approaching them from numerous perspectives, considering both the effects films have on individual viewers and their ability to reflect culture. Formerly FILM 1002.

**Additional Information:** Departmental Category: Genre and Movements

### CINE 1502 (3) Introduction to Cinema Studies

Introduces basic media literacy by exploring the technical and aesthetic principles behind the production, analysis and interpretation of films. Explores comprehension and thinking about movies critically as technological, cultural and artistic products. Study of films in different social and historical contexts and discussion of the importance of movies as cultural products. Formerly FILM 1502.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Genre and Movements

### CINE 2000 (3) Moving Image Foundations I

Introduces students to basic image making technology, aesthetics and methods. Fundamentals of film/video production in Super 8mm film, Digital ProRes 422 and other analog and digital image making, editing and management formats. May emphasize personal, experimental or narrative approaches with individual exercises, according to instructor. Basic competencies include composition, lighting, basic audio, basic editing, studio critique, file management, web upload, etc. Formerly FILM 2000.

**Requisites:** Requires prerequisite course of FILM 1502 (minimum grade D-).

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Production

### CINE 2001 (3) Space Odysseys: Astrophys/Astronomy via Cinema/Arts

Understanding representation of space in cinematic arts, as well as the underlying science. What are the political, societal, scientific and commercial motives in attempting to show our species venturing beyond Earth? These adventures highlight our hopes and fears for the future, while simultaneously clarifying contemporary anxieties. From the director G. Melies to the screenwriter B. Marling. Formerly FILM 1003.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

### CINE 2002 (3) Recent International Cinema

Familiarizes students with current trends and major directors in international cinema. Students attend specific films screened in class and/or offered in the International Film Series, and read and write about these films. Formerly FILM 2002.

**Recommended:** Prerequisite FILM 1502 or 6 hours humanities courses involving critical writing.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Genre and Movements

**CINE 2003 (3) Film Topics**

Varying topics on important individuals, historical developments, groupings of films, film directors, critical and theoretical issues in film. Formerly FILM 2003.

**Repeatable:** Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Topics

**CINE 2004 (3) CU Cinema Studies Seminar: The Telluride Film Festival**

Offers students a unique first-hand understanding of the significance of the film festival circuit in the context of global film culture and scholarship. Students will attend Telluride Film Festival screenings, discussions and Q&A sessions. After the festival, weekly screenings of select films from the previous year's festival offer insight into the festival's influence on box-office and the industry's award season. Formerly FILM 2004.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Intensive and Small Courses

**CINE 2005 (3) Form, Structure, and Narrative Analysis**

Analyzes the form and structure of narrative, experimental non-narrative, and documentary films. Familiarizes students with the general characteristics of the classic three-act structure, principles of adaptation, form and content of experimental films, structural approaches, and the basic formal, narrative, and rhetorical strategies of documentary filmmaking. Formerly FILM 2005.

**Requisites:** Requires prerequisite or corequisite course of CINE 1502 (minimum grade D-). Restricted to Cinema Studies majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Workshops

**CINE 2010 (3) Moving Image Computer Foundations**

Provides students with artistic foundational hands-on experience in integrated use of media software in both the PC and Mac creative imaging making digital working environments. Includes fundamentals in general computer maintenance, creative and practical audio editing, image management and manipulation, and creative moving image practice. Formerly FILM 2010.

**Requisites:** Restricted to Cinema Studies majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Production

**CINE 2105 (3) Introduction to the Screenplay**

Explores, through close reading and original student work, the form and structure of the screenplay. Students will learn to analyze structural and character elements of classic screenplays, and breaking down such elements as character, motivation, and arch. Students may learn some very basics of screenwriting form, develop a treatment, explore formal and technical issues, etc. Prereq., CINE 1502 or instructor's permission. Formerly FILM 2105.

**Requisites:** Requires prerequisite or corequisite course of CINE 1502 (minimum grade D-). Restricted to Cinema Studies majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Workshops

**CINE 2203 (3) American Indians in Film**

Examines images of American Indians in films produced by, and about, Native peoples. Follows the creation of "the Hollywood Indian" from still-photography to contemporary motion pictures. Films are analyzed within historical, social, and artistic contexts, and examined in terms of the impact their images have exerted upon American society at large and Native communities in particular.

**Equivalent - Duplicate Degree Credit Not Granted:** ETHN 2203

**CINE 2300 (3) Beginning/Intermediate Filmmaking**

Covers basic camera, editing, and splicing techniques for Super-8 film. Equipment is available at the film studies office for a modest rental fee. Formerly FILM 2300.

**Requisites:** Requires prerequisite course of CINE 1502 (minimum grade D-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Production

**CINE 2312 (3) Film Trilogies**

Study of films designed as trilogies, drawing on a wide range of international cinema. Films include Satyajit Ray's Apu Trilogy (India), Krzysztof Kieslowski's Three Colors Trilogy (Poland), Francois Truffaut's Antoine Doinel cycle (France), and Abbas Kiarostami's Iran Trilogy (Iran). Non-majors will need instructor's consent. Formerly FILM 2312.

**Requisites:** Restricted to Cinema Studies majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Genre and Movements

**CINE 2500 (3) Moving Image Foundations II**

Instructs students in developing a technical and aesthetic understanding of the principles of analog and digital cinematography. Technical, creative and studio critique emphasis on the Bolex 16mm RX and Black Magic Pocket Cinema cameras, advanced composition, grammar and mechanics of cinema editing, film/digital lighting (exposure, latitude) multi-format origination and file management, non-sync sound techniques, etc. Formerly FILM 2500.

**Requisites:** Requires prerequisite courses of CINE 1502 and CINE 2000 or CINE 2300 (all minimum grade C). Restricted to Cinema Studies majors only.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Production

**CINE 2513 (3) Major Asian Filmmakers**

Surveys the major Asian directors from China, India, Japan, Taiwan, and Vietnam. Non-majors will need instructor's consent. Formerly FILM 2513.

**Requisites:** Restricted to Cinema Studies majors only.

**Recommended:** Prerequisite CINE 1502.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Topics Departmental Category: Asia Content

**CINE 2521 (3) Classics of the Foreign Cinema: 1960s to Present**

Surveys the classics of international cinema from the 1960s to the present. Non-majors will need instructor's consent. Formerly FILM 2521.

**Requisites:** Restricted to Cinema Studies majors only.

**Recommended:** Prerequisite FILM 1502.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: History

**CINE 2610 (3) Animation Production**

Includes analysis of independent and experimental animation and an introduction to various animation techniques (object, line, collage, sand or paint on glass, Xerox, cameraless, pixellation, etc.). Students produce exercise films and a final film exploring these techniques. Formerly FILM 2610.

**Requisites:** Requires prerequisite course of CINE 2000 or CINE 2300 (minimum grade D-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Production

**CINE 2900 (3) Lighting**

Covers the basics of "why you need lighting", color temp, as well as camera techniques, lighting theory, and lighting set-ups for still and motion picture film video. Emphasizes hands on as well as theory. Formerly FILM 2900.

**Requisites:** Requires prerequisite course of CINE 2000 or CINE 2300 (minimum grade D-). Restricted to Cinema Studies majors only.

**Recommended:** Prerequisite CINE 1502.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Production

**CINE 3002 (3) Major Film Movements**

Historical-aesthetic survey dealing with various styles, movements, genres or national cinemas. Can be taught in conjunction with the appropriate language department. Typical offers are in the French, the German or the Russian films, etc. Also offers detailed approaches to specific styles, subjects or genres: film comedy, melodrama, the Western, women filmmakers, German expressionist cinema, Italian neorealism, etc. Formerly FILM 3002.

**Repeatable:** Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Genre and Movements

**CINE 3003 (3) Major Film Directors**

Focuses on the work of a single director or a group of related directors. Course content varies each semester. Consult the online Schedule Planner for specific topic. Non-majors need instructor consent. Formerly FILM 3003.

**Repeatable:** Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Restricted to Cinema Studies majors only.

**Recommended:** Prerequisite students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Topics

**CINE 3004 (3) Alfred Hitchcock: The American Films**

Intensive survey of Hitchcock's American films from 1940 (Rebecca) to 1964 (Marnie). We will concentrate on in-depth analysis of the most influential and significant films made by the most important movie director of the Hollywood era. We will pay special attention to Hitchcock's deep understanding of the intricacies of film language, style and form in relation to the themes and subjects that interested him: guilt, sex, gender relations, crime and punishment, "mothers". Non-majors will need instructor's consent. Formerly FILM 3004.

**Requisites:** Restricted to Cinema Studies majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Intensive and Small Courses

**CINE 3010 (1-3) Film Production Topics**

Offers students both theoretical and practical experience in various specialized areas of cinematic production. Topics vary but include production in the documentary, fictional narrative, animation, computer animation, and experimental genres. Formerly FILM 3010.

**Repeatable:** Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Requires prerequisite course of CINE 2000 or CINE 2300 (minimum grade D-). Restricted to Cinema Studies majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Production

**CINE 3012 (3) Documentary Film**

Provides a historical and theoretical introduction to the documentary film. Examines the historical beginnings of documentary film as well as exploring contemporary documentary practice. Canonical moments of documentary history and lesser known examples of documentary film work will be explored. Formerly FILM 3012.

**Requisites:** Requires prerequisite course of CINE 1502 (minimum grade D-).

**Recommended:** Prerequisite CINE 3051.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Genre and Movements

**CINE 3013 (3) Women and Film**

Examines the representation of women in film, the role of women in the filmmaking process, and the contributions made by women as critics and scholars of the cinema. Its orientation is therefore both historical and theoretical. Organized chronologically, the course examines how women have been addressed and "constructed" as spectators in and through cinema over the last 120 years, the relationship between cinema and social history, how films express ideology, and how feminist film scholarship has changed from the 1970's to the present day. The course focuses on American and international narrative, documentary, and experimental films from 1895 to present directed by or about women. Formerly FILM 3013.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Core Curr: Human Diversity  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-U.S. Perspective  
Departmental Category: Topics

**CINE 3030 (3) Analog Alternatives**

Introduction to small gauge analog moving image formats and technologies with a focus on process and experimentation through hands-on exploration and demonstrations. This process-oriented class will utilize DIY methods and Alternative Process Photography approaches to work creatively with silver based holographic mediums. Students will create moving image works with Super 8mm and 16mm film while exploring the implications and possibilities of working with these mediums within our current digital paradigm. Formerly FILM 3030.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires prerequisite courses of CINE 1502 and CINE 2000 (all minimum grade D-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Production

**CINE 3033 (3) Color and Cinema**

Examines color and cinema from historical, technological, aesthetic and theoretical perspectives. Students will be required to complete both creative and scholarly assignments. Formerly FILM 3033.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Topics

**CINE 3041 (3) Environmental Cinema**

Interrogates how fiction and nonfiction filmmakers, writers, cinematographers, and moving-image editors have creatively responded to discoveries made in the field of environmental science. Using books by Rachel Carson and Scott MacDonald as a framework, we will examine a broad spectrum of filmmakers (e.g. Wes Anderson, Todd Haynes, Jennifer Baichwal, Bruce Conner, Percy Smith) alongside the most pressing environmental issues. Formerly FILM 3041.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) Cinema Studies or Environmental Studies (ENVS) majors only.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: History

**CINE 3042 (3) Horror Film: History, Contexts, Aesthetics**

Surveys the most exemplary and significant films in the Horror film genre from the 1920s to the present. With a historical emphasis, the course explores the ways in which the Horror genre has evolved in response to shifting social anxieties and cultural developments, and its reflections on society in various national or international contexts. Expect disturbing content and images. Formerly FILM 3042.

**Requisites:** Requires prerequisite course of CINE 1502 (minimum grade D-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Genre and Movements

**CINE 3043 (3) Topics in Critical Film Studies**

Prepares students for advanced Film Critical Studies work. Subject matter varies from semester to semester. Formerly FILM 3043.

**Repeatable:** Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Topics

**CINE 3051 (4) Film History 1**

Intensive introduction to film history from 1895 to 1959. Topics covered include the beginnings of motion picture photography, the growth of narrative complexity from Lumiere to Griffith, American silent comedy, Soviet theories of montage, German expressionist films, and the transition to sound. Formerly FILM 3051.

**Requisites:** Requires prerequisite course of CINE 1502 (minimum grade D-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: History

**CINE 3061 (4) Film History 2**

Starts in 1959 and follows the historical growth and evolution of film aesthetics to the present. Studies Italian neorealist, French new wave, and recent experimental films, as well as the films of major auteur figures such as Bergman, Kurosawa, Fellini, Hitchcock, Bunuel, Antonioni, and Coppola. Formerly FILM 3061.

**Requisites:** Requires prerequisite course of CINE 1502 (minimum grade D-).

**Recommended:** Prerequisite CINE 3051 (minimum grade D-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: History

**CINE 3081 (3) Contemporary American Cinema: 1980 to Present**

Examines the relationship between American films from 1980 to the present and their cultural and historical context. Includes films by Bigelow, Fincher, Scorsese, Lee, Linklater, Lynch, Stone, the Coen brothers, and Jenkins. Assumes some film knowledge but is not restricted to majors. This course is open to Cinema Studies majors and non-majors, sophomores, juniors and seniors. Non-majors need instructor consent to enroll. Formerly FILM 3081.

**Requisites:** Restricted to Cinema Studies majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Production

**CINE 3104 (3) Film Criticism and Theory**

Surveys the range and function of film criticism, introduces major positions and concepts of film theory and focuses on students' abilities to write about film.

**Equivalent - Duplicate Degree Credit Not Granted:** HUMN 3104

**Requisites:** Requires prerequisite course of CINE 1502 (minimum grade D-). Restricted to students with 57-180 credits (Junior or Senior) Cinema Studies or Humanities (HUMN) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Intensive and Small Courses

**CINE 3211 (3) History of Russian Cinema**

Surveys Russian cinema in historical and cultural context from early 20th century to the present. Taught in English.

**Equivalent - Duplicate Degree Credit Not Granted:** RUSS 3211

**Requisites:** Requires prerequisite course of CINE 1502 or RUSS 3211 (minimum grade D-).

**Additional Information:** Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Production

**CINE 3400 (3) Cinema Production I**

Exploration of creative cinema production through short production and post-production projects. A short final project will be required.

Focuses on the tactics and strategies of independent cinema production, examining a variety of approaches to genre. Explores a range of film and digital technologies. Formerly FILM 3400.

**Requisites:** Requires prerequisites courses of CINE 1502 (minimum grade C) and CINE 2000 and CINE 2500 (both minimum grade of B-). Requires corequisite courses of CINE 3515 and CINE 3525. Restricted to Cinema Studies majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Production

**CINE 3402 (3) European Film and Culture**

Studies the relationships between European film, art and culture. Offered each summer in a different European city (Rome, Paris, London, Athens, Barcelona). There will be regular in-class lectures, film screenings, field trips and on-site teaching. Formerly FILM 3402.

**Repeatable:** Repeatable for up to 12.00 total credit hours.

**Recommended:** Prerequisite introductory film and art history courses.

**Additional Information:** Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Genre and Movements

**CINE 3422 (3) The Hollywood Musical**

Second only to jazz, some critics regard the Hollywood musical as the greatest American popular art form of the 20th century. Proposes a historical, formal and theoretical approach to the musical through its several iterations, from the classical, to the revisionist, to the unusual, placing the changes in the genre's form, structure, and ideology in the context of America's changing social, political and religious values. Formerly FILM 3422.

**Requisites:** Requires prerequisite course of CINE 1502 (minimum grade D-).

**Recommended:** Prerequisite CINE 3051.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Genre and Movements

**CINE 3503 (3) German Film Through World War II**

History and theory of Weimar and Nazi film with sociocultural emphasis. Taught in English.

**Equivalent - Duplicate Degree Credit Not Granted:** GRMN 3503

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Topics

**CINE 3513 (3) German Film and Society 1945-1989**

Introduces issues in German society through film during the Cold War. Focus on East and West Germany, though some other German language films may be included. Emphasis is on reading films in their social, historical and political contexts. Taught in English.

**Equivalent - Duplicate Degree Credit Not Granted:** GRMN 3513

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Topics

**CINE 3515 (3) Lights, Camera, Action**

Gain practical experience with camera, lighting, and sound equipment in this hands-on workshop. Mise-en-scene, single cinematography, multi-camera cinematography, cinematic lighting design, and sync-sound production skills will be taught in a crew environment. Formerly FILM 3515.

**Requisites:** Requires prerequisites courses of CINE 1502 (minimum grade C) and CINE 2000 and CINE 2500 (both minimum grade of B-). Requires corequisite courses of CINE 3400 and CINE 3525. Restricted to Cinema Studies majors only.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Workshops

**CINE 3525 (3) Cinema Editing Workshop**

Focuses on the development of independent cinema post-production skills. The instructor must certify students in order to continue with their BFA studies. Formerly FILM 3525.

**Requisites:** Requires prerequisites courses of CINE 1502 (minimum grade C) and CINE 2000 and CINE 2500 (both minimum grade of B-). Requires corequisite courses of CINE 3400 and CINE 3515. Restricted to Cinema Studies majors only.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Workshops

**CINE 3563 (3) Producing the Independent Film**

Introduces the role of the producer from development through production and sales, distribution. Students will practice pitching, develop pitch decks and apply for funding for one project. The role of labs, residencies, markets and film festivals will be addressed as well as modes of financing including crowd funding, tax incentives, equity finance, pre-sales, co-productions and gap financing. Formerly FILM 3563.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Topics

**CINE 3603 (3) Sound and Vision**

Historical and aesthetic overview of sound in relation to film, ranging from Hitchcock's *Blackmail* to Mailick's *The Thin Red Line*. Pursues issues in sound design, mixing film scores, voiceovers, and film/sound theory in narrative, experimental, and documentary films. Among the filmmakers to be studied are Vertov, Welles, Altman, Brakhage, Lipsett, Eisenstein, Coppola, Scorsese, Stone, Leone, Godard, Nelson. Also explores a limited practicum using Pro Tools for sound design. Formerly FILM 3603.

**Requisites:** Requires prerequisite course of CINE 1502 (minimum grade D-).

**Recommended:** Prerequisite CINE 3051.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Topics

**CINE 3620 (3) Experimental Digital Animation**

Explores boundaries of traditional animation construction and delve into contemporary animation history. Small projects will involve experimentation with animation techniques that integrate with analog animation, frame-by-frame digital processes and live-action footage. Ideal for students who have taken FILM 2010 or FILM 2610 or FILM 3525. Students familiar with animation and digital imaging or those eager to explore the process are encouraged to enroll. Formerly FILM 3620.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Production

**CINE 3700 (3) Digital Audio Design**

Studies and applies Pro Tools as a post-production audio toolbox. Applied techniques include sound recording, field recording, foley, vocal recording and editing, plug-in generated sound creation, MIDI, basic scoring principles, audio sweetening and audio mixing. Students will be required to complete regular editing assignments in addition to a final soundscape project. Formerly FILM 3700.

**Requisites:** Requires prerequisite course of CINE 2010 or CINE 2500 (minimum grade D-). Restricted to Cinema Studies majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Production

**CINE 3900 (1-3) Independent Study (Production)**

Limit of 3 credit hours per semester. Formerly FILM 3900.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Additional Information:** Departmental Category: Production

**CINE 3901 (1-3) Independent Study (Critical Study)**

Limit of 3 credit hours per semester. Formerly FILM 3901.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Additional Information:** Departmental Category: History

**CINE 3920 (3) Professional Seminar**

Learning aspects of professional development in the field of cinema. Through workshops and assignments students will learn of the many opportunities found within all areas of production. Guests will help inform the students of professional options and expectations. Topics will include: crew work, fund raising, marketing festivals, low budget filmmaking, and alternative venues. Students may have an internship concurrently with this course. Formerly FILM 3920.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires prerequisite course of CINE 2500 (minimum grade D-).

**Recommended:** Cinema Studies majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Production

**CINE 3940 (1-6) Cinema Studies Internship**

Provides students with professional internship experiences with film, video, new media production companies, governmental agencies, production units, audio recording studios and new media industries. Students will be responsible for securing their own internship position. Formerly FILM 3940.

**Repeatable:** Repeatable for up to 9.00 total credit hours.

**Requisites:** Restricted to Cinema Studies majors only.

**Recommended:** Prerequisite CU GPA of at least 2.00 and upper-division standing and a 3.00 GPA as a BA or BFA Cinema Studies major.

**Grading Basis:** Pass/Fail

**Additional Information:** Departmental Category: Production

**CINE 3990 (1) Film Practicum**

Offers creative and technical experience in aspects of film, video and media production for students in the BFA track and BA production emphasis. Students earn credit by working in any number of "crew" positions for Upper Division Production, MFA productions or faculty projects under the supervision of the course instructor. Formerly FILM 3990.

**Repeatable:** Repeatable for up to 3.00 total credit hours. Allows multiple enrollment in term.

**Grading Basis:** Pass/Fail

**Additional Information:** Departmental Category: Production

**CINE 4000 (3) Advanced Digital Postproduction**

Through projects, discussions and screenings, explores the advanced practices and aesthetics of computer-based moving-image art editing. Topics include how to edit and manage a postproduction cycle, how to use digital editing systems and capabilities such as compositing, digital audio, and optical effects treatments. Cannot be taken simultaneously with CINE 3400 or CINE 4400.

**Equivalent - Duplicate Degree Credit Not Granted:** ARTF 5000

**Requisites:** Requires prerequisite courses CINE 1502 and CINE 2000 or CINE 2300 and CINE 2500 and CINE 3400 or CINE 4400 (all minimum grade D-). Restricted to Cinema Studies majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Production

**CINE 4001 (3) Screening Race, Class & Gender in the U.S. and the Global Borderland**

Engaging with the ways in which racial, class, gender and sexual oppression intersect, this class examines several film productions by and about diasporic and subaltern subjects (especially children and women) in the U.S./Mexico borderlands, and the urban ethnic metropolises of the global borderlands.

**Equivalent - Duplicate Degree Credit Not Granted:** ETHN 4001 and ETHN 5001

**Requisites:** Requires prerequisite course of ETHN 2001 (minimum grade D-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: History

**CINE 4003 (3) Film and Literature**

Explores similarities and differences between literature and film as narrative arts. Studies several novels, short stories and plays and films made from them. Examines problems in point of view, manipulation of time, tone, structure, and setting.

**Equivalent - Duplicate Degree Credit Not Granted:** ARTF 5003

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Topics

**CINE 4004 (3) Topics in Film Theory**

Provides topic-centered analyses of controversial areas in film theory. Students read extensive materials in the topic area, analyze and summarize arguments as presented in the literature, write "position" papers and make oral presentations in which they elaborate their own arguments about specific assigned topic, establishing critical dialogue with the primary materials.

**Equivalent - Duplicate Degree Credit Not Granted:** HUMN 4004 and ARTF 5004

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Restricted to students with 57-180 credits (Junior or Senior) Cinema Studies or Humanities (HUMN) majors only.

**Recommended:** Prerequisite FILM 3051.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Intensive and Small Courses

**CINE 4005 (3) Screenwriting Workshop: Short Form**

A writing intensive course that focuses on the art of the short form screenplay. Students will complete regular writing exercises, presentations, and several short scripts. Formerly FILM 4005.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires prerequisite courses of FILM 1502 and FILM 2005 or FILM 2105 (all minimum grade D-). Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) Film (FILM or FMST) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Workshops

**CINE 4010 (1-3) Topics in Film Production**

Prepares students for advanced Film Studies production courses. Subject matter varies each semester. Formerly FILM 4010.

**Equivalent - Duplicate Degree Credit Not Granted:** ARTF 5010

**Repeatable:** Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Requires prerequisite courses of CINE 1502 and CINE 2000 or CINE 2300 and CINE 2500 (all minimum grade D-). Restricted to students with 57-180 credits (Junior or Senior) Cinema Studies majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Production

**CINE 4021 (3) Directing/Acting for the Camera**

Offers an intensive workshop that provides students with experience directing dramatic material, acting before a camera, and interpreting or adopting dramatic material for film. No experience in directing or acting required. Attendance, research and papers required. Formerly FILM 4021.

**Equivalent - Duplicate Degree Credit Not Granted:** ARTF 5021

**Recommended:** Prerequisite FILM 1502.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: History

**CINE 4023 (3) Topics in International Cinema**

Focuses on major international filmmakers who have had a decisive impact on world cinema. Students will learn how directors create their own innovative body of work with specific formal and thematic patterns and will also learn to place such work within multiple frameworks that will cover film history, theory, aesthetics, philosophy and social and cultural analysis. Formerly FILM 4023.

**Equivalent - Duplicate Degree Credit Not Granted:** ARTF 5023

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Requires prerequisite course of FILM 1502 (minimum grade D-). Restricted to Film (FILM or FMST) or Fine Arts - Creative Arts (ARTC) majors only.

**Recommended:** Prerequisite FILM 3051.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Topics

**CINE 4024 (3) Advanced Research Seminar**

Focuses on a specific topic, director, or genre chosen by the professor. Research skills and critical thinking are emphasized. With faculty guidance, students determine individual projects and present them to the class. Class participation is mandatory. Each student submits a thorough and original research paper for a final grade. Department enforced requisite: restricted to students with 57-180 credits (Juniors or Seniors) with a minimum GPA of 3.0. Formerly FILM 4024.

**Equivalent - Duplicate Degree Credit Not Granted:** ARTF 5024

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Recommended:** Prerequisites FILM 3051 and FILM 3061.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Intensive and Small Courses

**CINE 4040 (3) Advanced Analog Alchemy**

Investigating, developing, and re-interpreting historical approaches and processes involved in the creation of Analog motion picture works. Students will work with Analog mediums in alternative modes and unestablished ways and develop their personal process towards the goal of producing a unique moving image work to be presented in a final analog format for exhibition.

**Equivalent - Duplicate Degree Credit Not Granted:** ARTF 5040

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires prerequisite course of CINE 3030 (minimum grade D-). Restricted to Cinema Studies majors only.

**CINE 4043 (1-3) Topics in Cinema Critical Studies**

Prepares students for advanced Cinema Studies critical studies courses. Subject matter varies each semester. Formerly FILM 4043.

**Equivalent - Duplicate Degree Credit Not Granted:** ARTF 5043

**Repeatable:** Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Topics

**CINE 4105 (3) Advanced Screenwriting**

Introduces professional screenwriting in the form of a creative writing workshop. Admission by portfolio (see film department). Students write scenes and scripts for short films, feature treatments, etc., and are graded on a final portfolio.

**Equivalent - Duplicate Degree Credit Not Granted:** ARTF 5105

**Requisites:** Requires prerequisite course of CINE 4005 (minimum grade D-).

**Recommended:** Prerequisites CINE 3051 and CINE 3061 and an approved writing sample.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Workshops

**CINE 4200 (3) Flow Visualization**

Explores techniques for the visualization of the physics of fluid flows including seeding with dyes, particles and bubbles, and shadowgraphy and schlieren. Reviews optics and fluid physics, especially atmospheric clouds. Assignments are student-driven, to individuals and mixed teams of graduates, undergraduates, engineering majors and photography/video majors.

**Equivalent - Duplicate Degree Credit Not Granted:** MCEN 4151, ATLS 4151, ATLS 5151, CINE 5200 and ARTF 5200

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Production

**CINE 4400 (3) Digital Post-Production**

Through projects, discussions, and screenings, this class explores the practices and aesthetics of computer-based moving-image art editing. Formerly FILM 4400.

**Equivalent - Duplicate Degree Credit Not Granted:** ARTF 5400

**Requisites:** Requires prerequisite course of CINE 3525 (minimum grade D-). Restricted to Cinema Studies majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Production

**CINE 4453 (3) Elective Affinities: Avant-Garde Cinema and the Arts**

Traces the history and aesthetics of avant-garde/experimental films in light of similar ideas found in the other arts, particularly painting, poetry, photography and music. Topics covered include Dada and the early avant-garde; surrealism and psychodramas; Brakhage and abstract expressionism; feminist arts and film since the 1980s; the idea of the sublime in painting, music, and film; landscape in painting, photography and film; post-modernism and the cinema; queer theory, gender/identity politics and aesthetics of recent films; and specific multiple disciplinary artists such as Andy Warhol, Michael Snow, Helen Levitt and Gunvor Nelson. Formerly FILM 4453.

**Equivalent - Duplicate Degree Credit Not Granted:** ARTF 5453

**Requisites:** Requires prerequisite course of CINE 1502 (minimum grade D-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Topics

**CINE 4500 (3) Cinema Production 2**

Advanced exploration of creative cinema production through short production and post-production projects. Course focuses on the tactics and strategies of independent cinema production leading to the completion of a BFA thesis project exploring either documentary, experimental, or narrative genres. Formerly FILM 4500.

**Equivalent - Duplicate Degree Credit Not Granted:** ARTF 5500

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires prerequisite courses of CINE 3400 and CINE 3515 and CINE 3525 (all minimum grade C). Restricted to Cinema Studies majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Production

**CINE 4505 (3) Screenwriting Workshop: Long Form**

Creative writing workshop in which students plan and write a feature-length screenplay with emphasis on format, dialogue, characterization, and story.

**Requisites:** Requires prerequisite course of CINE 1502 and CINE 2000 (all minimum grade D-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Workshops

**CINE 4604 (3) Colloquium in Film Aesthetics**

Seminar for the serious round table discussion and critique of film as an art form, emphasizing development of appropriate verbal and written language skills for description of film. Department enforced prerequisite: restricted to students with 57-180 credits (Juniors or Seniors) with a minimum GPA of 3.0 or instructor consent required. Formerly FILM 4604.

**Equivalent - Duplicate Degree Credit Not Granted:** ARTF 5604

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Intensive and Small Courses

**CINE 4959 (3-6) Honors Senior Thesis**

For exceptional Film Studies majors who wish to write an honors thesis based on independent research or creative work under the direction of a faculty member. Formerly FILM 4959.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Additional Information:** Arts Sciences Honors Course  
Departmental Category: Intensive and Small Courses

## Cinema Studies & Moving Image Arts - Bachelor of Fine Arts (BFA)

The BFA is a competitive degree program requiring an application and selection procedure. All students begin their Cinema Studies & Moving Image Arts track declaring the Bachelor of Arts in Cinema Studies as their major. Students wishing to declare a BFA in Cinema Studies & Moving Image Arts as their major must first satisfy specific prerequisites. The mission of the BFA is to prepare artists who will be competitive and original as independent filmmakers, who may aspire to advanced graduate degrees beyond the BFA, or who are considering an artistic approach to their filmmaking portfolio.

In addition to acquiring the skills to make creative films and video works, students completing the BFA will also advance their ability to analyze and interpret films critically, and to communicate and express themselves about film competently in written form.

## Requirements

### Admission Requirements

The Cinema Studies & Moving Image Arts Department educates students in the history and development of film as an art form and contemporary medium. The curriculum instills an informed analytic awareness of the ways in which film has evolved artistically and stylistically, and provides the resources for significant creative exploration of the medium.

The BFA degree is competitive. In order to graduate with a BFA degree, students must first satisfy a number of prerequisites and then submit a formal application to the BFA program at the prescribed time (deadline will be posted each semester on the cinema studies website). Applicants must have a cumulative GPA at CU Boulder of 2.3 or higher, and a CINE GPA of 3.3 or higher. Applicants must submit a written application, a writing sample and a sample film. Applicants may also submit one additional "best" example of creative work (see specific admission guidelines for details). Admission into the BFA program is contingent upon approval of the application materials by the BFA committee. Complete details on the BFA application procedure are available on the Cinema Studies website. Students are required to attend a BFA orientation meeting prior to submitting their application. The program recommends that BFA students purchase film and sound media-capable Apple computing systems.

Students are encouraged to consult with the Cinema Studies advisor in order to obtain advice and current information.

### Program Requirements

No more than 6 credit hours of independent study may be credited toward the major. Students must complete the required cinema courses with a grade of C or better.

Students must complete the general requirements of the College of Arts and Sciences as well as the required courses listed below. The Department of Cinema Studies & Moving Image Arts requires a minimum of 62 credit hours in support of the BFA degree requirements.

### Required Courses and Credits

Code	Title	Credit Hours
<b>Required Critical Studies Courses</b>		<b>17</b>
CINE 1502	Introduction to Cinema Studies <sup>1</sup>	
CINE 3051 & CINE 3061	Film History 1 and Film History 2 <sup>2</sup>	
CINE 2005	Form, Structure, and Narrative Analysis	
	or CINE 2105 Introduction to the Screenplay	
CINE 4604	Colloquium in Film Aesthetics	
<b>Required Production Courses</b>		<b>21</b>
CINE 2000	Moving Image Foundations I <sup>3</sup>	
CINE 2500	Moving Image Foundations II <sup>3</sup>	
CINE 3400	Cinema Production I	
CINE 3515	Lights, Camera, Action	
CINE 3525	Cinema Editing Workshop	
CINE 4500	Cinema Production 2 (Part I)	
CINE 4500	Cinema Production 2 (Part II)	
<b>Production Course Electives</b>		<b>15</b>
Select 15 credit hours of any combination of the following courses—see degree audit for specifics		
CINE 2010	Moving Image Computer Foundations	
CINE 2300	Beginning/Intermediate Filmmaking	
CINE 2610	Animation Production	
CINE 2900	Lighting	
CINE 3010	Film Production Topics <sup>4</sup>	
CINE 3030	Analog Alternatives	
CINE 3563	Producing the Independent Film <sup>5</sup>	
CINE 3620	Experimental Digital Animation	
CINE 3700	Digital Audio Design	
CINE 3900	Independent Study (Production) <sup>6</sup>	
CINE 3920	Professional Seminar	
CINE 3940	Cinema Studies Internship	
CINE 3990	Film Practicum <sup>7</sup>	
CINE 4000	Advanced Digital Postproduction	
CINE 4005	Screenwriting Workshop: Short Form	
CINE 4010	Topics in Film Production <sup>7</sup>	
CINE 4021	Directing/Acting for the Camera	
CINE 4040	Advanced Analog Alchemy	
CINE 4105	Advanced Screenwriting	
CINE 4400	Digital Post-Production	
CINE 4505	Screenwriting Workshop: Long Form	

**Critical Studies Elective Requirements** 9

Select 9 credit hours (6 credit hours must be upper-division) from the following:

CINE 2001	Space Odysseys: Astrophys/Astronomy via Cinema/Arts
CINE 2002	Recent International Cinema
CINE 2003	Film Topics <sup>4</sup>
CINE 2004	CU Cinema Studies Seminar: The Telluride Film Festival
CINE 2005	Form, Structure, and Narrative Analysis
CINE 2312	Film Trilogies
CINE 2513	Major Asian Filmmakers
CINE 2521	Classics of the Foreign Cinema: 1960s to Present
CINE 3002	Major Film Movements <sup>4</sup>
CINE 3003	Major Film Directors <sup>4</sup>
CINE 3003	Major Film Directors <sup>4</sup>
CINE 3004	Alfred Hitchcock: The American Films
CINE 3012	Documentary Film
CINE 3013	Women and Film
CINE 3033	Color and Cinema
CINE 3042	Horror Film: History, Contexts, Aesthetics
CINE 3043	Topics in Critical Film Studies <sup>4</sup>
CINE 3081	Contemporary American Cinema: 1980 to Present
CINE 3104	Film Criticism and Theory
CINE 3211	History of Russian Cinema

CINE 4043	Topics in Cinema Critical Studies
CINE 4105	Advanced Screenwriting
CINE 4453	Elective Affinities: Avant-Garde Cinema and the Arts
CINE 4604	Colloquium in Film Aesthetics
Any CINE class crosslisted with another department (i.e., foreign language) that has been approved by the cinema studies chair	

Total Credit Hours 62

<sup>1</sup> This course is a prerequisite for CINE 2000 and CINE 3051 .  
<sup>2</sup> It is recommended that these courses be taken in chronological order.  
<sup>3</sup> Must receive a B- or higher to continue to the next required production course.

<sup>4</sup> Course may be taken for credit more than once, provided the topics vary.  
<sup>5</sup> Both are usually offered through Continuing Education; only one may count toward the cinema studies degree.  
<sup>6</sup> Total number of independent study credit hours cannot exceed 6, and they cannot be used to duplicate regular course offerings.  
<sup>7</sup> Course may be taken for credit more than once.  
<sup>8</sup> Total number of independent study credit hours cannot exceed 6.

**Graduating in Four Years with a BFA**

Consult the Four-Year Guarantee Requirements for information on eligibility. The concept of "adequate progress" as it is used here only refers to maintaining eligibility for the four-year guarantee; it is not a requirement for the major. To maintain adequate progress toward a BFA in cinema studies & moving image arts, students should meet the following requirements:

- Declare and start the cinema studies major the first semester freshman year.
- Complete CINE 1502, CINE 2000, CINE 2005 or CINE 2105 and one lower- or upper-division critical studies course for 3 credit hours by the end of the third semester.
- Complete 3 credit hours upper-division Critical Studies Elective, CINE Foundation Elective (3 credit hours) and CINE 2500 by the end of the fourth semester.
- Note: In order to graduate in four years, a student must apply and be accepted into the BFA program at the end of the fourth semester. See the admission requirements section above for details of the application process.
- Complete CINE 3051, CINE 3400, CINE 3515 and CINE 3525 by the end of the fifth semester.
- Complete CINE 3061, digital elective (3 credit hours), production elective (3 credit hours) and CINE 3990 by the end of the sixth semester.
- Complete CINE 4500, 3 credit hours upper-division critical studies elective, CINE 3990 by the end of the seventh semester.
- Complete 3 additional credit hours of CINE 4500, CINE 4604, an additional 1 credit hour of CINE 3990 and 3 more credit hours of production electives by the end of the eighth semester.

**Recommended Four-Year Plan of Study**

Through the required coursework for the major, students will complete all 12 credits of the the Arts & Humanities area of the Gen Ed Distribution Requirement.

Course	Title	Credit Hours

## Cinema Studies - Bachelor of Arts (BA)

CU Boulder's Bachelor of Arts in Cinema Studies & Moving Image Arts emphasizes the critical study of film as an art form. The critical studies BA is designed to give students a solid knowledge of the history and aesthetics of international film, as well as exposure to the various methodological approaches of cinema studies as an academic discipline. Critical studies courses take a multi-faceted approach comprised of film screenings, readings, and lectures, while students are expected to practice their film analysis skills in writing assignments and class discussion. Like many programs in the Arts and Humanities, the BA program in cinema studies aims more broadly to teach two fundamental skills: critical thinking and writing ability. These skills are developed in our program specifically through the examination of films, but they are also broadly useful well beyond the realm of cinema studies. Students also have the option to pursue a BA with emphasis in production. The BA program enrolls approximately 425 majors.

## Requirements

### General Requirements

Students must complete the general requirements of the College of Arts and Sciences and the required courses listed within the emphasis that the student is pursuing (see the Areas of Emphasis ([catalog.colorado.edu/undergraduate/colleges-schools/arts-sciences/programs-study/film-studies/film-studies-bachelor-arts-ba/#areasofemphasistext](http://catalog.colorado.edu/undergraduate/colleges-schools/arts-sciences/programs-study/film-studies/film-studies-bachelor-arts-ba/#areasofemphasistext)) tab).

No more than 6 credit hours of independent study may be credited toward the major. Students must complete the required cinema studies courses with a grade of C or better. The College of Arts and Science's 18 credit hour minimum of upper-division credit hours must be fulfilled with CU cinema studies courses.

## Areas of Emphasis

### Critical Studies Emphasis

In addition to the general requirements of the College of Arts and Sciences and the required cinema studies core, the critical studies emphasis requires a minimum of 41 credit hours in support of the BA requirements.

Code	Title	Credit Hours
<b>Required Cinema Studies Core Courses</b>		<b>14</b>
CINE 1502	Introduction to Cinema Studies <sup>1</sup>	
CINE 3051 & CINE 3061	Film History 1 and Film History 2 <sup>2</sup>

CINE 4604 Colloquium in Film Aesthetics

Certain classes from other departments (i.e., foreign language) that have been approved by the cinema studies chair.

**Cinema Elective Requirements** 6

In addition to required cinema classes, Cinema Studies majors must complete an additional six credit hours of CINE courses.

Total Credit Hours 41

- This course is a prerequisite for CINE 2000 and CINE 3051.
- It is recommended that these courses be taken in chronological order. CINE 1502 is a prerequisite.
- Course may be taken for credit more than once, provided that the topics vary.
- Total number of independent study credit hours cannot exceed 6.

### Production Emphasis

In addition to the general requirements of the College of Arts and Sciences and the required cinema studies core, the production emphasis requires a minimum of 45 credit hours in support of the BA requirements, including cinema studies courses and courses taken in other departments.

The Department of Cinema Studies & Moving Image Arts strongly urges students pursuing production classes in the BA degree program to purchase film and sound media-capable Apple computing systems.

## Graduating in Four Years

Consult the Four-Year Guarantee Requirements for information on eligibility. The concept of "adequate progress" as it is used here only refers to maintaining eligibility for the four-year guarantee; it is not a requirement for the major.

To maintain adequate progress toward a BA in cinema studies, students should meet the following requirements (see the recommended four-year plans of study on the Areas of Emphasis ([catalog.colorado.edu/undergraduate/colleges-schools/arts-sciences/programs-study/film-studies/film-studies-bachelor-arts-ba/#areasofemphasistext](http://catalog.colorado.edu/undergraduate/colleges-schools/arts-sciences/programs-study/film-studies/film-studies-bachelor-arts-ba/#areasofemphasistext)) tab).

- Declare a cinema studies major by the beginning of the second semester.
- Complete 3 hours of lower-division critical studies electives and CINE 1502 by the end of the fourth semester.
- Complete 3 hours of upper-division critical studies electives and CINE 3051 and CINE 3061 by the end of the sixth semester.
- Complete 6 critical studies elective credit hours and 6 CINE elective credit hours by the end of the seventh semester (at least 3 of these credit hours must be upper-division credit hours).
- Complete an additional 9 credit hours of critical studies elective courses and CINE 3104 or all required production courses by the eighth semester.

## Recommended Four-Year Plans of Study

### Critical Studies Emphasis

Through the required coursework for the major, students will fulfill all 12 credits of the Arts & Humanities area of the Gen Ed Distribution Requirement.

## Bachelor's–Accelerated Master's Degree Program(s)

The Bachelor's–Accelerated Master's (BAM) degree program options offer currently enrolled CU Boulder undergraduate students the opportunity to receive a bachelor's and master's degree in a shorter period of time. Students receive the bachelor's degree first, but begin taking graduate coursework as undergraduates (typically in their senior year). Because some courses are allowed to double count for both the bachelor's and the master's degrees, students receive a master's degree in less time and at a lower cost than if they were to enroll in a stand-alone master's degree program after completion of their baccalaureate degree. In addition, staying at CU Boulder to pursue a bachelor's–accelerated master's program enables students to continue working with their established faculty mentors.

### BA in Cinema Studies, MA in Art and Art History

The cinema studies bachelor of arts/master of arts in art and art history degree gives highly motivated BA students the opportunity to earn an MA degree using an accelerated undergraduate program in combination with a fifth year of study.

#### Program Description

The BAM degree in cinema studies is a critical studies track under the auspices of the art MA program. This collaboration between the Department of Cinema Studies & Moving Image Arts and the Department of Art and Art History is an extension of our common interests in visual

art. The cinema studies tenured and tenure-track faculty also have graduate faculty standing within art and art History.

The BAM track prepares students for professional careers in teaching and criticism, from the perspective of innovative critical approaches and in preparation for a PhD track at another university. The aim of the BAM cinema studies track is to aid in the advancement of the scholarly understanding of film art, with emphasis on theoretical and research approaches and their role in academia. The BAM will, therefore, prepare its graduates to assume the responsibilities of the academic study of cinema as one of the fine arts and to pursue careers in teaching, research, curating and the overall advancement of the study of cinema as art.

The program offers studies leading to the MA in the areas of film criticism and theory. Advanced students are encouraged to explore interdisciplinary approaches as well as to enhance their program of study with cognate courses in other departments such as history, comparative literature, anthropology, English, women's studies, ethnic studies, Spanish and Portuguese, French and Italian, Germanic and Slavic languages and literature and others. Cinema studies offers a broad selection of seminar topics on their current faculty research interests and in response to student demand. The Visiting Film Artist program brings additional distinguished, innovative film and video artists and critics to campus and students are encouraged to register for their seminars.

#### Admissions Requirements

In order to gain admission to the BAM program named above, a student must meet the following criteria:

- Have a cumulative GPA of 3.3 or higher
- Have completed all MAPS deficiencies before admission to the program
- Student enrolled in the BAM track cannot pursue a double major or dual degree of any kind

Only currently enrolled University of Colorado Boulder students may be considered for admission to the program. Transfer students must have completed a minimum of 24 credit hours at CU Boulder before applying to the program.

Admission to the program occurs during the second semester of the junior year. Before filling out the BAM intent form, the student should make an appointment with the Chair, Professor Ernesto Acevedo-Muñoz (<https://www.colorado.edu/cinemastudies/ernesto-acevedo-munoz>). If requested, applicants will provide a copy of their (internal) CU transcript with the intent form.

Students should fill out the BAM intent form by the sole application deadline, the second Monday in October. Students must also provide the following information with their BAM intent form:

- Students will secure the sponsorship and/or advisory commitment of a cinema studies faculty member at the rank of assistant professor or higher. The applicant will include a brief letter or statement from the faculty member attesting to the advisory relationship.
- One-page prospectus detailing a possible research topic for an MA thesis, including a bibliography of 10–15 items minimum
- Applicants must successfully complete the "October Surprise" writing assignment in the form of a 10–12 page analytical/theoretical or historical argument paper on a film determined by the faculty. Students will pick up a DVD and a prompt or question in the cinema studies office at 4 p.m. on the Friday before the application is due. Over the weekend, the applicants must watch the movie, do

some research, make an argument and write the paper, which will be handed in with the application Monday at 4 p.m. The "October Surprise" portion of the application process is designed for students demonstrate their writing skills and their ability to find, define and argue a topic in a fairly sophisticated manner for an aspiring master's student.

### Program Requirements

Students may take up to and including 12 hours while in the undergraduate program which can later be used toward the master's degree. However, only six credits may be double counted toward the bachelor's degree and the master's degree. Students must apply to graduate with the bachelor's degree, and apply to continue with the master's degree, early in the semester in which the undergraduate requirements will be completed.<sup>1</sup>

If you are interested in the BAM degree program, please contact the Art & Art History graduate program coordinator for more information.

<sup>1</sup>Students who were admitted prior to July 2019 follow a concurrent Bachelor's/Master's structure, and the two degrees are awarded simultaneously when requirements for both degrees are met.

## Cinema Studies - Minor

The cinema studies minor is open to students in any field who are interested in the study of cinema history, culture and aesthetics, but who are too busy to pursue the full major. Students who pursue the cinema studies minor have the opportunity to develop their interest by acquiring critical and comparative skills and understanding the place and importance of cinema as a cultural and social phenomenon. Students in the minor have access to lower- and upper-division courses on film history, aesthetics, criticism, social and historical contexts, classical genres, and groundbreaking directors from the U.S. and abroad, acquiring an edge in visual analysis, critical thinking and media literacy.

## Requirements

Declaration of a minor is open to any student enrolled at CU Boulder, regardless of college or school. To obtain the cinema studies minor, students must declare a minor in cinema studies. Additional requirements:

- Students are allowed to apply no more than 9 credit hours, including 6 upper-division credit hours, of transfer work toward a minor.
- All coursework applied to the minor must be completed with a grade of C- or better (no pass/fail work may be applied). The GPA for all coursework taken in the minor department must be equal to 2.00 (C) or higher.
- Complete 19 credit hours of cinema studies coursework as listed below.

### Required Courses and Credits

Code	Title	Credit Hours
<b>Required Courses</b>		
CINE 1502	Introduction to Cinema Studies	3
CINE 3051	Film History 1	4
	or CINE 3061 Film History 2	
Note: Both CINE 3051 and 3061 may be taken, but one will count as an elective.		
<b>Electives</b>		<b>12</b>

Complete 12 credit hours from elective courses in the Cinema Studies Program. 9 credit hours of the elective courses must be at the upper-division (3000-4000) level.

Total Credit Hours

19

## Classics

Through consultation with the undergraduate advisor, the bachelor's degree in classics is tailored to the student's interests in the field. Major and minor programs can be arranged with a concentration in either Latin or Greek or a combination of the two, with a focus on classical literature, culture and thought (including mythology, literature, philosophy, religion, art, archaeology and history), classical history, art and archaeology, or classical civilization. Prospective majors and minors should consult with the undergraduate advisor.

The undergraduate degree in classics emphasizes knowledge and awareness of:

- the fundamental outlines of the history of Greek and Roman literature, from Homer to the end of classical antiquity;
- the historical and cultural contexts of particular works; and
- the art, religion and philosophy of ancient Greece and Rome and their roles in world cultural history.

In addition, students completing the degree in classics are expected to acquire the ability and skills to:

- read, understand and interpret written documents and works of literature in ancient Greek or Latin where relevant, as well as in translation;
- communicate in spoken and written form with adequate clarity and complexity for the relevant audience; and
- read and think critically.

Interested students are encouraged to consult the department's Undergraduate (<https://www.colorado.edu/classics/undergraduate>) webpage for more information.

**Course codes for this program are CLAS, GREK and LATN.**

## Bachelor's Degree

- Classics - Bachelor of Arts (BA) (p. 206)

## Minor

- Classics - Minor (p. 211)

## Faculty

While many faculty teach both undergraduate and graduate students, some instruct students at the undergraduate level only. For more information, contact the faculty member's home department.

## Courses

### CLAS 1010 (3) The Study of Words

Study of English words of Latin and Greek origin, focusing on etymological meaning by analysis of component parts (prefixes, bases, suffixes) and on the ways in which words have changed and developed semantically. No Greek or Latin required.

**Equivalent - Duplicate Degree Credit Not Granted:** LING 1010

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Literature, Culture, and Thought

### CLAS 1020 (3) Argument from Evidence: Critical Writing about the Ancient World

Introduces students to writing about the ancient world, with special attention to the possibilities and the limitations of ancient source-material. Taught as a writing workshop, with emphasis on critical thinking, analysis, argument and inquiry. While the course reads foundational ancient texts, the skills acquired will be broadly useful among humanities disciplines.

**Additional Information:** Arts Sci Core Curr: Written Communication

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Written Communication-Lower

Departmental Category: Literature, Culture, and Thought

MAPS Course: English

### CLAS 1030 (3) Introduction to Western Philosophy: Ancient

Develops three related themes: the emergence in antiquity of a peculiarly scientific mode of thinking; the place of religious belief within this developing scientific world view; and the force of ethical speculation within the culture and political climates of ancient Greece and Rome. No Greek or Latin required.

**Equivalent - Duplicate Degree Credit Not Granted:** PHIL 1010

**Additional Information:** Arts Sci Core Curr: Historical Context

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Literature, Culture, and Thought

### CLAS 1051 (3) The World of the Ancient Greeks

Surveys the emergence, major accomplishments, failures and the decline of the ancient Greeks, from the Bronze Age civilizations of the Minoans and Mycenaeans through the Hellenistic Age (2000-30 B.C.). No Greek or Latin required.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 1051

**Additional Information:** Arts Sci Core Curr: Historical Context

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Ancient History

### CLAS 1061 (3) The Rise and Fall of Ancient Rome

Surveys the rise of ancient Rome in the eighth century B.C. to its fall in the fifth century A.D. Emphasizes political institutions, foreign policy, leading personalities, and unique cultural accomplishments. No Greek or Latin required.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 1061

**Additional Information:** Arts Sci Core Curr: Historical Context

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Ancient History

### CLAS 1071 (3) Ancient Sport and Spectacle

Surveys the development, evolution and impact of sport and spectacle in the Greco-Roman world through the deconstruction of games during the Christian era of the Roman Empire. Examines, among other relevant topics, games in the Homeric tradition, the development of the Greek Olympics and Roman spectacles including the circus, amphitheatres and gladiators.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**CLAS 1100 (3) Greek and Roman Mythology**

Covers Greek and Roman myths as expressions of religious experience and imagination, of Greek and Roman culture and society, and as part of the fabric of Western cultural tradition. Of particular interest to students of literature and the arts, psychology, anthropology, and history. No Greek or Latin required.

**Additional Information:** Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Literature, Culture, and Thought

**CLAS 1110 (3) Gods, Monsters and Mortals: Literature of Ancient Greece**

Read about mythological heroes and historical individuals from Achilles to Socrates. Explore why Greek authors told stories the way they did and what those stories might have meant to them and might mean to us. Ancient texts in English translation.

**Additional Information:** Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Literature, Culture, and Thought

**CLAS 1115 (3) Masterpieces of Greek Literature in Translation**

Students read about mythological heroes and historical individuals from Achilles to Socrates in Greek literature. Class discusses why the Greeks told stories the way they did and what those stories might have meant to them and might mean to us.

**Additional Information:** Arts Sciences Honors Course  
Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Honors

**CLAS 1120 (3) Power and Passion in Ancient Rome**

Read about mythological heroes and historical individuals from Romulus to Catiline and the emperors Augustus and Nero. Explore why Roman authors told stories the way they did and what those stories might have meant and might mean to us. Ancient texts in English translation.

**Additional Information:** GT Pathways: GT-AH2 - Arts Hum: Lit Humanities  
Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Literature, Culture, and Thought

**CLAS 1140 (3) Bread and Circuses: Society and Culture in the Roman World**

Surveys the outstanding achievements of Roman culture and society as reflected in literature; philosophy and art; private and official religion; and legal and political thought. No Greek or Latin required.

**Additional Information:** GT Pathways: GT-AH2 - Arts Hum: Lit Humanities  
Arts Sci Core Curr: Historical Context  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Literature, Culture, and Thought

**CLAS 1509 (3) Trash and Treasure, Temples and Tombs: Art and Archaeology of the Ancient World**

Introduces the art and archaeology of ancient Egypt, Mesopotamia, Greece and Rome, examining various ancient approaches to power, religion, death and the human body. Analyzes art, architecture and everyday trash to learn about ancient humanity.

**Equivalent - Duplicate Degree Credit Not Granted:** ARTH 1509  
**Requisites:** Restricted to students with 0-56 credits (Freshmen or Sophomore) only.

**Additional Information:** Arts Sci Core Curr: Historical Context  
Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-Global Perspective  
Departmental Category: Art and Archaeology

**CLAS 2020 (3) Science in the Ancient World**

Covers the development of scientific modes of thought, theory, and research from mythological origins (e.g., Hesiod's poetry) through pre-Socratic philosophers. Culminates in theories and research of Plato and Aristotle, including the Roman Empire. Students read original sources in translation. No Greek or Latin required.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Literature, Culture, and Thought

**CLAS 2029 (3) Art and Archaeology of Ancient Egypt**

Emphasizes the origin of the Egyptian culture, its importance and its impact on other cultures. In addition, the different points of view of various scholars are discussed with a comparative study of the ancient Egyptian culture and modern culture of Egypt and the Middle East. Formerly ANTH 1160.

**Equivalent - Duplicate Degree Credit Not Granted:** ARTH 2029

**Additional Information:** Arts Sci Core Curr: Human Diversity  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-Global Perspective  
Departmental Category: Art and Archaeology

**CLAS 2039 (3) Greek Art and Archaeology**

Covers prehistoric Aegean through the fourth century B.C.E., considering architecture, pottery, painting, sculpture and personal ornament. Societal customs such as use of space and burial patterns are considered as well as art and its uses, to help understand developments in Greek culture. Formerly CLAS 3039.

**Equivalent - Duplicate Degree Credit Not Granted:** ARTH 2039

**Additional Information:** Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Art and Archaeology

**CLAS 2041 (3) War and Society in Ancient Greece**

Studies Greek warfare in its cultural, social and economic contexts, in the light of anthropological comparisons and modern theories. No Greek or Latin required.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Ancient History

**CLAS 2049 (3) Introduction to Roman Art and Architecture**

Introduces the monuments and sites of the ancient Roman world from the foundation of Rome (753 B.C.E.) to Constantine (306-307 C.E.). Emphasizes the relationship of art, architecture, and artifacts to the political, social, and religious institutions of Italy and the provinces. Formerly CLAS 3049.

**Equivalent - Duplicate Degree Credit Not Granted:** ARTH 2049

**Additional Information:** Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Art and Archaeology

**CLAS 2100 (3) Gender and Sexuality in Ancient Greece**

Examines evidence of art, archaeology, and literature of Greek antiquity from a contemporary feminist point of view. Focuses on women's roles in art, literature, and daily life. No Greek or Latin required.

**Equivalent - Duplicate Degree Credit Not Granted:** WGST 2100

**Additional Information:** Arts Sci Core Curr: Human Diversity  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-Global Perspective  
Departmental Category: Literature, Culture, and Thought

**CLAS 2110 (3) Gender and Sexuality in Ancient Rome**

Uses art, archaeology, and literature to study, from a contemporary feminist point of view, the status of women in works of Roman art and literature, the development of attitudes expressed toward them, and their daily life. No Greek or Latin required.

**Equivalent - Duplicate Degree Credit Not Granted:** WGST 2110

**Additional Information:** GT Pathways: GT-HI1 - History

Arts Sci Core Curr: Human Diversity

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Diversity-Global Perspective

Departmental Category: Literature, Culture, and Thought

**CLAS 2610 (3) Paganism to Christianity**

Offers a cultural history of Greek and Roman religion. Students read ancient texts in translation and use evidence from archaeology to reconstruct the shift from paganism to Christianity in antiquity. No Greek or Latin required.

**Equivalent - Duplicate Degree Credit Not Granted:** RLST 2614

**Additional Information:** Arts Sci Core Curr: Ideals and Values

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Literature, Culture, and Thought

**CLAS 3009 (3) Modern Issues, Ancient Times**

Considers issues of vital importance to humans, both now and in ancient times. Topics such as food, death, sex, family, literacy, or power are explored to consider how ancient societal norms and attitudes evolved and how they relate to modern culture. Draws on material and literary evidence to develop an understanding of the complexities of ancient life. Formerly CLAS 2009.

**Equivalent - Duplicate Degree Credit Not Granted:** ANTH 3009

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Arts Sci Core Curr: Historical Context

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Art and Archaeology

**CLAS 3019 (3) Pompeii and the Cities of Vesuvius**

Introduces the towns and villas buried by the eruption of Mt. Vesuvius in 79 C.E. Explores the layout and decoration of ancient Roman houses, the variety of artifacts uncovered as evidence for daily life and the history of the excavations.

**Equivalent - Duplicate Degree Credit Not Granted:** ARTH 3019

**Additional Information:** Arts Sci Core Curr: Historical Context

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Art and Archaeology

**CLAS 3119 (3) The Archaeology of Death**

Consider Death. It is a universal human phenomenon. Humans across time and space have caused, planned for, reacted to, and carried out death practices in extraordinarily different ways. Mortuary practice provides a fascinating insight into human history and culture in both the modern and ancient world.

**Equivalent - Duplicate Degree Credit Not Granted:** ANTH 3119

**Additional Information:** Arts Sci Core Curr: Historical Context

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Distribution-Social Sciences

Departmental Category: Art and Archaeology

**CLAS 3400 (3) Special Topics in Classics**

Topics in Greek, Latin or Classical civilization.

**Repeatable:** Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Literature, Culture, and Thought

**CLAS 4021 (3) Athens and Greek Democracy**

Studies Greek history from 800 B.C. (the rise of the city-state) to 323 B.C. (the death of Alexander the Great). Emphasizes the development of democracy in Athens. Readings are in the primary sources.

**Equivalent - Duplicate Degree Credit Not Granted:** CLAS 5021 and HIST 4021

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Ancient History

**CLAS 4031 (3) Alexander the Great and the Rise of Macedonia**

Covers Macedonia's rise to dominance in Greece under Philip II and the reign and conquests of Alexander the Great.

**Equivalent - Duplicate Degree Credit Not Granted:** CLAS 5031 and HIST 4031

**Recommended:** Prerequisite one of the following CLAS 1051, 1509, 2039, 2041, 4021, 4041, 4071, 4139, 4149, GREK 3113, HIST 1051.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Ancient History

**CLAS 4040 (3) Seminar in Classical Antiquity**

Examines an advanced topic in classical language, literature, history, philosophy, art, or culture. Combines the techniques of philology with a critical approach to the literary and material legacy of the past.

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Recommended:** Requisite second-year proficiency in Greek or Latin.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Literature, Culture, and Thought

**CLAS 4041 (3) Classical Greek Political Thought**

Studies main representatives of political philosophy in antiquity (Plato, Aristotle, Cicero) and of the most important concepts and values of ancient political thought. No Greek or Latin required.

**Equivalent - Duplicate Degree Credit Not Granted:** CLAS 5041 and HIST 4041 and PHIL 4210

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Ancient History

**CLAS 4061 (3) Twilight of Antiquity**

Explores the reasons for the fall of the Roman Empire in the western Mediterranean and its survival in the East as Byzantium. Emphasizes Christianity; barbarians; social, economic and cultural differences; contemporary views of Rome; and modern scholarship. No Greek or Latin is required.

**Equivalent - Duplicate Degree Credit Not Granted:** CLAS 5061 and HIST 4061 and HIST 5061

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Ancient History

**CLAS 4071 (3) Seminar in Ancient Social History**

Considers topics ranging from demography, disease, family structure, and the organization of daily life to ancient slavery, economics, and law. Focuses either on Persia, Greece, or Rome and includes a particular emphasis on the methodology required to reconstruct an ancient society, especially the interpretation of problematic literary and material evidence and the selective use of comparisons with better known societies. No Greek or Latin required.

**Equivalent - Duplicate Degree Credit Not Granted:** CLAS 5071 and HIST 4071

**Repeatable:** Repeatable for up to 9.00 total credit hours.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Ancient History

**CLAS 4081 (3) The Roman Republic**

Studies the Roman Republic from its foundation in 753 B.C. to its conclusion with the career of Augustus. Emphasizes the development of Roman Republican government. Readings are in the primary sources. No Greek or Latin required.

**Equivalent - Duplicate Degree Credit Not Granted:** CLAS 5081 and HIST 4081

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Ancient History

**CLAS 4091 (3) The Roman Empire**

Intense survey of Imperial Rome from the Roman revolution to the passing of centralized political authority in the western Mediterranean. Emphasizes life, letters and personalities of the empire. No Greek or Latin required.

**Equivalent - Duplicate Degree Credit Not Granted:** CLAS 5091 and HIST 4091

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Ancient History

**CLAS 4099 (3) Ancient Greek Sculpture**

Understanding that Greek sculpture, like all visual media, was part of the fabric of ancient Greek life and expressed the values of its creators and audience is a valuable way to gain insights into the social, economic, and political world of ancient Greece. This course will examine the work of Greek sculptors from the Archaic to the Hellenistic period. Key stylistic and technical developments, as well as significant works of art, sculptors and workshops will be discussed in detail. Some issues we will consider are the physical, religious and/or socio-historical context of individual freestanding sculptures and how specific sculptural programs illustrate aspects of Greek culture. Iconographic and narrative choices made by artists working in stone, compared to other material, will also be addressed.

**Equivalent - Duplicate Degree Credit Not Granted:** CLAS 5099, ARTH 4099 and ARTH 5099

**CLAS 4101 (3) Greek and Roman Slavery**

Surveys slavery in ancient Greece and Rome beginning with its growth, economics and political effects, moving to the life experiences of slaves, resistance and revolt, and finishing with the ideology of slavery. Focuses throughout on the challenge of understanding classical slavery on the basis of scattered and biased evidence and on the controversies that have surrounded this topic.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 4101

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Diversity-Global Perspective

**CLAS 4109 (3) Ancient Italian Painting**

Explores the problems, theories and methods for understanding the iconography, styles, topologies, contexts and techniques of fresco wall painting in ancient Italy from the 6th century B.C.E. to the 4th century C.E. Topics covered include Etruscan tomb paintings, late Republican and early imperial fresco paintings from Rome and Campania and later Roman wall paintings, including the painted images in ancient catacombs. Previous course work on ancient Italy or the history of pre-modern art is highly recommended.

**Equivalent - Duplicate Degree Credit Not Granted:** CLAS 5109 and ARTH 4109 and ARTH 5109

**Recommended:** Prerequisite CLAS 1509 or ARTH 1509 or CLAS 2049 or ARTH 2049.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Art and Archaeology

**CLAS 4110 (3) Greek and Roman Epic**

Students read in English translation the major epics of Graeco-Roman antiquity such as the Iliad, Odyssey, Argonautica, Aeneid, and Metamorphoses. Topics discussed may include the nature of classical epic, its relation to the novel, and its legacy. No Greek or Latin required.

**Equivalent - Duplicate Degree Credit Not Granted:** CLAS 5110 and HUMN 4110

**Additional Information:** Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Literature, Culture, and Thought

**CLAS 4119 (3) Roman Sculpture**

Examines ancient Roman sculpture, emphasizing the display, iconography, and production of private and public monuments in the Roman Empire. Explores sculpture as evidence for historical developments, societal and gender attitudes, and state ideologies in the ancient Roman world.

**Equivalent - Duplicate Degree Credit Not Granted:** CLAS 5119 and ARTH 4119 and ARTH 5119

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Art and Archaeology

**CLAS 4120 (3) Greek and Roman Tragedy**

Intensive study of selected tragedies of Aeschylus, Sophocles, Euripides and Seneca in English translation. No Greek or Latin required.

**Equivalent - Duplicate Degree Credit Not Granted:** CLAS 5120 and HUMN 4120

**Additional Information:** Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Literature, Culture, and Thought

**CLAS 4129 (3) Aegean Art and Archaeology**

Detailed study of the cultures of prehistoric Greece, the Cycladic Islands and Crete, their art and archaeology and their history within the broader context of the eastern Mediterranean, from earliest human settlement to the collapse of the Bronze Age at about 1100 B.C.E. Emphasis is on palace states.

**Equivalent - Duplicate Degree Credit Not Granted:** CLAS 5129 and ANTH 4129 and ANTH 5129 and ARTH 4129

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Art and Archaeology

**CLAS 4130 (3) Greek and Roman Comedy**

Studies Aristophanes, Plautus, and Terence in English translation. No Greek or Latin required.

**Equivalent - Duplicate Degree Credit Not Granted:** CLAS 5130 and HUMN 4130

**Additional Information:** Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Literature, Culture, and Thought

**CLAS 4139 (3) Greek Vase Painting**

A comprehensive overview of Greek vase painting, from prehistoric through the fourth century B.C.E. Emphasis is on learning the development of primary decorative styles and on refining skills of visual analysis, scholarly research, critical thinking, oral commentary and written presentation.

**Equivalent - Duplicate Degree Credit Not Granted:** CLAS 5139 and ARTH 4139 and ARTH 5139

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Art and Archaeology

**CLAS 4140 (3) The Greek and Roman Novel**

Studies a number of complete Greek and Roman novels from Classical Antiquity and their predecessors and contemporary neighbors in the genres of Greek prose fiction. Ancient texts in English translation.

**Equivalent - Duplicate Degree Credit Not Granted:** CLAS 5140 and HUMN 4131

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Literature, Culture, and Thought

**CLAS 4149 (3) Greek Cities and Sanctuaries**

Examines Greek architecture in context, from the ninth century B.C.E. into the Hellenistic period, considering the use of space, both in religious and in civic settings and using texts as well as material culture. Emphasis is on developing analytical skills.

**Equivalent - Duplicate Degree Credit Not Granted:** CLAS 5149 and ARTH 4149

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Art and Archaeology

**CLAS 4169 (3) Topics in Ancient and Classical Art and Archaeology**

In-depth consideration of an aspect of ancient Mediterranean culture. Topics vary and may include ancient wall painting, Greek sculpture, artists and patrons, the ancient Near East, Egyptian art and archaeology, or Etruscan art and archaeology.

**Equivalent - Duplicate Degree Credit Not Granted:** CLAS 5169 and ARTH 4169 and ARTH 5169

**Repeatable:** Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Art and Archaeology

**CLAS 4199 (3) Roman Architecture**

Examines the designs, functions and construction methods of ancient Roman towns, temples, baths, houses and civic structures, as well as utilitarian structures, including roads and aqueducts. Emphasizes Roman architectural forms and spaces as vehicles for political propaganda and empire consolidation.

**Equivalent - Duplicate Degree Credit Not Granted:** CLAS 5199 and ARTH 4199

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Art and Archaeology

**CLAS 4209 (6) Classical Archaeological Field Methods**

Offers experiential learning in theories and methods of archaeological fieldwork in the western Argolid in Greece. Applies methods for extensive survey, stratigraphic excavation, GIS modeling, ceramic analysis, numismatic analysis, architectural studies, artifact and data processing and documentation. Offered abroad only.

**Equivalent - Duplicate Degree Credit Not Granted:** ARTH 4209 and CLAS 5209

**Repeatable:** Repeatable for up to 12.00 total credit hours.

**Recommended:** Prerequisites CLAS 1509 or ARTH 1509 or CLAS/ ARTH 2039 or CLAS/ARTH 2049.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Art and Archaeology

**CLAS 4229 (3) Ancient Egyptian Art and Archaeology**

Archaeology of ancient Egypt in light of recent excavations; the history of excavations of the different sites; and the art of ancient Egypt through time. Formerly ANTH 4420.

**Equivalent - Duplicate Degree Credit Not Granted:** CLAS 5229 and ARTH 4229 and ARTH 5229

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Art and Archaeology

**CLAS 4269 (3) Art and Archaeology of the Ancient Near East**

Examines civilizations of the Iran-Iraq region from the rise of urbanism in Mesopotamia through the era of the first 'world empire,' Achaemenid Persia. Emphasizes the material record of religious and state institutions of the ancient Near East, especially monuments that illustrate concepts of kingship. Explores notions of style, symbolism, visual rhetoric, text-image synthesis, patronage, creativity and roles of artists.

**Equivalent - Duplicate Degree Credit Not Granted:** CLAS 5269 and ARTH 4269 and ARTH 5269

**Recommended:** Prerequisite CLAS 1509 or ARTH 1509.

**Additional Information:** Arts Sci Core Curr: Human Diversity

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Diversity-Global Perspective

Departmental Category: Art and Archaeology

Departmental Category: Asia Content

**CLAS 4761 (3) Roman Law**

Studies the constitutional and legal history of ancient Rome; emphasizes basic legal concepts and comparisons with American law. No Greek or Latin required.

**Equivalent - Duplicate Degree Credit Not Granted:** CLAS 5761 and HIST 4761 and HIST 5761

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Ancient History

**CLAS 4840 (1-4) Independent Study**

No Greek or Latin required.

**Repeatable:** Repeatable for up to 7.00 total credit hours.

**Additional Information:** Departmental Category: Literature, Culture, and Thought

**CLAS 4849 (1-3) Independent Study**

**Repeatable:** Repeatable for up to 7.00 total credit hours.

**Additional Information:** Departmental Category: Art and Archaeology

**CLAS 4852 (1-6) Honors Thesis**

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Additional Information:** Arts Sciences Honors Course

Departmental Category: Classical Philology

**GREK 1013 (4) Beginning Classical Greek 1**

For students with no previous knowledge of Greek. Introduces basic grammar and vocabulary.

**Additional Information:** Arts Sci Core Curr: Foreign Language

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Foreign Language

Departmental Category: Greek

**GREK 1023 (4) Beginning Classical Greek 2**

Completes the presentation of grammar and introduces reading of literature.

**Recommended:** Prerequisite GREK 1013.

**Additional Information:** Arts Sci Core Curr: Foreign Language

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Foreign Language

Departmental Category: Greek

**GREK 3013 (1) Readings in the Greek New Testament and Septuagint**

Readings in ancient (koine) Greek from the New Testament and the Septuagint. Students aim to achieve fluency in reading and to enrich their knowledge of key terms and ideas borrowed from the Greek past in the early Christian tradition. Formerly CLAS 3013.

**Repeatable:** Repeatable for up to 4.00 total credit hours.

**Recommended:** Prerequisites GREK 1013 and GREK 1023.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Greek

**GREK 3113 (3) Intermediate Classical Greek 1**

Reading of selected prose texts of authors in ancient Greek such as Plato, Xenophon, Lysias, and selections from the Greek New Testament. Incorporates review of grammar.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Recommended:** Prerequisites GREK 1013 and GREK 1023.

**Additional Information:** Arts Sci Core Curr: Foreign Language

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Foreign Language

Departmental Category: Greek

**GREK 3123 (3) Intermediate Classical Greek 2**

Reading of selections from Homer or a Greek tragedy in ancient Greek, with attention to literary form and context as well as advanced grammar and syntax.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Recommended:** Prerequisites GREK 1013 and GREK 1023 and

GREK 3113.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Greek

**GREK 4013 (3) Topics in Greek Prose**

Author or topic in ancient Greek specified in the online Schedule Planner (e.g., Thucydides, Herodotus, Plato, Aristotle, Attic Orators).

**Equivalent - Duplicate Degree Credit Not Granted:** GREK 5013

**Repeatable:** Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Greek

**GREK 4023 (3) Topics in Greek Poetry**

Author or topic in ancient Greek specified in the online Schedule Planner (e.g., Homer, Hesiod, lyric poetry, tragedy, comedy).

**Equivalent - Duplicate Degree Credit Not Granted:** GREK 5023

**Repeatable:** Repeatable for up to 9.00 total credit hours.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Greek

**GREK 4093 (3) Survey of Greek Literature**

Greek literary history in ancient Greek from Homer to the Hellenistic age.

**Equivalent - Duplicate Degree Credit Not Granted:** GREK 5093

**Recommended:** Prerequisites GREK 3113 and GREK 3123.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Greek

**GREK 4843 (1-3) Independent Study**

**Repeatable:** Repeatable for up to 7.00 total credit hours.

**Additional Information:** Departmental Category: Greek

**LATN 1014 (4) Beginning Latin 1**

Introduces basic grammar and vocabulary. For students with no previous knowledge of Latin.

**Additional Information:** Arts Sci Core Curr: Foreign Language

Arts Sci Gen Ed: Foreign Language

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Latin

**LATN 1024 (4) Beginning Latin 2**

Continues the presentation of grammar, incorporates review of fundamentals, and introduces the reading of literature. For students with previous experience of Latin.

**Recommended:** Prerequisite LATN 1014 or equivalent.

**Additional Information:** Arts Sci Core Curr: Foreign Language

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Foreign Language

Departmental Category: Latin

**LATN 2004 (3) Accelerated Latin 1**

Intensive introductory course in Latin including a survey of grammar and practice reading and writing. No previous knowledge of Latin is required.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Latin

**LATN 2044 (3) Accelerated Latin 2**

Continuation of LATN 2004. Reading of advanced texts: Caesar, Cicero, Ovid and others.

**Recommended:** Prerequisite LATN 2004.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Latin

**LATN 2114 (4) Intermediate Latin 1**

Completes the presentation of grammar and continues the reading of literature, from a variety of authors of poetry and prose.

**Recommended:** Prerequisite LATN 1024 or equivalent.

**Additional Information:** GT Pathways: GT-AH4 - Arts Hum: Foreign Languages

Arts Sci Core Curr: Foreign Language

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Foreign Language

Departmental Category: Latin

**LATN 2124 (4) Intermediate Latin 2**

Selections from Virgil's Aeneid with attention to literary form and context as well as advanced grammar and syntax.

**Recommended:** Prerequisite LATN 2114.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Latin

**LATN 3014 (3) Introduction to Latin Prose**

Author or topic in Latin specified in the online Schedule Planner (e.g., Cicero, Livy, Pliny). Formerly CLAS 3014.

**Repeatable:** Repeatable for up to 9.00 total credit hours.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Latin

**LATN 3024 (3) Introduction to Latin Poetry**

Author or topic in Latin specified in the online Schedule Planner (e.g., Virgil, Ovid, Catullus, Horace).

**Repeatable:** Repeatable for up to 9.00 total credit hours.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Latin

**LATN 4014 (3) Topics in Latin Prose**

Author or topic in Latin specified in the online Schedule Planner (e.g., Roman historians, Roman epistolography, Cicero, Roman novel).

**Equivalent - Duplicate Degree Credit Not Granted:** LATN 5014

**Repeatable:** Repeatable for up to 9.00 total credit hours.

**Recommended:** Prerequisites LATN 3014 and LATN 3024.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Latin

**LATN 4024 (3) Latin Prose Composition**

Reviews grammar and syntax. Introduces Latin prose style and composition.

**Equivalent - Duplicate Degree Credit Not Granted:** LATN 5024

**Recommended:** Prerequisites LATN 3014 and LATN 3024.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Latin

**LATN 4044 (3) Topics in Latin Poetry**

Author or topic specified in Latin specified in the online Schedule Planner (e.g., Roman elegy, Neronian poetry, Lucretius, Roman satire).

**Equivalent - Duplicate Degree Credit Not Granted:** LATN 5044

**Repeatable:** Repeatable for up to 9.00 total credit hours.

**Recommended:** Prerequisites LATN 3014 and LATN 3024.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Latin

**LATN 4084 (3) Survey of Roman Literature Part 2: Imperial**

Covers Imperial Roman literary history from the mid-late Augustan Period to the start of Late Antiquity. Students read principal surviving works of Imperial Roman poetry and prose in the original Latin.

**Equivalent - Duplicate Degree Credit Not Granted:** LATN 5084

**Recommended:** Prerequisites LATN 3014 and LATN 3024.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Latin

**LATN 4094 (3) Survey of Roman Literature Part 1: Republican to Augustan**

Introduces Roman literary history from its origins to the 30s BCE. Students read principal surviving works of the Roman Republican poetry and prose in the original Latin.

**Equivalent - Duplicate Degree Credit Not Granted:** LATN 5094

**Recommended:** Prerequisites LATN 3014 and LATN 3024.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Latin

**LATN 4824 (3) Latin Teaching Methods: Open Topics**

Covers specialized topics in Latin pedagogy specified in the online Schedule Planner.

**Equivalent - Duplicate Degree Credit Not Granted:** LATN 5824

**Additional Information:** Departmental Category: Latin

**LATN 4844 (1-3) Independent Study**

Formerly CLAS 4844.

**Repeatable:** Repeatable for up to 7.00 total credit hours.

**Additional Information:** Departmental Category: Latin

## Classics - Bachelor of Arts (BA)

Through consultation with the undergraduate advisor, the bachelor's degree in classics is tailored to the student's interests in the field. Major and minor programs can be arranged with a concentration in either Latin or Greek or a combination of the two, with a focus on classical literature, culture and thought (including mythology, literature, philosophy, religion, art, archaeology and history), classical history, art and archaeology, or classical civilization. Prospective majors and minors should consult with the undergraduate advisor.

The undergraduate degree in classics emphasizes knowledge and awareness of:

- the fundamental outlines of the history of Greek and Roman literature, from Homer to the end of classical antiquity;
- the historical and cultural contexts of particular works; and
- the art, religion and philosophy of ancient Greece and Rome and their roles in world cultural history.

In addition, students completing the degree in classics are expected to acquire the ability and skills to:

- read, understand and interpret written documents and works of literature in ancient Greek or Latin where relevant, as well as in translation;

- communicate in spoken and written form with adequate clarity and complexity for the relevant audience; and
- read and think critically.

Interested students are encouraged to consult the department's Undergraduate (<https://www.colorado.edu/classics/undergraduate>) webpage for more information.

## Requirements

### Program Requirements

Students must complete the general requirements of the College of Arts and Sciences and the required courses listed below. Students must complete the major requirements in one of the tracks below, including: a minimum of 36 credit hours, all with a grade of a C- or better, in the major; a minimum 2.000 GPA for courses in the major; and a minimum of 18 upper-division credit hours in the major.

### Track I: Greek, Latin or Greek and Latin

#### Required Courses and Credits

Code	Title	Credit Hours
Greek and/or Latin <sup>1</sup>		30
Select 6 elective credit hours from either of the following groups:		6
Classical Literature, Culture and Thought Group:		
CLAS 1010	The Study of Words	
CLAS 1020	Argument from Evidence: Critical Writing about the Ancient World	
CLAS 1030	Introduction to Western Philosophy: Ancient	
CLAS 1100	Greek and Roman Mythology	
CLAS 1110	Gods, Monsters and Mortals: Literature of Ancient Greece	
CLAS 1115	Masterpieces of Greek Literature in Translation	
CLAS 1120	Power and Passion in Ancient Rome	
CLAS 1140	Bread and Circuses: Society and Culture in the Roman World	
CLAS 2020	Science in the Ancient World	
CLAS 2100	Gender and Sexuality in Ancient Greece	
CLAS 2110	Gender and Sexuality in Ancient Rome	
CLAS 2610	Paganism to Christianity	
CLAS 3400	Special Topics in Classics	
CLAS 4040	Seminar in Classical Antiquity	
CLAS 4110	Greek and Roman Epic	
CLAS 4120	Greek and Roman Tragedy	
CLAS 4130	Greek and Roman Comedy	
CLAS 4140	The Greek and Roman Novel	
CLAS 4840	Independent Study	
HEBR 1030	Beginning Biblical Hebrew, First Semester	
PHIL 3000	History of Ancient Philosophy	
Ancient History, Art, and Archaeology Group:		
CLAS 1051	The World of the Ancient Greeks	
CLAS 1061	The Rise and Fall of Ancient Rome	
CLAS 1071	Ancient Sport and Spectacle	

CLAS 1509	Trash and Treasure, Temples and Tombs: Art and Archaeology of the Ancient World
CLAS 2029	Art and Archaeology of Ancient Egypt
CLAS 2039	Greek Art and Archaeology
CLAS 2041	War and Society in Ancient Greece
CLAS 2049	Introduction to Roman Art and Architecture
CLAS 3009	Modern Issues, Ancient Times
CLAS 3019	Pompeii and the Cities of Vesuvius
CLAS 3119	The Archaeology of Death
CLAS 4021	Athens and Greek Democracy
CLAS 4031	Alexander the Great and the Rise of Macedonia
CLAS 4041	Classical Greek Political Thought
CLAS 4061	Twilight of Antiquity
CLAS 4071	Seminar in Ancient Social History

CLAS 4129	Aegean Art and Archaeology
CLAS 4139	Greek Vase Painting
CLAS 4149	Greek Cities and Sanctuaries
CLAS 4169	Topics in Ancient and Classical Art and Archaeology
CLAS 4199	Roman Architecture
CLAS 4209	Classical Archaeological Field Methods
CLAS 4229	Ancient Egyptian Art and Archaeology
CLAS 4269	Art and Archaeology of the Ancient Near East
CLAS 4761	Roman Law
CLAS 4849	Independent Study
<hr/>	
Total Credit Hours	36

<sup>1</sup> Students should designate either Greek or Latin as the primary field of language study. Only courses above the introductory sequence (GREK 1013-GREK 1023 and LATN 1014-LATN 1024) of the primary language count towards the major. If a student also takes the second language, all credit hours taken in that language as well as any other Greek and Latin credit hours above the 1000-level count toward the major. If a student has learned the equivalent of the introductory sequence in the primary language before beginning language study at CU and begins language instruction in the department at the 2000-level or above, all credit hours in both languages immediately count toward the major.

With the approval of the undergraduate faculty advisor, additional Greek or Latin courses may be substituted in place of classical literature, culture and thought or ancient history, art and archaeology courses.

## Track II: Literature, Culture, and Thought

### Required Courses and Credits

Code	Title	Credit Hours
Select 18 credit hours from the following Classical Literature, Culture and Thought group:		18
CLAS 1010	The Study of Words	

CLAS 1020	Argument from Evidence: Critical Writing about the Ancient World
CLAS 1030	Introduction to Western Philosophy: Ancient
CLAS 1100	Greek and Roman Mythology
CLAS 1110	Gods, Monsters and Mortals: Literature of Ancient Greece
CLAS 1115	Masterpieces of Greek Literature in Translation
CLAS 1120	Power and Passion in Ancient Rome
CLAS 1140	Bread and Circuses: Society and Culture in the Roman World
CLAS 2020	Science in the Ancient World
CLAS 2100	Gender and Sexuality in Ancient Greece
CLAS 2110	Gender and Sexuality in Ancient Rome
CLAS 2610	Paganism to Christianity
CLAS 3400	Special Topics in Classics
CLAS 4040	Seminar in Classical Antiquity
CLAS 4110	Greek and Roman Epic
CLAS 4120	Greek and Roman Tragedy
CLAS 4130	Greek and Roman Comedy
CLAS 4140	The Greek and Roman Novel
CLAS 4840	Independent Study
HEBR 1030	Beginning Biblical Hebrew, First Semester
PHIL 3000	History of Ancient Philosophy

Select 12 credit hours from the following Ancient History, Art and Archaeology group: 12

CLAS 1051	The World of the Ancient Greeks
CLAS 1061	The Rise and Fall of Ancient Rome
CLAS 1071	Ancient Sport and Spectacle
CLAS 1509	Trash and Treasure, Temples and Tombs: Art and Archaeology of the Ancient World
CLAS 2029	Art and Archaeology of Ancient Egypt
CLAS 2039	Greek Art and Archaeology
CLAS 2041	War and Society in Ancient Greece
CLAS 2049	Introduction to Roman Art and Architecture
CLAS 3009	Modern Issues, Ancient Times
CLAS 3019	Pompeii and the Cities of Vesuvius
CLAS 3119	The Archaeology of Death
CLAS 4021	Athens and Greek Democracy
CLAS 4031	Alexander the Great and the Rise of Macedonia
CLAS 4041	Classical Greek Political Thought
CLAS 4061	Twilight of Antiquity
CLAS 4071	Seminar in Ancient Social History

Greek and/or Latin <sup>1</sup>		3
An additional 24 elective hours in any of the previously named categories: Literature Culture and Thought, History, Art and Archaeology, Greek or Latin.		24
Total Credit Hours		36

<sup>1</sup> **At least 3 credits.** All those preparing themselves for the major must take one language course. Students with no prior knowledge of Greek or Latin may take one semester or more of the beginning sequence of either language (GREK 1013 or LATN 1014). Students who have studied Latin or Greek prior to entering the major may instead take a more advanced-level course in Latin (LATN 2114 or higher) or Greek (GREK 3113 or higher). Consult with the Latin Program Coordinator or the undergraduate faculty advisor to determine the right level for you. Additional Greek or Latin courses may be substituted in place of literature, culture and thought, history, or art and archaeology courses.

With the approval of the undergraduate faculty advisor, additional Greek or Latin courses may be substituted in place of classical literature, culture and thought or ancient history, art and archaeology courses.

## Graduating in Four Years

Consult the Four-Year Guarantee Requirements for information on eligibility. The concept of "adequate progress" as it is used here refers only to maintaining eligibility for the four-year guarantee; it is not a requirement for the major. To maintain adequate progress towards graduation in classics within four years, students should meet the following requirements:

- Declare the classics major by the beginning of the second semester.
- Students must consult frequently with a major advisor to determine adequate progress toward completion of the major.

## Recommended Four-Year Plan of Study

Through the required coursework for the major, students will fulfill all 12 credits of the Arts & Humanities area of the Gen Ed Distribution Requirement.

Course	Title	Credit Hours
<b>Year One</b>		
<b>Fall Semester</b>		
LATN/GREK Beginning Latin or Greek I (If needed, does not count toward 30 credit language requirement)		4
CLAS Elective Course or Elective/MAPS		3

## Bachelor's–Accelerated Master's Degree Program(s)

The Bachelor's–Accelerated Master's (BAM) degree program options offer currently enrolled CU Boulder undergraduate students the opportunity to receive a bachelor's and master's degree in a shorter period of time. Students receive the bachelor's degree first, but begin taking graduate coursework as undergraduates (typically in their senior year). Because some courses are allowed to double count for both the bachelor's and the master's degrees, students receive a master's degree in less time and at a lower cost than if they were to enroll in a stand-alone master's degree program after completion of their baccalaureate degree. In addition, staying at CU Boulder to pursue a bachelor's–accelerated master's program enables students to continue working with their established faculty mentors.

## BA and MA in Classics

The five-year Bachelor's–Accelerated Master's degree program in Classics is designed for students who enter the University of Colorado

ready to take courses in Latin or Greek at the 3000-level or above, and who wish to prepare themselves for application to competitive PhD programs in Classics. Students will normally need to study both Latin and Greek in order to meet their course requirements within five years: course offerings in just one language will normally not be sufficient, and competence in both languages is in any case necessary for competitive entry to PhD programs in Classics, which is the goal of this degree. The five-year degree combines the BA in Greek and/or Latin (Track I) with the MA in classics with concentration in Greek or Latin (Program I), Plan II (no thesis). Students with strong research interests may be able to complete the BA with honors or the MA with concentration in Greek or Latin, Plan I (with thesis).

## Admissions Requirements

In order to gain admission by application in the second semester of the sophomore year to the BAM program named above, a student must meet the following criteria:

- Have a cumulative GPA of 3.0 or higher
- Have completed a minimum of 60 credit hours of coursework
- Transfer students must have completed a minimum of 24 credit hours at CU Boulder

## Program Requirements

Students may take up to and including 12 hours of graduate credit while in the undergraduate program which can later be used toward the master's degree. However, only 6 credits may be double counted toward the bachelor's degree and the master's degree; those 6 credits must be at the graduate level (5000 level or above) and may not be used to diminish the language class requirement for either degree. Students must apply to graduate with the bachelor's degree, and apply to continue with the master's degree, early in the semester in which the undergraduate requirements will be completed.<sup>1</sup>

If you are interested in the BAM degree program, please contact the Classics graduate program for more information.

<sup>1</sup>Students who were admitted prior to July 2019 follow a concurrent Bachelor's/Master's structure, and the two degrees are awarded simultaneously when requirements for both degrees are met.

## Classics - Minor

The department offers courses in language and literature, ancient history, art and archaeology, and philosophy within several programs of study. Classics ranks among the most vibrant programs in humanistic studies at the University of Colorado, a department in which students at every level are challenged to integrate the world of scholarship into their daily lives. The department offers a minor in classics that can satisfy your needs.

## Requirements

### Program Requirements

The department offers a minor in classics for students who would like to study the world of antiquity but don't have the time to devote to a major. Students are subject to the College of Arts and Sciences minor requirements, including:

- a minimum of 18 credit hours, all with a grade of C- or better, in the minor,

- a minimum of 9 upper-division credit hours in the minor, and
- a minimum 2.00 GPA for courses in the minor.

Students can concentrate in either classical language/literature or classical studies. The specific requirements for completion of the classics minor are as follows:

## Required Courses and Credits

Code	Title	Credit Hours
<b>Required Courses</b>		
CLAS/LATN/GREK	lower- or upper-division course work (or other approved courses).	9
CLAS/LATN/GREK	upper-division course work (or other approved courses).	9
Total Credit Hours		18

## Program Tracks

### Track I: Greek and/or Latin Language and Literature

Code	Title	Credit Hours
<b>Required Courses</b>		
	Greek and/or Latin <sup>1, 2</sup>	12
<b>Electives</b>		
	Select 6 credit hours from either of the following groups.	6
<i>Classical Literature, Culture and Thought</i>		
CLAS 1010	The Study of Words	
CLAS 1020	Argument from Evidence: Critical Writing about the Ancient World	
CLAS 1030	Introduction to Western Philosophy: Ancient	
CLAS 1100	Greek and Roman Mythology	
CLAS 1110	Gods, Monsters and Mortals: Literature of Ancient Greece	
CLAS 1115	Masterpieces of Greek Literature in Translation	
CLAS 1120	Power and Passion in Ancient Rome	
CLAS 1140	Bread and Circuses: Society and Culture in the Roman World	
CLAS 2020	Science in the Ancient World	
CLAS 2100	Gender and Sexuality in Ancient Greece	
CLAS 2110	Gender and Sexuality in Ancient Rome	
CLAS 2610	Paganism to Christianity	
CLAS 3400	Special Topics in Classics	
CLAS 4040	Seminar in Classical Antiquity	
CLAS 4110	Greek and Roman Epic	
CLAS 4120	Greek and Roman Tragedy	
CLAS 4130	Greek and Roman Comedy	
CLAS 4140	The Greek and Roman Novel	
CLAS 4840	Independent Study	
HEBR 1030	Beginning Biblical Hebrew, First Semester	
PHIL 3000	History of Ancient Philosophy	
<i>Ancient History, Art, and Archaeology</i>		
CLAS 1051	The World of the Ancient Greeks	
CLAS 1061	The Rise and Fall of Ancient Rome	

CLAS 1071	Ancient Sport and Spectacle
CLAS 1509	Trash and Treasure, Temples and Tombs: Art and Archaeology of the Ancient World
CLAS 2029	Art and Archaeology of Ancient Egypt
CLAS 2039	Greek Art and Archaeology
CLAS 2041	War and Society in Ancient Greece
CLAS 2049	Introduction to Roman Art and Architecture
CLAS 3009	Modern Issues, Ancient Times
CLAS 3019	Pompeii and the Cities of Vesuvius
CLAS 3119	The Archaeology of Death
CLAS 4021	Athens and Greek Democracy
CLAS 4031	Alexander the Great and the Rise of Macedonia
CLAS 4041	Classical Greek Political Thought
CLAS 4061	Twilight of Antiquity
CLAS 4071	Seminar in Ancient Social History
CLAS 4081	The Roman Republic
CLAS 4091	The Roman Empire
CLAS 4109	Ancient Italian Painting
CLAS 4119	Roman Sculpture
CLAS 4129	Aegean Art and Archaeology
CLAS 4139	Greek Vase Painting
CLAS 4149	Greek Cities and Sanctuaries
CLAS 4169	Topics in Ancient and Classical Art and Archaeology
CLAS 4199	Roman Architecture
CLAS 4209	Classical Archaeological Field Methods
CLAS 4229	Ancient Egyptian Art and Archaeology
CLAS 4269	Art and Archaeology of the Ancient Near East
CLAS 4761	Roman Law
CLAS 4849	Independent Study

Total Credit Hours 18

<sup>1</sup> Students should designate either Greek or Latin as the primary field of language study. Only courses above the introductory sequence (GREK 1013/GREK 1023 and LATN 1014/LATN 1024) of the primary language count towards the minor. If a student also takes the second language, all credit hours taken in that language as well as any other Greek and Latin credit hours above the 1000 level count toward the minor. If a student has learned the equivalent of the introductory sequence in the primary language before beginning language study at CU and begins language instruction in the department at the 2000 level or above, all credit hours in both languages immediately count toward the minor.

<sup>2</sup> With the approval of the undergraduate faculty advisor, additional upper-division Greek or Latin courses may be substituted in place of classical literature, culture and thought or ancient history, art and archaeology courses.

## Track II: Classical Studies

Code	Title	Credit Hours
<b>Electives</b> <sup>1</sup>		
	<i>Classical Literature, Culture and Thought</i>	6

Select at least 6 credit hours from the following:

CLAS 1010	The Study of Words
CLAS 1020	Argument from Evidence: Critical Writing about the Ancient World
CLAS 1030	Introduction to Western Philosophy: Ancient
CLAS 1100	Greek and Roman Mythology
CLAS 1110	Gods, Monsters and Mortals: Literature of Ancient Greece
CLAS 1115	Masterpieces of Greek Literature in Translation
CLAS 1120	Power and Passion in Ancient Rome
CLAS 1140	Bread and Circuses: Society and Culture in the Roman World
CLAS 2020	Science in the Ancient World
CLAS 2100	Gender and Sexuality in Ancient Greece
CLAS 2110	Gender and Sexuality in Ancient Rome
CLAS 2610	Paganism to Christianity
CLAS 3400	Special Topics in Classics
CLAS 4040	Seminar in Classical Antiquity
CLAS 4110	Greek and Roman Epic
CLAS 4120	Greek and Roman Tragedy
CLAS 4130	Greek and Roman Comedy
CLAS 4140	The Greek and Roman Novel
CLAS 4840	Independent Study
HEBR 1030	Beginning Biblical Hebrew, First Semester
PHIL 3000	History of Ancient Philosophy

### Ancient History

Select at least 3 credit hours from the following: 3

CLAS 1051	The World of the Ancient Greeks
CLAS 1061	The Rise and Fall of Ancient Rome
CLAS 1071	Ancient Sport and Spectacle
CLAS 2041	War and Society in Ancient Greece
CLAS 4021	Athens and Greek Democracy
CLAS 4031	Alexander the Great and the Rise of Macedonia
CLAS 4041	Classical Greek Political Thought
CLAS 4061	Twilight of Antiquity
CLAS 4071	Seminar in Ancient Social History
CLAS 4081	The Roman Republic
CLAS 4091	The Roman Empire
CLAS 4761	Roman Law

### Art and Archaeology

Select at least 3 credit hours from the following: 3

CLAS 1509	Trash and Treasure, Temples and Tombs: Art and Archaeology of the Ancient World
CLAS 2029	Art and Archaeology of Ancient Egypt
CLAS 2039	Greek Art and Archaeology
CLAS 2049	Introduction to Roman Art and Architecture
CLAS 3009	Modern Issues, Ancient Times
CLAS 3019	Pompeii and the Cities of Vesuvius
CLAS 3119	The Archaeology of Death
CLAS 4109	Ancient Italian Painting
CLAS 4119	Roman Sculpture

CLAS 4129	Aegean Art and Archaeology
CLAS 4139	Greek Vase Painting
CLAS 4149	Greek Cities and Sanctuaries
CLAS 4169	Topics in Ancient and Classical Art and Archaeology
CLAS 4199	Roman Architecture
CLAS 4209	Classical Archaeological Field Methods
CLAS 4229	Ancient Egyptian Art and Archaeology
CLAS 4269	Art and Archaeology of the Ancient Near East
CLAS 4849	Independent Study

*Additional Electives*

Select an additional 6 hours in any of the previously named categories or Greek or Latin. 6

Total Credit Hours 18

<sup>1</sup> Greek and/or Latin courses may be substituted in place of courses in the three subject groups: Classical Literature, Culture and Thought; Ancient History; and Art and Archaeology.

## Cognitive Science

Cognitive science is the study of human knowledge, of which one aspect is the study of how knowledge is acquired, stored and represented in the mind, including the mind's underlying biological mechanisms. Another aspect of cognitive science concerns how knowledge is understood, remembered, communicated and used in the performance of activities, including the acquisition and application of skills and information. This latter aspect provides the practical applications of cognitive science, and thereby ensures a demand for graduates in both academic and industrial markets.

Undergraduate students majoring in computer science; information science, integrative physiology; linguistics; philosophy; psychology and neuroscience; education; speech, language, hearing sciences may be interested in extending the breadth of their undergraduate studies to include the cognitive sciences and earn an undergraduate Certificate in Cognitive Science.

Training for graduates in cognitive science prepares students admirably for many of the fields that are targeted as the major growth fields of the 21st century: telecommunications, information processing, medical analysis, data retrieval, education and multimedia services.

The undergraduate program includes courses in the eight core departments with basic courses and two of five possible advanced skill sequences of courses. For more information, visit the Institute of Cognitive Science's Undergraduate Program (<http://www.colorado.edu/ics/undergraduate-program>) webpage.

## Certificate

- Cognitive Science - Certificate (p. 213)

## Cognitive Science - Certificate

Undergraduate students majoring in psychology and neuroscience; philosophy; linguistics; computer science; speech, language and hearing sciences; education; integrative physiology; information science; or

architecture and planning may be interested in extending the breadth of their undergraduate studies to earn a certificate in cognitive science.

Training in cognitive science prepares students admirably well for many of the fields that are targeted as the major growth fields of the 21st century: telecommunications, information processing, medical analysis, data retrieval, education and multimedia. As the world is enveloped by the information age, cognitive scientists will be uniquely positioned to deal with this information.

Students interested in the program can learn more on the department's Undergraduate Program (<https://www.colorado.edu/ics/undergraduate-program>) webpage.

## Requirements

To earn the certificate, students must take at least six courses for a minimum of 18 credit hours. Students must receive a grade of C or better in all courses for the certificate and must have an overall grade point average of 3.0 or better.

Additional credit hours may be required as prerequisites to classes chosen to fulfill the certificate plan of study, but these courses usually also fulfill degree requirements. Proposed substitute courses must be preapproved by the ICS Academic Director.

## Required Courses and Credits

Code	Title	Credit Hours
<b>Required Courses</b>		
PSYC 2145	Introductory Cognitive Psychology	3
CSCI 3702/ PHIL 3310/ LING 3005/PSYC 3005/SLHS 3003	Cognitive Science	3
<b>Advanced Skills Requirements</b>		12-14
Take a two-course advanced skills sequence from two of the following five areas, one sequence may be in the student's major.		
<i>Psychology</i>		
Taking classes in the psychology focus area would require a minimum of 7 units, and an additional minimum of 4 units for prerequisites.		
PSYC 4145	Advanced Cognitive Psychology	
NRSC 4032	Neurobiology of Learning and Memory	
PSYC 4155	Cognitive Neuroscience/Neuropsychology	
PSYC 4165	Psychology of Perception	
PSYC 4175	Computational Cognitive Neuroscience	
PSYC 4220	Language and Mind	
<i>Linguistics</i>		
Taking classes in the linguistics focus area would require a minimum of 6 units, and an additional minimum of 3 units for prerequisites.		
LING 3100	Language Sound Structures	
LING 3430	Semantics	
LING 4220	Language and Mind	
LING 4420	Morphology and Syntax	
LING 4560	Language Development	

### *Computer Science*

Taking classes in the computer science focus area would require a minimum of 6 units and an additional minimum of 4 units for prerequisites. Choose two of the following:

CSCI 3002	Fundamentals of Human Computer Interaction
CSCI 3202	Introduction to Artificial Intelligence
CSCI 4830	Special Topics in Computer Science

#### Philosophy

Taking classes in the Philosophy focus area would require a minimum of 6 units, and an additional minimum of 3 units for prerequisites. Two of the following six courses in Philosophy:

PHIL 4300	Philosophy of Mind
PHIL 4340	Epistemology
PHIL 4400	Philosophy of Science
PHIL 4460	Modal Logic
PHIL 4490	Philosophy of Language

#### Speech, Language and Hearing Sciences

Taking classes in the speech, language and hearing Sciences focus area would require a minimum of 6 units, and an additional 3 units for prerequisites.

SLHS 3006	Phonetics
SLHS 3106	Hearing Science
SLHS 3116	Speech Science
SLHS 4502	Language Disorders Across the Lifespan
SLHS 4560	Language Development

Total Credit Hours

18-20

## Computer Science

Computer science is an exciting and challenging field that has impact on many parts of our lives. Computer scientists craft the technologies that enable the digital devices we use every day. They develop the large-scale software that powers business and industry, advance the computational techniques, and write the software that supports scientists in their study of the world around us. Many new applications of computing technology remain to be discovered. Computing will be at the heart of future revolutions in business, science and society. Students who study computer science will be at the forefront of these important advances.

Computer science offers study in the fields of computer systems, cyber security, robotics, algorithm design, artificial intelligence, software and web engineering, programming languages, database design, human-computer interaction, machine learning, data science, numerical and parallel computing, speech and language processing and theoretical computer science.

Computer science is concerned with how computers are constructed, how they store and process data, how they are used in problem solving and how the quality of those solutions is assessed. It is about the science of creating software for a variety of users, and understanding how that software interacts with the hardware on which it is run and goes well beyond the machine to the study of how people interact with the technologies around them. Applications of computer science reach far and wide.

For more information, visit the Department of Computer Science (<http://www.colorado.edu/cs>) website.

The course code for this program is CSCI.

## Career Possibilities

Computer science graduates from CU Boulder are engaged in a wide variety of jobs with many different companies in locations all over the world. They produce the software and systems that touch lives every day in fields as diverse as scientific exploration, communication, finance, medicine, manufacturing, entertainment and research. Many are software developers, but others become teachers, writers, doctors, lawyers, scientists, military leaders and entrepreneurs. They work at some of the largest, most influential companies in the world, at research institutions, nonprofits and at the smallest start-ups of every type imaginable.

## Facilities, Programs and Opportunities

The Department of Computer Science uses a modern computing infrastructure that supports its research and educational missions. This includes general purpose computing labs provided by the university, additional instructional labs and administrative computing resources provided by the department, and specialized labs dedicated to the work of individual research groups. A wide variety of computing resources are available so that students have the opportunity to learn about and use cutting-edge equipment and software. The university research computing service maintains a supercomputer, high-speed networking and advanced computing infrastructure for the campus. The computer science educational culture emphasizes the use of individual laptop computers, including their use in courses and group work.

There are many networking opportunities available with companies offering paid internships. Boulder's tech start-up community, tech companies, and research labs provide students with many employment opportunities while earning their degrees. There are also extensive opportunities for undergraduate students to participate in research projects across the campus.

The Undergraduate Research Opportunities Program (UROP) offers students a chance to work alongside a faculty sponsor on original research. Students learn to write proposals, conduct research, pursue creative work, analyze data and present the results. For more information, call UROP at 303-492-2596 or visit the UROP (<http://www.colorado.edu/suep/urop>) website.

## Bachelor's Degree

- Computer Science - Bachelor of Arts (BA) (p. 224)

## Faculty

While many faculty teach both undergraduate and graduate students, some instruct students at the undergraduate level only. For more information, contact the faculty member's home department.

Kolla, Alexandra ([https://experts.colorado.edu/display/fisid\\_160001](https://experts.colorado.edu/display/fisid_160001))  
Associate Professor; PhD, University of California, Berkeley

Larremore, Daniel B. ([https://experts.colorado.edu/display/fisid\\_159893](https://experts.colorado.edu/display/fisid_159893))  
Assistant Professor; PhD, University of Colorado Boulder

Layer, Ryan M. ([https://experts.colorado.edu/display/fisid\\_163567](https://experts.colorado.edu/display/fisid_163567))  
Assistant Professor; PhD, University of Virginia

Leithinger, Daniel ([https://experts.colorado.edu/display/fisid\\_163356](https://experts.colorado.edu/display/fisid_163356))  
Assistant Professor; PhD, Massachusetts Institute of Technology

Lewis, Clayton H. ([https://experts.colorado.edu/display/fisid\\_100307](https://experts.colorado.edu/display/fisid_100307))  
Professor; PhD, University of Michigan Ann Arbor

Lv, Qin ([https://experts.colorado.edu/display/fisid\\_145832](https://experts.colorado.edu/display/fisid_145832))  
Associate Professor, Associate Chair; PhD, Princeton University

Main, Michael G.  
Professor Emeritus

Martin, James H. ([https://experts.colorado.edu/display/fisid\\_100495](https://experts.colorado.edu/display/fisid_100495))  
Professor; PhD, University of California, Berkeley

Massey, Daniel ([https://experts.colorado.edu/display/fisid\\_159491](https://experts.colorado.edu/display/fisid_159491))  
Professor; PhD, University of California, Los Angeles

Mathew, Tarek  
Professor Adjunct

McBryan, Oliver  
Professor Emeritus

Mishra, Shivakant ([https://experts.colorado.edu/display/fisid\\_118376](https://experts.colorado.edu/display/fisid_118376))  
Professor, Associate Chair; PhD, University of Arizona

Monteleoni, Claire Elizabeth ([https://experts.colorado.edu/display/fisid\\_163979](https://experts.colorado.edu/display/fisid_163979))  
Associate Professor; PhD, Massachusetts Institute of Technology

Morrison, Rebecca  
Assistant Professor

Mozer, Michael C. ([https://experts.colorado.edu/display/fisid\\_105922](https://experts.colorado.edu/display/fisid_105922))  
Professor; PhD, University of California, San Diego

Muzny, Grace ([https://experts.colorado.edu/display/fisid\\_159890](https://experts.colorado.edu/display/fisid_159890))  
Instructor; MS, Stanford University

Nelson, Thomas  
Instructor

Nutt, Gary J.  
Professor Emeritus

Palen, Leysia A. ([https://experts.colorado.edu/display/fisid\\_114604](https://experts.colorado.edu/display/fisid_114604))  
Professor; PhD, University of California, Irvine

Palmer, Martha ([https://experts.colorado.edu/display/fisid\\_138162](https://experts.colorado.edu/display/fisid_138162))  
Professor; PhD, University of Edinburgh (Scotland)

Paradise, Alan ([https://experts.colorado.edu/display/fisid\\_158849](https://experts.colorado.edu/display/fisid_158849))  
Instructor; MS, Washington University in St. Louis

Paul, Michael J. ([https://experts.colorado.edu/display/fisid\\_156070](https://experts.colorado.edu/display/fisid_156070))  
Assistant Professor; PhD, Johns Hopkins University

Peleg, Orit ([https://experts.colorado.edu/display/fisid\\_159998](https://experts.colorado.edu/display/fisid_159998))  
Assistant Professor; PhD, ETH Zürich (Switzerland)

Phillips, Caleb Timothy ([https://experts.colorado.edu/display/fisid\\_152384](https://experts.colorado.edu/display/fisid_152384))  
Assistant Professor Adjunct

Rahimian, Abtin ([https://experts.colorado.edu/display/fisid\\_159792](https://experts.colorado.edu/display/fisid_159792))  
Assistant Professor; PhD, Georgia Institute of Technology

Repenning, Alexander ([https://experts.colorado.edu/display/fisid\\_104946](https://experts.colorado.edu/display/fisid_104946))  
Research Professor; PhD, University of Colorado Boulder

Roncone, Alessandro ([https://experts.colorado.edu/display/fisid\\_164509](https://experts.colorado.edu/display/fisid_164509))  
Assistant Professor; PhD, Istituto Italiano di Tecnologia (Italy)

Roque, Ricarose ([https://experts.colorado.edu/display/fisid\\_158315](https://experts.colorado.edu/display/fisid_158315))  
Assistant Professor; PhD, Massachusetts Institute of Technology

Rozner, Eric  
Assistant Professor; PhD, University of Texas at Austin

Sanders, Bruce W.  
Professor Emeritus

Sankaranarayanan, Sriram ([https://experts.colorado.edu/display/fisid\\_147413](https://experts.colorado.edu/display/fisid_147413))  
Associate Professor; PhD, Stanford University

Schnabel, Robert B. ([https://experts.colorado.edu/display/fisid\\_100499](https://experts.colorado.edu/display/fisid_100499))  
Professor, Faculty Director; PhD, Cornell University

Schreüder, Willem A. ([https://experts.colorado.edu/display/fisid\\_143834](https://experts.colorado.edu/display/fisid_143834))  
Assistant Professor Adjunct

Shapiro, Ben ([https://experts.colorado.edu/display/fisid\\_156418](https://experts.colorado.edu/display/fisid_156418))  
Assistant Professor; PhD, Northwestern University

Sumner, Tamara ([https://experts.colorado.edu/display/fisid\\_105742](https://experts.colorado.edu/display/fisid_105742))  
Professor; PhD, University of Colorado Boulder

Szafir, Daniel J. ([https://experts.colorado.edu/display/fisid\\_156420](https://experts.colorado.edu/display/fisid_156420))  
Assistant Professor; PhD, University of Wisconsin–Madison

Szafir, Danielle N. ([https://experts.colorado.edu/display/fisid\\_156317](https://experts.colorado.edu/display/fisid_156317))  
Assistant Professor; PhD, University of Wisconsin–Madison

Tan, Chenhao ([https://experts.colorado.edu/display/fisid\\_158938](https://experts.colorado.edu/display/fisid_158938))  
Assistant Professor; PhD, Cornell University

Trivedi, Ashutosh ([https://experts.colorado.edu/display/fisid\\_156589](https://experts.colorado.edu/display/fisid_156589))  
Assistant Professor; PhD, University of Warwick (UK)

Tufo, Henry ([https://experts.colorado.edu/display/fisid\\_127040](https://experts.colorado.edu/display/fisid_127040))  
Professor; PhD, Brown University

Voida, Amy Kathryn Mitchell ([https://experts.colorado.edu/display/fisid\\_155855](https://experts.colorado.edu/display/fisid_155855))  
Assistant Professor; PhD, Georgia Institute of Technology

Voida, Stephen A. ([https://experts.colorado.edu/display/fisid\\_155856](https://experts.colorado.edu/display/fisid_155856))  
Assistant Professor; PhD, Georgia Institute of Technology

Vu, Tam Ngoc ([https://experts.colorado.edu/display/fisid\\_159772](https://experts.colorado.edu/display/fisid_159772))  
Assistant Professor; PhD, Rutgers University

Waite, William M.  
Professor Emeritus

Ward, Wayne Hinson ([https://experts.colorado.edu/display/fisid\\_114680](https://experts.colorado.edu/display/fisid_114680))  
Research Professor; PhD, University of Colorado Boulder

Winklmann, Karl A.  
Senior Instructor Emeritus

Wong, Tony ([https://experts.colorado.edu/display/fisid\\_159678](https://experts.colorado.edu/display/fisid_159678))  
Instructor; PhD, University of Colorado Boulder

Wustrow, Eric A. ([https://experts.colorado.edu/display/fisid\\_156419](https://experts.colorado.edu/display/fisid_156419))  
Assistant Professor; BE, University of Michigan Ann Arbor

Yeh, Tom ([https://experts.colorado.edu/display/fisid\\_151584](https://experts.colorado.edu/display/fisid_151584))  
Assistant Professor; PhD, Massachusetts Institute of Technology

Zagrodzki, Maciej  
Instructor; MSc, Colorado School of Mines

## Courses

### CSCI 1000 (1) Computer Science as a Field of Work and Study

Introduces curriculum, learning techniques, time management and career opportunities in Computer Science. Includes presentations from alumni and others with relevant educational and professional experience. Does not count as Computer Science credit for the Computer Science BA.

**Requisites:** Restricted to students with 0-26 credits (Freshmen) Computer Science (CSEN-BS, CSEN-ADL, CSCI-BA or CSCI-ADL) majors only.

**Additional Information:** Departmental Category: General Computer Science

### CSCI 1200 (3) Introduction to Computational Thinking

Teaches computational thinking and techniques for writing computer programs using the Python programming language. Intended for students who realize that computational skills are beneficial to all fields of study, but who have little or no experience in programming or are not Computer Science majors. Students will be expected to create computer programs to solve problems in a range of disciplines. Does not count as Computer Science credit for the Computer Science BA, BS, or minor.

**Equivalent - Duplicate Degree Credit Not Granted:** INFO 1201

**Additional Information:** Departmental Category: General Computer Science

### CSCI 1220 (4) Virtual Worlds: An Introduction to Computer Science

Introduces the fundamental principles of computer science using an online virtual world called Second Life as the "Laboratory" for this course. Students will learn how to program by creating objects of interest in Second Life. In-class and in-world discussions and readings will introduce the students to important ideas and concepts that shape the field of computer science. Does not count as Computer Science credit for the Computer Science BA, BS or minor.

**Additional Information:** Departmental Category: General Computer Science

### CSCI 1240 (3) The Computational World

Introduces and explores the "computational style of thinking" and its influence in science, mathematics, engineering and the arts. Does not focus on the nuts and bolts of any particular programming language, but rather the way in which computing has affected human culture and thought in the past half century. Does not count as Computer Science credit for the Computer Science BA, BS, or minor.

**Additional Information:** Departmental Category: General Computer Science

### CSCI 1300 (4) Computer Science 1: Starting Computing

Teaches techniques for writing computer programs in higher level programming languages to solve problems of interest in a range of application domains. Appropriate for students with little to no experience in computing or programming.

**Equivalent - Duplicate Degree Credit Not Granted:** CSCI 1310 or CSCI 1320 or ECEN 1310 CSPB 1300

**Requisites:** Requires a prerequisite or corequisite course of APPM 1235 or APPM 1340 or APPM 1345 or APPM 1350 or MATH 1150 or MATH 1300 or MATH 1310 (all minimum grade C-).

**Additional Information:** Departmental Category: General Computer Science

### CSCI 1320 (4) Computer Science 1: Starting Computing-Engineering Applications

Uses problems and tools from Engineering. Teaches techniques for writing computer programs in higher level programming languages to solve problems of interest in Engineering and other domains. Appropriate for students with little or no prior experience in programming.

**Requisites:** Requires a prerequisite or corequisite course of APPM 1235 or APPM 1340 or APPM 1345 or APPM 1350 or MATH 1150 or MATH 1300 or MATH 1310 (all minimum grade C-). Restricted to College of Engineering or Pre-Engineering Arts and Science (PREE) majors only.

**Additional Information:** Departmental Category: General Computer Science

### CSCI 2270 (4) Computer Science 2: Data Structures

Studies data abstractions (e.g., stacks, queues, lists, trees, graphs) and their representation techniques (e.g., linking, arrays). Introduces concepts used in algorithm design and analysis including criteria for selecting data structures to fit their applications.

**Equivalent - Duplicate Degree Credit Not Granted:** CSCI 2275 CSPB 2270

**Requisites:** Requires prerequisite course of CSCI 1300 or CSCI 1310 or CSCI 1320 or ECEN 1310 and prerequisite or corequisite course of MATH 1300 or MATH 1310 or APPM 1345 or APPM 1350 (all minimum grade C-).

**Additional Information:** Departmental Category: General Computer Science

**CSCI 2275 (4) Programming and Data Structures**

Combines the content in CSCI 1300 and CSCI 2270 and is intended for students with experience with at least one object oriented programming language. The course includes an expedited instruction to the C++ programming language and then primarily focuses on the content in CSCI 2270. Assumes knowledge of programming constructs- data types, conditionals, loops and classes. Students must pass a programming competency exam administered by the computer science department to take this class.

**Equivalent - Duplicate Degree Credit Not Granted:** CSCI 2270 or CSPB 2270

**Requisites:** Requires prerequisite or co-requisite of MATH 1300 or MATH 1310 or APPM 1345 or APPM 1350 (all minimum grade C-).

**CSCI 2400 (4) Computer Systems**

Covers how programs are represented and executed by modern computers, including low-level machine representations of programs and data, an understanding of how computer components and the memory hierarchy influence performance.

**Equivalent - Duplicate Degree Credit Not Granted:** CSPB 2400

**Requisites:** Requires prerequisite of CSCI 2270 or CSCI 2275 (minimum grade C-).

**Additional Information:** Departmental Category: General Computer Science

**CSCI 2820 (3) Linear Algebra with Computer Science Applications**

Introduces the fundamentals of linear algebra in the context of computer science applications. Includes vector spaces, matrices, linear systems, and eigenvalues. Includes the basics of floating point computation and numerical linear algebra.

**Requisites:** Requires prerequisite courses of (CSCI 2270 or CSCI 2275) and APPM 1360 or MATH 2300 (all minimum grade C-).

**Additional Information:** Departmental Category: General Computer Science

**CSCI 2824 (3) Discrete Structures**

Covers foundational materials for computer science that is often assumed in advanced courses. Topics include set theory, Boolean algebra, functions and relations, graphs, propositional and predicate calculus, proofs, mathematical induction, recurrence relations, combinatorics, discrete probability. Focuses on examples based on diverse applications of computer science.

**Equivalent - Duplicate Degree Credit Not Granted:** CSPB 2824

**Requisites:** Requires prerequisite courses of (CSCI 1200 or CSCI 1300 or CSCI 1310 or CSCI 1320 or CSCI 2275 or ECEN 1030 or ECEN 1310) and (APPM 1345 or APPM 1350 or MATH 1300 or MATH 1310) (all minimum grade C-).

**Additional Information:** Departmental Category: Theory of Computation

**CSCI 2830 (1-3) Special Topics in Computer Science**

Covers topics of interest in computer science at the sophomore level. Content varies from semester to semester. Does not count as Computer Science credit for Computer Science majors or minors.

**Repeatable:** Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Departmental Category: General Computer Science

**CSCI 2834 (1) Discrete Structures Workgroup**

Provides additional problem-solving practice and guidance for students enrolled in CSCI 2824. Students work in a collaborative environment to further develop their problem-solving skills with the assistance of facilitators.

**Repeatable:** Repeatable for up to 3.00 total credit hours.

**Requisites:** Requires corequisite course of CSCI 2824.

**Grading Basis:** Pass/Fail

**CSCI 2900 (1-3) Lower Division, Undergraduate Level Independent Study**

Offers selected topics at the elementary level for students with little or no previous computing experience. Does not count as Computer Science credit for Computer Science majors or minors.

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Departmental Category: General Computer Science

**CSCI 3002 (4) Fundamentals of Human Computer Interaction**

Introduces the practice and research of human-computer interaction, including its history, theories, the techniques of user-centered design, and the development of interactive technologies. Covers computing in society at large with respect to domains such as health, education, assistive technology, ethics, environment, and more.

**Requisites:** Requires prerequisite course of CSCI 2270 or CSCI 2275 (both minimum grade C-). Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors).

**Additional Information:** Departmental Category: Artificial Intelligence

**CSCI 3010 (3) Programming Project Workshop**

Explores concepts and techniques for design and construction of larger, reliable, and maintainable software systems. Covers various topics including: specifications, program structure and design, program-correctness approaches, and working with established code bases. Emphasizes coding individually and in pairs and will include multiple weeks-long projects.

**Requisites:** Requires a prerequisite course of CSCI 2270 or CSCI 2275 (both minimum grade C-).

**CSCI 3022 (3) Introduction to Data Science with Probability and Statistics**

Introduces students to the tools methods and theory behind extracting insights from data. Covers algorithms of cleaning and munging data, probability theory and common distributions, statistical simulation, drawing inferences from data, and basic statistical modeling.

**Equivalent - Duplicate Degree Credit Not Granted:** CSPB 3022

**Requisites:** Requires prerequisite course of (CSCI 2270 or CSCI 2275) and (APPM 1360 or MATH 2300) and (CSCI 2824 or ECEN 2703 or APPM 3170 or MATH 2001) (all minimum grade C-).

**Additional Information:** Departmental Category: Artificial Intelligence

**CSCI 3090 (3) Introduction to Quantum Computing**

Covers the basics of quantum computation, including the basics of quantum information; axioms of quantum mechanics; quantum circuits and universality; the relationship between quantum and classical complexity classes; simple quantum algorithms such as the quantum Fourier transform; Shor factoring algorithm; Grover search algorithm; physical implementation of quantum computation; error correction and fault tolerance.

**Equivalent - Duplicate Degree Credit Not Granted:** PHYS 3090

**Requisites:** Requires prerequisite course of APPM 3310 or CSCI 2820 or MATH 2130 or MATH 2135 (minimum grade C-).

**CSCI 3100 (1) Software and Society**

Provides students with an understanding of the professional, ethical, legal and social issues and responsibilities of software developers, as well as providing them with the ability to analyze the local and global impacts of computing on individuals, organizations and society.

**Equivalent - Duplicate Degree Credit Not Granted:** CSCI 4308 and CSCI 4328 and CSCI 4338 and CSCI 4348

**Requisites:** Requires prerequisite course of CSCI 3308 (minimum grade C-). Restricted to Computer Science (CSEN-BS, CSEN-ADL, CSEN-BSCS) majors only.

**Grading Basis:** Letter Grade

**Additional Information:** Departmental Category: General Computer Science

**CSCI 3104 (4) Algorithms**

Covers the fundamentals of algorithms and various algorithmic strategies, including time and space complexity, sorting algorithms, recurrence relations, divide and conquer algorithms, greedy algorithms, dynamic programming, linear programming, graph algorithms, problems in P and NP, and approximation algorithms.

**Equivalent - Duplicate Degree Credit Not Granted:** CSPB 3104

**Requisites:** Requires prerequisite courses of (CSCI 2270 or CSCI 2275) and (APPM 1360 or MATH 2300) and (one of the following: CSCI 2824 or ECEN 2703 or APPM 3170 or MATH 2001) (all minimum grade C-).

**Additional Information:** Departmental Category: Theory of Computation

**CSCI 3112 (1-3) Human-Centered Computing Professional Development**

Supports students in developing professional skills and practices in human-computer interaction, design of interactive systems, computer supported cooperative work, computer supported collaborative learning, educational technology, tools that support creativity, user-developed knowledge collections and gaming.

**Equivalent - Duplicate Degree Credit Not Granted:** ATLS 3112

**Repeatable:** Repeatable for up to 3.00 total credit hours.

**Additional Information:** Departmental Category: Artificial Intelligence

**CSCI 3155 (4) Principles of Programming Languages**

Studies fundamental concepts on which programming of languages are based, and execution models supporting them. Explores values, variables, bindings, type systems, control structures, exceptions, concurrency, and modularity. Learn how to select a language and to adapt to a new language.

**Equivalent - Duplicate Degree Credit Not Granted:** CSPB 3155

**Requisites:** Requires prerequisite courses of (CSCI 2270 or CSCI 2275) and (CSCI 2824 or ECEN 2703 or APPM 3170 or MATH 2001) (all minimum grade C-).

**Additional Information:** Departmental Category: Programming Languages

**CSCI 3202 (3) Introduction to Artificial Intelligence**

Surveys artificial intelligence techniques of search, knowledge representation and reasoning, probabilistic inference, machine learning, and natural language.

**Requisites:** Requires prereqs of (CSCI 2270 or CSCI 2275) and (APPM 3170 or CSCI 2824 or ECEN 2703 or MATH 2001) and APPM 3570 or STAT 4520 or APPM 4570 or CHEN 3010 or CSCI 3022 or CVEN 3227 or ECEN 3810 or ECON 3818 or MATH 3510 or MATH 4510 (all min grade C-).

**Additional Information:** Departmental Category: Artificial Intelligence

**CSCI 3287 (3) Design and Analysis of Data Systems**

Introduces the fundamental concepts of database requirements analysis, database design, and database implementation with emphasis on the relational model and the SQL programming language.

**Equivalent - Duplicate Degree Credit Not Granted:** CSPB 3287

**Requisites:** Requires prerequisite course of CSCI 2270 or CSCI 2275 (minimum grade C-).

**Additional Information:** Departmental Category: Database Systems

**CSCI 3302 (3) Introduction to Robotics**

Introduces students to fundamental concepts in autonomous robotics: mechanisms, locomotion, kinematics, control, perception and planning. Consists of lectures and lab sessions that are geared toward developing a complete navigation stack on a miniature mobile robotic platform.

**Equivalent - Duplicate Degree Credit Not Granted:** ECEN 3303

**Requisites:** Requires prerequisite courses of (CSCI 2270 or CSCI 2275) and (APPM 3170 or CSCI 2824 or ECEN 2703 or MATH 2001) and (APPM 2360 or APPM 3310 or CSCI 2820 or MATH 2130 or MATH 2135) (all minimum grade C-).

**Additional Information:** Departmental Category: Artificial Intelligence

**CSCI 3308 (3) Software Development Methods and Tools**

Covers tools and practices for software development with a strong focus on best practices used in industry and professional development, such as agile methodologies, pair-programming and test-driven design. Students develop web services and applications while learning these methods and tools.

**Equivalent - Duplicate Degree Credit Not Granted:** CSPB 3308

**Requisites:** Requires prerequisite course of CSCI 2270 or CSCI 2275 (both minimum grade C-).

**Additional Information:** Departmental Category: Software Engineering

**CSCI 3352 (3) Biological Networks**

This course examines the computational representation and analysis of biological phenomena through the structure and dynamics of networks, from molecules to species. Attention focuses on algorithms for clustering network structures, predicting missing information, modeling flows, regulation, and spreading-process dynamics, examining the evolution of network structure, and developing intuition for how network structure and dynamics relate to biological phenomena.

**Requisites:** Requires the following (ASTR 2600/CSCI 2270/2275/ INFO 2201/PHYS 2600) and (APPM 1345/1350/MATH 1300/1310) and (APPM 3570/4570/CHEN 3010/CSCI 3022/CVEN 3227/EBIO 4410/ ECEN 3810/ECON 3818/IPHY 2800/MATH 3510/4510/4520/ STAT 2600/3100/4000/4520)(all min C-)

**CSCI 3403 (4) Introduction to CyberSecurity for a Converged World**

Introduces core concepts in cybersecurity including confidentiality, integrity, authentication, risk management, and adversarial thinking. The concepts will be applied to both traditional information technology (IT) systems and cyber physical systems (CPS). At the conclusion of the course students should have a solid foundation in cybersecurity and hands-on experience.

**Requisites:** Requires prerequisite course of CSCI 2400 or ECEN 3350 (minimum grade C-).

**Additional Information:** Departmental Category: Operating Systems and Hardware

**CSCI 3434 (3) Theory of Computation**

Introduces the foundations of formal language theory, computability, and complexity. Shows relationship between automata and various classes of languages. Addresses the issue of which problems can be solved by computational means, and studies complexity of solutions.

**Requisites:** Requires prerequisite course of CSCI 3104 (minimum grade C-).

**Additional Information:** Departmental Category: Theory of Computation

**CSCI 3656 (3) Numerical Computation**

Covers development, computer implementation, and analysis of numerical methods for applied mathematical problems. Explores topics such as floating point arithmetic, numerical solution of linear systems of equations, root finding, numerical interpolation, differentiation, and integration.

**Requisites:** Requires prerequisite courses of (CSCI 1300 or CSCI 1310 or CSCI 1320 or CSCI 2275 or ECEN 1310) and (APPM 1360 or MATH 2300) and (APPM 2360 or APPM 3310 or CSCI 2820 or MATH 2130 or MATH 2135) (all minimum grade C-).

**Additional Information:** Departmental Category: Numerical Computation

**CSCI 3702 (3) Cognitive Science**

Introduces cognitive science, drawing from psychology, philosophy, artificial intelligence, neuroscience, and linguistics. Studies the linguistic relativity hypothesis, consciousness, categorization, linguistic rules, the mind-body problem, nature versus nurture, conceptual structure and metaphor, logic/problem solving and judgment. Emphasizes the nature, implications and limitations of the computational model of mind.

**Equivalent - Duplicate Degree Credit Not Granted:** LING 3005 and PHIL 3310 and PSYC 3005 and SLHS 3003

**Recommended:** Prerequisites two of the following CSCI 1300 or CSCI 2275 or LING 2000 or PHIL 2440 or PSYC 2145.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Distribution-Natural Sciences  
Arts Sci Gen Ed: Distribution-Social Sciences

**CSCI 3753 (4) Design and Analysis of Operating Systems**

Analyzes the software that extends hardware to provide a computing environment, including the role of linkers, file systems, resource sharing, security and networking. Studies the history of operating system organization and design and their influence on security, functionality and reliability.

**Equivalent - Duplicate Degree Credit Not Granted:** CSPB 3753

**Requisites:** Requires prerequisite courses of (CSCI 2270 or CSCI 2275) and (CSCI 2400 or ECEN 3350) (all minimum grade C-).

**Additional Information:** Departmental Category: Operating Systems and Hardware

**CSCI 3832 (3) Natural Language Processing**

Explores the theoretical and practical issues that arise in getting computers to perform useful and interesting tasks with human languages. Topics include information extraction, dialog systems and machine translation. Focus is on the use of language data and machine learning algorithms to build robust systems.

**Requisites:** Requires prerequisite courses of (CSCI 2270 or CSCI 2275) and (CSCI 2824 or MATH 2001 or ECEN 2703 or APPM 3170) (all minimum grade C-).

**Additional Information:** Departmental Category: Artificial Intelligence

**CSCI 4022 (3) Advanced Data Science**

Introduces students to advanced tools, methods, and theory for extracting insights from data. Covers computational tools for storing and working with large data sets and computational techniques for common big data scenarios like graph data, streaming data, recommender systems, and dimensionality reduction. Emphasizes both the efficient implementation of algorithms as well as the mathematical foundations behind techniques.

**Requisites:** Requires prereqs of (CSCI 2820 or MATH 2130 or MATH 2135 or APPM 3310) and (CSCI 3022 or APPM 3570 or APPM 4520 or APPM 4570 or CHEN 3010 or CVEN 3227 or MATH 3510 or MATH 4510 or ECEN 3810 or ECON 3818 or MCEN 4120) and CSCI 3104 (all min grade C-).

**Additional Information:** Departmental Category: Artificial Intelligence

**CSCI 4113 (3) Linux System Administration**

Introduces Linux system administration and related topics, including troubleshooting system and network problems, hardware and software configuration and installation, basic scripting and security aspects of internet hosts. Students build Linux servers from the ground up, using provided computing resources, and must maintain and secure the servers themselves.

**Requisites:** Requires prerequisite courses of CSCI 3308 and (CSCI 2400 or ECEN 3350) and CSCI 3753 (minimum grade C-).

**Additional Information:** Departmental Category: Operating Systems and Hardware

**CSCI 4114 (3) Practical Algorithmic Complexity**

When coming across an algorithmic problem, how do we think about how hard it is? Beyond just how much time or memory it takes, computational complexity offers a plethora of concepts for understanding this fundamental question. This leads to the appropriate choice of algorithm for the job, the development of new algorithms, and understanding the role of algorithmic complexity in natural settings such as biology and physics.

**Requisites:** Requires a prerequisite course of CSCI 3104 (minimum grade C-).

**CSCI 4122 (3) Information Visualization**

Studies interactive visualization techniques that help people analyze data. This course introduces design, development, and validation approaches for interactive visualizations with applications in various domains, including the analysis of text collections, software visualization, network analytics, and the biomedical sciences. It covers underlying principles, provides an overview of existing techniques, and teaches the background necessary to design innovative visualizations.

**Equivalent - Duplicate Degree Credit Not Granted:** CSPB 4122

**Requisites:** Requires prerequisite or corequisite of CSCI 1300 and CSCI 2824 (both minimum grade C-).

**CSCI 4229 (3) Computer Graphics**

Studies design, analysis and implementation of computer graphics techniques. Topics include interactive techniques, 2D and 3D viewing, clipping, segmentation, translation, rotation and projection. Involves removal of hidden edges, shading and color. Knowledge of basic linear algebra is required.

**Equivalent - Duplicate Degree Credit Not Granted:** CSCI 5229

**Requisites:** Requires prerequisite course of CSCI 2270 or CSCI 2275 (minimum grade C-).

**Additional Information:** Departmental Category: Graphics

**CSCI 4239 (3) Advanced Computer Graphics**

Studies design, analysis and implementation of advanced computer graphics techniques. Topics include shaders, using the GPU for high performance computing, graphics programming on embedded devices such as mobile phones; advanced graphics techniques such as ray tracing.

**Equivalent - Duplicate Degree Credit Not Granted:** CSCI 5239

**Requisites:** Requires prerequisite course of CSCI 4229 (minimum grade C-).

**Additional Information:** Departmental Category: Graphics

**CSCI 4250 (3) Computer Science: The Canon**

Explores the "great works" of computer science through intensive reading and discussion. Readings include works by Babbage, Turing, Von Neumann, Goedel, Shannon and Minsky, among others. Does not count as CS credit for the Computer Science BA, BS or minor.

**Equivalent - Duplicate Degree Credit Not Granted:** CSCI 5250

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Departmental Category: General Computer Science

**CSCI 4253 (3) Datacenter Scale Computing - Methods, Systems and Techniques**

Covers the primary problem solving strategies, methods and tools needed for data-intensive programs using large collections of computers typically called "warehouse scale" or "data-center scale" computers. Examines methods and algorithms for processing data-intensive applications, methods for deploying and managing large collections of computers in an on-demand infrastructure and issues of large-scale computer system design.

**Equivalent - Duplicate Degree Credit Not Granted:** CSCI 5253

**Requisites:** Requires prerequisite course of CSCI 3753 (minimum grade C-).

**Recommended:** Prerequisite CSCI 4273.

**Additional Information:** Departmental Category: Operating Systems and Hardware

**CSCI 4273 (3) Network Systems**

Focuses on design and implementation of network programs and systems, including topics in network protocols, file transfer, client-server computing, remote procedure call and other contemporary network system design and programming techniques. Familiarity with C and Unix or Linux is required.

**Requisites:** Requires prerequisite course of CSCI 3753 (minimum grade C-).

**Additional Information:** Departmental Category: Operating Systems and Hardware

**CSCI 4302 (3) Advanced Robotics**

Exposes students to current research topics in the field of robotics and provides hands-on experience in solving a grand challenge program.

**Equivalent - Duplicate Degree Credit Not Granted:** CSCI 5302

**Requisites:** Requires prerequisite course of CSCI 3302 (minimum grade C-).

**Additional Information:** Departmental Category: Artificial Intelligence

**CSCI 4308 (4) Software Engineering Project 1**

Advanced practicum in which students design, implement, document and test software systems for use in industry, non-profits, government and research institutions. Also offers extensive experience in oral and written communication throughout the development process. Department enforced prerequisite: successful completion of a minimum of 36 credit hours of Computer Science coursework and approved WRTG. CSCI-BA students interested in taking this course should contact their advisor(s) early in their major.

**Requisites:** Requires prerequisite courses of CSCI 3155 and CSCI 3308 (all minimum grade C-). Restricted to students with 87-180 credits (Senior, Fifth Year Senior) Computer Science (CSEN) majors or Computer Science Concurrent Degree majors only.

**Additional Information:** Departmental Category: Software Engineering

**CSCI 4314 (3) Dynamic Models in Biology**

Surveys computational and mathematical modeling to illuminate biological processes. Students work together to learn to build and analyze models using a variety of numerical tools, tackle meaningful biological problems, and communicate effectively across disciplines. Specific topics: Langevin dynamics of protein folding, agent-based models, finite difference models of organismal growth, stochastic and deterministic cellular automata game of life, models of behavior.

**Equivalent - Duplicate Degree Credit Not Granted:** CSCI 5314

**Requisites:** Requires a prerequisite course of CSCI 3104 (minimum grade C-).

**Recommended:** Prerequisite comfort with mathematics and/or programming experience, and more advanced understanding (upper undergraduate level) of any relevant discipline.

**Additional Information:** Departmental Category: Theory of Computation

**CSCI 4318 (4) Software Engineering Project 2**

Second semester of an advanced practicum in computer science. Students must take this course and CSCI 4308 contiguously as the project spans the entire academic year.

**Requisites:** Requires prerequisite course of CSCI 4308 (minimum grade C-).

**Additional Information:** Departmental Category: Software Engineering

**CSCI 4328 (4) Software Project Management and Mentoring**

Review software project management and discuss the latest approaches, methodologies and standards of software development. Learn to develop software quality, documentation, testing and prototype goals. Study project risk management and cost estimation approaches. Experience mentoring Senior Software Project Team. Intended for professional software developers. Department consent required, see Senior Project Director for permission.

**Requisites:** Requires prerequisite courses of CSCI 3155 and CSCI 3308 (all minimum grade C-). Restricted to students with 87-180 credits (Senior, Fifth Year Senior) Computer Science (CSEN) majors or Computer Science Concurrent Degree majors only.

**Grading Basis:** Letter Grade

**Additional Information:** Departmental Category: Software Engineering

**CSCI 4338 (2) Software Project Management**

Review software project management and discuss the latest approaches, methodologies and standards of software development. Learn to develop software quality, documentation, testing, and prototype goals. Study project risk management and cost estimation approaches. Intended for double majors doing interdisciplinary projects in other departments.

Department consent required, see Senior Project Director for permission.

**Requisites:** Requires prerequisite courses of CSCI 3155 and CSCI 3308 (all minimum grade C-). Restricted to students with 87-180 credits (Senior, Fifth Year Senior) Computer Science (CSEN) majors or Computer Science Concurrent Degree majors only.

**Grading Basis:** Letter Grade

**Additional Information:** Departmental Category: Software Engineering

**CSCI 4348 (4) Startup Essentials: Entrepreneurial Projects in Computing**

Provide students with the tools to be successful technical co-founders of their own startups. Explores the initial stages of founding a startup, including team formation, idea validation, pivoting and pitching, while employing an iterative methodology. Student teams will develop a minimum viable product, pitch their final startup concept, and be evaluated on product/market fit. Department enforced restriction, successful completion of a minimum of 36 credit hours of Computer Science coursework and approved WRTG. Formerly CSCI 4000.

**Equivalent - Duplicate Degree Credit Not Granted:** CSCI 5340

**Requisites:** Requires prerequisite courses of CSCI 3155 and CSCI 3308 (all minimum grade C-). Restricted to students with 87-180 credits (Senior, Fifth Year Senior) Computer Science (CSEN) majors or Computer Science Concurrent Degree majors only.

**Additional Information:** Departmental Category: General Computer Science

**CSCI 4358 (4) Entrepreneurial Projects II**

Follows CSCI 4348. In the second semester of this entrepreneurial project capstone, student teams will seek to find market traction for a high-fidelity Minimum Viable Product (MVP), software and/or hardware, that they will develop as part of their startup project. Teams will further learn to incorporate principles of marketing, business finance and legal issues into the business model for their startup concept.

**Equivalent - Duplicate Degree Credit Not Granted:** CSCI 5350

**Requisites:** Requires a prerequisite course of CSCI 4348 (minimum grade C-).

**Additional Information:** Departmental Category: General Computer Science

**CSCI 4413 (3) Computer Security and Ethical Hacking**

Teaches basic exploit design and development through hands-on experimentation and testing. Uses a controlled environment to give students a "playground" in which to test penetration skills that are normally not allowed on live networks.

**Equivalent - Duplicate Degree Credit Not Granted:** CSCI 5413

**Requisites:** Requires prerequisite course of CSCI 4273 (minimum grade C-).

**Additional Information:** Departmental Category: Operating Systems and Hardware

**CSCI 4446 (3) Chaotic Dynamics**

Explores chaotic dynamics theoretically and through computer simulations. Covers the standard computational and analytical tools used in nonlinear dynamics and concludes with an overview of leading-edge chaos research. Topics include time and phase-space dynamics, surfaces of section, bifurcation diagrams, fractal dimension and Lyapunov exponents.

**Equivalent - Duplicate Degree Credit Not Granted:** CSCI 5446 and ECEN 4423 and ECEN 5423

**Requisites:** Requires prerequisite course of (CSCI 1300 or CSCI 1310 or CSCI 1320 or CSCI 2275 or ECEN 1310) and (APPM 2350 or MATH 2400) (all minimum grade C-).

**Recommended:** Prerequisites PHYS 1120 and CSCI 3656 and (MATH 2130 or MATH 2135).

**Additional Information:** Departmental Category: Numerical Computation

**CSCI 4448 (3) Object-Oriented Analysis and Design**

An applied analysis and design class that addresses the use of object-oriented techniques. Topics include domain modeling, use cases, architectural design and modeling notations. Students apply the techniques in analysis and design projects.

**Equivalent - Duplicate Degree Credit Not Granted:** CSCI 5448

**Requisites:** Requires prerequisite courses of CSCI 3155 and CSCI 3308 (all minimum grade C-).

**Additional Information:** Departmental Category: Software Engineering

**CSCI 4502 (3) Data Mining**

Introduces basic data mining concepts and techniques for discovering interesting patterns hidden in large-scale data sets, focusing on issues relating to effectiveness and efficiency. Topics covered include data preprocessing, data warehouse, association, classification, clustering, and mining specific data types such as time-series, social networks, multimedia, and Web data.

**Equivalent - Duplicate Degree Credit Not Granted:** CSCI 5502 and CSPB 4502

**Requisites:** Requires prerequisite course of CSCI 2270 or CSCI 2275 (minimum grade C-).

**Additional Information:** Departmental Category: Artificial Intelligence

**CSCI 4555 (3) Compiler Construction**

Introduces the principles and techniques for compiling high-level programming languages to assembly code. Topics include parsing, instruction selection, register allocation, and compiling high-level features such as polymorphism, first-class functions, and objects. Students build a complete compiler for a simple language.

**Equivalent - Duplicate Degree Credit Not Granted:** ECEN 5523 and ECEN 4553 and CSCI 5525

**Requisites:** Requires prerequisite courses of CSCI 3155 and CSCI 2400 or ECEN 3350 (all minimum grade C-).

**Additional Information:** Departmental Category: Programming Languages

**CSCI 4576 (4) High-Performance Scientific Computing**

Introduces computing systems, software and methods used to solve large-scale problems in science and engineering. Students use high-performance workstations and a supercomputer.

**Equivalent - Duplicate Degree Credit Not Granted:** CSCI 5576

**Recommended:** Prerequisite CSCI 3656.

**Additional Information:** Departmental Category: Numerical Computation

**CSCI 4593 (3) Computer Organization**

Studies computer design at the gate level. Discusses instruction set architecture design, arithmetic and logic unit design, control logic, memory design and caches, simple pipelining, I/O and peripheral devices. Briefly covers aspects of modern computer architecture, such as multicore processors and cache coherence for these.

**Equivalent - Duplicate Degree Credit Not Granted:** ECEN 4593

**Requisites:** Requires prerequisite course of ECEN 3350 or CSCI 2400 (minimum grade C-).

**Additional Information:** Departmental Category: Operating Systems and Hardware

**CSCI 4622 (3) Machine Learning**

Introduces students to tools, methods, and theory to construct predictive and inferential models that learn from data. Focuses on supervised machine learning technique including practical and theoretical understanding of the most widely used algorithms (decision trees, support vector machines, ensemble methods, and neural networks). Emphasizes both efficient implementation of algorithms and understanding of mathematical foundations.

**Requisites:** Requires prerequisites of (APPM 3310 or CSCI 2820 or MATH 2130 or MATH 2135) (APPM 3570 or STAT 4520 or APPM 4570 or CHEN 3010 or CSCI 3022 or CVEN 3227 or ECEN 3810 or ECON 3818 or MATH 3510 or MATH 4510 or MCEN 4120) and CSCI 3104 (all min grade C-).

**Additional Information:** Departmental Category: Artificial Intelligence

**CSCI 4753 (3) Computer Performance Modeling**

Presents a broad range of system measurement and modeling techniques, emphasizing applications to computer systems. Covers topics including system measurement, workload characterization and analysis of data; design of experiments; queuing theory and queuing network models; and simulation.

**Equivalent - Duplicate Degree Credit Not Granted:** CSCI 5753 and ECEN 4753 and ECEN 5753

**Requisites:** Requires prerequisites of (APPM 1360 or MATH 2300) and CSCI 3753 (all minimum grade C-).

**Recommended:** Prerequisite a course in statistics.

**Additional Information:** Departmental Category: Operating Systems and Hardware

**CSCI 4802 (1) Data Science Team Companion Course**

Gives students hands-on experience applying data science techniques and machine learning algorithms to real-world problems. Students work in small teams on internal challenges, many of which will be sponsored by local companies and organizations and will represent the university in larger teams for external challenges at the national and global level, such as those hosted by Kaggle. Students will be expected to participate in both internal and external challenges, attend meetings and present short presentations to the group when appropriate.

**Equivalent - Duplicate Degree Credit Not Granted:** CSCI 5802

**Repeatable:** Repeatable for up to 3.00 total credit hours.

**Requisites:** Requires a prerequisite course of APPM 3310 or APPM 3570 or APPM 4520 or APPM 4570 or MATH 2130 or MATH 3510 or MATH 4510 or CSCI 2820 or CSCI 3022 or CVEN 3227 or ECEN 3810 or MCEN 4120 (minimum grade C-).

**Additional Information:** Departmental Category: Artificial Intelligence

**CSCI 4809 (3) Computer Animation**

Develops a firm understanding of the general principles of computer animation. Lectures cover the creation of models, materials, textures, surfaces, and lighting. Path and key frame animation, particle dynamics, and rendering are introduced. Students are assigned a number of animation tutorials to carry out.

**Equivalent - Duplicate Degree Credit Not Granted:** ATLS 5809 and ATLS 4809 and CSCI 5809

**Additional Information:** Departmental Category: Graphics

**CSCI 4830 (1-4) Special Topics in Computer Science**

Covers topics of interest in computer science at the senior undergraduate level. Content varies from semester to semester. Only 9 credit hours from CSCI 4830 and/or CSCI 4831 can count toward Computer Science BS or BA.

**Repeatable:** Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Requires prerequisite course of CSCI 2400 or ECEN 3350 (minimum grade C-).

**Additional Information:** Departmental Category: General Computer Science

**CSCI 4831 (1-3) Special Topics in Algorithms**

Covers topics of interest in computer science at the upper-division undergraduate level. Content varies from semester to semester.

**Repeatable:** Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Requires prerequisite courses of CSCI 3104 and (APPM 3310 or CSCI 2820 or MATH 2130 or MATH 2135) (all minimum grade C-).

**Additional Information:** Departmental Category: General Computer Science

**CSCI 4849 (3) Input, Interaction, and Accessibility**

Explores input and interaction techniques with an emphasis on universal design and alternative interfaces. Students explore traditional input methods such as keyboard and mouse input, and alternative techniques such as voice and eye gaze. Students conduct performance evaluations of existing techniques, and prototype new interaction methods. Students design technologies to support people with varying abilities and disabilities.

**Equivalent - Duplicate Degree Credit Not Granted:** CSCI 5849

**Requisites:** Requires prerequisite of CSCI 3002 (minimum grade C-).

**CSCI 4889 (3) Interactive Machine Learning for Customizable and Expressive Interfaces**

Introduces students to techniques for applying machine learning in the development of customizable human-computer interfaces. Students learn to process a wide variety of input data (e.g. video and accelerometer streams) using different machine learning algorithms to detect semantically meaningful events that can afford the construction of new interactive systems. Students complete substantial projections within the domains of assistive or creative technologies. Does not fulfill Breadth Requirement for CSEN graduate students.

**Equivalent - Duplicate Degree Credit Not Granted:** CSCI 5880, ATLS 4889 and ATLS 5880

**Requisites:** Requires prerequisites of (APPM 3570 or APPM 4570 or CHEN 3010 or CSCI 3022 or CVEN 3227 or ECEN 3810 or ECON 3818 or MATH 3510 or MATH 4510 or MCEN 4120 or STAT 4520) and (CSCI 3002 or CSCI 3202 or CSCI 4448) (all minimum grade C-).

**Grading Basis:** Letter Grade

**Additional Information:** Departmental Category: Artificial Intelligence

**CSCI 4900 (1-3) Upper Division, Undergraduate Level Independent Study**

Provides opportunities for independent study at the upper-division undergraduate level. Students work on a small research problem or tutor lower-division computer science students. Department consent required.  
**Repeatable:** Repeatable for up to 8.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Requires prerequisite course of CSCI 1300 or CSCI 1310 or CSCI 1320 or CSCI 2275 (all minimum grade C-).

**Additional Information:** Departmental Category: General Computer Science

**CSCI 4950 (2-4) Senior Thesis**

Provides an opportunity for senior computer science majors to conduct exploratory research in computer science. Department enforced restriction, successful completion of a minimum of 36 credit hours of Computer Science coursework and approved WRTG.

**Repeatable:** Repeatable for up to 8.00 total credit hours.

**Requisites:** Requires a prerequisite or corequisite course of CSCI 3100 (minimum grade C-). Restricted to students with 87-180 credits (Senior, Fifth Year Senior).

**Additional Information:** Departmental Category: General Computer Science

**CSCI 4960 (2-4) Computer Science Honors Thesis**

Provides an opportunity for senior Computer Science majors to complete an honors thesis by conducting exploratory research in computer science. Department enforced prerequisites: successful completion of a minimum of 36 credit hours of Computer Science foundation and Computer Science electives and a writing requirement.

**Repeatable:** Repeatable for up to 8.00 total credit hours.

**Requisites:** Restricted to students with 87-180 credits (Senior, Fifth Year Senior).

**Grading Basis:** Letter Grade

**Additional Information:** Departmental Category: General Computer Science

## Computer Science - Bachelor of Arts (BA)

Computer science is an exciting and challenging field that has impact on many parts of our lives. Computer scientists craft the technologies that enable the digital devices we use every day. They develop the large-scale software that powers business and industry, and they advance the computational techniques and write the software that supports scientists in their study of the world around us. They create the software that social scientists use to identify and analyze patterns in the behavior of social groups and human behavior in social networks and the applications that humanists and linguists use to research language development. Many new applications of computing technology remain to be discovered. Indeed, computing will be at the heart of future revolutions in business, science and society. Students who study computer science now will be at the forefront of those important advances.

Computer science is concerned with how computers are constructed, how they store and process data, how they are used in problem solving and how the quality of those solutions is assessed. It is about the science of creating software for a variety of users. It is about understanding how that software interacts with the hardware on which it is run. Computer science goes well beyond the machine to the study of how people interact with the technologies around them. Applications of computer science reach far and wide.

In addition, students completing the degree in computer science are expected to acquire the ability and skills to:

- Apply knowledge of computing and mathematics appropriate to the discipline.
- Identify, formulate and develop solutions to computational challenges.
- Use appropriate techniques, skills and tools necessary for computing practice.
- Design, implement and evaluate a computational system to meet desired needs within realistic constraints.
- Apply mathematical foundations, algorithmic principles and computer science theory in the modeling and design of computational systems in a way that demonstrates comprehension of the trade-offs involved in design choices.
- Apply design and development principles in the construction of software systems of varying complexity.
- Function effectively on teams to accomplish shared computing design, evaluation or implementation goals.
- Understand professional, ethical, legal, security and social issues and responsibilities for the computing profession.
- Communicate and engage effectively with diverse stakeholders.
- Analyze impacts of computing on individuals, organizations and society.
- Engage in continuing professional development.

For more information, visit the department's BA Degree (<https://www.colorado.edu/cs/current-students/undergraduate-students/ba-degree>) webpage.

### Advising

Prospective students with questions about the Bachelor of Arts program in computer science can contact Beth Webb. ([elizabeth.webb@colorado.edu](mailto:elizabeth.webb@colorado.edu)) Current CU students should use MyCUHub (<https://www.colorado.edu/mycuhub>) to meet with an advisor for the BA in computer science.

A student may not earn both the BS in computer science from the College of Engineering and Applied Science and the BA in computer science from the College of Arts and Sciences. A student may not earn both a bachelor's degree in computer science and the minor in computer science from CU Boulder.

### Requirements

The degree provides considerable freedom in the selection of specific courses to fulfill major requirements, allowing students to tailor the degree to their individual needs and interests.

For more information, visit the department's BA Degree (<https://www.colorado.edu/cs/current-students/undergraduate-students/ba-degree>) webpage

### Required Courses and Credits

Students must complete the requirements of the College of Arts and Sciences, including approximately 46 credit hours in the Gen Ed Requirements and the required courses listed below. Through the required coursework for the major, students will fulfill the QRMS component of the Gen Ed Skills Requirement.

Students are required to pursue an additional area of study as part of earning the BA in computer science. The additional area can be an Arts and Sciences minor, or certificate, or available minors/certificates from other CU Colleges (Business, EAS, CMCI, Education, Music). Students completing an additional major in A&S or a dual degree (by also completing a major from another college) fulfill the requirement with those plans.

Any additional area of study that is not part of a double major (in A&S) or dual degree must be at least 15 credit hours. Programs that do not meet this requirement will be considered by petition and will be required to add additional coursework.

Code	Title	Credit Hours
<b>Foundations Courses</b>		
All of the following courses are required:		
CSCI 1300	Computer Science 1: Starting Computing	4
CSCI 2270	Computer Science 2: Data Structures	4
CSCI 2400	Computer Systems	4
CSCI 3104	Algorithms	4
CSCI 3155	Principles of Programming Languages	4
CSCI 3308	Software Development Methods and Tools	3
<b>Core Courses</b>		
Select four of the following:		12-15
CSCI 3002	Fundamentals of Human Computer Interaction	
CSCI 3202	Introduction to Artificial Intelligence	
CSCI 3287	Design and Analysis of Data Systems	
CSCI 3302	Introduction to Robotics	
CSCI 3403	Introduction to CyberSecurity for a Converged World	
CSCI 3434	Theory of Computation	
CSCI 3656	Numerical Computation	
CSCI 3753	Design and Analysis of Operating Systems	
CSCI 4273	Network Systems	
CSCI 4448	Object-Oriented Analysis and Design	
<b>CSCI Upper-Division Electives</b>		
Choose two to four additional upper-division CSCI courses or approved courses from outside CSCI.		7-10
Total Credit Hours		45

### Required Ancillary Coursework from Outside Computer Science

Code	Title	Credit Hours
<b>Mathematics</b>		
<i>Calculus Sequence</i>		
Select one of the following calculus sequences:		8-12
<i>Sequence 1 (preferred)</i>		
MATH 1300	Calculus 1	
& MATH 2300	and Calculus 2	
<i>Sequence 2</i>		
APPM 1350	Calculus 1 for Engineers	
& APPM 1360	and Calculus 2 for Engineers	
<i>Sequence 3</i>		
APPM 1340	Calculus 1 with Algebra, Part A	

APPM 1345	Calculus 1 with Algebra, Part B	
APPM 1360	Calculus 2 for Engineers	
<i>Discrete Mathematics</i>		
Select one of the following courses:		
CSCI 2824	Discrete Structures	3
or APPM 3170	Discrete Applied Mathematics	
<i>Linear Algebra or Probability/Statistics</i>		
Select one of the following courses:		3-4
<i>Linear Algebra</i>		
CSCI 2820	Linear Algebra with Computer Science Applications	
or MATH 211	Introduction to Linear Algebra for Non-Mathematics Majors	
or MATH 212	Introduction to Linear Algebra for Mathematics Majors	
or APPM 331	Matrix Methods and Applications	
<i>Probability/Statistics</i>		
CSCI 3022	Introduction to Data Science with Probability and Statistics	
or MATH 351	Introduction to Probability and Statistics	
or MATH 451	Introduction to Probability Theory	
or APPM 351	Applied Probability	
or STAT 310	Applied Probability	
or ECON 381	Introduction to Statistics with Computer Applications	
or STAT 400	Statistical Methods and Application I	
<b>Logic &amp; Ethics</b>		
Upper Division PHIL Logic or Ethics courses can be substituted if pre-requisites are met.		
<i>Logic</i>		
Select one of the following logic courses:		3
PHIL 1440	Critical Thinking	
or PHIL 2440	Symbolic Logic	
<i>Ethics</i>		
Select one of the following ethics courses:		3
PHIL 1100	Ethics	
or PHIL 1200	Contemporary Social Problems	
or INFO 4601	Mastery in Information Science: Ethical and Policy Dimensions of Information and Technology	
<b>Outside Area of Study (N/A if completing Double Major (A&amp;S) or Dual Degree)</b>		
Approved Minor or Certificate Program from any CU Boulder College		15
Total Credit Hours		35-40

### Graduating in Four Years

Consult the four-year guarantee requirements for information on eligibility. The concept of "adequate progress" as it is used here only refers to maintaining eligibility for the four-year guarantee; it is not a requirement for the major. To maintain adequate progress toward a BA in computer science, students should meet the following requirements:

- Declare the computer science BA major and have taken Calculus 1 and CSCI 1300 by the end of their second semester.

- Consult with a major advisor to determine adequate progress toward completion of the major and meeting upper-division Arts and Sciences requirements.

## Recommended Four-Year Plan of Study

This four-year plan of study is based on students starting at the Calculus 1 level. This plan is flexible and CSCI course substitutions in year two based on starting MATH or other requirements should be discussed with an academic advisor.

Gen. Ed. Distribution and Diversity requirements can be met with courses for the Additional Area of Study from A&S Departments, leaving more options for General Electives. Students pursuing Additional Areas outside of A&S should expect to exceed 120 total credit hours.

For more information on required courses included all options for Calculus, additional MATH, PHIL and CSCI-BA Core, see the Requirements tab.

Course	Title	Credit Hours
<b>Year One</b>		
<b>Fall Semester</b>		
CSCI 1300	Computer Science 1: Starting Computing	4
MATH 1300	Calculus 1	5
Gen. Ed. Skills course (example: Lower-division Written Communication)		3
Gen Ed Distribution Course (example: Social Science) or Additional Area of Study Course		3
Credit Hours		15
<b>Spring Semester</b>		
CSCI 2270	Computer Science 2: Data Structures	4
MATH 2300	Calculus 2	5
Gen. Ed. Distribution course (example: Natural Sciences with Lab)		4
Logic or Ethics course		3
Credit Hours		16
<b>Year Two</b>		
<b>Fall Semester</b>		
CSCI 2400	Computer Systems	4
CSCI 2824	Discrete Structures	3
Logic or Ethics Course		3
Additional Area of Study Course		3
Gen. Ed. Distribution course (example: Arts & Humanities)		3
Credit Hours		16
<b>Spring Semester</b>		
CSCI 3104	Algorithms	4
CSCI 3308	Software Development Methods and Tools	3
Linear Algebra, Probability or Statistics course		3-4
Additional Area of Study		3
Additional Area of Study		3
Credit Hours		16-17
<b>Year Three</b>		
<b>Fall Semester</b>		
CSCI 3155	Principles of Programming Languages	4
CSCI core course or CSCI Upper-division Elective		3-4

Additional Area of Study	3
Upper-division Gen. Ed. Skills course (example: Upper-division Written Communication)	3
Upper-division Gen. Ed. Distribution course (example: Natural Sciences)	3
Credit Hours	16-17
<b>Spring Semester</b>	
CSCI core course or CSCI Upper-division Elective	3-4
CSCI core course or CSCI Upper-division Elective	3-4
Additional Area of Study	3
Upper-division Gen. Ed. Distribution/Diversity course (example: Social Sciences/Global Perspective)	3
General Elective	3
Credit Hours	15-17
<b>Year Four</b>	
<b>Fall Semester</b>	
CSCI core course or CSCI Upper-division Elective	3-4
CSCI Upper-division Elective or Capstone-1	3-4
Additional Area of Study or Upper-Division Gen Ed Distribution course or General Elective	3
Additional Area of Study or Upper-Division Gen Ed Distribution course or General Elective	3
Upper-Division Gen Ed Distribution course or General Elective	3
Credit Hours	15-17
<b>Spring Semester</b>	
CSCI Upper-division Elective	3-4
CSCI Upper-division Elective or Capstone-2	3-4
Additional Area of Study or Upper-Division Gen Ed Distribution course	3
Additional Area of Study or Upper-Division Gen Ed Distribution course	3
Credit Hours	12-14
Total Credit Hours	121-129

## Distributed Studies Program

Admission to the disciplinary and divisional track of the distributed studies major requires completion of 60 credits or more, a one-year break in the student's academic career, and permission from the College of Arts & Sciences dean's office. The disciplinary and divisional track of the distributed studies major is intended for returning students who have accumulated a significant number of credits toward the completion of one or more arts and sciences majors, are not eligible to continue in any of those majors, and have taken a break in their academic career.

An individually structured track also is available in the distributed studies major. Admission to this track also requires permission from the College of Arts & Sciences dean's office. Students pursuing the individually structured track must work with a faculty member to construct a major that meets the college's minimum major requirements and that focuses on some of aspect of the arts and sciences not adequately addressed by any other major offered by the college. Students pursuing this track must write and defend a thesis based on original scholarly or creative work.

For more information, contact the College of Arts and Sciences Academic Advising Center in Woodbury 109.

## Ecology and Evolutionary Biology

Ecology seeks to understand the processes that control the abundance and distribution of organisms and how they interact with one another in a changing environment. Evolutionary biology provides a unifying conceptual framework for all of biology, including the characteristics of organisms and biological diversity. Taken together, ecology and evolutionary biology form a fundamental, broad, diverse and interdisciplinary area of scientific inquiry. Study in both areas is necessary for understanding the complex biological issues of today, including fighting diseases, understanding of the responses of life and humankind to Earth's changing environment and learning how species develop, thrive and decline. Also, ecology and evolutionary biology are working toward solving some of the world's most demanding problems, including sustainability and the future of life on earth, human health and welfare and wise stewardship of our planet. Students majoring in Ecology and Evolutionary Biology (EBIO) apply scientific approaches to issues in ecology and evolution, with an emphasis on critical evaluation of the literature, generating and testing hypotheses, designing and carrying out experiments to test predictions and articulating, in oral or written form, the results of investigations.

In light of the broad importance of ecology and evolution for fundamental understanding of living systems, the undergraduate EBIO degree emphasizes knowledge and problem-solving in areas of:

- the ecology of organisms, populations and communities
- the distribution and function of terrestrial, freshwater and marine ecosystems
- principles and patterns of evolution, including natural selection and the history of life on Earth
- comparative, systematic, evolutionary and environmental aspects of botany, microbiology and zoology
- adaptation of organisms to the physical and biotic environment
- animal behavior and emotion
- molecular evolution and population genetics
- developmental biology and the evolution of development
- conservation biology and management of ecosystems
- the relevance of mathematics, chemistry and physics to biology
- the development of biological thought
- infectious disease ecology
- landscape and ecosystem ecology
- sustainability and human-nature systems
- energy and biofuels
- Darwinian medicine
- health and population genetics
- genetically engineered organisms

EBIO majors include students who:

- have strong and compelling interests in the natural world and who are interested in making a difference
- are interested in pursuing advanced graduate degrees in science, especially biology
- want careers in the areas of natural resources management, environmental consulting, environmental law, environmental science, science teaching and scientific journalism, among other professions
- are passionate about making a difference in the lives of others by improving their physical and mental health

- are interested in many different areas of biology, from the molecular to ecosystem levels
- are fascinated with the complexity and diversity of nature

A bachelor of arts (BA) degree in EBIO provides excellent training, education and experience, preparing students for many successful careers and for admission to and success in graduate study or medical school and other health professions:

- because ecology and evolution are subjects of central importance for understanding the ways all organisms live, grow and survive—everything from microbes to humans
- because the department and its classes provide students a broad learning experience in the biological sciences
- because the department's faculty provide EBIO majors with excellent classes and research opportunities

**Course code for this program is EBIO.**

### Bachelor's Degree

- Ecology and Evolutionary Biology - Bachelor of Arts (BA) (p. 235)

### Minor

- Ecology and Evolutionary Biology - Minor (p. 238)

### Faculty

While many faculty teach both undergraduate and graduate students, some instruct students at the undergraduate level only. For more information, contact the faculty member's home department.

## Courses

### **EBIO 1010 (3) Introduction to Quantitative Thinking for Biologists**

Focuses on the collection, visualization and analysis of data that are relevant for advancing critical thinking, student-directed learning, and the development of quantitative analysis skills, with an emphasis on using R and examples from ecology and evolutionary biology.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**EBIO 1040 (3) Biology: A Human Approach 2**

Lect. Continues EBIO 1030, focusing on the function of the human body, and maintenance of dynamic equilibrium in the internal environment in the face of a continually changing external environment. Discusses factors influencing these homeostatic conditions and how and why they change. Recommended for nonscience majors.

**Recommended:** Prerequisite EBIO 1030 (minimum grade C-).

**Additional Information:** Arts Sci Core Curr: Natural Science Sequence  
Arts Sci Gen Ed: Distribution-Natural Sciences

**EBIO 1100 (3) Biology and Society**

Lect. Studies the dynamic relationships between the biological sciences and society. Areas of inquiry include interconnections between ecological and evolutionary theory and concepts and emergent questions being raised on a societal level. Students will explore topics such as human populations and sexual reproduction; biological factors affecting sociability and social patterns; environmental change with a focus on global biodiversity and the services to people; natural resource management; and public health. Recommended for majors and non-majors.

**Requisites:** Requires corequisite course of EBIO 1110.

**EBIO 1110 (1) Biology and Society Laboratory**

One two-hour lab per week. Provides experiments and exercises relating to concepts presented in EBIO 1100. Recommended for majors and non-majors. When taken with EBIO 1100, meets the MAPS requirement for natural science: lab.

**Requisites:** Requires corequisite course of EBIO 1100.

**EBIO 1210 (3) General Biology 1**

Lect. Provides a concentrated introduction to molecular, cellular, genetic, and evolutionary biology. Emphasizes fundamental principles, concepts, facts, and questions. Intended for science majors.

**Additional Information:** GT Pathways: GT-SC2 -Natural Physicl Sci:Lec  
Crse w/o Req Lab

Arts Sci Core Curr: Natural Science Sequence  
Arts Sci Gen Ed: Distribution-Natural Sciences  
MAPS Course: Natural Science

**EBIO 1220 (3) General Biology 2**

Provides a concentrated introduction to organisms, homeostasis, development, behavior, and ecology. Emphasizes fundamental principles, concepts, facts, and questions. Intended for science majors.

**Recommended:** Prerequisite EBIO 1210 (minimum grade C-).

**Additional Information:** GT Pathways: GT-SC2 -Natural Physicl Sci:Lec  
Crse w/o Req Lab

Arts Sci Core Curr: Natural Science Sequence  
Arts Sci Gen Ed: Distribution-Natural Sciences

**EBIO 1230 (1) General Biology Laboratory 1**

One 3-hour lab per week. Consists of experiments and exercises to provide an extension of basic concepts and scientific approaches presented in General Biology 1. Intended for science majors.

**Recommended:** Prerequisite or corequisite EBIO 1210 (minimum grade C-).

**Additional Information:** GT Pathways: GT-SC1 - Natural Physcal Sci:Lec  
Crse w/ Req Lab

Arts Sci Core Curr: Natural Science Lab  
Arts Sci Gen Ed: Distribution-Natural Sci Lab  
Arts Sci Gen Ed: Distribution-Natural Sciences  
MAPS Course: Natural Science  
MAPS Course: Natural Science Lab or Lab/Lec

**EBIO 1240 (1) General Biology Laboratory 2**

One 3-hour lab per week. Consists of experiments and exercises to provide an extension of basic concepts and scientific approaches presented in General Biology 2. Intended for science majors.

**Recommended:** Prerequisite or corequisite EBIO 1220 (minimum grade C-).

**Additional Information:** GT Pathways: GT-SC1 - Natural Physcal Sci:Lec  
Crse w/ Req Lab

Arts Sci Core Curr: Natural Science Lab  
Arts Sci Gen Ed: Distribution-Natural Sciences  
Arts Sci Gen Ed: Distribution-Natural Sci Lab

**EBIO 1250 (4) Introduction to Ecology and Evolutionary Biology Research**

Introduces students to research in ecology and evolutionary biology topics in the context of investigations about Boulder's local historic apple trees. Students will learn about the genetics, physiology, and urban ecology of the trees, learn techniques for how to do research in these areas, and engage in a research project that addresses one of these topics. Results from research on Boulder's Apples will be reported back to the Boulder community.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**EBIO 1300 (1-3) Topics in Biological Sciences**

Covers special topics in biology for freshmen or nonmajors. Introduces scientific methods and principles in biology, as well as issues of current interest in biology. Does not count toward the major in EBIO.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**EBIO 1940 (3) Introduction to Scientific Writing**

Introduces first year students to college writing, focusing on developing academic research and writing skills of particular interest to science students. Emphasizes habits of mind in topic invention, drafting, revision and writing style, as well as critical thinking and information literacy.

**Requisites:** Restricted to students with 0-56 credits (Freshmen or Sophomore) only.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Core Curr: Written Communication  
Arts Sci Gen Ed: Written Communication-Lower

**EBIO 2010 (1-3) Environmental Issues and Biology**

Lect. Describes how the natural environment is currently stressed by a variety of human actions. Examines the nature of these environmental problems and their impact on living organisms, both human and nonhuman species.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**EBIO 2040 (4) Principles of Ecology**

Lecture and laboratory. Introduces principles of ecology, emphasizing patterns and processes at various levels of biological organization. Scope global, but examples often from local environment. Laboratory emphasizes techniques of field biology. Uses animals and/or animal tissues.

**Equivalent - Duplicate Degree Credit Not Granted:** EBIO 2640 and ENVS 2000

**Recommended:** Prerequisites EBIO 1030 and EBIO 1040 and EBIO 1050 or EBIO 1210 and EBIO 1220 and EBIO 1230 and EBIO 1240 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences  
Arts Sci Gen Ed: Distribution-Natural Sci Lab

**EBIO 2070 (4) Genetics: Molecules to Populations**

Lect. and rec. Covers principles of genetics and developmental biology at levels of molecules, cellular organelles, individuals and populations; asexual and sexual life cycles; heredity. Recitations allow discussion of genetics problems and implications of genetic principles and provide demonstrations and simulations of genetic processes. Intended for sophomore majors in EBIO.

**Equivalent - Duplicate Degree Credit Not Granted:** EBIO 2640

**Recommended:** Prerequisites EBIO 1210 and EBIO 1220 and EBIO 1230 and EBIO 1240 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences  
Arts Sci Gen Ed: Distribution-Natural Sci Lab

**EBIO 2090 (3) Tropical Island and Marine Ecology**

Examines fundamental concepts of marine ecology, emphasizing organismal diversity, species interactions, dispersal, colonization, physiology and adaptations. Includes study of beach and coral formation, island organisms and their population dynamics. Students may also register for an optional 1 credit, one week, tropical island and coral reef trip that complements the lecture portion of the class but has an additional cost.

**Recommended:** Prerequisite EBIO 1220 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**EBIO 2091 (3) Field Studies in Marine and Island Ecology and Oceanography**

Investigates tropical island and marine ecology as well as all four disciplines of oceanography. A three-credit course focused on a tropical island ecology and oceanography field trip that complements the lecture portion of EBIO 2090 and ATOC 3070 with an additional cost. Examines fundamental concepts of marine ecology, emphasizing organismal diversity, species interactions, study of beach and coral formation, island formation, organisms and their population dynamics. The course consists of a one-week field trip to the Keys Marine Laboratory in the Florida Keys and once-weekly class room meeting (of variable duration from 1-4 hours) throughout the semester.

**Requisites:** Requires a corequisite course of EBIO 2090 or ATOC 3070 or GEOL 3070.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences  
Arts Sci Gen Ed: Distribution-Natural Sci Lab

**EBIO 2640 (5) Honors Principles of Ecology**

Lect., lab, and rec. Introduces principles of ecology, emphasizing patterns and processes at various levels of biological organization. Scope global, but examples often from local environment. Laboratory emphasizes techniques of field biology. Uses animals and/or animal tissues.

**Equivalent - Duplicate Degree Credit Not Granted:** EBIO 2040 and ENVS 2000

**Recommended:** Prerequisites EBIO 1030 and EBIO 1040 and EBIO 1050 or EBIO 1210 and EBIO 1220 and EBIO 1230 and EBIO 1240 (minimum grade C-).

**Additional Information:** Arts Sciences Honors Course  
Arts Sci Gen Ed: Distribution-Natural Sciences  
Arts Sci Gen Ed: Distribution-Natural Sci Lab

**EBIO 2840 (1-6) Independent Study: Lower Division**

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**EBIO 3010 (1-2) Teaching Biology**

Provides an opportunity to assist in teaching of specific lecture or laboratory section in EBIO under direct faculty supervision. Students must first make arrangements with the appropriate faculty member and turn in a form to the EBIO office.

**Repeatable:** Repeatable for up to 3.00 total credit hours. Allows multiple enrollment in term.

**EBIO 3040 (4) Conservation Biology**

Applies principles of population ecology, population genetics, biogeography, animal behavior, and paleobiology to the maintenance of biodiversity and natural systems. The resulting theory is then applied to conservation policy and management techniques.

**Equivalent - Duplicate Degree Credit Not Granted:** ENVS 3040

**Recommended:** Prerequisite EBIO 2040 or EBIO 2640 or ENVS 2000 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**EBIO 3080 (4) Evolutionary Biology**

Lect. and lab. Emphasizes the fundamental evolutionary concepts that provide explanations for the diversification of life on Earth. Specific topics include the evidence for evolution, adaptation by natural selection, speciation, systematics, molecular and genome evolution, and macroevolutionary patterns and processes. Recitations allow students to explore specific topics in more depth and smaller groups.

**Equivalent - Duplicate Degree Credit Not Granted:** EBIO 3680

**Recommended:** Prerequisites EBIO 1210 and EBIO 1220 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences  
Arts Sci Gen Ed: Distribution-Natural Sci Lab

**EBIO 3110 (3) Population and Community Ecology**

Presents principles of ecology that relate to the niche, population growth, metapopulations, population interactions (within and between trophic levels), community structure and development, landscape ecology and species diversity.

**Recommended:** Prerequisite EBIO 1240 or EBIO 2640 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**EBIO 3170 (3) Mountain Ecology and Conservation**

Focuses on the ecology of mountain environments around the world, including climatic gradients, plant and animal diversity and distributions, habitat zonation, evolutionary processes, and various aspects of montane conservation from habitat change to climate change.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisites EBIO 1210 and EBIO 1220 and EBIO 2040 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**EBIO 3180 (3) Global Ecology**

Lect. Involves study of ecological principles and problems at the biosphere level. Presents a worldwide approach to populations, biotic resources, ecologic interactions, land use, deforestation, desertification, species extinctions, pollution, environmental quality, global change, and environmental ethics.

**Recommended:** Prerequisites EBIO 1210 and EBIO 1220 (minimum grade C-).

**Additional Information:** Arts Sci Core Curr: Natural Science Non-Sequence  
Arts Sci Gen Ed: Distribution-Natural Sciences

**EBIO 3190 (3) Tropical Marine Ecology**

Lect. Examines the biology and ecology of marine ecosystems, emphasizing those occurring in tropical regions such as coral reefs. Studies how these ecosystems are changing and the future impact of human stress on the marine environment.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite any two-semester introductory biology course.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**EBIO 3240 (4) Animal Behavior**

Lect. and lab. Topics include basic concepts and history, methods of study, ethical issues, neurobiology, behavior, the development of behavior, predator-prey relationships, communication, aggression and dominance, mating systems, cognitive ethology, and parental care. When possible, life-history strategies, the evolution of behavior, and behavioral ecology are stressed. Uses animals and animal tissues.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisites EBIO 1210 and EBIO 1220 and EBIO 1230 and EBIO 1240 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences  
Arts Sci Gen Ed: Distribution-Natural Sci Lab

**EBIO 3400 (3) Microbiology**

Surveys distinguishing characteristics of microorganisms based on structural-functional relationships, taxonomy, growth and physical-chemical agents of control including antibiotics, metabolism and genetics. Introduces applied microbiology emphasizing infectious diseases, basic concepts of immunology and microbial ecology. Uses animals and/or animal tissues.

**Recommended:** Prerequisites EBIO 1210 and EBIO 1220 and EBIO 1230 and EBIO 1240 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences  
Arts Sci Gen Ed: Distribution-Natural Sci Lab

**EBIO 3410 (1) Microbiology Lab**

Accompanies EBIO 3400.

**Requisites:** Requires a prerequisite or corequisite course of EBIO 3400 (minimum grade D-).

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences  
Arts Sci Gen Ed: Distribution-Natural Sci Lab

**EBIO 3523 (3) The Art and Strategy of Science Communication: Branding Climate Change**

Integrating the science of climate change and science communication with the research, strategy and execution practices of strategic communication (e.g., advertising and public relations).

**Equivalent - Duplicate Degree Credit Not Granted:** APRD 3523

**Grading Basis:** Letter Grade

**EBIO 3590 (4) Plants and Society**

A writing intensive course for majors and non-majors which acquaints students with the history of plant use in our society. Topics center on the evolving relationship between humans and plants as food sources, medicines, fuel, and other products, such as fibers and dyes.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences  
Arts Sci Gen Ed: Distribution-Natural Sci Lab

**EBIO 3630 (4) Parasitology**

Lect. and lab. Surveys animal parasites, including life histories; emphasizes parasites of humans. Uses animals and/or animal tissues.

**Recommended:** Prerequisites EBIO 1210 and EBIO 1220 and EBIO 1230 and EBIO 1240 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences  
Arts Sci Gen Ed: Distribution-Natural Sci Lab

**EBIO 3680 (5) Honors Evolutionary Biology**

Lect., rec., and co-sem. Emphasizes the fundamental evolutionary concepts that provide explanation for the diversification of life on Earth. Specific topics include the evidence for evolution, adaptation by natural selection speciation, systematics, molecular and genome evolution, and macroevolutionary patterns and process. Recitations allow students to explore specific topics in more depth and smaller groups.

**Equivalent - Duplicate Degree Credit Not Granted:** EBIO 3080

**Recommended:** Prerequisites EBIO 1210 and EBIO 1220 and EBIO 1230 and EBIO 1240 and EBIO 2070 (minimum grade C-).

**Additional Information:** Arts Sciences Honors Course

Arts Sci Gen Ed: Distribution-Natural Sciences

Arts Sci Gen Ed: Distribution-Natural Sci Lab

**EBIO 3850 (4) Animal Diversity: Invertebrates**

Lect. and lab. Offers a broad study of the biology of the most diverse group of organisms on Earth. Areas include ecology, physiology, evolution and morphology of aquatic and terrestrial forms. Uses animals and/or animal tissues.

**Recommended:** Prerequisites EBIO 1210 and EBIO 1220 and EBIO 1230 and EBIO 1240 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences  
Arts Sci Gen Ed: Distribution-Natural Sci Lab

**EBIO 3930 (1-6) Internship**

Provides an academically supervised opportunity for upper-division students to work in public or private organizations. Projects are usually related to students' career goals. Each project has both academic and work components. Pass/fail only.

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Grading Basis:** Pass/Fail

**EBIO 3940 (3) Written Communication in the Sciences**

Focuses upon communication commonly practiced by scientists, with special emphasis on writing. Directs attention to scientists' strategic use of written arguments, statistical data and visual representations. Prepares students for communication tasks within advanced study and professional work.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Core Curr: Written Communication  
Arts Sci Gen Ed: Written Communication-Upper

**EBIO 3980 (2) Seminar: Introduction to EBIO Honors**

Offers an opportunity for students who are either exploring the option of writing an Honors thesis, or are in the process of conducting Honors research, to receive guidance on the process of thesis writing, evaluation and presentation of research results and thesis defense. Thesis requirements and the role of the A&S Honors Council will be discussed. Also offers the opportunity to hear practice defense talks from the graduating Honors candidates.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sciences Honors Course

**EBIO 3990 (1-3) EBIO Honors Thesis Research**

Provides an introduction to the departmental Honors program. Consists of individual library research on a potential Honors thesis topic under the guidance of a faculty mentor.

**Requisites:** Restricted to Ecology and Evolutionary Biology (EBIO) majors only.

**Recommended:** Prerequisites minimum 3.2 GPA and approval by departmental honors committee.

**EBIO 4030 (3) Limnology**

Examines the ecology of inland waters, including a detailed consideration of physical, chemical and biological properties of freshwater ecosystems: origins and major characteristics of lakes and streams, survey of chemical and nutrient cycles in freshwater habitats and survey of biotic composition of freshwater environments. Important themes in modern freshwater ecology are considered, including energy flow, trophic structure, eutrophication and management of freshwater ecosystems.

**Equivalent - Duplicate Degree Credit Not Granted:** EBIO 5030

**Recommended:** Prerequisites EBIO 1210 and EBIO 1220 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**EBIO 4060 (3) Landscape Ecology**

Studies distributional patterns of communities and ecosystems, ecological processes that affect those patterns, and changes in pattern and process over time. Consideration of spatial and temporal scales in ecological analyses is required to understand and predict response to broad-scale environmental change.

**Equivalent - Duplicate Degree Credit Not Granted:** EBIO 5060

**Recommended:** Prerequisites EBIO 1210 and EBIO 1220 and EBIO 1230 and EBIO 1240 and EBIO 2040 or EBIO 2640 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**EBIO 4070 (3) DNA Methods in Ecology and Conservation Biology**

Acquiring skill with molecular methods in ecology and conservation biology is most quickly accomplished with hands-on experience.

Combines classroom lectures with collecting in the field and laboratory exercises to provide experience extracting DNA, amplifying DNA with the Polymerase Chain Reaction (PCR), designing PCR primers, sequencing DNA and editing and aligning sequences with the Sequencher software.

**Requisites:** Requires prerequisite course of EBIO 2070 (minimum grade C).

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

Arts Sci Gen Ed: Distribution-Natural Sci Lab

**EBIO 4080 (4) Freshwater Phycology**

Algae are a non-monophyletic group of organisms that play critical roles in ecosystem structure and function. They have a long history of being used in a variety of ways by the human species, but are increasingly being applied to modern issues of understanding water quality and climate change, engineering at the nano scale and in the production of renewable biofuels.

**Equivalent - Duplicate Degree Credit Not Granted:** EBIO 5080

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisites EBIO 1210 and EBIO 1220 and EBIO 1230 and EBIO 1240 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

Arts Sci Gen Ed: Distribution-Natural Sci Lab

**EBIO 4090 (3) Coral Reef Ecology**

Combines classroom-based instruction in the Fall semester with an international, field-based SCUBA diving expedition to learn about the incredible coral reef ecosystems of the Caribbean (in early January). Students learn about and observe a variety of organisms that make the reef their home. The course covers threats to coral reefs worldwide as well as ongoing efforts aimed at conservation. Scuba certification required.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite any ecology course is a highly recommended.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sci Lab  
Arts Sci Gen Ed: Distribution-Natural Sciences

**EBIO 4100 (3) Advanced Ecology**

Emphasizes specific aspects of ecology based on specialties of faculty. One or more courses are offered most semesters. Topics have included dynamics of mountain ecosystems, tundra ecology, ethnoecology, population dynamics, tropical and insular biology, ecology of fishes, quantitative plant ecology, and arctic and alpine environments. May use animals and/or animal tissues.

**Equivalent - Duplicate Degree Credit Not Granted:** EBIO 5100

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Recommended:** Prerequisites EBIO 1210 and EBIO 1220 and EBIO 1230 and EBIO 1240 and EBIO 2040 or EBIO 2640 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**EBIO 4120 (2-4) Advanced Ecology**

Emphasizes specific aspects of ecology based on specialties of faculty. One or more courses are offered most semesters. Topics have included dynamics of mountain ecosystems, tundra ecology, ethnoecology, population dynamics, tropical and insular biology, ecology of fishes, quantitative plant ecology and arctic and alpine environments. May use animals and/or animal tissues.

**Equivalent - Duplicate Degree Credit Not Granted:** EBIO 5120

**Repeatable:** Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.

**Recommended:** Prerequisites EBIO 1210 and EBIO 1220 and EBIO 1230 and EBIO 1240 and EBIO 2040 or EBIO 2640 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**EBIO 4140 (3) Plant Ecology**

Examines the relationships between plants and their physical and biological environments, encompassing physiology, competition, plant-soil and plant-animal interactions, population dynamics, diversity, and influence on ecosystem function.

**Recommended:** Prerequisites EBIO 1210 and EBIO 1220 and EBIO 1230 and EBIO 1240 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**EBIO 4145 (4) Restoration Ecology**

Examines ecological theories that inform the practice of ecological restoration, with particular emphasis on grassland ecosystems near Boulder and linkages with social, political and economic factors. In conjunction with local partner organizations, students work on a current management challenge, generate novel data using accepted field techniques, and formulate a professional restoration management plan.

**Requisites:** Requires prerequisite EBIO 2040 or ENVS 3434 or CVEN 3434 (all minimum grade C-).

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**EBIO 4150 (1-2) Techniques in Ecology**

Emphasizes application of modern ecological techniques, such as stream biology, aquatic biology, environmental measurement and control, and techniques in geoecology.

**Equivalent - Duplicate Degree Credit Not Granted:** EBIO 5150

**Repeatable:** Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.

**Recommended:** Prerequisites EBIO 1210 and EBIO 1220 and EBIO 1230 and EBIO 1240 and EBIO 2040 or EBIO 2640 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**EBIO 4155 (3) Ecosystem Ecology**

Integrates information from physics (energetics), chemistry (element properties) and biology (evolutionary traits, photosynthetic pathways) to understand the structure and functioning of ecosystems. Provides an analysis of biotic community responses and feedbacks to environmental change drivers. Strong focus on water, nutrient cycling and carbon dynamics of diverse terrestrial and aquatic landscapes. Formerly EBIO 3270.

**Recommended:** Prerequisites general biology, EBIO 2040 or equivalent.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**EBIO 4160 (3) Introduction to Biogeochemistry**

Covers fundamentals of biogeochemical cycling, emphasizing water, carbon and nutrient dynamics in terrestrial ecosystems; chemical interactions of atmosphere, biosphere, lithosphere and hydrosphere; natural and human-managed environments.

**Equivalent - Duplicate Degree Credit Not Granted:** ENVS 4160 and GEOL 4160

**Recommended:** Prerequisites GEOL 3320 or EBIO 3270 and CHEM 1011 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**EBIO 4175 (3) The Scientific Basis for Ecosystem Management of Public Lands**

An advanced field ecology course emphasizing measurements, statistical procedures and biotic data information management relevant to land management issues. Develops concepts of adaptive ecosystem management using ongoing field studies on public land in the Colorado Front Range.

**Recommended:** Prerequisites EBIO 3270 and EBIO 4500 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**EBIO 4270 (4) Population Genetics**

Provides an in-depth applied introduction to population genetics. Lectures, discussions and labs will focus on exploring how evolutionary processes shape genetic variation through time and space and how population-level evolutionary processes can be inferred from patterns of genetic variation. While learning basic population genetic theory we will investigate current topics in the field and work with simulated and real data.

**Equivalent - Duplicate Degree Credit Not Granted:** EBIO 5270

**Requisites:** Requires prerequisite courses of EBIO 2070 and EBIO 3080 (all minimum grade C-).

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**EBIO 4290 (4) Phylogenetics and Comparative Biology**

Reviews the principles and methodology of phylogenetic inference using molecular data. Emphasizes the application of comparative approaches to hypothesis testing in evolution, ecology and medicine and provides a broad foundation in both theory and practice of phylogenetics.

**Equivalent - Duplicate Degree Credit Not Granted:** EBIO 5290

**Recommended:** Prerequisite EBIO 3080 (minimum grade C-) or instructor consent required.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**EBIO 4340 (4) Conservation Biology and Practice in Brazil's Atlantic Forest**

Field Studies. Examines the application of conservation principles in the Atlantic Forest of Brazil, a 'biodiversity-in-crisis' setting. Explores successful conservation strategies integrated with efforts to alleviate socioeconomic issues. Three-week Maymester, Study Abroad Global Seminar.

**Equivalent - Duplicate Degree Credit Not Granted:** EBIO 5340 and ENVS 4340 and ENVS 5340

**Recommended:** Prerequisite EBIO 2040 or ENVS 2000 or 2000/higher-level course in ANTH, EBIO, ENVS, EVEN, GEOG, IAFS or other discipline related to ecology or sustainability.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences  
Arts Sci Gen Ed: Distribution-Natural Sci Lab

**EBIO 4410 (4) Biological Statistics**

Lect. and lab. Offers a demanding, problems-oriented methods course in statistical inference procedures, assumptions, limitations, and applications emphasizing techniques appropriate to realistic biological problems. Includes data file management using interactive computing techniques.

**Equivalent - Duplicate Degree Credit Not Granted:** EBIO 5410

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisites EBIO 1210 and EBIO 1220 and EBIO 1230 and EBIO 1240 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**EBIO 4420 (3) Computational Biology**

Covers a wide range of techniques for simulating biological systems, developing computer programs and scripts to interact with data and making research shareable and reproducible.

**Equivalent - Duplicate Degree Credit Not Granted:** EBIO 5420

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**EBIO 4440 (4) Animal Developmental Diversity**

Surveys development in a range of vertebrate and invertebrate systems to reconstruct the common bilaterian ancestor, and elucidate the developmental genetic changes underlying animal diversification. Lab focuses on vertebrate embryos and explores key methods in evolutionary developmental biology including in situ hybridization, embryo microinjection, and transgenesis.

**Equivalent - Duplicate Degree Credit Not Granted:** EBIO 5440 and MCDB 4441 and MCDB 5441

**Recommended:** Prerequisites MCDB 1150 or EBIO 1210 and MCDB 2150 or EBIO 2070 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences  
Arts Sci Gen Ed: Distribution-Natural Sci Lab

**EBIO 4460 (1-5) Special Topics**

Familiarizes students with specialized areas of biology.

**Equivalent - Duplicate Degree Credit Not Granted:** EBIO 5460

**Repeatable:** Repeatable for up to 15.00 total credit hours. Allows multiple enrollment in term.

**Recommended:** Prerequisites EBIO 1210 and EBIO 1220 and EBIO 1230 and EBIO 1240 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**EBIO 4500 (4) Plant Biodiversity and Evolution**

Lect. and lab. Surveys plant types emphasizing diagnostic features of plants in general and major taxa in particular. Focuses on identity, morphology, anatomy, reproduction, ecology, geography, evolution, fossil record, and economic use of taxa.

**Recommended:** Prerequisites EBIO 1210 and EBIO 1220 and EBIO 1230 and EBIO 1240 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences  
Arts Sci Gen Ed: Distribution-Natural Sci Lab

**EBIO 4510 (4) Plant Anatomy and Development**

Lect. and lab. Introduces structures of seed plants, especially angiosperms, and developmental history of these structures. Studies cell types, and their location and function in plant tissues and organs. The laboratory provides an opportunity to examine plant tissues and to prepare tissues for examination by the light microscope. Stresses role of plant structures in the living plant.

**Recommended:** Prerequisites, EBIO 1210 and EBIO 1220 and EBIO 1230 and EBIO 1240 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences  
Arts Sci Gen Ed: Distribution-Natural Sci Lab

**EBIO 4520 (4) Plant Systematics**

Lect. and lab. Studies the principles and techniques of modern systematics of organisms, illustrated with examples from the plant kingdom, usually the angiosperms. Framework of course is evolutionary and ecological, as well as taxonomic.

**Equivalent - Duplicate Degree Credit Not Granted:** EBIO 5520

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences  
Arts Sci Gen Ed: Distribution-Natural Sci Lab

**EBIO 4530 (4) Functional Plant Biology**

Lect. and lab. Explores mechanisms of plant functioning and how such functioning relates to the performance of the plant under different environmental conditions. Phenomena include water relations, growth and development, and metabolic processes including photosynthesis, respiration, and responses to stress.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisites EBIO 1210 and EBIO 1220 and EBIO 1230 and EBIO 1240 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences  
Arts Sci Gen Ed: Distribution-Natural Sci Lab

**EBIO 4550 (4) Plant Eco-Evo-Devo**

Explores the fundamental principles of plant form from the perspectives of ecological function, evolutionary origin, and developmental dynamics. Students are presented with conceptual and analytical tools to interpret the vast diversity of growth form-function relationships that exist among plants. Laboratory sessions apply concepts presented in lecture and students will engage in original research using light and scanning electron microscopy.

**Recommended:** Prerequisites EBIO 1210 and EBIO 1220 and EBIO 1230 and EBIO 1240 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences  
Arts Sci Gen Ed: Distribution-Natural Sci Lab

**EBIO 4560 (4) The Lichen Biome**

Focuses on lichens as biologically diverse hubs of interactions, and will cover numerous dimensions of diversity within the symbiosis (algae, bacteria, and ecological and evolutionary relationships therein) and beyond it (diversity of lichen symbioses in nature, their functions, and conservation).

**Equivalent - Duplicate Degree Credit Not Granted:** EBIO 5560

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences  
Arts Sci Gen Ed: Distribution-Natural Sci Lab

**EBIO 4600 (4) Evolutionary Ecology**

Evaluates how interactions within species, among species and between species and the environment evolve over time. Emphasizes the development of scientific skills, including ecological, genetic and statistical tools for testing hypotheses in evolutionary ecology. Lab activities include research projects that quantify natural selection, gene flow and phenotypic plasticity in natural systems, and a semester-long class experiment examining plant dispersal.

**Equivalent - Duplicate Degree Credit Not Granted:** EBIO 5600

**Requisites:** Requires prerequisite courses of EBIO 2040 and EBIO 3080 (all minimum grade C-).

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences  
Arts Sci Gen Ed: Distribution-Natural Sci Lab

**EBIO 4640 (3) Plant Field Studies**

Includes field-oriented courses offered at irregular intervals during the academic year or during summer sessions.

**Repeatable:** Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Requires prerequisite courses of EBIO 2040 or EBIO 2640 or ENVS 2000 (all minimum grade C-).

**Recommended:** Prerequisites EBIO 2040 and EBIO 2640 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sci Lab  
Arts Sci Gen Ed: Distribution-Natural Sciences

**EBIO 4660 (4) Insect Biology**

Lect. and lab. Introduction to evolution, ecology, physiology, and behavior of insects. Emphasizes how insects have solved problems, such as maintaining water balance or finding food, that are shared by all animals but for which there may be unique solutions among the insects. Agricultural and human health problems relative to entomology are discussed. Uses animals and/or animal tissues.

**Equivalent - Duplicate Degree Credit Not Granted:** EBIO 5660

**Recommended:** Prerequisites EBIO 1210 and EBIO 1220 and EBIO 1230 and EBIO 1240 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences  
Arts Sci Gen Ed: Distribution-Natural Sci Lab

**EBIO 4740 (3) Biology of Amphibians and Reptiles**

Comparative morphology, taxonomy, ecology, behavior and geographic distribution of amphibians and reptiles. Uses animals and animal tissue.

**Equivalent - Duplicate Degree Credit Not Granted:** EBIO 5740

**Recommended:** Prerequisites EBIO 1210 and EBIO 1220 and EBIO 1230 and EBIO 1240 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**EBIO 4750 (4) Ornithology**

Lect., lab, and field trips. Presents origin, evolution, ecology, physical and behavioral characteristics and taxonomy of orders and families of birds of North America; field work with local species emphasizing avian ecology. Uses animals and/or animal tissues.

**Equivalent - Duplicate Degree Credit Not Granted:** EBIO 5750

**Recommended:** Prerequisites EBIO 1210 and EBIO 1220 and EBIO 1230 and EBIO 1240 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

Arts Sci Gen Ed: Distribution-Natural Sci Lab

**EBIO 4760 (4) Mammalogy**

Lect., lab, and field studies. Discusses origin, evolution and adaptation, geographic distribution, ecology and taxonomy of mammals; field and laboratory study of Coloradan species. Uses animals and/or animal tissues.

**Equivalent - Duplicate Degree Credit Not Granted:** EBIO 5760 and MUSM 5760

**Recommended:** Prerequisites EBIO 1210 and EBIO 1220 and EBIO 2040 and EBIO 2640 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

Arts Sci Gen Ed: Distribution-Natural Sci Lab

**EBIO 4800 (3) Critical Thinking in Biology**

Lect. and discussion. Explores controversial issues, historical themes, or emerging developments in biology. Consult the EBIO Undergraduate Advising Center for current listings.

**Equivalent - Duplicate Degree Credit Not Granted:** EBIO 5800

**Repeatable:** Repeatable for up to 15.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite minimum of 14 hours of EBIO course work.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**EBIO 4840 (1-6) Independent Study: Upper Division**

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**EBIO 4860 (1-2) Critical Thinking in Biology - Lab****EBIO 4870 (1-6) Independent Research: Upper Division**

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**EBIO 4980 (2) Seminar: EBIO Honors Thesis**

Offers guidance to graduating Honors students during the process of thesis writing, evaluation and presentation of their research results and thesis defense. Thesis requirements and the role of the A&S Honors Council will be discussed. All graduating candidates will present a practice defense talk for peer feedback and will be expected to offer feedback to their peers.

**Recommended:** Prerequisites minimum 3.3 GPA and a declared EBIO major and approval by departmental honors committee.

**Additional Information:** Arts Sciences Honors Course

**EBIO 4990 (1-3) EBIO Honors Thesis Research**

To be taken during the final academic year prior to graduation. Consists of the final phase of honors research and thesis preparation under the guidance of a faculty mentor.

**Requisites:** Restricted to Ecology and Evolutionary Biology (EBIO) majors only.

**Recommended:** Prerequisites minimum 3.3 GPA and a declared EBIO major and approval by departmental Honors program.

**Additional Information:** Arts Sciences Honors Course

## Ecology and Evolutionary Biology - Bachelor of Arts (BA)

The undergraduate program in ecology and evolutionary biology offers a highly interactive, intellectual environment that prepares students for a career in the natural sciences.

Our program was specifically designed for students who are interested in a broad exposure to the concepts and methodologies of the biological sciences, as well as those interested in a more specific sub-discipline.

We offer a broad range of learning opportunities, including traditional classroom experiences, field and laboratory research opportunities, and independent study.

## Requirements

### AP & Transfer Credit

Students with scores of 4 or 5 on the AP biology test receive 8 hours of credit and are exempt from the general biology sequence (EBIO 1210 and EBIO 1220, and EBIO 1230 and EBIO 1240). Students who score in the 66th percentile or higher on the CLEP test in biology receive 6 hours of credit and are exempt from EBIO 1210 and EBIO 1220.

EBIO majors with transfer credit in biology from other institutions or advanced placement credits must consult with the EBIO undergraduate advisor. Transfer students must complete at least 12 upper-division (3000-level or above) EBIO credit hours on the Boulder campus.

### Program Requirements

In addition to the general College of Arts and Sciences requirements, students in EBIO must complete complete 9–15 credit hours in ancillary coursework, plus a statistics course and 38 credit hours of coursework in EBIO.

Up to 12 credit hours of courses taken in other departments may be counted toward the 38 credit hours required for the EBIO major. A list of acceptable courses can be obtained from the EBIO advisor. A maximum of 6 credit hours of Independent Study/Research may be applied toward the major. A maximum of 6 credit hours of internship may be applied toward the major.

All required courses must be completed with a grade of C- or better.

### Required Courses and Credits

Code	Title	Credit Hours
<b>Required Introductory Biology Coursework</b>		
Complete two of the following:		8
EBIO 1210 & EBIO 1230	General Biology 1 and General Biology Laboratory 1	
EBIO 1220 & EBIO 1240	General Biology 2 and General Biology Laboratory 2	

EBIO 1250	Introduction to Ecology and Evolutionary Biology Research	
EBIO 1100 & EBIO 1110	Biology and Society and Biology and Society Laboratory	

**Required Major Courses**

EBIO 2040	Principles of Ecology	4
EBIO 2070	Genetics: Molecules to Populations	4
EBIO 3080	Evolutionary Biology	4

One EBIO laboratory or field course, 3000 level or above. 3-4  
Possible choices include:

EBIO 3170	Mountain Ecology and Conservation	
EBIO 3240	Animal Behavior	
EBIO 3400	Microbiology	
EBIO 3630	Parasitology	
EBIO 3850	Animal Diversity: Invertebrates	
EBIO 4100	Advanced Ecology	
EBIO 4500	Plant Biodiversity and Evolution	
EBIO 4510	Plant Anatomy and Development	
EBIO 4520	Plant Systematics	
EBIO 4660	Insect Biology	
EBIO 4750	Ornithology	
EBIO 4760	Mammalogy	

EBIO 4000-level or above (at least 6 credit hours). Possible choices include: <sup>1</sup> 6

EBIO 4030	Limnology	
EBIO 4060	Landscape Ecology	
EBIO 4140	Plant Ecology	
EBIO 4100	Advanced Ecology	
EBIO 4160	Introduction to Biogeochemistry	
EBIO 4175	The Scientific Basis for Ecosystem Management of Public Lands	
EBIO 4290	Phylogenetics and Comparative Biology	
EBIO 4410	Biological Statistics <sup>2</sup>	
EBIO 4740	Biology of Amphibians and Reptiles	
EBIO 4800	Critical Thinking in Biology	
EBIO 4840	Independent Study: Upper Division	
EBIO 4870	Independent Research: Upper Division	

**Electives**

EBIO electives to bring total in major to 38 credit hours 8-9

**Total Credit Hours** 38

**Other Required Coursework**

Code	Title	Credit Hours
<b>Statistics <sup>2</sup></b> 0-4		
EBIO 1010	Introduction to Quantitative Thinking for Biologists	
MATH 2510	Introduction to Statistics	
MATH 3510	Introduction to Probability and Statistics	
IPHY 2800	Introduction to Statistics	
PSYC 2111	Psychological Science I: Statistics	
EBIO 4410	Biological Statistics <sup>2</sup>	

**Ancillary Mathematics/Science Coursework**

Select three of the following: 9-15

**Mathematics**

MATH 1212	Data and Models
MATH 1150	Precalculus Mathematics
MATH 1300	Calculus 1
or MATH 1310	Calculus for Life Sciences
or APPM 1350	Calculus 1 for Engineers
MATH 2300	Calculus 2
or APPM 1360	Calculus 2 for Engineers
MATH 2380	Mathematics for the Environment

**Chemistry**

CHEM 1021	Introductory Chemistry
CHEM 1011	Environmental Chemistry 1
CHEM 1113 & CHEM 1114	General Chemistry 1 and Laboratory in General Chemistry 1 <sup>3</sup>
or CHEM 1400 & CHEM 1401	Foundations of Chemistry and Foundations of Chemistry Lab
CHEM 1133 & CHEM 1134	General Chemistry 2 and Laboratory in General Chemistry 2
CHEM 3151/ATOC 3500	Air Chemistry and Pollution
CHEM 4141	Environmental Water and Soil Chemistry

**Physics**

PHYS 1010	Physics of Everyday Life 1
PHYS 2010	General Physics 1
or PHYS 1110	General Physics 1
PHYS 2020	General Physics 2
or PHYS 1120 & PHYS 1140	General Physics 2 and Experimental Physics 1
PHYS/ENVS 3070	Energy and the Environment

**Geology**

GEOL 1010 & GEOL 1030	Exploring Earth and Introduction to Geology Laboratory 1
or GEOL 1010 & GEOL 1030	Exploring Earth for Scientists and Introduction to Geology Laboratory 1
GEOL 1020	Dodos, Dinos, and Deinococcus: The History of a Habitable Planet
GEOL 1150	Water, Energy and Environment: An Introduction to Earth Resources
GEOL 1170	Our Deadly Planet
GEOL 1180	Our Microbial Planet

**Geography**

GEOG 1001	Environmental Systems: Climate and Vegetation
GEOG 1011	Environmental Systems: Landscapes and Water
GEOG 2271	Introduction to the Arctic Environment
<b>Geography - GIS</b>	
GEOG 4103	Geographic Information Science: Spatial Analytics
GEOG 4203	Geographic Information Science: Spatial Modeling
GEOG 4303	Geographic Information Science: Spatial Programming

GEOG 4603	GIS in the Social and Natural Sciences	
<i>Atmospheric and Oceanic Sciences</i>		
ATOC 1060	Our Changing Environment: El Nino, Ozone, and Climate	
ATOC 3070	Introduction to Oceanography	
ATOC 4200	Biogeochemical Oceanography	
ATOC 3500/ CHEM 3151	Air Chemistry and Pollution	
<i>Computer Science</i>		
CSCI 1200	Introduction to Computational Thinking	
CSCI 1300	Computer Science 1: Starting Computing	
Total Credit Hours		13-15

- <sup>1</sup> These 6 credit hours must include one course taken at the CU Boulder campus, the Mountain Research Station or on a CU Boulder Global Seminar, and may include a maximum of 3 credit hours of independent study or independent research.
- <sup>2</sup> Of these, only EBIO 4410 counts toward the 38 credit hours of EBIO required for the major.
- <sup>3</sup> Students must take the lecture and lab for these courses.

## Recommended Four-Year Plan of Study

Through the required coursework for the major, students will fulfill all 12 credits of the Natural Sciences area of the Gen Ed Distribution Requirement, including the Lab.

Course	Title	Credit Hours
<b>Year One</b>		
<b>Fall Semester</b>		
EBIO 1210	General Biology 1	3

EBIO Upper-Division	4	
Gen. Ed. Distribution course (example: Arts & Humanities) - Upper-division	3	
Upper-division Elective	3	
Upper-division Elective	3	
Credit Hours		17
Total Credit Hours		120-122

## Bachelor's–Accelerated Master's Degree Program(s)

The Bachelor's–Accelerated Master's (BAM) degree program options offer currently enrolled CU Boulder undergraduate students the opportunity to receive a bachelor's and master's degree in a shorter period of time. Students receive the bachelor's degree first, but begin taking graduate coursework as undergraduates (typically in their senior year). Because some courses are allowed to double count for both the bachelor's and the master's degrees, students receive a master's degree in less time and at a lower cost than if they were to enroll in a stand-alone master's degree program after completion of their baccalaureate degree. In addition, staying at CU Boulder to pursue a bachelor's–accelerated master's program enables students to continue working with their established faculty mentors.

## BA and MA in Ecology and Evolutionary Biology

A combined bachelor's and master's degree with thesis is offered for highly motivated undergraduate students. The BAM program allows students to take advanced courses at an accelerated pace, engage in an independent research project and obtain both degrees in five years. In addition to preparing graduates for additional graduate study or medical school, the program is expected to position them for employment in areas such as environmental consulting, teaching at the high school or community college level or by businesses with an environmental or biomedical emphasis.

### Admissions Requirements

In order to gain admission to the BAM program named above, a student must meet the following criteria:

- Have a cumulative GPA of 2.75 or higher
- Have a major GPA in EBIO of 3.0 or higher
- Have the support of a faculty research advisor
- Have completed a minimum of 12 credit hours of coursework
- Transfer students must have completed a minimum of 24 credit hours at CU Boulder
- Students must have completed prerequisite courses EBIO 2040, EBIO 2070 and EBIO 3080

Applications from sophomores and juniors for the BAM degree are considered on a competitive basis. Applications are available from the EBIO graduate coordinator, and are due on October 15 and March 15.

### Program Requirements

Students may take up to and including 12 hours while in the undergraduate program which can later be used toward the master's degree. However, only six undergraduate credits (at the 4000-level) may be double counted toward the bachelor's degree and the master's degree. Students must apply to graduate with the bachelor's degree, and apply to continue with the master's degree, early in the semester in which the undergraduate requirements will be completed.<sup>1</sup>

Students interested in this program are encouraged to consult with the EBIO associate chair for graduate studies early in their undergraduate career. No financial support is available from the department for students enrolled in this program.

<sup>1</sup> Students who were admitted prior to July 2019 follow a concurrent Bachelor's/Master's structure, and the two degrees are awarded simultaneously when requirements for both degrees are met.

## Ecology and Evolutionary Biology - Minor

A minor is offered in ecology and evolutionary biology. Declaration of a minor is open to any student enrolled at CU Boulder, regardless of college or school.

We offer a broad range of learning opportunities, including traditional classroom experiences, field and laboratory research opportunities, and independent study.

### Requirements

#### Program Requirements

Students must complete:

- A total of 20 credit hours in EBIO with grades of C- or better.
- A 2.00 GPA or higher for all coursework attempted in EBIO.
- 9 hours of upper-division credit in EBIO.
- 3 hours of 4000-level credit in EBIO.
- A minimum of 12 credit hours must be taken on the Boulder campus, including a minimum of 6 of the 9 upper-division credit hours. Mountain Research Station is considered the Boulder campus.
- Up to 3 credit hours of any combination of the following can count toward the EBIO minor: Independent study, Independent research or internship credit.

All courses must have an EBIO subject code. EBIO 1030, EBIO 1040, EBIO 1050, EBIO 1300 and EBIO 3010 do not count toward the minor requirement.

### Required Courses and Credits

Code	Title	Credit Hours
<b>Required Courses</b>		
Complete any two of these four lecture/lab combinations		8
EBIO 1210 & EBIO 1230	General Biology 1 and General Biology Laboratory 1	
EBIO 1220 & EBIO 1240	General Biology 2 and General Biology Laboratory 2	
EBIO 1250	Introduction to Ecology and Evolutionary Biology Research	
EBIO 1100 & EBIO 1110	Biology and Society and Biology and Society Laboratory	
<b>Electives</b>		
Complete 3 credits of lower- or upper-division EBIO courses.		3
Complete 6 credits of 3000- or 4000-level EBIO courses.		6
Complete 3 credits of 4000-level EBIO courses.		3
Total Credit Hours		20

## Economics

The undergraduate degree in economics emphasizes knowledge and awareness of:

- the conditions for efficiency in free market production and exchange;
- contemporary theories concerning economic growth, inflation, unemployment, distribution of income and international environment;
- specialized fields of economics, such as international economics and finance, natural resources and environment, the economics of gender and discrimination and public economics;
- the descriptive statistics commonly used by economists; and
- the institutional characteristics of the US economy, and how these differ from those in other economies.

In addition, students completing the degree in economics are expected to acquire the ability and skills to:

- apply the tools of microeconomic theory to reach sound conclusions for simple economic problems;
- follow arguments concerning macroeconomic theory to distinguish between sound and fallacious reasoning and to understand how differences in policy prescription may arise;

- perform statistical analysis such as multiple regression and understand similar analyses performed by others; and
- communicate economic reasoning in writing, understand similar writing by others and appreciate the diversity of views that may reasonably exist about economic problems.

Course code for this program is ECON.

## Economics Honors Program

The honors program in economics provides an opportunity for highly motivated majors to undertake individualized research and to graduate with honors (*cum laude*, *magna cum laude*, *summa cum laude*) in economics. Economics majors with senior standing and both economics and overall GPAs of 3.40 or better are eligible to participate. Participants enroll in the economics honors seminars, which provide instruction in research methodology essential to the preparation of the honors thesis. Students interested in the economics honors program should contact the departmental honors advisor during their junior year.

## Bachelor's Degree

- Economics - Bachelor of Arts (BA) (p. 245)

## Minor

- Economics - Minor (p. 247)

## Faculty

While many faculty teach both undergraduate and graduate students, some instruct students at the undergraduate level only. For more information, contact the faculty member's home department.

## Courses

### ECON 1078 (3) Mathematical Tools for Economists 1

Teaches mathematical skills and logical thinking for use in economics. Topics include algebra, graphs, functions, and probability. Includes many "Real world" examples and some illustrative computer assignments.

**Additional Information:** Arts Sci Core Curr: Quant Reasn Mathmat Skills

Arts Sci Gen Ed: Quantitative Reasoning Math

Departmental Category: Quantitative Economics

### ECON 1088 (3) Mathematical Tools for Economists 2

Continuation of ECON 1078. Teaches mathematical skills for use in economics. Topics include derivatives, optimization and integration. These skills are used on "real world" problems and illustrated with computer assignments. For more information about the math placement referred to in the "Enrollment Requirements", contact your academic advisor.

**Equivalent - Duplicate Degree Credit Not Granted:** APPM 1345 or APPM 1350 or MATH 1081 or MATH 1300 or MATH 1310 or MATH 1330

**Requisites:** Requires prerequisite course of ECON 1078 or MATH 1011 or MATH 1071 or MATH 1150 or MATH 1160 (minimum grade C-) or an ALEKS math exam taken in 2016 or earlier, or placement into pre-calculus based on your admission data and/or CU Boulder coursework.

**Additional Information:** Arts Sci Core Curr: Quant Reasn Mathmat Skills

Arts Sci Gen Ed: Quantitative Reasoning Math

Departmental Category: Quantitative Economics

### ECON 2010 (4) Principles of Microeconomics

Examines basic concepts of microeconomics or the behavior and the interactions of individuals, firms and government. Topics include determining economic problems, how consumers and businesses make decisions, how markets work, and how they fail and how government actions affect markets.

**Additional Information:** Arts Sci Core Curr: Contemporary Societies

Arts Sci Gen Ed: Distribution-Social Sciences

Departmental Category: Theory and History of Economic Thought

MAPS Course: Social Science

### ECON 2020 (4) Principles of Macroeconomics

Provides an overview of the economy, examining the flows of resources and outputs and the factors determining the levels of income and prices. Explores policy problems of inflation, unemployment and economic growth.

**Requisites:** Requires prerequisite course of ECON 2010 (minimum grade C-).

**Additional Information:** Arts Sci Core Curr: Contemporary Societies

Arts Sci Gen Ed: Distribution-Social Sciences

Departmental Category: Theory and History of Economic Thought

MAPS Course: Social Science

### ECON 3070 (4) Intermediate Microeconomic Theory

Explores theory and application of models of consumer choice, firm and market organization, and general equilibrium. Extensions include intertemporal decisions, decisions under uncertainty, externalities, and strategic interaction.

**Requisites:** Requires prerequisite courses of ECON 2010 and ECON 1088 or MATH 1081 or MATH 1300 or MATH 1310 or APPM 1350 (all min grade C-). Restricted to students with 22-180 units completed.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

Departmental Category: Theory and History of Economic Thought

### ECON 3080 (3) Intermediate Macroeconomic Theory

Introduces theories of aggregate economic activity including the determination of income, employment, and prices; economic growth; and fluctuations. Macroeconomic policies are explored in both closed and open economy models. ECON 3070 ECON and 3080 may be taken in any order; there is no recommended sequence.

**Requisites:** Requires prerequisite courses of ECON 2020 and ECON 1088 or MATH 1081 or MATH 1300 or MATH 1310 or APPM 1350 (all min grade C-). Restricted to students with 22-180 units completed.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

Departmental Category: Theory and History of Economic Thought

**ECON 3403 (3) International Economics and Policy**

Examines national and supranational policies that affect the international economy, with attention to trade barriers, economic nationalism and regionalism, international political economy, exchange market intervention, and international transmission of economic perturbations. Credit given in this course is not included in the calculation of an economics major GPA. May not be taken after either ECON 4413 or ECON 4423.

**Requisites:** Requires prerequisite courses of ECON 2010 and ECON 2020 (all minimum grade C-). Economic (ECON) majors are restricted from taking this course. ECON minors are allowed to enroll.

**Additional Information:** Arts Sci Core Curr: Contemporary Societies  
Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: International Trade and Finance

**ECON 3535 (3) Natural Resource Economics**

Integrates economic analysis with life science aspects of natural resource systems to develop social policies for use of natural resources. Studies economists' approaches to resources policy analysis and applies them to energy, forestry, fisheries, mineral and water systems. Credit given in this course is not included in the calculation of an economics major GPA.

**Equivalent - Duplicate Degree Credit Not Granted:** ECON 4535

**Requisites:** Requires prerequisite course of ECON 2010 (minimum grade C-). Economic (ECON) majors are restricted from taking this course. ECON minors are allowed to enroll.

**Additional Information:** Arts Sci Core Curr: Contemporary Societies  
Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Natural Resources and Environmental Economics

**ECON 3545 (3) Environmental Economics**

Highlights causes of excessive environmental pollution and tools for controlling it through economic analysis, values of preservation and distribution of costs and benefits from environmental protection programs. Credit given in this course is not included in the calculation of an economics major GPA.

**Equivalent - Duplicate Degree Credit Not Granted:** ECON 4545

**Requisites:** Requires prerequisite course of ECON 2010 (minimum grade C-). Economic (ECON) majors are restricted from taking this course. ECON minors are allowed to enroll.

**Additional Information:** Arts Sci Core Curr: Contemporary Societies  
Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Natural Resources and Environmental Economics

**ECON 3616 (3) Employment, Wages and the Future of Work**

Examines how automation, globalization and information technology are changing which jobs get done, by whom and how much they pay. Illustrates how basic labor supply and demand theory helps predict the impact of technological progress on occupational composition, income inequality and the nature of work itself. These theoretical tools also guide our search for appropriate public policy responses. Credit given in this course is not included in the calculation of an economics major GPA.

**Requisites:** Requires a prerequisite course of ECON 2010 (minimum grade C-). Economic (ECON) majors are excluded from taking this course. ECON minors are allowed to enroll.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Labor and Human Resources

**ECON 3784 (3) Economic Development and Policy**

Introductory course in Economic Development, designed for non-majors. Students are introduced to the major issues in development economics. Explores empirical, theoretical and policy issues in economic development. Emphasis is placed on the controversial issues in this literature, requiring students to explore competing, and often conflicting, perspectives of these issues.

**Requisites:** Requires prerequisite courses of ECON 2010 and ECON 2020 (all minimum grade C-). Economic (ECON) majors are restricted from taking this course. ECON minors are allowed to enroll.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Economic Development

**ECON 3818 (4) Introduction to Statistics with Computer Applications**

Introduces statistical methods and their applications in quantitative economic analysis.

**Requisites:** Requires prerequisite courses of ECON 2010 and 2020 and either ECON 1088 or MATH 1081 or MATH 1300 or MATH 1310 or APPM 1350 (all minimum grade C-). Restricted to students with 22-180 units completed.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Quantitative Economics

**ECON 4050 (3) Market Design**

Develops foundations for the modern market design practices. Economists are increasingly involved in studying and designing practical market mechanisms. Includes topics such as designing efficient matching markets (students to schools, doctors to hospitals), designing auction mechanisms (Google, Facebook, government) and designing market platforms (eBay, Amazon).

**Requisites:** Requires prerequisite course of ECON 3070 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Theory and History of Economic Thought

**ECON 4060 (3) Choice Theory and Economic Ethics: Good, Bad and Happiness**

Critiques how economists model and judge behavior. How we judge is contrasted with other moral philosophies. Economists assume individuals behave in their own best interests. What does this mean and is it true? Looks at research from psychology and neuroscience. Quizzes and a multi-step research paper, designed for students who love to question, research, write and rewrite.

**Requisites:** Requires prerequisite course of ECON 3070 (minimum grade C-). Restricted to students with 57-180 credits (Junior or Senior).

**Recommended:** Prerequisite ECON 3080.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Theory and History of Economic Thought

**ECON 4070 (3) Topics in Microeconomics**

Studies utility maximization under uncertainty, risk, game theory, moral hazard, and adverse selection. Applications include insurance markets and the theory of contracts.

**Requisites:** Requires prerequisite course of ECON 3070 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Theory and History of Economic Thought

**ECON 4111 (3) Money and Banking Systems**

Discusses money, financial institutions and the monetary-financial system in a modern economy.

**Requisites:** Requires prerequisite course of ECON 3080 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Money and Banking

**ECON 4211 (3) Public Economics: the Economics of the Government Sector**

Focuses on taxation and public expenditures. Topics include economic rationale for government action, economic theory of government behavior, and effects of government policies on allocation of resources and distribution of income.

**Requisites:** Requires prerequisite courses of ECON 3070 and ECON 3818 or APPM 4520 or APPM 4570 or CHEN 3010 or CVEN 3227 or MATH 4520 (all minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Public Economics

**ECON 4221 (3) Political and Public Choice Economics**

Explores decision-making in non-traditional market settings, specifically political market settings, using economic models. We investigate policy outcomes as the product of interactions among individuals in political markets, and analyze how governmental decisions are the result of rational optimizing behavior, even if they do not lead to policies that maximize national welfare.

**Requisites:** Requires prerequisite courses of ECON 3070 and ECON 3818 or APPM 4520 or APPM 4570 or CHEN 3010 or CVEN 3227 or MATH 4520 (all minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Public Economics

**ECON 4231 (3) Applied Economic Analysis and Public Policy**

Applies economic analysis to current issues of public policy. Reviews basic public finance and economic justifications for government action. Examines structure and procedures of Colorado State Legislature. Chooses current legislative issues, reviews relevant economic literature and applies implications through briefing papers and testimony at legislative hearings. Explores the challenges of integrating informed economic analysis into legislative process.

**Requisites:** Requires prerequisite course of ECON 3070 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Public Economics

**ECON 4242 (3) Urban Economics: The Economics of Cities**

Considers the economic forces which drive households and jobs to congregate in metropolitan areas. It then considers the forces within the city which determine how the established cities "look" - how rents vary with location, the distribution of jobs and households within a city, urban sprawl, and the sorting of households between neighborhoods. Finally it considers some government policies relating to land use and housing.

**Requisites:** Requires prerequisite courses of ECON 3070 and ECON 3818 or APPM 4520 or APPM 4570 or CHEN 3010 or CVEN 3227 or MATH 4520 (all minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Urban and Regional Economics

**ECON 4292 (3) Migration, Immigrant Adaptation, and Development**

Examines historical and current patterns of migration with an emphasis in international movement. Looks at leading migration theories related to both origin- and destination-based explanations while critically looking at the role of development as a potential cause and consequence of population movement. Finally, covers some aspects of immigrants' social and economic adaptation to their host society.

**Equivalent - Duplicate Degree Credit Not Granted:** GEOG 4292 and GEOG 5292

**Requisites:** Requires prerequisite course of ECON 3070 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Urban and Regional Economics

**ECON 4309 (3) Economics Honors Seminar 1**

For information consult the department's director of honors. Open only to qualified seniors.

**Requisites:** Requires prerequisite courses of ECON 3070 and ECON 3080 and ECON 3818 (all minimum grade C-). Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sciences Honors Course  
Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Independent Study and Other Courses

**ECON 4339 (3) Economics Honors Seminar 2**

For information consult the department's director of honors. This course does not count toward major requirements.

**Requisites:** Requires prerequisite courses of ECON 3070 and ECON 3080 and ECON 3818 (all minimum grade C-). Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Independent Study and Other Courses

**ECON 4413 (3) International Trade**

Focuses on theories of international trade and its impacts on economic welfare. Analyzes commercial policy, including tariffs, non-tariff barriers, retaliation, regional integration, and factor migration.

**Requisites:** Requires prerequisite course of ECON 3070 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: International Trade and Finance

**ECON 4423 (3) International Finance**

Covers balance of payments; foreign exchange market, income, trade, and capital flows; asset markets adjustment mechanisms; stabilization policies in an open economy; and problems of international monetary systems.

**Requisites:** Requires prerequisite course of ECON 3080 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: International Trade and Finance

**ECON 4504 (3) The New Institutional Economics: Institutions, Contracts and Economic Outcomes**

Understand the conceptual tool kit of the New Institutional Economics. The concepts include transaction costs, property rights, credible commitment, and most importantly the roles of formal and informal institutions. We will examine the impact of institutions on contracting and organizations. The goal is to understand how the underlying institutions determine the degree to which societies improve their economic performance.

**Requisites:** Requires prerequisite courses of ECON 3070 and ECON 3080, and ECON 3818 or APPM 4520 or APPM 4570 or CHEN 3010 or CVEN 3227 or MATH 4520 (all minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Economic History

**ECON 4514 (3) Economic History of Europe**

Covers evolution of modern economic growth and development in Europe, emphasizing institutional change.

**Requisites:** Requires prerequisite course of ECON 3070 or ECON 3080 (minimum grade C-).

**Additional Information:** Arts Sci Core Curr: Historical Context  
Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Economic History

**ECON 4524 (3) Economic History of the United States**

Evolution of modern economic growth and development in the U.S. from colonial times to the present emphasizing institutional change.

**Requisites:** Requires prerequisite courses of ECON 3070 and ECON 3080 (all minimum grade C-).

**Additional Information:** Arts Sci Core Curr: United States Context

Arts Sci Gen Ed: Distribution-Social Sciences

Departmental Category: Economic History

**ECON 4534 (3) Chinese Economic History in Comparative Perspective**

Surveys the economic history of China in a comparative perspective, to understand the history of economic development in China in terms of existing economic theories of growth. The approximate timeline is from the 18th century to the 20th century.

**Requisites:** Requires prerequisite course of ECON 3070 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

Departmental Category: Economic History

Departmental Category: Asia Content

**ECON 4535 (3) Natural Resource Economics**

Analysis of problems associated with socially optimal use of renewable and nonrenewable natural resources over time. Problems of common property resources, irreversible forms of development, and preservation of natural areas.

**Equivalent - Duplicate Degree Credit Not Granted:** ECON 3535

**Requisites:** Requires prerequisite course of ECON 3070 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

Departmental Category: Natural Resources and Environmental Economics

**ECON 4545 (3) Environmental Economics**

Examines the effects of economic growth on the environment; application of economic theory of external diseconomies, cost-benefit analysis, program budgeting, and welfare economics to problems of the physical environment.

**Equivalent - Duplicate Degree Credit Not Granted:** ECON 3545

**Requisites:** Requires prerequisite course of ECON 3070 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

Departmental Category: Natural Resources and Environmental Economics

**ECON 4555 (3) Transportation Economics and Policy**

Provides an overview of the characteristics and structure of transportation markets including aggregate demand, vehicle and mode choice, surface freight and air travel. Explores market failures in the transportation sector including market power and externalities such as pollution, congestion and accidents as well as policies aimed at addressing these issues.

**Requisites:** Requires prerequisite courses of ECON 3070 and ECON 3818 or APPM 4520 or APPM 4570 or CHEN 3010 or CVEN 3227 or MATH 4520 (all minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

Departmental Category: Natural Resources and Environmental Economics

**ECON 4616 (3) Labor Economics**

Examines the influence of markets, unions, and government on labor allocation and remuneration. Analyzes human capital, discrimination, mobility and migration, productivity, unemployment, and inflation. Compares outcomes under competition with those in a world marked by shared market power and bargaining.

**Requisites:** Requires prerequisite course of ECON 3070 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

Departmental Category: Labor and Human Resources

**ECON 4626 (3) The Economics of Inequality and Discrimination**

Examines the unique insights available through economic analysis regarding the causes, mechanisms, and consequences of inequality and discrimination. Examines the extent of inequality, the varieties and extents of discrimination, and explores the economic models that suggest explanations.

**Requisites:** Requires prerequisite course of ECON 3070 (minimum grade C-).

**Additional Information:** Arts Sci Core Curr: Human Diversity

Arts Sci Gen Ed: Distribution-Social Sciences

Arts Sci Gen Ed: Diversity-U.S. Perspective

Departmental Category: Labor and Human Resources

**ECON 4646 (3) Topics in Health Economics**

Growth in health expenditures worldwide over the past three decades has led to an increase in research in health economics and its importance in public policy in developed and developing countries. The purpose of this course is to encourage students to read, think, and do research on issues in health economics. This course will cover issues that are pertinent to the US, other developed and developing countries. It will cover the basics of health economics such as health production functions and the role for government as well as touching on topical issues such as health care reform.

**Requisites:** Requires prerequisite course of ECON 3070 (minimum grade C-).

**Recommended:** Prerequisite ECON 3818.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

Departmental Category: Labor and Human Resources

**ECON 4697 (3) Industrial Organization and Regulation**

Explores neoclassical theory of the firm, the determinants of industrial structure, and the purposes and institutions of public policy to control or maintain a competitive environment.

**Requisites:** Requires prerequisite course of ECON 3070 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

Departmental Category: Industrial Organization

**ECON 4717 (3) Economics of Entrepreneurship**

Introduces economic analysis of entrepreneurship, its financing, performance and public policy issues. We will investigate in depth the business of venture capital and start-ups. Aims to understand both academic and practical implications from the burgeoning literature on economics of entrepreneurship and private equity.

**Requisites:** Requires prerequisite courses of ECON 3070 and ECON 3818 (all minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

Departmental Category: Industrial Organization

**ECON 4774 (3) Topics in Economic Development, History and Political Economy**

Sustained economic growth is a relatively recent economic phenomenon that came about due to the Industrial Revolution and as a result of which the standards of living improved dramatically in the Anglo-Saxon West since the 18th century. However, global inequality has also risen to unprecedented levels because other parts of the world still significantly lag the West in economic, social and political terms. In this class, we shall study the comparative development paths of Anglo-Saxon Europe and the Middle East. In doing so, we shall primarily focus on an expansive list of influential and relevant articles published and the four books required for the class.

**Requisites:** Requires prerequisite course of ECON 3070 or ECON 3080 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Economic Development  
Departmental Category: Asia Content

**ECON 4784 (3) Economic Development**

Explores empirical, theoretical, and policy issues in economic development. Examines topics with reference to the developing countries: income distribution and poverty, demographic change, labor force employment and migration, human capital, physical capital, natural resources and the environment, industrial structure, international trade, and finance.

**Requisites:** Requires prerequisite course of ECON 3070 or ECON 3080 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Arts Sci Gen Ed: Diversity-Global Perspective  
Departmental Category: Economic Development  
Departmental Category: Asia Content

**ECON 4794 (3) Economic Growth**

Introduces theories explaining why differences in standards of living among countries are so large. Examines a variety of data on historical experiences of economic growth. Surveys recent research on why some countries are so rich and some are so poor, and why some countries grow so quickly and others grow so slowly.

**Requisites:** Requires prerequisite course of ECON 3070 or ECON 3080 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Economic Development

**ECON 4797 (3) Antitrust and Regulation**

Explores two major branches of Industrial Organization--antitrust and regulation. Focus is on developing qualitative and quantitative skills for the legal-economic analysis of issues and problems across a variety of industries. Case studies are used to illustrate concepts, including mergers, collusive agreements, monopolization, and networks. Individual and group projects help develop advocacy and public speaking skills.

**Requisites:** Requires prerequisite course of ECON 3070 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Industrial Organization

**ECON 4808 (3) Introduction to Mathematical Economics**

Introduces the use of mathematics in economics. Topics include vectors and matrices, differential calculus, and optimization theory, with economic applications.

**Requisites:** Requires prerequisite courses of ECON 3070 and ECON 3818 or APPM 4520 or APPM 4570 or CHEN 3010 or CVEN 3227 or MATH 4520 (all minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Quantitative Economics

**ECON 4818 (3) Introduction to Econometrics**

Provides undergraduate economics majors with an introduction to econometric theory and practice. Develops the multiple regression model and problems encountered in its application in lecture and individual applied projects.

**Requisites:** Requires prerequisite courses of ECON 3070 and ECON 3818 or APPM 4520 or APPM 4570 or CHEN 3010 or CVEN 3227 or MATH 4520 (all minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Quantitative Economics

**ECON 4838 (3) Microcomputer Applications in Economics**

Teaches basic concepts in Java programming applied to economic models. Development of Web pages and dynamic modeling will be introduced. Students will gain a foundation that can be applied to creating advanced applications relating to analysis of statistical data and custom projects.

**Requisites:** Requires prerequisite courses of ECON 3070 and ECON 3818 or APPM 4520 or APPM 4570 or CHEN 3010 or CVEN 3227 or MATH 4520 (all minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Quantitative Economics

**ECON 4848 (3) Applied Econometrics**

Introduces students to the practice of applied regression analysis. Summarizes and reviews the regression technique, explores U.S. census data sources, introduces an advanced statistical software package and provides structured exercises in regression analysis of census data. Concludes with independent research projects analyzing social and economic issues using regression analysis and census data.

**Requisites:** Requires prerequisite courses of ECON 3070 and ECON 3818 or APPM 4520 or APPM 4570 or CHEN 3010 or CVEN 3227 or MATH 4520 (all minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Quantitative Economics

**ECON 4858 (3) Financial Econometrics**

Introduces statistical models, estimation and testing procedures used in analyzing financial data for advanced undergraduates. Topics include the modeling of returns, portfolio theory, the capital asset pricing model, options pricing and fixed income securities.

**Requisites:** Requires prerequisite course of ECON 3818 or APPM 4520 or APPM 4570 or CHEN 3010 or CVEN 3227 or MATH 4520 (minimum grade C-).

**Recommended:** Prerequisite ECON 4818.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Quantitative Economics

**ECON 4868 (3) Simulation Modeling in Microeconomics**

Computer simulation modeling translates theory into computer code to examine questions numerically; for example, the effects of taxes or emissions permits on welfare and income distribution. We use GAMS (general algebraic modeling system); a version may be downloaded for free. Students must have access to a computer (not needed in the classroom).

**Requisites:** Requires prerequisite course of ECON 3070 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Quantitative Economics

**ECON 4897 (3) Economics of Organizations**

Introduces students to the economic analysis of relationship between firms and incentives within firms. The first part covers classical theories of firm boundaries and contractual relationship between firms. The second part focuses on compensation and incentive issues within firms.

**Requisites:** Requires prerequisite courses of ECON 3070 and ECON 3818 or APPM 4520 or APPM 4570 or CHEN 3010 or CVEN 3227 or MATH 4520 (all minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Industrial Organization

**ECON 4909 (3-4) Independent Study**

Department enforced prerequisites: completion of at least 12 hours of ECON classes and a minimum GPA of 3.00. Department consent required.

**Repeatable:** Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Requires prerequisite courses of ECON 2010 and ECON 2020 and ECON 3070 or ECON 3080 (all minimum grade C-).

**Additional Information:** Departmental Category: Independent Study and Other Courses

**ECON 4929 (3) Special Topics In Economics**

This course number is assigned to upper-level Economics electives that become available on an incidental basis. Refer to the Economics Department for a detailed description of current content. Formerly ECON 4999.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires prerequisite courses of ECON 3070 and ECON 3080 (all minimum grade C-). Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Independent Study and Other Courses  
Departmental Category: Asia Content

**ECON 4939 (2-6) Internship/Seminar**

Offers students the opportunity to integrate theoretical concepts of economics with practical experience in economics-related institutions. The theoretical portion arises from seminars and readings, the practical from activities in organizations related to the economics field. A maximum of 3 credit hours counts toward major requirements. Department consent required.

**Requisites:** Requires prerequisite courses of ECON 3070 and ECON 3080 and ECON 3818 (all minimum grade C-). Restricted to students with 57-180 credits (Junior or Senior) Economic (ECON) majors or minors only.

**Grading Basis:** Letter Grade

**Additional Information:** Departmental Category: Independent Study and Other Courses

## Economics - Bachelor of Arts (BA)

The Department of Economics at CU Boulder is recognized for the high quality of its teaching and research.

Economics describes the processes by which scarce resources are allocated, how changes in these processes affect this allocation, and how these processes can be improved. Economics is a quantitative, policy-oriented social science with a highly-developed body of theory and a vast range of applications. Theoretical and quantitative analyses are informed by and contribute to our understanding of our economic, social and political institutions.

Microeconomics is the study of the daily decisions that consumers, workers, and business people make, and of the interactions between these decisions in markets. Macroeconomics is the study of how

the decisions made by all individuals and businesses are together responsible for the size and growth of the economy, for recessions and for unemployment.

Among the major topics within economics are natural resource and environmental economics, international trade and finance, public economics, labor economics, urban and regional economics, development economics, economic history, industrial organization, law and economics, health economics, financial economics and monetary economics. In addition, econometrics is the study of how statistical methods can be best applied to economic problems. Our department offers courses in most of these fields in every semester.

The economics major provides a highly structured experience that develops increasing levels of sophistication. It begins with courses in economic principles, continues to intermediate courses in economic theory and empirical practice, and culminates with rigorous courses in the applied fields of economics. Successful graduates are well-equipped to perform economic analysis in most commercial and policy settings, and to continue on to graduate school.

## Special Emphasis Options

The Department of Economics offers four enhanced major tracks for students who have a relatively high GPA and want to focus their upper-division coursework in a specific area of interest. Interested students must have completed at least 6 credit hours of economics coursework at CU in order to declare the special emphasis. Students must have completed two out of three intermediate-level courses (ECON 3070, ECON 3080 and/or ECON 3818) with a minimum of 3.00 GPA in these courses, and must also have a minimum of 3.00 GPA in economics coursework at CU by the time of declaration and completion of the special emphasis. Requirements are listed on the Department of Economics (<http://www.colorado.edu/economics>) website.

### Environmental and Natural Resources Emphasis

The environmental and natural resources emphasis is designed for economics majors who are considering careers in fields requiring a thorough understanding of a broad range of issues associated with business practices and public policies addressing natural resource use and environmental quality, including environmental regulation and compliance: energy production and consumption, development of energy transportation, urban, rural and regional infrastructures.

### International Emphasis

The international emphasis is designed for students who have an interest in courses with an international perspective both within economics and outside the department. Courses in international trade and finance are combined with selections of international courses in related social science disciplines. This program may be of particular interest to students seeking careers in international business, international organizations, nongovernmental organizations and government agencies.

### Public Economics Emphasis

The public economics emphasis is designed for students who have an interest in taking courses with a public policy perspective both within economics and outside the department. Courses in public economics are combined with selections of public policy oriented courses from various social sciences. This emphasis is recommended for students with interests in public policy seeking careers in local, state, national or international agencies.

## Quantitative Emphasis

The quantitative emphasis is designed for well-qualified majors with an interest in theoretical and/or applied mathematics. Economics courses in quantitative methods are combined with courses from the Department of Mathematics and the Department of Applied Mathematics. This program may be of interest to students planning to pursue graduate studies in economics or those seeking a career in applied quantitative research.

## Requirements

### Required Courses and Credits

Students must complete at least 33 credit hours of economics courses. The math requirement does not count toward either the minimum total economics credit requirement or in the major GPA calculation. At least 24 credit hours must be upper-division courses. Students transferring two 3-credit principles courses must complete at least 27 credit hours of upper-division economics.

Code	Title	Credit Hours
<b>Economics Requirements</b>		
ECON 2010	Principles of Microeconomics	8
& ECON 2020	and Principles of Macroeconomics	
ECON 3070	Intermediate Microeconomic Theory	7
& ECON 3080	and Intermediate Macroeconomic Theory	
ECON 3818	Introduction to Statistics with Computer Applications	4
Select one of the following Econometrics courses:		3
ECON 4818	Introduction to Econometrics	
ECON 4848	Applied Econometrics	
ECON 4858	Financial Econometrics	
Electives in 4000-level ECON courses		12
<b>Total Credit Hours</b>		<b>34</b>

Code	Title	Credit Hours
<b>Ancillary Mathematics Requirement</b>		
Complete one of the following calculus courses:		3-5
APPM 1350	Calculus 1 for Engineers	
ECON 1088	Mathematical Tools for Economists 2	
MATH 1300	Calculus 1	
MATH 1330	Calculus for Economics and the Social Sciences	
<b>Total Credit Hours</b>		<b>3-5</b>

Note: Transfer students majoring in economics must complete at least 12 credit hours of upper-division economics courses at CU Boulder.

## Graduating in Four Years

Consult the Four-Year Guarantee Requirements for information on eligibility. The concept of "adequate progress" as it is used here only refers to maintaining eligibility for the four-year guarantee; it is not a requirement for the major. To maintain adequate progress in economics, students should to the extent feasible and in consultation with their economics advisor, follow the plan-of-study grid and declare economics as a major by the beginning of the second semester.

## Recommended Four-Year Plan of Study

Through the required coursework for the major, students will complete all 12 credits of the the Social Sciences area of the Gen Ed Distribution Requirement, as well as the QRMS component of the Gen Ed Skills Requirement.

Course	Title	Credit Hours
<b>First Year</b>		
<b>Fall Semester</b>		
ECON 2010	Principles of Microeconomics	4
Mathematics Requirement for Economics (may fulfill Gen. Ed. Skills course: QRMS)		3-5
Gen. Ed. Skills course (example: Lower-division Written Communication)		3
Gen. Ed. Distribution/Diversity course (example: Arts & Humanities/US Perspective)		3
Elective or MAPS (If needed)		3
Credit Hours		16-18
<b>Spring Semester</b>		
ECON 2020	Principles of Macroeconomics	4
Mathematics Requirement for Economics (3-5): If needed		3-5
Gen. Ed. Distribution course (example: Natural Sciences with Lab)		3
Gen. Ed. Distribution/Diversity course (example: Arts & Humanities/Global Perspective)		3
Elective or MAPS (If needed)		3
Credit Hours		16-18
<b>Second Year</b>		
<b>Fall Semester</b>		
ECON 3070	Intermediate Microeconomic Theory	4
ECON 3818	Introduction to Statistics with Computer Applications	4
Gen. Ed. Distribution course (example: Arts & Humanities)		3
Elective		3
Credit Hours		14
<b>Spring Semester</b>		
ECON 3080	Intermediate Macroeconomic Theory	3
Gen. Ed. Distribution course (example: Arts & Humanities)		3
Gen. Ed. Distribution course (example: Natural Sciences)		3
Elective		3
Elective		3
Credit Hours		15
<b>Third Year</b>		
<b>Fall Semester</b>		
ECON 4818	Introduction to Econometrics	3
or ECON 4848	or Applied Econometrics	
or ECON 4858	or Financial Econometrics	
ECON (3): 4000-level elective		3
Gen. Ed. Distribution course (example: Upper-division Written Communication)		3
Gen. Ed. Distribution course (example: Natural Sciences)		3
Elective		3
Credit Hours		15

**Spring Semester**

ECON (3): 4000-level elective	3
Gen. Ed. Distribution course (example: Natural Sciences)	3
Elective	3
Elective	3
Elective	3
Credit Hours	15

**Fourth Year****Fall Semester**

ECON (3): 4000-level elective	3
Upper-division Elective	3
Upper-division Elective	3
Upper-division Elective	3
Elective	3
Credit Hours	15

**Spring Semester**

ECON (3): 4000-level elective	3
Upper-division Elective	3
Upper-division Elective	3
Upper-division Elective	3
Elective	3
Credit Hours	15

Total Credit Hours 121-125

## Economics - Minor

The Department of Economics at CU Boulder is recognized as a very high quality research and teaching department.

Economics is a quantitative, policy oriented social science with a highly developed body of theory and a wide range of real-world applications. Economists seek to describe the process by which societies use scarce resources to attain societal goals and predict the consequences of changes in those processes. Theoretical models, understanding of economic and policy making institutions, quantitative analysis, and the examination of data are all part of this field of knowledge.

In general, economists are interested in the economic behavior of individuals. Investigations of the daily decisions that consumers, workers and firm managers make, as well as the interactions of such economic decisions in markets, constitute the subject of microeconomics. Macroeconomics refers to the analysis of economic activity of individuals aggregated over many markets. Some of the specific issues of macroeconomics include economic growth, inflation, recession and unemployment. Finally, international economics investigates the interrelationships among different economies and, in particular, studies the pattern of trade and payments between countries.

Faculty fields of specialization include international trade/finance, natural resource and environmental economics, public economics, urban and regional economics, development economics, labor economics and demography, political economics, economic history, industrial organization/game theory and econometrics.

The Department of Economics offers a minor. It is open to any student enrolled at CU Boulder, regardless of college or school, except for those pursuing an individually structured major or a major in distributed studies.

## Requirements

### Program Requirements

Completion of the minor requires a minimum of 20 credit hours in economics.

All coursework applied to the minor must be completed with a grade of C- or better. No pass/fail work may be applied. The GPA for all minor coursework must equal 2.00 or higher.

Students will be allowed to apply no more than 9 credit hours, including 6 upper-division credit hours, of transfer work toward a minor. If transferred coursework includes replacements for ECON 2010 or ECON 2020 that are fewer than a combined 7 credit hours for both courses, an additional upper-division elective will be added to the requirements for a minor.

Students may elect to take the 3000-level ECON courses that are designed for non-economics majors (e.g., ECON 3403, ECON 3535, ECON 3545, ECON 3616, and ECON 3784).

ECON 3070, ECON 3080 and all 4000-level ECON courses require a prerequisite of calculus. Students may take the following courses to meet this prerequisite: ECON 1088; or MATH 1081; or MATH 1300; or APPM 1350.

### Required Courses and Credits

Code	Title	Credit Hours
<b>Required Courses</b>		
ECON 2010 & ECON 2020	Principles of Microeconomics and Principles of Macroeconomics	8
ECON 3070 & ECON 3080	Intermediate Microeconomic Theory and Intermediate Macroeconomic Theory	7
<b>Electives</b>		
Electives in upper-division ECON courses <sup>1</sup>		6
<b>Total Credits</b>		20-22

<sup>1</sup> Students must complete at least one 4000-level course as an upper-division elective. ECON 3818 and equivalent substitutes are **not** allowed to count as an upper-division elective.

## English

The undergraduate degree in English emphasizes knowledge and awareness of:

- canonical and non-canonical works of English and American literature;
- the history of British and American literature;
- literary theories, including recent theoretical developments; and
- the social and historical contexts in which the traditions developed.

In addition, students completing the degree in English are expected to acquire the ability and skills to:

- analyze literary texts;
- interpret texts on the basis of such analysis;
- relate analyses and interpretations of different texts to one another; and
- communicate such interpretations competently in written form.

The undergraduate degree in creative writing emphasizes knowledge and awareness of:

- literary works, including the genres of fiction, poetry, creative nonfiction, playwriting and screenwriting, and the major texts of contemporary writers;
- literary history, including the origins and development of genres, major writers of the past and the role of the writer in society; and
- analysis of literary form, including theories of literary composition and critical theory.

In addition, students completing the degree in creative writing are expected to acquire the ability and skills to:

- write in various poetic modes and styles,
- write in various fictive styles,
- write in various nonfiction styles, and
- evaluate other students' written work.

**Course code for this program is ENGL.**

## Advising

Upon declaring an English major, students are assigned an English advisor. The advisors are available to meet with students by appointment and on a drop-in basis. The advisors monitor and evaluate student progress in completing the arts and sciences core curriculum and major requirements, and certify students for graduation. The department encourages students to meet with their primary advisor at least once each semester to update their student file and ensure that they are making satisfactory progress in meeting the college and major requirements.

## Departmental Honors

Students interested in pursuing a special program leading to graduation with departmental honors should confer with the associate chair for undergraduate studies as soon as possible, but definitely no later than the beginning of spring term in their junior year. For additional information on departmental honors, visit the department's Undergraduate Studies (<https://www.colorado.edu/english/current-students/undergraduates>) webpage.

## Students Who Contemplate Teaching

Sheets listing the curriculum required for a teaching license for secondary schools may be obtained in room Education 151. Since fulfilling requirements for both education and English makes a very tight schedule, students should seek early advising to complete their college requirements. For additional information, see the Teacher Licensure Program (p. 627).

## Undergraduate English Awards and Prizes

### The Alex McGuiggan Scholarship

The Alex McGuiggan Scholarship was established in spring 2010 to recognize the achievement of an undergraduate English major studying creative writing with a preference for students whose strength is in writing poetry. The scholarship was established in memory of Alex McGuiggan, an English major at the University of Colorado Boulder.

### The Curtis Michael Gimeno Memorial Scholarship

This scholarship benefits students with a creative writing emphasis who exemplify promise of talent in communicating through the written

language. The scholarship was generously established by Donna Jorgenson Farrell in memory of and as a legacy to her son, Curtis Michael Gimeno, who enjoyed writing.

### The Dick Shahan CU Boulder Undergraduate Writing Competition

Created by English alumnus Dick Shahan, this scholarship is open to all CU Boulder undergraduate students enrolled in the department of English. Students can use their imaginations and demonstrate their writing skills in different genres.

### The Gentian Ascension Scholarship

This scholarship is a variable annual award established to benefit an undergraduate student who exhibits a past that demonstrates overcoming academic obstacles and shows budding talent as a writer.

### The Harold D. Kelling Essay Prize

The Kelling prize is a variable cash award for the best essay on literature submitted by an undergraduate currently enrolled in the university. The essay must have been written for an English class at CU Boulder.

### The Joanne Easley Arnold Award

The Joanne Easley Arnold English Scholars Fund is a two-year award designed to recognize and provide financial and intellectual support to a top English major in honor of the donor, Joanne Easley Arnold, who was a dean with the university.

### The Jovanovich Imaginative Writing Prize

The Jovanovich prize is an annual award for excellence in poetry, fiction, playwriting or nonfiction prose.

### The Katherine Lamont Scholarship

The Lamont scholarship is a variable annual award to a continuing English major in recognition of sustained excellence and exceptional scholarly performance in the major.

## Bachelor's Degree

- English - Bachelor of Arts (BA) (p. 259)

## Minors

- Creative Writing - Minor (p. 262)
- English - Minor (p. 262)

## Faculty

While many faculty teach both undergraduate and graduate students, some instruct students at the undergraduate level only. For more information, contact the faculty member's home department.

## Courses

### ENGL 1001 (3) Freshman Writing Seminar

Provides training and practice in writing and critical thinking. Focuses on the writing process, the fundamentals of composition, and the structure of argument. Provides numerous and varied assignments with opportunity for revision.

**Requisites:** Restricted to students with 0-56 credits (Freshmen or Sophomore) College of Arts and Sciences majors only.

**Additional Information:** Arts Sci Core Curr: Written Communication  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Written Communication-Lower  
Departmental Category: Undergraduate Writing  
MAPS Course: English

### ENGL 1191 (3) Introduction to Creative Writing

Introduces techniques of fiction and poetry. Student work is scrutinized by the instructor and may be discussed in a workshop atmosphere with other students. May not be taken concurrently with ENGL 2021 or ENGL 2051. May not be repeated.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Undergraduate Writing

### ENGL 1210 (3) The Novel

Explores the many possibilities of the novel, or, the novel as possibility, and emphasize that formal and aesthetic innovation is not peripheral to the novel's development but central to its influence and existence. Focuses on the elements of fiction in order to develop an aesthetic and literary appreciation of this complex art form.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: General Literature and Language

**ENGL 1220 (3) From Gothic to Horror**

Explores literature in the Gothic mode and aesthetic and critical theories related to modern "horror" genres or their precursors. Introduces literary-critical concepts (such as notions of abjection, repression and anxiety) that developed alongside this branch of literature. Students read canonical works in British and American traditions while reflecting on notions of popular or marginalized literature.

**Additional Information:** Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: General Literature and Language

**ENGL 1230 (3) Environmental Literature**

Introduces students to the tradition of nature writing dating from Romanticism through realist and experimental contemporary literary texts. Students will study key terms and concepts related to the environment such as anthropocentrism, bioregionalism, eco-cosmopolitanism, environmental justice, deep ecology, and posthumanism. They will apply them to different literary genres toward developing critical analyses and environmental readings.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: General Literature and Language

**ENGL 1240 (3) Planetarity**

Focuses of post-WWII American writing and thought about the planet and humanity. We explore how postwar efforts to transform the terrestrial environmental and conquer outer space raise questions about humanity, technology, and nature. We also study how earth and space serve novelists, artists, and film-makers as environments to confront large-scale questions about culture, identity, and power.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**ENGL 1250 (3) Introduction to Global Women's Literature**

Introduces global literature by women. Covers both poetry and fiction and varying historical periods. Acquaints students with the contribution of women writers to the literary tradition and investigates the nature of this contribution.

**Equivalent - Duplicate Degree Credit Not Granted:** WGST 1250

**Additional Information:** Arts Sci Core Curr: Human Diversity  
Arts Sci Gen Ed: Diversity-Global Perspective  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: General Literature and Language

**ENGL 1260 (3) Introduction to Women's Literature**

Introduces literature by women in England and America. Covers both poetry and fiction and varying historical periods. Acquaints students with the contribution of women writers to the English literary tradition and investigates the nature of this contribution.

**Equivalent - Duplicate Degree Credit Not Granted:** WGST 1260

**Additional Information:** Arts Sci Core Curr: Human Diversity  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-Global Perspective  
Departmental Category: General Literature and Language

**ENGL 1270 (3) Introduction to American Women's Literature**

Introduces literature by women in America. Covers both poetry and fiction and varying historical periods. Acquaints students with the contribution of women writers to the literary tradition and investigates the nature of this contribution.

**Equivalent - Duplicate Degree Credit Not Granted:** WGST 1270

**Additional Information:** Arts Sci Core Curr: Human Diversity  
Arts Sci Gen Ed: Diversity-U.S. Perspective  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: General Literature and Language

**ENGL 1340 (3) Mysticism and the Jewish American Literary Tradition**

Explores the mystical tradition within Judaism from ancient times to the present. With roots in the Hebrew Bible, Jewish mysticism is one of the oldest forms of mysticism and has had an influence on some of the greatest philosophical traditions of western civilization.

**Equivalent - Duplicate Degree Credit Not Granted:** JWST 1234

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Core Curr: Ideals and Values  
Departmental Category: American Literature

**ENGL 1420 (3) Poetry**

Introduces students to how to read a poem by examining the great variety of poems written and composed in English from the very beginning of the English language until recently.

**Additional Information:** Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: General Literature and Language

**ENGL 1500 (3) Masterpieces of British Literature**

Introduces students to a range of major works of British literature, including at least one play by Shakespeare, a pre-20th century English novel, and works by Chaucer and/or Milton.

**Additional Information:** Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: General Literature and Language

**ENGL 1600 (3) Masterpieces of American Literature**

Enhances student understanding of the American literary and artistic heritage through an intensive study of a few centrally significant texts, emphasizing works written before the 20th century.

**Additional Information:** Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: General Literature and Language

**ENGL 1800 (3) American Ethnic Literatures**

Introduces significant fiction by ethnic Americans. Explores both the literary and the cultural elements that distinguish work by these writers. Emphasizes materials from Native American, African American, and Chicano traditions.

**Additional Information:** Arts Sci Core Curr: Human Diversity  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-U.S. Perspective  
Departmental Category: General Literature and Language

**ENGL 2021 (3) Introductory Poetry Workshop**

Introductory course in poetry writing.

**Repeatable:** Repeatable for up to 9.00 total credit hours.

**Requisites:** Requires prerequisite course of ENGL 1191 (minimum grade B).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Undergraduate Writing

**ENGL 2036 (3) Introduction to Media Studies in the Humanities**

Serves as an introduction to media studies specifically from a humanities perspective. Studies both histories and theories of media from the 20th and 21st centuries. Touches on methodologies for undertaking media studies (including distant ready and media archaeology). Objects of study may include such topics as film, radio, social media platforms and games, as well as digital art and literature.

**Equivalent - Duplicate Degree Credit Not Granted:** ATLS 2036

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Advanced Theory, Genre Studies and Popular Culture

**ENGL 2051 (3) Introductory Fiction Workshop**

Introductory course in fiction writing.

**Repeatable:** Repeatable for up to 9.00 total credit hours.

**Requisites:** Requires prerequisite course of ENGL 1191 (minimum grade B).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Undergraduate Writing

**ENGL 2058 (3) Twentieth- and Twentyfirst-Century Literature**

Surveys the major literary trends in prose and poetry from 1900 to the present in the Anglo-American tradition of modern, postmodern, and contemporary literature. Provides students with a grounding in the major authors and motifs of 20th- and 21st-century in literature in conjunction with political and cultural changes across the periods.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Critical Studies in English

**ENGL 2102 (3) Literary Analysis**

Provides a basic skills course designed to equip students to handle the English major. Emphasizes critical writing and the acquisition of basic techniques and vocabulary of literary criticism through close attention to poetry and prose.

**Requisites:** Restricted to English (ENGL) majors and minors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: General Literature and Language

**ENGL 2112 (3) Introduction to Literary Theory**

Introduces students to a wide range of critical theories that English majors need to know. Covers major movements in modern literary/critical theory, from Matthew Arnold through new criticism to contemporary postmodern frameworks. Required for all English majors.

**Requisites:** Restricted to English (ENGL) majors and minors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: General Literature and Language

**ENGL 2115 (3) American Frontiers**

Considers the backdrop of the American West in literature, film, photography and computer gaming. Focuses on a range of narratives and images depicting this wide swathe of American geography while simultaneously cultivating close reading skills, digital media analysis and film analysis that will aid in deeper insights at the textual level.

**Additional Information:** Arts Sci Core Curr: United States Context

Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: American Literature

**ENGL 2503 (3) British Literary History to 1660**

Provides a chronological study of great figures and forces in English literature from Beowulf to 1660.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: British Literature to 1660

**ENGL 2504 (3) British Literary History after 1660**

Surveys key trends and works in British literature from 1660 to 1900 by focusing on issues such as modernity; national identity; political, economic, social, and scientific revolutions; reading and media technologies; and the relationship between literary and visual culture. May include works by Aphra Behn, William Hogarth, the Wordsworths, Jane Austen, the Brontës, Charles Dickens, Christina Rossetti, and Joseph Conrad. Formerly ENGL 2512.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: British Literature after 1660

**ENGL 2655 (3) Introduction to American Literature I**

Chronological survey of the literature from Bradford to Whitman.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: American Literature

**ENGL 2665 (3) Introduction to American Literature 2**

Chronological survey of the literature from Whitman to Faulkner. Continuation of ENGL 2655.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: American Literature

**ENGL 2707 (3) Introduction to Lesbian, Bisexual, and Gay Literature**

Offers students at sophomore and junior levels an introduction to some of the forms, concerns, and genres of contemporary lesbian, bisexual, transgender and gay writing in English.

**Equivalent - Duplicate Degree Credit Not Granted:** LGBT 2707

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Multicultural and Gender Studies

**ENGL 2717 (3) American Indian Literature**

Surveys historical and contemporary North American Native American literature. Examines the continuity and incorporation of traditional stories and values in Native Literature, including novels, short stories and poetry.

**Equivalent - Duplicate Degree Credit Not Granted:** ETHN 2713

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Multicultural and Gender Studies

**ENGL 2727 (3) Survey of African American Literature 1**

Surveys African American literature from the 17th century through the Harlem Renaissance and Depression.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Multicultural and Gender Studies

**ENGL 2737 (3) Survey of African American Literature 2**

Surveys African American literature from the Depression to the present.

**Equivalent - Duplicate Degree Credit Not Granted:** ETHN 2732

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Multicultural and Gender Studies

**ENGL 2747 (3) Chicana/Chicano and Mexican Literature**

Introduces Chicana and Chicano and Mexican literary studies, focusing on narrative works by Chicana and Chicano writers. Examines diverse range of Mexican writing in Greater Mexico as it addresses recurring issues and themes, including language, race and class, questions of identity and gender relations.

**Equivalent - Duplicate Degree Credit Not Granted:** ETHN 2746

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Multicultural and Gender Studies

**ENGL 2767 (3) Survey of Post-Colonial Literature**

Surveys the development of literatures in English in former British colonies. Topics include the spread and adaptation of English language literary forms in Asia, Africa, the Caribbean, and the far new world (Australia and New Zealand). Students learn the causes of the dispersion and the motivations for the clearly different uses of English literary forms in the ex-colonies.

**Equivalent - Duplicate Degree Credit Not Granted:** ETHN 2761

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-Global Perspective  
Departmental Category: Multicultural and Gender Studies

**ENGL 3000 (3) Shakespeare for Nonmajors**

Introduction to Shakespeare. Introduces students to 6-10 of Shakespeare's major plays. Comedies, histories, and tragedies will be studied. Some non-dramatic poetry may be included. Viewing of Shakespeare in performance is often required.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only. English (ENGL) and Humanities (HUMN) majors are excluded from taking this class.

**Additional Information:** Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: General Literature and Language

**ENGL 3005 (3) The Literature of New World Encounters**

Explores American literature as a site of cultural intersection between European settlers and indigenous peoples.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: American Literature

**ENGL 3008 (3) Developments in the Novel, Post-1900**

Introduces students to the major works, authors and formal trends of the 20th and 21st-century novel. Texts may be drawn from British, American and global literary traditions. Focuses on a specific movement, development, or transformation in the genre post-1900, for instance, modernism, postmodernism, naturalism, realism, postcolonial fiction, historical fiction.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Critical Studies in English

**ENGL 3011 (3) Literary Forms and Styles in Post-1900 Literature**

Studies special topics in literary forms and styles (e.g. magical realism, naturalism, language poetry, etc.) and also the development of genres (e.g. poetry, drama, digital media, novel) in the 20th- and 21st-centuries. Topics vary each semester. Specially design for English majors. May be repeated for a total of 6 units for different topics.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Undergraduate Writing

**ENGL 3021 (3) Intermediate Poetry Workshop**

Intermediate course in poetry writing.

**Repeatable:** Repeatable for up to 9.00 total credit hours.

**Requisites:** Requires prerequisite course of ENGL 2021 (minimum grade B). Restricted to Creative Writing minor students or students with a sub plan of Creative Writing.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Undergraduate Writing

**ENGL 3025 (3) American Nationalisms**

Examines how literature participates in the creation of American national culture and identify. Surveys major political writing and a variety of literary genres, tropes, and themes from early native American tales to the 20th-century literature.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: American Literature

**ENGL 3026 (3) Syntax, Citation, Analysis: Writing About Literature**

Students hone their writing skills by closely analyzing the language in literary texts. The course will focus on the nuances of sentence structure and grammar, in order to help students become better writers and readers. Students will learn how to perform research in literary criticism and will write and revise a research paper, as well as a number of other short papers for different audiences. Students will learn and use citation methods within the discipline and will discuss the reasoning behind citational practice.

**Recommended:** Prerequisite completion of lower-division writing requirement.

**Additional Information:** Arts Sci Gen Ed: Written Communication-Upper

**ENGL 3031 (3) Studies in Creative Writing for Nonmajors**

How do stories work, and what's involved with writing them and then getting them out into the world? This course will, through lectures and recitation, work through the many techniques writers use to pull the reader ahead page by page; dialogue, exposition, prose, structure, and the rest; as well as the various mechanisms by which that writing can make its way out into the world.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**ENGL 3041 (3) Studies in Fiction and Poetry**

Examines literary forms and themes with special emphasis on issues related to the craft of poetry and fiction. This course is taught in conjunction with visiting lectures by practicing writers. Does not count as Creative Writing workshop credit.

**Requisites:** Requires prerequisite course of ENGL 1191 (minimum grade B).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Undergraduate Writing

**ENGL 3051 (3) Intermediate Fiction Workshop**

Intermediate course in fiction writing.

**Repeatable:** Repeatable for up to 9.00 total credit hours.

**Requisites:** Requires prerequisite course ENGL 2051 (minimum grade B). Restricted to Creative Writing minor students or students with a sub plan of Creative Writing.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Undergraduate Writing

**ENGL 3060 (3) Modern and Contemporary Literature for Nonmajors**

Close study of significant 20th-century poetry, drama, and prose works. Readings range from 1920s to the present.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: General Literature and Language

**ENGL 3068 (3) Literature in English, 1900-1945**

Surveys major literary trends from 1900-1945 in the Anglo-American tradition, including the characteristics of literary modernism. Covers both prose and poetry, as well as the relationship between literature and history to the close of World War II.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Critical Studies in English

**ENGL 3078 (3) Literature in English, 1945-Present**

Explores major literary and theoretical trends in the Anglo-American tradition after 1945.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors).

**Recommended:** Prerequisites ENGL 2102 and ENGL 2058.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Critical Studies in English

**ENGL 3081 (3) Intermediate Nonfiction Workshop**

Discussion and practical criticism of student work and discussion of relevant works of literary nonfiction.

**Repeatable:** Repeatable for up to 9.00 total credit hours.

**Requisites:** Requires prerequisite course of ENGL 2021 or ENGL 2051 (minimum grade B).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Undergraduate Writing

**ENGL 3088 (3) Major Authors of Post-1900 Literature**

Provides an in-depth study of the work of one or two major authors in the Anglo-American tradition after 1900. May be repeated for a total of 9 units for different topics.

**Repeatable:** Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Critical Studies in English

**ENGL 3116 (3) Topics in Advanced Theory**

Studies special topics in theory; specially designed for English majors. Topics vary each semester.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires prerequisite course of ENGL 2112 (minimum grade C-). Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Advanced Theory, Genre Studies and Popular Culture

**ENGL 3164 (3) History and Literature of Georgian Britain**

Provides an interdisciplinary study of England in one of its most vibrant cultural and historical periods. Topics include politics, religion, family life, and the ways contemporary authors understood their world.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Core Curr: Historical Context  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: British Literature after 1660

**ENGL 3204 (3) Developments in the Novel**

Surveys key developments in the formal and socio-cultural history of the British novel, from its rise in the long eighteenth century to its preeminence during the Victorian era. Readings may include works by Aphra Behn, Daniel Defoe, Jonathan Swift, Samuel Richardson, Laurence Sterne, Jane Austen, Mary Shelley, the Brontës, Charles Dickens, George Eliot, Thomas Hardy, Oscar Wilde and Joseph Conrad.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: British Literature after 1660

**ENGL 3217 (3) Topics in Gender Studies**

Studies special topics in gender studies; specially designed for English majors. Topics vary each semester.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Multicultural and Gender Studies

**ENGL 3226 (3) Folklore**

Emphasizes formal study of folk traditions (including tales, songs, games, customs, beliefs, and crafts) within a theoretical framework, using examples from several cultures.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Advanced Theory, Genre Studies and Popular Culture

**ENGL 3235 (3) American Novel**

Surveys the American novel. Covers the early development of the American novel, its rise in the 19th- and 20th-centuries, and its contemporary expressions. Students will be introduced to theories of the novel, the major movements and authors, as well as the characteristics that define the American novel as unique.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: American Literature

**ENGL 3245 (3) American Poetry**

Surveys American poetry from the 17th- to the 21st-century. Includes training in poetic theory, form, and genre, as well as in poetic analysis.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: American Literature

**ENGL 3246 (1-3) Topics in Popular Culture**

Studies special topics in popular culture; specially designed for English majors. Topics vary each semester. May be repeated for a total of 6 credit hours for different topics.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Advanced Theory, Genre Studies and Popular Culture

**ENGL 3267 (3) Women Writers**

Introduces literature by British and American women.

**Equivalent - Duplicate Degree Credit Not Granted:** WGST 3267

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Multicultural and Gender Studies

**ENGL 3300 (3) Literary London**

Study the works of a major author, school or period of English literary history in London. Subject rotates each year, with possible topics ranging from medieval to contemporary literature. Course incorporates local sites, landmarks, museums, performances and scholars. Application through the Office of International Education required.

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: General Literature and Language

**ENGL 3310 (3) The Bible as Literature**

Surveys literary achievements of the Judeo-Christian tradition as represented by the Bible. Formerly ENGL 3312.

**Equivalent - Duplicate Degree Credit Not Granted:** HUMN 3310 and JWST 3310

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Core Curr: Ideals and Values  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Backgrounds to Literature in English

**ENGL 3377 (3) Multicultural Literature**

Studies special topics in multicultural literature; specially designed for English majors. Topics vary each semester.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Multicultural and Gender Studies

**ENGL 3523 (3) The Early English Renaissance**

Surveys prose, poetry and drama of the Tudor era, from Skelton and More through Shakespeare and his contemporaries. Formerly ENGL 4523.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: British Literature to 1660

**ENGL 3533 (3) The Later English Renaissance**

Surveys prose, poetry and drama of the seventeenth century, from Donne, Jonson and Bacon through Milton and his contemporaries. Formerly ENGL 4533.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: British Literature to 1660

**ENGL 3544 (3) The Long Eighteenth Century: Satire, Sense, and Sentiment from Behn to Austen**

Examines the literature and culture of the "long eighteenth century" (1660-1815), when satire ruled, the novel rose to prominence, philosophers challenged authority, and romanticism took hold. Studies how authors used evolving forms to confront and buttress authority and ask what being human means: Is it to reason and feel? To trade and own things? To be free?

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: British Literature after 1660

**ENGL 3553 (3) Geoffrey Chaucer**

Selection of Chaucer's works, including *The Canterbury Tales* and other shorter poems. Includes an introduction to Middle English.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: British Literature to 1660

**ENGL 3563 (3) Shakespeare**

Shakespeare's poetry and drama.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: British Literature to 1660

**ENGL 3564 (3) Romanticism**

Surveys British Romanticism, including Blake, Coleridge, Wordsworth, Keats, Shelley, and Byron.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: British Literature after 1660

**ENGL 3573 (3) Shakespeare in Performance**

Focuses on Shakespeare the dramatist through the study of the three Shakespeare plays produced in the summer by the Colorado Shakespeare Festival. In addition to exploring the text, the historical context and performance conventions c. 1600, students meet the CSF teams (professional directors, dramaturgs, designers and actors) of the three plays and the Producing Artistic Director of the CSF.

**Repeatable:** Repeatable for up to 9.00 total credit hours.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: British Literature to 1660

**ENGL 3583 (3) Milton**

Milton's poetry and selected prose.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: British Literature to 1660

**ENGL 3593 (3) Major Authors in British Literature before 1660**

Focuses on one major author of the medieval or early modern period, such as William Langland, John Lydgate, Edmund Spenser or Ben Jonson. Course content varies with instructor and may include literary influences, contemporary writers, and historical influences as necessary to understanding the writer. May be repeated for a total of 9 units for different topics.

**Repeatable:** Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: British Literature to 1660

**ENGL 3604 (3) The Victorians**

Surveys Victorian literature, including poetry, the novel, and other prose writings, from the Brontës and Charles Dickens to the Pre-Raphaelites and Oscar Wilde. Explores such topics as industrialization and class conflict, the "Woman Question," the British Empire, science and technology, degeneration and apocalypse, mass literacy and popular culture, consumerism, the metropolis vs. the countryside, and visual culture.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: British Literature after 1660

**ENGL 3675 (3) Majors Authors in American Literature**

Provides an in-depth study of the work of one or two major American authors. Explores the range, influences, and development of a writer over his or her life.

**Repeatable:** Repeatable for up to 9.00 total credit hours.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: American Literature

**ENGL 3767 (3) Feminist Fictions**

Examines a series of literary texts to consider how writers across the world have used fiction to creatively stage and reimagine gender and sexuality. Attends to the formal and narrative techniques by which these texts call attention to the fictionality—and thereby the creative malleability—of gender itself. Some cinematic and performance texts will also be included.

**Equivalent - Duplicate Degree Credit Not Granted:** WGST 3767

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-Global Perspective  
Departmental Category: Multicultural and Gender Studies

**ENGL 3796 (3) Queer Theory**

Surveys theoretical, critical, and historical writings in the context of lesbian, bisexual, transgender and gay literature. Examines relationships among aesthetic, cultural and political agendas, and literary and visual texts of the 20th century.

**Equivalent - Duplicate Degree Credit Not Granted:** LGBT 3796

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Advanced Theory, Genre Studies and Popular Culture

**ENGL 3856 (1-3) Topics in Genre Studies**

Studies special topics in genre studies; specially designed for English majors. Topics vary each semester. May be repeated for a total of 6 credit hours for different topics.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Advanced Theory, Genre Studies and Popular Culture

**ENGL 3930 (1-6) Internship**

Provides academically supervised opportunity for upper-division students to work in public or private organizations on projects related to students' career goals and to relate classroom theory to practice. Department enforced prerequisite: 3.0 GPA and faculty supervision.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Departmental Category: General Literature and Language

**ENGL 3940 (1-3) Service Learning Practicum**

Under faculty supervision, students participate in a service project in conjunction with an academic course.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Additional Information:** Departmental Category: General Literature and Language

**ENGL 4003 (3) Introduction to Old English**

Introduces students to Old English, the ancient ancestor of Modern English (as Latin is the ancestor of Spanish and Italian, distinct from both). Course will focus on reading knowledge through grammar study and translation, and to a lesser extent on pronunciation. Provides basic parsing and translation skills and an introduction to the history, culture, and literature of early medieval Britain. Provides an introduction to grammar and to the history of the English language.

**Equivalent - Duplicate Degree Credit Not Granted:** ENGL 5003

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: British Literature to 1660

**ENGL 4013 (3) Intermediate Old English I**

Continues to develop skills in Old English reading and translation. Focuses on shorter canonical texts in verse and prose. Students will produce idiomatic translations for every class, write a midterm exam based on those translations, and write either a final exam or a final paper. Students will also memorize and present a short section of verse in the original language. Graduate students will read and present on secondary scholarship and produce original research.

**Equivalent - Duplicate Degree Credit Not Granted:** ENGL 5013

**Requisites:** Requires prerequisite course of ENGL 4003 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: British Literature to 1660

**ENGL 4018 (3) Literature and Globalization**

Studies special topics that focus on transnational and global issues since 1600. Topics vary each semester and may include globalization, cross-cultural exchanges, migration, and the history and legacies of imperialism. Specially designed for English majors. May be repeated for a total of 6 credits for different topics.

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Undergraduate Writing

**ENGL 4021 (3) Advanced Poetry Workshop**

Advanced course in poetry writing.

**Repeatable:** Repeatable for up to 9.00 total credit hours.

**Requisites:** Requires prerequisite course ENGL 3021 (minimum grade B). Restricted to Creative Writing minor students or students with a sub plan of Creative Writing.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Undergraduate Writing

**ENGL 4026 (3) Special Topics in Genre, Media, and Advanced Writing**

Studies theoretical and historical approaches to genre, media, and writing at the advanced level.

**Repeatable:** Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Advanced Theory, Genre Studies and Popular Culture

**ENGL 4039 (3) Critical Thinking in English Studies**

Concerned with developments in the study of literature that have significantly influenced our conception of the theoretical bases for study and expanded our understanding of appropriate subject matter.

**Repeatable:** Repeatable for up to 9.00 total credit hours.

**Requisites:** Requires prerequisite courses of ENGL 2102 and ENGL 2112 (all minimum grade C-). Restricted to students with 57-180 credits (Junior or Senior) English (ENGL) or Humanities (HUMN) majors and minors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Critical Studies in English

**ENGL 4048 (3) Modern British and Irish Novel**

Studies major figures and trends in the 20th century. Formerly ENGL 4224.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: British Literature after 1660

**ENGL 4051 (3) Advanced Fiction Workshop**

Advanced course in fiction writing.

**Repeatable:** Repeatable for up to 9.00 total credit hours.

**Requisites:** Requires prerequisite course of ENGL 3051 (minimum grade B). Restricted to Creative Writing minor students or students with a sub plan of Creative Writing.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Undergraduate Writing

**ENGL 4071 (3) Screenwriting Workshop**

Designed to give students practical criticism of their script writing and technical format requirements. Either stage plays or screenplays are studied, as announced.

**Repeatable:** Repeatable for up to 9.00 total credit hours.

**Requisites:** Requires prerequisite course of ENGL 3021 or ENGL 3051 (minimum grade B). Restricted to Creative Writing minor students or students with a sub plan of Creative Writing.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Undergraduate Writing

**ENGL 4081 (3) Playwriting Workshop**

**Repeatable:** Repeatable for up to 9.00 total credit hours.

**Requisites:** Requires prerequisite course of ENGL 3021 or ENGL 3051 (minimum grade B). Restricted to Creative Writing minor students or students with a sub plan of Creative Writing.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Undergraduate Writing

**ENGL 4098 (3) Special Topics in the Novel, Post-1900**

Explores a special topic in literature written in, or translated into English, post-1900.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Critical Studies in English

**ENGL 4113 (3) History and Culture of Medieval England**

Explores the major historical, literary, and cultural developments in England from the Anglo-Saxon period through the 15th-century.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Core Curr: Historical Context

Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: British Literature to 1660

**ENGL 4116 (3) Advanced Topics in Media Studies**

Studies specialized topics in the history, theory, and practice of media, such as the history of the book, the theory of digital media, and the theory and practice of multimedia forms. Specially designed for English majors. Topics vary year to year.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Advanced Theory, Genre Studies and Popular Culture

**ENGL 4250 (3) Modern and Contemporary Novel**

Close study of masterpieces by such novelists as Proust, Joyce, Woolf, Lawrence, Mann, Kafka, and Faulkner.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: General Literature and Language

**ENGL 4277 (3) Topics in Women's Literature**

Focuses on areas of research interest in the study of women's literature, such as selected themes or critical issues. Students are expected to contribute original research to the topic under consideration.

**Equivalent - Duplicate Degree Credit Not Granted:** WGST 4277

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Multicultural and Gender Studies

**ENGL 4286 (3) Folklore 2**

Upper-division studies of folk groups, events, texts, and contexts as they reflect traditional knowing-folk perceptions and teachings about the structure and purpose of the universe.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Advanced Theory, Genre Studies and Popular Culture

**ENGL 4287 (3) Special Topics in LGBT Literature**

Examines a special topic in LGBT literature, foregrounding an approach that focuses on how same-sex desire is represented in literature.

May explore the rhetorical and ideological depiction of masculinity and femininity; literary representations of inversion, bisexuality, and transgenderism; the social construction of homosexuality and heterosexuality. Specific topics vary each semester.

**Equivalent - Duplicate Degree Credit Not Granted:** LGBT 4287 and WGST 4287

**Repeatable:** Repeatable for up to 9.00 total credit hours.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Multicultural and Gender Studies

**ENGL 4368 (3) Modern Drama**

Explores continental, British, and American drama since Ibsen.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: General Literature and Language

**ENGL 4468 (3) Modern Poetry**

Selects works of British and American poets from 1900 to the present.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: General Literature and Language

**ENGL 4503 (3) Continental Medieval Literature**

Intensive study of the major literary works of the Middle Ages in Europe.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: British Literature to 1660

**ENGL 4513 (3) British Medieval Literature**

Intensive study of the major literary works of the Middle Ages in Britain.

**Repeatable:** Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: British Literature to 1660

**ENGL 4514 (3) Advanced Topics: The Long 18th Century**

Covers advanced topics in the Restoration and Eighteenth-century.

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: British Literature after 1660

**ENGL 4524 (3) Advanced Topics: Romanticism**

Covers advanced topics in British Romanticism. Formerly ENGL 4574.

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: British Literature after 1660

**ENGL 4583 (3) Elizabeth I and Her Times**

Interdisciplinary course explores different aspects of the reign of Elizabeth I: social and political history; literature; theater; music. Explores the role and impact of a female ruler on English culture.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: British Literature to 1660

**ENGL 4624 (3) Transnational/Historic/Interdiscipline Approaches 1660-1900**

Explores a special topic in British literature written between 1660-1900 that crosses traditional divisions of nationality, history, and discipline.

**Repeatable:** Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: British Literature after 1660

**ENGL 4634 (3) Advanced Topics: The Victorians**

Covers advanced topics in Victorian literature. Formerly ENGL 4614.

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: British Literature after 1660

**ENGL 4655 (3) Studies in American Literature to 1900**

Extensive study of particular periods and movements in American literature.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: American Literature

**ENGL 4665 (3) Studies in American Literature after 1900**

Extensive study of particular periods and movements in American literature.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: American Literature

**ENGL 4677 (3) Jewish-American Literature**

Explores the Jewish-American experience from the 19th-century to the present through writers such as Sholom Aleichem, Peretz, Babel, Singer, Malamud, Miller, Ginsberg and Ozick. The Jewish experience ranges from the travails of immigration to the loss of identity through assimilation. Formerly ENGL 3677.

**Equivalent - Duplicate Degree Credit Not Granted:** JWST 4677

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors).

**Additional Information:** Arts Sci Core Curr: Human Diversity  
Arts Sci Gen Ed: Diversity-U.S. Perspective  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Multicultural and Gender Studies

**ENGL 4685 (3) Special Topics in American Literature**

Explores a special topic in American literature. May be repeated for a total of 9 units for different topics.

**Repeatable:** Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: American Literature

**ENGL 4693 (3) Advanced Topics in British Literature to 1660**

Explores a special topic in medieval or early modern literature. May be repeated for a total of 9 units for different topics.

**Repeatable:** Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: British Literature to 1660

**ENGL 4697 (3) Special Topics in Multicultural and Ethnic American Literature**

Provides advanced in-depth study of literatures written by ethnic American authors. Texts may be drawn from a range of African-American, Chicano/a, Latino/a, Asian American, Native American or Indigenous literature traditions. Topics vary each semester.

**Equivalent - Duplicate Degree Credit Not Granted:** ETHN 4692

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-U.S. Perspective  
Departmental Category: Multicultural and Gender Studies

**ENGL 4717 (3) Native American and Indigenous Studies Capstone Seminar**

Engages a wide range of NAIS methodologies with a series of case studies. Focuses on print, visual, and digital texts encompassing wide swathe of Eurowestern disciplines, while seeking to recuperate and restore Indigenous epistemic practices within our scholarship. Refines students' skills in intellectual debate in the spirit of shared inquiry and challenges research and writing skills.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-Global Perspective  
Departmental Category: Multicultural and Gender Studies

**ENGL 4820 (3) Honors Seminar**

Prepares prospective honors students to write honors theses. Focuses on sharpening the skills needed to write a successful thesis, including research techniques and the ability to evaluate and respond to secondary materials. Required for Honors in English Literature.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sciences Honors Course  
Departmental Category: General Literature and Language

**ENGL 4830 (3) Honors Thesis**

Students accepted to English Departmental Honors are enrolled in this course.

**Additional Information:** Arts Sciences Honors Course  
Departmental Category: General Literature and Language

**ENGL 4840 (1-3) Independent Study---Upper Division**

Creative writing.

**Repeatable:** Repeatable for up to 8.00 total credit hours.

**Additional Information:** Departmental Category: General Literature and Language

**ENGL 4850 (1-3) Independent Study---Upper Division**

Literature/language.

**Repeatable:** Repeatable for up to 8.00 total credit hours.

**Additional Information:** Departmental Category: General Literature and Language

## English - Bachelor of Arts (BA)

The English department offers two undergraduate major concentrations culminating in a Bachelor of Arts (BA) in English. These programs overlap so that all English majors learn the skills of literary criticism and the art of excellent writing.

### Honors Program

Students interested in pursuing a special program leading to graduation with departmental honors should confer with the associate chair for undergraduate studies as soon as possible, but definitely no later than the beginning of spring term in their junior year.

### Requirements

#### General Requirements

The English department offers two undergraduate major tracks culminating in the Bachelor of Arts (BA) in English. Students must complete the general requirements of the College of Arts and Sciences and one of the two tracks listed below.

A minimum of 12 credit hours of upper-division coursework for the English major must be completed on the Boulder campus. English courses taken at other colleges must be evaluated by the Department of English. Courses taken in other departments (except approved cross-listed courses) normally do not count toward the English major. English courses taken on a pass/fail basis do not fulfill major requirements. Independent study credit hours cannot fulfill a major requirement unless that requirement is not being offered or available within the year that the student graduates.

*Note:* For the Advanced Placement examination in English literature and composition, students will receive credit for ENGL 1500 for an exam score of 4 or 5.

### Program Tracks

#### Literature Track

Students must complete the major requirements in effect at the time they formally declare the major. A minimum of 36 credit hours must be earned in the Department of English, 18 of which must be upper division. Requirements may be fulfilled by taking specific courses designated by the Department of English.

Code	Title	Credit Hours
<b>Required Courses</b>		
ENGL 2102	Literary Analysis	3
ENGL 2112	Introduction to Literary Theory	3
One course from each of the following historical requirements:		15

British Literature to 1660	
British Literature, 1660-1900	
American Literature	
Studies in Ethnicity, Race, Disability, Gender and Sexuality	
Literatures in English, 1900 to Present	
Two courses from: Genre, Media and Advanced Writing	6
ENGL 4039 Critical Thinking in English Studies	3
Two required elective courses in English	6
<b>Optional Electives</b>	
In addition to the 36 credit hours required for the major, another 9 credit hours may be taken, for a maximum of 45 credit hours in English	
<b>Total Credit Hours</b>	<b>36</b>

### Creative Writing Track

Students are subject to those major requirements in effect at the time they formally declare the major. A minimum of 36 credit hours must be earned in the Department of English, 18 of which must be upper division.

Students declare the creative writing track when declaring their English major with the help of an academic advisor. Students should declare no later than the second semester of their junior year. In order to take workshops beyond the 2000 level, students must declare the creative writing track or the creative writing minor. Each workshop may be taken three times for credit, except for ENGL 1191.

All students completing the creative writing track must take and complete a 4000-level writing workshop. Students may not take two poetry or two fiction workshops in the department in the same semester.

Students must satisfy all required creative writing workshop prerequisites in sequence, with a grade of B or better, before moving on to the workshop at the next level.

Code	Title	Credit Hours
<b>Required Courses</b>		
ENGL 2102	Literary Analysis	3
ENGL 2112	Introduction to Literary Theory	3
One course from either of the following historical requirements:		3
British Literature to 1660		
British Literature, 1660-1900		
One course from one of the following historical requirements:		3
American Literature		
Studies in Ethnicity, Race, Disability, Gender and Sexuality		
Literatures in English, 1900 to the Present		
One course from: Genre, Media and Advanced Writing		3
ENGL 4039	Critical Thinking in English Studies	3
Six creative writing workshops taken in progressive order, three of which must be upper division, including one at the 4000-level <sup>1</sup>		18
<b>Optional Electives</b>		

In addition to the 36 credit hours required for the major, another 9 credit hours may be taken, for a maximum of 45 credit hours in English

<b>Total Credit Hours</b>	<b>36</b>
---------------------------	-----------

<sup>1</sup> The sequence of creative writing workshops must begin with ENGL 1191 and proceed according to genre through the 2000-level, 3000-level and 4000-level workshops. For example, the required prerequisites for ENGL 4021 are ENGL 1191, ENGL 2021 and ENGL 3021; and the required prerequisites for ENGL 4051 are ENGL 1191, ENGL 2051 and ENGL 3051.

### Graduating in Four Years

Consult the Four-Year Guarantee Requirements for information.

The concept of "adequate progress" as it is used here only refers to maintaining eligibility for the four-year guarantee; it is not a requirement for the major. To maintain adequate progress in English, students should meet the following requirements:

- No later than the beginning of the second semester, declare the English major and begin coursework in the major.
- By the end of the fourth semester, successfully complete one-third of the credit hour requirements for the major. For literature track majors, this includes ENGL 2102, an English elective and any 2000-level course for the major. For creative writing track majors, this includes ENGL 2102, ENGL 1191, and ENGL 2021 or ENGL 2051, as well as formal declaration of the creative writing track.
- By the end of the sixth semester, successfully complete two-thirds of the credit hour requirements for the major, including ENGL 2112.
- By the end of the eighth semester, successfully complete the remaining major requirements, including ENGL 4039.

### Recommended Four-Year Plans of Study Literature Track

Please speak with your advisor for specific recommendations; the following is intended to be a general outline only and there may be flexibility to this plan.

Through the required coursework for the major, students will fulfill all 12 credits of the Arts & Humanities area of the Gen Ed Distribution Requirement, and potentially one or both categories of the Gen Ed Diversity Requirement.

Course	Title	Credit Hours
<b>Year One</b>		
<b>Fall Semester</b>		
ENGL 2102	Literary Analysis	3
ENGL Required Elective		3
Gen. Ed. Distribution/Diversity course (example: Social Sciences/Global Perspective)		3
Gen. Ed. Skills course (example: Lower-division Written Communication)		3
Elective/MAPS		3
<b>Credit Hours</b>		<b>15</b>

#### Spring Semester

Total Credit Hours	122-124

<sup>1</sup> Students following the creative writing track of the English major can take up to three optional ENGL electives, with a maximum of 45 total hours in ENGL coursework allowed.

## Creative Writing - Minor

Declaration of a minor is open to any student enrolled at CU Boulder, regardless of college or school. Students majoring in English, literature or creative writing track, cannot declare a creative writing minor. Students are subject to those minor requirements in effect at the time they formally declare the minor.

## Requirements

### Declaring the Minor

Students declare the creative writing minor with the help of an academic advisor. Three hours of transfer workshop credits can be applied with

department approval. Students should ideally declare no later than the second semester of their junior year.

In order to take workshops beyond the 2000-level, students must declare the creative writing minor or the creative writing major track. Each workshop may be taken three times for credit, except for ENGL 1191. Students may not take two poetry or two fiction writing workshops in the department in the same semester. Students must satisfy all prerequisites in sequence with a grade of B or better before moving on to the workshop at the next level.

## Required Courses and Credit Hours

Completion of the minor requires 18 credit hours, at least 9 of which must be upper division.

Code	Title	Credit Hours
<b>Required Courses</b>		
ENGL 1191	Introduction to Creative Writing	3
ENGL 3041	Studies in Fiction and Poetry	3
Four creative writing workshops, taken in progressive order		12
Total Credit Hours		18

## English - Minor

Declaration of a minor is open to any student enrolled at CU Boulder, regardless of college or school. Students majoring in English (literature or creative writing track) cannot declare a literature minor. Students are subject to those minor requirements in effect at the time they formally declare the minor.

## Requirements

Completion of the minor requires 18 credit hours with grades of C- or better, at least 12 of which must be upper division.

Students may not apply creative writing courses toward the literature minor, and this includes ENGL 3041 Studies in Fiction and Poetry. Students may count either ENGL 3000 Shakespeare for Nonmajors or ENGL 3060 Modern and Contemporary Literature for Nonmajors toward the minor requirements, but may not apply both nonmajors courses to the requirements.

Students must maintain at least a 2.00 (C) GPA in all CU Boulder ENGL courses.

Students may apply no more than 9 credit hours of transfer work, including no more than 6 upper-division credit hours, towards a minor. This is a college residency rule for an 18-credit-hour minor.

Code	Title	Credit Hours
<b>Required Courses</b>		
ENGL 2102	Literary Analysis	3
One additional ENGL course at the 2000-level or above		3
Two ENGL courses at the 3000-level or above		6
Two ENGL courses at the 4000-level or above		6
Total Credit Hours		18

## Environmental Studies

The Environmental Studies program at CU Boulder is a hub for facilitating interdisciplinary collaboration in environment and sustainability. The program nurtures interdisciplinary academic training for undergraduate and graduate students, provides guidance for students with career aspirations in environment and sustainability venues, promotes diverse professional education experiences, fosters fundamental and applied research, forms meaningful connections with communities beyond the university, and integrates innovative, interdisciplinary programs unified by the themes of environment and sustainability.

Course code for this program is **ENVS**.

## Bachelor's Degree

- Environmental Studies - Bachelor of Arts (BA) (p. 267)

## Certificate

- Global Environmental Affairs (<https://catalog.colorado.edu/undergraduate/colleges-schools/arts-sciences/programs-study/international-affairs/global-environmental-affairs-certificate/#text>)

## Faculty

While many faculty teach both undergraduate and graduate students, some instruct students at the undergraduate level only. For more information, contact the faculty member's home department.

## Courses

### ENVS 1000 (4) Introduction to Environmental Studies

Surveys environmental studies, examining ecological, socioeconomic, political, aesthetic, and technological factors that influence the quality of life on Earth. Required for ENVS majors.

**Additional Information:** Arts Sci Core Curr: Natural Science Non-Sequence  
Arts Sci Gen Ed: Distribution-Natural Sciences

### ENVS 1001 (4) Introduction to Developing Environmental Solutions

Builds on ENVS 1000 to give students greater understanding of how to approach environmental issues and work toward solutions. Integrates all focal areas of ENVS - sciences, policy, values - with greatest emphasis on learning science, data analysis and critical thinking fundamentals. Uses case studies of local issues to provide context for skill building and synthesis.

**Requisites:** Requires a prerequisite course of ENVS 1000 (minimum grade C-).

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**ENVS 1150 (3) First-Year Writing in Energy, Environment and Sustainability**

Provides development of effective writing skills, knowledge and habits for success in the campus culture using topics related to the environmental sciences, energy, sustainability and academic/career interests. Focuses on the processes in rhetoric, emphasizing skills in creative, analytical and critical thinking, as well as research and presentation using digital and "old fashioned" methods and materials.

**Requisites:** Restricted to students with 0-56 credits (Freshman or Sophomore) Environmental Studies (ENVS) or Environmental Design (ENVD) majors only.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Core Curr: Written Communication  
Arts Sci Gen Ed: Written Communication-Lower

**ENVS 2000 (4) Applied Ecology for Environmental Studies**

Covers how ecological ideas and principles underlie both the problems and solutions of multiple environmental issues. Ecology of environmental concerns ranging from endangered species to global carbon cycling will be reviewed, including perspectives from physiological, behavioral, population, community and ecosystem ecology. Fulfills intermediate natural science requirement for Environmental Studies major.

**Equivalent - Duplicate Degree Credit Not Granted:** EBIO 2040 and EBIO 2640

**Recommended:** Prerequisites ENVS 1000 and a course in introductory statistics and two courses in introductory biology or physical geography.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**ENVS 2001 (3) Topical Seminar in Environmental Studies**

Serves as an introductory seminar to topics in environmental studies. Topics are diverse and include such areas as climate and conflict, food production, land use change, and other emerging areas in environmental studies.

**Grading Basis:** Letter Grade

**ENVS 2100 (2-4) Topics in Applied Environmental Studies**

Covers a variety of topics not currently offered in the curriculum: offered depending on instructor availability and student demand. Fulfills application requirement in Environmental Studies major.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Recommended:** Prerequisite ENVS 1000.

**ENVS 2840 (1-6) Independent Study**

Students work with an approved faculty sponsor to explore a topic in greater depth and to pursue an interest that is not offered in the formal curriculum.

**Repeatable:** Repeatable for up to 8.00 total credit hours.

**Recommended:** Prerequisite ENVS 1000.

**ENVS 3001 (3) Sustainable Solutions Consulting**

Introduces students to green design, industrial ecology, and life cycle analysis. Students use basic techniques of environmental auditing to analyze the CU Boulder campus. Fulfills application requirement for Environmental Studies major.

**Requisites:** Requires prerequisite course of ENVS 1000 (minimum grade D-). Restricted to students with 57-180 credits (Junior or Senior) Environmental Studies (ENVS) majors only.

**Recommended:** Requisite any two-semester science sequence.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**ENVS 3020 (3) Advanced Writing in Environmental Studies**

Offers training in critical thinking and analytical writing skills appropriate to upper-division classes. Writing assignments integrate the subject matter of different topical areas. Fulfills writing requirement for Environmental Studies major.

**Requisites:** Restricted to students with 57-180 credits (Junior or Senior) Environmental Studies (ENVS) majors only.

**Recommended:** Prerequisite ENVS 1000.

**Additional Information:** Arts Sci Core Curr: Written Communication

Arts Sci Gen Ed: Written Communication-Upper

**ENVS 3022 (3) Climate Politics and Policy**

Engages students in exploring the realm of contemporary and historical climate policy at three major levels of government: international, national and local/regional. Through course lectures, discussions, readings and activities, students will become conversant with the actors, mechanisms and concerns involved in climate policy and politics and develop their own sense of how to judge the success of climate policies. Fulfills intermediate social science requirement in Environmental Studies Major.

**Equivalent - Duplicate Degree Credit Not Granted:** GEOG 3022

**Recommended:** Prerequisite ENVS 1000 or GEOG 1972.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**ENVS 3030 (3-4) Topics in Environmental Social Sciences**

Covers a variety of topics that may include human ecology, environment and society, and quantitative environmental social science. Offered depending upon instructor availability and student demand. Fulfills intermediate social science requirement for Environmental Studies major. Not repeatable for credit.

**Recommended:** Prerequisite ENVS 1000.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**ENVS 3031 (3) Environmental Psychology**

Examines how people interact with the environment by examining theories and methods from Environmental Psychology. How does nature impact human well-being? How do people make decisions that have environmental consequences? How can we promote behavior change to reduce environmental degradation? Fulfills intermediate social science requirement for ENVS major.

**Requisites:** Require prerequisites of ENVS 1000 and ENVS 1001 (both minimum grade C-).

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**ENVS 3032 (3) Environment, Media and Society**

Examines how mass media influence our society, specifically with regard to environmental issues and outcomes. Focuses on media influence over environmental politics and policy, environmental public opinion, popular culture, and environmental/scientific knowledge. Fulfills intermediate social science requirement for Environmental Studies major.

**Recommended:** Prerequisite ENVS 1000.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**ENVS 3033 (3) Governing the Environment**

Examines how, when, and why human communities succeed in conserving environmental commons. Using a marine lens and taking a social-ecological systems approach, this course will provide foundations in environmental governance while examining case studies from local to global scale. Utilizes lecture, discussion, group work, literature, film, guest speakers, and class projects to study environmental problems and their solutions, including the student's personal role in governing natural resources. Fulfills intermediate social science requirement for ENVS major.

**Recommended:** Prerequisite ENVS 1000.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**ENVS 3040 (4) Conservation Biology**

Applies principles of population ecology, population genetics, biogeography, animal behavior, and paleobiology to the maintenance of biodiversity and natural systems. The resulting theory is then applied to conservation policy and management techniques.

**Equivalent - Duplicate Degree Credit Not Granted:** EBIO 3040

**Recommended:** Prerequisite EBIO 2040 or EBIO 2640.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**ENVS 3064 (3) Environmental Political Theory**

Examines environmental discourses as conceptual means for theorizing environmental politics, and applies normative political theories to contemporary environmental policy issues. Considers the roles of political actors (individuals, groups, the state) in defining and addressing environmental problems on local, national, and global levels.

**Equivalent - Duplicate Degree Credit Not Granted:** PSCI 3064

**Additional Information:** Arts Sci Core Curr: Ideals and Values

Arts Sci Gen Ed: Distribution-Social Sciences

Arts Sci Gen Ed: Distribution-Arts Humanities

**ENVS 3070 (3) Energy and the Environment**

Examines contemporary issues in energy consumption and its environmental impact, including fossil fuel use and depletion; nuclear energy and waste disposal; solar, wind, hydroelectric, and other renewable sources; home heating; energy storage; fuel cells; and alternative transportation vehicles. Includes some basic physical concepts and principles that often constrain choices. No background in physics is required.

**Equivalent - Duplicate Degree Credit Not Granted:** PHYS 3070

**Additional Information:** Arts Sci Core Curr: Natural Science Non-Sequence

Arts Sci Gen Ed: Distribution-Natural Sciences

**ENVS 3100 (2-4) Topics in Applied Environmental Studies**

Covers a variety of topics not currently offered in the curriculum; offered depending upon instructor availability and student demand. Fulfills application requirement for Environmental Studies major.

**Repeatable:** Repeatable for up to 8.00 total credit hours.

**Recommended:** Prerequisite ENVS 1000.

**ENVS 3103 (3) Applied Environmental Studies: Mining in Four Corners**

Explores mining related issues that have pronounced impact on the environment, economy and politics of the Four Corners region. Students apply their basic knowledge of environmental science, policy and values toward the understanding of and productive discourse about the conflicts and opportunities brought about by the mining industry in the Four Corners region. Course includes a seven day field trip, visiting mining and reclamation sites in New Mexico, Utah and Colorado. Fulfills application requirement for Environmental Studies majors.

**Recommended:** Prerequisite ENVS 1000 and one year natural science.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**ENVS 3140 (3) Environmental Ethics**

Examines major traditions in moral philosophy to see what light they shed on value issues in environmental policy and the value presuppositions of the economic, ecological, and juridical approaches to the environment.

**Equivalent - Duplicate Degree Credit Not Granted:** PHIL 3140

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Core Curr: Ideals and Values

Arts Sci Gen Ed: Distribution-Arts Humanities

**ENVS 3173 (3) Creative Climate Communication**

We generate multimodal compositions on the subject of climate change and engage with various dimensions of issues associated with sustainability. We work to deepen our understanding of how issues associated with climate change are or can be communicated, by analyzing previously created expressions from a variety of media (interactive theatre, film, fine art, television programming, blogs, performance art, for example) and then be creating our own work.

**Equivalent - Duplicate Degree Credit Not Granted:** ATLS 3173 and

THTR 4173

**Recommended:** Prerequisite ENVS 1000.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Distribution-Social Sciences

**ENVS 3434 (3) Introduction to Applied Ecology**

Emphasizes the integration of physical, chemical and biological processes in controlling terrestrial and aquatic ecosystems. Ecosystem concepts are applied to current environmental and water quality problems. Includes field trips and a group project.

**Equivalent - Duplicate Degree Credit Not Granted:** CVEN 3434

**Requisites:** Requires prerequisite courses of CHEM 1113 or CHEN 1211 and CHEM 1221 (all minimum grade D-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**ENVS 3520 (3) Energy and Climate Change: An Interdisciplinary Approach**

Examines sources of energy and other resources in light of their availability, use, environmental impact, as well as their impact on policy, economics and values. As fossil fuels are the dominant energy source today, particular emphasis is placed on climate impacts and the carbon cycle. All material is assessed through the lenses of the physical sciences, policy, ethics and economics.

**Equivalent - Duplicate Degree Credit Not Granted:** GEOL 3520

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Recommended:** Prerequisite a two-course sequence in any natural science.

**Additional Information:** Arts Sci Core Curr: Natural Science Non-Sequence

Arts Sci Gen Ed: Distribution-Natural Sciences

**ENVS 3525 (3) Intermediate Environmental Problem Analysis: Topical Cornerstones**

Engages students in in-depth study of a topic such as climate change, energy, natural resources or sustainability. Through lectures, discussions, readings and activities, students will become conversant with how science, policy and values are integrated in environmental problem solving, and develop their own sense of how to critically engage with proposed solutions. Fulfills cornerstone requirement for Environmental Studies Major. Recommended corequisite: ENVS 3020.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Recommended:** Prerequisite ENVS 1000.

**ENVS 3600 (3) Principles of Climate**

Describes the basic components of the climate system: the atmosphere, ocean, cryosphere and lithosphere. Investigates the basic physical processes that determine climate and link the components of the climate system. Covers the hydrological cycle and its role in climate, climate stability and global change.

**Equivalent - Duplicate Degree Credit Not Granted:** GEOG 3601 and ATOC 3600

**Recommended:** Prerequisites one semester of calculus and ATOC 1060 or ATOC 3300 or GEOG 3301 or GEOG 1001.

**Additional Information:** Arts Sci Core Curr: Natural Science Non-Sequence  
Arts Sci Gen Ed: Distribution-Natural Sciences

**ENVS 3621 (3) Energy Policy and Society**

Examines how society makes decisions about energy, and how these decisions affect the environment and the economy. Uses tools from policy analysis, economics, and other disciplines to build an in-depth understanding of energy's role in U.S. contemporary society. Fulfills Cornerstone requirement of ENVS majors. Recommended corequisite: ENVS 3020.

**Recommended:** Prerequisites ENVS 1000 and ENVS 3070 or PHYS 3070.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**ENVS 3640 (3) Data Analysis for Global Environmental Affairs**

Develops data analysis techniques for global environmental data including demographic, economic, agricultural, fisheries and energy sectors. Designed to support the development of basic and intermediate data analysis skills for students in the Global Environmental Affairs certificate program. Includes hands-on exploration of up-to-date global data sets from a variety of sources. Fulfills the application requirement for the ENVS major.

**Equivalent - Duplicate Degree Credit Not Granted:** IAFS 3640

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**ENVS 3800 (3) The Art of Research: The Essential Elements of Research in Environmental Studies**

Introduces students to the practice of doing research in environmental studies. Examines how to define a research problem, select methods, design research, construct arguments and evaluate others' research. Aims to familiarize students with the process of doing research and enable them to proceed with confidence in pursuing their own research topics. Recommended for juniors planning to write ENVS honors theses. Fulfills capstone requirement in Environmental Studies major.

**Requisites:** Requires prerequisite course of ENVS 1000 (minimum grade D-). Restricted to students with 57-180 credits (Junior or Senior) majors only.

**Recommended:** Prerequisite ENVS 3020.

**ENVS 3930 (1-3) Internship**

Relates classroom theory to practice. Provides academically supervised opportunities for environmental studies majors to work in public and private organizations on projects related to students' career goals. Fulfills application requirement in Environmental Studies major.

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Recommended:** Prerequisite ENVS 1000.

**ENVS 4027 (3) Inequality, Democracy, and the Environment**

Focuses on the structural forces affecting environmental degradation and environmental behavior by examining the relationships between (a) inequality and democratic decision making and (b) undemocratic decision making; U.S. and corporate food and energy policy; and global environmental degradation. The course also focuses on the role that global inequality plays in fostering environmental degradation.

**Equivalent - Duplicate Degree Credit Not Granted:** SOCY 4027

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**ENVS 4030 (3) Sociology of Climate Change**

Examines the human drivers and causes of climate change, the health and security risks it creates and the efforts of societies to mitigate and adapt to its effects.

**Equivalent - Duplicate Degree Credit Not Granted:** SOCY 4030

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**ENVS 4050 (2-4) Field Methods in Ecosystem Science**

Studying the relationships among organisms, physical features, biogeochemistry and humans in ecological communities - this is ecosystem science. This course provides conceptual understanding and practical experience conducting research. Students will pose their own scientific questions, learn several field and lab methods, analyze data and design a project. Upon completion, they will have useful skills for internships, jobs and graduate school. Fulfills application requirement in ENVS major. Department enforced prerequisite: ENVS 1000 or two semesters of natural sciences, such as chemistry, geology or biology.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

Arts Sci Gen Ed: Distribution-Natural Sci Lab

**ENVS 4100 (3) Special Topics in Environmental Studies**

Various topics not normally covered in the curriculum: offered depending on student demand and specialties of faculty. Applied to specialization requirement for Environmental Studies major.

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**ENVS 4160 (3) Introduction to Biogeochemistry**

Covers fundamentals of biogeochemical cycling, emphasizing water, carbon and nutrient dynamics in terrestrial ecosystems; chemical interactions of atmosphere, biosphere, lithosphere and hydrosphere; natural and human-managed environments.

**Equivalent - Duplicate Degree Credit Not Granted:** EBIO 4160 and GEOL 4160

**Requisites:** Requires prerequisite courses of GEOL 3320 or EBIO 3270 and CHEM 1011 (all minimum grade D-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**ENVS 4185 (3) Geomicrobiology**

Examines how microbial and chemical processes interact on the Earth's surface today and have shaped the planet throughout its history.

Emphasis will be placed on how the life styles and chemical ingenuity of microorganisms drive key biogeochemical processes including weathering and transformations of carbon, oxygen, sulfur, iron and nitrogen. Towards this goal, major geologic and evolutionary events will be examined through the lens of microbial diversity, metabolic energetics, microbe-mineral interactions, and molecular biomarkers.

**Requisites:** Requires prerequisite courses of CHEM 1113 and CHEM 1114 or CHEM 1400 and CHEM 1401 (minimum grade D-).

**Recommended:** Prerequisites GEOL 1180 or MCDB 1150 or GEOL 3320 or EBIO 3400 or ENVS 4160 or EVEN 4484.

**Grading Basis:** Letter Grade

**ENVS 4201 (3) Biometeorology**

Introduces this interdisciplinary science, studying the interactions between atmospheric processes and living organisms (plants, animals, and humans). Discusses how organisms adapt to a changing environment. Uses a practical, problem-solving approach to explore these interactions.

**Equivalent - Duplicate Degree Credit Not Granted:** GEOG 4201

**Requisites:** Requires a prereq course of GEOG 1001 and APPM1340 and 1345 or APPM1350 or ECON1088 or MATH1081 or 1300 or 1310 or 2510 or ANTH4000 or APPM4570 or BCOR1020 or ECON3818 or GEOG3023 or GEOL3023 or PSCI2075 or PSYC3101 or SOCY2061 or 4061 (min grade D-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**ENVS 4340 (4) Conservation Biology and Practice in Brazil's Atlantic Forest**

Field Studies. Examines the application of conservation principles in the Atlantic Forest of Brazil, a 'biodiversity-in-crisis' setting. Explores successful conservation strategies integrated with efforts to alleviate socioeconomic issues. Three-week Maymester, Study Abroad Global Seminar.

**Equivalent - Duplicate Degree Credit Not Granted:** ENVS 5340, EBIO 4340 and EBIO 5340

**Recommended:** Prerequisites EBIO 2040 or ENVS 2000 or 2000/higher-level course in ANTH, EBIO, ENVS, EVEN, GEOG, IAFS or other discipline related to ecology or sustainability.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences  
Arts Sci Gen Ed: Distribution-Natural Sci Lab

**ENVS 4795 (3) Field Methods in Zoology and Botany**

Class covers research and field methods for biological disciplines associated with natural history museums: vertebrates, invertebrates and plants. Emphasis is on field research techniques: observations, sampling, collection and preservation methods and comparisons among elevation zones. Includes 5 field labs, 2 weekend trips, 5 lab practica, experience with several taxonomic experts and individual research projects.

**Equivalent - Duplicate Degree Credit Not Granted:** MUSM 4795 and MUSM 5795

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences  
Arts Sci Gen Ed: Distribution-Natural Sci Lab

**ENVS 4800 (3) Capstone: Critical Thinking in Environmental Studies**

Examines a specific environmental topic in depth, synthesizing information from complex and controversial issues. Different course sections present different topics. Fulfills capstone requirement for Environmental Studies major.

**Requisites:** Restricted to students with at least 87 credits. Restricted to Environmental Studies (ENVS) majors only.

**Recommended:** Prerequisites ENVS 1000 and ENVS 3020.

**ENVS 4840 (1-6) Independent Study**

Students work with an approved faculty sponsor to explore a topic in greater depth and to pursue an interest that is not offered in the formal curriculum.

**Repeatable:** Repeatable for up to 8.00 total credit hours.

**Recommended:** Prerequisite ENVS 1000.

**ENVS 4990 (3) Senior Thesis**

Supervised project involving original research. Thesis proposal must be accepted by honors chairman. Open only to Environmental Studies majors with at least a 3.30 GPA. Fulfills capstone requirement in Environmental Studies major.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires prerequisite course of ENVS 1000 (minimum grade D-). Restricted to students with 57-180 credits (Junior or Senior) Environmental Studies (ENVS) majors only.

**Recommended:** Prerequisite ENVS 3020.

## Environmental Studies - Bachelor of Arts (BA)

The Environmental Studies Program (ENVS) is an interdisciplinary program that combines and integrates different types of knowledge to address the complex environmental, resource, and sustainability challenges in coupled human environment systems. This is accomplished by addressing the grand challenges related to sustaining the planet and its people. How do we meet the needs of a growing human population while sustaining our life support systems—climate, air and water systems, natural resources, species assemblages, and ecosystems on land and in the oceans? How do we increase the well-being of those at risk of global environmental change in an unequal world while not compromising future generations? Our research expertise include food systems; dimensions of global change; conservation biology, restoration ecology; ecosystem biogeochemistry; environmental governance, science and policy interactions; environmental inequality, and climate justice; environmental ethics; sustainable livelihoods; and behavioral dimensions of climate change mitigation and adaptation.

Undergraduate students acquire an awareness of the complexity of factors relating to human interaction with the environment. They become acutely aware that environmental problems have both human and biophysical components, and gain knowledge of the general principles of human-environmental interactions, global habitability, environmental change and sustainable societies. The ENVS majors includes introductory coursework in natural sciences, economics and mathematics; intermediate coursework in policy, ethics, economics and writing; and advanced coursework offered by several departments and programs across CU Boulder.

## Requirements

Students must complete:

- the general requirements of the College of Arts and Sciences;
- foundational courses in sciences, policy, ethics, economics, writing and math;
- 12 credit hours of upper-division coursework to specialize in an area of interest;
- an internship or field course;
- a cornerstone course; and
- a capstone course.

## Required Courses and Credits

Code	Title	Credit Hours
<b>Introductory Sequence in Environmental Studies</b>		
ENVS 1000	Introduction to Environmental Studies	4
ENVS 1001	Introduction to Developing Environmental Solutions	4
<b>Introductory Sequence in Biology or Earth Science</b>		
Choose one sequence from the following:		7-8
EBIO 1210 & EBIO 1230 & EBIO 1220 & EBIO 1240	General Biology 1 and General Biology Laboratory 1 and General Biology 2 and General Biology Laboratory 2	
ATOC 1050 & ATOC 1070 & ATOC 1060	Weather and the Atmosphere and Weather and the Atmosphere Laboratory and Our Changing Environment: El Nino, Ozone, and Climate	
GEOG 1001 & GEOG 1011	Environmental Systems: Climate and Vegetation and Environmental Systems: Landscapes and Water	
GEOL 1010 & GEOL 1030 & GEOL 1020	Exploring Earth and Introduction to Geology Laboratory 1 and Dodos, Dinos, and Deinococcus: The History of a Habitable Planet (or another approved GEOL sequence)	
<b>Introductory Course in Chemistry or Physics</b>		
Choose one course (and the lab, if required) from the following:		3-5
CHEM 1011	Environmental Chemistry 1	
CHEM 1113 & CHEM 1114	General Chemistry 1 and Laboratory in General Chemistry 1	
PHYS 1110	General Physics 1 (calculus based)	
PHYS 2010	General Physics 1 (algebra based)	
<b>Intermediate Natural Science Requirement</b>		
Choose one course (and the lab, if required) from the following:		3-4
ENVS 2000	Applied Ecology for Environmental Studies	
ENVS/CVEN 3434	Introduction to Applied Ecology	
ENVS/ ATOC 3600/ GEOG 3601	Principles of Climate	
EBIO 2040	Principles of Ecology	
GEOG 3511	Introduction to Hydrology	
GEOL 2001	Planet Earth	

GEOL 2005	Introduction to Earth Materials	
<b>Intermediate Policy Requirement</b>		
Choose one course from the following:		3
PSCI 2106	Introduction to Public Policy Analysis	
PSCI 2116	Introduction to Environmental Policy and Policy Analysis	
PSCI 3206	The Environment and Public Policy	
<b>Intermediate Social Science Requirement</b>		
Choose one course from the following:		3-4
ENVS/GEOG 3022	Climate Politics and Policy	
ENVS 3030	Topics in Environmental Social Sciences	
ENVS 3031	Environmental Psychology	
ENVS 3032	Environment, Media and Society	
<b>Economics Requirements</b>		
ECON 2010	Principles of Microeconomics	4
ECON 3535	Natural Resource Economics	3
or ECON 3545	Environmental Economics	
<b>Ethics Requirement</b>		
Choose one course from the following:		3
ENVS/PHIL 3140	Environmental Ethics	
ENVS 3064/ PSCI 3061	Environmental Political Theory	
<b>Statistics/Calculus Requirement</b>		
Choose one course from the following (not all courses fulfill the Gen. Ed. QRMS requirement):		3-5
EBIO 1010	Introduction to Quantitative Thinking for Biologists	
EBIO 4410	Biological Statistics	
GEOG/GEOL 3023	Statistics and Geographic Data	
MATH 2510	Introduction to Statistics	
PSCI 2075	Quantitative Research Methods	
PSYC 2111	Psychological Science I: Statistics	
SOCY 2061	Introduction to Social Statistics	
MATH 1300	Calculus 1	
MATH 1310	Calculus for Life Sciences	
APPM 1350	Calculus 1 for Engineers	
<b>Writing Requirement</b>		
ENVS 3020	Advanced Writing in Environmental Studies	3
<b>Application Requirement (An Internship or Field Course)</b>		
Choose one course from the following:		2-6
ENVS 2100	Topics in Applied Environmental Studies	
ENVS 3100	Topics in Applied Environmental Studies	
ENVS 3103	Applied Environmental Studies: Mining in Four Corners	
ENVS 3173	Creative Climate Communication	
ENVS 3640	Data Analysis for Global Environmental Affairs	
ENVS 3930	Internship	
ENVS 4050	Field Methods in Ecosystem Science	
ENVS 4340	Conservation Biology and Practice in Brazil's Atlantic Forest	

ENVS 4795	Field Methods in Zoology and Botany	
ARTS 4444	Art and Rural Environments Field School	
CVEN 3434	Introduction to Applied Ecology	
EBIO 4090	Coral Reef Ecology	
EBIO 4100	Advanced Ecology	
EDUC 4833	Teaching and Learning Earth Systems	
EVEN 4100	Environmental Sampling and Analysis	
GEOL 2700	Introduction to Field Geology	

**Cornerstone Requirement**

Choose one course from the following: 3

ENVS/GEOL 3520	Energy and Climate Change: An Interdisciplinary Approach	
ENVS 3525	Intermediate Environmental Problem Analysis: Topical Cornerstones	
ENVS 3621	Energy Policy and Society	

**Capstone Requirement**

Choose one course from the following: 3

ENVS 3800	The Art of Research: The Essential Elements of Research in Environmental Studies	
ENVS 4800	Capstone: Critical Thinking in Environmental Studies	
ENVS 4990	Senior Thesis	
ENST 4150	Energy Policy Project	

**Specialization Requirement**

Complete a minimum of 12 credits. Upper-division courses that fulfill the Intermediate Natural Science, Intermediate Social Science, Policy, Application, Cornerstone and Capstone requirements may apply toward the specialization requirement if those areas are already fulfilled with another course. No course may apply to two areas in the ENVS major. 12

Total Credit Hours 63-74

Approved courses that fulfill the major requirements are listed on the program's Curriculum (<http://www.colorado.edu/envs/undergraduate-students/curriculum>) webpage. To explore suggested focus areas and learn how to select courses that align with specific interests, visit the ENVS Guidance Documents (<http://www.colorado.edu/envs/undergraduate-students/curriculum/guidance-documents>) webpage.

## Four-Year Plan of Study

Through the required coursework for the major, students will complete all 12 credits of both the Social Sciences and the Natural Sciences, including the lab, areas of the Gen Ed Distribution Requirement as well 3 credits of the Arts and Humanities part of this requirement and potentially the QRMS component of the Gen Ed Skills Requirement.

Course	Title	Credit Hours
<b>Year One</b>		
<b>Fall Semester</b>		
ENVS 1000	Introduction to Environmental Studies ((partially fulfills Gen. Ed. Distribution: Natural Sciences))	4

ENVS 1150	First-Year Writing in Energy, Environment and Sustainability (fulfills Gen. Ed. Skills course: Lower-division Written Communication)	3
One mathematics course in preparation for statistics or calculus. (may fulfill Gen. Ed. Skills: QRMS)		3-4
Elective or MAPS		3
Elective or MAPS		3
Credit Hours		16-17

**Spring Semester**

ENVS 1001	Introduction to Developing Environmental Solutions ((partially fulfills Gen. Ed. Distribution: Natural Sciences))	4
Statistics/Calculus requirement (may fulfill Gen. Ed. Skills: QRMS)		3-5
Elective or MAPS		3
Elective or MAPS		3
Credit Hours		13-15

**Year Two****Fall Semester**

Introductory biology or earth science, with Lab - first course - partially fulfills Gen. Ed. Distribution: Natural Sciences and Gen. Ed. Distribution: Natural Sciences with Lab		3-4
Intermediate Policy requirement - may partially fulfill Gen. Ed. Distribution: Social Sciences		3
Gen. Ed. Distribution/Diversity course (example: Arts & Humanities/Global Perspective)		3
Elective		3
Elective		3
Credit Hours		15-16

**Spring Semester**

Introductory biology or earth science - second course		3-4
ECON 2010	Principles of Microeconomics (Economics requirement - first course - partially fulfills Gen. Ed. Distribution: Social Sciences)	4
Introductory course in chemistry or physics, and lab if required - may partially fulfill Gen. Ed. Distribution: Natural Sciences		3-5
Elective(s) or Upper-division Elective(s) (if needed)		6-3
Credit Hours		16

**Year Three****Fall Semester**

Intermediate natural science requirement		3-4
ENVS 3020	Advanced Writing in Environmental Studies (ENVS Writing requirement - fulfills Gen. Ed. Skills: Upper-division written communication)	3
ECON 3535 or ECON 3545	Natural Resource Economics (ENVS Economics requirement - second course - partially fulfills Gen. Ed. Distribution: Social Sciences) or Environmental Economics	3
ENVS Ethics requirement - may partially fulfill Gen. Ed. Distribution: Arts & Humanities		3
Elective or Upper-division Elective (if needed)		3
Credit Hours		15-16

**Spring Semester**

ENVS Cornerstone requirement	3
ENVS Application requirement	2-6
ENVS Intermediate Social Science requirement - may partially fulfill Gen. Ed. Distribution: Social Sciences	3-4
ENVS Specialization course	3
Elective or Upper-division Elective (if needed)	3-0
<b>Credit Hours</b>	<b>14-16</b>

**Year Four****Fall Semester**

ENVS Capstone	3
ENVS Specialization course	3
ENVS Specialization course	4-3
Gen. Ed. Distribution course (example: Arts & Humanities)	3
Elective or Upper-division Elective (if needed)	3
<b>Credit Hours</b>	<b>16-15</b>

**Spring Semester**

ENVS Specialization course	3
Gen. Ed. Distribution/Diversity course (example: Arts & Humanities/US Perspective)	3
Elective or Upper-division Elective (if needed)	3
Elective or Upper-division Elective (if needed)	3
Elective or Upper-division Elective (if needed)	3
<b>Credit Hours</b>	<b>15</b>
<b>Total Credit Hours</b>	<b>120-126</b>

## Ethnic Studies

The field of ethnic studies was born of, and is dedicated to, the struggles for social justice for all people. The Department of Ethnic Studies at CU Boulder draws on this tradition of engaged scholarship to examine how race and the interrelated categories of ethnicity, gender, class and sexuality impact the lives of people in the United States and around the globe.

Our interdisciplinary department offers an undergraduate major and minor in ethnic studies. Faculty members engage in a wide variety of research on the cultures, histories, epistemologies, and experiences in African American, Asian American, Chicana and Chicano, and Native American/indigenous peoples in the U.S. and beyond. Their research and teaching address these topics through critical, transnational, queer, decolonial and comparative perspectives.

**Course code for this program is ETHN.**

## Study Abroad

The Department of Ethnic Studies encourages students to participate in the study abroad programs offered through the Education Abroad office. These programs give students a deeper understanding of culture and attitudes of people of color in other parts of the world and their carryover into the United States. CU-Boulder partners with several study abroad organizations that offer summer, semester and full year programs in many locations around the world, most notably in Africa, Asia and Latin America. Programs of special interest include study abroad in Australia, Bolivia, Cuba, Dominican Republic, Ecuador, Ghana, Japan, Mexico, Morocco, Peru, South Africa, Spain and Taiwan.

For additional information, contact the Education Abroad office. Students should always consult with their academic advisor prior to choosing their study abroad program.

## Bachelor's Degree

- Ethnic Studies - Bachelor of Arts (BA) (p. 277)

## Minor

- Ethnic Studies - Minor (p. 279)

## Faculty

While many faculty teach both undergraduate and graduate students, some instruct students at the undergraduate level only. For more information, contact the faculty member's home department.

## Courses

### ETHN 1022 (3) Introduction to Africana Studies

Overview of Africana studies as a field of investigation, its origins and history.

**Additional Information:** Arts Sci Core Curr: Human Diversity

Arts Sci Gen Ed: Distribution-Social Sciences

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Diversity-Global Perspective

Departmental Category: Africana Studies

### ETHN 1023 (3) Introduction to Native American and Indigenous Studies

Introduces critical terms, issues, and questions that inform the discipline of American Indian Studies. Examines "historical silences" and highlights how American Indian scholars, poets, and filmmakers use their work to address/redress historical subjects, and represent their Native communities.

**Additional Information:** Arts Sci Core Curr: Human Diversity

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Distribution-Social Sciences

Arts Sci Gen Ed: Diversity-U.S. Perspective

Departmental Category: American Indian Studies

### ETHN 1025 (3) Introduction to Asian American Studies

Examines the various factors that define minority groups and their positions in American society using Asian Americans as a case study. Emphasizes the perspectives and methodologies of the discipline of ethnic studies.

**Additional Information:** Arts Sci Core Curr: Human Diversity

Arts Sci Core Curr: Contemporary Societies

Arts Sci Gen Ed: Distribution-Social Sciences

Arts Sci Gen Ed: Diversity-U.S. Perspective

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Asian American Studies

### ETHN 2001 (3) Foundations of Comparative Ethnic Studies: Race, Gender and Culture(s)

Introduction to the study of race, ethnicity and gender in the United States. Overview of concepts, theories and analytic frames that shape the interdisciplinary field of Ethnic Studies. Focuses on historic, institutional, legal and cultural issues that impact African-Americans, Asian-Americans, Chicanas and Chicanos, European Americans, Native Americans and Indigenous peoples in the U.S.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Crosscultural/Comparative Studies

### ETHN 2004 (3) Themes in American Culture 1

Enables students to explore various themes in pre-1865 American culture. Examines these themes, which vary each year, in their social context.

**Additional Information:** Arts Sci Core Curr: United States Context

Arts Sci Gen Ed: Distribution-Social Sciences

Departmental Category: American Studies

### ETHN 2013 (3) Critical Issues in Native North America

Explores a series of issues including regulations of population, land and resource holdings, water rights, education, religious freedom, military obligations, the sociopolitical role of men and women, self-governance, and legal standing as these pertain to American Indian life.

**Additional Information:** Arts Sci Core Curr: Human Diversity

Arts Sci Core Curr: United States Context

Arts Sci Gen Ed: Diversity-U.S. Perspective

Arts Sci Gen Ed: Distribution-Social Sciences

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: American Indian Studies

### ETHN 2014 (3) Themes in American Culture 2

Enables students to explore various themes in post-1865 American culture. Examines these themes, which vary each year, in their social context.

**Additional Information:** Arts Sci Core Curr: United States Context

Arts Sci Gen Ed: Distribution-Social Sciences

Departmental Category: American Studies

### ETHN 2044 (3) Crime and Society

Explores issues related to crime, the criminal justice system, and crime-related public policy. It addresses what we know about crime and how we know it, how our society responds to crime, how the institutions designed to address crime (police, courts, corrections) function, and diversity in experiences with the criminal justice system.

**Equivalent - Duplicate Degree Credit Not Granted:** SOCY 2044

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

Departmental Category: Crosscultural/Comparative Studies

### ETHN 2203 (3) American Indians in Film

Examines images of American Indians in films produced by, and about, Native peoples. Follows the creation of "the Hollywood Indian" from still-photography to contemporary motion pictures. Films are analyzed within historical, social, and artistic contexts, and examined in terms of the impact their images have exerted upon American society at large and Native communities in particular.

**Equivalent - Duplicate Degree Credit Not Granted:** CINE 2203

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: American Indian Studies

### ETHN 2215 (3) The Japanese American Experience

Surveys the Japanese American experience, emphasizing post-WWII developments. Gives attention to intragroup diversity having to do with generation, ethnicity, ecology, and gender.

**Additional Information:** Arts Sci Core Curr: Human Diversity

Arts Sci Gen Ed: Distribution-Social Sciences

Arts Sci Gen Ed: Diversity-U.S. Perspective

Departmental Category: Asian American Studies

### ETHN 2232 (3) Contemporary African American Social Movements

Examines selected case studies of African American collective behavior in a historical context. Emphasizes an in-depth investigation of the continuing African American struggle for social/democratic rights.

**Additional Information:** Arts Sci Core Curr: Human Diversity

Arts Sci Core Curr: Contemporary Societies

Arts Sci Gen Ed: Distribution-Social Sciences

Arts Sci Gen Ed: Diversity-U.S. Perspective

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Africana Studies

### ETHN 2242 (3) African American Social and Political Thought

Introductory course designed to acquaint students with historical and contemporary thinking, writings, and speeches of African Americans.

**Additional Information:** GT Pathways: GT-SS3 -Soc Behav Sci:Hmn Behav, Cult, Soc Frame

Arts Sci Core Curr: Human Diversity

Arts Sci Core Curr: Contemporary Societies

Arts Sci Gen Ed: Distribution-Social Sciences

Arts Sci Gen Ed: Diversity-U.S. Perspective

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Africana Studies

**ETHN 2304 (3-4) Introduction to Social Justice**

Provides undergraduate students with an understanding of how social systems, primarily the educational and health care systems, are key to understanding injustices and criminalization. Topics covered will include trauma and victimization, food and housing justice, educational justice, physical and mental health justice, mass incarceration, #BlackLivesMatter and restorative justice.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: American Studies

**ETHN 2432 (3) African American History**

Surveys African American history. Studies, interprets and analyzes major problems, issues and trends affecting African Americans from about 1600 to the present.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 2437

**Additional Information:** Arts Sci Core Curr: Human Diversity

Arts Sci Core Curr: United States Context

Arts Sci Gen Ed: Diversity-U.S. Perspective

Arts Sci Gen Ed: Distribution-Social Sciences

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Africana Studies

**ETHN 2500 (3) Race, Ethnicity, and Language**

Explores the relationship between race, ethnicity, and language and how they are co-constructed. How do speakers of different racial and ethnic groups use language differently, and what are the social implications of these different language varieties? We discuss the implications of ethnolinguistic variation on racial stereotypes, education, and the law.

**Equivalent - Duplicate Degree Credit Not Granted:** LING 2500

**Recommended:** Prerequisite LING 1000.

**Additional Information:** Arts Sci Gen Ed: Diversity-U.S. Perspective

**ETHN 2536 (3) Survey of Chicana/o History and Culture**

Through historical and social scientific studies, novels, autobiographies, testimonies, films, music, and art, this course will provide students a survey of Chicana/o history and culture. Historical overviews of Chicana/o peoples from Mesoamerica; the Spanish Conquest; the historical presence of Chicana/o peoples in the Southwest; the rise of the Chicana/o student and community movements; immigration issues; and the gender, sexuality, and criminalization issues.

Arts Sci Gen Ed: Distribution-Social Sciences

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Chicana/o Studies

**ETHN 2546 (3) Chicana and Chicano Fine Arts and Humanities**

Provides foundation for study of Chicano literature, music, the plastic arts, theatre and film. Also introduces aesthetic and critical concepts and their applications in Chicana and Chicano studies.

**Additional Information:** Arts Sci Core Curr: Human Diversity

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Diversity-U.S. Perspective

Departmental Category: Chicana/o Studies

**ETHN 2703 (3) American Indian Religious Traditions**

Introduces religions of the peoples indigenous to the Americas. Concerns include ritual, mythology and symbolism occurring throughout these cultures in such areas as art, architecture, cosmology, shamanism, sustenance modes, trade and history.

**Equivalent - Duplicate Degree Credit Not Granted:** RLST 2700

**Additional Information:** Arts Sci Core Curr: Human Diversity

Arts Sci Core Curr: Ideals and Values

Arts Sci Gen Ed: Diversity-U.S. Perspective

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: American Indian Studies

**ETHN 2713 (3) American Indian Literature**

Surveys historical and contemporary North American Native American literature. Examines the continuity and incorporation of traditional stories and values in Native Literature, including novels, short stories and poetry.

**Equivalent - Duplicate Degree Credit Not Granted:** ENGL 2717

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: American Indian Studies

**ETHN 2732 (3) Survey of African American Literature 2**

Surveys African American literature from the Deprssion to the present.

**Equivalent - Duplicate Degree Credit Not Granted:** ENGL 2737

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Africana Studies

**ETHN 2746 (3) Chicana/Chicano and Mexican Literature**

Introduces Chicana and Chicano and Mexican literary studies, focusing on narrative works by Chicana and Chicano writers. Examines diverse range of Mexican writing in Greater Mexico as it addresses recurring issues and themes, including language, race and class, questions of identity and gender relations.

**Equivalent - Duplicate Degree Credit Not Granted:** ENGL 2747

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Chicana/o Studies

**ETHN 2761 (3) Survey of Post-Colonial Literature**

Surveys the development of literatures in English in former British colonies. Topics include the spread and adaptation of English language literary forms in Asia, Africa, the Caribbean, and the far new world (Australia and New Zealand). Students learn the causes of the dispersion and the motivations for the clearly different uses of English literary forms in the ex-colonies.

Arts Sci Gen Ed: Diversity-Global Perspective

Departmental Category: Crosscultural/Comparative Studies

**ETHN 3015 (3) Asian Pacific American Communities**

Covers the concepts, methods, and theories commonly used in community research, as well as substantive information on selected Asian/Pacific American communities. Emphasizes the ethical/political dimensions of community studies.

**Recommended:** Prerequisite ETHN 1025 or ETHN 2001.

**Additional Information:** Arts Sci Core Curr: Contemporary Societies

Arts Sci Core Curr: United States Context

Arts Sci Gen Ed: Distribution-Social Sciences

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Asian American Studies

**ETHN 3024 (3) Introduction to Critical Sports Studies**

Learn to think in an informed and critical way about sports in society. Examine the socio-cultural significance of sports as it relates to topics such as youth, social class, race/ethnicity, gender, identity, and intercollegiate athletics. Readings, class discussions, videos, and guest speakers will help expand our understanding of this important social phenomenon.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Crosscultural/Comparative Studies

**ETHN 3026 (3) Women of Color: Chicanas in U.S. Society**

Critically explores the Chicana experience and identity. Examines issues arising from the intersection of class, race, and gender. Focuses on controversies surrounding culture and gender through an analysis of feminism and feminismo.

**Recommended:** Prerequisite ETHN 2001 or ETHN 2536.  
**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Chicana/o Studies

**ETHN 3044 (3) Race, Class, Gender, and Crime**

Overview of race, class, gender and ethnicity issues in offending, victimization and processing by the justice system. Examines women and people of color employed in the justice system.

**Equivalent - Duplicate Degree Credit Not Granted:** SOCY 3044 and WGST 3044

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisite ETHN 2001.  
**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Crosscultural/Comparative Studies

**ETHN 3101 (3) Selected Topics in Ethnic Studies**

Intensive examination of a particular topic, theme, issue, or problem in ethnic studies as chosen by the instructor.

**Repeatable:** Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.

**Recommended:** Prerequisite ETHN 2001.  
**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Crosscultural/Comparative Studies

**ETHN 3102 (3) Selected Topics in African American Studies**

Intensive examination of a particular topic, theme, issue, or problem concerning the African American presence, as chosen by the instructor. Sample offerings could include African American Pop Culture, the Civil Rights Movement, or other African American issues.

**Repeatable:** Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.

**Recommended:** Prerequisite ETHN 1022 or ETHN 2001.  
**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Africana Studies

**ETHN 3103 (3) Selected Topics in American Indian Studies**

Examines a particular topic, theme, issue, or problem in American Indian Studies.

**Repeatable:** Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.

**Recommended:** Prerequisite ETHN 2001 or ETHN 2203.  
**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: American Indian Studies

**ETHN 3104 (3) Selected Topics in American Studies**

Critically examines American identity and experiences, past and present, focusing on ethnicity, gender, popular culture, and political culture.

**Repeatable:** Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.

**Recommended:** Prerequisite ETHN 2001.  
**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: American Studies

**ETHN 3105 (3) Selected Topics in Asian American Studies**

Intensive examination of a topic or issue affecting Asian Americans, such as the Japanese American internment during World War II, or Asian American social movements or community organizations.

**Repeatable:** Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.

**Recommended:** Prerequisite ETHN 1025 or ETHN 2001.  
**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Asian American Studies

**ETHN 3106 (3-6) Selected Topics in Chicana and Chicano Studies**

Intensive examination of a particular topic, theme, issue, or problem in Chicana and Chicano studies as chosen by the instructor.

**Repeatable:** Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.

**Recommended:** Prerequisite ETHN 2001 or ETHN 2536.  
**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Chicana/o Studies

**ETHN 3136 (3) Chicana Feminisms and Knowledges**

Provides insight into the present socioeconomic condition of Chicanas and the concept of feminismo through interdisciplinary study of history, sociology, literary images, and film portrayals.

**Equivalent - Duplicate Degree Credit Not Granted:** WGST 3135  
**Recommended:** Prerequisite ETHN 2001 or ETHN 2536.

**Additional Information:** Arts Sci Core Curr: Human Diversity  
Arts Sci Gen Ed: Distribution-Social Sciences  
Arts Sci Gen Ed: Diversity-U.S. Perspective  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Chicana/o Studies

**ETHN 3201 (3-4) Multicultural Leadership: Theories, Principles and Practices**

Focuses on leadership theories and skills necessary for effectiveness in multicultural settings. Students gain understanding of traditional and culturally diverse approaches to leadership and change through comparative analyses of western and non-western theories and practices. Community service required.

**Equivalent - Duplicate Degree Credit Not Granted:** INVS 3100  
**Recommended:** Prerequisite ETHN 2001.

**Additional Information:** Arts Sci Core Curr: Human Diversity  
Arts Sci Gen Ed: Diversity-U.S. Perspective  
Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Crosscultural/Comparative Studies

**ETHN 3212 (3) Introduction to Hip Hop Studies**

Examines critical questions posed by hip hop culture. Accentuated in this course are hip hop's contributions to the political-economic, philosophical, and sociological study of race, racism, sexism and sexuality. Examines the ways in which hip hop, as a new social phenomenon, cultural force and aesthetic form, have influenced contemporary American and global culture.

**Recommended:** Prerequisite ETHN 1022 or ETHN 2001.  
**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Africana Studies

**ETHN 3213 (3) American Indian Women**

Explores the experiences, perspectives, and status of American Indian women in historical and contemporary contexts. Examines representations of Indigenous women in mainstream culture. Emphasizes the agency of American Indian women—their persistence, creativity, and activism, especially in maintaining Indigenous traditions.

**Equivalent - Duplicate Degree Credit Not Granted:** WGST 3210

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite ETHN 1023 or ETHN 2001 or WGST 2000 or WGST 2600.

**Additional Information:** Arts Sci Core Curr: Human Diversity

Arts Sci Gen Ed: Distribution-Social Sciences

Arts Sci Gen Ed: Diversity-U.S. Perspective

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: American Indian Studies

**ETHN 3252 (3) African American Urban History**

Fosters a better understanding and appreciation of the role African Americans have played in the evolution and shaping of urban America. Employs techniques of urban studies to more effectively assess the many dimensions, subtleties, and insensitivities of life in the city. S. and Afro-American history.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisite ETHN 1022 or ETHN 2001 and a working knowledge of U.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

Departmental Category: Africana Studies

**ETHN 3301 (3) Elements of Religion**

Explores universal components of religion, as inferred from religions of the world, ranging from smaller-scale oral to larger-scale literate traditions.

**Equivalent - Duplicate Degree Credit Not Granted:** ANTH 3300

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

Departmental Category: Crosscultural/Comparative Studies

**ETHN 3314 (3) Violence Against Women and Girls**

Focuses on aspects of the victimization of women and girls that are "Gendered" - namely, sexual abuse and intimate partner abuse. Also explores the importance of race, class, and sexuality in gendered violence.

**Equivalent - Duplicate Degree Credit Not Granted:** SOCY 3314 and WGST 3314

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

Departmental Category: Crosscultural/Comparative Studies

**ETHN 3403 (3) Indigenous Rights and Red Power Movement**

Deals with historical events involving conflicts between the U.S. government and American Indians. Examples include the role of the FBI in the Pine Ridge Sioux Reservation (1972-76) or the 1864 massacre of the Cheyenne and Arapaho Indians in Colorado territory. Additional courses may relate to tribal governments.

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisite ETHN 1023 or ETHN 2001.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

Departmental Category: American Indian Studies

**ETHN 3501 (3) Theory/Methods/Writing in Ethnic Studies**

Preparation for empirical inquiry in Ethnic Studies. Emphasizes philosophy of social science and cultural studies. Students engage rigorous, theoretical concepts to understand research methods. Prepares students for writing a lengthy, cogent research paper.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) Ethnic Studies (ETHN) majors only.

**Recommended:** Prerequisite ETHN 2001.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Crosscultural/Comparative Studies

**ETHN 3575 (3) Japanese American Internment: Critical Thinking in Sociocultural Diversity**

Offers a historical overview of the Japanese American experience in the United States. Introduces and explores fundamental issues inherent in the study of human beings from the perspective of cultural social difference.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisite ETHN 1025 or ETHN 2001.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Asian American Studies

**ETHN 3671 (3) People of Color and Social Movements**

People of color the world over are struggling for sovereignty, independence, civil and human rights, food security, decent wages and working conditions, healthy housing, and freedom from environmental racism and other forms of imperialism. Course analyzes and brings alive these struggles.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Core Curr: Human Diversity

Arts Sci Gen Ed: Diversity-U.S. Perspective

Arts Sci Gen Ed: Distribution-Social Sciences

Departmental Category: Crosscultural/Comparative Studies

**ETHN 3692 (3) African Am Music: Fr Spirituals and the Blues to Rap/Hip Hop Soul**

Offers an overview of the origins and evolution of African American music. Guides students through the musical history, as well as the social, political and cultural history, of the spirituals, blues, ragtime, jazz, gospel, freedom songs, rhythm and blues, rock and roll, soul, funk, disco, techno, house, rap and hip hop soul.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisites ETHN 1022 and ETHN 2001 and

ETHN 3212.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Africana Studies

**ETHN 3701 (3) Gender, Sport and Culture**

Critically examines the experiences of girls and women in American sport from a psycho-socio-cultural perspective with a particular emphasis on the constructs of gender, race, class and sexuality and how these constructs both independently and collectively mediate the female sport experience. Explores theories and interpretive frameworks from sport studies, feminist studies, race studies, psychology and cultural studies.

**Recommended:** Prerequisite ETHN 3024.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

Departmental Category: Crosscultural/Comparative Studies

**ETHN 3702 (3) African American Sport Experience**

Provides a socio-cultural and historical overview of the contributions of African Americans (men and women) to sport in America. Focus is on the macro (patterns of behavior related to large-scale social structures and processes) and micro (behaviors we observe in society, often readily observable in the context of sport and exercise) level of sport analysis.

**Recommended:** Prerequisite ETHN 3024.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Africana Studies

**ETHN 3704 (3) Athlete as a National Symbol: Nationhood/Nationalism, Sport**

Explores the nationalistic terrain of US sport as a way to understand how athletes became a symbol of nationhood and how they are influenced by, and themselves influence, other aspects of US society and culture. Using historical and contemporary examples, this course examines how race, gender, sexuality, economics and the media constructed the nationalistic world of sports today.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Crosscultural/Comparative Studies

**ETHN 3841 (1-6) Undergraduate Independent Study**

Consult the Department of Ethnic Studies for information. Instructor consent required.

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Recommended:** Prerequisite ETHN 2001.

**Additional Information:** Departmental Category: Crosscultural/  
Comparative Studies

**ETHN 4001 (3) Screening Race, Class & Gender in the U.S. and the Global Borderland**

Engaging with the ways in which racial, class, gender and sexual oppression intersect, this class examines several film productions by and about diasporic and subaltern subjects (especially children and women) in the U.S./Mexico borderlands, and the urban ethnic metropolises of the global borderlands.

**Equivalent - Duplicate Degree Credit Not Granted:** CINE 4001 and ETHN 5001

**Requisites:** Requires a prerequisite course of ETHN 2001 (minimum grade D-). Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Crosscultural/Comparative Studies

**ETHN 4006 (3) Chicana/Chicano Native American Cultures of the U.S.**

Theoretically engaged seminar considers intersections of Chicana/o and Native American studies to shape our scholarly understanding of the U.S. and Mexico borderlands. Ethnographies, historical studies, novels, film, and music will be used to understand the processes of Spanish and Euro-American colonization, neocolonialism, identity formation, gender, syncretism, and mestizaje.

**Requisites:** Requires a prerequisite course of ETHN 2001 or ETHN 2536 (minimum grade D-). Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Chicana/o Studies

**ETHN 4084 (3) Punishment, Law and Society**

Places the current state of punishment in the U.S. in historical and cross national context. Examines key features of penal systems and key sociological theories about the relationship between punishment and society. Department enforced prerequisite: SOCY 1001 or SOCY 1004.

**Equivalent - Duplicate Degree Credit Not Granted:** SOCY 4084

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Crosscultural/Comparative Studies

**ETHN 4102 (3) Special Topics in Africana Studies**

Variable topic that allows intensive coverage of a subject, theme, or issue in African American studies.

**Equivalent - Duplicate Degree Credit Not Granted:** ETHN 5102

**Repeatable:** Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Requires a prerequisite course of ETHN 1022 or ETHN 2001 (minimum grade D-). Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Africana Studies

**ETHN 4106 (3) Special Topics in Chicana and Chicano Studies**

Examines a particular topic, theme, issue or problem concerning Chicana and Chicano studies.

**Equivalent - Duplicate Degree Credit Not Granted:** ETHN 4106

**Repeatable:** Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Requires a prerequisite course of ETHN 2001 or ETHN 2536 (minimum grade D-). Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Chicana/o Studies

**ETHN 4116 (3) Spoken Word Latinx Poetics and Poetry**

This is a writing intensive workshop in contemporary poetry writing and Chicana/o and Latina/o poetics-specifically, Nuyorican and Afro-Latino (the Nuyorican Poets Cafe). The purpose of the course is dual-fold: 1) students will be encouraged and empowered to express and develop their poetic voice; 2) students will be challenged to develop and refine their poetic craft. Examines primarily Chicana and Latino specific poetic expression that reflects the cultural mestizaje of Chicano/a and Latina/o peoples.

**Equivalent - Duplicate Degree Credit Not Granted:** ETHN 5116

**Requisites:** Requires a prerequisite course of ETHN 2001 (minimum grade D-). Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Requisite 6 credits in any ETHN class.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Chicana/o Studies

**ETHN 4213 (3) Indigenous Futurisms: Speculative Genres and Native Tomorrows**

Examines how Indigenous authors, artists and filmmakers have recently begun exploring the genres of Horror, Science Fiction and Fantasy. Considers this shift in light of past and present Native realities. Explores why this shift is happening now, how it helps communities and individuals make political statements, address/redress historical subjects and help to build better futures for us all.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: American Indian Studies

**ETHN 4232 (3) The Life and Thought of Martin Luther King Jr**

An intensive exploration and examination of the life and thought of the Rev. Dr. Martin Luther King Jr. Special emphasis on the stages of his life and their corresponding productions.

**Requisites:** Requires a prerequisite course of ETHN 1022 or ETHN 2001 (minimum grade D-). Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Africana Studies

**ETHN 4233 (3) Native American and Indigenous Environmental Issues**

Explores the unique knowledges, practices and perspectives of Native American and Indigenous peoples with regard to environmental issues, and how they both contrast with and complement dominant ways of knowing. Views central themes of Land, Plants, Animals, and Air/Water through political-ecological lenses. Critically assesses historical and contemporary Indigenous environmental matters in the contexts of colonial histories and tribal sovereignty.

**Equivalent - Duplicate Degree Credit Not Granted:** ETHN 5233

**Recommended:** Prerequisite ETHN 1023 or ETHN 2013.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: American Indian Studies

**ETHN 4272 (3) W.E.B. Du Bois Seminar**

Analyzes the life and thought of W.E.B. Du Bois for its contributions to interdisciplinary and intersectional studies. Emphasis will be placed on the innovative interdisciplinary and intersectional nature of Du Bois's epistemology and research methodology, as well as his participation in radical political and social movements.

**Equivalent - Duplicate Degree Credit Not Granted:** ETHN 5272

**Requisites:** Requires a prerequisite course of ETHN 1022 or ETHN 2001 (minimum grade D-). Restricted to students with 57-180 credits (Junior or Senior) Ethnic Studies (ETHN) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Africana Studies

**ETHN 4306 (3) The Chicana and Chicano and U.S. Social Systems**

Gives special attention to ways U.S. institutions (i.e., legal, economic, educational, governmental and social agencies) affect Chicanas and Chicanos. Discusses internal colonialism, institutional racism, assimilation and acculturation, and identity.

**Equivalent - Duplicate Degree Credit Not Granted:** ETHN 5306

**Requisites:** Requires a prerequisite course of ETHN 2001 or ETHN 2536 (minimum grade D-). Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Chicana/o Studies

**ETHN 4353 (3) Indigenous Traditions and Law: A Global Perspective**

Explores intersections of indigenous religions and law through historical and contemporary case studies. American Indian and Hawaiian contexts will be featured, as well as the study of the United Nations Declaration on the Rights of Indigenous Peoples and its recent implementation in places as diverse as Bolivia, Norway and Nagaland. Theoretical issues in the academic study of religion and ethnic studies will be emphasized.

**Equivalent - Duplicate Degree Credit Not Granted:** ETHN 5353 and RLST 4353 and RLST 5353

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Crosscultural/Comparative Studies

**ETHN 4504 (3) Ethnic-American Autobiography**

Investigates the genre of autobiography in America from its inception to the present. American autobiography has been associated with the invention of national character and, thus, is a site of cultural contestation and identity formation. Its changing form crosses disciplinary lines and provides a site for discourses on ethnicity, class, gender, sexuality, age, family, religion and other American cultural conflicts.

**Requisites:** Requires a prerequisite course of ETHN 2001 (minimum grade D-). Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Core Curr: United States Context  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: American Studies

**ETHN 4552 (3) The Harlem Renaissance: Fr Black Wmn's Club Mvmnt to Hip Hop**

Offers an interdisciplinary and intersectional overview of the origins and evolution of the Harlem Renaissance. Explores classic texts, music and works of art emerging from the Harlem Renaissance and related events and movements of its epoch: the Black Women's Club Movement, New Negro Movement, Pan-African Movement, Lost Generation, Jazz Age, World War I and World War II.

**Equivalent - Duplicate Degree Credit Not Granted:** HUMN 4552 and ETHN 5552

**Requisites:** Requires prerequisite course of ETHN 1022 or ETHN 2001 or ETHN 3212 (minimum grade D-). Restricted to students with 57-180 credits (Juniors or Seniors).

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Africana Studies

**ETHN 4553 (3) Indigenous Representations in the United States**

Examines the relationship and negotiation of culture/status/place through representation(s) within and concerning Indigenous peoples/communities. Focuses on U.S. representational forms in popular experiences e.g., literature, film, media and the roots of those representations via legal and medical definitions. This investigation and analysis is supplemented with focus on gender as well as contextualization through global Indigenous portrayals.

**Equivalent - Duplicate Degree Credit Not Granted:** ETHN 5553

**Requisites:** Requires a prerequisite course of ETHN 2001 (minimum grade D-). Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisite ETHN 1023.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: American Indian Studies

**ETHN 4632 (3) Frantz Fanon Seminar**

Analyzes the life and thought of Frantz Fanon for its contributions to interdisciplinary and intersectional studies. Emphasis will be placed on the innovative interdisciplinary and intersectional nature of Fanon's psychology, sociology and philosophical anthropology, as well as his participation in African and Caribbean anti-colonial movements.

**Equivalent - Duplicate Degree Credit Not Granted:** ETHN 5632

**Requisites:** Requires a prerequisite course of ETHN 1022 or ETHN 2001 (minimum grade D-). Restricted to students with 57-180 credits (Junior or Senior) Ethnic Studies (ETHN) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Africana Studies

**ETHN 4672 (3) Seminar on the Civil Rights and Black Power Movements**

A review of the ideas, events, persons, organizations oriented to the quest for African American social justice in the decade of the sixties.

**Requisites:** Requires a prerequisite course of ETHN 1022 or ETHN 2001 (minimum grade D-). Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Africana Studies

**ETHN 4692 (3) Special Topics in Multicultural and Ethnic American Literature**

Provides advanced in-depth study of literatures written by ethnic American authors. Texts may be drawn from a range of African-American, Chicano/a, Latino/a, Asian American, Native American or Indigenous literature traditions. Topics vary each semester.

**Equivalent - Duplicate Degree Credit Not Granted:** ENGL 4697

**Requisites:** Requires a prerequisite course of ETHN 1022 or ETHN 2001 (minimum grade D-). Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-U.S. Perspective  
Departmental Category: Africana Studies

**ETHN 4714 (3) Sport for Social Justice**

Takes a look at the nuanced and controversial relationship between sport and peace. Although sport is heralded as a powerful tool for social good, drawing attention to causes such as conflict resolution, HIV prevention, environmental initiatives and improved international relationships, it also continues to reflect and reproduce social inequalities in ways commonly overlooked.

**Equivalent - Duplicate Degree Credit Not Granted:** ETHN 5714

**Requisites:** Restricted to students with 87-180 credits (Senior, Fifth Year Senior).

**Recommended:** Prerequisite ETHN 3024.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Crosscultural/Comparative Studies

**ETHN 4841 (1-6) Independent Study**

Work with an approved faculty sponsor to explore a topic in greater depth. Instructor consent required.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Recommended:** Prerequisite ETHN 2001.

**Additional Information:** Departmental Category: Crosscultural/Comparative Studies

**ETHN 4951 (3) Senior/Graduate Seminar in Ethnic Studies**

Capstone experience in Ethnic Studies. Includes an independent research project and public presentation.

**Equivalent - Duplicate Degree Credit Not Granted:** ETHN 5951

**Requisites:** Requires prerequisite courses of ETHN 2001 and ETHN 3501 (all minimum grade D-). Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Crosscultural/Comparative Studies

**ETHN 4961 (3) Honors Thesis 1**

Supervised original research project in the field of ethnic studies. The goal is to make substantial progress on a written honors thesis that will be orally defended and submitted to the Honors Program of the College of Arts and Sciences. Department enforced restriction: application and acceptance into the ETHN Honors Program.

**Requisites:** Requires a prerequisite course of ETHN 2001 (minimum grade D-). Restricted to students with 87-180 credits (Senior, Fifth Year Senior) Ethnic Studies (ETHN) majors only.

**Additional Information:** Arts Sciences Honors Course  
Departmental Category: Crosscultural/Comparative Studies

**ETHN 4971 (3) Honors Thesis 2**

Supervised original research project in the field of ethnic studies. The goal is to complete progress on a written honors thesis that will be orally defended and submitted to the Honors Program of the College of Arts and Sciences. Department enforced prerequisite: application and acceptance into the ETHN Honors Program.

**Requisites:** Requires prerequisite courses of ETHN 2001 and ETHN 4961 (all minimum grade D-). Restricted to students with 87-180 credits (Senior, Fifth Year Senior) Ethnic Studies (ETHN) majors only.

**Additional Information:** Arts Sciences Honors Course  
Departmental Category: Crosscultural/Comparative Studies

## Ethnic Studies - Bachelor of Arts (BA)

The department offers an undergraduate major and minor in ethnic studies.

The department offers courses in five areas of concentration: Africana Studies, American Indian Studies, Asian American Studies, Chicana and Chicano Studies, and Comparative Ethnic Studies. In addition, they can take classes in the area of Critical Sports Studies (<https://www.colorado.edu/ethnicstudies/undergraduate/critical-sports-studies>).

## Requirements

In addition to the general requirements of the College of Arts and Sciences, students must complete 33 credit hours of ethnic studies requirements: 12 credit hours of required ethnic studies core classes and an additional 21 credit hours in ethnic studies, 15 credit hours of which must be upper division for a total of 24 upper-division credit hours in the major (required courses mentioned below are included). The 21 credit hours in ethnic studies can be selected from the current ethnic studies course offerings; they may include courses that are cross-listed with the Department of Ethnic Studies, as listed in this catalog.

A grade of C- or better must be received in all courses used to satisfy the major requirements, with an overall average of 2.00 in the major. No more than 6 credit hours may be taken in independent study. No *pass/fail* graded courses may satisfy the 33-credit-hour minimum requirement.

## Required Courses and Credits

Code	Title	Credit Hours
<b>Required Courses</b>		
ETHN 2001	Foundations of Comparative Ethnic Studies: Race, Gender and Culture(s)	3
ETHN 3501	Theory/Methods/Writing in Ethnic Studies	3
ETHN 4951	Senior/Graduate Seminar in Ethnic Studies	3
	Select one of the following:	3

ETHN 3101	Selected Topics in Ethnic Studies
ETHN 3102	Selected Topics in African American Studies
ETHN 3103	Selected Topics in American Indian Studies
ETHN 3105	Selected Topics in Asian American Studies
ETHN 3106	Selected Topics in Chicana and Chicano Studies

**Elective Courses**

A minimum of 21 credit hours in ETHN electives, 15 credit hours of which must be upper-division courses in the major. The 21 credit hours in electives can be selected from the current ETHN course offerings; they may also include coursework from outside the department, as approved by the department's curriculum committee and advisor.

Lower or Upper-division Major Electives	6
Upper-Division Major Electives	15
<b>Total Credit Hours</b>	<b>33</b>

**Graduating in Four Years**

Consult the Four-Year Guarantee Requirements for information on eligibility. The concept of "adequate progress" as it is used here only refers to maintaining eligibility for the four-year guarantee; it is not a requirement for the major. To maintain adequate progress in ethnic studies, students should meet the following requirements:

- Declare ethnic studies as their major.
- Complete at least 12 credit hours toward the ethnic studies major requirements by the fourth semester.
- Complete at least 21 credit hours toward the ethnic studies major requirements by the end of the sixth semester.
- Complete ETHN 2001 no later than the fourth semester.
- Complete ETHN 3501 not later than the seventh semester.
- Complete at least one ethnic studies selected topics course selected from the following: ETHN 3101, ETHN 3102, ETHN 3103, ETHN 3105 or ETHN 3106 no later than the eighth semester.
- Complete ETHN 4951 no later than the eighth semester.

**Recommended Four-Year Plan of Study**

Through the required coursework for the major, students will complete at least 12 credit hours across the Arts & Humanities and Social Sciences areas of the Gen Ed Distribution Requirement, and potentially one or both of the components of the Gen Ed Diversity Requirement. (Most ETHN students will complete all of the Arts and Humanities and Social Sciences areas of the Gen Ed Distribution Requirement and the U.S. Perspective in the Gen Ed Diversity Requirement with major coursework.)

## Bachelor's–Accelerated Master's Degree Program(s)

The Bachelor's–Accelerated Master's (BAM) degree program options offer currently enrolled CU Boulder undergraduate students the opportunity to receive a bachelor's and master's degree in a shorter period of time. Students receive the bachelor's degree first, but begin taking graduate coursework as undergraduates (typically in their senior year). Because some courses are allowed to double count for both the bachelor's and the master's degrees, students receive a master's degree in less time and at a lower cost than if they were to enroll in a stand-alone master's degree program after completion of their baccalaureate degree. In addition, staying at CU Boulder to pursue a bachelor's–accelerated master's program enables students to continue working with their established faculty mentors.

### BA in Ethnic Studies, MA in Educational Foundations, Policy and Practice

The School of Education and Department of Ethnic Studies have partnered to support a BAM degree program that reflects each unit's commitment to educational opportunity, diversity, and engaged scholarship examining how race and the interrelated categories of ethnicity, disabilities, language, gender, class and sexuality impact the lives of people locally and globally.

The program invites highly-focused ethnic studies majors who are interested in applying their dedication to social justice and critical thinking skills to transformative careers in education. The program emphasizes policy and curricular issues, and the development of an interdisciplinary lens in graduate level research.

The BAM degree program offers an efficient and rigorous path toward earning, in five years, a bachelor's degree in ethnic Studies and a master's degree in educational foundations, policy and practice.

### Admissions Requirements

In order to gain admission to the BAM program named above, a student must meet the following criteria:

- A cumulative GPA of 3.0 or higher
- A minimum of 90 credit hours of coursework completed or in progress
- Declared ethnic studies as a major
- Completed all MAPS requirements

### Program Requirements

Students may take up to and including 12 hours while in the undergraduate program which can later be used toward the master's degree. However, only six credit hours may be double counted toward the bachelor's degree and the master's degree.

Students must complete six credit hours of graduate level coursework by their eighth undergraduate semester. Students must also maintain a cumulative GPA of 3.0 or higher to continue in the program.

Students must apply to graduate with the bachelor's degree, and apply to continue with the master's degree, early in the semester in which the undergraduate requirements will be completed.<sup>1</sup>

<sup>1</sup> Students who were admitted prior to July 2019 follow a concurrent Bachelor's/Master's structure, and the two degrees are awarded simultaneously when requirements for both degrees are met.

### Contact Us

Completing the BAM degree program requires early and careful planning. If you'd like to learn more about the program or how to apply, please contact an advisor at any time.

- Contact education advisors at [edadvise@colorado.edu](mailto:edadvise@colorado.edu) or 303-492-6555.
- Contact ethnic studies advisors at [ethnicst@colorado.edu](mailto:ethnicst@colorado.edu) or 303-492-8852.

## Ethnic Studies - Minor

A minor is offered in ethnic studies. Declaration of a minor is open to any student enrolled at CU Boulder, regardless of college or school.

The minor emphasizes engaged scholarship that examines how race and the interrelated categories of ethnicity, gender, class and sexuality impact the lives of people in the United States and around the globe.

To declare a minor, please schedule an appointment with our advisor (<https://www.colorado.edu/ethnicstudies/undergraduate/advising>).

## Requirements

Students must complete 18 credits hours in ethnic studies (ETHN) coursework. All coursework applied to the minor must be completed with a grade of C- or better; no pass/fail work may be applied. The grade point average for all minor coursework must be equal to 2.0 (C) or higher.

Students are allowed to apply no more than 9 credit hours, including 6 upper-division credit hours, of transfer work toward a minor.

## French and Italian

The Department of French and Italian provides instruction in the languages, literatures, cinema, and cultures of France, Italy, and other areas where these languages are spoken.

We offer a wide selection of undergraduate courses (<http://www.colorado.edu/frenchitalian/courses-0>), covering topics ranging from the Middle Ages to Italian-American culture and the Francophone literature of Africa, the Caribbean and the Middle East.

The department offers:

- Majors and Minors in French (<http://www.colorado.edu/frenchitalian/undergraduate/french>) and Italian (<http://www.colorado.edu/frenchitalian/undergraduate/italian>)
- Joint BA/MA (<http://www.colorado.edu/frenchitalian/undergraduate/french/bama>) in French

Study abroad opportunities in French (<http://www.colorado.edu/frenchitalian/study-abroad>) and Italian (<http://www.colorado.edu/frenchitalian/study-abroad>) to help students complete their international experience

**Course codes for these programs are FREN and ITAL.**

## Study Abroad

CU Boulder offers French study abroad programs in Annecy, Paris, Rennes, Strasbourg and Toulouse, France. In addition, students may study in Quebec, Brussels, Geneva and in the Francophone African nations of Cameroon, Madagascar, Mali and Senegal. CU Boulder offers Italian study abroad programs in Ferrara, Florence and Perugia, Italy. Students may obtain course-credit equivalences for work done while abroad. For further information about study abroad programs, students may visit departmental advisors or the Education Abroad office. Credit hours earned on this program may be applied to the Italian major. Students may also take a summer film class in Rome and/or Paris (in alternate years). This class is taught in English. The Ayer Romance Language Scholarship is available for French and Italian majors who plan to study abroad. The Il Circolo Italiano is also available for Italian majors who will be studying abroad. Both of these scholarships are awarded by the Department of French and Italian.

## Bachelor's Degrees

- French - Bachelor of Arts (BA) (p. 288)
- Italian - Bachelor of Arts (BA) (p. 291)

## Minors

- French - Minor (p. 293)
- Italian - Minor (p. 293)

## Faculty

While many faculty teach both undergraduate and graduate students, some instruct students at the undergraduate level only. For more information, contact the faculty member's home department.

## Courses

### FREN 1010 (5) Beginning French 1

For students with no previous knowledge of French. Presents basic grammar and most commonly used French vocabulary. Introduces students to Francophone culture.

**Equivalent - Duplicate Degree Credit Not Granted:** FREN 1050

**Additional Information:** Arts Sci Core Curr: Foreign Language

Arts Sci Gen Ed: Foreign Language

Departmental Category: French

**FREN 1020 (5) Beginning French 2**

Continuation of FREN 1010. Completes the presentation of most basic structures and French vocabulary.

**Equivalent - Duplicate Degree Credit Not Granted:** FREN 1050

**Requisites:** Requires a prerequisite course of FREN 1010 (minimum grade C-).

**Additional Information:** Arts Sci Core Curr: Foreign Language

Arts Sci Gen Ed: Foreign Language

Departmental Category: French

**FREN 1050 (5) Beginning French Review**

Covers the material of FREN 1010 and 1020 in one accelerated semester. Intended for students who know some French (i.e., four to five semesters in high school) but do not have skills adequate for 2000-level courses.

Department enforced prerequisite: 2 years of high school French.

**Equivalent - Duplicate Degree Credit Not Granted:** FREN 1010 or FREN 1020

**Additional Information:** Arts Sci Core Curr: Foreign Language

Arts Sci Gen Ed: Foreign Language

Departmental Category: French

**FREN 1200 (3) Medieval Epic Through Game of Thrones**

Covers the most important works of medieval literature, in English translation. Among the texts studied are the Nibelungenlied, the Song of Roland, and Arthurian romances, including the stories of Lancelot and Guinevere and Tristan and Isolde. Offers a general introduction for nonmajors to medieval literature and society. Taught in English.

**Additional Information:** Arts Sci Core Curr: Literature and the Arts

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: French

**FREN 1400 (3) Medieval/Renaissance Women Writers in Italy and France**

Introduces major literature through close readings of women's writings in their historical context. Offers a general introduction to women's status and roles in Italy and France. Taught in English.

**Equivalent - Duplicate Degree Credit Not Granted:** ITAL 1400

**Additional Information:** GT Pathways: GT-AH2 - Arts Hum: Lit Humanities

Arts Sci Core Curr: Human Diversity

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Diversity-Global Perspective

Departmental Category: French

**FREN 1500 (3) Literature and Politics in the Age of Enlightenment**

Introduces political dimensions of 18th century French literature. Surveys political and social preoccupations that manifest themselves across genres (novels, scientific treatises, dialogues, erotic literature, etc.). Examines contributions made by 18th century French writers to the sociological and political imagination of Western tradition. Taught in English.

**Additional Information:** Departmental Category: French

**FREN 1610 (3) How to Be French, 1: The Ancien Regime**

Explores medieval and early modern French culture in the widest sense, encompassing masterpieces of French literature, architecture, and visual art as a key to the habits, customs, and practices of everyday life. Major themes are "living and dying," "heroes, villains, and kings," "courtliness, civility, and the art of love," and "crafty little guys."

**Additional Information:** Arts Sci Core Curr: Literature and the Arts

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: French

**FREN 1620 (3) How To Be French? 2: Modernity**

Introduces students to French culture in its widest sense and in particular to reflect on major social and cultural contradictions inherited from the French Revolution, which still define "Frenchness" today. Taught in English.

**Additional Information:** Arts Sci Core Curr: Literature and the Arts

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: French

**FREN 1700 (3) Francophone Literature in Translation**

Studies the literary expression of French-speaking peoples of Africa, the Caribbean, and Canada. Gives special attention to oral tradition, identity, question, and cultural conflict. Taught in English.

**Additional Information:** GT Pathways: GT-AH2 - Arts Hum: Lit Humanities

Departmental Category: French

**FREN 1750 (3) French Colonialism: North Africa and the Middle East**

Offers a general introduction to French and Francophone literature and visual arts (painting, photography, film) from the nineteenth century to the present depicting cultures and societies of the Middle East and North Africa. In English with English translations of French texts.

**Additional Information:** GT Pathways: GT-AH2 - Arts Hum: Lit Humanities

Arts Sci Core Curr: Human Diversity

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Diversity-Global Perspective

Departmental Category: French

**FREN 1800 (3) Contemporary French Literature in Translation**

Reviews the major philosophical, political, and aesthetic issues in the 20th century French novel and drama. Beginning with existentialist literature, discussion focuses subsequently on the Theatre of the Absurd, the new novel, World War II and the Holocaust, and recent women writers. Taught in English.

**Additional Information:** Departmental Category: French

**FREN 1850 (3) Introduction to French Society and Culture through Cinema**

Introduces students to French society and culture through French cinema through films that focus thematically on major historical events (e.g., World War II; student revolts of 1968) and cultural constants of French society (e.g., feminism; colonialism and its aftermath). Taught in English.

**Additional Information:** Departmental Category: French

**FREN 1880 (3) The Zombie in History and Popular Culture**

Discusses the emergence of the zombie figure in the Caribbean and its evolution from colonial Haiti to present-day popular culture having passed through Hollywood. Through movies and literary, historical, and scientific documents, students will study critically how this mass-media icon came to represent deep-rooted anxieties about the modern world.

**Additional Information:** Arts Sci Core Curr: Literature and the Arts

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: French

**FREN 1900 (3) Modern Paris in Literature, Photographs, Paintings and Movies**

Introduces the rise of modern Paris from the French Revolution (1789) to today. Studies the physical and sociological changes of the city in terms of architecture and industrialization through French literature, movies, paintings and photographs. Addresses problems due to the magnitude of the city, the growing fear of urban vices, and the dilemma of controlling massive urban populations. Taught in English.

**Additional Information:** Arts Sci Core Curr: Literature and the Arts

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: French

**FREN 1950 (3) French Feminisms**

Introduces students to the central problematics that have defined French feminist studies. This course focuses on the various literary and historical contexts in which core concepts such as female subjectivity and agency, feminist writing and political engagement have arisen and developed in Early Modern and Modern France by looking at multiple media (literary text, film, painting). Taught in English.

**Additional Information:** Arts Sci Core Curr: Human Diversity

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Diversity-Global Perspective

Departmental Category: French

**FREN 2110 (3) Second-Year French Grammar Review and Reading 1**

A film based curriculum will expand the knowledge of francophone culture and will continue the development of communication skills begun in the first year. This third semester course will review essential beginning grammar before introducing intermediate structures, vocabulary, and cultural/literary readings.

**Requisites:** Requires a prerequisite course of FREN 1020 or FREN 1050 (minimum grade C-).

**Additional Information:** GT Pathways: GT-AH4 - Arts Hum: Foreign Languages

Arts Sci Core Curr: Foreign Language

Arts Sci Gen Ed: Foreign Language

Departmental Category: French

**FREN 2120 (3) Second-Year French Grammar Review and Reading 2**

Completes the film-based study of intermediate grammar begun in FREN 2110. Continued reading in French literature and culture, with considerable practice in writing and speaking French. Fulfills the Graduate School language requirement for the Ph.D.

**Requisites:** Requires a prerequisite course of FREN 2110 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: French

**FREN 2500 (3) Conversation in French**

Puts into practice all that has been learned in the first four semesters of college French. Builds conversational skills and confidence through acquisition of new vocabulary and a review of grammar essential to discussing different aspects of French culture. All work is in French.

**Requisites:** Requires a prerequisite course of FREN 2120 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: French

**FREN 3010 (3) French Phonetics and Pronunciation**

Improves students' ability to pronounce French correctly. Coursework involves the International Phonetic Alphabet, understanding the differences between pairs of sounds, and recognizing the relationship between spelling and pronunciation. Required of all FREN majors.

**Requisites:** Requires a prerequisite course of FREN 2120 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: French

**FREN 3020 (3) French Phonetics Through Musical Performance**

Advanced oral practice and interpretation of a French Musical. This course of applied and corrective phonetics concentrates on developing good pronunciation and fluency through song. The course culminates with a public presentation of the musical studied in class.

**Requisites:** Requires a prerequisite course of FREN 3010 (minimum grade C-). Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: French

**FREN 3050 (3) French Composition 1**

French third-year level composition course. Students practice and write different forms of formal French writing. They also hone their grammar skills and analytical reading of short literature pieces. This course or FREN 3060 is required for all French majors.

**Requisites:** Requires a prerequisite course of FREN 2120 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: French

**FREN 3060 (3) French Composition 2**

French third year level composition course. Students build on their previous knowledge of formal writing in French and more emphasis is given to argumentative and analytical style of writing. This course or FREN 3050 is required for all French majors.

**Requisites:** Requires a prerequisite course of FREN 2120 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: French

**FREN 3100 (3) Introduction to Critical Reading and Writing in French Literature**

Study of French literature through close readings of representative examples of major literary forms (poetry, fiction, drama, essay) and through the composition of critical writings in French. Required for French majors.

**Requisites:** Requires a prerequisite or corequisite course of FREN 3050 or a prerequisite or corequisite course of FREN 3060 (minimum grade C-). Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: French

**FREN 3110 (3) Main Currents of French Literature 1**

Surveys 19th and 20th century French literature. Close reading of selected texts and the principal writers and schools. This course or FREN 3120 are required for all majors.

**Requisites:** Requires a prerequisite or corequisite course of FREN 3100 (minimum grade C-). Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: French

**FREN 3120 (3) Main Currents of French Literature 2**

Surveys 19th and 20th century French literature. Close reading of selected texts of the principal writers and schools. This course or FREN 3110 are required for all majors.

**Requisites:** Requires a prerequisite or corequisite course of FREN 3100 (minimum grade C-). Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: French

**FREN 3200 (3) Introduction to Literary Theory and Advanced Critical Analysis**

Introduces important aspects of both classical and modern literary theory as an aid to reading and understanding literary texts. Covers theoretical works by figures ranging from Plato and Aristotle to modern French critics such as Barthes, Foucault, and Derrida in conjunction with selected literary works. Offers students more sophisticated means of understanding issues like gender, ethnicity, the roles of both author and reader in constructing meaning, the nature and functions of signs, and the relationship between literature and the larger society. Conducted in English, though French majors are required to read the texts in the original language. Required for students taking honors in French or Italian.

**Additional Information:** Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: French

**FREN 3300 (3) French Culture Through Fashion**

Studies fashion as a means of identity construction as well as a means of resistance in France from 1789 until present day. Through an analysis of clothing trends and visits to various sites in Paris, students will study the cultural significance of certain fads in French history that allowed marginalized demographics to define and assert their individuality.

**Grading Basis:** Letter Grade

**FREN 3400 (3) Culture, Performance and Development in Dakar, Senegal**

Offers students an immersive experience in Dakar, Senegal, one of Africa's most historically rich and electrifying capitals. Introduces the history, culture and religious practices of a country at the crossroads of global notions of African, Francophone and Muslim identities. Includes a capstone public presentation in collaboration with a Senegalese activist theater company.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-Global Perspective

**FREN 3500 (3) French Current Events: Conversation and Composition**

For students who have spent fewer than four months in a French-speaking environment. Focuses on presentations, debates, discussions, readings and written work.

**Requisites:** Requires prerequisite course of FREN 2120 (minimum grade C-) and corequisite course of (FREN 3010 or FREN 3020 or 3050 or FREN 3060).

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: French

**FREN 3600 (3) Business French 1**

Gives students the tools needed to function in a French-speaking work environment. A culminating project involves creating a business in a francophone country.

**Requisites:** Requires a prerequisite course of FREN 2120 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: French

**FREN 3700 (3) French-American Cultural Differences**

Through readings, films, discussion and activities, students learn the defining values of their own country, those of France, and key differences between the two cultures. Taught in French.

**Requisites:** Requires a prerequisite or corequisite course of FREN 3050 or a prerequisite or corequisite course of FREN 3060 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: French

**FREN 3800 (3) France and the Muslim World**

Introduces students to the polemic colonial, social, and cultural interactions of France and Islam. Close attention will be paid to paradigms of identities of one of the major European nations and the Islamic world. Readings and discussion topics for this course cover the social, cultural, and literary depictions of Islamic and French interactions, negotiations, and contradictions. Taught in English. Cannot be used for French major or minor credit.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Core Curr: Human Diversity  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-Global Perspective  
Departmental Category: French

**FREN 4030 (3) Advanced Oral Practice and Interpreting**

Concentrates on developing (or preserving) speaking fluency, correct pronunciation, and a good working vocabulary.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires prerequisite courses of FREN 3050 or FREN 3060 and FREN 3100 (all minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: French

**FREN 4110 (3) French Special Topics**

Topics vary each semester. Consult the online Schedule Planner for specific topics. See also FREN 4120.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires a prerequisite course of FREN 3110 or FREN 3120 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: French

**FREN 4120 (3) French Special Topics**

Topics vary each semester. Consult the online Schedule Planner for specific topics. See also FREN 4110.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: French

**FREN 4170 (3) Francophone Literature**

Studies the literary expression of French-speaking peoples of Africa, the Caribbean, and French Canada. Gives special attention to oral tradition, identity question, and cultural conflict.

**Requisites:** Requires prerequisite courses of FREN 3100 and FREN 3110 and FREN 3120 (all minimum grade C-). Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: French

**FREN 4250 (3) Medieval and Renaissance Readings**

Explores the complex and evolving cultural and historical contexts of medieval and Renaissance French. Introduces the masterpieces of French medieval and Renaissance literature, including the Chanson de Roland and Arthurian romance. Also focuses on the work of Marie de France, Guillaume de Lorris and Jean de Meun, Christine de Pisan, Machaut, Villon, Louise Labe, and the poets of the Pleiade, Rabelais, and Montaigne.

**Requisites:** Requires prerequisite courses of FREN 3050 or FREN 3060 and FREN 3100 (all minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: French

**FREN 4300 (3) Theatre and Modernity in 17th Century France**

Readings of plays by Corneille, Moliere and Racine introduce students to theatre's role as a mirror of the multifarious tensions shaping modern Western experience. Taught in English with English translations.

**Requisites:** Requires prerequisite courses of FREN 3050 or FREN 3060 and FREN 3100 (all minimum grade C-).

**Additional Information:** Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: French

**FREN 4330 (3) Moliere and 17th Century French Comedy**

Close readings of farces and comedies of Moliere in context with selected comedies by Corneille, Rotrou and Cyrano de Bergerac and selected satires by Boileau and La Fontaine. Themes include comedy as a form of social criticism and the sociocultural significance of such episodes of Moliere's career as the scandalous quarrels of *L'ecole des Femmes* and *Tartuffe*.

**Requisites:** Requires prerequisite courses of FREN 3050 or FREN 3060 and FREN 3100 (all minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: French

**FREN 4350 (3) French Enlightenment**

Studies fiction, essays, theatre, and philosophical tales. Emphasizes the Enlightenment in France through the texts of its major representatives: Montesquieu, Voltaire, Marivaux, Diderot, and Rousseau.

**Requisites:** Requires prerequisite courses of FREN 3100 and FREN 3110 and FREN 3120 (all minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: French

**FREN 4430 (3) Survey of 19th Century French Literature**

Examines fiction, poetry and theatre in 19th century France. Focuses on developing and changing literary styles and subject matter throughout the century in historical, philosophical and social context.

**Requisites:** Requires prerequisite courses of FREN 3050 or FREN 3060 and FREN 3120 (all minimum grade C-). Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: French

**FREN 4470 (3) 20th Century French Theatre and Poetry**

Close readings of plays from the turn of the century to the contemporary period introduce the principal themes and techniques of modernist and postmodernist French theatre. Students are encouraged to consider problems commonly evoked by these texts and to compare the positions that each text takes on such problems as the status and uses of language, the function and limits of the theatre and the dialectic of appearance and reality.

**Requisites:** Requires prerequisite courses of FREN 3050 or FREN 3060 and FREN 3100 (all minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: French

**FREN 4480 (3) 20th Century French Novel**

Close readings of novels from the 1930s to the contemporary period introduce the principal themes and techniques of the modernist and postmodernist French novel. Students are encouraged to analyze a variety of questions commonly evoked in these texts, such as the problem of representation, the uses and abuses of writing, the relation of fiction and history and the status of the subject in the world.

**Requisites:** Requires prerequisite courses of FREN 3050 or FREN 3060 and FREN 3100 (all minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: French

**FREN 4600 (3) Topics in French Film**

Covers various topics in the French and some other Francophone cinemas (Belgian, Swiss, Quebecois) from 1895 to the present. Focuses on periods, schools, themes, and directors from Melies to Duras, and the critical approaches by which they are studied. Varies from year to year.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires prerequisite courses of FREN 3050 or FREN 3060 and FREN 3100 (all minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: French

**FREN 4700 (3) Encountering Animals: contemporary Discourse and the Dialog of Species**

Explores Western philosophy and literature recent challenges to species' differences and human privileges and includes contemporary theory, novels as well as movies and other cultural artifacts. Themes include animal representations in today's culture, animal and human bond, animal welfare, post-humanism. Taught in English.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: French

**FREN 4750 (3) Methods of Teaching French and Professional Orientation**

Presents current methodology and techniques for teaching foreign language for proficiency. Areas of study include ACTFL guidelines, National Standards, assessment, classroom activities, curriculum, and syllabus design.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Departmental Category: French

**FREN 4800 (3) Postmodernist French Novel in Translation**

Focuses upon recent innovations in the French novel, and upon the postmodernist literary aesthetic. Students will examine a variety of avant-garde novels, and analyze the kinds of literary experimentation that those novels propose. They will be asked to consider a series of questions concerning the changing nature of literary representation and the status of the novel as a cultural form. Taught in English. Cannot be used for major or minor credit.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: French

**FREN 4840 (1-6) Independent Study: Language**

Upon consultation only and at the undergraduate level.

**Repeatable:** Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Departmental Category: French

**FREN 4860 (3) War, Trauma, and Memory: Amnesias, Revisions, and Representations of Traumatic History**

Attempts to investigate how extreme historical events (war, genocides, terror attacks) function as "trauma" and how these extreme events are dealt with by personal and collective memory in historical narratives, literary and cinematic fiction, and memorials. Amnesia and other types of historical negations or revisions will be analyzed, along with representations of trauma and the difficulties raised by this memorializing. Taught in English. Cannot be used for major or minor credit.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Core Curr: Ideals and Values  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: French

**FREN 4960 (6) High School French Teaching**

Offered as part of the supervised student teaching in a secondary school required for state licensure to teach French. These hours do not count toward student hours in the major nor in the maximum departmental hours allowed. Pass/fail only.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Grading Basis:** Pass/Fail

**Additional Information:** Departmental Category: French

**FREN 4980 (3) French Senior Honors Thesis**

The senior honor thesis is a 40 to 45 page original research paper, written in French, and constitutes a requirement for graduating with departmental honors.

**Requisites:** Requires a prerequisite course of FREN 3200 (minimum grade D-).

**Additional Information:** Arts Sciences Honors Course  
Departmental Category: French

**FREN 4990 (3) Senior Seminar**

Preparation of a 15-page research paper in French presented to two members of the department faculty and defended orally in class.

**Recommended:** Prerequisite at least one course numbered FREN 4100 or above and all third-year requirements and advisor consent.

**Additional Information:** Departmental Category: French

**ITAL 1010 (4) Beginning Italian 1**

The four skills of listening, speaking, reading, and writing are progressively developed in a predominantly oral presentation. Grammatical concepts are explained and practiced through dialogues, written exercises, and conversations. The cultural focus is on the personal world and life of students.

**Equivalent - Duplicate Degree Credit Not Granted:** ITAL 1050

**Additional Information:** Arts Sci Core Curr: Foreign Language  
Arts Sci Gen Ed: Foreign Language  
Departmental Category: Italian

**ITAL 1020 (4) Beginning Italian 2**

Continuation of ITAL 1010, with more difficult grammatical concepts explored. The cultural focus shifts to social and civic areas.

**Equivalent - Duplicate Degree Credit Not Granted:** ITAL 1050

**Requisites:** Requires a prerequisite course of ITAL 1010 (minimum grade C-).

**Additional Information:** Arts Sci Core Curr: Foreign Language  
Arts Sci Gen Ed: Foreign Language  
Departmental Category: Italian

**ITAL 1050 (4) Fast-Track Italian**

Two semesters of beginning Italian in one, for students who have studied other languages or have had previous exposure to Italian.

**Equivalent - Duplicate Degree Credit Not Granted:** ITAL 1010 or ITAL 1020

**Additional Information:** Departmental Category: Italian

**ITAL 1300 (3) La Dolce Vita: How to Live a Good Life, Italian Style**

Introduces students to a critical appraisal of the Humanities in their world. Because the Humanities were rediscovered in the late Middle Ages in Italy, the course explores the Humanities from an Italian-centered perspective, though it broadens the scope of its analysis to make this perspective relevant for students who come from a variety of cultures and backgrounds.

**Additional Information:** Arts Sci Core Curr: Ideals and Values

Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Italian

**ITAL 1400 (3) Medieval/Renaissance Women Writers in Italy and France**

Introduces major literature through close readings of women's writings in their historical context. Offers a general introduction to women's status and roles in Italy and France. Taught in English.

**Equivalent - Duplicate Degree Credit Not Granted:** FREN 1400

**Additional Information:** GT Pathways: GT-AH2 - Arts Hum: Lit Humanities  
Arts Sci Core Curr: Human Diversity  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-Global Perspective  
Departmental Category: Italian

**ITAL 1500 (3) That's Amore: Introduction to Italian Culture**

Introduces students to representations of Italian society that have persisted through the ages. The course readings allow students to better understand how certain stereotypes about Italian society (e.g., Latin lover, Mafia) were born and persist in the present. Taught in English.

**Additional Information:** GT Pathways: GT-AH2 - Arts Hum: Lit Humanities  
Arts Sci Core Curr: Contemporary Societies  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Italian

**ITAL 1600 (3) Strategies of Fear: Introduction to Italian Fantastic Literature**

Traces the development of the fantastic theme in Italian Literature from its origins (late nineteenth century) to contemporary times. Analyzes the modes of reception and appropriation of non-Italian gothic and fantastic narrative traditions through which Italian writers have subverted the national literary model proposed by realist narrative. Taught in English.

**Additional Information:** Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Italian

**ITAL 2110 (4) Intermediate Italian Reading, Grammar, and Composition 1**

Enhances the skills learned in the first-year course and develops greater fluency in understanding and speaking. More emphasis is placed on reading and writing through the use of activities featuring cultural themes that present a realistic portrait of contemporary Italy. Taught in Italian.

**Requisites:** Requires a prerequisite course of ITAL 1020 or ITAL 1050 (minimum grade C-).

**Additional Information:** GT Pathways: GT-AH4 - Arts Hum: Foreign Languages  
Arts Sci Core Curr: Foreign Language  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Foreign Language  
Departmental Category: Italian

**ITAL 2120 (4) Intermediate Italian Reading, Grammar, and Composition 2**  
Continuation of ITAL 2110. Some reading in Italian literature and culture with considerable practice in writing and speaking Italian. Fulfills the Graduate School language requirement for the Ph.D.

**Requisites:** Requires a prerequisite course of ITAL 2110 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Italian

**ITAL 2130 (3) Introduction to Literary Analysis**

Increases student's ability to read and analyze literary texts by improving vocabulary and terminology. Students read short stories, essays, short plays, and poems to acquire critical skills and improve expression of opinions and arguments in Italian. Taught in Italian.

**Requisites:** Requires a prerequisite course of ITAL 2120 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Italian

**ITAL 2271 (3) Space, Invention, and Wonder in Fairy Tales, Literature and Film**

Explores the themes of space, invention, technology and wonder in fairy tales from Italian, Russian, French, German, and Spanish traditions in order to compare their transformation in different national and historical settings. Students analyze the intersection of fairy tales and science in literature and film. Counts for the Space Minor. Taught in English.

**Equivalent - Duplicate Degree Credit Not Granted:** RUSS 2271

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**ITAL 3015 (3) Advanced Composition 1**

Teaches students to write in Italian in a variety of genres, focusing on the creative aspects of writing. Exercises and themes are drawn primarily from current events and culture (i.e., blogging, journaling, essays and films), but also allows students to develop their critical skills in other areas.

**Requisites:** Requires a prerequisite course of ITAL 2120 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Italian

**ITAL 3025 (3) Advanced Composition 2: Introduction to Literary Writing**

Introduces students to complex forms of writing within Italian studies. Focuses on the analysis of literary genres (e.g., autobiography, essays, short stories) through a step-by-step process that allows students to craft advanced arguments in Italian. Studies will read Italian literary texts and write and revise in workshop format (e.g., peer review, collaborative assignments).

**Requisites:** Requires a prerequisite course of ITAL 3015 (minimum grade C-).

**Additional Information:** Arts Sci Core Curr: Written Communication  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Written Communication-Upper  
Departmental Category: Italian

**ITAL 3030 (3) Storia dell'arte: Advanced Composition/Conversation 3**

Improves vocabulary and fluency in spoken Italian, and competence and confidence in correct and more sophisticated written Italian through the study of the history of Italian art. Exercises and themes focus on Italian Classical, Medieval, Renaissance, and Modern Art.

**Requisites:** Requires a prerequisite course of ITAL 2120 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Italian

**ITAL 3040 (3) Italian Conversation Through Cinema**

Taught in Italian, the course covers various topics of Italian Cinema from WWII to the present. Focus is on periods, genres, themes, and auteur/directors. Emphasis on review of language structures previously learned and acquisition of new vocabulary to enable students to discuss different aspects of Italian culture, in Italian.

**Requisites:** Requires a prerequisite course of ITAL 2120 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Italian

**ITAL 3140 (3) Literary and Artistic Cultures in Italy 3: 1900-present**

Uses literary masterpieces as a springboard to explore the literature, visual arts, film, theater, and music produced in Italy from 1900 to today in its cultural and historical context. Emphasizes interpretation and critical analysis of major cultural figures, artistic forms, and ideas of the period. Taught in Italian.

**Requisites:** Requires prerequisite course of ITAL 2130 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Italian

**ITAL 3150 (3) Literary and Artistic Cultures in Italy 2: 1800-1900**

Uses literary masterpieces as springboard to explore the literature, visual arts, film, theater, and music produced in Italy from 1800 to 1900 in its cultural and historical context. Emphasizes interpretation and critical analysis of major cultural figures, artistic forms, and ideas of the period. Taught in Italian..

**Requisites:** Requires prerequisite course of ITAL 2130 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Italian

**ITAL 3160 (3) Literary and Artistic Cultures in Italy 1: 1200-1800**

Uses literary masterpieces as springboard to explore the literature, visual arts, film, theater, and music produced in Italy from 1200 to 1800 in its cultural and historical context. Emphasizes interpretation and critical analysis of major cultural figures, artistic forms, and ideas of the period. Includes hands-on work with texts and arts from the period. Taught in Italian.

**Requisites:** Requires prerequisite course of ITAL 2130 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Italian

**ITAL 4010 (3) Problems in Translation, Advanced Grammar, and Stylistics 1**

Emphasizes practice in translating varying types of prose from Italian into English and English into Italian.

**Requisites:** Requires a prerequisite course of ITAL 2130 or ITAL 3015 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Italian

**ITAL 4030 (3) Contemporary Italian Culture, Politics, and the Media**

Serves as an introduction to the study of the effect that politics and the media have in shaping Italian culture. Makes use of the World Wide Web for instruction. Taught in Italian. Familiarity with Internet helpful.

**Requisites:** Requires a prerequisite course of ITAL 2130 or ITAL 3015 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Italian

**ITAL 4040 (3) Business Italian Style**

Provides an introduction to the Italian way of conducting business, with a close view on the company and its world through learning marketing and producing a real company project for the market. Analyzes topics of international marketing and trade using Italian and American economics websites. Focuses on building cross-cultural bridges between the U.S. and Italy to have smoother business relationships and enable students to participate more easily in joint international working teams.

**Requisites:** Requires a prerequisite course of ITAL 2120 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Italian

**ITAL 4140 (3) The Age of Dante: Readings from The Divine Comedy**

Focuses on close reading of Dante's poetry with emphasis on the intellectual, religious, political, and scientific background of the medieval world. Taught in English.

**Equivalent - Duplicate Degree Credit Not Granted:** ITAL 4145 or ITAL 4147 or HUMN 4140

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Italian

**ITAL 4145 (3) The Age of Dante in Italian**

Focuses on close readings of Dante's poetry with emphasis on the intellectual, religious, political, and scientific background of the medieval world. Taught in Italian.

**Equivalent - Duplicate Degree Credit Not Granted:** ITAL 4140 or ITAL 4147 or HUMN 4140

**Requisites:** Requires prerequisite course of ITAL 2130 (minimum grade C-).

**Additional Information:** Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Italian

**ITAL 4147 (3) Visualizing Dante's Inferno: A Global Seminar in Florence Italy**

Focuses on close reading of Dante's *Inferno*. Examines the specific sites and art in Florence and nearby cities that Dante references in the *Inferno*, as well as visual representations of Hell created both before and after Dante's poem. Taught in English. Offered through the CU Study Abroad Program.

**Equivalent - Duplicate Degree Credit Not Granted:** ITAL 4140 or ITAL 4145 or HUMN 4140

**Additional Information:** Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Italian

**ITAL 4150 (3) Boccaccio's Decameron: Tales of Sex and Death in the Middle Ages**

Studies Boccaccio's masterpiece, the *Decameron*, as emblematic of the post-Black Plague era in the late Middle Ages. Focuses on the art of storytelling through gendered perspectives to portray the complexity of the Middle Ages. Taught in English.

**Equivalent - Duplicate Degree Credit Not Granted:** HUMN 4150

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Core Curr: Human Diversity  
Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-Global Perspective  
Departmental Category: Italian

**ITAL 4160 (3-5) Italian Literature Special Topics**

Topics vary each semester. Consult the online Schedule Planner for specific topics.

**Repeatable:** Repeatable for up to 8.00 total credit hours.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Italian

**ITAL 4170 (3) Italian Literature Special Topics**

Topics vary each semester. Consult the online Schedule Planner for specific topics.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Italian

**ITAL 4200 (3) Topics in Italian Culture and Civilization from the Origins through the Renaissance**

Taught in English. Topics vary.

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Italian

**ITAL 4250 (3) History of Modern Italy**

Examines the major historical, economic and social factors that have shaped the identity of modern Italy, from the enthusiasm of young patriots during Italy's unification in the 1860s to the discontent and domestic terrorism of the 1960s-1980s. Focuses on Mussolini, the Fascist movement and on World War II, as well as the changing role of women. Taught in English.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 4313

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Italian

**ITAL 4260 (3) Mafia and Terrorism: Organized Violence in Italy**

Investigates the origins and development of the Sicilian Mafia and Political Terrorism in Italy. In the first part of the course, the context of Italian politics, economy and society in which the mafia was born and flourished in the 19th and 20th century will be explored. The ramification of the Mafia in the United States in the 20th c. will also be studied. In the second part of the course, the political and social causes of Italian left and right wing Terrorism will be examined, starting from the Piazza Fontana slaughter (1969) until the murder of Professor Marco Biagi (2002). Particular attention will be devoted to the kidnapping and murder of Democratic Christian Party President Aldo Moro and to the Red Brigades terrorist movement. The role of women in both Mafia and Terrorism will be explored.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**ITAL 4280 (3) Topics in Italian Cinema**

Examines different aspects of Italian cinema from the origins of neorealism to the present. May focus on a particular director, the culture of a specific period, or certain themes (e.g., the representation of women, the relationship between cinema and literature, or socio-aesthetic movements like Futurism or Fascism). Taught in English.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Italian

**ITAL 4290 (3) Italian Culture Through Cinema**

Examines the representations of Italian culture through its cinema. Focusing especially on post-World War II cinema, examines how Italian filmmakers have portrayed Italian history and specific aspects of its culture (i.e., Fascism, post-war reconstruction, the Mafia, patriarchy) in the past 50 years. Taught in English.

**Additional Information:** Arts Sci Core Curr: Contemporary Societies  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Italian

**ITAL 4300 (3) Multiculturalism in Italy**

Focuses on multiculturalism and difference in contemporary Italian society. Readings assigned explore the experience and co-existence of ethnic and religious minorities in Italy. Students will study how specific minorities live in a major Western-European country and will investigate the connotations that the concept of 'multiculturalism' takes in the Italian context.

**Additional Information:** Arts Sci Core Curr: Human Diversity  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-Global Perspective  
Departmental Category: Italian

**ITAL 4350 (3) From Wops to Dons to Movers and Shakers: The Italian-American Experience**

Exposes students to the history of Italian immigration to the United States. By studying how Italians and Americans negotiated different ideas concerning identity, traditions and community, it helps students understand how Italians transformed themselves from a despised and marginalized minority into active participants in the success of the United States in the 20th and 21st centuries. Taught in English.

**Additional Information:** Arts Sci Core Curr: United States Context  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Italian

**ITAL 4500 (4) Italian Theatre**

Using theatre as a medium, this course helps students attain a higher level of proficiency in spoken and written Italian. Study of Italian theatre is integrated with acting activities and pronunciation exercises. Culminates in the production of a play. Performance is in Italian and the students participate in the writing of the script. Taught in Italian.

**Repeatable:** Repeatable for up to 8.00 total credit hours.  
**Requisites:** Requires a prerequisite course of ITAL 2120 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Italian

**ITAL 4600 (3) Once Upon a Time in Italy**

Examines the evolution of the Italian fairy tale from the 1500s to the 2000s in literature, theater, and film. Considers the tales and their authors in their social-historical context.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Italian

**ITAL 4730 (3) Italian Feminisms: Culture, Theory, and Narratives of Difference**

Studies Italian women writers, artists and filmmakers. Literary and visual texts are analyzed in dialogue with readings of leading Italian gender theorists. Italian history and culture is reread by following the development of a discourse about women. Taught in English; readings in Italian for Italian majors.

**Equivalent - Duplicate Degree Credit Not Granted:** HUMN 4730  
**Additional Information:** Arts Sci Core Curr: Human Diversity  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-Global Perspective  
Departmental Category: Italian

**ITAL 4840 (1-3) Independent Study**

**Repeatable:** Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Departmental Category: Italian

**ITAL 4930 (1-3) Languages Internship for Professions**

Offers opportunities to use Italian skills in service to various sectors of the community, including private industry, government, and education.

**Repeatable:** Repeatable for up to 3.00 total credit hours.

**Requisites:** Requires a prerequisite course of ITAL 2120 (minimum grade C-).

**Additional Information:** Departmental Category: Italian

**ITAL 4980 (3) Italian Senior Honors Thesis**

The senior honors thesis is a 40 to 45 page original research paper, written in Italian, and constitutes a requirement for graduating with departmental honors.

**Requisites:** Requires a prerequisite course of ITAL 3015 (minimum grade C-).

**Additional Information:** Arts Sciences Honors Course  
Departmental Category: Italian

**ITAL 4990 (3) Senior Seminar**

Preparation of a 15-page research paper in Italian presented to two members of the faculty and defended orally in class.

**Requisites:** Requires a prerequisite course of ITAL 3015 (minimum grade C-).

**Additional Information:** Departmental Category: Italian

## French - Bachelor of Arts (BA)

Beyond providing mastery of the language skills (listening, speaking, reading, writing), the main objective of the French program is to develop students' awareness of the French and Francophone cultural tradition. Our coursework exposes majors and minors to the wealth of cultural experiences in the French-speaking world and gives students a solid knowledge of French and Francophone thought, literature, arts and visual media.

Survey courses and upper-division seminars offer a range of exposure to the French cultural past and the vast ethnic and national diversity of the French-speaking present. The major explores distinctly French contributions to world culture and allows students to familiarize themselves with the history, forms, and conventions of a rich literary and artistic tradition. In addition to covering a broad range of historical periods, trans-cultural approaches, and topics ranging from Enlightenment political thought to animal studies and France's relations with the Muslim world, the French curriculum brings far-flung periods and places to life. It links analysis of contemporary cultural phenomena with more distant historical epochs and texts. Medieval epic is studied in tandem with "Game of Thrones," for example, or the history of Caribbean slavery with the figure of the Zombie. All courses for the major and minor

are interdisciplinary and associate elements of other disciplines such as media studies, art history, science studies, philosophy, sociology, ecology or anthropology with the study of literary texts and other cultural artifacts.

Recent course topics include FREN 1200 Medieval Epic Through Game of Thrones; FREN 1900 Modern Paris in Literature, Photographs, Paintings and Movies; FREN 1880 The Zombie in History and Popular Culture; FREN 3800 France and the Muslim World; FREN 4110 French Special Topics: Tourists, Exiles and other Outsiders; FREN 4700 Encountering Animals: contemporary Discourse and the Dialog of Species.

Students must complete the general requirements of the College of Arts and Sciences and the required courses listed under Requirements. Students wishing to pursue an Honors major should also consult the Honors requirements.

## Requirements

### Program Requirements

Students must complete the general requirements of the College of Arts and Sciences and the required courses listed below. Students wishing to pursue an Honors major should also consult the Honors requirements listed below.

Note: Students undertaking a major in French should expect to have regular conferences with a college advisor to ensure that they are making adequate progress and that requirements are being met in a timely way. The department will not certify majors for graduation when a failure to satisfy requirements is the fault of the student.

A minimum of 30 upper-division credit hours in French must be completed (see below for specific courses). FREN 2120 or its equivalent is the prerequisite for admission to courses required for the major.

### Required Courses and Credits

Code	Title	Credit Hours
FREN 3010	French Phonetics and Pronunciation	3
FREN 3050 or FREN 3060	French Composition 1 French Composition 2	3
FREN 3100	Introduction to Critical Reading and Writing in French Literature	3
FREN 3110 or FREN 3120	Main Currents of French Literature 1 Main Currents of French Literature 2	3
Six or more other courses at the 3000 or 4000 level, of which 9 credit hours must be at the 4100 level or above (6 of which must be completed at CU)		18
FREN 4990	Senior Seminar <sup>1</sup>	
Total Credit Hours		30

<sup>1</sup> Note: The seminar runs concurrently with one of the three courses taken at the 4100 level or above. See departmental brochure for details.

### Honors Requirements

Honors candidates must meet all of the regular requirements for the major plus the following:

Code	Title	Credit Hours
FREN 3200	Introduction to Literary Theory and Advanced Critical Analysis	3
One semester of independent study <sup>1</sup>		3
Total Credit Hours		6

<sup>1</sup> NOTE: The semester of independent study is taken concurrently with FREN 4980, and is devoted to one-on-one work on the senior honors thesis with a faculty advisor. See department for details.

## Graduating in Four Years

Consult the four-year guarantee requirements for information on eligibility. The concept of "adequate progress" as it is used here only refers to maintaining eligibility for the four-year guarantee; it is not a requirement for the major. To maintain adequate progress in French, students should meet the following requirements (one option):

### First Year

- Fall semester: FREN 1010 Beginning French 1 (if needed; does not fulfill French major course requirements)
- Spring semester: FREN 1020 Beginning French 2 (if needed; does not fulfill French major course requirements)

### Second Year

- Fall semester: FREN 2110 Second-Year French Grammar Review and Reading 1 (if needed; does not fulfill French major course requirements)
- Spring semester: FREN 2120 Second-Year French Grammar Review and Reading 2 (prerequisite for courses required for French major, but does not fulfill major course requirements); FREN 3010 French Phonetics and Pronunciation, 3 credits total required.

### Third Year

- Fall semester: FREN 3050 French Composition 1; upper-division (3000 level and up) course, 6 credits total required
- Spring semester: FREN 3060 French Composition 2; FREN 3100 Introduction to Critical Reading and Writing in French Literature; FREN 3110 Main Currents of French Literature 1 or FREN 3120 Main Currents of French Literature 2; upper-division (3000 level and up) FREN course, 9 credits total required.

### Fourth Year

- Fall semester: FREN 4990 Senior Seminar; upper-division (3000 level and up) FREN course, 6 credits total required.
- Spring semester: FREN 4100 or higher (3 credits required); upper-division (3000 level and up) FREN course, 6 credits total required.

Note: Completion of French requirements includes the successful written and oral presentation of a senior essay (FREN 4990) by the end of the fourth (senior) year.

## Recommended Four-Year Plan of Study

Through the required coursework for the major, students will complete all 12 credits of the Arts & Humanities area of the Gen Ed Distribution Requirement.

Course	Title	Credit Hours		
			FREN 3110	Main Currents of French Literature 1
			or FREN 3120	or Main Currents of French Literature 2

## Learning Outcomes

The undergraduate degree in French emphasizes knowledge and awareness of:

- Critical thinking
- Significant works of textual and visual culture in the French-speaking world
- A range of French Literature, its historical and cultural context seen from an interdisciplinary perspective (in relation with art, philosophy, religion) as well as methods of literary and other media analysis
- Contemporary French culture, politics and current events

In addition, students completing their degrees in French are expected to acquire the ability and skills to:

- Speak and understand modern French both in daily life and academic settings
- Read and write modern standard French for all academic and professional settings
- Follow with reasonable comprehension French broadcasts and films
- Analyze and interpret texts or visual representations
- Become familiar with a range of cultural expressions and literary genres
- Become familiar with critical methodologies

## Bachelor's–Accelerated Master's Degree Program(s)

The Bachelor's–Accelerated Master's (BAM) degree program options offer currently enrolled CU Boulder undergraduate students the opportunity to receive a bachelor's and master's degree in a shorter period of time. Students receive the bachelor's degree first, but begin

taking graduate coursework as undergraduates (typically in their senior year). Because some courses are allowed to double count for both the bachelor's and the master's degrees, students receive a master's degree in less time and at a lower cost than if they were to enroll in a stand-alone master's degree program after completion of their baccalaureate degree. In addition, staying at CU Boulder to pursue a bachelor's–accelerated master's program enables students to continue working with their established faculty mentors.

## BA and MA in French

The Bachelor's Accelerated Masters (BAM) degree program in French is normally a five-year program designed for currently enrolled CU Boulder students.

The BAM program is administered jointly by the Graduate School and the French and Italian Department. The department assumes primary administrative authority and responsibility reflecting the full authority and standards of both the undergraduate and graduate degrees.

### Admissions Requirements

Initial admission to the program typically occurs during the junior year. Minimum standards for admission require a cum GPA of 3.0 and completion of all MAPS deficiencies. Any student inquiring should consult a college advisor and the Associate Chair for Graduate Studies in the French and Italian Department for details. Students admitted to the BAM program will be admitted at undergraduate status.

In order to gain admission to the BAM program named above, a student must meet the following criteria:

- Have a cumulative GPA of 3.0 or higher
- Must be a full-time CU Boulder student
- Transfer students must complete at least 24 credit hours as a degree seeking student before applying

### Program Requirements

Students may take up to and including 12 hours while in the undergraduate program which can later be used toward the master's degree. A total of nine credits may be double counted, with the advice from the Associate Chair of Graduate Studies. Students must apply to graduate with the bachelor's degree, and apply to continue with the master's degree, early in the semester in which the undergraduate requirements will be completed.<sup>1</sup>

To comply with Title IV Higher Education regulations, CU Boulder students pursuing a BAM degree will automatically be changed to graduate status after the completion of 130 credit hours (or 145 credit hours for a student in the College of Engineering and Applied Science). It is important to note that transfer and advanced placement hours are included when determining the total credit hours completed. Students at graduate status are assessed graduate tuition rates and are no longer eligible for COF. In addition, graduate students receiving financial aid are considered "independent" and are no longer eligible for aid requiring undergraduate status.

If you are interested in the BAM degree program, please contact the Associate Chair of Graduate Studies and the graduate program for more information.

<sup>1</sup> Students who were admitted prior to July 2019 follow a concurrent BAM structure, and the two degrees are awarded simultaneously when requirements for both degrees are met.

## Italian - Bachelor of Arts (BA)

The Italian major prepares students to live and work in a global society by developing multilingualism and intercultural competency. Students will master Italian language skills (listening, speaking, reading, writing) needed for all purposes of daily life and gain diverse perspectives on Italian culture through courses focusing on literature, history, visual arts, film, media and business.

The program promotes an understanding of the role of the Italian literary and cultural tradition within today's global society. As the birthplace of Dante, Boccaccio, Michelangelo and Da Vinci, Italy was the cradle of the Renaissance. Italy continues to project a powerful, formative influence into our own day through the work of contemporary writers like, Elena Ferrante, Dacia Maraini, Primo Levi, Italo Calvino and Umberto Eco; composers like Gioachino Rossini, Giacomo Puccini and Giuseppe Verdi; philosophers and critics like Benedetto Croce, Antonio Gramsci, Fanco Cassano and Giorgio Agamben; educators like Maria Montessori; and filmmakers like Federico Fellini, Pier Paolo Pasolini and Roberto Benigni. Thus, in addition to supplying the necessary background for advanced professional study and specialization, the Italian major introduces students to a rich literary, artistic and intellectual history at the roots of the modern world.

For courses in other departments with an Italian emphasis (including classics, humanities, art and art history, history and honors) see those sections.

## Requirements

### Program Requirements

Students must complete the general requirements of the College of Arts and Sciences and the required courses listed below. Thirty-six credit hours beyond the first year with a 2.00 (C) grade point average or better are required, as listed below.

### Required Courses and Credits

Code	Title	Credit Hours
<b>Italian Lower-Division Courses</b>		
ITAL 2110	Intermediate Italian Reading, Grammar, and Composition 1	4
ITAL 2120	Intermediate Italian Reading, Grammar, and Composition 2	4
ITAL 2130	Introduction to Literary Analysis	3
<b>Italian 3000-Level Courses</b>		
ITAL 3015	Advanced Composition 1	3
Select one of the following:		3
ITAL 3025	Advanced Composition 2: Introduction to Literary Writing	
ITAL 3030	Storia dell'arte: Advanced Composition/Conversation 3	
ITAL 3040	Italian Conversation Through Cinema	
Select two of the following (prereq. ITAL 2130):		6
ITAL 3140	Literary and Artistic Cultures in Italy 3: 1900-present	
ITAL 3150	Literary and Artistic Cultures in Italy 2: 1800-1900	
ITAL 3160	Literary and Artistic Cultures in Italy 1: 1200-1800	

**Italian 4000-Level Courses**

Students must take at least three 4000-level courses in the Italian department, of which one will be: 9

ITAL 4990 Senior Seminar <sup>1</sup>

**Upper-Division Electives**

In consultation with the major advisor, select 6 credit hours of electives from the Department of French and Italian, with the course prefix of ITAL. 6

Total Credit Hours 38

<sup>1</sup> Before registering for ITAL 4990, students must meet with the Italian advisor.

**Honors Requirements**

Honors candidates must meet all of the regular requirements for the major, plus the following:

Code	Title	Credit Hours
FREN 3200	Introduction to Literary Theory and Advanced Critical Analysis <sup>1</sup>	3
Two semesters of independent study or research		
ITAL 4840	Independent Study	6
Total Credit Hours		9

<sup>1</sup> NOTE: FREN 3200 is taught in English and presupposes no knowledge of French.

**Graduating in Four Years**

Consult the Four-Year Guarantee Requirements for information on eligibility. The concept of "adequate progress" as it is used here only refers to maintaining eligibility for the four-year guarantee; it is not a requirement for the major. To maintain adequate progress in Italian, students should meet the following requirements:

- Declare the Italian major by the beginning of the second semester of study.
- Complete 12 credit hours of requirements (including ITAL 2110 and ITAL 2120) by the end of the second (sophomore) year.
- Complete 12 of the remaining 24 credit hours by the end of the third (junior) year.
- Complete the remainder of the major requirements in the fourth (senior) year.

**Recommended Four-Year Plan of Study**

Through the required coursework for the major, students will fulfill all 12 credits of the Arts & Humanities area of the Gen Ed Distribution Requirement and possibly the Upper-division Written Communication component of the Gen Ed Skills Requirement.

Course	Title	Credit Hours
<b>Year One</b>		
<b>Fall Semester</b>		
ITAL 1010	Beginning Italian 1 (If needed, does not fulfill Italian major course requirements)	4
Gen. Ed. Skills course (example: Lower-division Written Communication)		3

Gen. Ed. Distribution/Diversity course (example: Social Sciences/US Perspective)		3
Elective/MAPS		3
Credit Hours		13

**Spring Semester**

ITAL 1020	Beginning Italian 2 (If needed, does not fulfill Italian major course requirements)	4
Gen. Ed. Skills course (example: QRMS)		3
Gen. Ed. Distribution course (example: Natural Sciences)		3
Elective/MAPS		4
Credit Hours		14

**Year Two**

**Fall Semester**

ITAL 2110	Intermediate Italian Reading, Grammar, and Composition 1	4
Gen. Ed. Distribution/Diversity course (example: Social Sciences/Global Perspective)		3
Gen. Ed. Distribution course (example: Natural Sciences with Lab)		4
Elective/MAPS		3
Elective/MAPS		3
Credit Hours		17

**Spring Semester**

ITAL 2120	Intermediate Italian Reading, Grammar, and Composition 2	4
ITAL 2130	Introduction to Literary Analysis	3
Gen. Ed. Distribution course (example: Natural Sciences)		3
Gen. Ed. Distribution course (example: Social Sciences)		3
Elective		3
Credit Hours		16

**Year Three**

**Fall Semester**

Gen. Ed. Distribution course (example: Natural Sciences)		3
Upper-Division Elective		3
Elective		3
Elective		3
Credit Hours		15

**Spring Semester**

ITAL 3140	Literary and Artistic Cultures in Italy 3:	3
or ITAL 3150	1900-present	
or ITAL 3160	or Literary and Artistic Cultures in Italy 2: 1800-1900 or Literary and Artistic Cultures in Italy 1: 1200-1800	
ITAL Upper-Division elective (options include courses outside of ITAL with an Italian topic)		3
Gen. Ed. Skills course (example: Upper-division Written Communication, if necessary)		3
Upper-Division Elective		3

ITAL 3025 or ITAL 3030 or ITAL 3040	Advanced Composition 2: Introduction to Literary Writing or Storia dell'arte: Advanced Composition/Conversation 3 or Italian Conversation Through Cinema	3
Credit Hours		15
<b>Year Four</b>		
<b>Fall Semester</b>		
ITAL 3140 or ITAL 3150 or ITAL 3160	Literary and Artistic Cultures in Italy 3: 1900-present or Literary and Artistic Cultures in Italy 2: 1800-1900 or Literary and Artistic Cultures in Italy 1: 1200-1800	3
ITAL Upper-Division elective (options include courses outside of ITAL with an Italian topic)		3
ITAL 4000-level elective		3
Gen. Ed. Distribution course (example: Social Sciences)		3
Upper-Division Elective		3
Credit Hours		15
<b>Spring Semester</b>		
ITAL 4990	Senior Seminar (4840 Independent Study if completing Honors)	3
ITAL 4000-level elective		3
Upper-Division Elective		3
Upper-Division Elective		3
Elective		3
Credit Hours		15
Total Credit Hours		120

## Learning Outcomes

The undergraduate degree in Italian emphasizes knowledge and awareness of:

- A range of critical approaches and methodologies for the analysis of Italian culture.
- The fundamental outlines of Italian history and culture from the Middle Ages to the present.
- Contemporary issues in Italian culture, as debated in media, literary and visual texts.
- Significant works in the Italian literary, cinematic and artistic traditions.
- The grammatical structure of modern standard Italian.

In addition, students completing the degree in Italian are expected to acquire the ability and skills to:

- Speak and understand modern, spoken, standard Italian sufficient for all purposes of daily life and in academic and professional settings.
- Read and write modern Italian in everyday, academic and professional settings.
- Follow with reasonable comprehension authentic Italian film and other media (such as television, podcasts, print and music).

## French - Minor

We offer undergraduate courses in French language, literature and culture.

The language courses make use of CU Boulder's ALTEC language lab (<http://www.colorado.edu/frenchitalian/altec-facilities>) to provide maximum flexibility in language learning, with rich audio-visual content. Courses cover spoken and written language, literature, composition, conversation and Business French.

Culture courses focus on current events, differences between the U.S. and France, professional development, and the culture of the larger Francophone world.

Literature courses cover topics ranging from the Middle Ages to the 21st-century novel. We also offer study abroad programs (<http://www.colorado.edu/frenchitalian/study-abroad>) in a number of French-speaking locations.

Declaration of a minor is open to any student enrolled at CU Boulder, regardless of college or school. To declare a French minor, visit [www.colorado.edu/advising](http://www.colorado.edu/advising) (<http://www.colorado.edu/advising>).

## Requirements

### Prerequisites

Prerequisite for admission to courses for the minor is FREN 2120 or equivalent.

### Program Requirements

A total of 18 upper-division credit hours is required for the minor. All courses counted for the minor must be numbered 3000 or above. Courses taught by the department in English, do not, in general, apply to the minor, with the exception of FREN 3200 and FREN 3300.

All courses for minor credit hours must be taken for a grade. The only exception to this rule is course credit, which although taken for a grade, is recorded pass/fail on the student's transcript (this includes transfer credit from accredited universities and courses taken on CU study abroad programs).

Students must earn a minimum grade of C- in all courses counted for the minor. The GPA for all coursework taken in the minor department must be equal to 2.00 (C) or higher.

A maximum of 6 credit hours upper-division credit may be transferred from other universities or non-CU Boulder study abroad programs. Courses taken on CU Boulder study abroad programs are considered to be CU credit hours and are not subject to this limitation.

## Italian - Minor

A minor program is offered in Italian. Declaration of a minor is open to any student enrolled at CU Boulder, regardless of college or school.

To declare an Italian minor, go to the Academic Advising Center (<https://www.colorado.edu/artsscience-advising>) website and make an appointment with the Italian advisor.

## Requirements

### Program Requirements

Students must consult with the Italian advisor during each registration period and before a study abroad program. All courses must carry an ITAL subject code, students may apply a maximum of 3 credit hours from Italian courses taught in English, and students may apply credit hours to the Italian minor earned through a CU Boulder Study Abroad program in Italy. Specific course equivalencies must be determined by the Italian advisor.

Students may apply a maximum of 9 transfer credit hours to the Italian minor, and a maximum of 6 credit hours at the upper-division level. Specific course equivalencies must be determined by an Italian faculty member.

Students must maintain an overall and Italian grade point average of 2.000 (C). They must earn a grade of C- or higher in ALL courses required for the Italian minor and may not take minor requirement courses pass/fail.

### Required Courses and Credits

Code	Title	Credit Hours
<b>Lower-Division Courses</b>		
ITAL 2110	Intermediate Italian Reading, Grammar, and Composition 1	4
ITAL 2120	Intermediate Italian Reading, Grammar, and Composition 2 <sup>1</sup>	4
ITAL 2130	Introduction to Literary Analysis <sup>1</sup>	3
<b>Upper-Division Courses</b>		
Select one of the following (prereq. of ITAL 2130 must be met):		3
ITAL 3015	Advanced Composition 1	
ITAL 3030	Storia dell'arte: Advanced Composition/Conversation 3	
ITAL 3040	Italian Conversation Through Cinema	
Select one of the following (prereq. of ITAL 2120 must be met):		3
ITAL 3140	Literary and Artistic Cultures in Italy 3: 1900-present	
ITAL 3150	Literary and Artistic Cultures in Italy 2: 1800-1900	
ITAL 3160	Literary and Artistic Cultures in Italy 1: 1200-1800	
Select an additional Italian upper-division elective.		3
Total Credit Hours		20

<sup>1</sup> ITAL 2120 and ITAL 2130 may be taken concurrently; see Italian advisor.

## Geography

The Geography Department offers theoretical and applied work in human geography, environment and society geography, physical geography and geographic information science. Each subfield covers a broad range of topics. Human geography includes political, cultural, development, feminist, population and urban geography. Environment and society geography includes political ecology, natural hazards and conservation

practice. Physical geography includes climatology, geomorphology, hydrology and biogeography. Geographic information science includes spatial analysis using GIS, remote sensing and cartography. The department also offers regionally focused courses on mountain geography and geographies of China, Latin America, Africa and South Asia. To complement its curriculum, the department also offers internship opportunities for geography majors.

The undergraduate degree in geography emphasizes knowledge and awareness of:

- the unique contributions of the discipline to understanding the spatial components of problems and the diverse factors relating to human interaction with the environment;
- the spatial distributions of physical and human characteristics on the Earth surface, the general patterns these form and the processes that have created and are changing these patterns;
- major themes of geographical analysis, including human and physical characteristics of place; human-environmental relations; movement of people, ideas and products; and regionalization; and
- the general geographical principles of human-environment interaction, global change and human spatial organization.

In addition, students completing the degree in geography are expected to acquire proficiency in:

- one or more of the specific geographic skill areas of cartography, remote sensing and geographic information systems;
- writing, quantitative methods, computer literacy, and library and field methods of data collection; and
- identifying the geographic dimensions of a problem and analyzing, synthesizing and evaluating relevant data and applying geographic principles offering a geographic perspective on that problem.

The course code for this program is GEOG.

## Minimum Academic Preparation Standards (MAPS)

To fulfill a MAPS deficiency in geography, students may take one of the following courses: GEOG 1962, GEOG 1972, GEOG 1982, GEOG 1992, GEOG 2092 or pass the Geography Exemption Exam. Declared majors or minors with junior standing (57 credit hours minimum) or transfers with junior standing may take GEOG 3682, GEOG 3742 or GEOG 4712 to fulfill the MAPS deficiency.

For more information on the exemption exam, contact Testing Services at 303-492-5854 or visit the Testing Services (<https://www.colorado.edu/career/testing-services>) webpage.

## Geography Honors Program

Students interested in earning honors with their work in geography should contact the departmental honors advisor during their junior year.

## Geography Internship Program

To complement its curriculum, the department offers geography majors internship opportunities that can be used to earn credit towards their degree. Students interested in pursuing an internship should contact the Department for information on eligibility and terms.

## Residential Academic Program

Students may visit the Geography Department Office to learn more about the Baker Residential Academic Program (<https://www.colorado.edu/bakerrap>).

## Bachelor's Degree

- Geography - Bachelor of Arts (BA) (p. 303)

## Minor

- Geography - Minor (p. 307)

## Certificate

- GIS and Computational Science - Certificate (p. 309)

## Faculty

While many faculty teach both undergraduate and graduate students, some instruct students at the undergraduate level only. For more information, contact the faculty member's home department.

Professor, Chair; PhD, University of California, Berkeley

## Courses

### **GEOG 1001 (4) Environmental Systems: Climate and Vegetation**

Lect. and lab. Introduces the atmospheric environment of the Earth: elements and controls of climate and their implications for hydrology, vegetation, and soils. Emphasizes distribution of physical features across the Earth's surface and interactions between humans and their environment, especially those leading to global change on the decade to century time scale.

**Additional Information:** GT Pathways: GT-SC1 - Natural Physical Sci:Lec Crse w/ Req Lab

Arts Sci Core Curr: Natural Science Sequence

Arts Sci Core Curr: Natural Science Lab

Arts Sci Gen Ed: Distribution-Natural Sciences

Arts Sci Gen Ed: Distribution-Natural Sci Lab

Departmental Category: Physical Geography

MAPS Course: Natural Science Lab or Lab/Lec

MAPS Course: Natural Science

### **GEOG 1011 (4) Environmental Systems: Landscapes and Water**

Lect. and lab. Introduces landscapes and flowing water, emphasizing the formation and geographic distribution of mountains, volcanoes, valleys, and deserts, and their shaping by rivers and glaciers. Includes field trips.

**Additional Information:** GT Pathways: GT-SC1 - Natural Physical Sci:Lec Crse w/ Req Lab

Arts Sci Core Curr: Natural Science Sequence

Arts Sci Core Curr: Natural Science Lab

Arts Sci Gen Ed: Distribution-Natural Sciences

Arts Sci Gen Ed: Distribution-Natural Sci Lab

Departmental Category: Physical Geography

MAPS Course: Natural Science Lab or Lab/Lec

MAPS Course: Natural Science

### **GEOG 1962 (3) Geographies of Global Change**

Familiarizes students with a geographic understanding of conflicts around the globe and of economic, political and cultural globalization. Analyzes the relationship between global forces, regions and local interests in contemporary territorial and geopolitical tensions and conflicts, emphasizing issues such as nationalism, migration, labor and natural resources. Formerly GEOG 2002.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

Departmental Category: Asia Content

MAPS Course: Geography

### **GEOG 1972 (3) Environment-Society Geography**

Examines interactions between humans and the environment across the globe from a geographical perspective. Introduces different analytical perspectives through which to understand nature-society relationships, with a focus on social, cultural and political-economic dimensions, and examples from different natural resource sectors (e.g., water, agriculture) and countries. Formerly GEOG 2412.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

Departmental Category: Environment-Society Geography

MAPS Course: Geography

### **GEOG 1982 (3) World Regional Geography**

Introduces a comparative framework for recognizing and understanding world regions. Units combine historical understanding with discussion of problems and challenges that face them, including discussion of economic growth, inequality, political conflict, colonialism, race and climate change.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

Departmental Category: Asia Content

MAPS Course: Geography

### **GEOG 1992 (3) Human Geographies**

Examines social, political, economic, and cultural processes creating the geographical worlds in which we live, and how these spatial relationships shape our everyday lives. Studies urban growth, geopolitics, agricultural development and change, economic growth and decline, population dynamics, and migration exploring both how these processes work at global scale as well as shape geographies of particular places.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

MAPS Course: Geography

### **GEOG 2053 (3) Mapping a Changing World**

Examines roles that maps, geospatial data and technology play in understanding and explaining our world with a focus on geospatial literacy. Emphasizes critical thinking about the use of natural and social science data and discusses maps used for social and political purposes. In hands-on exercises students learn how to critically read and evaluate maps for expanding spatial awareness of nature and society.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

Arts Sci Gen Ed: Distribution-Social Sciences

Departmental Category: Techniques (Skills)

### **GEOG 2092 (3) Advanced Introduction to Human Geography**

Provides a rigorous introduction to key analytical concepts of human geography - place, space, scale, regions, nature, landscapes and territory - while giving an overview of topics addressed in subfields including economic geography, political geography, cultural geography and development geography. Specific topics may vary slightly from semester to semester but will likely include borders and migration, maps, tourism, climate change and the Anthropocene, geopolitical conflict, development, urbanization, nationalism, gender, race, inequality and identity.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

MAPS Course: Geography

### **GEOG 2271 (3) Introduction to the Arctic Environment**

Rising temperatures and shrinking sea ice are only the most visible indications of a rapidly changing Arctic. This course addresses the climate of the Arctic and the changes being observed at a non-mathematical level. It is intended to provide students with a basic understanding of the Arctic physical environment.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

Departmental Category: Physical Geography

### **GEOG 2852 (3) Contemporary Southeast Asia: Environmental Politics**

Examines globally pressing questions of environmental sustainability, regional inequality and development in the dynamic and heterogeneous landscapes of contemporary Southeast Asia. Focuses on interactions between histories of uneven development and contemporary debates over energy and infrastructure, food security, governance and access to land, forest and water-based resources.

**Equivalent - Duplicate Degree Credit Not Granted:** ASIA 2852

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

Arts Sci Gen Ed: Diversity-Global Perspective

Departmental Category: Environment-Society Geography

**GEOG 3022 (3) Climate Politics and Policy**

Engages students in exploring the realm of contemporary and historical climate policy at three major levels of government: international, national and local/regional. Through course lectures, discussions, readings and activities, students will become conversant with the actors, mechanisms and concerns involved in climate policy and politics and develop their own sense of how to judge the success of climate policies. Fulfills intermediate social science requirement in Environmental Studies Major.

**Equivalent - Duplicate Degree Credit Not Granted:** ENVS 3022

**Recommended:** Prerequisite ENVS 1000 or GEOG 1972.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Environment-Society Geography

**GEOG 3023 (4) Statistics and Geographic Data**

Introduces computational and statistical tools to solve problems in the geographic domain. Provides an understanding of introductory statistical concepts and applies them to real world problems through lab exercises. Emphasizes spatial data, which requires specialized descriptive and predictive analysis techniques. Demonstrates how to manipulate and visualize data, and make inference using state-of-the-art statistics software, applied to various social and earth science problems.

**Equivalent - Duplicate Degree Credit Not Granted:** GEOL 3023

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences  
Departmental Category: Techniques (Skills)

**GEOG 3053 (4) Geographic Information Science: Mapping**

Introduction to Geographic Information Systems (GIS) and the fundamentals of cartographic design. Emphasis on the science and art of map design in a GIS environment. Students will learn how to build a spatial database, implement best practice for processing various types of environmental and social data and apply basic visual analytics to understand spatial patterns.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors).

**Recommended:** Prerequisite basic familiarity with computers and an introductory course in statistics (may be taken concurrently).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences  
Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Techniques (Skills)

**GEOG 3251 (3) Mountain Geography**

Surveys mountain environments and their human use with illustrations from temperate and tropical mountain areas.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences  
Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Physical Geography

**GEOG 3301 (3) Analysis of Climate and Weather Observations**

Discusses instruments, techniques and statistical methods used in atmospheric observations. Covers issues of data accuracy and analysis of weather maps. Provides application to temperature and precipitation records, weather forecasting and climate change trends. Uses computers to access data sets and process data.

**Equivalent - Duplicate Degree Credit Not Granted:** ATOC 3300

**Requisites:** Requires prerequisite courses of APPM 1340 and 1345 or APPM 1350 or ECON 1088 or MATH 1081 or MATH 1300 or MATH 1310 and ATOC 1050 and ATOC 1060 or GEOG 3601 or ATOC 3600 or ENVS 3600 or GEOG 1011 (all minimum grade D-).

**Recommended:** Prerequisites ATOC 1050 or ATOC 1060 or ATOC 3600 or GEOG 3601 or ENVS 3600 or GEOG 1001 and one semester calculus.

**Additional Information:** Arts Sci Core Curr: Natural Science Non-Sequence  
Arts Sci Gen Ed: Distribution-Natural Sciences  
Departmental Category: Physical Geography

**GEOG 3351 (3) Biogeography**

Surveys and analyzes plant and animal distributions on a world scale from ecological and historical perspectives. Emphasizes human impact on species.

**Requisites:** Requires prerequisite course of GEOG 1001 (minimum grade D-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences  
Departmental Category: Physical Geography

**GEOG 3402 (3) Natural Hazards**

Explores the impacts of extreme geophysical events on human society. Emphasizes adaptations to extreme events and ways of reducing vulnerability and damage.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Environment-Society Geography

**GEOG 3412 (3) Conservation Practice and Resource Management**

Studies policy and management of natural resources. Emphasizes practical approaches to the conservation and management of soil, land, water and air resources.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Environment-Society Geography

**GEOG 3422 (3) Political Ecology**

Introduces students to political ecology, an influential approach to understanding society-environment relationships. Explores issues including different philosophies of nature and wilderness, the politics of conservation, causes of environmental degradation, environmental conflict and indigenous ecological knowledge.

**Recommended:** Prerequisite GEOG 1972.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Environment-Society Geography

**GEOG 3511 (4) Introduction to Hydrology**

Examines hydrologic processes in the surface environment, emphasizing the environment of the western United States. Emphasizes natural processes and their management to augment water resources.

**Requisites:** Requires a prerequisite course of GEOG 1011 or GEOL 1010 (minimum grade D-).

**Additional Information:** Arts Sci Core Curr: Natural Science Non-Sequence  
Arts Sci Gen Ed: Distribution-Natural Sciences  
Arts Sci Gen Ed: Distribution-Natural Sci Lab  
Departmental Category: Physical Geography

**GEOG 3601 (3) Principles of Climate**

Describes the basic components of the climate system: the atmosphere, ocean, cryosphere and lithosphere. Investigates the basic physical processes that determine climate and link the components of the climate system. Covers the hydrological cycle and its role in climate, climate stability and global change.

**Equivalent - Duplicate Degree Credit Not Granted:** ATOC 3600 and ENVS 3600

**Requisites:** Restricted to Geography (GEOG) or Environmental Studies (ENVS) majors or Atmospheric Oceanic Sciences (ATOC) minors only.

**Recommended:** Prerequisites one semester of calculus and ATOC 1060 or ATOC 3300 or GEOG 3301 or GEOG 1001.

**Additional Information:** Arts Sci Core Curr: Natural Science Non-Sequence  
Arts Sci Gen Ed: Distribution-Natural Sciences  
Departmental Category: Physical Geography

**GEOG 3612 (3) Geography of American Cities**

Introduces geography of American cities. Includes demographic and ideological contexts of urban development, emergence of the city system, location theory and rent models, and urban-economic problems.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**GEOG 3622 (3) Cities of the Global South**

Examines the geographies, processes, structural forces and everyday forms of urban life that are at the core of rapid urban transformation in the global South. Through using interdisciplinary scholarship, empirical case studies and key theoretical work, the course covers themes such as migration and urbanization, informality and governance, infrastructures of everyday life and urban environmental politics.

**Equivalent - Duplicate Degree Credit Not Granted:** IAFS 3670

**GEOG 3662 (3) Economic Geography**

Presents theories of the spatial organization of economic production, consumption and exchange systems. Geographical dynamics of industrialization, urbanization and economic growth. Examination of property, labor and social conflict, with a focus on political economy.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**GEOG 3672 (3) Gender and the Global Economy**

Examines the role of gender in global economy. Explores the impacts of colonialism and modern global economy on gender relations, with particular emphasis on Third World societies. Also focuses on related issues of population politics, environmental crisis, women's sexual exploitation, and women's social movements worldwide.

**Equivalent - Duplicate Degree Credit Not Granted:** WGST 3672

**Recommended:** Prerequisite GEOG 1962 or GEOG 1972 or GEOG 1982 or GEOG 1992 or GEOG 2092 or WGST 2000 or WGST 2600.

**Additional Information:** Arts Sci Core Curr: Human Diversity

Arts Sci Gen Ed: Distribution-Social Sciences

Arts Sci Gen Ed: Diversity-Global Perspective

Departmental Category: Human Geography

**GEOG 3682 (3) Geography of International Development**

Compares and contrasts global characteristics and processes of development, emphasizing the developing countries of the world. Integrates theories of development, specific development topics, and case studies to explore the problems of development.

**Recommended:** Prerequisite GEOG 1962 or GEOG 1972 or GEOG 1982 or GEOG 1992 or GEOG 2092.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

Departmental Category: Human Geography

Departmental Category: Asia Content

**GEOG 3692 (4) Introduction to Global Public Health**

Introduces global health by putting its contemporary definition, determinants, development and direction as a field into a broad global context. The course is divided into four core topics: 1) the burden and distribution of disease and mortality; 2) the determinants of global health disparities; 3) the development of global health policies; and 4) the outcomes of global health interventions. Required for the Public Health Certificate.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

Arts Sci Gen Ed: Diversity-Global Perspective

**GEOG 3742 (3) Place, Power, and Contemporary Culture**

Examines the relationship between places, power, and the dynamics of culture. Explores how the globalization of economics, politics, and culture shapes cultural change. Looks at how place-based cultural politics both assist and resist processes of globalization.

**Recommended:** Prerequisite GEOG 1962 or GEOG 1982 or GEOG 1992 or GEOG 2092.

**Additional Information:** Arts Sci Core Curr: Contemporary Societies

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Distribution-Social Sciences

Departmental Category: Human Geography

**GEOG 3812 (3) Mexico, Central America, and the Caribbean**

Introduces the geography of Latin America, focusing on the lands and peoples of Mexico, Central America, and the Caribbean. Examines regional and national culture, history, environment, and population, as well as ongoing environmental and socioeconomic changes.

**Recommended:** Prerequisite GEOG 1962 or GEOG 1972 or GEOG 1982 or GEOG 1992 or GEOG 2092.

**Additional Information:** Arts Sci Gen Ed: Diversity-Global Perspective

Arts Sci Gen Ed: Distribution-Social Sciences

Departmental Category: Human Geography

**GEOG 3822 (3) Geography of China**

Surveys the world's most populous country, examining physical and historical geography, urbanization and regional development, agriculture, population, energy, and the environment. Seeks to situate China's development in a broader Asian and global context.

**Recommended:** Prerequisite GEOG 1962 or GEOG 1972 or GEOG 1982 or GEOG 1992 or GEOG 2092.

**Additional Information:** Arts Sci Core Curr: Human Diversity

Arts Sci Gen Ed: Diversity-Global Perspective

Arts Sci Gen Ed: Distribution-Social Sciences

Departmental Category: Human Geography

Departmental Category: Asia Content

**GEOG 3832 (3) Geographies of South Asia**

Examine the geographies of South Asia through four interrelated themes: Territory, Trade, Transportation, and Tributaries. Learn about territory including physical features, political conflicts and changing borders. Explore trade, transportation routes, and tributaries to understand economic, social/cultural and political geographies. Investigate culture and society through analyses of gender roles/relations.

**Recommended:** Prerequisites GEOG 1962 or GEOG 1972 or GEOG 1982 or GEOG 1992 or GEOG 2092.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

Departmental Category: Human Geography

Departmental Category: Asia Content

**GEOG 3840 (1-6) Undergraduate Independent Study**

Provides an independent study opportunity, by special arrangement with faculty, for students presenting strong geography preparation. Instructor consent required.

**Repeatable:** Repeatable for up to 8.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Restricted to Geography (GEOG) majors only.

**GEOG 3842 (3) Human Geography of Czechia: Political, Economic and Social Transitions**

Excursions in Prague will begin with an understanding of Czech history through various imprints on the landscape, such as city planning, design, architecture and culture. This will be followed by a discussion of Prague in the 20th century and the various political, economic and social transitions. These transitions will be explored through field based study in and outside of Prague.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**GEOG 3862 (3) Geography of Africa**

Studies physical and cultural regions of Africa. Analyzes and compares the development of present nation-states and contemporary geographic issues including globalization, conservation, public health and food security.

**Recommended:** Prerequisite GEOG 1962 or GEOG 1972 or GEOG 1982 or GEOG 1992 or GEOG 2092.

**Additional Information:** Arts Sci Gen Ed: Diversity-Global Perspective

Arts Sci Gen Ed: Distribution-Social Sciences

Departmental Category: Human Geography

**GEOG 3882 (3) Geography of the Former Soviet Union**

Examines the contemporary social, political, population, cultural, ethnic and resource geography of the former Soviet Union. Relations between Russia and neighboring countries are also considered. Historical and physical geography are introduced as background to understanding post-Soviet developments and challenges.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**GEOG 3930 (3) Internship**

Provides an academically supervised opportunity for advanced geography or environmental studies majors to work in public and private organizations on projects related to the student's career goals and to relate classroom theory to practice. Instructor consent required.

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Restricted to Geography (GEOG) or Environmental Studies (ENVS) majors only.

**GEOG 4001 (1-4) Topics in Physical Geography**

Examines various topics in physical geography that are not typically covered in the curriculum. Offered intermittently depending on student demand and availability of instructors.

**Repeatable:** Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**GEOG 4002 (1-4) Topics in Human and Environment/Society Geography**

Examines various topics in human and environment / society geography that are not typically covered in the curriculum. Offered intermittently depending on student demand and availability of instructors.

**Repeatable:** Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**GEOG 4003 (1-4) Topics in Geographic Skills**

Examines various topics in geographical skills and techniques that are not typically covered in the curriculum. Offered intermittently depending on student demand and availability of instructors.

**Repeatable:** Repeatable for up to 12.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**GEOG 4023 (4) Advanced Quantitative Methods for Spatial Data**

Reviews fundamental statistical and quantitative modeling techniques and introduces more advanced statistical techniques widely used in geography today. Emphasizes geographic examples and spatial problems teaching hands-on skills in statistical programming. Topics covered include generalized linear models, spatial autocorrelation, spatial regression methods, and working with complex datasets.

**Equivalent - Duplicate Degree Credit Not Granted:** GEOG 5023

**Requisites:** Requires prerequisite course of GEOG 3023 (minimum grade D-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Methods

**GEOG 4043 (4) Advanced Geovisualization and Web Mapping**

Advanced technical course in web-based cartography and geovisualization stressing the important role digital cartography plays in cyberspace and society. Focuses on principles of effective cartographic design in multimedia and hypertext environments. Labs are organized around hands-on active learning projects demonstrating skills in geovisualization and cartographic practice.

**Equivalent - Duplicate Degree Credit Not Granted:** GEOG 5043

**Requisites:** Requires prerequisite course of GEOG 3053 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

Arts Sci Gen Ed: Distribution-Social Sciences

Departmental Category: Methods

**GEOG 4093 (4) Remote Sensing of the Environment**

Covers acquisition and interpretation of environmental data by remote sensing. Discusses theory and sensors as well as manual and computerized interpretation methods. Stresses infrared and microwave portions of the spectrum.

**Equivalent - Duplicate Degree Credit Not Granted:** GEOG 5093 and GEOL 4093 and GEOL 5093

**Requisites:** Requires prerequisite course of APPM 1340 1345 or APPM 1350 or 4570 or ECON 1088 or 3818 or MATH 1081 or 1300 or 1310 or 2510 or ANTH 4000 or BCOR 1020 or GEOG 3023 or GEOL 3023 or PSCI 2075 or PSYC 2111 or SOCY 2061 or 4061 (minimum grade D-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sci Lab

Arts Sci Gen Ed: Distribution-Natural Sciences

Departmental Category: Methods

**GEOG 4100 (1-3) Special Topics in Geography**

Various topics not normally covered in the curriculum; offered intermittently depending on student demand and availability of instructors. See also GEOG 4110 and GEOG 4120.

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**GEOG 4103 (4) Geographic Information Science: Spatial Analytics**

Explores advanced topics in geospatial databases, spatial analytics and geoprocessing in a Geographic Information System (GIS). Emphasizes how geographic concepts are linked to methodological frameworks for recording, transforming, storing/retrieving, analyzing, and processing geographic data as well as various forms of uncertainty. Exercises demonstrate the application of GIS-based methods to real world scenarios in interdisciplinary settings.

**Equivalent - Duplicate Degree Credit Not Granted:** GEOG 5103

**Requisites:** Requires prereq (GEOG3053) any one of the following (ANTH4000 or APPM4570 or BCOR1020 or ECON3818 or GEOG3023 or GEOL3023 or MATH2510 or PSCI2075 or PSYC2111 or SOCY2061 or 4061) (all min grade C-). Restricted to students with 57-180 credits (JR/SR).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sci Lab

Arts Sci Gen Ed: Distribution-Natural Sciences

Departmental Category: GIScience

**GEOG 4110 (1-4) Special Topics in Geography**

Various topics not normally covered in the curriculum; offered intermittently depending on student demand and availability of instructors. See also GEOG 4100 and GEOG 4120.

**Repeatable:** Repeatable for up to 8.00 total credit hours.

**GEOG 4120 (1-3) Special Topics in Geography**

Various topics not normally covered in the curriculum; offered intermittently depending on student demand and availability of instructors. See also GEOG 4100 and GEOG 4110.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**GEOG 4173 (3) Research Seminar**

Examines the nature of research and develops pregraduate skills for geographic research, emphasizing problem definition, methods, sources, data interpretation, and writing. Recommended for students pursuing honors.

**Requisites:** Restricted to students with 87-180 credits (Senior, Fifth Year Senior) Geography (GEOG) or Environmental Studies (ENVS) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences  
Departmental Category: Methods

**GEOG 4201 (3) Biometeorology**

Interdisciplinary science, studying the interactions between atmospheric processes and living organisms (plants, animals, and humans).

Discusses how organisms adapt to a changing environment. Uses a practical, problem-solving approach to explore these interactions.

**Equivalent - Duplicate Degree Credit Not Granted:** ENVS 4201

**Requisites:** Requires prereq of GEOG 1001 any of APPM 1340 1345 or APPM 1350 or 4570 or ECON 1088 or 3818 or MATH 1081 or 1300 or 1310 or 2510 or ANTH 4000 or BCOR 1020 or GEOG 3023 or GEOL 3023 or PSCI 2075 or PSYC 2111 or SOCY 2061 or 4061 (min grade D-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences  
Departmental Category: Physical Geography

**GEOG 4203 (4) Geographic Information Science: Spatial Modeling**

Focuses on the use and development of advanced models for human and environmental applications in a geospatial environment integrating raster and vector data models. Covers terrain and hydrologic modeling, geostatistical modeling, dasymmetric modeling, as well as multi-criteria modeling. Group projects critically design, implement and test spatial models to develop independent skillsets in a chosen problem setting.

**Equivalent - Duplicate Degree Credit Not Granted:** GEOG 5203

**Requisites:** Requires prerequisite course of GEOG 4103 (minimum grade C-).

**Recommended:** Requisite working knowledge of GIS software.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sci Lab  
Arts Sci Gen Ed: Distribution-Natural Sciences  
Departmental Category: GIScience

**GEOG 4241 (4) Principles of Geomorphology**

Studies weathering, mass-wasting, fluvial, wind, and marine processes and the resulting landforms.

**Equivalent - Duplicate Degree Credit Not Granted:** GEOL 4241

**Requisites:** Requires prereq crs GEOG 1011 or GEOL 1010 or 1020 or 1030 or 1040 or 1060 and APPM 1340 and 1345 or APPM 1350 or ECON 1088 or MATH 1081 or 1300 or 1310 (min grade D-). Restricted to students with 57-180 credits (Jr/Sr) EVOC, GEOG, GEOL, ENVS mjrs only

**Additional Information:** Arts Sci Core Curr. Natural Science Non-Sequence  
Arts Sci Gen Ed: Distribution-Natural Sciences  
Arts Sci Gen Ed: Distribution-Natural Sci Lab  
Departmental Category: Physical Geography

**GEOG 4251 (4) Fluvial Geomorphology**

Emphasizes landscapes formed by running water. Includes basic fluid mechanics, sediment transport, hillslope and channel erosion, and sediment yield.

**Equivalent - Duplicate Degree Credit Not Granted:** GEOG 5251

**Requisites:** Requires prerequisite courses of GEOG 1011 and GEOG 3511 (minimum grade D-).

**Recommended:** Prerequisite GEOG 3023.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences  
Arts Sci Gen Ed: Distribution-Natural Sci Lab  
Departmental Category: Physical Geography

**GEOG 4261 (3) Glaciers and Permafrost**

Surveys the major terrestrial components of the cryosphere, including permafrost, glaciers and ice sheets. Emphasizes physical processes involving ice, including thermal behavior, ice deformation and mass balance, but also considers biogeochemical processes and landforms associated with ice. The climate context, including human interactions and recent climate history, will be considered. Taught in a combination lecture-seminar format.

**Requisites:** Requires prerequisite course of GEOG 1011 or GEOL 1010 (minimum grade D-).

**Recommended:** Prerequisite GEOG 4241.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences  
Departmental Category: Physical Geography

**GEOG 4271 (3) The Arctic Climate System**

Understanding the climate of the Arctic requires a synthetic, system oriented approach. The course focuses on the intimate linkages between the atmosphere, ocean and land that give the Arctic region its unique character, link the Arctic to the larger global climate system, and promote understanding the rapid changes occurring in the Arctic.

**Equivalent - Duplicate Degree Credit Not Granted:** GEOG 5271

**Requisites:** Requires prerequisite course of GEOG 1001 or ATOC 1050 or ATOC 1060 (minimum grade D-).

**Recommended:** Prerequisites GEOG 3511 or GEOG 3601 or ATOC 3600 or ENVS 3600 and statistics.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences  
Departmental Category: Physical Geography

**GEOG 4292 (3) Migration, Immigrant Adaptation, and Development**

Examines historical and current patterns of migration with an emphasis in international movement. Looks at leading migration theories related to both origin- and destination-based explanations while critically looking at the role of development as a potential cause and consequence of population movement. Finally, covers some aspects of immigrants' social and economic adaptation to their host society.

**Equivalent - Duplicate Degree Credit Not Granted:** GEOG 5292 and ECON 4292

**Recommended:** Prerequisite GEOG 1962 or GEOG 1972 or GEOG 1982 or GEOG 1992 or GEOG 2092.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Arts Sci Gen Ed: Diversity-Global Perspective  
Arts Sci Gen Ed: Diversity-U.S. Perspective  
Departmental Category: Human Geography

**GEOG 4303 (4) Geographic Information Science: Spatial Programming**

Focuses on the extension of geographic information systems (GIS) through programming as well as on the development of algorithms for spatial analysis and information extraction in vector and raster data using open source tools. Covers concepts, principles and techniques of programming and solving spatial problems in natural and social science settings. Group projects will foster skillsets in implementing solutions to complex spatial problems.

**Equivalent - Duplicate Degree Credit Not Granted:** GEOG 5303

**Requisites:** Requires prerequisite course of GEOG 4103 (minimum grade C-).

**Recommended:** Prerequisite GEOG 4203.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sci Lab  
Arts Sci Gen Ed: Distribution-Natural Sciences  
Departmental Category: GIScience

**GEOG 4311 (3) Watershed Biogeochemistry**

Emphasizes terrestrial-aquatic linkages in headwater catchments, focusing on hydrologic pathways, isotopic and geochemical tracers, nutrient cycling, water quality, experimental manipulations, and modeling.

**Requisites:** Requires prerequisite courses of GEOG 1011 and GEOG 3511 (minimum grade D-).

**Recommended:** Requisite parametric statistics.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences  
Departmental Category: Physical Geography

**GEOG 4321 (3-4) Snow Hydrology**

Offers a multidisciplinary and quantitative analysis of physico-chemical processes that operate in seasonally snow-covered areas, from the micro- to global-scale: snow accumulation, metamorphism, ablation, chemical properties, biological aspects, electromagnetic properties, remote sensing, GIS and quantitative methods.

**Equivalent - Duplicate Degree Credit Not Granted:** GEOG 5321

**Requisites:** Requires prerequisite course of APPM 1340 1345 or APPM 1350 or 4570 or ECON 1088 or 3818 or MATH 1081 or 1300 or 1310 or 2510 or ANTH 4000 or BCOR 1020 or GEOG 3023 or GEOL 3023 or PSCI 2075 or PSYC 2111 or SOCY 2061 or 4061 (minimum grade D-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences  
Arts Sci Gen Ed: Distribution-Natural Sci Lab  
Departmental Category: Physical Geography

**GEOG 4331 (3-4) Mountain Climatology**

Surveys and analyzes climatic characteristics of mountain environments worldwide.

**Equivalent - Duplicate Degree Credit Not Granted:** GEOG 5331

**Requisites:** Requires prerequisite course of GEOG 1001 or ATOC 1050 or ATOC 1060 (minimum grade D-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences  
Departmental Category: Physical Geography

**GEOG 4371 (3) Forest Geography: Principles and Dynamics**

Surveys principles of forest geography and ecology. Includes both individual tree responses to environmental factors and species interactions within communities. Emphasizes forest dynamics and their relation to management problems.

**Equivalent - Duplicate Degree Credit Not Granted:** GEOG 5371

**Requisites:** Requires prerequisite course of GEOG 1001 (minimum grade D-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences  
Departmental Category: Physical Geography

**GEOG 4401 (3) Soils Geography**

Discusses chemical and physical properties of soils, soil development, distributions and management relevant to understanding plant-soil relationships in natural and human-altered landscapes.

**Equivalent - Duplicate Degree Credit Not Granted:** GEOG 5401

**Requisites:** Requires prerequisite course of GEOG 1011 (minimum grade D-).

**Recommended:** Prerequisite inorganic chemistry.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences  
Departmental Category: Physical Geography

**GEOG 4403 (3) Geographic Information Science: Space Time Analytics**

Focuses on understanding processes (human, natural, social or physical) through data driven analysis of patterns in spatio-temporal data. Covers a wide range of topics relevant to space time data, including pattern analysis, modeling and visualization as well as time geography and various contemporary issues in space time analytics. Utilizes a hands-on, flipped classroom approach with in-class development of technical skills.

**Equivalent - Duplicate Degree Credit Not Granted:** GEOG 5403

**Requisites:** Requires a prerequisite course of GEOG 3023 or GEOG 4023 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences  
Departmental Category: GIScience

**GEOG 4430 (3) Seminar: Conservation Trends**

Provides environmental studies or geography majors with an undergraduate format for interdisciplinary discussion and research into current and future directions of conservation.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Environment-Society Geography

**GEOG 4463 (3) Earth Analytics Data Science Bootcamp**

Learn key skills to automate data processing and visualization workflows that support both repeatable analysis and collaborative project approaches using scientific programming, version control and project management tools. Covers working with heterogeneous, large spatio-temporal data derived from space, airborne and ground based sensors and other sources. Gain applied experience through group projects that address real world problems.

**Equivalent - Duplicate Degree Credit Not Granted:** GEOG 5463

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences  
Departmental Category: Methods

**GEOG 4501 (3) Water Resources and Water Management of Western United States**

Interprets and analyzes hydroclimatic data, surface and groundwater. Critically evaluates water use, emphasizing problems associated with geographic maldistribution, appropriations, irrigation, industry, pollution and regional development.

**Equivalent - Duplicate Degree Credit Not Granted:** GEOG 5501

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Environment-Society Geography

**GEOG 4503 (3) Geographic Information Science: Project Management**

Managing a geospatial project encompasses problem identification, project design, analysis and supporting team dynamics. The class mixes lectures and class exercises with student-selected projects and works through all stages of a project from articulating an initial idea to project planning and scoping, building a work plan, timeline and budget, executing the work plan and evaluating a project's progress.

**Equivalent - Duplicate Degree Credit Not Granted:** GEOG 5503

**Requisites:** Requires prerequisite course of GEOG 3053 or GEOG 4103 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences  
Departmental Category: GIScience

**GEOG 4563 (3) Earth Analytics**

Introduce students to major unanswered questions in Earth science and to the analytical tools, including data management, analysis and visualization, necessary to explore 'big data' from a suite of sensors. Aligns with Earth Lab, a new initiative of the University's Grand Challenge (<http://www.colorado.edu/grandchallenges/>) to use our expertise in space-based observation to address our world's most pressing problems.

**Equivalent - Duplicate Degree Credit Not Granted:** GEOG 5563

**Requisites:** Requires prereq course of APPM 1340 and 1345 or one of following: GEOG 4023, 4103, 3023, APPM 1350, 4570, ECON 1088, 3818, MATH 1081, 1300, 1310, 2510, 3510, ANTH 4000, BCOR 1020, GEOL 3023, PSCI 2075, PSYC 2111, SOCY 2061 or EBIO 4410 (min grade C).

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences  
Departmental Category: Methods

**GEOG 4603 (3) GIS in the Social and Natural Sciences**

Introduces Geographic Information Systems and their underlying principles through interactive lectures and lab exercises. Students get basic skills for working in a GIS environment and learn how to handle and manage geospatial data, create maps and conduct geospatial analysis focusing on project tasks typically encountered in the social and natural sciences.

**Equivalent - Duplicate Degree Credit Not Granted:** GEOG 5603

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences  
Departmental Category: GIScience

**GEOG 4622 (3) City Life**

Analyzes social, behavioral, political and demographic factors that influence development and maintenance of communities in contemporary urban environments, with primary emphasis on U.S. cities.

**Equivalent - Duplicate Degree Credit Not Granted:** GEOG 5622

**Recommended:** Prerequisite GEOG 1962 or GEOG 1972 or GEOG 1982 or GEOG 1992.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

**GEOG 4632 (3) Development Geography**

Provides an overview of development policy and practice, surveying foundational works in Development Studies as well as critical interventions. Required for Graduate Certificate in Development Studies.

**Equivalent - Duplicate Degree Credit Not Granted:** GEOG 5632

**Requisites:** Requires prerequisite course of GEOG 1962 or GEOG 1972 or GEOG 1982 or GEOG 1992 (minimum grade D-).

**Recommended:** Prerequisite GEOG 1962 or GEOG 1972 or GEOG 1982 or GEOG 1992 or GEOG 2092 (minimum grade D-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Human Geography

**GEOG 4712 (3) Political Geography**

Systematic study of relations between geography and politics, especially as background for better understanding of international affairs. Includes topics such as frontiers and boundaries, power analysis, geopolitics, international political economy, and strategic concepts.

**Equivalent - Duplicate Degree Credit Not Granted:** GEOG 5712

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite GEOG 1962 or GEOG 1972 or GEOG 1982 or GEOG 1992 or GEOG 2092 or IAFS 1000 or PSCI 2012 or PSCI 2223.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Human Geography

**GEOG 4722 (3) Field Methods in Human Geography**

Examines research methods associated with field work in human geography. Prepares students for fieldwork by focusing on geographic and interdisciplinary field work techniques; interpretation of field data; discussion of the politics, ethics and gender, race, class and cross-cultural issues related to field work.

**Equivalent - Duplicate Degree Credit Not Granted:** GEOG 5722

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Methods

**GEOG 4732 (3) Population Geography**

Emphasizes spatial aspects of population characteristics including fertility, mortality, migration, distribution and composition. Includes both theoretical and empirical considerations, in addition to field work and computer simulations.

**Equivalent - Duplicate Degree Credit Not Granted:** GEOG 5732

**Recommended:** Prerequisite GEOG 1962 or GEOG 1972 or GEOG 1982 or GEOG 1992 or GEOG 2092.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Arts Sci Gen Ed: Diversity-Global Perspective  
Departmental Category: Human Geography

**GEOG 4742 (3) Topics in Environment and Society**

Studies peoples and their environments, including human modification of nature and cultural interpretation and construction of rural and urban landscapes.

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite GEOG 1962 or GEOG 1972 or 1982 or GEOG 1992 or GEOG 2092.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Environment-Society Geography

**GEOG 4762 (3) Geographies of Political Islam: Empire, Terror and Revolution**

Explores the postcolonial landscape of political Islam through the lens of political and cultural geography. Develops a critical anti-essentialist framework for understanding the political crisis of the Muslim world in relation to broader questions of empire, nationalism, democracy, revolution, security, terrorism, globalization and modernity. Focuses on the post-1979 period, several key Muslim nation-states (Saudi-Arabia, Egypt, Iran, Turkey, Pakistan) and movements (Taliban, ISIS).

**Recommended:** Prerequisite GEOG 1982 or GEOG 1992 or GEOG 2092 or GEOG 3742.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Human Geography

**GEOG 4812 (3) Environment and Development in South America**

Presents theoretical approaches to the links between environment and development in Latin America and focuses on analytical discussion of contemporary (and controversial) issues in sustainable development in South America. Examines social, ecological, economic, and political forces influencing the use of natural resources.

**Recommended:** Prerequisite GEOG 1962 or GEOG 1982 or GEOG 1992 or GEOG 2092 or GEOG 3812 or GEOG 3422 or ANTH 3110 or PSCI 3032.

**Additional Information:** Arts Sci Gen Ed: Diversity-Global Perspective  
Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Environment-Society Geography

**GEOG 4822 (3) Environment and Development in China**

Examines key environmental problems in relation to China's rapid modernization and development.

**Recommended:** Prerequisite GEOG 1962 or GEOG 1982 or GEOG 1992 or GEOG 2092 or HIST 1618.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Environment-Society Geography  
Departmental Category: Asia Content

**GEOG 4832 (3) Geography of Tibet**

Rigorously examines contemporary Tibetan society, culture and nature from a geographical perspective. Uses readings on contemporary Tibet as an entry point into scholarly research about nationalism, representation, diaspora, landscape and place, sustainable development, natural resource management, identity and environmentalism.

**Equivalent - Duplicate Degree Credit Not Granted:** GEOG 5832

**Recommended:** Prerequisite GEOG 3822 or other classes on China.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Asia Content

**GEOG 4842 (3) Global Frontiers in Southeast Asia**

Uses the theme of the global frontier to examine and compare three key moments in the modern history of Southeast Asia: the colonial encounter, the rise of the modern territorial state, and the age of contemporary globalization. Examines case studies from earlier eras to analyze emerging global frontiers at the junction of state territoriality and transnational economic expansion.

**Equivalent - Duplicate Degree Credit Not Granted:** GEOG 5842 and ASIA 4842

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Distribution-Social Sciences

**GEOG 4852 (3) Health and Medical Geography**

Examines geographical patterns of health and disease with an emphasis on global health issues. Focuses on three major approaches to medical geographic research: ecological approaches, which systematically analyze relationships between people and their environments; social approaches, including political economy and socio-behavioral approaches; and spatial approaches, which employ maps and spatial analysis to identify patterns of health and disease. Elective course for Public Health Certificate.

**Equivalent - Duplicate Degree Credit Not Granted:** GEOG 5852

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisites GEOG 1001 or GEOG 1011 and GEOG 1962 or GEOG 1972 or GEOG 1992 or GEOG 2092.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Human Geography

**GEOG 4892 (3) Geography of Western Europe**

Provides a regional survey of cultural, political, economic, social, and physical geography of Western Europe, emphasizing the distinctive character and problems of each major area and the relationship of the region to the world.

**Recommended:** Prerequisite GEOG 1962 or GEOG 1972 or GEOG 1982 or GEOG 1992 or GEOG 2092.

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Human Geography

**GEOG 4990 (3) Senior Thesis**

Offers thesis research under faculty supervision. Instructor consent required.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Restricted to students with 57-180 credits (Junior or Senior) Geography (GEOG) majors only.

## Geography - Bachelor of Arts (BA)

The Department of Geography offers a bachelor of arts (BA) degree in geography. The geography BA emphasizes knowledge and awareness of:

- The unique contributions of the discipline to understanding the spatial components of problems and the diverse factors relating to human interaction with the environment.
- The spatial distributions of physical and human characteristics on the Earth surface, the general patterns these form and the processes that have created and are changing these patterns.
- The major themes of geographical analysis, including absolute and relative location; human and physical characteristics of place; human and environmental relations; movement of people, ideas and products; and regionalization.
- The general geographical principles of human-environment interaction, global change and human spatial organization.

## Requirements

### General Requirements

Students must complete the general requirements of the College of Arts and Sciences and the required courses below.

In addition to a standard degree in geography, the department offers transcribed concentrations in geographic information science, human geography, environment-society geography and physical geography. Coursework required for each concentration is listed on the Concentration Areas tab.

Students must complete at least 37 and no more than 45 credit hours in geography with grades of C- or better (23 credit hours must be upper-division). No pass/fail grades are allowed in the major.

Transfer students majoring in geography must complete at least 12 credit hours of upper-division geography courses at CU Boulder. No course may be used to fulfill more than one requirement for the major.

### Required Courses and Credit Hours

Certain course selections are better preparation for certain concentrations.

Code	Title	Credit Hours
GEOG 1001	Environmental Systems: Climate and Vegetation	4
GEOG 1011	Environmental Systems: Landscapes and Water	4
GEOG 3023	Statistics and Geographic Data	4
Select one of the following human geography courses:		3
GEOG 1962	Geographies of Global Change	
GEOG 1972	Environment-Society Geography	
GEOG 1982	World Regional Geography	
GEOG 1992	Human Geographies	

GEOG 2092	Advanced Introduction to Human Geography	
Select one of the following mapping courses:		3-4
GEOG 2053	Mapping a Changing World	
or GEOG 3053 Geographic Information Science: Mapping		
Select at least one of the following methods courses:		3-4
GEOG 4023	Advanced Quantitative Methods for Spatial Data	
GEOG 4043	Advanced Geovisualization and Web Mapping	
GEOG 4093	Remote Sensing of the Environment	
GEOG 4103	Geographic Information Science: Spatial Analytics <sup>1</sup>	
GEOG 4173	Research Seminar	
GEOG 4463	Earth Analytics Data Science Bootcamp	
GEOG 4563	Earth Analytics	
GEOG 4603	GIS in the Social and Natural Sciences	
GEOG 4722	Field Methods in Human Geography	
<i>GEOG Electives to compete the major (See Concentration Areas Tab)</i>		16-14
Total Credit Hours		37

<sup>1</sup> Does not count as a methods course for students pursuing the GIS concentration.

## Graduating in Four Years

This applies only to the general geography degree. Consult the Four-Year Guarantee Requirements for information on eligibility. The concept of "adequate progress" as it is used here only refers to maintaining eligibility for the four-year guarantee: it is not a requirement for the major. To maintain adequate progress in geography, students should meet the following requirements:

- By the end of the third semester, complete GEOG 1001, GEOG 1011 and one of the following: GEOG 1962, GEOG 1972, GEOG 1982, GEOG 1992 or GEOG 2092.
- By the end of the sixth semester, complete an approved upper-division human geography course and 9 credit hours of upper-division geography courses.
- By the end of the sixth semester, complete GEOG 2053 or GEOG 3053 and GEOG 3023.
- By the eighth semester, complete the remaining upper-division credit hours.

## Concentration Areas

### General Geography Concentration

In addition to the courses required of all concentrations, complete the following GEOG coursework.

Code	Title	Credit Hours
At least one upper-division human or environment-society geography course (3XX2, 4XX2 or GEOG 4501).		3-4
Upper-division Geography electives, to reach 23 upper-division credit hours in the major.		10-13
Total Credit Hours		13-17

### Human Geography Concentration

In addition to the courses required of all concentrations, complete the following GEOG coursework.

Code	Title	Credit Hours
GEOG 3742	Place, Power, and Contemporary Culture	3
or GEOG 3682	Geography of International Development	
A third-year university-level proficiency in a foreign language appropriate to the geographic concentration is required. <sup>1</sup>		
Select three of the following electives: <sup>2</sup>		9
GEOG 3422	Political Ecology	
GEOG 3612	Geography of American Cities	
GEOG 3662	Economic Geography	
GEOG 3672	Gender and the Global Economy	
GEOG 3682	Geography of International Development	
GEOG 3692	Introduction to Global Public Health	
GEOG 3742	Place, Power, and Contemporary Culture	
GEOG 3812	Mexico, Central America, and the Caribbean	
GEOG 3822	Geography of China	
GEOG 3832	Geographies of South Asia	
GEOG 3842	Human Geography of Czechia: Political, Economic and Social Transitions	
GEOG 3862	Geography of Africa	
GEOG 3882	Geography of the Former Soviet Union	
GEOG 4002	Topics in Human and Environment/Society Geography <sup>3</sup>	
GEOG 4173	Research Seminar (may be applied to the concentration on a case-by-case basis)	
GEOG 4292	Migration, Immigrant Adaptation, and Development	
GEOG 4622	City Life	
GEOG 4632	Development Geography	
GEOG 4712	Political Geography	
GEOG 4732	Population Geography	
GEOG 4852	Health and Medical Geography	
GEOG 3930	Internship (may be applied to the concentration on a case-by-case basis)	
GEOG 4990	Senior Thesis (may be applied to the concentration on a case-by-case basis)	
Take one upper-division elective in Geographic Information Science, Environment and Society, or Physical Geography.		3-4
Total Credit Hours		15-16

<sup>1</sup> This requirement may be met by completion of one or two semester-long, third year, university-level grammar courses (depending on the language) with a grade of C- or better, while also satisfying language department requirements for advancement through the sequence.

<sup>2</sup> Unless otherwise noted, the department-enforced prerequisite for all courses is GEOG 1962, GEOG 1972, GEOG 1982, GEOG 1992 or GEOG 2092.

<sup>3</sup> Special topics courses may be used to satisfy upper-division concentration requirements with approval from the department.

## Environment and Society Geography Concentration

In addition to the courses required of all concentrations, complete the following GEOG coursework.

Code	Title	Credit Hours
GEOG 3402 or GEOG 3422	Natural Hazards Political Ecology	3
ENVS 2000	Applied Ecology for Environmental Studies	4
Select three of the following electives: <sup>1</sup>		9
GEOG 3402	Natural Hazards	
GEOG 3412	Conservation Practice and Resource Management	
GEOG 3422	Political Ecology	
GEOG 3682	Geography of International Development	
GEOG 3672	Gender and the Global Economy	
GEOG 3692	Introduction to Global Public Health	
GEOG 3812	Mexico, Central America, and the Caribbean	
GEOG 3822	Geography of China	
GEOG 3862	Geography of Africa	
GEOG 4002	Topics in Human and Environment/Society Geography <sup>2</sup>	
GEOG 4173	Research Seminar (may be applied to the concentration on a case-by-case basis)	
GEOG 4501	Water Resources and Water Management of Western United States	
GEOG 4742	Topics in Environment and Society <sup>2</sup>	
GEOG 4812	Environment and Development in South America	
GEOG 4822	Environment and Development in China	
GEOG 3930	Internship (may be applied to the concentration on a case-by-case basis)	
GEOG 4990	Senior Thesis (may be applied to the concentration on a case-by-case basis)	
Take one upper-division elective from either the Geographic Information Science, Human Geography, or Physical Geography list.		3-4
Total Credit Hours		19-20

<sup>1</sup> Unless otherwise noted, the department-enforced prerequisite for all courses is GEOG 1962, GEOG 1972, GEOG 1982, GEOG 1992 or GEOG 2092.

<sup>2</sup> Special topics courses may be used to satisfy upper-division concentration requirements with approval from the department.

## Physical Geography Concentration

In addition to the courses required of all concentrations, complete the following GEOG coursework as well as the **ancillary mathematics and science coursework**.

Code	Title	Credit Hours
<b>Required GEOG Coursework</b>		
Select at least two of the following:		6-8
GEOG 3351	Biogeography	
GEOG 3511	Introduction to Hydrology	

GEOG 3601	Principles of Climate	
GEOG 4241	Principles of Geomorphology	
Select at least two of the following electives:		6-8
GEOG 3251	Mountain Geography	
GEOG 3301	Analysis of Climate and Weather Observations	
GEOG 3351	Biogeography	
GEOG 3511	Introduction to Hydrology	
GEOG 3601	Principles of Climate	
GEOG 4001	Topics in Physical Geography <sup>1</sup>	
GEOG 4173	Research Seminar (may be applied to the concentration on a case-by-case basis)	
GEOG 4201	Biometeorology	
GEOG 4241	Principles of Geomorphology	
GEOG 4251	Fluvial Geomorphology	
GEOG 4261	Glaciers and Permafrost	
GEOG 4271	The Arctic Climate System	
GEOG 4311	Watershed Biogeochemistry	
GEOG 4321	Snow Hydrology	
GEOG 4331	Mountain Climatology	
GEOG 4371	Forest Geography: Principles and Dynamics	
GEOG 4401	Soils Geography	
GEOG 3930	Internship (may be applied to the concentration on a case-by-case basis)	
GEOG 4990	Senior Thesis (may be applied to the concentration on a case-by-case basis)	
Take one upper-division elective from the Geographic Information Science, Human Geography, or Environment and Society Geography list.		3-4
Total Credit Hours		15-20

Code	Title	Credit Hours
<b>Ancillary Mathematics &amp; Science Coursework</b>		
Select one of the following two-semester sequences in calculus:		8-10
MATH 1300 & MATH 2300	Calculus 1 and Calculus 2	
APPM 1350 & APPM 1360	Calculus 1 for Engineers and Calculus 2 for Engineers	
Select three of the following semesters of physics and chemistry, including related labs:		14-15
PHYS 1110	General Physics 1	
PHYS 1120 & PHYS 1140	General Physics 2 and Experimental Physics 1	
CHEM 1113 & CHEM 1114	General Chemistry 1 and Laboratory in General Chemistry 1	
CHEM 1133 & CHEM 1134	General Chemistry 2 and Laboratory in General Chemistry 2	
Total Credit Hours		22-25

<sup>1</sup> Special topics courses may be used to satisfy upper-division concentration requirements with approval from the department.

## Geographic Information Science Concentration

In addition to the courses required of all concentrations, complete the following GEOG coursework.

Code	Title	Credit Hours
<b>Required GEOG Coursework</b>		
GEOG 4103	Geographic Information Science: Spatial Analytics	4
Select three of the following electives:		9-12
GEOG 4003	Topics in Geographic Skills	
GEOG 4043	Advanced Geovisualization and Web Mapping	
GEOG 4093	Remote Sensing of the Environment	
GEOG 4173	Research Seminar (may be applied to the concentration on a case-by-case basis)	
GEOG 4203	Geographic Information Science: Spatial Modeling	
GEOG 4303	Geographic Information Science: Spatial Programming	
GEOG 4503	Geographic Information Science: Project Management	
GEOG 3930	Internship (may be applied to the concentration on a case-by-case basis)	
GEOG 4990	Senior Thesis (may be applied to the concentration on a case-by-case basis)	
Take one upper-division elective from the Human Geography, Environment and Society Geography, or Physical Geography list.		3-4
<b>Total Credit Hours</b>		<b>16-20</b>

## Recommended Four-Year Plan of Study

Through the required coursework for the major, students will complete all 12 credit hours of the Natural Sciences area of the Gen Ed Distribution Requirement, including the lab component and at least 6 credits hours of the Social Sciences area of this requirement.

Depending on which track students follow and which elective courses they select within the track of the major, students can complete all of the Social Sciences area and 3 credits in the Arts and Humanities area of the Gen Ed Distribution Requirement and, potentially, the Global Perspective and United States Perspective component of the Gen Ed Diversity Requirement.

Course	Title	Credit Hours
<b>First Year</b>		
<b>Fall Semester</b>		
GEOG 1001	Environmental Systems: Climate and Vegetation	4
Gen. Ed. Skills course (example: Lower-division Written Communication)		3
Gen. Ed. Distribution/Diversity course (example: Arts & Humanities/US Perspective)		3
Elective/MAPS		3
Elective/MAPS		3
<b>Credit Hours</b>		<b>16</b>

### Spring Semester

GEOG 1011	Environmental Systems: Landscapes and Water	4
Gen. Ed. Distribution/Diversity course (example: Arts & Humanities/Global Perspective)		3
Gen. Ed. Skills course (example: QRMS)		3-5
Elective/MAPS		3
Elective		3-0
<b>Credit Hours</b>		<b>16-15</b>

### Second Year

#### Fall Semester

GEOG 1962	Geographies of Global Change	3
or GEOG 1972	or Environment-Society Geography	
or GEOG 1982	or World Regional Geography	
or GEOG 1992	or Human Geographies	
or GEOG 2092	or Advanced Introduction to Human Geography	
Gen. Ed. Distribution course (example: Arts & Humanities)		3
Gen. Ed. Distribution course (example: Social Sciences) (if needed)		3

Total Credit Hours	122-123

## Geography - Minor

The minor program in geography is meant for students who would like to acquire basic knowledge of geography in addition to their major area of study. The department also offers a certificate in GIS (<https://www.colorado.edu/geography/undergrad-program/undergraduate-certificates/#GIS-Certificate>) for undergraduate students.

For more information, visit the Undergraduate Geography Major & Minor Degrees (<https://www.colorado.edu/geography/undergrad-program/undergraduate-geography-major-minor-degrees>) webpage.

## Requirements

### Program Requirements

Declaration of a minor is open to any student enrolled at CU Boulder, regardless of college or school affiliation.

- Participation in the minor program is optional on the part of the student.
- A minimum of 18 credit hours must be taken in the minor area, including a minimum of 9 upper-division credit hours.
- All coursework applied to the minor must be completed with a grade of C- or better. No pass/fail work may be applied. The GPA of all minor degree coursework must equal 2.00 (C) or greater.
- Student pursuing an individually structured major, or who are pursuing a major in distributed studies, will not be eligible to earn a minor.
- Students will be allowed to apply no more than 9 credit hours (including 6 upper-division) of transfer work toward a minor.
- Coursework applied toward a minor may also be applied toward Gen Ed as well as the requirements for other majors.

### Optional Concentrations

No specific concentration is required and is not noted on student transcripts. However, students who do wish to focus on one area of geography should see the suggested course lists below. The list of courses may change at the department's discretion.

### Physical Geography Focus

The following two courses are prerequisites to all upper-division courses listed further below.

Code	Title	Credit Hours
GEOG 1001	Environmental Systems: Climate and Vegetation	4
GEOG 1011	Environmental Systems: Landscapes and Water	4

An additional lower-division course is available.

Code	Title	Credit Hours
GEOG 2271	Introduction to the Arctic Environment	3

Among upper-division courses, the following sequences are suggested:

Code	Title	Credit Hours
------	-------	--------------

#### Climatology

GEOG 3301	Analysis of Climate and Weather Observations	3
GEOG 3601	Principles of Climate	3
GEOG 4331	Mountain Climatology	3-4

#### Biogeography

GEOG 3351	Biogeography	3
GEOG 4371	Forest Geography: Principles and Dynamics	3
GEOG 4401	Soils Geography	3

#### Hydrology and Geomorphology

GEOG 3511	Introduction to Hydrology	4
GEOG 4241	Principles of Geomorphology	4
GEOG 4321	Snow Hydrology	3-4
GEOG 4401	Soils Geography	3

In addition, you will find it important to complete one course in statistics at the time you commence upper-division work in physical geography. Students considering graduate school in physical geography are strongly encouraged to complete a year of coursework in general chemistry, physics, calculus and statistics.

#### Upper-Division Courses

Code	Title	Credit Hours
GEOG 3301	Analysis of Climate and Weather Observations	3
GEOG 3601	Principles of Climate	3
GEOG 3351	Biogeography	3
GEOG 3511	Introduction to Hydrology	4
GEOG 4241	Principles of Geomorphology	4
GEOG 4261	Glaciers and Permafrost	3
GEOG 4271	The Arctic Climate System	3
GEOG 4311	Watershed Biogeochemistry	3
GEOG 4321	Snow Hydrology	3-4
GEOG 4331	Mountain Climatology	3-4
GEOG 4371	Forest Geography: Principles and Dynamics	3
GEOG 4401	Soils Geography	3

**Human Geography Focus**

One of the following four courses are prerequisites to all upper-division courses listed further below.

Code	Title	Credit Hours
GEOG 1962	Geographies of Global Change	3
GEOG 1972	Environment-Society Geography	3
GEOG 1982	World Regional Geography	3
GEOG 1992	Human Geographies	3
GEOG 2092	Advanced Introduction to Human Geography	3

**Upper-Division Courses**

Additional prerequisites are listed.

Code	Title	Credit Hours
GEOG 3612	Geography of American Cities	3
GEOG 3672	Gender and the Global Economy	3
GEOG 3682	Geography of International Development	3
GEOG 3692	Introduction to Global Public Health	4
GEOG 3742	Place, Power, and Contemporary Culture	3
GEOG 3812	Mexico, Central America, and the Caribbean	3
GEOG 3822	Geography of China	3
GEOG 3832	Geographies of South Asia	3
GEOG 3862	Geography of Africa	3
GEOG 3882	Geography of the Former Soviet Union	3
GEOG 4023	Advanced Quantitative Methods for Spatial Data	4
GEOG 4292	Migration, Immigrant Adaptation, and Development	3
GEOG 4622	City Life	3
GEOG 4712	Political Geography	3
GEOG 4732	Population Geography	3
GEOG 4742	Topics in Environment and Society	3
GEOG 4832	Geography of Tibet	3

**Environment-Society Geography Focus**

The following two courses are prerequisites to all upper-division physical geography courses listed further below.

Code	Title	Credit Hours
GEOG 1001	Environmental Systems: Climate and Vegetation	4
GEOG 1011	Environmental Systems: Landscapes and Water	4

GEOG 1972 is a prerequisite for all upper division human and environment society geography courses.

An additional lower-division course is available.

Code	Title	Credit Hours
GEOG 2852	Contemporary Southeast Asia: Environmental Politics	3

**Upper-Division Courses**

Additional prerequisites may be listed.

Code	Title	Credit Hours
GEOG 3251	Mountain Geography	3
GEOG 3301	Analysis of Climate and Weather Observations	3
GEOG 3351	Biogeography	3
GEOG 3402	Natural Hazards	3
GEOG 3412	Conservation Practice and Resource Management	3
GEOG 3422	Political Ecology	3
GEOG 3511	Introduction to Hydrology	4
GEOG 3601	Principles of Climate	3
GEOG 3612	Geography of American Cities	3
GEOG 3682	Geography of International Development	3
GEOG 3692	Introduction to Global Public Health	4
GEOG 3812	Mexico, Central America, and the Caribbean	3
GEOG 3822	Geography of China	3
GEOG 3862	Geography of Africa	3
GEOG 4401	Soils Geography	3
GEOG 4430	Seminar: Conservation Trends	3
GEOG 4501	Water Resources and Water Management of Western United States	3
GEOG 4742	Topics in Environment and Society	3
GEOG 4632	Development Geography	3
GEOG 4812	Environment and Development in South America	3
GEOG 4822	Environment and Development in China	3
GEOG 4852	Health and Medical Geography	3

**Geographic Information Science Focus**

Students undertaking the GIS Certificate as well as a GEOG minor must take at least 9 additional credit hours of non-GIS GEOG classes to satisfy the minor requirements.

The following is a lower-division course in this concentration.

Code	Title	Credit Hours
GEOG 2053	Mapping a Changing World	3

The following are prereqs for all upper-division courses, unless otherwise noted.

Code	Title	Credit Hours
GEOG 3023	Statistics and Geographic Data	4
GEOG 3053	Geographic Information Science: Mapping	4

**Upper-Division Courses**

Code	Title	Credit Hours
GEOG 4023	Advanced Quantitative Methods for Spatial Data	4
GEOG 4043	Advanced Geovisualization and Web Mapping	4

GEOG 4093	Remote Sensing of the Environment	4
GEOG 4103	Geographic Information Science: Spatial Analytics	4
GEOG 4203	Geographic Information Science: Spatial Modeling	4
GEOG 4173	Research Seminar	3
GEOG 4303	Geographic Information Science: Spatial Programming	4

## GIS and Computational Science - Certificate

The Department of Geography (GEOG) and the Department of Computer Science (CSCI) are offering a joint undergraduate certificate in GIS and computational science. The program draws upon faculty expertise in both departments, providing interdisciplinary training in spatial data analysis and computation, both of which characterize GIS in most career paths.

Geographic Information Scientists (GIScientists) have an ongoing concern with the collection, analysis and display of high precision spatial data. Computational geospatial skills are in high demand on campus and in local, regional and national job markets such as government employment, industry or consulting careers, and graduate school.

This certificate will be available to GEOG majors, to students enrolled in the Bachelor of Arts in CSCI program managed through the College of Arts & Sciences, and to students in other earth science disciplines (e.g., GEOL, ENVS, ENVD, EBIO, ANTH) and social science disciplines (e.g., PSCI, ECON, SOCY).

Non-matriculated students may enroll at CU through Continuing Education and once admitted, may apply for the certificate.

### Admissions

Visit the GIS and Computational Science Certificate (<https://www.colorado.edu/geography/undergraduate-certificate-gis-and-computational-science>) website for application and admissions details.

### Requirements

#### Prerequisites

The prerequisite courses must be completed prior to application to the certificate program, and can be met by completing AP coursework in high school or by completing an equivalent course that transfers from another college.

Code	Title	Credit Hours
<b>Prerequisites</b>		
CSCI 1300	Computer Science 1: Starting Computing	
GEOG 3023	Statistics and Geographic Data	

#### Required Courses and Credits

The certificate requires 18–20 hours of coursework, including required courses and electives (but excluding prerequisites). Courses required for this certificate are offered each semester, and geography electives are offered at least once per year.

Students who fulfill the introductory statistics requirement through AP coursework in high school are eligible to take an additional elective.

Students undertaking the certificate as well as a GEOG minor earn at least 9 credits in non-GIS GEOG courses to satisfy the minor requirements.

Students must earn a C or better in all coursework in the certificate, and may not take certificate courses pass/fail.

Code	Title	Credit Hours
<b>Required Courses</b> <sup>1</sup>		
CSCI 2270	Computer Science 2: Data Structures	
GEOG 4103	Geographic Information Science: Spatial Analytics	
GEOG 3053	Geographic Information Science: Mapping <sup>2</sup>	
	or GEOG 460GIS in the Social and Natural Sciences	
<b>Electives (Two or more to fulfill 18-20 credit hours)</b> <sup>1</sup>		
GEOG 4203	Geographic Information Science: Spatial Modeling	
GEOG 4303	Geographic Information Science: Spatial Programming	
GEOG 4403	Geographic Information Science: Space Time Analytics	
GEOG 4503	Geographic Information Science: Project Management	
Approved GEOG topics course		
GEOL 3050	GIS for Geologists	
One or two upper-division GIS-based courses in another A&S department; syllabi to be approved beforehand by the certificate committee)		

11-12

CSCI 2270 Computer Science 2: Data Structures

GEOG 4103 Geographic Information Science: Spatial Analytics

GEOG 3053 Geographic Information Science: Mapping<sup>2</sup>

or GEOG 460GIS in the Social and Natural Sciences

**Electives (Two or more to fulfill 18-20 credit hours)**<sup>1</sup>

GEOG 4203 Geographic Information Science: Spatial Modeling

GEOG 4303 Geographic Information Science: Spatial Programming

GEOG 4403 Geographic Information Science: Space Time Analytics

GEOG 4503 Geographic Information Science: Project Management

Approved GEOG topics course

GEOL 3050 GIS for Geologists

One or two upper-division GIS-based courses in another A&S department; syllabi to be approved beforehand by the certificate committee)

<sup>1</sup> Required courses and electives must be taken at CU Boulder.

<sup>2</sup> Students cannot apply both GEOG 3053 and GEOG 4603 to the certificate.

## Geological Sciences

The options available in the undergraduate program in geological sciences are geology and geophysics and lead to the BA degree. Both options provide a strong basis for understanding the functioning of the Earth system. Students who are uncertain as to which option best suits their needs should contact a departmental advisor or faculty member. In each option, the undergraduate program emphasizes coursework in theoretical, laboratory and field-oriented aspects of the geological sciences. The nearby Rocky Mountains provide a natural laboratory for many of these courses.

Students interested in the geological sciences may also wish to consider the Baker Residential Academic Program (see the Undergraduate Residential Programs (p. 886) section). Students who do not wish to pursue a career in the geosciences, or who would like to combine a basic knowledge of geologic sciences with that of some other field, should consider a minor in geological sciences. Students who intend to pursue graduate study in the geological sciences are encouraged to consider developing an honors thesis as part of their undergraduate studies.

The two options available in the undergraduate major offer different focus areas of instruction. Both options offer excellent preparation for

students interested in pursuing professional careers, or graduate study, in the geological sciences.

Each option emphasizes knowledge in:

- the ways in which Earth responds to internal and external forces; the physical, chemical and biological evolution of Earth; and the nature of the materials of which the Earth is made;
- the role of physics, chemistry, mathematics and biology in understanding geological processes; and
- the history of discoveries and ideas that have contributed to our current knowledge of Earth and the planetary system.

Course code for this program is GEOL.

## Geology Honors Program

Opportunity is provided for qualified geology majors to participate in the geology honors program and graduate with honors (cum laude, magna cum laude or summa cum laude) in geology. Students interested in the honors program should contact the departmental honors advisor during their junior year.

## Bachelor's Degree

- Geology - Bachelor of Arts (BA) (p. 317)

## Minor

- Geology - Minor (p. 321)

## Faculty

While many faculty teach both undergraduate and graduate students, some instruct students at the undergraduate level only. For more information, contact the faculty member's home department.

## Courses

### GEOL 1010 (3) Exploring Earth

Introductory geology for majors and non-majors. Studies Earth, its materials, its characteristics, its dynamic processes, and how it relates to people. Separate lab (GEOL 1030) is recommended. Degree credit not granted for both GEOL 1010 and GEOL 1012.

**Additional Information:** GT Pathways: GT-SC2 -Natural Physicl Sci:Lec Crse w/o Req Lab

Arts Sci Core Curr: Natural Science Non-Sequence

Arts Sci Core Curr: Natural Science Sequence

Arts Sci Gen Ed: Distribution-Natural Sciences

MAPS Course: Natural Science

### GEOL 1012 (3) Exploring Earth for Scientists

Studies Earth, its materials, its characteristics, its dynamic processes, and how it relates to people. This course is an introductory geology course suitable for geology and other STEM majors. Like GEOL 1010, but taught at a higher intellectual level with a greater amount of quantitative analysis. Separate lab (GEOL 1030) is recommended. Degree credit not granted for both GEOL 1010 and GEOL 1012.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

### GEOL 1020 (3) Dodos, Dinos, and Deinococcus: The History of a Habitable Planet

Examines how the solid, fluid, and living Earth interact, how changes in the oceans, atmosphere and life reflect that interaction over the immensity of geologic time, and how the rock record is analyzed to reconstruct the co-evolution of Earth and life.

**Equivalent - Duplicate Degree Credit Not Granted:** GEOL 1040

**Grading Basis:** Letter Grade

**Additional Information:** GT Pathways: GT-SC2 -Natural Physicl Sci:Lec Crse w/o Req Lab

Arts Sci Core Curr: Natural Science Sequence

Arts Sci Core Curr: Natural Science Non-Sequence

Arts Sci Gen Ed: Distribution-Natural Sciences

MAPS Course: Natural Science

### GEOL 1030 (1) Introduction to Geology Laboratory 1

Features field trips to local points of geologic interest. Studies rocks and topographic and geologic maps. Meets the MAPS requirement for natural science lab, if taken with GEOL 1010 or GEOL 1012.

**Recommended:** Requisite Concurrent registration in any 1000-level geology course is beneficial but not required.

**Additional Information:** GT Pathways: GT-SC1 - Natural Physcal Sci:Lec Crse w/ Req Lab

Arts Sci Core Curr: Natural Science Lab

Arts Sci Gen Ed: Distribution-Natural Sci Lab

Arts Sci Gen Ed: Distribution-Natural Sciences

MAPS Course: Natural Science Lab or Lab/Lec

### GEOL 1040 (3) Geology of Colorado

Reviews the geologic evolution and history of Colorado. It first develops the basic concepts needed to interpret the geology and then systematically shows how the state evolved through geologic time. Designed for those who enjoy understanding the beauty and splendor of the state.

**Equivalent - Duplicate Degree Credit Not Granted:** GEOL 1020

**Additional Information:** Arts Sci Core Curr: Natural Science Sequence

Arts Sci Gen Ed: Distribution-Natural Sciences

MAPS Course: Natural Science

### GEOL 1060 (3) Global Change: An Earth Science Perspective

Focuses on evidence for planetary warming, climate change, glacier and ice-sheet melting and sea level rise both now and in the recent past.

Attempts to develop understanding of the interactions within the coupled Earth system that regulate such changes. Utilizes examples from the geological and instrumental records, and evaluates the global warming forecast.

**Equivalent - Duplicate Degree Credit Not Granted:** ATOC 1060

**Additional Information:** Arts Sci Core Curr: Natural Science Sequence

Arts Sci Core Curr: Natural Science Non-Sequence

Arts Sci Gen Ed: Distribution-Natural Sciences

MAPS Course: Natural Science

### GEOL 1150 (3) Water, Energy and Environment: An Introduction to Earth Resources

Explores how geological processes and human populations together affect the quantity, quality and availability of Earth resources. Includes examination of the water cycle and how humans use and modify water; fossil-fuel and mineral resources, and renewable energy options. Sustainable versus non-sustainable use and population growth is considered.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

MAPS Course: Natural Science

### GEOL 1170 (3) Our Deadly Planet

This course investigates those events so dramatic and catastrophic that they have left evidence in the geologic record that suggest they significantly impacted life on the planet. These include, but are not limited to, violent volcanic eruptions, mega-earthquakes and associated tsunamis, landslides and sector collapse on volcanoes, megafloods, rapid climatic change, superstorms, and impacts from asteroids and comets. The intent is to use examples from recent events and processes to frame and interpret evidence for these types of events observed in the rock record.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

MAPS Course: Natural Science

### GEOL 1180 (3) Our Microbial Planet

Examines how microorganisms shape the world around us, both throughout the Earth's history and today. Major topics include the origin and evolution of life, the interplay between microbes and the environment, roles of microbes in global change, and applications of microbiology in biotechnology and energy.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

MAPS Course: Natural Science

**GEOL 2001 (4) Planet Earth**

Explores the dynamics of planet Earth with particular emphasis on the factors that make the planet habitable. Includes examination of heat balance, hydrology, geomorphology, biogeochemistry and climate history through both lecture and lab-based activities. Required for the Geology major, introduces students to the major concepts in contemporary Earth system science.

**Requisites:** Requires prerequisite course of GEOL 1010 or GEOL 2100 or ENVS 1000 (minimum grade D-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences  
Arts Sci Gen Ed: Distribution-Natural Sci Lab

**GEOL 2005 (4) Introduction to Earth Materials**

Provides introduction to the classification, composition and properties of the materials that compose the Earth, how these materials are studied, and how they are used to interpret Earth history and processes. Required for the Geology major.

**Requisites:** Requires prerequisite courses of GEOL 1010 or GEOL 2100 and CHEM 1113 and CHEM 1114 (all minimum grade D-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences  
Arts Sci Gen Ed: Distribution-Natural Sci Lab

**GEOL 2040 (3) The Search for Life in the Universe**

Introduces the scientific basis for the possible existence of life elsewhere in the universe. Includes origin and evolution of life on Earth and the search for evidence of life in our solar system, including Mars and Jupiter's moon Europa. Discusses the conditions necessary for life and whether they might arise on planets around other stars.

**Equivalent - Duplicate Degree Credit Not Granted:** ASTR 2040

**Additional Information:** Arts Sci Core Curr: Natural Science Non-Sequence  
Arts Sci Gen Ed: Distribution-Natural Sciences

**GEOL 2100 (3) Environmental Geology**

Introduces the influences of geologic processes on human lives and the changes human actions cause in geologic systems. Uses examples and case studies from Colorado and the West.

**Additional Information:** Arts Sci Core Curr: Natural Science Non-Sequence  
Arts Sci Gen Ed: Distribution-Natural Sciences

**GEOL 2700 (2) Introduction to Field Geology**

Introduces basic field techniques necessary to collect geologic data and samples, and necessary to map geologic units.

**Requisites:** Requires prerequisite courses of GEOL 1030 and GEOL 2005 (all minimum grade D-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sci Lab  
Arts Sci Gen Ed: Distribution-Natural Sciences

**GEOL 3010 (3) Introduction to Mineralogy**

Covers origin, occurrence, identification, classification, and uses of minerals with emphasis on applications of mineralogy to economic geology and petrology. Two lectures and one lab per week.

**Requisites:** Requires prerequisite courses of CHEM 1113 and CHEM 1114 and GEOL 2005 and MATH 1300 or APPM 1350 (all minimum grade D-).

**Recommended:** Prerequisite GEOL 2005.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences  
Arts Sci Gen Ed: Distribution-Natural Sci Lab

**GEOL 3020 (3) Petrology**

Studies field relations, petrography, petrology, chemistry, and origins of igneous and metamorphic rocks by means of lectures, reading, and lab and field experience. Labs include instruction in the fundamentals of optical petrography and the study of rocks in thin section.

**Requisites:** Requires prerequisite course of GEOL 2005 or GEOL 3010 (minimum grade D-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences  
Arts Sci Gen Ed: Distribution-Natural Sci Lab

**GEOL 3023 (4) Statistics and Geographic Data**

Introduces computational and statistical tools to solve problems in the geographic domain. Provides an understanding of introductory statistical concepts and applies them to real world problems through lab exercises.

Emphasizes spatial data, which requires specialized descriptive and predictive analysis techniques. Demonstrates how to manipulate and visualize data, and make inference using state-of-the-art statistics software, applied to various social and earth science problems.

**Equivalent - Duplicate Degree Credit Not Granted:** GEOG 3023

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**GEOL 3030 (3) Introduction to Hydrogeology**

Introduces groundwater flow concepts, hydrologic cycle, physical and chemical properties, flow net, hydraulic potential, geologic controls on heterogeneity and anisotropy, aquifers and aquitards in a geologic system, saturated and unsaturated flow, flow to a well, pumping tests, and role of groundwater in geologic processes.

**Requisites:** Requires prerequisite courses of GEOL 1150 or GEOL 1010 or GEOL 1012 and MATH 1300 or APPM 1350 (all minimum grade D-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**GEOL 3040 (3) Global Change: The Recent Geological Record**

Geological records in lakes, oceans, deserts, and around glaciers indicate the significant changes in the global systems that have taken place over the last few hundred or thousand years. Explores the timing and nature of these changes. Department enforced prerequisites: any two-course sequence of natural science core courses.

**Additional Information:** Arts Sci Core Curr: Natural Science Non-Sequence  
Arts Sci Gen Ed: Distribution-Natural Sciences

**GEOL 3050 (2) GIS for Geologists**

Provides an introduction to Geographic Information Systems (GIS) techniques focused on geological applications. Covers GIS analyzing, mapping and GPS use. Basic computer skills are a plus before entering the class.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences  
Arts Sci Gen Ed: Distribution-Natural Sci Lab

**GEOL 3070 (3) Introduction to Oceanography**

Explores Earth's dynamic oceans. Discusses the disciplines of oceanography including marine geology, chemistry, biology and physical oceanography with emphasis on global change. Specific topics may include: tectonics, currents, biogeochemical cycles, ecology and global warming.

**Equivalent - Duplicate Degree Credit Not Granted:** ATOC 3070

**Recommended:** Prerequisite any 1000-level ATOC or GEOL course or ATOC major.

**Additional Information:** Arts Sci Core Curr: Natural Science Non-Sequence  
Arts Sci Gen Ed: Distribution-Natural Sciences

**GEOL 3090 (3) Developing Scientific Writing Skills**

Focuses on the development of scientific writing skills. Enhances student ability to write professionally, revise text and review the work of others. Writing assignments integrate the subject matter of different topics in earth science. Department enforced prerequisites: a lower division writing course and two of the following: GEOL 2001 or GEOL 2005 or GEOL 2700 or GEOL 3010 or GEOL 3030 or GEOL 3120 or GEOL 3320 or GEOL 3430 or GEOL 3820.

**Additional Information:** Arts Sci Core Curr: Written Communication  
Arts Sci Gen Ed: Written Communication-Upper

**GEOL 3120 (4) Structural Geology**

Introduces the basic principles and processes involved in deformation of natural rocks and minerals and the techniques used to analyze a variety of common geological structures (e.g., fractures, folds, fault zones).

**Requisites:** Requires prerequisite course of GEOL 2005 (minimum grade D-).

**Recommended:** Prerequisite GEOL 2001.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sci Lab  
Arts Sci Gen Ed: Distribution-Natural Sciences

**GEOL 3300 (3) Extraterrestrial Life**

Discusses the scientific basis for the possible existence of extraterrestrial life. Includes origin and evolution of life on Earth; the possibility of life elsewhere in the solar system, including Mars; and the possibility of life on planets around other stars. Department enforced prerequisite: one-year sequence in a natural science.

**Equivalent - Duplicate Degree Credit Not Granted:** ASTR 3300

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**GEOL 3320 (3) Introduction to Geochemistry**

Students build upon principles introduced in general chemistry in order to predict and interpret chemical dynamics in Natural environmental systems. We explore the formation and chemical differentiation of the early Earth, how chemical weathering and mineral dissolution and precipitation modifies the Earth's surface, and how redox biogeochemistry shapes aquatic environments.

**Requisites:** Requires prerequisite courses of CHEM 1113 and CHEM 1114 and MATH 1300 or APPM 1350 (all minimum grade D-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**GEOL 3330 (3) Principles of Geophysics**

Provides an introduction to fundamental geophysics including seismology, geomagnetism, gravity, and electromagnetic methods with applications to plate tectonics and exploration of the subsurface.

**Requisites:** Requires prerequisite courses of MATH 1300 or APPM 1350 and PHYS 1110 or PHYS 1115 and GEOL 2001 (all minimum grade D-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**GEOL 3410 (3) Paleobiology**

Surveys morphology, ecology and evolution of ancient animal and plant life and their interactions on Earth. Fossils used to solve geological and biological problems. Department enforced prerequisites: GEOL 1010 and GEOL 1020 or GEOL 2005 or EBIO 1030 and EBIO 1040 or EBIO 1210 and EBIO 1220.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences  
Arts Sci Gen Ed: Distribution-Natural Sci Lab

**GEOL 3430 (4) Sedimentology and Stratigraphy**

Introduces the study of sedimentary rocks emphasizing their origin, characteristics, and interpretation; and the principles and techniques for establishing the temporal order and spatial distribution of sedimentary layers.

**Requisites:** Requires prerequisite course of GEOL 2005 (minimum grade D-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sci Lab  
Arts Sci Gen Ed: Distribution-Natural Sciences

**GEOL 3520 (3) Energy and Climate Change: An Interdisciplinary Approach**

Examines sources of energy and other resources in light of their availability, use, environmental impact, as well as their impact on policy, economics and values. As fossil fuels are the dominant energy source today, particular emphasis is placed on climate impacts and the carbon cycle. All material is assessed through the lenses of the physical sciences, policy, ethics and economics. Department enforced prerequisite: a two-course sequence in any natural science.

**Equivalent - Duplicate Degree Credit Not Granted:** ENVS 3520

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Arts Sci Core Curr: Natural Science Non-Sequence  
Arts Sci Gen Ed: Distribution-Natural Sciences

**GEOL 3540 (3) Introduction to Petroleum Geology**

Discusses the origin and distribution of conventional and unconventional petroleum resources, source rocks, types of traps and seals, reservoir rock properties, exploration methods (seismic data analysis and interpretation, formation evaluation, subsurface mapping), reservoir characterization and modeling, reserves calculations. Department enforced prerequisite: GEOL 1010.

**Recommended:** Corequisite GEOL 3430.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**GEOL 3720 (3) Evolution of Life: The Geological Record**

Discusses the evolution of life on Earth, beginning with the earliest origins and surveying the major steps that led to the rise of higher plants and animals. Covers modern ideas on the causes of periodic mass extinctions in both the marine and terrestrial realms. Emphasizes geologic evidence for the pathways of evolution, using examples from the ordinary to the bizarre.

**Additional Information:** Arts Sci Core Curr: Natural Science Non-Sequence  
Arts Sci Gen Ed: Distribution-Natural Sciences

**GEOL 3820 (4) The Fluid Earth**

Examines the myriad forms of fluid behavior found on Earth, from the atmosphere to the inner core. Explores how basic principles of fluid physics may be used to understand a broad range of earth processes, including mantle convection, atmosphere and ocean dynamics, stream flow, lava spreading, and glacier motion, among others. Covers fundamental fluid concepts such as viscosity, pressure, convection, friction, and free-surface flow. Department enforced prerequisites: MATH 1300 or APPM 1340 and APPM 1345 or APPM 1350.

**Recommended:** Prerequisites Any 1000 level GEOL class and PHYS 1110.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sci Lab  
Arts Sci Gen Ed: Distribution-Natural Sciences

**GEOL 3910 (4) Earth and Planetary Inference**

Introduces modern ways to interpret earth science observations in the context of conceptual models. We will learn how earth and planetary scientists synthesize geological, geochemical, and geophysical measurements and theoretical knowledge to make new discoveries and predictions. The tools that will be introduced in the course range from order-of-magnitude estimation techniques to a gentle intro to inverse thinking.

**GEOL 3950 (3) Natural Catastrophes and Geologic Hazards**

Surveys historic and prehistoric natural disasters, their cause and potential for recurrence. Meteorite impact, earthquakes, volcanic eruptions, tsunamis, landslides, floods, magnetic reversals and major extinction events. Department enforced prerequisite: one year of science.

**Additional Information:** Arts Sci Core Curr: Natural Science Non-Sequence  
Arts Sci Gen Ed: Distribution-Natural Sciences

**GEOL 4060 (4) Oceanography**

Examines the ocean as a system influencing the Earth's surficial processes and climate. Composition and properties of seawater, ocean circulation, waves, tides, coastal-, shallow-, and deep-water processes, biogeochemical cycles, deep sea sediments. Laboratory emphasizes the use of oceanographic data. Department enforced prerequisite: one semester chemistry or physics or geology.

**Equivalent - Duplicate Degree Credit Not Granted:** GEOL 5060

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

Arts Sci Gen Ed: Distribution-Natural Sci Lab

**GEOL 4070 (3) Paleoclimatology**

Covers the primary forcings and feedbacks that determine Earth's energy balance and the resultant climate system on decadal to millennial time scales. Covers ocean/atmosphere circulation, the role of ice sheets in the climate system, monsoons, Holocene climate change and 20th Century warming. Includes coverage of the proxies available to reconstruct climates of the past and the archives that contain these proxies. Department enforced prerequisite: environmental science or geology introduction sequence courses.

**Recommended:** Prerequisite natural science majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**GEOL 4093 (4) Remote Sensing of the Environment**

Covers acquisition and interpretation of environmental data by remote sensing. Discusses theory and sensors, as well as manual and computerized interpretation methods. Stresses infrared and microwave portions of the spectrum.

**Equivalent - Duplicate Degree Credit Not Granted:** GEOL 5093 and GEOG 4093 and GEOG 5093

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

Arts Sci Gen Ed: Distribution-Natural Sci Lab

**GEOL 4150 (2) Planetary Field Geology**

Provides an overview of the geology, age and origins of the solid (rocky) planets, dwarf planets and moons of our solar system and the processes that form them from comparative studies from comparative geology. Includes modules on volcanism, rifting, aeolian processes, fluvial erosion, impacts, climate change and paleontology.

**Equivalent - Duplicate Degree Credit Not Granted:** GEOL 5150

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**GEOL 4160 (3) Introduction to Biogeochemistry**

Covers fundamentals of biogeochemical cycling, emphasizing water, carbon and nutrient dynamics in terrestrial ecosystems; chemical interactions of atmosphere, biosphere, lithosphere and hydrosphere; natural and human-managed environments. Department enforced prerequisites: GEOL 3320 or EBIO 3270 and CHEM 1011.

**Equivalent - Duplicate Degree Credit Not Granted:** EBIO 4160 and ENVS 4160

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**GEOL 4185 (3) Geomicrobiology**

Examines how microbial and chemical processes interact on the Earth's surface today and have shaped the planet throughout its history.

Emphasis will be placed on how the life styles and chemical ingenuity of microorganisms drive key biogeochemical processes including weathering and transformations of carbon, oxygen, sulfur, iron and nitrogen. Towards this goal, major geologic and evolutionary events will be examined through the lens of microbial diversity, metabolic energetics, microbe-mineral interactions, and molecular biomarkers.

**Requisites:** Requires prerequisite courses of CHEM 1113 and CHEM 1114 or CHEM 1400 and CHEM 1401 (minimum grade D-).

**Recommended:** Prerequisites GEOL 1180 or MCDB 1150 or GEOL 3320 or EBIO 3400 or ENVS 4160 or EVEN 4484.

**Grading Basis:** Letter Grade

**GEOL 4215 (3) Geochronology and Thermochronology**

Constraining the timing of events and rates of processes is fundamental to earth science research. The field of geochronology and thermochronology is rapidly evolving. Cutting-edge aspects of geochronologic methods and emerging techniques will be especially emphasized. Lectures will emphasize the principles and assumptions of each technique. Seminar discussions will focus on recent papers that demonstrate state-of-the-art applications to diverse problems.

**Equivalent - Duplicate Degree Credit Not Granted:** GEOL 5215

**Requisites:** Requires prerequisite courses of GEOL 2001 and GEOL 2005 (minimum grade D-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**GEOL 4241 (4) Principles of Geomorphology**

Studies weathering, mass-wasting, fluvial, wind, and marine processes and the resulting landforms.

**Equivalent - Duplicate Degree Credit Not Granted:** GEOG 4241

**Requisites:** Requires prerequisite course of GEOG 1011 or GEOL 1010 and MATH 1300 or APPM 1350 or APPM 1340 and APPM 1345 (all minimum grade D-).

**Additional Information:** Arts Sci Core Curr: Natural Science Non-Sequence  
Arts Sci Gen Ed: Distribution-Natural Sciences

Arts Sci Gen Ed: Distribution-Natural Sci Lab

**GEOL 4270 (3) Marine Chemistry and Geochemistry**

Examines the chemical, biological, geological and physical processes affecting (and affected by) the chemistry of the oceans. Topics include: chemical cycling in seawater; the marine carbon cycle and its long-term control on atmospheric CO<sub>2</sub>; the large-scale interdependence of nutrient distributions and biological productivity, chemical tracers of ocean circulation; the chemistry of marine sediments, including early diagenesis.

**Equivalent - Duplicate Degree Credit Not Granted:** GEOL 5270

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Recommended:** Prerequisites introductory chemistry, introductory geology, introductory oceanography.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**GEOL 4330 (3) Cosmochemistry**

Investigates chemical and isotopic data to understand the composition of the solar system: emphasis on the physical conditions in various objects, time scales for change, chemical and nuclear processes leading to change, observational constraints, and various models that attempt to describe the chemical state and history of cosmological objects in general and the early solar system in particular. Department enforced prerequisite: upper-division undergraduate standing in physical science and upper-division undergraduate chemistry or physics or math courses.

**Equivalent - Duplicate Degree Credit Not Granted:** GEOL 5330 and ASTR 4330 and ASTR 5330

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**GEOL 4380 (3) Fundamentals of Stable Isotope Geochemistry**

This course teaches students the fundamental principles of stable isotope fractionation during physical and biological processes, and the application of these behaviors to a wide range of important geologic questions. The course will use classic case studies from the geologic record to illustrate these principles.

**Requisites:** Requires prerequisite course of MATH 1300 or APPM 1350 (minimum grade D-).

**GEOL 4474 (4) Vertebrate Paleontology**

Discusses the history and evolution of the vertebrates, including the phylogenetic relationships and evolutionary patterns of the major groups. Lab focuses on comparative vertebrate osteology and fossil representation of major groups. Department enforced prerequisites: GEOL 1020 and GEOL 3410 (or permission from the instructor).

**Equivalent - Duplicate Degree Credit Not Granted:** GEOL 5474

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**GEOL 4611 (3) Organic Geochemistry**

Explores the  $\delta$ biomarker concept as a tool to elucidate microbial, biogeochemical, and climatic processes in natural systems through three fundamental goals: a) characterization and classification of organic molecules in complex, natural mixtures; b) biosynthesis, transport, transformation, preservation and destruction of organic matter in nature; c) application of lipid biomarkers and their stable isotope composition to study biological, biogeochemical, and climatic processes in modern and ancient systems.

**Requisites:** Requires prerequisite course of CHEM 1113 or CHEM 1400 (minimum grade D-).

**Recommended:** Prerequisite GEOL 3320 or GEOL 4270.

**Grading Basis:** Letter Grade

**GEOL 4670 (3) Isotope Geology**

Introduces principles of stable and radiogenic isotope systematics in inorganic and organic geochemistry. Emphasizes application of isotope data to problems in igneous, metamorphic and sedimentary petrology, geobiochemistry, and petroleum genesis.

**Equivalent - Duplicate Degree Credit Not Granted:** GEOL 5670

**Requisites:** Requires prerequisite a course of MATH 1300 or APPM 1350 (minimum grade D-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**GEOL 4675 (3) Stable Isotopes in Paleoclimate and Paleoecology**

Explores the use of stable isotope geochemistry for research questions in paleoclimatology and paleoecology. Covers physical and biological drivers of isotopic fractionation, systematics and applications of light elements such as carbon, nitrogen, oxygen, hydrogen, sulfur and boron and some less traditional isotopic systems. Applications include marine and terrestrial paleoclimate proxies and some uses for ecology and paleoecology.

**Equivalent - Duplicate Degree Credit Not Granted:** GEOL 5675

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**GEOL 4700 (1-4) Special Geological Topics**

Studies in selected geological subjects of special current interest (for undergraduates).

**Repeatable:** Repeatable for up to 9.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**GEOL 4711 (2) Igneous and Metamorphic Field Geology**

Applies field techniques to interpretation of igneous and metamorphic rocks. Field exercises and lectures focus on collecting data required to map igneous and metamorphic rock units.

**Requisites:** Requires prerequisite courses of GEOL 3020 and GEOL 2001 or GEOL 2700 (all minimum grade D-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences  
Arts Sci Gen Ed: Distribution-Natural Sci Lab

**GEOL 4712 (2) Structural Field Geology**

Explores methods of field study of structure of rocks, including observations, data collection and interpretation to understand geometry of deformation and causative processes and kinematics. Field projects are mapped using different scales, air photos, topographic maps and compass and tape.

**Requisites:** Requires prerequisite courses of GEOL 2700 and GEOL 3120 (all minimum grade D-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences  
Arts Sci Gen Ed: Distribution-Natural Sci Lab

**GEOL 4714 (2) Field Geophysics**

Applies geophysical field techniques and data interpretation to studying geological and engineering problems. Fieldwork includes seismic, gravity, magnetic, and electrical measurements.

**Requisites:** Requires prerequisite courses of GEOL 2001 or GEOL 2700 and MATH 1300 and PHYS 1110 or PHYS 1115 (all minimum grade D-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sci Lab  
Arts Sci Gen Ed: Distribution-Natural Sciences

**GEOL 4715 (2) Field Techniques in Hydrogeology**

Introduces various field techniques and data analysis methods in hydrogeologic studies for students in geology, environmental studies, geography, and civil engineering. Exercises include mapping ground water levels, conducting slug and pumping tests, measuring stream flows, interpreting aquifer parameters from geophysical measurements, and using field data for water budget analysis.

**Requisites:** Requires prerequisite courses of GEOL 3030 and GEOL 2001 or GEOL 2700 (all minimum grade D-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences  
Arts Sci Gen Ed: Distribution-Natural Sci Lab

**GEOL 4716 (2) Environmental Field Geochemistry**

This is a critical thinking course that makes use of field and laboratory environments. Students learn methods and develop hands-on expertise needed to identify, characterize and interpret the reactions that govern the quality of water in natural systems, through activities in local watersheds.

**Requisites:** Requires prerequisite courses of GEOL 2001 or GEOL 2700 and GEOL 3320 and CHEM 1011 and CHEM 1031 or CHEM 1113 and CHEM 1133 (all minimum grade D-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sci Lab  
Arts Sci Gen Ed: Distribution-Natural Sciences

**GEOL 4717 (2) Field Seminar in Geology and Tectonics**

Studies geologic features in and around Colorado to gain an overview of the geologic and tectonic evolution of the western U.S.

**Requisites:** Requires prerequisite courses of GEOL 2001 or GEOL 2700 and GEOL 3120 or GEOL 3320 or GEOL 3430 or GEOL 4241 (all minimum grade D-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences  
Arts Sci Gen Ed: Distribution-Natural Sci Lab

**GEOL 4719 (2) Field Analysis and Tectonics of Crystalline Rocks**

Introduces basic and advanced mapping tools and concepts for structural and tectonic analysis of solid-state and magmatic deformation, metamorphism, and fluid flow in igneous and metamorphic rocks.

Includes some digital mapping concepts using smartpad and smartphone applications, and computer-based analysis of structure data. Includes multi-day mapping projects in the Front Range, and in western Colorado, southern Wyoming, or northern New Mexico. Also includes introductions to Precambrian tectonic history of western North America and mineral resources of Colorado.

**Equivalent - Duplicate Degree Credit Not Granted:** GEOL 5719

**Requisites:** Requires prerequisite courses of GEOL 2700 and GEOL 3120 (all minimum grade D).

**Grading Basis:** Letter Grade

**GEOL 4721 (2) Field Methods in Active Tectonics**

Analysis of active geologic structures, including strike slip fault systems, secondary structures in stepovers and related eruptive centers. Includes the use of digital imagery, elevation models, offset geomorphic features and Quaternary deposits to determine local deformation rates and their relation to plate motions.

**Requisites:** Requires prerequisite courses of GEOL 2700 and GEOL 3120 (all minimum grade D-).

**Recommended:** Prerequisite GEOL 4712.

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences  
Arts Sci Gen Ed: Distribution-Natural Sci Lab

**GEOL 4723 (2) Field Studies in Sedimentology**

Provides students experience in observing and interpreting sedimentary rocks in the field. We will visit outcrops in CO and UT spanning a range of depositional environments, including eolian, lacustrine, fluvial, and marine. Developing observational and notetaking skills will be emphasized; students will be responsible for contributing to a group field guide based on their guided field observations at each site.

**Requisites:** Requires prerequisite courses of GEOL 2700 and GEOL 3430 (all minimum grade D-).

**GEOL 4725 (1-4) Field Based Special Topics in Geoscience**

Explores selected geological subjects of special interest in a field setting.

**Equivalent - Duplicate Degree Credit Not Granted:** GEOL 5725

**Repeatable:** Repeatable for up to 8.00 total credit hours. Allows multiple enrollment in term.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Distribution-Natural Sciences

**GEOL 4840 (1-3) Independent Study in Geology**

Time and credit to be arranged. For advanced undergraduates who have high scholastic standing. Open only upon consultation with department advisor.

**Repeatable:** Repeatable for up to 7.00 total credit hours.

**GEOL 4841 (1-3) Independent Study-Economic Geology**

Time and credit to be arranged. For advanced undergraduates who have high scholastic standing. Open only upon consultation with department advisor. May be repeated for a total of 7 credit hours.

**Repeatable:** Repeatable for up to 7.00 total credit hours.

**GEOL 4842 (1-3) Independent Study-Petrology**

Time and credit to be arranged. For advanced undergraduates who have high scholastic standing. Open only upon consultation with department advisor. May be repeated for a total of 7 credit hours.

**Repeatable:** Repeatable for up to 7.00 total credit hours.

**GEOL 4843 (1-3) Independent Study-Sedimentology**

Time and credit to be arranged. For advanced undergraduates who have high scholastic standing. Open only upon consultation with department advisor. May be repeated for a total of 7 credit hours.

**Repeatable:** Repeatable for up to 7.00 total credit hours.

**GEOL 4844 (1-3) Independent Study-Structure/Tectonics**

Time and credit to be arranged. For advanced undergraduates who have high scholastic standing. Open only upon consultation with department advisor. May be repeated for a total of 7 credit hours.

**Repeatable:** Repeatable for up to 7.00 total credit hours.

**GEOL 4845 (1-3) Ind Stdy-Geochemistry**

Time and credit to be arranged. For advanced undergraduates who have high scholastic standing. Open only upon consultation with department advisor. May be repeated for a total of 7 credit hours.

**Repeatable:** Repeatable for up to 7.00 total credit hours.

**GEOL 4846 (1-3) Independent Study-Geophysics**

Time and credit to be arranged. For advanced undergraduates who have high scholastic standing. Open only upon consultation with department advisor. May be repeated for a total of 7 credit hours.

**Repeatable:** Repeatable for up to 7.00 total credit hours.

**GEOL 4847 (1-3) Independent Study-Hydrology**

Time and credit to be arranged. For advanced undergraduates who have high scholastic standing. Open only upon consultation with department advisor. May be repeated for a total of 7 credit hours.

**Repeatable:** Repeatable for up to 7.00 total credit hours.

**GEOL 4849 (1-3) Independent Study-Paleontology**

Time and credit to be arranged. For advanced undergraduates who have high scholastic standing. Open only upon consultation with department advisor. May be repeated for a total of 7 credit hours.

**Repeatable:** Repeatable for up to 7.00 total credit hours.

**GEOL 4851 (1-3) Independent Study in Geoscience Education**

**Repeatable:** Repeatable for up to 3.00 total credit hours.

**GEOL 4862 (1-4) Geology Independent Study**

**Repeatable:** Repeatable for up to 7.00 total credit hours. Allows multiple enrollment in term.

**GEOL 4990 (1-3) Honors Thesis**

Supervised project involving original research in any area of the geological sciences. The thesis is submitted to the Honors Program of the College of Arts and Sciences and is orally defended. Must be accepted by the departmental honors committee. Department enforced prerequisite: minimum cumulative GPA of 3.30.

**Additional Information:** Arts Sciences Honors Course

## Geology - Bachelor of Arts (BA)

The options available in the undergraduate program in geological sciences are geology and geophysics and lead to the BA degree. Both options provide a strong basis for understanding the functioning of the Earth system. Students who are uncertain as to which option best suits their needs should contact a departmental advisor or faculty member. In each option, the undergraduate program emphasizes coursework in theoretical, laboratory and field-oriented aspects of the geological sciences. The nearby Rocky Mountains provide a natural laboratory for many of these courses.

Students interested in the geological sciences may also wish to consider the Baker Residential Academic Program. Students who do not wish to pursue a career in the geosciences, or who would like to combine a basic knowledge of geologic sciences with that of some other field, should consider using geological sciences as one subject in a distributed studies major or as a minor. Students who intend to pursue graduate study in the geological sciences are encouraged to consider developing an honors thesis as part of their undergraduate studies.

The two options available in the undergraduate major offer different focus areas of instruction. Both options offer excellent preparation for students interested in pursuing professional careers, or graduate study, in the geological sciences.

Each option emphasizes knowledge in:

- the ways in which Earth responds to internal and external forces; the physical, chemical and biological evolution of Earth; and the nature of the materials of which the Earth is made
- the role of physics, chemistry, mathematics and biology in understanding geological processes
- the history of discoveries and ideas that have contributed to our current knowledge of Earth and the planetary system

## Program Tracks

### Geology Track

The geology option emphasizes processes that function both in the solid earth and at Earth's surface:

- the mineralogy and petrology of igneous, metamorphic and sedimentary rocks
- the processes of sedimentation and the applications of stratigraphy and paleobiology in the reconstruction of Earth history
- the role of geophysics and geochemistry in understanding the nature of Earth and its history
- the study of faults, folds and other rock structures and the tectonic processes that create those structures
- the methods used in the field to map and interpret the diverse variety of rock types and structures
- the function of the integrated Earth system including the atmosphere, hydrosphere, biosphere and geosphere
- the fundamental controls on surface Earth processes including energy balance, hydrology, geomorphology, geochemistry and biogeochemistry
- the role of humans in the Earth system

### Geophysics Track

The geophysics option emphasizes:

- applications of fundamental mathematical formulations and physical principles to an understanding of the Earth
- methods utilized to map and characterize those portions of the planet that lie below the surface, from just beneath our feet down to the core

## International Bachelor of Arts

The International Bachelor of Arts (IBA) is a joint degree between CU Boulder and the University of Wollongong, Wollongong, Australia. To earn an IBA in geology, in addition to completing all the current requirements for the BA with a major in geology at the home institution, students must complete one full-time semester experiential, customized, international learning experience at the non-home institution.

## Requirements

### Required Courses and Credits

Students must complete the general requirements of the College of Arts and Sciences and the required courses listed below.

Students in either the geology option or the geophysics option must take the following coursework in GEOL.

Code	Title	Credit Hours
<b>Required Courses</b>		
One of the following introductory GEOL courses		3
GEOL 1010	Exploring Earth	
	or GEOL 1012 Exploring Earth for Scientists	
	or GEOL 1020 Dodos, Dinos, and Deinococcus: The History of a Habitable Planet	
	or GEOL 1040 Geology of Colorado	
	or GEOL 1060 Global Change: An Earth Science Perspective	
	or GEOL 1150 Water, Energy and Environment: An Introduction to Earth Resources	
	or GEOL 1180 Our Microbial Planet	
	or GEOL 2100 Environmental Geology	
GEOL 1030	Introduction to Geology Laboratory 1	1
GEOL 2001	Planet Earth	4
GEOL 2005	Introduction to Earth Materials	4
GEOL 2700	Introduction to Field Geology	2
Total Credit Hours		14

### Ancillary Coursework

Students in either the geology option or the geophysics option must take the following coursework from outside GEOL.

Code	Title	Credit Hours
Complete a general chemistry sequence with labs:		
CHEM 1113 & CHEM 1114	General Chemistry 1 and Laboratory in General Chemistry 1	10
CHEM 1133 & CHEM 1134	General Chemistry 2 and Laboratory in General Chemistry 2	
Select one of the following Calculus 1 & 2 sequences:		8-10
MATH 1300 & MATH 2300	Calculus 1 and Calculus 2	
APPM 1350 & APPM 1360	Calculus 1 for Engineers and Calculus 2 for Engineers	

Complete a calculus-based general physics sequence with lab:	9
PHYS 1110 General Physics 1	
PHYS 1120 General Physics 2	
PHYS 1140 Experimental Physics 1	
Total Credit Hours	27-29

## Program Tracks

### Geology Option

Students electing the geology option are required to take the following additional courses:

Code	Title	Credit Hours
<b>Tier 3 Courses</b>		
Select one of the following Solid Earth courses: <sup>3</sup>		3-4
GEOL 3010	Introduction to Mineralogy	
GEOL 3020	Petrology	
GEOL 3120	Structural Geology	
GEOL 3320	Introduction to Geochemistry	
GEOL 3330	Principles of Geophysics	
GEOL 3430	Sedimentology and Stratigraphy	
Select one of the following Surface Processes courses: <sup>3</sup>		3-4
GEOL 3030	Introduction to Hydrogeology	
GEOL 3320	Introduction to Geochemistry	
GEOL 3410	Paleobiology	
GEOL 3430	Sedimentology and Stratigraphy	
GEOL 3820	The Fluid Earth	
GEOL 4060	Oceanography	
GEOL 4160	Introduction to Biogeochemistry	
GEOL 4241	Principles of Geomorphology	
Select one of the following Quantitative Geoscience courses: <sup>3</sup>		3
GEOL 3010	Introduction to Mineralogy	
GEOL 3030	Introduction to Hydrogeology	
GEOL 3330	Principles of Geophysics	
GEOL 3820	The Fluid Earth	
GEOL 4241	Principles of Geomorphology	
Select two of the following advanced-field modules:		4-5
GEOL 4711	Igneous and Metamorphic Field Geology	
GEOL 4712	Structural Field Geology	
GEOL 4714	Field Geophysics	
GEOL 4715	Field Techniques in Hydrogeology	
GEOL 4716	Environmental Field Geochemistry	
GEOL 4717	Field Seminar in Geology and Tectonics	
GEOL 4721	Field Methods in Active Tectonics	
EVEN 4100	Environmental Sampling and Analysis	
<i>Upper-division electives</i>		
Sufficient additional upper-division coursework from following list to total 27 upper-division credits. (Of these 27, a minimum of 18 upper-division credits must be GEOL.) <sup>1</sup>		14
Any GEOL 3000- to 4000-level course (with exceptions, see footnote) <sup>2</sup>		
Or approved non-GEOL courses from following list:		

APPM 3050	Scientific Computing in Matlab
ASTR 3710	Formation & Dynamics of Planetary Systems
ASTR 3720	Planets and Their Atmospheres
ASTR 3750	Planets, Moons, and Rings
ASTR 4800	Space Science: Practice and Policy <sup>1</sup>
ATOC 4720	Introduction to Atmospheric Dynamics
ATOC 4800	Policy Implications of Climate Controversies <sup>1</sup>
CHEM 4511	Physical Chemistry 1
CVEN 4404	Water Chemistry
CVEN 4718	Mechanics and Dynamics of Glaciers
EBIO 3080	Evolutionary Biology
EBIO 3850	Animal Diversity: Invertebrates
EBIO 4030	Limnology
EBIO 4060	Landscape Ecology
EBIO 4155	Ecosystem Ecology
EBIO 4410	Biological Statistics
EBIO 4500	Plant Biodiversity and Evolution
ECON 3403	International Economics and Policy <sup>1</sup>
ENVD 4023	Environmental Impact Assessment <sup>1</sup>
ENVS 3434	Introduction to Applied Ecology
EVEN 4100	Environmental Sampling and Analysis
GEOG/ENVS 4201	Biometeorology
GEOG 4251	Fluvial Geomorphology
GEOG 4261	Glaciers and Permafrost
GEOG 4321	Snow Hydrology
GEOG 4401	Soils Geography
MCDB 4350	Microbial Diversity and the Biosphere
MUSM 4914	Museum Practicum in Geology
PSCI 3183	International Law
Total Credit Hours	27-30

<sup>1</sup> Note: A maximum of 3 of these credit hours may consist of a policy course from the following list:

- ASTR 4800 Space Science: Practice and Policy
- ATOC 4800 Policy Implications of Climate Controversies
- ECON 3403 International Economics and Policy
- ENVD 4023 Environmental Impact Assessment
- PSCI 3183 International Law

<sup>2</sup> GEOL 3040, GEOL 3070, GEOL 3520, GEOL 3720, GEOL 3950, and GEOL 4500 cannot be used to fulfill the upper-division elective requirements within the major.

<sup>3</sup> Note that some courses are listed in multiple major specific categories. Students can choose which category to apply the course to but, a given course can be applied to only one category.

### Geophysics Option

Students electing the geophysics option are required to take the following additional courses:

Code	Title	Credit Hours
<b>Geophysics track courses</b>		
GEOL 3120	Structural Geology	4
GEOL 3330	Principles of Geophysics	3
GEOL 4714	Field Geophysics	2
<i>One Surface Processes course</i>		3-4
GEOL 3030	Introduction to Hydrogeology or GEOL 332 Introduction to Geochemistry or GEOL 341 Paleobiology or GEOL 343 Sedimentology and Stratigraphy or GEOL 382 The Fluid Earth or GEOL 406 Oceanography or GEOL 407 Paleoclimatology or GEOL 416 Introduction to Biogeochemistry or GEOL 424 Principles of Geomorphology	
One additional tier 3 approved GEOL course not used to satisfy Surface Processes course requirement.		3-4
<i>Ancillary non-GEOL courses:</i>		
APPM 2350	Calculus 3 for Engineers or MATH 2400 Calculus 3	4-5
MATH 2130 & MATH 3430	Introduction to Linear Algebra for Non-Mathematics Majors and Ordinary Differential Equations or APPM 2360 Introduction to Differential Equations with Linear Algebra	4-6
PHYS 2130	General Physics 3	3
PHYS 2210	Classical Mechanics and Mathematical Methods 1	3
Select two of the following non-GEOL Geophysics Advanced Elective courses:		6
APPM 4350	Methods in Applied Mathematics: Fourier Series and Boundary Value Problems	
MATH 4470	Partial Differential Equations	
PHYS 3210	Classical Mechanics and Mathematical Methods 2	
PHYS 3310	Principles of Electricity and Magnetism 1	
One computing course		3-4
CSCI 1300	Computer Science 1: Starting Computing	
CSCI 1320	Computer Science 1: Starting Computing-Engineering Applications	
APPM 3050	Scientific Computing in Matlab	
Total Credit Hours		38-44

Additional information on required courses and other departmental requirements may be obtained from the departmental office. Students should contact the department for a list of current major requirements.

Transfer students must satisfactorily complete a minimum of 12 credit hours of advanced work (3000-level or above) in the Department of Geological Sciences in Boulder if they wish to obtain a degree in geology from CU Boulder. Before registering for the first time, or within the first week of the semester, such students must see a geological sciences department undergraduate advisor to have previous coursework in geology, math and allied sciences evaluated.

## Graduating in Four Years

Consult the Four-Year Guarantee Requirements for information on eligibility. The concept of "adequate progress" as it is used here refers only to maintaining eligibility for the four-year guarantee; it is not a requirement for the major. To maintain adequate progress in geology, students should meet all college requirements plus specific departmental requirements. These departmental requirements vary slightly between the two major options. Detailed information is available from the department office, but in general these requirements include:

- Declare a geology major and begin coursework in the major during the first semester freshman year.
- Meet with a departmental advisor prior to the second and fifth semesters and during the seventh semester.
- Complete at least 33 credit hours (geology option; 44 credit hours for geophysics option) required for the major by the end of the fourth semester.
- Complete at least 47 credit hours (geology option; 63 credit hours for geophysics option) required for the major by the end of the sixth semester.
- Complete the remaining requirements for the major by the end of the eighth semester.

## Recommended Four-Year Plans of Study Geology Track

Through the required coursework for either track of the major, students will fulfill all 12 credits of the Natural Sciences area of the Gen Ed Distribution Requirement including the Lab Requirement, as well as the QRMS area of the Gen Ed Skills area.

Course	Title	Credit Hours
<b>Year One</b>		
<b>Fall Semester</b>		
GEOL 1010 & GEOL 1030	Exploring Earth and Introduction to Geology Laboratory 1	4
CHEM 1113 & CHEM 1114	General Chemistry 1 and Laboratory in General Chemistry 1	5
Gen. Ed. Skills course (example: Lower-Division Written Communication)		3
Gen. Ed. Distribution/Diversity course (example: Arts & Humanities/US Perspective)		3
Credit Hours		15

<b>Spring Semester</b>		
GEOL 2005	Introduction to Earth Materials	4
CHEM 1133 & CHEM 1134	General Chemistry 2 and Laboratory in General Chemistry 2	5
MATH 1300 or APPM 1350	Calculus 1 or Calculus 1 for Engineers	4-5
Elective/MAPS		3
Credit Hours		16-17

<b>Year Two</b>		
<b>Fall Semester</b>		
GEOL 2001	Planet Earth	4
GEOL 2700	Introduction to Field Geology	2
MATH 2300 or APPM 1360	Calculus 2 or Calculus 2 for Engineers	4-5

Gen. Ed. Distribution course (example: Arts & Humanities)	3
Gen. Ed. Distribution/Diversity course (example: Social Sciences/Global Perspective)	3
Credit Hours	16-17
<b>Spring Semester</b>	
GEOL Surface Processes course	3-4
GEOL Solid Earth course	3-4
PHYS 1110 General Physics 1	4
Elective/MAPS	3
Elective/MAPS	3
Credit Hours	16-18
<b>Year Three</b>	
<b>Fall Semester</b>	
PHYS 1120 General Physics 2	4
PHYS 1140 Experimental Physics 1	1
Elective approved for GEOL major - Upper-division	3-4
Gen. Ed. Distribution course (example: Social Sciences)	3
Upper-division Elective	3
Credit Hours	14-15
<b>Spring Semester</b>	
GEOL Qualitative Geoscience course	3-4
GEOL 4000-level Field Geology course	2-3
Gen. Ed. Skills course (example: Upper-division Written Communication)	3
Gen. Ed. Distribution course (example: Arts & Humanities)	3
Upper-division Elective	3
Credit Hours	14-16
<b>Year Four</b>	
<b>Fall Semester</b>	
GEOL 4000-level Field Geology course	2
Elective approved for GEOL major - Upper-division	3-4
Gen. Ed. Distribution course (example: Social Sciences)	3
Gen. Ed. Distribution course (example: Arts & Humanities) - Upper-division	3
Upper-division Elective	3
Credit Hours	14-15
<b>Spring Semester</b>	
Elective approved for GEOL major - Upper-division	3-4
Elective approved for GEOL major - Upper-division	3-4
Elective approved for GEOL major - Upper-division	3-4
Gen. Ed. Distribution course (example: Social Sciences)	3
Upper-division Elective	3-0
Credit Hours	15
Total Credit Hours	120-128

## Geophysics Track

Through the required coursework for either track of the major, students will fulfill all 12 credits of the Natural Sciences area of the Gen Ed Distribution Requirement including the Lab Requirement, as well as the QRMS area of the Gen Ed Skills area.

Course	Title	Credit Hours
<b>Year One</b>		
<b>Fall Semester</b>		
GEOL 1010 & GEOL 1030	Exploring Earth and Introduction to Geology Laboratory 1	4
CHEM 1113 & CHEM 1114	General Chemistry 1 and Laboratory in General Chemistry 1	5
Gen. Ed. Skills course (example: Lower-Division Written Communication)		3
Gen. Ed. Distribution/Diversity course (example: Arts & Humanities/US Perspective)		3
Credit Hours		15
<b>Spring Semester</b>		
GEOL 2005	Introduction to Earth Materials	4
CHEM 1133 & CHEM 1134	General Chemistry 2 and Laboratory in General Chemistry 2	5
MATH 1300 or APPM 1350	Calculus 1 or Calculus 1 for Engineers	4-5
Elective/MAPS		3
Credit Hours		16-17
<b>Year Two</b>		
<b>Fall Semester</b>		
GEOL 2001	Planet Earth	4
GEOL 2700	Introduction to Field Geology	2
MATH 2300 or APPM 1360	Calculus 2 or Calculus 2 for Engineers	4-5
Gen. Ed. Distribution course (example: Arts & Humanities)		3
Gen. Ed. Distribution/Diversity course (example: Social Sciences/Global Perspective)		3
Credit Hours		16-17
<b>Spring Semester</b>		
GEOL 3120	Structural Geology	4
GEOL Surface Processes course (see above)		3-4
PHYS 1110	General Physics 1	4
APPM 2350 or MATH 2400	Calculus 3 for Engineers or Calculus 3	4-5
Credit Hours		15-17
<b>Year Three</b>		
<b>Fall Semester</b>		
PHYS 1120	General Physics 2	4
PHYS 1140	Experimental Physics 1	1
GEOL 4714	Field Geophysics	2
APPM 2360	Introduction to Differential Equations with Linear Algebra	4
Gen. Ed. Distribution course (example: Social Sciences) - Upper-division		3
Credit Hours		14
<b>Spring Semester</b>		
GEOL 3330	Principles of Geophysics	3
Additional tier 3 approved GEOL course		3-4
PHYS 2130	General Physics 3	3
Gen. Ed. Skills course (example: Upper-division Written Communication)		3

Gen. Ed. Distribution course (example: Arts & Humanities) - Upper-division	3
Credit Hours	15-16
<b>Year Four</b>	
<b>Fall Semester</b>	
PHYS 2210 Classical Mechanics and Mathematical Methods 1	3
Geophysics Advanced Elective	3
Gen. Ed. Distribution course (example: Social Sciences) - Upper-division	3
Gen. Ed. Distribution course (example: Arts & Humanities) - Upper-division	3
Upper-division Elective	3
Credit Hours	15
<b>Spring Semester</b>	
Geophysics Advanced Elective	3
Geophysics computing course	3-4
Gen. Ed. Distribution course (example: Social Sciences)	3
Upper-division Elective	3
Elective or Upper-division Elective (if needed)	3
Credit Hours	15-16
Total Credit Hours	121-127

## Geology - Minor

The minor program in geological sciences is meant for students who would like to acquire a basic knowledge of geology in addition to their major area of study.

For more information, please visit the Geological Sciences website (<https://www.colorado.edu/geologicalsciences/academic/undergraduate/minor-requirements>).

## Requirements

The College of Arts and Sciences' requirements for a minor include a minimum of 18 credit hours in the minor area, including a minimum of 9 upper-division credit hours.

All coursework applied to the minor must be completed with a grade of C- or better; no pass/fail work may be applied. The grade point average for all minor degree coursework must be equal to 2.000 (C) or higher. Students are allowed to apply no more than 9 credit hours, including 6 upper-division credit hours, of transfer work toward a minor.

The departmental requirements for the minor are listed below. The department strongly urges students interested in pursuing a minor in geology to consult a departmental advisor.

## Required Courses and Credits

Code	Title	Credit Hours
<b>Introductory Courses</b>		
<i>Lectures</i>		
Select two of the following 1000-level introductory courses:		6
GEOL 1010	Exploring Earth <sup>1</sup>	
	or GEOL 101 Exploring Earth for Scientists	

GEOL 1020	Dodos, Dinos, and Deinococcus: The History of a Habitable Planet <sup>2</sup>	
	or GEOL 1040 Geology of Colorado	
GEOL 1060	Global Change: An Earth Science Perspective	
GEOL 1150	Water, Energy and Environment: An Introduction to Earth Resources	
GEOL 1170	Our Deadly Planet	
GEOL 1180	Our Microbial Planet	
<i>Introductory Laboratory Course</i>		
GEOL 1030	Introduction to Geology Laboratory 1	1
<b>Laboratory or Field-Oriented Course</b>		
Select at least one of the following laboratory or field-oriented courses:		2-4
GEOL 2001	Planet Earth	
GEOL 2700	Introduction to Field Geology	
GEOL 3010	Introduction to Mineralogy	
GEOL 3023	Statistics and Geographic Data	
GEOL 3120	Structural Geology	
GEOL 3330	Principles of Geophysics	
GEOL 3410	Paleobiology	
GEOL 3430	Sedimentology and Stratigraphy	
GEOL 4060	Oceanography	
GEOL 4093	Remote Sensing of the Environment	
GEOL 4241	Principles of Geomorphology	
<b>Geology Electives</b>		
Additional geology coursework to bring the total upper-division credit hours to 9 and total credit hours in geology to 18.		9-7
Total Credit Hours		18

- <sup>1</sup> Students cannot take GEOL 1010 *and* GEOL 1012 as these two course are considered similar to each other and the student will lose credit for one of the courses.
- <sup>2</sup> Students cannot take GEOL 1020 *and* GEOL 1040 as these two course are considered similar to each other and the student will lose credit for one of the courses.

## Germanic and Slavic Languages and Literatures

Undergraduate students may choose to major in either German studies or Russian studies; minors are offered in both. The department also offers a minor in Nordic studies.

To declare a major or minor with this department, please meet with the GSLL advisor, Christine Luft ([christine.luft@colorado.edu](mailto:christine.luft@colorado.edu)), to start your application.

Course codes for these programs are DANE, FINN, GRMN, GSLL, NORW, RUSS, SCAN and SWED.

## Bachelor's Degrees

- German Studies - Bachelor of Arts (BA) (p. 335)
- Russian Studies - Bachelor of Arts (BA) (p. 338)

## Minors

- German Studies - Minor (p. 344)
- Nordic Studies - Minor (p. 344)
- Russian Studies - Minor (p. 345)

## Faculty

While many faculty teach both undergraduate and graduate students, some instruct students at the undergraduate level only. For more information, contact the faculty member's home department.

## Courses

### Danish

#### DANE 1010 (4) Beginning Danish I-DILS

Provides practical, communicative language skills for use in a variety of situations. Examines basic language structure and grammatical forms. Introduces students to Danish history and contemporary culture and society.

**Additional Information:** Departmental Category: Danish Courses

#### DANE 1020 (4) Beginning Danish II-DILS

Provides practical, communicative language skills for use in a variety of situations. Examines basic language structure and grammatical forms. Introduces students to Danish history and contemporary culture and society. Department enforce prerequisite: DANE 1010 (min grade C-).

**Additional Information:** Departmental Category: Danish Courses

#### DANE 2010 (4) Intermediate Danish I - DILS

Building on the skills that the students have acquired in Beginners Danish I-II, this course offers additional reading, writing, speaking and verbal comprehension. Students will learn to conduct business at a government office, talk about holidays and festivals and discuss conservation and environmental protection. They will read and write small texts, becoming exposed to differences between written and spoken Danish.

**Requisites:** Requires prerequisite course of DANE 1020 (minimum grade C-).

**Additional Information:** Arts Sci Core Curr: Foreign Language

Arts Sci Gen Ed: Foreign Language

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Danish Courses

**DANE 2020 (4) Intermediate Danish II - DILS**

Offers extensive reading, writing, speaking and verbal comprehension skills in Danish. The students will discuss Danish history, cultural differences and stereotypes, politics, social groups, learn how to write letters and email in Danish, read short texts and write short essays on the above topics.

**Requisites:** Requires prerequisite course of DANE 2010 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Danish Courses

**Finnish****FINN 1010 (4) Beginning Finnish 1 - DILS**

Provides practical, communicative language skills for use in a variety of situations. Examines basic language structure and grammatical forms. Introduces students to Finnish history and contemporary culture and society. Directed independent language study course, requires work outside of class.

**Additional Information:** Departmental Category: Finnish Courses

**FINN 1020 (4) Beginning Finnish 2- DILS**

Continuation of Beginning Finnish I. Provides practical, communicative language skills for use in a variety of situations. Examines basic language structure and grammatical forms. Introduces students to Finnish history and contemporary culture and society. Directed independent language study course, requires work outside of class. Department enforced prerequisite: FINN 1010 (minimum grade C-).

**Additional Information:** Departmental Category: Finnish Courses

**FINN 2010 (4) Intermediate Finnish 1 - DILS**

Continuation of Beginning Finnish 2. Provides practical, communicative language skills for use in a variety of situations. Examines intermediate language structure and grammatical forms. Introduces students to Finnish history and contemporary culture and society. Directed independent language study course, requires work outside of class. Department enforced prerequisite: FINN 1020 (minimum grade C-).

**Additional Information:** Arts Sci Core Curr: Foreign Language

Arts Sci Gen Ed: Foreign Language

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Finnish Courses

**FINN 2020 (4) Intermediate Finnish 2 - DILS**

Continuation of Intermediate Finnish I. Provides practical, communicative language skills for use in a variety of situations. Examines intermediate language structure and grammatical forms. Introduces students to Finnish history and contemporary culture and society. Directed independent language study course, requires work outside of class. Department enforced prerequisite: FINN 2010 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Finnish Courses

**German****GRMN 1010 (4) Beginning German 1**

Introduction to language and culture of the German-speaking world, with emphasis on the acquisition of basic communication skills in cultural context. For students with no previous training in German.

**Equivalent - Duplicate Degree Credit Not Granted:** GRMN 1030

**Additional Information:** Arts Sci Core Curr: Foreign Language

Arts Sci Gen Ed: Foreign Language

Departmental Category: German

**GRMN 1020 (4) Beginning German 2**

Continued development of German-language skills and cultural knowledge for effective communication. Emphasis on more complex language structures and sustained interactions. Department enforced prerequisite: GRMN 1010 (min grade of C-).

**Equivalent - Duplicate Degree Credit Not Granted:** GRMN 1030

**Additional Information:** Arts Sci Core Curr: Foreign Language

Arts Sci Gen Ed: Foreign Language

Departmental Category: German

**GRMN 1030 (5) Intensive Beginning German**

Covers the same material as GRMN 1010 and GRMN 1020 in one course. Focuses on acquiring ability to understand and speak everyday German; on developing reading and writing skills; and on learning about the cultures of the German-speaking countries.

**Equivalent - Duplicate Degree Credit Not Granted:** GRMN 1010 and GRMN 1020

**Additional Information:** Departmental Category: German

**GRMN 1500 (3) German for Reading Knowledge**

Designed especially for graduate students. Emphasizes analytical skills for acquiring reading proficiency in specialized and technical German in one's field of research. Recommended for pass/fail registration. Does not satisfy the arts and sciences foreign language requirement. Does not count towards the German major.

**Additional Information:** Departmental Category: German

**GRMN 1601 (3) Germany Today**

Introduces the culture of contemporary German-speaking central Europe, examining historical processes, social and political patterns, and the intellectual and artistic responses to problems of the 20th and 21st centuries. Taught in English.

**Additional Information:** Arts Sci Core Curr: Contemporary Societies

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: German Courses Taught in English

**GRMN 1602 (3) Metropolis and Modernity**

An interdisciplinary introduction to the modern industrial city in Europe and the USA, with particular attention to the representation of urbanism in the visual arts. Taught in English.

**Additional Information:** Arts Sci Core Curr: Literature and the Arts

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: German Courses Taught in English

**GRMN 1701 (3) Nature and Environment in German Literature and Thought**

Critically examines titles in German literature and thought. Nature and environment are used to explore alienation, artistic inspiration, nihilism, exploitation, sexuality, rural versus urban, meaning of the earth, cultural renewal, identity and gender. This "Green" survey of German classics spans Romanticism's conception of nature as unconscious spirit to the politics and values of contemporary Germany's Green Party. Taught in English.

**Equivalent - Duplicate Degree Credit Not Granted:** HUMN 1701

**Additional Information:** Arts Sci Core Curr: Ideals and Values

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: German Courses Taught in English

**GRMN 2010 (4) Intermediate German 1**

Development of skills for independent use of German. Discussions, writing and listening/viewing activities that address topics of the contemporary German-speaking world. Department enforced prerequisite: GRMN 1020 or 1030 (minimum grade C-).

**Equivalent - Duplicate Degree Credit Not Granted:** GRMN 2030

**Additional Information:** GT Pathways: GT-AH4 - Arts Hum: Foreign Languages

Arts Sci Core Curr: Foreign Language

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Foreign Language

Departmental Category: German

**GRMN 2020 (4) Intermediate German 2**

Development of communication skills and knowledge about recent social, cultural and political developments in German speaking countries through texts, media and film. Department enforced prerequisite: GRMN 2010 (minimum grade C-).

**Equivalent - Duplicate Degree Credit Not Granted:** GRMN 2030

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: German

**GRMN 2030 (5) Intensive Intermediate German**

Covers the same material as GRMN 2010 and GRMN 2020 in one semester. Offers review and continuation of basic skills begun in the first year: reading, writing, speaking and oral comprehensive. Department enforced prerequisite: GRMN 1020 or GRMN 1030 (minimum grade C-).

**Equivalent - Duplicate Degree Credit Not Granted:** GRMN 2010 and GRMN 2020

**Additional Information:** Arts Sci Core Curr: Foreign Language

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Foreign Language

Departmental Category: German

**GRMN 2301 (3) Inside Nazi Germany: Politics, Culture, and Everyday Life in the Third Reich**

Examines social culture and everyday life in Nazi Germany. Topics include the role of propaganda in the media and entertainment industries, anti-Semitism and suppression of ethnic, social and religious minorities, the role of education and youth organizations, as well as the role of women, the churches, and the effects of a controlled economy before and during World War II. Taught in English.

**Additional Information:** Arts Sci Core Curr: Historical Context

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: German Courses Taught in English

**GRMN 2401 (3) The German Experience in North America**

Discusses the history, culture and literature of German immigrants from the 17th to the 21st century. Investigates reasons for migration and the Diaspora of Germans in Russia to the United States and Canada. Studies individual settlements and stores of German pioneer authors and introduces course participants to archival research.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: German Courses Taught in English

**GRMN 2501 (3) Miniatures of Modern Life: Introduction to Short Fiction**

Introduces students to short fiction from the 20th century. Focuses on issues and themes of modern life, such as: alienation and anxiety; cultures of spectatorship; gender roles, sexuality and social life; memory and nostalgia; technology, industry and capitalism; state power and revolution. Taught in English.

**Additional Information:** Arts Sci Core Curr: Literature and the Arts

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: German Courses Taught in English

**GRMN 2502 (3) Representing the Holocaust**

Examines representations of the Holocaust in film, memoirs, poetry, novels, graphic novels, memorials. Considers questions such as: How to depict an event that resists representation? How does the memory of the Holocaust transform over generations? How do representations of the Holocaust inform our understanding of other experiences of racism and genocide? What ethical issues are at stake? Taught in English.

**Equivalent - Duplicate Degree Credit Not Granted:** JWST 2502

**Additional Information:** Arts Sci Core Curr: Ideals and Values

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: German Courses Taught in English

**GRMN 2503 (3) Fairy Tales of Germany**

Explores the origins, cultural significance, stylistic and thematic features of the German fairy tale, with emphasis on the Brothers Grimm; on artistic fairy tales by Goethe, Tieck, Brentano, and others; and, on modern retellings in literature and popular culture. Taught in English.

**Additional Information:** GT Pathways: GT-AH2 - Arts Hum: Lit Humanities

Arts Sci Core Curr: Literature and the Arts

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: German Courses Taught in English

**GRMN 2601 (3) Kafka and the Kafkaesque**

Exposes the students to a wide selection of Kafka's literary output and aims to define the meaning of the Kafkaesque by looking not only for traces of Kafka's influence in the verbal and visual arts, but also for traces left in Kafka's own work by his precursors in the literary tradition. Taught in English.

**Equivalent - Duplicate Degree Credit Not Granted:** HUMN 2601

**Additional Information:** GT Pathways: GT-AH2 - Arts Hum: Lit Humanities

Arts Sci Core Curr: Literature and the Arts

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: German Courses Taught in English

**GRMN 2603 (3) Moral Dilemmas in Philosophy and Literature**

Examines the moral dilemmas that arise when opportunities afforded by basic freedoms or advances in technology clash with the ethical imperatives that issue from the Enlightenment and the social contract. Guiding questions include: When does the quest for knowledge legitimate transgression of prevailing morality? By what standard do we adjudicate the ambitions of the individual when they compete with the interests of the state? Taught in English.

**Additional Information:** Arts Sci Core Curr: Ideals and Values

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: German Courses Taught in English

**GRMN 3010 (3) Advanced German 1**

Focuses on cultural topics and reviews grammatical topics, expands vocabulary and provides practice in reading, writing, listening and conversation skills. Students have the option of taking the internationally recognized exam Goethe-Zertifikat B1 after GRMN 3010. Department enforced prerequisite: four semesters of college German or equivalent. Open to freshmen with instructor consent.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: German

**GRMN 3020 (3) Advanced German 2**

Expands and refines skills acquired in GRMN 3010. Improves overall fluency and deepens cultural understanding of the German-speaking countries. Develops an advanced skill level in the areas of listening, speaking, reading and writing. Students have the option of taking the internationally recognized exam Goethe-Zertifikat B1 or B2 after GRMN 3020. Department enforced prereq., GRMN 3010 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: German

**GRMN 3030 (3) Business German**

Introduces students to key issues in German society, politics, culture, institutions, economy, business and professional life. Topics and assignments are geared towards practicing and expanding all language skills with an emphasis on Business German. Students will have the option of taking the internationally recognized exam Goethe-Zertifikat B1 or B2 after GRMN 3030. Department enforced prereq., GRMN 2020 (minimum grade C-). Taught in German.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: German

**GRMN 3110 (3) German Literature from the Avant-garde to the Postmodern**

Examines selected literary texts. Emphasizes longer unedited texts as well as critical skills. May be taken either before or after GRMN 3120. Department enforced prereq., GRMN 2020 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: German

**GRMN 3120 (3) German Literature from the Enlightenment to Expressionism**

Examines selected literary texts of various periods. Emphasizes longer texts and critical skills. May be taken either before or after GRMN 3110. Department enforced prereq., GRMN 2020 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: German

**GRMN 3130 (3) Issues in German Philosophy and Literature**

Examines selected interdisciplinary texts from the German literary and philosophical tradition. Topics address issues central to philosophical inquiry, and may include knowledge and its limits, mind and body, determinism and free will, reason and religious belief, and ethical problems. Department enforced prereq., GRMN 2020 or 2030 (minimum grade C-).

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: German

**GRMN 3140 (3) Current Issues in German Literature**

Examines issues pervading contemporary German literature, such as concerns of youth, gender, stereotyping as it affects women and men in their relations with one another, loneliness and sexual frustration, work experiences, and other issues. Department enforced restriction: ability to read unedited German and to speak German.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: German

**GRMN 3150 (3) Issues in German Politics and Literature**

Examines literary and theoretical texts in German about the relationship between literature and politics. Topics may include history and revolution, political theater, feminist aesthetics or terrorism. Readings and discussion in German. Department enforced prereq., GRMN 2020 or GRMN 2030 (minimum grade C-).

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: German

**GRMN 3501 (3) The German-Jewish Experience: From the Enlightenment to the Present**

Provides insight into the German-Jewish identity through essays, autobiographies, fiction and journalism from the Enlightenment to the post-Holocaust period. Examines the religious and social conflicts that typify the history of Jewish existence in German-speaking lands during the modern epoch. Taught in English.

**Equivalent - Duplicate Degree Credit Not Granted:** JWST 3501

**Additional Information:** Arts Sci Core Curr: Human Diversity

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Diversity-Global Perspective

Departmental Category: German Courses Taught in English

**GRMN 3502 (3) Literature in the Age of Goethe**

Features the writings of Germany's major literary figures from 1749 to 1832. Special attention is paid to the formation of literary periods, genres, aesthetic, and socio-historical developments contributing to the birth of modernism in German intellectual history and literature. Taught in English.

**Additional Information:** Arts Sci Core Curr: Literature and the Arts

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: German Courses Taught in English

**GRMN 3503 (3) German Film Through World War II**

History and theory of Weimar and Nazi film with sociocultural emphasis. Taught in English.

**Equivalent - Duplicate Degree Credit Not Granted:** CINE 3503

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: German Courses Taught in English

**GRMN 3504 (3) Topics in German Film**

Analyzes key issues in German culture as they are represented in film and other media, e.g., technology, architecture, women and the Holocaust. Taught in English.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: German Courses Taught in English

**GRMN 3505 (3) The Enlightenment: Tolerance and Emancipation**

Examines Enlightenment notions of reason, humanity and social progress. Topics include 18th century views on government, science, education, religion, slavery and gender roles. Taught in English.

**Equivalent - Duplicate Degree Credit Not Granted:** HUMN 3505

**Additional Information:** Arts Sci Core Curr: Ideals and Values

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: German Courses Taught in English

**GRMN 3506 (3) Tracing the Criminal: Crime in 19th C Society and Culture**

Examines cultural and literary representations of crime from the Enlightenment to the early 20th century and contextualizes them within the history of judicial and medical approaches to criminality. Focusing on representations of the criminal as an object of knowledge, this survey of intellectual history introduces students to critical approaches in the humanities and the study of social phenomena in their historical context.

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Core Curr: Historical Context

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: German Courses Taught in English

**GRMN 3513 (3) German Film and Society 1945-1989**

Introduces issues in German society through film during the Cold War. Focus on East and West Germany, though some other German language films may be included. Emphasis is on reading films in their social, historical and political contexts. Taught in English.

**Equivalent - Duplicate Degree Credit Not Granted:** CINE 3513

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: German Courses Taught in English

**GRMN 3514 (3) German Film & Society After 1989**

Introduces post-1989 German culture through film. Emphasizes films in their socio-historical contexts and explores developments in German culture during and after the unification. Taught in English.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: German Courses Taught in English

**GRMN 3520 (3) Open Topics in the Cultural Context**

Examines topics in the cultures of German-speaking central Europe.

Contact the departmental office for specific course offerings. Department enforced prereq., GRMN 3020 (minimum grade C-)

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: German

**GRMN 3601 (3) German Women Writers**

Explores writing by German/Austrian women from 1945 to the present, with special attention to the representation of the Holocaust, the continuation of avant-garde traditions, innovations in literary form, and feminism. Visual arts, film, and feminist theory will also be considered in their relation to literature. Taught in English.

**Equivalent - Duplicate Degree Credit Not Granted:** WGST 3601

**Additional Information:** Arts Sci Core Curr: Human Diversity

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Diversity-Global Perspective

Departmental Category: German Courses Taught in English

**GRMN 3681 (3) Refugees in German Culture**

This interdisciplinary course introduces the diversity of refugee migration in German culture through artistic and cultural "texts," including those created by or in collaboration with refugees (film, comic journalism, literature, blogs, hashtag campaigns, music, etc). These texts are discussed in relationship to theories of racism, precarity, and biopolitics together and contextualized by work from other disciplines. This interdisciplinary course is methodologically informed by the theory and practice of cultural studies.

**Equivalent - Duplicate Degree Credit Not Granted:** IAFS 3681 and JWST 3681

**Recommended:** for students with sophomore standing or higher.

**GRMN 3702 (3) Dada and Surrealist Literature**

Surveys the major theoretical concepts and literary genres of the Dada and Surrealist movements. Topics include Dada performance and cabaret, the manifesto, montage, the ready made, the Surrealist novel, colonialism and the avant-garde, and literary and philosophical precursors to the avant-garde. Taught in English.

**Equivalent - Duplicate Degree Credit Not Granted:** HUMN 3702

**Additional Information:** Arts Sci Core Curr: Literature and the Arts

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: German Courses Taught in English

**GRMN 3802 (3) Politics and Culture in Berlin 1900-1933**

Examines early 20th century German culture, with emphasis on the Weimar Republic (1918-1933) in light of contemporaneous political discussions. The course presents modern art and literature (Expressionism, Dada, Brecht's epic theater) and architecture and design (Bauhaus, Werkbund) as well as political movements of women, sexual minorities, and Berlin's Jewish communities. Taught in English. Offered through CU Study Abroad Program.

**Equivalent - Duplicate Degree Credit Not Granted:** HUMN 3802

**Additional Information:** Arts Sci Core Curr: Literature and the Arts

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: German Courses Taught in English

**GRMN 3900 (1-6) Independent Study**

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Departmental Category: German

**GRMN 3930 (1-6) Internship**

Provides an academically supervised opportunity for upper-division students to earn credit while working for public or private organizations. Students apply skills and knowledge earned in the major, and supplement their work experience through directed readings and assignments.

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Requisites:** Restricted to students with 57-180 credits (Junior or Senior) German Studies (GRMN) majors only.

**Additional Information:** Departmental Category: German

**GRMN 4010 (3) Advanced German III**

Emphasizes idiomatically correct spoken and written German in a variety of genres and culturally relevant contexts. Includes a comprehensive grammar review and readings, discussions, and writing on topics related to current cultural, social, and political issues in the German-speaking countries. Students have the option of taking the internationally recognized exam Goethe-Zertifikat B2 or C1 after GRMN 4010.

Department enforced prereq., GRMN 3020 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: German

**GRMN 4051 (3) Critical Theory of the Frankfurt School**

Serves as an introduction to the "Frankfurt School" and Critical Theory with particular emphasis upon rationality, social psychology, cultural criticism, and aesthetics. Through close readings of key texts by members of the school (Horkheimer, Benjamin, Adorno, Habermas) we will work toward a critical understanding of the analytical tools they developed and consider their validity. Taught in English.

**Equivalent - Duplicate Degree Credit Not Granted:** GRMN 5051

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Distribution-Social Sciences

Departmental Category: German Courses Taught in English

**GRMN 4231 (3) Sex, Love and Marriage in Literature and Philosophy**

Traces notions of love, sex and marriage in 19th-20th century philosophy and literature. Considered will be whether/how these representations reflect or challenge ideas of human agency, dignity and happiness. Examined will be shifting views of gender and other social configurations (e.g., friendship, adultery, same-sex desire) to understand their influence on modern attitudes towards sexuality and fidelity.

**Equivalent - Duplicate Degree Credit Not Granted:** GRMN 5231

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: German Courses Taught in English

**GRMN 4251 (3) Marxism**

Historical and systematic study of principal themes of Marxist thought, from its Hegelian origins to its contemporary varieties, emphasizing the works of Marx and Engels. Taught in English. Department enforced prerequisite: 12 hours of GRMN or PHIL course work or instructor consent.

**Equivalent - Duplicate Degree Credit Not Granted:** PHIL 4250

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: German Courses Taught in English

**GRMN 4301 (3) Gender, Race and Immigration in Germany and Europe**

Introduces students to debates surrounding migration and race in contemporary Germany. Emphasis on reading texts in context using tools of cultural studies, integrating analyses of gender, race, nation, and sexuality. Texts may include film, literature, television, magazine images, etc. Topics include: questioning multiculturalism, self-representation, integration, Islam, citizenship, violence, public space, youth culture, racism and nationalism. Taught in English.

**Equivalent - Duplicate Degree Credit Not Granted:** WGST 4301 and GRMN 5301

**Additional Information:** Arts Sci Core Curr: Human Diversity  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Distribution-Social Sciences  
Arts Sci Gen Ed: Diversity-Global Perspective  
Departmental Category: German Courses Taught in English

**GRMN 4330 (3) The Age of Goethe**

German literature from 1770 to 1830. Close examination of representative texts from the periods of Sturm und Drang, classicism, and romanticism. Emphasizes philosophical and social background. Department enforced prereq., GRMN 3020 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: German

**GRMN 4340 (3) Seminar in German Literature**

Intensive study of a particular literary period, author, or genre. Secondary sources are used. Course content differs each time. Department enforced prereq., GRMN 3020 (minimum grade C-).

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: German

**GRMN 4450 (3) Methods of Teaching German**

Required of students who desire the recommendation of the department for secondary school teaching positions. For student teaching in German, see EDUC 4712 under the School of Education.

**Requisites:** Restricted to School of Education (EDUC) undergraduates only

**Additional Information:** Departmental Category: German

**GRMN 4460 (6) High School German Teaching**

Part of the supervised student teaching in a secondary school required for state certification to teach German.

**Requisites:** Restricted to School of Education (EDUC) undergraduates only

**Grading Basis:** Pass/Fail

**Additional Information:** Departmental Category: German

**GRMN 4501 (3) Seminar: Literature in Cultural Context**

Provides a broader basis for the work of literature, viewing it from various cultural perspectives. Specific content of course is defined by the instructor. Taught in English.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: German Courses Taught in English

**GRMN 4502 (3) Nietzsche: Literature and Values**

Emphasis is placed on Nietzsche's major writings spanning the years 1872-1888, with particular attention to the critique of Western values. A systematic exploration of doctrines, concepts and ideas leading to the values of creativity. Taught in English.

**Equivalent - Duplicate Degree Credit Not Granted:** HUMN 4502

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Core Curr: Ideals and Values  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: German Courses Taught in English

**GRMN 4503 (3) Issues in German Thought**

Provides the opportunity to examine major issues in German philosophical, social, and religious thought from the end of German idealism to existentialism and critical theory. Emphasizes the relationship between ideas and social and political action. Taught in English.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: German Courses Taught in English

**GRMN 4504 (3) Goethe's Faust**

Systematic study of the Faust motif in Western literature, with major emphasis on Faust I and II by Goethe and Thomas Mann's Doctor Faustus. Taught in English.

**Equivalent - Duplicate Degree Credit Not Granted:** GRMN 5504 and HUMN 4504

**Additional Information:** Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: German Courses Taught in English

**GRMN 4550 (3) Senior Seminar in German Studies**

This course provides students with a capstone experience through in-depth study of a topic in German Studies, and deepens students' engagement with theories and methodologies informing contemporary German Studies scholarship. Students work closely with faculty to develop a major final research paper or project. Topic varies by semester.

**Requisites:** Restricted to students with 87-180 credits (Senior, Fifth Year Senior) German (GRMN) or School of Education (EDUC) majors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: German

**GRMN 4900 (1-6) Independent Study**

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Departmental Category: German

## Germanic & Slavic Languages & Literatures

### GSLL 2350 (3) Introduction to Jewish Culture

Explores the development and expressions of Jewish cultures across the chronological and geographical map of the Jewish people, with an emphasis on the variety of Jewish ethnicities and their cultural productions, cultural syncretism, and changes, including such issues as sexuality and foodways. Sets the discussion in relevant contexts and looks at cultural representations that include literary, religious and visual texts.

**Equivalent - Duplicate Degree Credit Not Granted:** JWST 2350

**Additional Information:** Arts Sci Core Curr: Human Diversity

Arts Sci Gen Ed: Diversity-U.S. Perspective

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Diversity-Global Perspective

Departmental Category: Germanic and Slavic Courses

### GSLL 2551 (3) Modern Jewish Literature

Examines Jewish experience through the study of literary texts from around the world, mainly from the 20th and 21st centuries. Discusses issues pertaining to secularism and tradition; diasporas and homelands; modernity and questions of identity raised by the intellectual transitions brought about by political and social emancipation; sexualities; enormous changes wrought by population redistributions, world wars and rapid cultural transformations. Formerly HEBR 2551.

**Equivalent - Duplicate Degree Credit Not Granted:** JWST 2551

**Additional Information:** Arts Sci Core Curr: Literature and the Arts

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Germanic and Slavic Courses

### GSLL 3401 (3) The Heart of Europe: Filmmakers and Writers in 20th Century Central Europe

Surveys the major works of 20th century central and central east European film and literature. Examines cultural production in the non-imperial countries and non-national languages of the region including Yiddish, Belarusian, Czech, Hungarian, Polish and Romanian, among others. Traces the rise of nationalism over the course of the century from the age of empires through the "Cold War." Taught in English.

**Equivalent - Duplicate Degree Credit Not Granted:** JWST 3401

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Germanic and Slavic Courses

### GSLL 3600 (3) Contemporary Jewish Societies

Uses transnational lens to explore contemporary debates about Jewish people, places and practices of identity and community; places that Jews have called 'home', and what has made, or continues to make those places 'Jewish'; issues of Jewish homelands and diasporas; gender, sexuality, food and the Jewish body; religious practices in contemporary contexts. Readings drawn primarily from contemporary journalism and scholarship.

**Equivalent - Duplicate Degree Credit Not Granted:** JWST 3600 and IAFS 3600

**Additional Information:** Arts Sci Core Curr: Human Diversity

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Diversity-U.S. Perspective

Arts Sci Gen Ed: Distribution-Social Sciences

Arts Sci Gen Ed: Diversity-Global Perspective

## Norwegian

### NORW 1010 (4) Beginning Norwegian 1

**Additional Information:** Arts Sci Core Curr: Foreign Language

Arts Sci Gen Ed: Foreign Language

Departmental Category: Norwegian

### NORW 1020 (4) Beginning Norwegian 2

Department enforced prerequisite: NORW 1010 (minimum grade C-).

**Additional Information:** Arts Sci Core Curr: Foreign Language

Arts Sci Gen Ed: Foreign Language

Departmental Category: Norwegian

### NORW 1900 (1-6) Independent Study

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Departmental Category: Norwegian

### NORW 2110 (4) Second-Year Norwegian Reading and Conversation 1

Department enforced prerequisite: NORW 1020 (minimum grade C-).

Fulfills the arts and sciences language requirement for the BA and BFA degrees.

**Additional Information:** GT Pathways: GT-AH4 - Arts Hum: Foreign Languages

Arts Sci Core Curr: Foreign Language

Arts Sci Gen Ed: Foreign Language

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Norwegian

### NORW 2120 (4) Second-Year Norwegian Reading and Conversation 2

Continuation of NORW 2110, with focus on Norwegian culture and society. Small group work and class discussions. Department enforced prerequisite: NORW 2110 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Norwegian

### NORW 3900 (1-6) Independent Study

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Departmental Category: Norwegian

## Russian

### RUSS 1010 (4) Beginning Russian 1

For students with no previous training in Russian.

**Equivalent - Duplicate Degree Credit Not Granted:** RUSS 1050

**Additional Information:** Arts Sci Core Curr: Foreign Language

Arts Sci Gen Ed: Foreign Language

Departmental Category: Russian

### RUSS 1020 (4) Beginning Russian 2

A continuation of RUSS 1010. Provides a basic introduction to Russian language and life. Covers the basics of Russian grammar; classroom activities develop speaking, reading and comprehension skills. Course will have midterm and final.

**Equivalent - Duplicate Degree Credit Not Granted:** RUSS 1050

**Recommended:** Prerequisite RUSS 1010 (minimum grade C-).

**Additional Information:** Arts Sci Core Curr: Foreign Language

Arts Sci Gen Ed: Foreign Language

Departmental Category: Russian

### RUSS 1050 (5) Intensive Beginning Russian

Covers same material as RUSS 1010 and RUSS 1020 combined in one course. Focuses on acquiring basic grammar (all cases for nouns, adjectives and possessives, verb conjugations, in all three tenses), and ability to understand and speak basic everyday Russian. Develops basic reading and writing skills and provides exposure to the fundamentals of the Russian culture.

**Equivalent - Duplicate Degree Credit Not Granted:** RUSS 1010 or RUSS 1020

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Departmental Category: Russian

**RUSS 2010 (4) Second-Year Russian 1**

Review and continuation of basic skills learned in the first year: reading, writing, speaking, and oral comprehension. Department enforced prerequisite: RUSS 1020 or RUSS 1050 (minimum grade C-).

**Additional Information:** GT Pathways: GT-AH4 - Arts Hum: Foreign Languages

Arts Sci Core Curr: Foreign Language

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Foreign Language

Departmental Category: Russian

**RUSS 2020 (4) Second-Year Russian 2**

Continuation of RUSS 2010. Department enforced prerequisite: RUSS 2010 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Russian

**RUSS 2211 (3) Introduction to Russian Culture**

Provides a chronological overview of civilization in the area now known as Russia, from its beginnings to the end of the Romanov dynasty, paying particular attention to the geographic, social, artistic, economic, and political forces that have combined to give the Russian people and their culture their unique characteristics. Taught in English.

**Additional Information:** Arts Sci Core Curr: Historical Context

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Russian Courses Taught in English

**RUSS 2221 (3) Introduction to Modern Russian Culture**

Introduces students to major trends in Russian culture from the 1890's to the present, through the study of literature, art, architecture, music and film in an historical context. Addresses such questions as: how have past events affected Russian society? How can we use knowledge about Russia's past to understand social and cultural forces today? Taught in English.

**Equivalent - Duplicate Degree Credit Not Granted:** LIBB 2100

**Additional Information:** Arts Sci Core Curr: Historical Context

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Russian Courses Taught in English

**RUSS 2222 (3) Sports and the Cold War**

Explores the multiple connections between sports and international politics during the Cold War in the Post-War period. Examines how the issues of class, nation, ethnicity, and gender intersect with sports and international politics by studying cases from various sport events since 1945.

**Additional Information:** Arts Sci Core Curr: Historical Context

Arts Sci Gen Ed: Distribution-Social Sciences

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Russian

**RUSS 2231 (3) Fairy Tales of Russia**

Provides a general introduction to fairy tales including various theoretical approaches to classifying and interpreting them; introduces students to a wide selection of Russian folk and fairy tales. Examines the cultural, social and political values they reflect, as well as the continuing influence of fairy tales and folk beliefs in Russian literature, music, folk art, and film, and in the political propaganda of the 20th century. Taught in English.

**RUSS 3000 (3) Advanced Conversation**

Enables students to speak and understand contemporary Russian. Discussion topics and source materials vary. Department enforced prerequisite: RUSS 2010 (minimum grade C-).

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Russian

**RUSS 3010 (4) Third-Year Russian I**

Review of Russian grammar coordinated with reading, speaking, writing and understanding modern Russian. Uses some texts from modern Russian literature. Department enforced prerequisite: RUSS 2020 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Russian

**RUSS 3020 (4) Third-Year Russian II**

Continuation of RUSS 3010. Department enforced prerequisite: RUSS 3010 (minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Russian

**RUSS 3060 (4) Advanced Russian for Heritage Speakers (Part 1)**

Enhances heritage student competence and performance in Russian language. Offers intensive review of Russian grammar and focuses on developing advanced reading, writing and translation skills. Readings are selected from a wide range of contemporary writings that reflect current issues in Russia.

**Equivalent - Duplicate Degree Credit Not Granted:** RUSS 4010 or RUSS 5010

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Russian

**RUSS 3211 (3) History of Russian Cinema**

Surveys Russian cinema in historical and cultural context from early 20th century to the present. Taught in English.

**Equivalent - Duplicate Degree Credit Not Granted:** CINE 3211

**Recommended:** Prerequisite RUSS 2221 or CINE 1502.

**Additional Information:** Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Russian Courses Taught in English

**RUSS 3221 (3) Space Race in Russian and American Culture**

Explores facts and fantasies of American and Soviet cultural narratives accompanying the Space Race, focusing on the production of recorded history as a process of mythmaking during the Cold War. Ponders the significance of presenting astronauts as national heroes and constructing national identities around the triumphs and failures of the competing space programs in science, art, music, film, and journalism.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

**RUSS 3231 (3) Laughter in Slavic Cultures**

Examines forms, genres and social functions of laughter in Slavic cultures (Russian, Polish, Czech, Serbian and others) and provides an introduction to literature and film of Eastern Europe. All readings are in English. Taught in English.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Russian Courses Taught in English

**RUSS 3241 (3) Red Star Trek: Russian Science Fiction Between Utopia and Dystopia**

Examines Russo-Soviet science fiction in literature and film. Within this popular genre, writers conceive and criticize social utopias, thus creating works situated between the poles of utopia and dystopia. Through discussions of Soviet and post-Soviet science fiction the course introduces a Russo-Soviet "alternative modernity" and studies its historical development. All readings are in English. Taught in English.

**Additional Information:** Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Russian Courses Taught in English

**RUSS 3301 (3) Contemporary Issues in Russian Film**

Examines the relationship between politics, economics, aesthetics, and the way moral and social issues are treated in noteworthy Russian films from the last 20 years. Taught in English.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Russian Courses Taught in English

**RUSS 3333 (3) Spies Like Us: Espionage in the Culture of the Cold War and Beyond**

Explores the figure of the spy in Western and Soviet/post-Soviet imagination of the Cold War period and after. Focuses on the constructions and transformations of the "enemy" concept in modern and post-modern societies.

**Additional Information:** Arts Sci Core Curr: Contemporary Societies  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Russian Courses Taught in English

**RUSS 3601 (3) Russian Culture Past and Present**

Russian culture from the ninth century to the present. Focuses on interdisciplinary exploration of literature, folklore, art, architecture and music through study in St. Petersburg. Offered abroad only.

**Additional Information:** Arts Sci Core Curr: Historical Context  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Russian Courses Taught in English

**RUSS 3701 (3) Slavic Folk Culture: Ideals and Values in the Contemporary World**

Explores contemporary Slavic and American folk practices and investigates the possible origins and consequences of such practices. Focuses upon the value systems these practices represent, and ways that core values help to define identities and cultures. Topics include folk religion, magic, healing, life cycle and calendar rituals and folk music. Taught in English.

**Additional Information:** Arts Sci Core Curr: Ideals and Values  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Russian Courses Taught in English

**RUSS 3705 (3) Crimes of Passion: Gender and Sexual Politics in Tolstoy's Russia**

Examines the historical evolution of gender and sexual politics and the status of women in the late Imperial Russian culture, with particular attention to the writings of Leo Tolstoy and his masterpiece *Anna Karenina*. Topics-based survey considers debates around marriage, sexuality and gender equality through analysis of primary text by Tolstoy and his contemporaries, as well as secondary materials in gender studies, literary criticism and intellectual history.

**SCAN 3020 (3) Advanced Readings in Scandinavian**

Develops the type of advanced reading knowledge of the four closely related Scandinavian languages (Swedish, Danish and the two Norwegian standards) that will prepare students for their senior thesis and for possible graduate work. Readings will help students see relationships and connections operating across national and linguistic borders within the Nordic region. Department enforced prerequisites: NORW 2120 and NORW 3900 or SWED 3900 (all minimum grade C-).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Norwegian

Departmental Category: Swedish

**SCAN 3110 (3) Topics in Contemporary Nordic Society and Culture**

Provides insight into cultural adaptations, political struggles and social transformations taking place in the contemporary Nordic world. Subjects treated vary according to current developments in the region, student interest and faculty availability.

**Additional Information:** Departmental Category: Nordic Studies Courses Taught in English

**SCAN 3201 (3) Contemporary Nordic Society and Culture**

Explores contemporary Nordic culture and society with special focus on Iceland. Emphasis is on the relationship between historical, geographic, artistic, and political forces in Iceland and their effects on culture and society. Provides insight into the life and attitudes of contemporary Icelanders and stresses their place in the global culture of today. Taught in English.

**Recommended:** Prerequisite SCAN 2201.

**Additional Information:** Arts Sci Core Curr: Contemporary Societies  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Nordic Studies Courses Taught in English

**SCAN 3202 (3) Old Norse Mythology**

Surveys the mythology and heathen cult practices of the Old Norse world. Students learn to read mythological texts and study the major gods (Odin, Thor, Frey and Freyja, among others), along with other mythological beings. Examines and evaluates evidence for beliefs and cult practices in texts, art, archeological finds and other sources. Taught in English.

**Additional Information:** Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Nordic Studies Courses Taught in English

**SCAN 3203 (3) 19th & 20th Century Nordic Literature**

Examines the Nordic region's influence on social realism, expressionism, and postwar literature, including such themes as women in society, nature and industrialization, and identity and angst. May include works by Ibsen, Strindberg, Dinesen, and Nobel Prize winners Lagerlof, Hamsun, Undset, and Lagerkvist. Taught in English.

**Additional Information:** Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Nordic Studies Courses Taught in English

**SCAN 3204 (3) Medieval Icelandic Sagas**

Advanced introduction to medieval Icelandic saga with readings in the family, outlaw, skald, and legendary sagas as well as the main scholarly approaches to this unique literature. Topics include honor, blood feud, fate, sexuality/gender, oral composition, and legend. Taught in English.

**Additional Information:** Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Nordic Studies Courses Taught in English

**SCAN 3205 (3) Scandinavian Folk Narrative**

Introduces the rich tradition of Scandinavian oral narrative. Looks at relationships between the various genres of oral narrative and their historical, social, and cultural contexts. Genres studied may include ballad, fairy tale, rural legend, and urban legend. Explores various interpretive methodologies. Taught in English.

**Additional Information:** Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Nordic Studies Courses Taught in English

**SCAN 3206 (3) Nordic Colonialisms**

Examines Nordic colonial enterprise and the relationship between the Scandinavian center and colonial peripheries from the Arctic to the Caribbean, Africa, and India. Studies colonial and postcolonial cultures, and postcolonial criticism and theory. Taught in English.

**Additional Information:** Arts Sci Core Curr: Human Diversity  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-Global Perspective  
Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Nordic Studies Courses Taught in English

**SCAN 3208 (3) Women in Nordic Society: Modern States of Welfare**

Examines the role and status of women and marginalized social classes in the Nordic countries, whose societies have been heralded as egalitarian models since the twentieth century. Texts include a variety of media, from literature to sociological works to artifacts of political and popular culture. Taught in English.

**Equivalent - Duplicate Degree Credit Not Granted:** WGST 3208

**Additional Information:** Arts Sci Core Curr: Human Diversity  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-Global Perspective  
Departmental Category: Nordic Studies Courses Taught in English

**SCAN 3209 (3) Contemporary Nordic Literature and Film**

Advanced introduction to contemporary Nordic literature and film. Readings/screenings of recent translated Nordic texts and films, presenting a broad spectrum of contemporary issues, along with current critique and theoretical approaches. Topics: history, culture, translation, gender/sexuality, national identity, minority issues, etc. Taught in English.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Nordic Studies Courses Taught in English

**SCAN 3301 (3) Radical Nationalism in Contemporary Northern Europe**

Examines the current rise of National Socialists, white supremacists, ethnic separatists, anti-Islam activists and social and cultural ultraconservatives in northern Europe. Treats extremist nationalism as a social, cultural, aesthetic, intellectual and political movement. Consults scholarship from sociology, criminology and political science, as well as music, literature, art and film. Taught in English.

**Equivalent - Duplicate Degree Credit Not Granted:** IAFS 3630

**Additional Information:** Arts Sci Core Curr: Ideals and Values  
Arts Sci Gen Ed: Distribution-Social Sciences  
Departmental Category: Nordic Studies Courses Taught in English

**SCAN 3506 (3) Scandinavian Drama**

Examines the many contributions of Scandinavian dramatists to world theater from the 18th century to the present. With emphasis on Holberg, Bjornson, Ibsen, Strindberg, and Bjorneboe, surveys Enlightenment comedy, national romanticism, realism, naturalism, symbolism, expressionism, and Brechtian epic theater. Taught in English.

**Additional Information:** Arts Sci Core Curr: Literature and the Arts  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Nordic Studies Courses Taught in English

**SCAN 3631 (3) Arctic Society and Culture**

Investigates representations of the Arctic in literature, art, cinema, media and scientific, and geographical writing over the past century and a half, spanning material from North America, Britain, continental Europe and the Nordic region. Interpretive approaches include ecocriticism; post-colonialism; literary studies; indigenous studies; visual, film and media theory; Cold War studies.

**Equivalent - Duplicate Degree Credit Not Granted:** IAFS 3631

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Social Sciences

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Nordic Studies Courses Taught in English

**SCAN 3632 (3) Scandinavia and the European Union**

Examining the role that the EU plays in the Nordic region, this course is an introduction to the complex relationship between the Nordic nation states and the European project. We explore how the EU is perceived in the Nordic countries and investigate why the Nordic region is reluctant in its relation to the European Union.

**SCAN 3900 (1-6) Independent Study**

**Repeatable:** Repeatable for up to 6.00 total credit hours. Allows multiple enrollment in term.

**Additional Information:** Departmental Category: Nordic Studies Courses Taught in English

**German Studies - Bachelor of Arts (BA)**

The major in German studies is an interdisciplinary program focusing on study of the literary, artistic and philosophical aspects of German culture in the past and the present; the major historical events and developments in Germany and its neighboring countries; and the current political institutions and dynamics in Germany within the broader European framework.

**Education Abroad**

The department strongly recommends that all majors take part in study abroad and offers competitive scholarships to support study abroad. The university offers study abroad programs in Regensburg (academic year or spring semester) and Berlin (academic year or summer semester). Please consult with the major advisor. For more information on study

abroad programs, visit the Education Abroad (<http://abroad.colorado.edu>) website

## Requirements

### Program Requirements

Students must complete the general requirements of the College of Arts and Sciences and the required courses listed below.

The major requirement in German studies is 32 hours beyond GRMN 1020 (with grades of C- or above). Students design their own major in consultation with the undergraduate advisor and a faculty mentor. At least 18 hours taken toward the major must be completed at the 3000 or 4000 level.

NOTE: GRMN 4550 *must* be taken at CU Boulder.

### Required Courses and Credits

Code	Title	Credit Hours
<b>German Language Courses</b>		14-17
German language courses above GRMN 1020, to include either GRMN 3020 or GRMN 3030 (or both).		
GRMN 2010 & GRMN 2020	Intermediate German 1 and Intermediate German 2	
or		
GRMN 2030	Intensive Intermediate German	
Upper-division German Language courses:		
GRMN 3010	Advanced German 1	
GRMN 3020	Advanced German 2 <sup>1</sup>	
or GRMN 30: Business German		
GRMN 4010	Advanced German III <sup>1</sup>	
<b>Senior Seminar</b>		3
GRMN 4550	Senior Seminar in German Studies	
<b>German Culture, Literature and Other Electives</b>		12-15
Take at least 4 German literature/culture courses. At least 2 courses must be upper division, and at least 2 must be taught in the German language.		
<i>Courses Taught in German</i>		
Select at least two of the following:		
GRMN 3110	German Literature from the Avant-garde to the Postmodern	
GRMN 3120	German Literature from the Enlightenment to Expressionism	
GRMN 3130	Issues in German Philosophy and Literature	
GRMN 3140	Current Issues in German Literature	
GRMN 3150	Issues in German Politics and Literature	
GRMN 3520	Open Topics in the Cultural Context	
GRMN 3900	Independent Study	
GRMN 3930	Internship	
GRMN 4330	The Age of Goethe	
GRMN 4340	Seminar in German Literature	
GRMN 4450	Methods of Teaching German	
<i>Courses Taught in English</i>		
FYSM 1000	First Year Seminar (Section 032 "Uncertainty")	
GRMN 1601	Germany Today	

GRMN 1602	Metropolis and Modernity	
GRMN 1701	Nature and Environment in German Literature and Thought	
GRMN 2301	Inside Nazi Germany: Politics, Culture, and Everyday Life in the Third Reich	
GRMN 2401	The German Experience in North America	
GRMN 2501	Miniatures of Modern Life: Introduction to Short Fiction	
GRMN 2502	Representing the Holocaust	
GRMN 2503	Fairy Tales of Germany	
GRMN 2601	Kafka and the Kafkaesque	
GRMN 2603	Moral Dilemmas in Philosophy and Literature	
GRMN 3501	The German-Jewish Experience: From the Enlightenment to the Present	
GRMN 3502	Literature in the Age of Goethe	
GRMN 3503	German Film Through World War II	
GRMN 3504	Topics in German Film	
GRMN 3505	The Enlightenment: Tolerance and Emancipation	
GRMN 3506	Tracing the Criminal: Crime in 19th C Society and Culture	
GRMN 3513	German Film and Society 1945-1989	
GRMN 3514	German Film & Society After 1989	
GRMN 3601	German Women Writers	
GRMN 3702	Dada and Surrealist Literature	
GRMN 4231	Sex, Love and Marriage in Literature and Philosophy	
GRMN 4251	Marxism	
GRMN 4301	Gender, Race and Immigration in Germany and Europe	
GRMN 4501	Seminar: Literature in Cultural Context	
GRMN 4502	Nietzsche: Literature and Values	
GRMN 4503	Issues in German Thought	
GRMN 4504	Goethe's Faust	
JWST 4544	History of Yiddish Culture	
<b>Total Credit Hours</b>		32-35

- <sup>1</sup> Students have the option of taking the exam Goethe-Zertifikat B1 or B2 in GRMN 3020 and the Goethe-Zertifikat B2 or C1 in GRMN 4010.
- <sup>2</sup> With the approval of the German program faculty advisor, one course from another department may be taken in lieu of one of the four courses, provided that the course has a direct link to German studies.
- <sup>3</sup> GRMN 4450 and GRMN 4460 can be taken with faculty approval and in most cases only after full admission to the teacher education program in the School of Education.

### Secondary Teacher Certification Program

In addition to other requirements as stated by CU Boulder's School of Education, the following courses are required for students in the secondary teacher certification program:

- GRMN 4450 Methods of Teaching German (3)
- GRMN 4460 High School German Teaching (6)

## Study Abroad

The department recommends that all majors take part in study abroad. The university's program in Regensburg provides an academic year and spring semester study abroad program. The Berlin program offers an academic year and a summer study abroad opportunity. Please consult with a faculty advisor and visit the Education Abroad (<http://abroad.colorado.edu>) website for program-specific information. Scholarships are available to help cover the costs of study abroad.

## Graduating in Four Years

Consult the Four-Year Guarantee Requirements for information on eligibility. The concept of "adequate progress" as it is used here only refers to maintaining eligibility for the four-year guarantee; it is not a requirement for the major. To maintain adequate progress in German or Russian studies, students should meet the following requirements:

- Begin to study the language in the freshman year, or have received AP credit.
- In consultation with the major program advisor before the end of the drop/add period in the first semester, plan a tentative schedule of courses to be taken over eight semesters.
- Discuss progress toward the degree each semester with the major advisor.

NOTE: Although these requirements apply only in cases in which students are seeking to graduate under the terms of the four-year guarantee, they are good advice for all majors. Consult the program advisor about the major at any time.

## Recommended Four-Year Plan of Study

Through the required coursework for the major, students will complete all 12 credit hours of the Arts & Humanities area of the Gen. Ed. Distribution Requirement.

Course	Title	Credit Hours
<b>Year One</b>		
GRMN 1010 and GRMN 1020 (8 credit hours) or GRMN 1030 (5 credit hours) which does not count toward their majors <sup>1</sup>		8

Credit Hours		30
Total Credit Hours		122

<sup>1</sup> Students who take intensive language courses (GRMN 1030 or GRMN 2030) may fulfill their additional language credits with GRMN 3030 or GRMN 4010.

<sup>2</sup> Or placement credit. Students who place out of beginning and intermediate language requirements should see the major requirements for further flexible options.

## Learning Outcomes

The following areas of knowledge are central to the undergraduate degree in German studies:

- An awareness of the fundamental outlines of German history and culture
- Familiarity with the history of modern German literature from 1750 to the present
- Familiarity with developments in modern German-speaking Central Europe in art, cinema, architecture, law, science and technology

- The ability to critically examine such issues as the Nazi era and the Holocaust, migration, gender, disability, racial and ethnic difference, and Germany's place in the European Union

In addition, students completing the degree in German studies are expected to acquire:

- The ability to read German at a level at which critical literary and cultural analyses can be performed
- The ability to write and speak German sufficiently to participate in critical discussions and write critical essays
- The ability to speak and comprehend German well enough to participate in all situations in daily life, including cultural, educational, business and professional sectors of German life

## Bachelor's–Accelerated Master's Degree Program(s)

The Bachelor's–Accelerated Master's (BAM) degree program options offer currently enrolled CU Boulder undergraduate students the opportunity to receive a bachelor's and master's degree in a shorter period of time. Students receive the bachelor's degree first, but begin taking graduate coursework as undergraduates (typically in their senior year). Because some courses are allowed to double count for both the bachelor's and the master's degrees, students receive a master's degree in less time and at a lower cost than if they were to enroll in a stand-alone master's degree program after completion of their baccalaureate degree. In addition, staying at CU Boulder to pursue a bachelor's–accelerated master's program enables students to continue working with their established faculty mentors.

### BA and MA in German

The concurrent BAM degree in German studies recognizes the need for master's-level training upon entering the job market in a variety of sectors that call for highly advanced proficiency in the German language, knowledge of the German-speaking central Europe and its cultures, and the skills afforded to BA and MA graduates in the humanities (research, analysis, interpretation, translation, communication).

The degree gives highly motivated BA students the opportunity to earn an MA degree using an accelerated undergraduate program in combination with a fifth year of study.

For more information, visit the department's Concurrent BAM Degree in German Studies (<http://www.colorado.edu/gsl/german/undergraduate/concurrent-bama-degree-german-studies>) webpage.

### Admissions Requirements

In order to gain admission to the BAM program named above, a student must meet the following criteria:

- Have a cumulative GPA of 3.25 or higher
- Have completed a minimum of 75 credit hours of coursework
- Transfer students must have completed a minimum of 24 credit hours at CU Boulder

Applications (<https://www.colorado.edu/gsl/gsl-bama-application>) can be obtained on the Germanic and Slavic Languages and Literatures website (<https://www.colorado.edu/gsl>). It is recommended that applications be submitted the spring semester of the third year of study, but late applications will also be accepted.

Students should have completed most of their MAPS/core requirements by the end of their sophomore year. No GRE is required.

### Program Requirements

Students may take up to and including 12 hours while in the undergraduate program which can later be used toward the master's degree. However, only 6 number of credits may be double counted toward the bachelor's degree and the master's degree. Students must apply to graduate with the bachelor's degree, and apply to continue with the master's degree, early in the semester in which the undergraduate requirements will be completed.<sup>1</sup>

If you are interested in the BAM degree program, please contact the German MA program (<https://www.colorado.edu/gsl/german/graduate>) for more information.

<sup>1</sup>Students who were admitted prior to July 2019 follow a concurrent Bachelor's/Master's structure, and the two degrees are awarded simultaneously when requirements for both degrees are met.

## Russian Studies - Bachelor of Arts (BA)

The major in Russian studies is an interdisciplinary program focusing on study of the current cultural and social context, and the literary, artistic, and historical aspects of Russian culture in the past and present. The aim of the language curriculum is to equip students to read, write, speak and understand Russian on a level allowing communication with natives and other users of the language. Before registering for a course, students should consult with a departmental advisor concerning appropriate placement.

Students interested in Russian studies should consider a double major in order to increase their career opportunities. Prospective teachers might combine Russian studies with a major in another foreign language, while those preparing for a career in government, business or social services should benefit from a combination of Russian studies and a social science or business major. Students structure their curriculum according to the departmental checklist for majors, in close consultation with a departmental advisor.

The following areas are central to the undergraduate degree in Russian:

- an awareness of the fundamental outlines of the history of Russian literature and culture from the Middle Ages to the present day;
- familiarity with the major Russian creative writers of the nineteenth and twentieth centuries;
- familiarity with the historical context of Russian literature and culture;
- an awareness of basic critical methodologies as they relate to the study of Russian literature and culture

In addition, students with a degree in Russian are expected to acquire:

- the ability to comprehend contemporary Russian, written or spoken, to a degree permitting sophisticated analysis of cultural texts;
- the ability to analyze Russian literary texts and give a reasoned response to them in literate English;
- the ability to write and converse in Russian at their own intellectual level.

## Study Abroad

The department strongly recommends that all Russian majors take part in the university summer language program in St. Petersburg. For more information on CU Study Abroad programs, visit the Education Abroad (<http://abroad.colorado.edu>) website.

## Courses Taught in English

A number of courses are offered in translation. These courses generally require no previous study in the language, history or culture of the area involved, and are open to all interested students, regardless of major.

## Requirements

### General Requirements

Students must complete at least 30 credit hours in Russian studies, at least 18 of which must be completed at the 3000 or 4000 level, with grades of C- or better (none may be taken as pass/fail).

- RUSS 1010 and RUSS 1020 do not count toward the 30 credit hours required for the major in Russian studies.
- Students may not receive credit for both RUSS 3060 and RUSS 4010 or RUSS 4020 and RUSS 4060. Choose either the RUSS 3060/RUSS 4060 sequence or the RUSS 4010/RUSS 4020 sequence.
- Beginning or middle-level language course requirements may be met by transfer credit or by testing out of the course. Students who enter the program at the third-year level must complete at least 18 credit hours in residence in courses numbered 3000 or above with grades of C- or better (none may be taken pass/fail).
- Students who enter at and enroll in Russian language courses at the 3000- or 4000-level may not receive credit for lower-division Russian language courses, unless lower-division language coursework was completed prior to registration for 3000- and 4000-level Russian language courses.
- No course can be used for more than one category.

Students are required to structure their curriculum for the major in close consultation with a departmental advisor. Students with advanced Russian language skills are strongly encouraged to meet with a departmental faculty advisor to discuss language placement. Students who have Russian language transfer credit and/or students who are Russian language native or heritage speakers may enter the program at the upper-division level, up to RUSS 4010, with faculty permission.

In the case of advanced language placement, students will be required to meet with the Russian faculty advisor for Russian course substitutions and recommendations. Students who place out of Russian language courses required for the major must replace the credits with additional coursework in Russian Studies. Any substitutions to major coursework must be preapproved by the Russian faculty advisor.

Graduating Russian studies majors are asked to participate in an annual assessment exercise during their last (spring) semester at the university to help evaluate the quality of the Russian Studies major. Students may also be interested in learning their level of language competence from the standardized online test. Students cannot study for the exams, and they do not affect course grades or graduation in any way.

NOTE: Study abroad is recommended after the second year of language study.

## Program Tracks

### Track A: Russian Language and Culture

Code	Title	Credit Hours
<b>Required Russian Language Courses</b>		
RUSS 2010	Second-Year Russian 1	4
RUSS 2020	Second-Year Russian 2	4
RUSS 3010	Third-Year Russian 1	4
RUSS 3020	Third-Year Russian II	4
<b>Russian Literature/Culture Course - the 19th Century and Earlier</b>		3
Select one of the following:		
RUSS 2211	Introduction to Russian Culture	
RUSS 2251	Knights and Amazons: Superheroes in Russian Epics and Film	
RUSS 2261	The Russian Short Story	
RUSS 2471	Women in Russian Culture: From Folklore to the Nineteenth Century	
RUSS 3601	Russian Culture Past and Present	
RUSS 3701	Slavic Folk Culture: Ideals and Values in the Contemporary World	
RUSS 3705	Crimes of Passion: Gender and Sexual Politics in Tolstoy's Russia	
RUSS 4301	American-Russian Cultural Relations

<b>3000/4000-Level Literature/Film Courses</b>		
Select two of the following:		6
RUSS 3211	History of Russian Cinema	
RUSS 3241	Red Star Trek: Russian Science Fiction Between Utopia and Dystopia	
RUSS 3301	Contemporary Issues in Russian Film	
RUSS 3705	Crimes of Passion: Gender and Sexual Politics in Tolstoy's Russia	
RUSS 4401	The Russian Jewish Experience	
RUSS 4431	Dostoevsky	
RUSS 4441	Tolstoy	
RUSS 4451	Chekhov	
RUSS 4471	Women in 20th-21st Century Russian Culture	
RUSS 4831	Contemporary Russian Literature	
RUSS 4481	Rogues to Revolutionaries: Russian Rebels, Past and Present	
RUSS 4861	Absurd and Supernatural in Russian Literature	

### Elective

Select one of the following:		3
Any one 3000- or 4000-level RUSS or GSLL culture/literature or language course, or a course in another department pertaining to Russia, upon consent of advisor.		
Upper-division study-abroad language class.		
Total Credit Hours		32

### Track C: Russian Major for Heritage Speakers

Code	Title	Credit Hours
<b>Required Courses</b>		
RUSS 3060	Advanced Russian for Heritage Speakers (Part 1) <sup>1</sup>	4
RUSS 4060	Advanced Russian for Heritage Speakers (Part 2) (or any other upper-division Russian language course) <sup>1</sup>	4
or RUSS 4010 Advanced Conversation and Composition 1		
or RUSS 4020 Advanced Conversation and Composition 2		
or RUSS 4050 Professional Russian		
or RUSS 4210 Topics in Russian Culture		
or RUSS 4230 Russian Cultural Idioms		
or RUSS 4850 Russian Film and Society (taught in Russian)		

### Russian Literature/Culture Course - the 19th Century and Earlier

Select one of the following:		3
RUSS 2211	Introduction to Russian Culture	
RUSS 3601	Russian Culture Past and Present <sup>2</sup>	
RUSS 4811	19th Century Russian Literature	

### Russian Literature/Culture Course - the 20th and 21st Centuries

Select one of the following: 3

RUSS 2221	Introduction to Modern Russian Culture
RUSS 3601	Russian Culture Past and Present <sup>2</sup>
RUSS 4821	20th Century Russian Literature and Art

**RUSS 2000-level course** 3

RUSS 2222	Sports and the Cold War
RUSS 2231	Fairy Tales of Russia
RUSS 2241	The Vampire in Literature and the Visual Arts

RUSS 2251 Knights and Amazons: Superheroes in Russian Epics and Film

RUSS 2471 Women in Russian Culture: From Folklore to the Nineteenth Century

RUSS 2501 Russia Today

### Russian Culture

Select three of the following: 9

RUSS 3211	History of Russian Cinema
RUSS 3241	Red Star Trek: Russian Science Fiction Between Utopia and Dystopia
RUSS 3301	Contemporary Issues in Russian Film
RUSS 3333	Spies Like Us: Espionage in the Culture of the Cold War and Beyond
RUSS 3701	Slavic Folk Culture: Ideals and Values in the Contemporary World
RUSS 4221	Stalinism: Culture and Society
RUSS 4301	American-Russian Cultural Relations
RUSS 4401	The Russian Jewish Experience
RUSS 4471	Women in 20th-21st Century Russian Culture
RUSS 4481	Rogues to Revolutionaries: Russian Rebels, Past and Present
RUSS 4831	Contemporary Russian Literature

### Russian Literature

Select one of the following: 3

RUSS 3705	Crimes of Passion: Gender and Sexual Politics in Tolstoy's Russia
RUSS 4120	Russia after Communism: Post-Soviet Politics and Culture
RUSS 4431	Dostoevsky
RUSS 4441	Tolstoy
RUSS 4451	Chekhov
RUSS 4841	History of Modern Russian Drama
RUSS 4861	Absurd and Supernatural in Russian Literature

### Elective

One other 3000- to 4000-level RUSS or GSSL culture/literature or language course, or a course in another department pertaining to Russia, upon consent of advisor. 3

Total Credit Hours 32

<sup>1</sup> Students may not receive credit for both RUSS 3060 and RUSS 4010 or RUSS 4020 and RUSS 4060. Choose either the RUSS 3060/RUSS 4060 sequence or the RUSS 4010/RUSS 4020 sequence.

## Graduating in Four Years

Consult the Four-Year Guarantee Requirements (<https://www.colorado.edu/advising/programs-requirements/germanic-slavic-languages-literatures>) for information on eligibility. The concept of "adequate progress" as it is used here only refers to maintaining eligibility for the four-year guarantee; it is not a requirement for the major.

Recommended four-year plans of study appear on the Four-Year Plans (p. 341) tab. To maintain adequate progress in Germanic or Russian studies, students should meet the following requirements:

- Begin to study the language in the freshman year, or have received AP credit.
- In consultation with the major program advisor before the end of the drop/add period in the first semester, plan a tentative schedule of courses to be taken over eight semesters.
- Discuss progress toward the degree each semester with the major advisor.

NOTE: Although these requirements apply only in cases in which students are seeking to graduate under the terms of the four-year guarantee, they are good advice for all majors. Consult the program advisor about the major at any time.

## Recommended Four-Year Plans of Study

Through the required coursework for all tracks of the major, students can complete all 12 credit hours of the Arts & Humanities area of the Gen Ed Distribution Requirement. Depending on the courses selected from options, students can potentially complete some credit hours in the Social Sciences area of the Gen Ed Distribution Requirement and the Global Perspective component of the Gen Ed Diversity Requirement.

### Track A: Russian Language and Culture

## Bachelor's–Accelerated Master's Degree Program(s)

The Bachelor's–Accelerated Master's (BAM) degree program options offer currently enrolled CU Boulder undergraduate students the opportunity to receive a bachelor's and master's degree in a shorter period of time. Students receive the bachelor's degree first, but begin taking graduate coursework as undergraduates (typically in their senior year). Because some courses are allowed to double count for both the bachelor's and the master's degrees, students receive a master's degree in less time and at a lower cost than if they were to enroll in a stand-alone master's degree program after completion of their baccalaureate degree.

In addition, staying at CU Boulder to pursue a bachelor's–accelerated master's program enables students to continue working with their established faculty mentors.

### BA and MA in Russian Studies

Highly motivated undergraduates majoring in Russian studies at CU Boulder have the opportunity to enter a BAM program, thereby earning both the BA and the MA in five years. The accelerated degree program offers a unique academic credential designed to produce skilled graduates for a variety of occupations.

#### Admissions Requirements

In order to gain admission to the BAM program named above, a student must meet the following criteria:

- Have a cumulative GPA of 3.0 or higher and a minimum GPA of 3.25 for all Russian Studies courses
- Have completed a minimum of 75 credit hours of coursework
- Transfer students must have completed a minimum of 24 credit hours at CU Boulder

It is recommended that applications be submitted the spring semester of the third year of study, but late applications will also be considered. Two letters of recommendation indicating strong potential for advanced, intensive work in Russian also required. Students should have completed most of their MAPS/Core requirements by the end of the sophomore year. Only CU Boulder students may apply.

#### Program Requirements

Students may take up to and including 12 hours while in the undergraduate program, which can later be used toward the master's degree. However, only 6 credits may be double counted toward the bachelor's degree and the master's degree. Students must apply to graduate with the bachelor's degree, and apply to continue with the master's degree, early in the semester in which the undergraduate requirements will be completed.<sup>1</sup>

BAM students are expected to take graduate courses in the fourth and fifth years only.

If you are interested in the BAM degree program, please contact the Russian MA program (<https://www.colorado.edu/gsll/graduate>). For more information, visit the BA/MA Degree in Russian Studies (<https://www.colorado.edu/gsll/russian/undergraduate/concurrent-bama-degree-russian-studies>) webpage.

<sup>1</sup>Students who were admitted prior to July 2019 follow a concurrent Bachelor's/Master's structure, and the two degrees are awarded simultaneously when requirements for both degrees are met.

## German Studies - Minor

The minor in German studies is an interdisciplinary program focusing on study of German culture, including contemporary German society, current political institutions and dynamics in Germany within the broader European framework, and the history of German literature, art, politics, and philosophy.

Declaration of a minor in German is open to any student enrolled at CU Boulder, regardless of college or school.

### Requirements

Students must complete 20 credit hours as directed below, with grades of C- or above. The GPA for all coursework taken in the minor department must be equal to 2.00 (C) or higher. Students may not apply more than 9 hours of transfer credit (including 6 upper-division credits) toward the minor. Transfer courses must be approved by the department.

### Required Courses and Credits

Code	Title	Credit Hours
<b>Required Courses</b>		
GRMN 2010 & GRMN 2020 or GRMN 2030	Intermediate German 1 and Intermediate German 2 <sup>1</sup> Intensive Intermediate German	8

or GRMN 4502	Nietzsche: Literature and Values	
or GRMN 4503	Issues in German Thought	
or GRMN 4504	Goethe's Faust	
Total Credit Hours		20

<sup>1</sup> Students who take GRMN 2030 cannot also receive credit for GRMN 2010 and GRMN 2020, and must take one additional 3-credit GRMN course toward the minor, such that the total number of credits for the minor equals 20.

<sup>2</sup> Students have the option of taking the exam *Goethe-Zertifikat B1* in GRMN 3020.

## Nordic Studies - Minor

Courses are offered in English on Nordic culture and civilization. Courses are also offered in Swedish and Danish language and may be offered in Norwegian and/or Finnish language. In addition, there is an exchange program with Uppsala University in Sweden and with the University of Copenhagen in Denmark (DIS).

The language courses satisfy College of Arts and Sciences language requirements for the BA and BFA degrees.

### Requirements

Declaration of a minor is open to any student enrolled at CU Boulder, regardless of college or school.

A minor in Nordic Studies requires the completion of 18 credit hours. A minimum of 9 credit hours must be taken in upper division courses. All courses used to fulfill requirements for the minor must receive a grade of C- or better and the GPA for all coursework taken in the minor department must be equal to 2.00 (C) or higher; no courses may be taken pass/fail.

## Russian Studies - Minor

The Russian minor introduces students to the basics of Russian Studies. Students fulfilling requirements for Russian minor have to take two years of Russian language and a number of survey courses in culture and literature.

### Requirements

Declaration of a minor in Russian studies is open to any student enrolled at CU Boulder, regardless of college or school.

A minor in Russian requires the completion of 20 credit hours, 9 of which must be upper-division credit hours. All courses used to fulfill requirements for the minor must receive a grade of C- or better. The GPA for all coursework taken in the minor department must be equal to 2.00 (C) or higher. No courses applied to the minor may be taken pass/fail. Students may not apply more than 9 hours of transfer credit (including 6 upper-division credit hours) toward the minor. Transfer courses must be approved by the department.

Select one of the following literature courses: <sup>2</sup>		3
RUSS 4811	19th Century Russian Literature	
RUSS 4821	20th Century Russian Literature and Art	
One additional 2000-4000 level RUSS course		3
Total Credit Hours		20-21

<sup>1</sup> Heritage speakers should take RUSS 3060 and RUSS 4060 as well as any other 4000-level Russian language course in lieu of RUSS 2010 and RUSS 2020. In this case, 18 credit hours will be sufficient for the minor if other requirements are fulfilled.

<sup>2</sup> Courses cannot fulfill more than one requirement.

## History

Historians study the past, in all of its complexity, to better understand our contemporary world and the forces that created it. Historians analyze change over time, and they use archival and other primary-source evidence to build interpretations that explain change and put it into context. In seeking to understand historical subjects on their own terms, and by appreciating the diverse perspectives of past actors, students of history develop empathy even as they rigorously engage with the ethical dimensions of past human decisions and actions. When students understand the past, they recognize their power to shape the present and the future.

History faculty conduct research and teach courses in a wide range of eras—from ancient to modern times—and across most major world areas including Africa and the Middle East, South and East Asia, Europe and the Americas. History faculty also pursue multiple methodologies and approaches, including cultural, diplomatic, demographic, economic, environmental, ethnic, gender, intellectual, legal, political, religious, social and transnational history.

Many students choose history as a major or minor because of their fascination with the rich imaginative terrain of the past, but the study of history is also practical. In the complex and contentious world in which we live, history provides the tools for thoughtful public citizenship. Historians are essential experts in helping us to navigate contemporary controversies, and the study of history cultivates the interpersonal skills and cultural awareness essential to heightening civic discourse and engagement. As importantly, students of history gain valuable skills that prepare them for careers in many fields. In this knowledge economy, employers increasingly want employees who can write and speak clearly and persuasively, who can read deeply and critically, who can think independently and ethically, who can do complex research and make cogent evidence-based arguments, who can locate relevant sources and discern good information from bad, who understand how and why change occurs, who are culturally literate and understand the complex world in which we live, and who can manage the diversity of the modern

workplace in all of its forms. These are skills you will gain through the study of History, and they are highly valued by today's employers.

We welcome students who wish to develop the knowledge, skills and habits of mind essential to the discipline of history. Studying history will hone your abilities in reasoning, research, analysis and expression, and it will prepare you to participate in, and adapt to, an increasingly complex and interconnected world of continual change over time.

## Bachelor's Degree

- History - Bachelor of Arts (BA) (p. 367)

## Minor

- History - Minor (p. 369)

## Faculty

While many faculty teach both undergraduate and graduate students, some instruct students at the undergraduate level only. For more information, contact the faculty member's home department.

Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: United States: Chronological Periods  
MAPS Course: Social Science  
MAPS Course: Social Science US Context

### **HIST 1028 (3) Introduction to Modern Latin American History since 1800**

Introduces students to the history of Latin America from independence to the present. Investigates the social implications of various models of economic development, the opportunities and difficulties resulting from economic ties with wealthier countries, the consequences of ethnic, gender and class divisions, and the struggles of Latin Americans to construct equitable political systems.

**Additional Information:** GT Pathways: GT-HI1 - History  
Arts Sci Core Curr: Historical Context  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-Global Perspective  
Departmental Category: World Areas: Specific Regions

### **HIST 1051 (3) The World of the Ancient Greeks**

Surveys the emergence, major accomplishments, failures and decline of the world of the ancient Greeks, from Bronze Age civilizations of the Minoans and Mycenaeans through the Hellenistic Age (2000-30 B.C.)

**Equivalent - Duplicate Degree Credit Not Granted:** CLAS 1051

**Additional Information:** GT Pathways: GT-HI1 - History  
Arts Sci Core Curr: Historical Context  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Europe: Ancient and Medieval

### **HIST 1061 (3) The Rise and Fall of Ancient Rome**

Surveys the rise of ancient Rome in the eighth century B.C. to its fall in the fifth century A.D. Emphasizes political institutions, foreign policy, leading personalities, and unique cultural accomplishments.

**Equivalent - Duplicate Degree Credit Not Granted:** CLAS 1061

**Additional Information:** GT Pathways: GT-HI1 - History  
Arts Sci Core Curr: Historical Context  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Europe: Ancient and Medieval

### **HIST 1113 (3) Introduction to British History to 1660**

Deals with Roman, medieval and early modern periods. Covers the demographic, economic, social patterns, political and religious developments, and cultural changes that contributed to the formation of the English nation.

**Additional Information:** Arts Sci Core Curr: Historical Context  
Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Europe: Specific Countries

**HIST 1123 (3) Introduction to British History Since 1660**

Deals with the period from the 17th century to the present. Political, economic, social and imperial developments that contributed to creation of the modern industrial and democratic state are the major issues covered.

**Additional Information:** GT Pathways: GT-HI1 - History

Arts Sci Core Curr: Historical Context

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Europe: Specific Countries

**HIST 1218 (3) Introduction to Sub-Saharan African History to 1800**

Provides an introduction to African history, beginning with early man and ending in 1800. Moves rapidly through civilizations as different as Ancient Egypt, Mali, Oyo and the Cape Colony, touching on important developments and highlighting themes relevant to the history of Africa as a whole. Including migration, technology, environment, trade, gender, religion, slavery and more.

**Additional Information:** GT Pathways: GT-HI1 - History

Arts Sci Core Curr: Historical Context

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Diversity-Global Perspective

Departmental Category: World Areas: Specific Regions

**HIST 1228 (3) Introduction to Sub-Saharan African History Since 1800**

Introduces students to the history of Sub-Saharan Africa from 1800 to the present. Major topics of study included the trans-Atlantic slave trade, African state-building, European colonialism, African responses to colonialism and issues facing independent African nations, ranging from debt to HIV/AIDS.

**Additional Information:** Arts Sci Core Curr: Historical Context

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Diversity-Global Perspective

Departmental Category: World Areas: Specific Regions

**HIST 1308 (3) Introduction to Middle Eastern History**

Interdisciplinary course that focuses on medieval and modern history of the Middle East (A.D. 600 to the present). Introduces the Islamic civilization of the Middle East and the historical evolution of the region from the traditional into the modern eras. Covers social patterns, economic life, and intellectual trends, as well as political development.

**Additional Information:** Arts Sci Core Curr: Historical Context

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: World Areas: Specific Regions

Departmental Category: Asia Content

**HIST 1438 (3) Introduction to Korean History**

Surveys the history of Korea from the ancient period to the early twenty-first century. Topics will include: transnational political and cultural origins of Korea, transformation of gender relations, and effects of wars and colonial experience. Special attention given to the transnational character of historical developments in Korea, as well as historical debates involving neighboring countries in East Asia.

**Additional Information:** Arts Sci Core Curr: Historical Context

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: World Areas: Specific Regions

Departmental Category: Asia Content

**HIST 1518 (3) Introduction to South Asian History to 1757**

Introduces the history of South Asia, providing a general acquaintance with the narratives and interpretations of ancient and medieval history of the Indian subcontinent from the rise of the Indus Valley Civilization in 3500 BCE to the end of the Mughal Empire in 1757 CE. Intended for students with little or no prior knowledge of the region.

**Additional Information:** GT Pathways: GT-HI1 - History

Arts Sci Core Curr: Historical Context

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: World Areas: Specific Regions

Departmental Category: Asia Content

**HIST 1528 (3) Introduction to South Asian History since 1757**

Introduces the history of modern South Asia from 1757 to the present. Examines themes such as the nature of British colonial state formation in South Asia, social transformation under British rule, modes of anticolonial resistance movements, particularly Mahatma Gandhi's nonviolent civil disobedience movement, Muslim nationalism and the formation of Pakistan, and current political conflicts involving India, Pakistan and Afghanistan.

**Additional Information:** Arts Sci Core Curr: Historical Context

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: World Areas: Specific Regions

Departmental Category: Asia Content

**HIST 1618 (3) Introduction to Chinese History to 1644**

Introduces students to the history of China from Neolithic period to Ming period (1368-1644). Investigates the social patterns, gender relations, economic structure, intellectual trends, and political developments of China. Pays special attention to China's long-standing interaction with the rest of the world, which played a crucial role in the historical development of Chinese society.

**Additional Information:** GT Pathways: GT-HI1 - History

Arts Sci Core Curr: Historical Context

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: World Areas: Specific Regions

Departmental Category: Asia Content

**HIST 1623 (3) Introduction to Central and East European History since 1770**

Examines major themes and events in the history of East-Central Europe from the late 1700s to the present. Themes include the impacts of nationalism, fascism, liberal democracy and communism in shaping the history of the region. Topics include World War I, World War II and the Holocaust, the Cold War, the fall of Communism, the Ukrainian revolution and more.

**Equivalent - Duplicate Degree Credit Not Granted:** CEES 1623

**Additional Information:** Arts Sci Core Curr: Historical Context

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Europe: Specific Countries

**HIST 1628 (3) Introduction to Chinese History since 1644**

Introduces students to modern Chinese history and culture, from the 17th century to the present. Considers the pertinent aspects of modern China, focusing on its social patterns, economic structure, intellectual trends and political developments.

**Additional Information:** Arts Sci Core Curr: Historical Context

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: World Areas: Specific Regions

Departmental Category: Asia Content

**HIST 1708 (3) Introduction to Japanese History**

A broad interdisciplinary survey of the history of Japan from earliest times to the 20th century. Explores the development of political institutions, social structures, cultural and religious life, economic development, and foreign relations in an historical perspective.

**Additional Information:** GT Pathways: GT-HI1 - History

Arts Sci Core Curr: Historical Context

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: World Areas: Specific Regions

Departmental Category: Asia Content

**HIST 1800 (3) Introduction to Global History**

Applies a broad perspective to the global past in order to illuminate how common historical patterns and processes as well as unique elements shaped the human experience. Using a thematic approach, introduces highlights cross-cultural interactions among societies, and, when relevant, how historical processes that began centuries ago still impact the contemporary world. Topic will vary by semester. Department enforced prerequisite: 3 hours of any history coursework.

**Requisites:** Restricted to students with 27-180 credits (Sophomore, Junior, or Senior) History (HIST) majors and minors only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Methodological, Comparative, and Global

**HIST 1818 (3) Jewish History to 1492**

Focus on Jewish history from the Biblical period to the Spanish Expulsion in 1492. Study the origins of a group of people who call themselves, and whom others call, Jews. Focus on place, movement, power/powerlessness, gender, and the question of how to define Jews over time and place. Introduces Jews as a group of people bound together by a particular set of laws; looks at their dispersion and diversity; explores Jews' interactions with surrounding cultures and societies; introduces the basic library of Jews; sees how Jews relate to political power.

**Equivalent - Duplicate Degree Credit Not Granted:** JWST 1818 and RLST 1818

**Additional Information:** Arts Sci Core Curr: Historical Context

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Diversity-Global Perspective

Departmental Category: World Areas: Specific Regions

Departmental Category: Asia Content

**HIST 1828 (3) Jewish History Since 1492**

Surveys the major historical developments encountered by Jewish communities beginning with the Spanish Expulsion in 1492 up until the present day. Studies the various ways in which Jews across the modern world engaged with the emerging notions of nationality, equality and citizenship, as well as with new ideologies such as liberalism, socialism, nationalism, imperialism and antisemitism.

**Equivalent - Duplicate Degree Credit Not Granted:** JWST 1828 and RLST 1828

**Additional Information:** GT Pathways: GT-HI1 - History

Arts Sci Core Curr: Historical Context

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: World Areas: Specific Regions

**HIST 1830 (3) Global History of Holocaust and Genocide**

Examines the interplay of politics, culture, psychology and sociology to try to understand why the great philosopher Isaiah Berlin called the 20th century, "The most terrible century in Western history." Our focus will be on the Holocaust as the event that defined the concept of genocide, but we will locate this event that has come to define the 20th century within ideas such as racism, imperialism, violence, and most important, the dehumanization of individuals in the modern world.

**Equivalent - Duplicate Degree Credit Not Granted:** JWST 1830 and RLST 1830

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Core Curr: Historical Context

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Methodological, Comparative, and Global

**HIST 2015 (3) Themes in Early American History**

Examines major themes in the development of colonial societies in North America from the 15th to the early 19th centuries. Explores intercultural relations, economic development, labor systems, religion and society, and family life. Specific course focus may vary.

**Additional Information:** GT Pathways: GT-HI1 - History

Arts Sci Core Curr: United States Context

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: United States: Chronological Periods

**HIST 2100 (3) Revolution in History**

Examines the causes, character, and significance of political revolution in world history. Concentrating on one of the major revolutions of modern history, it examines why revolutions occur, who participates in revolution, and to what effect. Specific course focus varies.

**Additional Information:** Arts Sci Core Curr: Historical Context

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Methodological, Comparative, and Global

**HIST 2110 (3) History of Early Modern Societies**

Examines major themes in Early Modern history in a variety of global contexts. Issues to be explored could include intellectual developments, religion, popular culture, social history, economic and political changes, and states and warfare, usually in a specific region or nation (i.e. Europe, Latin America, the Atlantic World, Spain, Russia, China, Japan, etc.). Topics vary in any given semester.

**Additional Information:** Arts Sci Core Curr: Historical Context

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Methodological, Comparative, and Global

**HIST 2126 (3) Issues in Modern U.S. Politics and Foreign Relations**

Traces the historical development of modern U.S. politics and foreign relations. Analyzes subjects such as the Cold War, the Vietnam War, the War on Terror, and the relationship between foreign and domestic politics, and the developing meaning of political conservatism, liberalism, and radicalism in the U.S. Explains the impact of race, gender, class, and immigration. Topics vary in any given semester.

**Additional Information:** Arts Sci Core Curr: Contemporary Societies

Arts Sci Core Curr: United States Context

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: United States: Topical Courses 1

**HIST 2166 (3) The Vietnam Wars**

Traces the causes, course, and outcome of the wars in Vietnam from 1940 until 1975. Explains the successes of the revolutionaries and the failures of the French and Americans. Analyzes the development of Vietnamese nationalism, French colonialism, and U.S. intervention.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 4166

**Additional Information:** Arts Sci Core Curr: Contemporary Societies

Arts Sci Core Curr: United States Context

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: United States: Topical Courses 1

Departmental Category: Asia Content

**HIST 2170 (3) History of Christianity 1: To the Reformation**

General introduction to the history of Christianity from its beginnings through the first period of the Protestant Reformation. Examines religious life and the church in relation to its social and cultural setting.

**Additional Information:** GT Pathways: GT-HI1 - History

Arts Sci Core Curr: Historical Context

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Methodological, Comparative, and Global

**HIST 2220 (3) History of War and Society**

Focuses on war and society in a variety of global contexts. Explores the character, origins, and social, political, and intellectual impacts of war in contexts ranging from several centuries of international conflict to the experience of individual nations in specific wars. Topic varies in any given semester; contact Department of History for details.

**Additional Information:** GT Pathways: GT-HI1 - History

Arts Sci Core Curr: Historical Context

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Methodological, Comparative, and Global

**HIST 2326 (3) Issues in the History of U.S. Society and Culture**

Examines the origins, development, and impacts (social, political, cultural, economic, etc.) of significant issues and themes in the cultural, intellectual, and/or social history of the United States from independence to the present day. Explains the impact of race, gender, ethnicity, and class on these issues. Topics vary in any given semester.

**Additional Information:** GT Pathways: GT-HI1 - History

Arts Sci Core Curr: United States Context

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: United States: Topical Courses 1

**HIST 2437 (3) African American History**

Surveys African American history. Studies, interprets and analyzes major problems, issues and trends affecting African Americans from about 1600 to the present.

**Equivalent - Duplicate Degree Credit Not Granted:** ETHN 2432

**Additional Information:** Arts Sci Core Curr: Human Diversity

Arts Sci Core Curr: United States Context

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Distribution-Social Sciences

Arts Sci Gen Ed: Diversity-U.S. Perspective

Departmental Category: United States: Topical Courses 2

**HIST 2516 (3) America Through Baseball**

Baseball could not have existed without America. Explains how the game fit into the larger context of social, cultural, economic and political history from the 19th century to the present. Studies the events and people who made baseball the national pastime.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 4556

**Additional Information:** Arts Sci Core Curr: United States Context

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: United States: Topical Courses 1

**HIST 2616 (3) History of Gender in America**

Introduces the social and cultural construction of femininity and masculinity in America from 1500 to the present. Explores gender as a status acquired and performed through tasks, clothing, adornment and bodily movement. Examines gender ideals, expression and practices such as gender crossing, gender bending and gender plan.

**Additional Information:** GT Pathways: GT-HI1 - History

Arts Sci Core Curr: Human Diversity

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Diversity-U.S. Perspective

Departmental Category: United States: Topical Courses 1

**HIST 2629 (3) China in World History**

Examines the multiple connections between Chinese history and other parts of the world over the course of China's long history. Specific course focus may vary by instructor/term.

**Additional Information:** Arts Sci Core Curr: Historical Context

Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: World Areas: Comparable and General

Departmental Category: Asia Content

**HIST 3012 (3) Seminar in Modern European History**

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires prerequisite course HIST 3020 (minimum grade C-). Restricted to students with 87-180 credits (Senior, Fifth Year Senior) History (HIST) majors (excludes minors).

**Recommended:** History GPA of 2.0 or higher.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: Europe: Modern

**HIST 3018 (3) Seminar in Latin American History**

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires prerequisite course HIST 3020 (minimum grade C-). Restricted to students with 87-180 credits (Senior, Fifth Year Senior) History (HIST) majors (excludes minors).

**Recommended:** History GPA of 2.0 or higher.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: World Areas: Specific Regions

**HIST 3020 (3) Historical Thinking & Writing**

Develops the research techniques and habits of mind required to succeed in the History major, honing students' critical, analytical, and synthetic skills while introducing them to History as a discipline and a way of understanding the world. Students practice the kinds of writing required in upper-division History classes. Topics will vary.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires prerequisite courses of ARSC 1080 or 1150 or CLAS 1020 or ENGL 1001 or PHIL 1500 or WRTG 1100 or 1150 or 1250 (all min grade C-). Restricted to students with 27-180 credits (Soph, Jr, or Sr) HIST majors only.

**Additional Information:** Arts Sci Core Curr: Written Communication

Arts Sci Gen Ed: Distribution-Arts Humanities

Arts Sci Gen Ed: Written Communication-Upper

Departmental Category: Methodological, Comparative, and Global

**HIST 3109 (3) Seminar in Asian History**

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires prerequisite course HIST 3020 (minimum grade C-). Restricted to students with 87-180 credits (Senior, Fifth Year Senior) History (HIST) majors (excludes minors).

**Recommended:** History GPA of 2.0 or higher.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities

Departmental Category: World Areas: Comparable and General

Departmental Category: Asia Content

**HIST 3110 (3) Honors Seminar**

Practical historiography for students who wish to write a senior honors thesis. Emphasizes choice of topic, critical methods, research, organization, argumentation, and writing.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Requires prerequisite course HIST 3020 (minimum grade C-). Restricted to students with 87-180 credits (Senior, Fifth Year Senior) History (HIST) majors (excludes minors).

**Recommended:** History GPA of 2.0 or higher.

**Additional Information:** Arts Sciences Honors Course

**HIST 4013 (3) Law and Society in Premodern England to 1688**

Examines the origins and developments of English legal and political institutions, including kingship, the common law, procedure and the court and jury system and sets such developments in the context of broader social and religious changes from the Anglo-Saxon period to the 17th century. Emphasizes the implications of these institutions for the development of contemporary American, English and British colonial legal systems.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 5013

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1011 or HIST 1113.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Europe: Specific Countries

**HIST 4018 (3) Aztecs, Incas, and the Spanish Conquest of the Americas**

Building upon contemporary texts and modern histories of both famous and ordinary people, this course examines the indigenous empires known as the Aztecs and the Incas. It also examines the encounter of Europeans and native people, following the history of exploration and conquest from the time of Columbus to about 1550. Equal consideration is given to the course's three components: Aztec, Inca and the Spanish conquest.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1018 or HIST 3020.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: World Areas: Specific Regions

**HIST 4020 (3) Topics in Comparative History**

Explores historical themes from a comparative perspective. Encourages students to think more analytically about historical change. Consult current online schedule for specific topics. Often team-taught by more than one faculty.

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite two 4000-level History courses in differing content areas.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Methodological, Comparative, and Global

**HIST 4021 (3) Athens and Greek Democracy**

Studies Greek history from 800 B.C. (the rise of the city-state) to 323 B.C. (the death of Alexander the Great). Emphasizes the development of democracy in Athens. Readings are in the primary sources.

**Equivalent - Duplicate Degree Credit Not Granted:** CLAS 4021 and CLAS 5021

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Europe: Ancient and Medieval

**HIST 4031 (3) Alexander the Great and the Rise of Macedonia**

Covers Macedonia's rise to dominance in Greece under Philip II and the reign and conquests of Alexander the Great.

**Equivalent - Duplicate Degree Credit Not Granted:** CLAS 5031 and CLAS 4031

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite CLAS 1051 or CLAS 1509 or CLAS 2039 or CLAS 4139 or CLAS 4149 or CLAS 2041 or CLAS 4021 or CLAS 4041 or HIST 1051 or GREK 3113.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Europe: Ancient and Medieval

**HIST 4040 (3) The History of Space Exploration and Defense**

This course examines the development and impact of American, Soviet/Russian, and European civilian and military space activities from the dawn of the space age to the space challenges of the 21st century.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Methodological, Comparative, and Global

**HIST 4041 (3) Classical Greek Political Thought**

Studies main representatives of political philosophy in antiquity (Plato, Aristotle, Cicero) and of the most important concepts and values of ancient political thought. No Greek or Latin required.

**Equivalent - Duplicate Degree Credit Not Granted:** CLAS 4041 and CLAS 5041 and PHIL 4210

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Europe: Ancient and Medieval

**HIST 4050 (3) A Global History of World War II**

Examines World War II in a global perspective. This era witnessed transformations in the social, political and economic orders across the globe. Traces the domestic and international developments, including military issues, that shaped the period in Europe, Asia, Africa and North America and assesses the war's legacy.

**Requisites:** Requires prerequisite course of HIST 1012 or 1025 or 1028 or 1123 or 1228 or 1308 or 1528 or 1628 or 1708 or 1800 or 1828 (minimum grade D-). Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Methodological, Comparative, and Global  
Departmental Category: Asia Content

**HIST 4053 (3) Britain and the Empire, 1688-1964**

Examines the external polity of Great Britain from 1688 to 1964 in Europe, the East, Africa and the Americas.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 5053

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Europe: Specific Countries

**HIST 4061 (3) Twilight of Antiquity**

Explores the reasons for the fall of the Roman Empire in the western Mediterranean and its survival in the east as Byzantium. Emphasizes Christianity; barbarians; social, economic and cultural differences; contemporary views of Rome; and modern scholarship. No Greek or Latin is required.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 5061 and CLAS 4061 and CLAS 5061

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Europe: Ancient and Medieval

**HIST 4071 (3) Seminar in Ancient Social History**

Considers topics ranging from demography, disease, family structure, and the organization of daily life to ancient slavery, economics, and law. Focuses either on Persia, Greece, or Rome and includes a particular emphasis on the methodology required to reconstruct an ancient society, especially the interpretation of problematic literary and material evidence, and the selective use of comparisons with better known societies. No Greek or Latin required.

**Equivalent - Duplicate Degree Credit Not Granted:** CLAS 4071 and CLAS 5071

**Repeatable:** Repeatable for up to 9.00 total credit hours.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Europe: Ancient and Medieval

**HIST 4081 (3) The Roman Republic**

Studies the Roman Republic from its foundation in 753 B.C. to its conclusion with the career of Augustus. Emphasizes the development of Roman Republic government. Readings are in the primary sources. No Greek or Latin required.

**Equivalent - Duplicate Degree Credit Not Granted:** CLAS 4081 and CLAS 5081

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Europe: Ancient and Medieval

**HIST 4091 (3) The Roman Empire**

Studies Imperial Roman history beginning with the Roman Revolution and ending with examination of the passing of centralized political authority in the western Mediterranean. Emphasizes life, letters and personalities of the Empire.

**Equivalent - Duplicate Degree Credit Not Granted:** CLAS 4091 and CLAS 5091

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Europe: Ancient and Medieval

**HIST 4101 (3) Greek and Roman Slavery**

Surveys slavery in ancient Greece and Rome beginning with its growth, economics and political effects, moving to the life experiences of slaves, resistance and revolt, and finishing with the ideology of slavery. Focuses throughout on the challenge of understanding classical slavery on the basis of scattered and biased evidence and on the controversies that have surrounded this topic.

**Equivalent - Duplicate Degree Credit Not Granted:** CLAS 4101

**Grading Basis:** Letter Grade

**Additional Information:** Arts Sci Gen Ed: Diversity-Global Perspective

**HIST 4109 (3) World War II in Asia and the Pacific**

For Asia, World War II began with the Mukden Incident (1931), resulting in the Japanese domination of Manchuria and leading to a full-scale war between China and Japan in 1937. Only after the Japanese attacked the U.S. Pacific fleet at Pearl Harbor four years later did the United States enter the war. Discusses the various socioeconomic and political factors leading to the war in Asia, examines the nature of the conflict on the Asian mainland and in the Pacific, and assesses legacy of the war on all those involved.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: World Areas: Comparable and General Departmental Category: Asia Content

**HIST 4116 (3) History of U.S. Foreign Relations, 1865-1940**

Traces the rise of the United States to world power. Explores the interactions of expansionist and isolationist impulses with politics, ideology, culture and economics, with a focus on the Spanish American War and the acquisition of empire, World War I and the coming of World War II.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 5116

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: United States: Topical Courses 1

**HIST 4117 (3) Colorado History**

Presents the story of the people, society, culture, and environment of Colorado from the earliest Native Americans, through the Spanish influx, the fur traders and mountain men, the gold rush, railroad builders, the cattlemen and farmers, the silver boom, the twentieth-century tourists, city-dwellers, workers and activists. Highlights the historical origins of twenty-first century institutions, problems, challenges, and opportunities.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1015 or HIST 1025.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: United States: Topical Courses 2

**HIST 4118 (3) History of Mexico to 1821**

Studies Mexican history beginning with roots and evolution of pre-Columbian civilizations and concluding with the events of Mexican independence in 1821. Emphasizes society and culture of the Aztecs and Mayans, the Spanish conquest of Mexico, and the colonial regime of New Spain.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: World Areas: Specific Regions

**HIST 4122 (3) Europe During the Renaissance**

Explores the history and culture of Western Europe, 1300-1520. Comprehensive in scope, with analysis of political, economic, social, religious, intellectual and artistic matters. Discusses significance of the Renaissance for origins of modern civilization.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1011.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities Departmental Category: Europe: Modern

**HIST 4123 (3) Medieval England**

Treats the major developments in English history from the Anglo-Saxon period through the 15th century. Emphasizes late medieval English society during the 13th and 14th centuries.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1011 or HIST 1113.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Europe: Specific Countries

**HIST 4125 (3) Early American History to 1763**

Explores the colonial era of American history from the pre-Columbian period to the end of the Seven Years' War. Topics include pre-contact Native societies, exploration, European settlement and Native American responses, labor system and the rise of slavery, imperial wars, and the developments in religion, society, politics and culture.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 5125

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: United States: Chronological Periods

**HIST 4126 (3) History of U.S. Foreign Relations Since 1941**

Traces the development of the United States as a superpower. Details American power and diplomacy in World War II and the rise of the national security state in the Cold War. Explores the Korean, Vietnam and Persian Gulf Wars, and the era of modern-day globalization.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 5126

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: United States: Topical Courses 1

**HIST 4128 (3) The History of Modern Mexico Since 1821**

Centers on the Mexican search for political consolidation and stability through the 19th, 20th and 21st centuries. Focuses on the Mexican Revolution (1910-1940) and the post revolutionary rule of the Institutional Revolutionary Party. Examines the War on Drugs and the causes of Mexican migration to the United States.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 5128

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1028 or HIST 3020.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: World Areas: Specific Regions

**HIST 4131 (3) The Origins of Christianity**

Surveys the sources for the development of ancient Christianity from the ministry of Jesus Christ to the conversion of the emperor Constantine in the early 4th century. Through lectures and a close reading of primary source materials in translation, students will examine the social activity and theological development of early Christians in their Roman and Jewish context.

**Requisites:** Requires prerequisite course of HIST 1011 or HIST 1061 or HIST 2170 or CLAS 1061 (minimum grade C-). Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Europe: Ancient and Medieval

**HIST 4133 (3) The Tudors: British History 1485-1603**

Deals with the history of England from 1485 to 1603. Examines patterns of daily life, the impact of the Reformation and the Renaissance and the development of Parliament and the monarchy under the Tudor rulers, especially Henry VIII and Elizabeth.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1011 or HIST 1113.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Europe: Specific Countries

**HIST 4143 (3) The Making of Great Britain: British History 1603-1714**

Covers the history of the British Isles from 1603 to 1714, the era of the English Civil War and the Glorious Revolution. Traces economic and social relationships, cultural change and religious and political conflict under the Stuart monarchs.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1011 or HIST 1012 or HIST 1113 or HIST 1123.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Europe: Specific Countries

**HIST 4146 (3) U.S. Military History since 1898**

Examines America's national defense and war efforts from the Spanish American War to the present, emphasizing causes and consequences of modern conflicts, and the impact of military activities on American society.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1025.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: United States: Topical Courses 1

**HIST 4158 (3) History of Modern Brazil**

Surveys the post independence history of 19th and 20th century Brazil. Looks at the development of Brazilian nationalism and political institutions and focuses heavily on race, ethnicity, gender and sexuality in Brazil, understanding how different peoples have settled and accommodated themselves to the Brazilian environment. Finally, it will look at Brazilian economic development and its consequences at the beginning of the 21st century.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: World Areas: Specific Regions

**HIST 4166 (3) The Vietnam War in Politics and Culture**

Examines America's second-longest and most divisive war from the beginning of the U.S. involvement in the 1950s to the repercussions echoing into the 1980s. Considers the global context, motives, and evolution of U.S. involvement, support for and opposition to the war at home, the war's repercussions in international policy and domestic politics, and representations of the war in popular culture.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 2166

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: United States: Topical Courses 1  
Departmental Category: Asia Content

**HIST 4190 (3) French Connections: Contemporary France and America in Historical Context**

Faculty-led Global Seminar, based in Bordeaux, France provides an opportunity to compare French history and contemporary culture, economy, and culture to that of the United States. Lectures in Boulder and Bordeaux are supplemented by interactions with officials, scholars, business leaders, interest groups, and organizations in France. Offered through Study Abroad.

**Equivalent - Duplicate Degree Credit Not Granted:** IAFS 3500

Departmental Category: Methodological, Comparative, and Global

**HIST 4205 (3) The Colonial Wars and the Coming of American Independence, 1739-1776**

Investigates imperial warfare and its effects during the late colonial period, concentrating on the French and Indian War (1754-1763), the disruption of Anglo-American relations and the origins of the War of American Independence (1775-1783).

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 5205

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: United States: Chronological Periods

**HIST 4207 (3) The American West to 1800**

Addresses the history of the early West until 1800. Probes the origins of the first Americans, early cultures and civilizations, and the consequences of Spanish, French, and Russian colonization. Topics addressed include warfare, disease, diplomacy, environmental change, missionary enterprises, captives, gender, and the slave trade.

**Recommended:** Prerequisite HIST 1015.

**HIST 4212 (3) The Age of Religious Wars: Reformation Europe, 1500-1648**

Traces the history of Europe from the end of the Hundred Years War through the Thirty Years War. During this period Europe experienced tremendous changes including emerging religious heresies, the advent of the Spanish Inquisition, violent civil wars, the witch craze, and the Thirty Years War, a precursor to the World Wars of the 20th century.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1011 or HIST 1113.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Europe: Modern

**HIST 4215 (3) The Revolutionary War and the Making of the American Republic, 1775-1801**

Investigates the Revolutionary War and its impact on the creation of American political institutions, as well as its cultural, social and economic effects, from the Battles of Lexington and Concord through the inauguration of Thomas Jefferson.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 5215

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: United States: Chronological Periods

**HIST 4217 (3) The American West in the 19th Century**

Explores cultural, social and political interaction in the American West during the 19th century. Themes include environmental change; conflict and syncretism across race, class, and gender lines; mythic images, and their relationship to the "Real" West.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1015 or HIST 1025.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: United States: Topical Courses 2

**HIST 4218 (3) Lost Kingdoms & Caliphates: West Africa to 1900**

Investigates the formation and dissolution of West Africa's kingdoms, caliphates and stateless societies during the era of the trans-Atlantic and trans-Saharan slave trades. Through a survey of oral and written sources, this course examines West Africa's geopolitical transformation in warfare, jihad, trade and slavery, especially in relation to the African Diaspora to the Americas and Muslim world.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-Global Perspective

Departmental Category: World Areas: Specific Regions

**HIST 4222 (3) War and the European State, 1618-1793**

Studies the development of the European states in response to international power struggles in the 17th and 18th centuries (up to the French Revolution).

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 5222

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Europe: Modern

**HIST 4223 (3) The French Revolution and Napoleon**

Traces the origins, course, and consequences of the most important modern revolution, the French Revolution of 1789. While seeking to explain how a liberal movement for progressive change soon degenerated into the factional bloodbath of the Terror, will also examine the revolution's global impact and how three decades of revolutionary warfare lead to the rise and fall of Napoleon Bonaparte.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 5223

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Europe: Specific Countries

**HIST 4227 (3) The American West in the 20th Century**

Explores cultural, social, and political interaction in the American West during the 20th century. Themes include popular culture, state-federal relationships, environmental change, urbanization, immigration, and cultural formation.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1025.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: United States: Topical Courses 2

**HIST 4232 (3) From Absolutism to Revolution in Europe, 1648-1789**

Studies the history of Europe from the end of the Thirty Years War through the outbreak of the French Revolution. Central themes include the establishment of more centralized, increasingly bureaucratic states; global expansion and economic commercialization; cultural developments such as the Scientific Revolution and the Enlightenment.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1012 or HIST 1123.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Europe: Modern

**HIST 4233 (3) History of France since 1815**

Examines the ongoing struggle between the revolutionary and counter-revolutionary traditions of France and how it shaped the political history and affected the social, cultural and intellectual character of the nation from 1815 to the present.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1012.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Europe: Specific Countries

**HIST 4235 (3) Jacksonian America**

Focuses on the social and cultural history of the Jacksonian Era. Issues include the transformation of the market economy, slavery, moral reform, Indian removal, changes in ideas about men's and women's natures and roles, western expansion, and political culture.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 5235

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1015.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: United States: Chronological Periods

**HIST 4238 (3) History of Southern Africa**

Examines the history of southern Africa history from the earliest times to the present. Short background readings and lectures cover southern African's history and class discussions of novels are layered over these basics. Topics of study include Cecil Rhodes and the diamond/gold mines; Shaka and the Zulu "nation"; apartheid; Nelson Mandela and the anti-apartheid movement; issues facing South Africa today.

**Requisites:** Requires prerequisite course of HIST 1218 or 1228 or 3109 or 4258 or 4218 or ANTH 1150 or ANTH 3100 or ANTH 4630 or GEOG 3862 or PSCI 3082 or WGST 3712 (minimum grade C-). Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-Global Perspective  
Departmental Category: World Areas: Specific Regions

**HIST 4258 (3) Africa under European Colonial Rule**

Looks at the British, French, Portuguese and German empires that undertook the "Scramble for Africa" in the late 19th century. Themes include slavery and the slave trade; colonization and "pacification"; African resistance to European rule; missionaries and converts; decolonization and anti-colonial uprisings; issues facing Africa today, including oil, war and the Rwandan genocide.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1218 or HIST 1228 or HIST 3020 or ANTH 1150 or ANTH 3100 or ANTH 4630 or GEOG 3862 or PSCI 3082.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-Global Perspective  
Departmental Category: World Areas: Specific Regions

**HIST 4303 (3) Venice and Florence during the Renaissance**

Comparative urban study of Florence and Venice from 13th through 16th centuries. Principal subjects are the distinctive economies of the cities, political developments, Renaissance humanism, patronage of the arts, and foreign policy.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 5303

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1011.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Europe: Specific Countries

**HIST 4312 (3) 19th Century Europe**

Concerned with major social, political and cultural developments in Europe from circa 1800 to the outbreak of World War I. Special emphasis is placed upon the Napoleonic experience, the rise of modern nationalism, romanticism, Darwinism and its social applications, the Industrial Revolution, imperialism, the emergence of modern ideologies, and the background of World War I.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1012.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Europe: Modern

**HIST 4313 (3) History of Modern Italy**

Examines the major historical, economic and social factors that have shaped the identity of modern Italy, from the enthusiasm of young patriots during Italy's unification in the 1860s to the discontent and domestic terrorism of the 1960s-1980s. Focuses on Mussolini, the Fascist movement and on World War II, as well as the changing role of women. Taught in English.

**Equivalent - Duplicate Degree Credit Not Granted:** ITAL 4250

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Europe: Specific Countries

**HIST 4315 (3) Civil War and Reconstruction**

Describes the forces at work in the antebellum period that led to sectional warfare; social, economic, and political changes effected by the war; the American agony of reconstruction; and the long-range results of that difficult era.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1015.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: United States: Chronological Periods

**HIST 4320 (3) The History of the Mediterranean, 600 CE-1600 CE**

Familiarizes students with the Mediterranean ecumene covering concepts such as the Renaissance, the Crusades, traders and travelers, religions and cities. Explores both conflicts (military, confessional) and exchanges (commercial, artistic, scientific) thus helping students think cross culturally, comparatively and thematically. Emphasizes the Mediterranean contribution to historical developments of western Europe, the Middle East, and North Africa.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1011 or HIST 1061 or HIST 1308 or HIST 4061 or HIST 4071 or HIST 4081 or HIST 4091 or HIST 4711.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-Global Perspective  
Departmental Category: Methodological, Comparative, and Global

**HIST 4323 (3) Mafia and Terrorism: Organized Violence in Italy**

Investigates the origins and development of the Sicilian Mafia and Political Terrorism in Italy. In the first part of the course, the context of Italian politics, economy and society in which the mafia was born and flourished in the 19th and 20th century will be explored. The ramification of the Mafia in the United States in the 20th c. will also be studied.

In the second part of the course, the political and social causes of Italian left and right wing Terrorism will be examined, starting from the Piazza Fontana slaughter (1969) until the murder of Professor Marco Biagi (2002). Particular attention will be devoted to the kidnapping and murder of Democratic Christian Party President Aldo Moro and to the Red Brigades terrorist movement. The role of women in both Mafia and Terrorism will be explored.

**Requisites:** Restricted to students with 57-180 credits (Juniors or Seniors).

**HIST 4326 (3) Epidemic Disease in US History**

Focuses on the impact of infectious epidemic disease on American history, from smallpox and cholera to influenza, AIDS and Ebola. Addresses early depopulation of the Americas; contagion and social upheaval; interpretations of pestilence; social construction of disease; urbanization; doctors and alternative practitioners; public health; prejudice and infection; the ethics of quarantine; public versus individual interests; and the paradox of prevention.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-U.S. Perspective  
Departmental Category: United States: Topical Courses 1

**HIST 4328 (3) The Modern Middle East, 1600 to the Present**

Primarily from 1800 to the present. Attention divided equally between the region's political history and international relations and its patterns of economic, social and cultural modernization in the main countries.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 5328

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1308.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: World Areas: Specific Regions  
Departmental Category: Asia Content

**HIST 4329 (3) Islam in the Modern World: Revivalism, Modernism, and Fundamentalism, 1800-2001**

Examines the more important movements of reform in Muslim world (including Africa, the Middle East and India) from the 18th century to the present, and their origins and intellectual import. Due to the trans-regional nature of this broad movement of reform, particular attention is paid to how these movements related to local political, economic and social contexts, and how they, in turn, moved across larger networks of oceanic commerce and trade. Concludes with extended case studies of Islamic reformism in modern Egypt and India, and their ultimate influence on the politics of contemporary Islamist movements, especially the intellectual position of Ussama B. Ladin.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1308.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: World Areas: Comparable and General  
Departmental Category: Asia Content

**HIST 4336 (3) Nineteenth-Century American Thought and Culture**

Examines the emergence of intellectual traditions and cultural trends in their social and political contexts from the early republic to the beginning of the modern era. Addresses developing arguments about democracy, religion, transcendentalism, gender, race, union/disunion, the Darwinian revolution, utopia/dystopia realism and naturalism in literature and the arts.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: United States: Topical Courses 1

**HIST 4338 (3) History of Modern Israel/Palestine**

Explore the history culture, and politics of this crossroads of Europe and Asia from the late Ottoman period to the present. Topics include: nationalism and colonialism, development of Zionist ideology, Palestinian nationalism, the Jewish community (Yishuv) under British rule, the founding of the State of Israel, Arab-Israeli and Palestinian-Israeli relations, Israel's minorities, and the conflict of religion and state.

**Equivalent - Duplicate Degree Credit Not Granted:** JWST 4338

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1818 or JWST 1818 or HIST 1828 or JWST 1828 or HIST 1308 or JWST 2350 or other course work in Middle Eastern or Jewish History.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: World Areas: Specific Regions  
Departmental Category: Asia Content

**HIST 4339 (3) Borderlands of the British Empire**

Examines the development of the borderlands of the British empire through imperial expansion, consolidation, and early decolonization. Focuses on the 19th and early 20th centuries. Topics include domination, resistance and negotiation in areas such as India, Afghanistan, the Palestine Mandate. Aims for students to acquire skills in comparative history and to develop a better understanding of the roots of contemporary conflicts.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 5339

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1012 or HIST 1123 or HIST 1228 or HIST 1308 or HIST 1528.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-Global Perspective  
Departmental Category: World Areas: Comparable and General  
Departmental Category: Asia Content

**HIST 4343 (3) Spain and Portugal during the Golden Age**

Surveys the history of Spain and Portugal from the late medieval period through early modern period. Explores the thought, art, politics and socio-economic milieu of the Golden Age. Topics include attitudes toward minorities, the Inquisition, the Age of Exploration and the establishment of colonial empires in Asia and the Americas, court culture and architecture, religious conflicts and literary production. Formerly HIST 4064.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 5343

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1011 or HIST 1018.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Europe: Topical

**HIST 4346 (3) Twentieth-Century American Thought and Culture**

Examines the emergence of intellectual traditions and cultural trends in their social and political contexts from the beginning of the modern era through the onset of the postmodern. Addresses developing arguments about democracy, science, race, gender, faith, American identity, radicalism and conservatism, modernist thinking and artistic expression, and the role of intellectuals in society.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: United States: Topical Courses 1

**HIST 4348 (3) Topics in Jewish History**

Covers topics in Jewish history from biblical beginnings to present day. Topics vary each semester. Consult the online Schedule Planner for specific topics.

**Equivalent - Duplicate Degree Credit Not Granted:** JWST 4348

**Repeatable:** Repeatable for up to 6.00 total credit hours.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1818 or JWST 1818 or HIST 1828 or JWST 1828 or HIST 1308 or JWST 2350 or other course work in Middle Eastern or Jewish History.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: World Areas: Specific Regions

**HIST 4349 (3) Decolonization of the British Empire**

Examines the end of the British Empire. Focuses on connections between imperial territories, such as networks of anticolonial activists and links between British decision makers. Students will acquire research skills and develop a better understanding of the roots of contemporary conflict. Prior coursework in British imperial history and excellent writing skills are required.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 5349

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1123 or HIST 1228 or HIST 1308 or HIST 1528 or HIST 4053 or HIST 4238 or HIST 4258 or HIST 4328 or HIST 4329 or HIST 4338 or HIST 4339 or HIST 4538 or HIST 4548 or HIST 4558.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: World Areas: Comparable and General

**HIST 4359 (3) The Global History of Modern Arabia**

Examines the history, politics and society of the countries of the Arabian Peninsula (modern day Saudi Arabia, Oman, Yemen, Bahrain, Qatar and the UAE) in the period between 1800 and the present. The guiding assumption will be that the histories of Arabia cannot be studied in isolation from broader histories of capital formation, imperialism, religious reform, state formation and the discourses and practices which they informed. To that end, the focus will be on Arabia as part of the British, Ottoman and Omani Empires, a participant in Indian Ocean commerce, a source and destination for migrant scholars, students and laborers, the center of the petroleum economy and a domain of struggle for activists and intellectuals representing multiple political/ideological currents-not only Islamist, but also, liberal, socialist and communist.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Arts Sci Gen Ed: Diversity-Global Perspective  
Departmental Category: World Areas: Comparable and General

**HIST 4366 (3) Culture Wars: Modernism, Mass Culture, and the Modern U.S.**

Examines how U.S. public moralists, intellectuals, and artists from the end of the nineteenth century to World War II both celebrated and attacked the rise of two characteristic features of modernity: mass culture (amusement parks, popular music, radio, movies), and modernist literary and artistic expression. Addresses how Americans both constructed and violated the line between "popular" and "high" culture.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1025.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: United States: Topical Courses 1

**HIST 4378 (3) History of Modern Jewish-Muslim Relations**

Examines the modern history and culture of Jewish communities under Islamic rule in the Middle East and North Africa; Jews' and Muslims' encounters with empire, westernization and nationalism; representations of Sephardi and Eastern Jews; Jewish-Muslim relations in Europe and the U.S.; and contact and conflict between Jews and Muslims in (and about) Israel/Palestine. Sources include memoirs, diaries, newspapers and films.

**Equivalent - Duplicate Degree Credit Not Granted:** JWST 4378

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: World Areas: Specific Regions  
Departmental Category: Asia Content

**HIST 4412 (3) Europe, 1890-1945**

Examines the origins, character and significance of the First and Second World Wars for the major nations of Europe during the first half of the 20th century.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1012.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Europe: Modern

**HIST 4414 (3) European Thought and Culture, 1750-1870**

Explores major developments in European thought from the Enlightenment to Nietzsche. Special attention given to the individuals whose ideas have had the greatest influence on modern intellectual history, e.g., Rousseau, Hegel, Herder, Marx, Kierkegaard, Baudelaire, Darwin, and others.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Europe: Topical

**HIST 4415 (3) Teddy Roosevelt's America - the U.S. from 1877 to 1917**

Examines the social, economic, political, and cultural history of the United States from the end of Reconstruction to the eve of World War I. Topics include the struggles of labor and industry, race and immigration, western and environmental issues, city life and new technologies, feminism and Progressivism, and Indian wars and imperialism.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1015 or HIST 1025 or ENV5 1000.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: United States: Chronological Periods

**HIST 4416 (3) Environmental History of North America**

Examines how people of North America, from precolonial times to the present, interact with, altered, and thought about the natural world. Key themes include Native American land uses; colonization and ecological imperialism; environmental impacts of food and agriculture; industrialization, urbanization and pollution; energy transitions; cultures of environmental appreciation; the growth of the conversation and environmental movements.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: United States: Topical Courses 1

**HIST 4422 (3) World War I in Europe**

Examines the origins of World War I; the military, social and cultural character of the conflict; and its enduring impact in the post-1918 world. By thinking about the war as both a military undertaking and an experience that affected domestic and global politics, the course will explore why World War I constituted an event of major importance to Europe and the 20th century world.

**Equivalent - Duplicate Degree Credit Not Granted:** HIST 5422

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1012.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Europe: Modern

**HIST 4423 (3) German History 1848-1989: Weimar Republic, Nazism, State Socialism**

Cultural, political and social history of Germany from the Revolutions of 1848 to the Fall of the Berlin Wall in 1989. Emphasizes German unification & Bismarck, the effects of World War I, Weimar politics, the rise of Nazism, World War II and the Holocaust, the post-war paths of West and East Germany, and reunification.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1012.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Europe: Specific Countries

**HIST 4424 (3) Modern European Thought and Culture, 1870-Present**

Emphasizes Nietzsche and the youth revolt against middle class society, the literary and artistic avant garde (impressionism to existentialism), the psychoanalytic movement, the European right and left, and post-WWII European thought.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Europe: Topical

**HIST 4425 (3) United States History, 1917-1945**

Examines U.S. history from World War I through World War II. Key themes include: warfare; the rise of the modern state; consumer culture; the shift from conservative politics to the New Deal liberalism; the women's movement; immigration restriction; segregation; the Great Migration, and civil rights; conflicts between secular modernism and religious fundamentalism; and new technologies such as the automobile.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1025.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: United States: Chronological Periods

**HIST 4433 (3) Nazi Germany and the Holocaust**

Focuses on the political, social, and cultural origins of National Socialism, the nature of the Nazi regime, the origins and course of the Second World War, and the perpetration of the Holocaust.

**Requisites:** Restricted to students with 87-180 credits (Senior, Fifth Year Senior).

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Europe: Specific Countries

**HIST 4435 (3) From the Cold War to the Counterculture: U.S. History 1945-73**

Analyzes high politics, grassroots movements, and cultural change in the years of unprecedented economic prosperity and rapid change after WWII. Explores the foreign and domestic politics of the Cold War; labor unionism; the Vietnam War; the Civil Rights, antiwar, and women's rights movements; and technocultural changes like the rise of television and the growing dominance of the automobile.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1025.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: United States: Chronological Periods

**HIST 4437 (3) African American History, 1619--1865**

Explores the history of Africans in America from the first arrivals to emancipation, and their role in the social, cultural, economic, and political evolution of the United States.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1015.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: United States: Topical Courses 2

**HIST 4442 (3) Europe since 1945**

Explores Europe from the end of World War II through the present day. Topics include postwar reconstruction; the cold war; anticommunist opposition and new social movements; consumer culture and punk music; the fall of communism; the Yugoslav wars; European unity.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1012.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Europe: Modern

**HIST 4444 (3) Topics in Modern European Thought**

Explores a selected theme in European thought since the Enlightenment. Topics vary each term.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Europe: Topical

**HIST 4445 (3) United States History since 1973**

Traces political, diplomatic, economic, and social developments in the United States from 1973 to the present.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1025.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: United States: Chronological Periods

**HIST 4448 (3) World War II in Southeast Asia**

Examines World War II in Southeast Asia, emphasizing the political, social, economic, cultural, and ideological impact of the conflict. How can we define Southeast Asia? In what ways did conflict affect men and women, soldiers and civilians, and ethnic, religious, and sexual communities? How can we understand the war as a local, regional, and global experience, with legacies for today?

**HIST 4454 (3) Jewish Thought in Modern History**

Takes students on a journey from Medieval Spain to contemporary United States to explore how Jews, living in different societies, have attempted to reshape and interpret central Jewish values and beliefs in accordance with the prevailing ideas of their host societies. Focuses on the historical context of each Jewish society that produced the thinkers and ideas considered in this course.

**Equivalent - Duplicate Degree Credit Not Granted:** JWST 4454

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Europe: Topical

**HIST 4511 (3) Europe in the Dark Ages (400-1000 A.D.)**

Examines the history of Europe from the fall of the Roman Empire to the turn of the first millennium. Treats social, political and religious transformations in the barbarian kingdoms, and considers the persistence of Roman institutions and culture and the impact of Christianity in northern Europe.

**Requisites:** Restricted to students with 27-180 credits (Sophomores, Juniors or Seniors) only.

**Recommended:** Prerequisite HIST 1011 or HIST 2170.

**Additional Information:** Arts Sci Gen Ed: Distribution-Arts Humanities  
Departmental Category: Europe: Ancient and Medieval

**HIST 4526 (3) Immigrants, Workers and the 1 percent - Recent U.S. Social History**

In the 21st century we see a widely divided U.S. society, with a privileged "one percent" on one end, and a striking pattern of poverty on the other. How did the U.S. get this way? This course shows students how to explore social change through the people of the 20th century, their experiences, and the words they left behind.
